- On September 6, 2019, City Council held an Affordable Housing Work Session and discussed the realities of local affordable housing needs, barriers to building affordable housing and the role of the City in the development of affordable, mixed-income communities.
- At this meeting staff also tested and Council agreed to support the staff's recommendation to do the following:
  - evaluate funding streams for affordable housing to include mission driven developers and social equity funders;
  - approve a policy for the disposition of City-owned Land for affordable housing;
  - evaluate update and approve regulations around zoning & housing to include a mix of housing types; and,
  - continue to be the Collaborator / Convenor for affordable housing.

Council Goal(s):

- Well Planned and Livable Community
- Quality Affordable Housing

Committee(s):

- Affordable Housing Advisory Committee - provided feedback and suggested changes.
- Housing & Community Development Committee reviewed the item at their April 2019 meeting and provided feedback and suggested changes.

Pro(s):

- Policies will enhance transparency and provide a clear process for developing City land for affordable housing.
- Policies set forth goals for creating affordable housing and achieve other community benefits.

Con(s):

- None

Fiscal Impact:

- The policy sets forth that all funds received from the sale of City land for affordable housing will be designated to be used for affordable housing. This does not apply to

properties that were acquired with Enterprise Funds or properties sold for purposes other than to support affordable housing.

When Vice-Mayor Wisler asked how will we make sure the developer adheres to the requirements, City Attorney Branham said that we have very strong effective, well-used legal tools, regardless of rental or sale.

Vice-Mayor Wisler suggested an annual report be provided to the Housing & Community Development Committee on how many affordable units we have that report to the City.

Ms. Nina Tovish urged Council to be proactive in seeking affordable housing on City property for more than 20 years.

Councilwoman Mayfield said that she is confident our staff has looked to maximize our land for affordable housing.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to approve a resolution to adopt a policy for developing City-owned land for affordable housing entitled "Policies for Implementing Affordable Housing on City-owned Land." This motion was seconded by Councilwoman Smith and carried unanimously.

RESOLUTION BOOK NO. 40 – PAGE 100

B. RESOLUTION NO. 19-230 - RESOLUTION APPOINTING A MEMBER TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Buncombe County Tourism Development Authority.

The term of Jim Muth, as a member of the Buncombe County Tourism Development Authority, (owner or operator of a hotel, motel, bed & breakfast, or vacation rental management company with less than 100 rental units), will expire August 30, 2019.

The following individuals applied for these vacancies: Pratik Bhakta and James Poole.

On August 27, 2019, the Boards & Commissions Committee recommended interviewing both candidates

After Council spoke highly of both candidates, Pratik Bhakta received 1 vote, and James Poole received 6 votes. Therefore, James Poole was appointed as a member of the Buncombe County Tourism Development Authority, (owner or operator of a hotel, motel, bed & breakfast, or vacation rental management company with less than 100 rental units), to serve a three-year term, term to expire August 30, 2022, or until his successor has been appointed.

RESOLUTION BOOK NO. 41 – PAGE 111

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Susan Sertain spoke about the need for stricter tree policies with fines being enforced.

Ms. Vicky Meath, Director of Just Economics, spoke about the need of the transit capacity benchmarks.

Results of the September 19, 2019, Civil Service Board Employee Election

One copy of the results of the Civil Service Board employee election held on September 19, 2019, is to be filed with the City Manager and one with the City Clerk, who shall present such certification to the City Council at its next regular meeting. The Board of Canvassers provided the following certified certificate on September 20, 2019: We do hereby certify, having opened, canvassed, and determined the original returns of the Civil Service Board employee election, the results of the Civil Service Board Employee Election held on September 19, 2019, noting the name of each person voted for and the number of votes cast for each person as follows: Alan Escovitz - 44; Mike Hahn - 48.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:43 p.m.

Magdalen Burleson
CITY CLERK

Edwin M. Manheimer
MAYOR

Tuesday – October 22, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING OCTOBER 22, 2019, AS "DEERFIELD RESIDENTS APPRECIATION DAY"

Mayor Manheimer read the proclamation proclaiming October 22, 2019, as "Deerfield Residents Appreciation Day" in the City of Asheville for their proactive commitment to being a part of the solution to addressing the City's affordable housing needs. She presented the proclamation to Bob Wernet, President and CEO of Deerfields, and members of the Deerfield Community.

B. PROCLAMATION PROCLAIMING NOVEMBER 1, 2019, AS "SENIOR SUFFRAGE CENSUS KICKOFF DAY"

Councilman Haynes read the proclamation proclaiming November 1, 2019, as "Senior Suffrage Census Kickoff Day " in the City of Asheville. He presented the proclamation to Ms. Jane White. along with lead supporters MinnieJones Health Care, GO, WNC4 Peace, Veterans for Peace, Medicare 4 all WNC, Nurses United Supporters, NAACP and No Wheels of Bartlett Arms, who briefed City Council on some activities taking place during the day.

CONSENT AGENDA:

Mayor Manheimer announced that Consent Agenda Item E has been removed from consideration.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 24, 2019

B. RESOLUTION NO. 19-231 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, THE 2019 EDWARD BYRNE JUSTICE OF ASSISTANCE GRANT

ORDINANCE NO. 4767 - 2019 EDWARD BYRNE JUSTICE OF ASSISTANCE GRANT

Action Requested: Adoption of a resolution to apply for and accept the 2019 JAG Grant and adopt a budget amendment in the City's Special Revenue Fund in the amount of $60,531.

Background:

- The City of Asheville receives an annual opportunity to apply for a Department of Justice (DOJ), Edward Byrne Justice Assistance Grant.
- The DOJ has preliminarily determined that the Asheville Police Department (APD) is eligible to receive a 2019 award of $60,531.00 which is allocated to the APD and the Buncombe County Sheriff's Office in the amounts of $47,573.00 and $12,958.00 respectively.
- The APD will use the funds to pay for officer overtime related to the interdiction of the National Incident-Based Reporting System (NIBRS) Group "A" offenses. NIBRS is used by law enforcement agencies for collecting and reporting data on crimes.
- The Buncombe County Sheriff's Office will use the funds to purchase Ballistic Helmets and Armor Systems.

Council Goal(s):
- A Connected and Engaged Community

Committee(s):
- Finance & Human Resources Committee, September 24, 2019 - Directed to move forward to the full City Council
- Public Safety Committee, September 26, 2019 - Directed to move forward to the full City Council.

Pro(s):
- Ensures the ability to better protect the safety of the residents of Asheville and Buncombe County.

Con(s):
- None

Fiscal Impact:
- There is no local match required.

Motion:
- Motion to adopt a resolution approving the application and acceptance of the grant and a budget ordinance amendment to appropriate the funding.

RESOLUTION BOOK NO. 41 - PAGE 112
ORDINANCE BOOK NO. 32 - PAGE 430

C. RESOLUTION NO. 19-232 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AUTOMATIC AID SERVICE RENEWAL AGREEMENT WITH REEM'S CREEK FIRE DEPARTMENT

Action Requested: Adoption of the renewal of the automatic aid agreement between the City of Asheville and Reems Creek Fire Department

Background:
- In August 2013, City Council approved a resolution authorizing a multi-year agreement with Reem's Creek Fire Department for automatic aid service.
- The City of Asheville has a need to strengthen its standard of response and cover in the Beaverdam Valley. The Reem's Creek Fire Department is the most appropriate organization to provide the service.
- The initial agreement costs were $82,656 and as stipulated in the agreement, the costs are to be adjusted every year based on the consumer price index.
- After six years of positive consumer price index increases, the renewal for the FY19-20 services cost and are budgeted at $91,458.98.
- The term of the renewal agreement will end June 30, 2020.

Vendor Outreach Efforts:
- No other vendors are able to provide this service
- There are no Minority & Women-Owned Business Enterprise (MWBE) firms able to provide this service

Council Goal(s):
- Connected and Engaged Community
- A Well-Planned and Livable Community

Committee(s):
- Finance and Human Resources Committee - September 24, 2019 - Approved
- Public Safety Committee - September 26, 2019 - Approved

Pro(s):
- Allows standard of cover to be met greater than 90% of the time.

Con(s):
- Fiscal impact.

Fiscal Impact:
- Execution of the agreement renewal is budgeted at and costs $91,458.98.

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into a renewal agreement for automatic aid service between the City of Asheville and Reems Creek Fire Department

RESOLUTION BOOK NO. 41 - PAGE 113

D. RESOLUTION NO. 19-233 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A LEASE AGREEMENT AND ASSOCIATED EQUIPMENT MEMORANDUM OF UNDERSTANDING WITH DEWINE SEEDS - SILVER DOLLAR BASEBALL LLC FOR THE CONTINUED USE OF MCCORMICK FIELD BY THE ASHEVILLE TOURISTS

Action Requested: Adoption of a resolution authorizing the City Manager to sign a lease with DeWine Seeds-Silver Dollar LLC that will continue operation of the Asheville Tourists minor league baseball at McCormick Field.

Background:
- The City of Asheville has owned the property located at 30 Buchanan Place, known as McCormick Field, since 1984 and leases the property for operation as a minor league baseball stadium.
- In January 2010, the current owner of the team, DeWine Seeds-Silver Dollar Baseball LLC, was assigned the lease by the previous team owner. That lease is set to expire on December 31, 2019.
- Starting January 2020, a short term lease is proposed for two years. A longer term lease is being negotiated that will include capital improvements.
- The DeWine organization will continue to provide day-to-day operations, maintenance of the field, and payment of all utilities. The rental rate will be $1.00/year,
- The City will continue to be responsible for all structural repairs, landscaping outside of the stadium, trash removal and pest control..
- Lessee is prohibited from using the Mountainside Park for operations and/or parking on game days. Exceptions include the staging of fireworks

Council Goal(s):
- Financially Resilient City.
- A Well-Planned and Livable Community

Committee(s):
- Recreation Advisory Board has been updated on this item.

Pro(s):
- DeWine Seeds-Silver Dollar Baseball, LLC is committed to keeping minor league baseball in Asheville.
- Both parties are continuing to negotiate terms of the agreement in order to get a longer term lease that is mutually beneficial.

Con(s):
- None

Fiscal Impact:
- The City is responsible for infrastructure repairs to the stadium. Any proposed major repairs are processed through the City's CIP budgeting process. General maintenance is performed by the Facility Management Division and accounted for in that operational budget.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a lease agreement with DeWine Seeds-Silver Dollar Baseball LLC with a term of two years.

RESOLUTION BOOK NO. 41 - PAGE 114

E. BUDGET AMENDMENT FROM THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM. 2020 DWI TASK FORCE GRANT

This item has been removed from consideration.

F. ORDINANCE NO. 4768 - BUDGET AMENDMENT FROM THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM FOR THE 2020 BIKE/SAFE NORTH CAROLINA GRANT

Action Requested: Approval of a budget amendment, in the amount of $5,000, for the North Carolina Governor's Highway Safety Program, Bike/Safe NC 2020, Year 1 Grant.

Background:
- The Council previously authorized the application for and acceptance of grant funds at its March 12, 2019, meeting.
- The Bike/Safe NC program is a partnership with the Governor's Highway Safety Program and the North Carolina State Highway Patrol that is aimed at reducing motorcycle fatalities.
- Grant funds will be used to promote awareness by contacting motorcycle dealers, clubs and associations to discuss current highway safety activities, training opportunities and to provide legal updates. The Asheville Police Department will act as fiduciary for the program.
- The total of the grant is $5,000 and does not require local matching funds.

Council Goal(s):
- A Connected and Engaged Community

Committee(s):
- Finance & Human Resources Committee – September 24, 2019 meeting - Directed to move forward to the full City Council.
- Public Safety Committee - September 26, 2019 meeting - Directed to move forward to the full City Council.

Pro(s):
- Grant funds are used to pay for travel and training.
- Potential reduction of statewide and regional motorcycle fatalities.

Con(s):
- Funding is evaluated annually and is only available for a one year period.

Fiscal Impact:
- There is no impact to the City of Asheville's General Fund budget.

Motion:
- Motion to authorize a budget amendment for the North Carolina Governor's Highway Safety Program, Bike/Safe NC 2020, Year 1 Grant.

ORDINANCE BOOK NO. 32 - PAGE 431

G. RESOLUTION NO. 19-234 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, THE 2019 HIGH IMPACT DRUG TRAFFICKING AREAS GRANT

ORDINANCE NO. 4769 - BUDGET AMENDMENT FOR THE 2019 HIGH IMPACT DRUG TRAFFICKING AREAS GRANT

Action Requested: Adoption of a resolution to apply for and accept the 2019 High Intensity Drug Trafficking Areas (HIDTA) Grant and adopt a budget amendment in the City's Special Revenue Fund in the amount of $285,416.

Background:
- The City of Asheville receives an annual opportunity to receive a HIDTA Program Grant.
- The Office of National Drug Control Policy has preliminarily determined that the City of Asheville is eligible to receive a grant of $285,416.
- The purpose of the HIDTA program is to reduce drug trafficking and production in the United States, specifically in areas where drug related activities are having a significant harmful impact.
- The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration, Asheville Police Department, and the Sheriff Offices' of several Western North Carolina Counties.
- Grant funds are used for overtime, travel, services and supplies. All expenses are tracked and audited by local and Federal authorities.
- The Asheville HIDTA is the direct beneficiary of the grant funds. A United States Drug Enforcement Administration supervisor, who is the Asheville HIDTA manager, determines how grant funds will be expended. All members of the Asheville HIDTA receive reimbursement when they incur qualified expenses conducting Asheville HIDTA business.
- The Asheville Police Department acts as the fiduciary for the grant. When expenses are incurred, the fiduciary settles the claims using appropriated City of Asheville funds and then requests a 100% reimbursement from the Federal Government.

Council Goal(s):
- A Connected and Engaged Community

Committee(s):
- Finance & Human Resources Committee, September 24, 2019 - Directed to move forward to the full City Council.
- Public Safety Committee, September 26, 2019 - Directed to move forward to the full City Council.

Pro(s):
- Fosters partnerships with Federal and local law enforcement agencies.

Con(s):
- None

Fiscal Impact:
- There is no local match required.

Motion:
- Motion to adopt a resolution approving the application and acceptance of the grant and a budget ordinance amendment to appropriate the funding.

RESOLUTION BOOK NO. 41 - PAGE 115
ORDINANCE BOOK NO. 32 - PAGE 432

H. RESOLUTION NO. 19-235 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY TO SUPPORT THE AFRICAN AMERICAN NEIGHBORHOOD HISTORIC MARKERS PROJECT

Action Requested: Adoption of an Interlocal Agreement with Buncombe County to support the African American Neighborhood Historic Marker Project

Background:
- The City partnered with Buncombe County and the neighborhoods of Burton Street, East End/Valley Street, Shiloh, and Southside to create a series of historic markers that focus on the African American Heritage of each neighborhood.
- The County is administering the Mobilizing Action for Resilient Communities (MARC) funding via the Isaac Colman grant, which is funding the costs of the markers.
- The neighborhoods created the content and design of the signs. The County administered the grant, organized the public engagement and worked with the neighborhood representatives on the location and content of the signs. The City provided technical assistance and will provide maintenance of the signs.
- These signs will be located in a variety of locations: in the rights-of way of neighborhood streets, on private properties, on community centers and in parks.
- Three of the sign locations require easements from property owners. All of the property owners have indicated a willingness to provide the easements. The value of our technical assistance is approximately $10,000. The value of the signs is approximately $16,800.
- Combined with other projects in Asheville, these markers will become part of the Asheville African American Heritage Trail.

Council Goal(s):
- This project aligns with Council's Strategic Goal of An Equitable and Diverse Community.

Committee(s):
- African American Heritage Commission - 9-12-19 - Unanimously approved the project.
- Finance and HR Committee - 2-26-19 - Unanimously approved the project.

Pro(s):

- The City of Asheville will be a supporting partner of a project that identifies and celebrates historically African American neighborhoods.

Con(s):

- This agreement will make the City responsible for the maintenance and replacement of the markers in the event of catastrophic damage. The Transportation Department will be responsible for the maintenance costs.

Fiscal Impact:

- Recurring maintenance or replacement costs for the markers and poles will take place if the signs or their poles are damaged to the point of needing repair or replacement. Each sign averages $1,400. There are currently 11 signs. At no time will all the signs be replaced at the same time.

Motion:

- Motion to authorize the City Manager to enter into an Interlocal Agreement with Buncombe County to support the African American Neighborhoods Historical Marker Project with a commitment to provide long-term maintenance of the markers and also authorizing the City Manager to execute easements and other documents necessary to give effect to this resolution.

RESOLUTION BOOK NO. 41 - PAGE 116

I. ORDINANCE NO. 4770 - ORDINANCE TO ADDRESS A GAP IN THE CITY'S DANGEROUS WEAPONS ORDINANCE TO PROHIBIT DANGEROUS WEAPONS ON CITY BUSES, AND UPDATE THE EXISTING DANGEROUS WEAPONS ORDINANCE

Action Requested: Motion to adopt an ordinance updating and amending the City's dangerous weapons ordinance.

Background:

- City staff, its transit management contractor, and the City's Transit Subcommittee have all recently identified the need for an ordinance prohibiting the possession of dangerous weapons on City Buses.
- In the course of preparing a proposed, transit-specific ordinance, it was further determined that the City's current dangerous weapons ordinance- Sec. 12.42 of the City Code- should additionally be updated to conform with guidance from the North Carolina Attorney General's Office, and to clarify its scope.
- A dangerous weapon is any object, substance, or device, other than a firearm, designed or intended to be used to incapacitate or inflict serious injury upon persons or property, including certain deadly weapons defined by statute, and other specific items enumerated in the ordinance.
- The proposed Ordinance would prohibit, with limited exceptions, the bringing of firearms or dangerous weapons into City buildings or the grounds of City buildings, as well as certain designated recreational facilities.
- The proposed Ordinance would further prohibit the bringing of dangerous weapons onto City Owned buses.
- Firearms cannot be prohibited from City buses pursuant to N.C.G.S. 14-409.40.

Council Goal(s):

A well-planned and livable community

-

Committee(s):

- The Multimodal Transportation Commission unanimously recommended approval on 9/25/19
- The Public Safety Committee voted unanimously to move this item on to Council on 9/26/19

Pro(s):

- The proposed ordinance will address a gap in the City's dangerous weapons ordinance in that it will prohibit dangerous weapons on City buses, and will further update the existing dangerous weapons ordinance, which was adopted in 2011.

Con(s):

- Is not as expansive as the City may prefer given state-level preemption.

Fiscal Impact:

- None.

Motion:

- Move to approve the City's proposed new and expanded dangerous weapons ordinance.

ORDINANCE BOOK NO. 32 - PAGE 433

J. RESOLUTION NO. 19-236 - RESOLUTION AUTHORIZING THE PROCUREMENT OF VIDEO DISPLAY EQUIPMENT FOR THE U.S. CELLULAR CENTER FROM VENDOR DAKTRONICS INC. AND AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT TO ACCEPT FUNDS FOR THIS EQUIPMENT WITH THE EASTERN BAND OF CHEROKEE INDIANS AS PART OF THE APPROVED NAMING RIGHTS AGREEMENT

Action Requested: Adoption of a resolution supporting the sole source standardization procurement of video display equipment for the U.S. Cellular Center and authorizing the City Manager to execute an Agreement with the Eastern Band of Cherokee Indians (EBCI) to accept funds for this equipment as part of the approved new Naming Rights Agreement for the Civic Center.

Background:

- On May 28, 2019, the City Council approved the selection of Harrah's Cherokee as a new naming rights partner for the Civic Center..
- A portion of the proposal for the change in naming rights included funds directed from the Eastern Band of Cherokee Indians (EBCI) to the City for purchase and installation of Daktronics brand video display equipment.
- Daktronics brand equipment is also specifically requested by the Southern Conference (SoCon) in current contract negotiations for extension of their basketball tournament, hosted annually in March at the U.S. Cellular Center. The current contract expires after the 2021 tournament.
- Daktronics brand equipment is used by eight of the ten SoCon institutions in their basketball operations, as well as by UNC Asheville. These institutions are currently the only users of the equipment. Efficiencies will be created by standardization of equipment at their tournament site.

Vendor Outreach Efforts:

- This vendor is not a minority owned business.
- Since this is a sole source agreement, staff did not do the outreach to minority & women owned businesses.

Council Goal(s):

- A Financially Resilient City
- Connected and Engaged Community
- Thriving Local Economy

Committee(s):

- Civic Center Commission - October 1, 2019 - Voted in support of sole source purchase

Pro(s):

- No City of Asheville funds are to be utilized for this project.
- Creates ability to continue long term partnership with the Southern Conference
- Allows the facility the opportunity to bid on numerous sporting events that previously were unobtainable as a video display is typically required.
- Project budget includes first 10 years parts and labor warranty.

Con(s):

- Staff will be required to close the arena portion of the facility for approximately three weeks during the summer of 2020 for installation.

Fiscal Impact:

- The total project budget is $1,143,000. Of the total project budget $500,000 is allocated from contract with the EBCI, and the remaining $643,000 is allocated from a signing bonus received via contract extension with Ticketmaster in July 2019.

Motion:

- Motion to approve the adoption of a resolution for the sole source standardization procurement of Daktronics brand video display equipment for the U.S. Cellular Center and authorizing the City Manager to execute and agreement with the EBCI to accept funds for this equipment .

RESOLUTION BOOK NO. 41 - PAGE 117

K. RESOLUTION NO. 19-237 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH VHB INC. TO CONDUCT A CORRIDOR STUDY FOR BILTMORE AVENUE AND MCDOWELL STREET

Action Requested: Motion to adopt a resolution authorizing the City Manager to execute a contract with VHB Inc., a transportation engineering and planning firm, not to exceed $200,000 to conduct a corridor study of Biltmore Avenue and McDowell Street.

Background:

- The City received a transportation planning grant from the French Broad River Metropolitan Planning Organization (MPO) to conduct a corridor study for Biltmore Avenue and McDowell Street which will study and recommend multimodal improvements to the corridors and connecting streets.
- The grant amount is $160,000 with a $40,000 City match, for a total of $200,000.
- The funds for the project are programmed in the current Fiscal Year 2019-2020 Budget.
- A selection committee comprised of staff from the City and the MPO selected the consulting firm of VHB and their team of subconsultants from a competitive procurement process initiated by a request for qualifications.
- The purpose of the study is to analyze multimodal transportation mobility on Biltmore Avenue and McDowell Street, along with consideration of parallel and connecting streets. This study will consider a range of solutions and make recommendations for improvements to accommodate all transportation users including motorists, bicyclists, pedestrians, and transit riders.

Vendor Outreach Efforts:

- The request for proposals was subject to the City's Minority and Women-Owned Business Enterprise (MWBE) plan.
- Several firms submitted bids that included subcontractors that are MWBEs and/or Disadvantaged Business Enterprises.

- VHB Inc. has partnered with a firm, Rose and Associates, which is a currently registered Small Professional Services firm with the NCDOT and a Historically Underutilized Business with the state.

Council Goal(s):
- A Well-Planned and Livable Community
- Transportation and Accessibility

Pro(s):
- Biltmore Avenue and McDowell Street form the primary north-south transportation routes between downtown Asheville and Biltmore Village. In current conditions, narrow travel lanes and limited right of way are a barrier to improved bicycle and pedestrian connectivity in these corridors.
- This study will produce a range of possible solutions for changes to these streets to better serve all modes of transportation.

Con(s):
- None

Fiscal Impact:
- The cost of the project is $200,000. The project funding, which includes the federal grant of $160,000 and the City contribution of 40,000, is already budgeted in the City's Special Revenue Fund.

Motion:
- Motion authorizing the City Manager to execute a contract with VHB Inc. to conduct a corridor study for Biltmore Avenue and McDowell Street.

RESOLUTION BOOK NO. 41 - PAGE 118

L. RESOLUTION NO. 19-238 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE EXISTING CONTRACT WITH CAROLINA TRACTOR & EQUIPMENT FOR SERVICES RELATED TO THE REPAIR AND MAINTENANCE OF CITY VEHICLES AND EQUIPMENT

Action Requested: Adoption of a resolution authorizing the City Manager to amend the existing maintenance agreement with Carolina Tractor & Equipment to increase the annual contract value from $300,000 to $500,000.

Background:
- The Public Works Department Fleet Management Division maintains over 1,000 City-owned vehicles and pieces of equipment.
- Subcontracted work is used to supplement existing staff resources at times of high demand or to provide services where Fleet does not have suitable facilities or resources (e.g., paint shop, etc.).
- Under an earlier procurement process, Carolina Tractor & Equipment was selected to provide supplemental fleet maintenance services. On October 25, 2016, City Council adopted Resolution 16-228 authorizing the City Manager to enter into a contract with this firm for an initial one-year term with up to four one-year renewals. The annual contract value was initially approved for $200,000.
- Resolution 18-120 authorized the City Manager to amend the original agreement to increase the annual contract value from $200,000 to $300,000 due to an increased workload caused by vehicle accidents and repairs.

- During the 2019 calendar year, a number of significant repairs to Fire apparatus was necessary due to aging equipment.
- Fleet Management is requesting that the annual value of the contract be increased from $300,000 to $500,000 to account for these expected overruns.
- The agreement is currently in the second year of four optional renewal periods.

Vendor Outreach Efforts:
- Staff performed outreach to minority and women-owned businesses through the original contract solicitation process which included posting on the City's bid page, Twitter, and the State's Interactive Purchasing System. No Minority & Women-Owned Business Enterprise service providers submitted bids with this prime contractor.

Council Goal(s):
- Thriving Local Economy
- Connected and Engaged Community
- Smart City

Pro(s):
- Allows third-party service work to continue as a supplement to in-house staff;
- Provides flexibility in service delivery without significant capital investment in equipment or facilities (e.g., paint shop, etc.) that are not used on a daily basis; and
- Supports returning vehicles to service after needed repairs sooner.

Con(s):
- Increases expenditures under the contract.

Fiscal Impact:
- Costs for these services are included in the General Fund fleet allocations for departments requiring vehicle repair and maintenance activities.

Motion:
- Motion to adopt a resolution authorizing the City Manager to amend the existing maintenance agreement with Carolina Tractor & Equipment to increase the annual contract value from $300,000 to $500,000.

RESOLUTION BOOK NO. 41 - PAGE 119

M. RESOLUTION NO. 19-239 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE AN UNOPENED ALLEY KNOWN AS LENNOX COURT AND SETTING A PUBLIC HEARING ON NOVEMBER 26, 2019

Action Requested: Adoption of a Resolution of Intent to schedule a public hearing for November 26, 2019, to close an unopened right of way known as Lennox Court

Background:
- N. C. General Statute Sec. 160A-299 grants cities the authority to permanently close streets and alleys.
- The Jewish Community Center has petitioned the closure and owns one adjacent property, 236 Charlotte Street (PIN # 9649-54-9870).
- This closure allows maximum land use potential for further development in accordance with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):
- A Well-Planned and Livable Community

Committee(s):
- Multimodal Transportation Committee -August 28, 2019 - Recommended closing the right of way as long as pedestrian access is intact. This condition has been met.

Pro(s):
- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):
- None

Fiscal Impact:
- There will be no fiscal impact related to this closure.

Motion:
- Motion to adopt resolution of intent to schedule a public hearing November 26, 2019; to close an unopened right of way known as Lennox Court

RESOLUTION BOOK NO. 41 - PAGE 120

N. RESOLUTION NO. 19-240 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE TWO UNOPENED RIGHTS-OF-WAY KNOWN AS POND ROAD AND LANCE LANE LOCATED OFF LONG SHOALS ROAD AND SETTING A PUBLIC HEARING ON NOVEMBER 26, 2019

Action Requested: Adoption of a resolution of intent to schedule a public hearing for November 26, 2019, to close an unopened right of way known as Lance Lane/Pond Street.

Background:
- N.C. General Statute Sec. 160A-299 grants cities the authority to permanently close streets and alleys.
- James Wilson with Long Shoals Development (PIN # 9644-99-5794) has petitioned for the closure. Adjoining property owners Cane Creek - Vistas LLC (PIN #9644-99-5598), Karen Fraser and Gordon B Fraser Trust (PIN #s 9644-99-3427, 9644-99-3772) have joined this petition.
- This closure allows maximum land use potential for further development in accordance with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):
- A Well-Planned and Livable Community

Committee(s):
- Multimodal Transportation Committee - 8/28/19 - Recommended closing the right of way by unanimous vote

Pro(s):
- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goal to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):
- None

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Motion:

- Motion to adopt resolution of intent to schedule a public hearing on November 26, 2019 to close an unopened right-of-way known as Lance Lane/Pond Street.

RESOLUTION BOOK NO. 41 - PAGE 121

O. ORDINANCE NO. 4771 - BUDGET AMENDMENT FROM THE FEDERAL TRANSIT ADMINISTRATION PROGRAM SECTION 5307 FUNDS FOR TRANSIT OPERATIONS

Action Requested: Adoption of budget amendment in the amount of $517,767 from Federal Transit Administration Section 5307 Funds (NC-2019-047).

Background:

- Section 5307 is an urbanized area formula funding program that makes Federal resources available to urbanized areas for transit capital and operating assistance in urbanized areas.
- Eligible activities include capital investments for new buses, replacement of buses, rebuilding buses, preventive maintenance activities, paratransit service costs, and specific route assistance.
- These are Federal Transit Administration (FTA) funds under Award # NC-2019-047 for the 5307 formula funds for Job Access Reverse Commute (JARC) program that the City is the designated recipient for the region. The City is responsible for overseeing the funds. The chart below outlines the amount funded for each recipient.
- The budget amendment will provide expenditure authorization for the $517,767 in grant funds. These grant funds are not for new projects but will be used for existing capital and operating assistance projects.

Subrecipient	Project	FTA Amount	Local Match (Operating Assistance - 50% Match Capital - 20% Match)
Mountain Projects/Haywood	Bus for Expansion (80/20)	$68,236	$17,059
Mountain Projects/Haywood	New Deviated Fixed Route (50/50)	$80,450	$80,450
City of Asheville	JARC Admin Mtn Projects (80/20)	$14,869	$3,717
Buncombe County	Black Mountain Trailblazer (50/50)	$190,515	$190,515
City of Asheville	Black Mountain Rt 170 (50/50)	$128,276	$128,276
City of Asheville	Program Administration (80/20)	$35,421	$8,855

Council Goal(s):

- Transportation and Accessibility
- A Well-Planned and Livable Community
- An Equitable and Diverse Community

Committee(s):
- None

Pro(s):
- Project funding is provided by the FTA.
- These grants require a match of 50% for operating projects and 80% for capital projects. Each sub-recipient is responsible for their local match.
- As the designated recipient, the City of Asheville receives 10% of the funding total in order to cover administration of the grant for the region's subrecipients.

Con(s):
- None

Fiscal Impact:
- The total grant award for the projects are $517,767 and will be funded with FTA funds. As noted in the table above, $50,290 will be reimbursed to the city for administrative costs associated with managing the grant. Asheville's local match for the provision of Black Mountain Route 170 totals $128,276.

Motion:
- Motion to adopt a budget amendment in the amount of $517,767 from Federal Transit Administration Section 5307 Funds (NC-2019-047).

ORDINANCE BOOK NO. 32 - PAGE 437

P. RESOLUTION NO. 19-241 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THE ARCHER COMPANY TO CONDUCT A CLASSIFICATION AND COMPENSATION STUDY FOR THE CITY OF ASHEVILLE

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with The Archer Company in the amount of $145,000 and authorize the City Manager to approve change orders in the amount of $5,000 for a maximum total of $150,000 to complete the classification and compensation study.

Background:
- The City's goal is to attract and retain qualified employees. The objective of the study is to develop and implement a total compensation package which includes a credible compensation plan that ensures positions performing similar work with essentially the same level of complexity, responsibility and knowledge, skills and abilities are classified accurately; provides salaries commensurate with assigned duties; provides promotional opportunities and recognizable compensation growth; and continues to be competitive with relevant markets.
- Consultant will:
  - Analyze impact of moving City's minimum pay rate to $31,200/year ($15.00/hour based on a 40 hour workweek); and provide results of such analysis and fiscal impact to City Manager by December 31, 2019.
  - Review the City's existing Compensation and Classification system to include the review of existing organizational charts, budget information related to staffing, current compensation and benefits.

  - Review and prepare updated ADA compliant job descriptions for approximately 312 positions, which includes exempt and non-exempt civilian and public safety positions.
  - Recommend implementation strategies including calculating the cost of implementing study results.
  - Completed study expected in Spring 2020.
- City staff issued a Request for Proposals (RFP) to solicit firms to conduct a classification and compensation study on July 1, 2019.
- Eight responses were received.
- An evaluation committee reviewed all responses and narrowed the field to three firms.
- The final three firms were interviewed by the evaluation committee.
- The Archer Company was determined to be the most qualified firm to perform the compensation and class study.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned businesses by posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- No MWBE firms submitted bids with this prime contractor.

Council Goal(s):

A Financially Resilient City
An Equitable and Diverse Community

Committee(s):

None.

Pro(s):

Study will determine whether the current compensation structure is aligned with business needs and the labor market.

Con(s):

None

Fiscal Impact:

- $150,000 was approved in the FY 2020 Budget. The amount of this contract is $145,000.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with The Archer Company in the amount of $145,000 and authorize the City Manager to approve change orders in the amount of $5,000 for a maximum total of $150,000 to complete the classification and compensation study.

RESOLUTION BOOK NO. 41 - PAGE 123

Q. RESOLUTION NO. 19-242 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT EXTENSION WITH WNC LANDSCAPING LLC FOR THE FISCAL YEAR 2019 DOWNTOWN CLEANING PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract renewal with WNC Landscaping, LLC., in the amount of $226,202 plus a 15 % contingency of $33,930 ($260,132 total) for the contract known as Downtown Cleaning.

Background:

- This contract includes provisions for the pressure washing of City-owned sidewalks in the Central Business District (CBD); weed control on City-owned sidewalks and curb lines; general cleanup services to remove loose litter and debris from City-owned sidewalks; and the cleaning of City-owned garbage and recycle cans.
- The original contract was advertised on August 29, 2018. Bids were opened on September 20, 2018. Three bids were received:

WNC Landscaping, LLC of Cedar Mountain, NC	$226,202
Harper Professional Janitorial Services of Black Mountain, NC	$288,434
Rivertop Contracting of Swannanoa, NC	$406,266

- WNC has been working since December 2018 and this is for the first one-year renewal built into the contract. The contract allows for two one-year extensions if the contractor performs satisfactorily and agrees to the extensions.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned business through solicitation processes which included posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- One minority business enterprise (Harper Professional Janitorial Services) submitted a bid to be the prime contractor on the project.
- Based upon being the lowest, responsive bidder, WNC Landscaping, LLC was awarded the contract.

Council Goal(s):

- This action aligns with the 2036 City Council Vision of Well-Planned and Livable Community, Transportation and Accessibility.

Pro(s):

- Will continue the increased cleaning frequency of the most heavily used areas of the CBD.
- Will continue to provide for the cleaning of City-owned garbage and recycle cans.

Con(s):

- None.

Fiscal Impact:

- Funding for this contract is included in the adopted Fiscal Year 2019-2020 Public Works Department budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a contract renewal with WNC Landscaping, LLC in the amount of $226,202 plus a 15 % contingency of $33,930 ($260,132.00 total) for the contract known as FY19 Downtown Cleaning.

RESOLUTION BOOK NO. 41 - PAGE 124

R. RESOLUTION NO. 19-243 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A CONTRACT WITH B.H. GRANING LANDSCAPES INC. FOR THE OLD TOLL ROAD SLIDE STABILIZATION PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with B.H. Graning Landscapes, Inc. in the amount of $485,453.48 plus a 15 % contingency of $72,818 ($558,271.48 total) for work to stabilize Old Toll Road.

Background:

- A section of the southern end of Old Toll Road slid due to excessive rainfall on July 5, 2019. This resulted in the closure of Old Toll Road. Bunnell Lammons Engineering evaluated the site and provided design drawings to repair the damage. The design contract was a not-to-exceed contract in the amount of $41,400 and was executed on June 4, 2019. The total amount budgeted for this project is $684,271.48 which includes potential utility relocation, contract inspection, additional design work, and in-house project administration.
- The construction contract was advertised on August 26, 2019. The following three bids were opened on September 19, 2019:

B.H. Graning Landscapes, Inc., Sylva, NC	$485,453.48
Patton Construction Group, Inc. Arden, NC	$540,500.00
Bryant Land and Development Industries, Inc.,Burnsville, NC	$784,042.00

- Construction is anticipated to start early November and last for approximately 60 days.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned businesses through solicitation processes which included posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- No minority or women-owned business enterprises submitted a bid to be the prime contractor on the project.
- B.H. Graning Landscapes, Inc. was the lowest, responsive bidder.
- The contractor intends to self perform the construction of the slope stabilization. Self performance is work that will be conducted by the prime contractor, instead of the subcontractors. However, they are using MWBE firms for resurfacing and materials transport. These two items are 12% of the dollar value of the contract.

Council Goal(s):

- This action complies with Council's 2036 vision for transportation and accessibility.

Pro(s):

- Will reopen Old Toll Road to vehicular, pedestrian, and bicycle traffic
- Will help prevent further slides in the immediate vicinity of the current slide.

Con(s):

- None.

Fiscal Impact:

- Funding for this contract and the 15% contingency will come from the FY20 Capital Improvement Program (CIP) contingency budget. After funding this contract, there will be approximately $320,000 remaining in the current contingency budget.

Motion:

- Motion to adopt a resolution awarding the contract to B.H. Graning Landscapes, Inc. and authorizing the City Manager to execute a contract in the amount of $485,453.48 plus a 15 % contingency of $72,818 ($558,271.48 total) for work to stabilize Old Toll Road.

RESOLUTION BOOK NO. 41 - PAGE 125

S. ORDINANCE NO. 4772 - BUDGET AMENDMENT FROM DEERFIELD EPISCOPAL RETIREMENT COMMUNITY, INC. FOR AN AFFORDABLE HOUSING TRUST FUND DONATION

Action Requested: Adoption of budget amendment in the Housing Trust Fund in the amount of $250,000 from Deerfield Episcopal Retirement Community, Inc. Donation

Background:

- Over several months Deerfeild community enjoyed visits from city leaders who shared the important issues and real challenges affecting Asheville.
- As part of this discussion, the lack of Affordable Housing combined with a lack of local resources to adequately address the issue was identified as a major challenge for the City of Asheville.
- In an effort to assist in the City's efforts to increase the supply of affordable housing, the Deerfield Retirement Community has donated $250,000 to the City of Asheville Affordable Housing Trust Fund.
- The City of Asheville is authorized to receive property by gift pursuant to N.C.G.S. § 160A - 240.1.
- The budget amendment will provide expenditure authorization for the $250,000 in donated funds.
- These funds will be transmitted to the City of Asheville Affordable Housing Trust Fund for the sole use and purpose of providing affordable housing within the corporate limits of the City of Asheville and for no other purpose.

Council Goal(s):

- Quality Affordable Housing

Committee(s):

- None

Pro(s):

- Funding for the Affordable Housing Trust Fund

Con(s):

- None

Fiscal Impact:

- The total donation of $250,000 will be added to the City of Asheville Affordable Housing Trust fund.

Motion:

- Motion to adopt a budget amendment in the amount of $250,000 for the City of Asheville Affordable Housing Trust Fund.

ORDINANCE BOOK NO. 32 - PAGE 438

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda E. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT - TRANSIT UPDATE

City Manager Campbell said that City staff would love to extend bus hours; however, we do not have the funding. As part of the budget process, Council asked for route configurations and for staff to look at, over the coming months, to determine if there were any cost savings in addition to determining what it would take from a resource and capital perspective to extend the bus hours. Until we have budget projections, as it relates to any savings, we cannot commit to bus hour extensions. She said we hope to have numbers on whether we will have budget savings in January or February of 2020.

Assistant Transportation Director Jessica Morriss outlined the transit investments for Fiscal Year 2020 (1) Adopted $1.2 million in additional operational funds for FY 2020; (2) Implements approximately half of the 1st Yr. Transit Master Plan recommendations for 6 months (January - June 2020) (a) 20,000 service hours to increase frequency and realign existing routes; (b) Staffing to improve quality, OTP, and customer experience; (c) Bus maintenance to improve reliability; and (d) Maintenance facility study; and (3) Council also recommended staff continue to monitor the budget to determine if there were savings to more quickly implement extended service hours.

Regarding the Transit Master Plan Year 1 - Extended Hours, staff will be monitoring the budget to determine if there are any savings. In the process of assessing capital, staff and costs needed to extend hours. Cost estimates will consider (1) implementation timeline (July, October, January?); (2) paratransit increase; (3) maintenance impacts (3rd shift?) (4) ART staff increases (operators/dispatchers, mechanics, customer service, etc.); (5) vehicle availability; (6) additional security needs at transit station; (6) fuel increase and increased fuel cost; and (7) City staff resources.

Regarding the Transit Master Plan Year 1 Next Steps, (1) staff will continue working to implement approved and funded enhancements intended to improve on time performance and launch early January 2020; (2) finalize operating budget estimates to implement the next phase of Year 1 of the Transit Master Plan (extended service hours) by December 2019; (3) continue monitoring budget to determine if there are any savings; and (4) frequently update Council on costs and funding opportunities to implement extended service hours sooner.

Councilman Kapoor said that currently under state law, the Buncombe County Board of Commissioners can decide to put a ¼ cent sales tax on the ballot for transit expansion county-wide. That money could be used to expand transit. With the level of transit expansion that we need to have, we need a dedicated source of funding. He urged transit advocates to contact the Buncombe County Commissioners and ask for their support for this ¼ cent sales tax on the ballot.

Councilwoman Mayfield agreed with Councilman Kapoor that we need a dedicated funding source for transit. Even though it does require legislative approval, we need to try to get the City the authorization to do it's own ¼ cent sales tax that would support transit. She hoped that when the numbers come in that the City will be prepared to implement the extended bus hours as soon as possible.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 1 SOUTH TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO MIXED USE EXPANSION/CONDITIONAL ZONE TO ALLOW A MIXED-USE DEVELOPMENT THAT INCLUDES RESIDENTIAL, RETAIL, SERVICE AND ENTERTAINMENT USES

At the request of the applicant's attorney, Vice-Mayor Wisler moved to continued this public hearing until December 10, 2019. This motion was seconded by Councilman Kapoor and carried unanimously.

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING MULTIPLE PARCELS FROM COMMUNITY BUSINESS II DISTRICT TO RESIDENTIAL EXPANSION DISTRICT/CONDITIONAL ZONING FOR A 130-UNIT RETIREMENT COMMUNITY LOCATED AT 213 LONG SHOALS ROAD; (A PORTION OF) 403, 420, 440, 439, 99999, AND 433 OVERLOOK ROAD EXTENSION

ORDINANCE NO. 4773 - ORDINANCE TO CONDITIONALLY ZONE MULTIPLE PARCELS FROM COMMUNITY BUSINESS II DISTRICT TO RESIDENTIAL EXPANSION DISTRICT/CONDITIONAL ZONING FOR A 130-UNIT RETIREMENT COMMUNITY LOCATED AT 213 LONG SHOALS ROAD; (A PORTION OF) 403, 420, 440, 439, 99999, AND 433 OVERLOOK ROAD EXTENSION

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone multiple parcels from Community Business II District to Residential Expansion District/Conditional Zone for the development of a 130-unit retirement community located at 213 Long Shoals Road; (a portion of) 403, 420, 440, 439, 99999, and 433 Overlook Road Extension. This public hearing was advertised on October 12 and 18, 2019.

Project Location and Contacts:

- The project site consists of seven parcels with a combined area of 6.32 acres located at 213 Long Shoals Road; 420, 440, 439, 99999, 433 and a portion of 403 Overlook Road Ext (PINs 9644-69-4238, 9644-68-7922, 9644-68-5885, 9644-68-4985, 9644-69-4071, 9644-69-5091 and a portion of 9644-69-6391).
- The property owners are Asheville Pentecostal Holiness Church, C&B Toothland of Overlook Ext LLC, C&B Toothland of Lake Julian, LLC, Kenneth R and Toni O Mahaffey, and Linda Gipson.
- Petitioner/contact: Brett Hammonds.

Summary of Petition:

- The proposal is for an age-restricted residential development with associated uses within the building including, but not limited to, a fitness center, salon and chapel; and office space for management staff.
- There are 130 residential units proposed, which necessitates a rezoning via conditional zoning to Residential Expansion District due to the number of units.
- There are a number of small buildings on the project site that would be demolished and removed as a result of this approval.
- The site is located at the edge of the City of Asheville limits; parcels to the south are within Buncombe County zoning jurisdiction and are occupied by Lake Julian Park.
- The 130 individual units are proposed to be included within one building, approximately 179,400 square feet in size, and three-stories in height (approximately 44 feet).
- The density proposed is 20.56 units per acre which is just above the maximum permitted and requires a condition as noted later in this report.
- The site is accessed via two driveways; the primary vehicular access is from Overlook Road Extension with a second driveway from Long Shoals Road used to access dumpsters, loading and a small number of parking spaces.
- Throughout the site a total of 133 parking spaces are provided; 103 surface spaces and 30 spaces housed in separate single-story, freestanding garage structures.
- Sidewalks are required to be ten feet in width; the plans provide a ten foot wide sidewalk behind a five foot grass strip along Long Shoals Road to help meet the needs for the proposed Lake Julian Greenway corridor. The small portion of sidewalk along Overlook Road Extension is ten feet

wide. Internal walkways are proposed to be five feet in width.

- Landscaping as required by code is provided throughout the site. A number of retaining walls are included and will be screened according to City standards.
- The project includes common open space in a number of locations on the site and will include walking paths and community amenities. The proposal makes use of an open space reduction allowance when a site is immediately accessible to public park land; the applicant will provide a sidewalk connection to Lake Julian Park.
- Design and operational standards in the requested zoning district recommend the layout and building type to be compatible with adjacent residential areas; there are a variety of similar larger structures serving various uses in the vicinity. The closest residential buildings are smaller in scale but they are across Long Shoals Road.
- The project includes a number of conditions, some of which are due to lack of compliance with City standards and some additional conditions meant to mitigate impacts or provide a public benefit and include the following:
    - The density proposed is just over the maximum allowed without including dedicated affordable units.
    - Multi-family developments are limited to a single-driveway connection; plans show two driveways with one on each frontage.
    - The project makes use of an open space reduction based on proximity to a public park.
    - Internal sidewalks that connect buildings are required to be 10 feet wide; five foot walkways are provided through the development.
- The required neighborhood meeting was held on April 29, 2019. Staff has not received any public comment as of the writing of this report.

Comprehensive Plan Consistency:

- The Living Asheville Comprehensive Plan identifies this location as an Urban Corridor on the Future Land Use Map. This designation anticipates mixed-use development including higher density residential and emphasizes multi-modal access and sidewalks to enhance connectivity and the pedestrian experience. This project aligns with these goals.
- The Livable Built Environment section of the plan emphasizes making streets more walkable and connected and building out the greenway network.

Compatibility Analysis:

- Uses in the vicinity include schools and other institutional uses such as churches, single and multi-family residential, a variety of commercial and office uses and recreational uses.
- There are a variety of building sizes and types along the corridor as well. This development is compatible both in proposed use and form.
- The inclusion of widened sidewalks, transit shelter in the vicinity, and a pedestrian connection to Lake Julian Park provide connectivity and access.

Council Goal(s):

- A Well-Planned and Livable Community
- Transportation and Accessibility

Committee(s):

- Technical Review Committee - August 19, 2019 - approved with conditions
- Planning & Zoning Commission - October 2, 2019 - recommended approval (7-0)

Staff Recommendation:

- Staff finds that the proposed development is consistent with the comprehensive plan and requested zoning district. The applicant is providing elements that enhance the development and contextual location with wide sidewalks and the other conditions requested by the applicant are supportable.

In response to Vice-Mayor Wisler, Ms. Bernstein said that this is a for-profit development.

Mr. Richard Tranter, attorney for Cameron General Contractors, explained the independent living project and said they are fully taxable, is about a $35 Million construction project, has no drain on the school system, no impact on the roads, and is a benefit to the community.

Mr. Bob Lewis, Director of development for Cameron General Contractors, gave a sense of the operations and said they have identified a need for this type of housing in Asheville.

Mr. Trantner responded to Councilman Kapoor regarding the landscape plan.

Mayor Manheimer opened the public hearing at 5:46 p.m. and when no one spoke, she closed the public hearing at 5:46 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve the conditional zoning request for the project known as Julian Woods Retirement Community from Community Business I to Residential Expansion District Conditional zone and find that the request is consistent with the city's adopted comprehensive plan, is reasonable and is in the public interest in that: (1) the existing Future Land Use category, Urban Corridor, is appropriate and supportive of this higher density residential use; (2) the project provides pedestrian connections along Long Shoals Road and Overlook Road Extension; and (3) the proposal is aligned with strategies found in the city's comprehensive plan regarding activating the pedestrian experience, supporting the greenway network, siting uses along corridors that are supported by transit and locating residential density proximate to other commercial uses, contributing to a mixed-use corridor. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 439

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4774 - ORDINANCE AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE FOR AT-LARGE ELECTIONS FOR MEMBERS OF THE CITY OF ASHEVILLE CITY COUNCIL

City Attorney Brad Branham said that this the consideration of an ordinance amending the City of Asheville Charter to provide for at-large elections for members of the City of Asheville City Council.

Mayor Manheimer announced that this public hearing was held on September 24, 2019, and no additional public comment would be taken.

Action Requested: Adoption of an ordinance amending the City of Asheville Charter to provide for at-large elections for the members of the City of Asheville City Council.

Background:

- On June 29th, 2018, the N.C. State legislature ratified SB 813 which altered the form of Asheville City Council elections.
- The new local act moved City Council elections from odd to even years, removed primary elections, and established five election districts.

- Under the current law, the City Council will be made up of seven council members, including the Mayor. Five members will be elected from and by their respective districts, while one member and the Mayor will be elected at-large.
- The two proposed charter amendments would reinstate primary elections to be held in March, and return all Council positions to at-large elections.
- On September 10, 2019, City Council adopted two resolutions of intent to amend the Charter and to set the public hearings on the City of Asheville Charter amendments on September 24, 2019.
- On September 24, 2019, City Council held two separate public hearings on the City of Asheville Charter amendments.

Council Goal(s):
- An Equitable and Diverse Community
- A Connected and Engaged Community

Committee(s):
- Governance Committee - July 29 (Converted to Full Council Worksession)

Pro(s):
- Returns City Council elections to a form as close as possible to what existed prior to enactment of SB 813.

Con(s):
- A Charter amendment can be further amended by State action
- May result in diminished goodwill and additional provocation from the General Assembly

Fiscal Impact:
- None at this time.

Councilman Kapoor said at one positive about this vote is that at least we'll have this decision over with and folks will have some clarity about next year's elections. While the General Assembly does have the ability to change things back, he hoped they don't as all that will do is result in costly litigation that will be a waste of taxpayer money and a serious distraction. If you support a system with some districts, as he does, he thinks the best way of going about it is through a voter referendum that our charter allows as long as you get a petition signed by 15% of registered voters in the city. It's a high bar for sure, but it's not impossible. Going back to an all at-large system is probably the worst route we could have taken. While it may be better for certain council members individually, for the city as a whole, for the average resident, for minority communities seeking better access to their representatives, it's the worst system out there. And that's not just his view, it's shared by many other civil rights and voter rights organizations. During this process, however, we didn't take the time to investigate the facts. He thanked Jonathan Wainscott for the time he took looking at the data and the facts. He was one of the few who did and he had to endure people criticizing his motives, but never once did they contract a statement that he made. Asheville can be a place that cares more about who says something than the truth of what they are saying. With this return to an all at-large system, Council elections will be like nothing we've seen before. The primary turnout will probably be twice the turnout when he was elected and the general about three times. People who have never voted in a Council election will probably out-number those who have. To those who support this action tonight, all he can say is be careful what you wish for, you just may get it.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to adopt an ordinance amending the City of Asheville Charter to provide for at-large elections for members of the City of Asheville City Council. This motion was seconded by Councilman Haynes and carried on a 6-1 vote, with Councilman Kapoor voting"no".

ORDINANCE BOOK NO. 32 - PAGE 446

B. ORDINANCE NO. 4775 - ORDINANCE TO CONSIDER AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE THAT ASHEVILLE CITY COUNCIL ELECTIONS BE CONDUCTED BY THE NONPARTISAN PRIMARY AND ELECTION METHOD

City Attorney Brad Branham said that this is the consideration of an ordinance amending the City of Asheville Charter to provide that Asheville City Council elections be conducted by the nonpartisan primary and election method.

Mayor Manheimer announced that this public hearing was held on September 24, 2019, and no additional public comment would be taken.

Action Requested: Adoption of an ordinance amending the City of Asheville Charter to provide that Asheville City Council elections be conducted by the nonpartisan primary and election method.

Background:

- On June 29th, 2018, the N.C. State legislature ratified SB 813 which altered the form of Asheville City Council elections.
- The new local act moved City Council elections from odd to even years, removed primary elections, and established five election districts.
- Under the current law, the City Council will be made up of seven council members, including the Mayor. Five members will be elected from and by their respective districts, while one member and the Mayor will be elected at-large.
- The two proposed charter amendments would reinstate primary elections to be held in March, and return all Council positions to at-large elections.

Pro(s):

- Returns City Council elections to a form as close as possible to what existed prior to enactment of SB 813.

Con(s):

- A Charter amendment can be further amended by State action
- May result in diminished goodwill and additional provocation from the General Assembly

Fiscal Impact:

- None at this time.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to adopt an ordinance amending the City of Asheville Charter to provide that Asheville City Council election be conducted by the nonpartisan primary and election method. This motion was seconded by Councilman Haynes and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 448

VI. NEW BUSINESS:

A. RESOLUTION NO. 19-244 - RESOLUTION REPEALING THE FEE GRANT PROGRAM FOR AFFORDABLE HOUSING DEVELOPMENT ADOPTED BY RESOLUTION NO. 17-226, WITH A NEW, STAND ALONE AFFORDABLE HOUSING FEE REBATE PROGRAM

Community Development Program Director Paul D'Angelo said that this is consideration of approval of a "new" stand alone Fee Rebate Policy.

Background:

- In March of 2011, City Council adopted a Fee Rebate Policy as part of a broader Land Use Incentive Grant (LUIG) Policy to incentivize development of affordable housing in accordance with Council strategic goals.
- A fee rebate is a refund of certain development and planning related fees that may be granted in accordance with this policy upon completion of an affordable housing project.
- A review of the policy was done in June, 2017, with the recommendation of the Community Development (CD) staff to discontinue fee rebates as it wasn't being utilized beyond $1,000 to $2,000 per year.
- In September, 2017, suggestions were made to update the Fee Rebate Policy to include homeownership targeting individuals and families making under 80% Area Median Income (AMI). The most recent fee rebate policy was adopted on October 3, 2017, per City Council Resolution No. 17-226. This policy provided fee rebates both for sale and rental and was flat rate per unit (i.e. $1,000/unit for rental at 80% AMI and below; $2000/unit for rental at 60% AMI and below; 25 year period of affordability).
- As with other policies, Council requested that the LUIG, which included Fee Rebates at the time, be reviewed yearly after its adoption in partnership with other departments, stakeholders and the community. After review with the partners, CD staff felt a stand alone LUIG policy and a stand alone Fee Rebate policy would better assist in the production of affordable housing by not tying one rebate to another and that the policies would be more clear on their own.

Highlights of the Proposed New Fee Rebate Policy

Program Eligibility Requirements:

Affordable Housing Minimum Requirements to Qualify for 50% grant rebate on the affordable unit

- The proposed development must be within Asheville City limits.
- A rental project must serve individuals and households under 80% AMI for a minimum of 20 years.
- An Ownership project must serve individuals and households making under 80% AMI.
- A project can be either new construction or rehabilitation. The rehabilitation or redevelopment of a unit must be rented or sold serving the same or lower AMI individual or family as the original unit.
- At least 20% of the units (minimum of at least two affordable units) in the development must be affordable to qualify for the grant rebate, either rental or for sale.

In addition to the above, a grant rebate may be up to 75% on the affordable unit if -

- A rental project serves individuals and households under 60% AMI for a minimum of 20 years, or

- An ownership project sells to individuals and households making under 60% AMI, or
- 20% of the units are Universally Designed to make them accessible to all people, regardless of age, disability or other factors. Link here for more information as recommended by the North Carolina Housing Finance Agency (NCHFA).

In addition to the above, a grant rebate may be up to 100% on the affordable unit if -

- Developers offer permanent affordability in rental homes, or
- Developers offer permanent affordability on a for sale product, such as a Community Land Trust, or
- Affordability where at least 20% of the units target individuals & families under 30% AMI or those homeless or in danger of being homeless, i.e. taking an individual or family off the Homeless By-name List.

Eligible Development Fees for Rebate for Affordable Housing:

- Planning and Zoning
- Site Development
- Building Safety (plan review and permit fees)
- Fire
- Water Service Connection

Ineligible Development Fees for Rebate:

- Homeowner Recovery
- Reinspection or Resubmittal
- Technology
- Temporary Certificate of Occupancy
- Western North Carolina Air Quality Agency

Sustainability Rebate	Sustainable Action - Single Family Home
$500.00	Sustainability - Green Built Home Certified*
$250	Sustainability -Verified Home Energy Rating Index Score (HERS) of 49 or Below
$100	Sustainability - Energy Star Certified
$175.00	Solar Photovoltaic Systems
$100.00	Tree Protection (save)**
	Energy Savings Tree Plantings (new)***

Fee Waivers-Certain Fees eligible for rebates as described above, may be waived up front on a case by case basis based on a developer's affordable housing experience and demonstrated financial need of the project only upon approval by City Council. Utility related fees funded by Enterprise Funds cannot be waived. Additionally, in order to be eligible for a fee waiver, the developer must have a contractual obligation with the City to provide affordable housing (i.e. affordable housing loan agreement with City).

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- Affordable Housing Advisory Committee August 1, 2019 - recommended to move forward to HCD Committee unanimously

- Housing & Community Development Committee August 20, 2019 - asked for additional time for review
- Finance & HR Committee September 24, 2019 - recommended to move to HCD Committee unanimously
- Housing & Community Development Committee October 15, 2019 - recommended to move to City Council unanimously

Pro(s):

- The proposed policy comes from staff, community stakeholders, developers and committee members over the past year that address issues of affordability from 80% AMI to 30% AMI and our homeless population.
- The policy follows Community Development efforts of creating policies that are easy to comprehend, usable and equated to a dollar amount to be used as a source in a pro forma.
- Based on analysis and in agreement with the consultants for 319 Biltmore, an operational fee grant has the potential to incentivize developers to add affordable units.

Con(s):

- None

Fiscal Impact:

- All water service connection fee revenues are realized in the Water Resources Enterprise Fund and cannot be used to incentivize affordable housing development. Rebates for these fees will be paid from the General Fund.
- Although the city receives revenue when these fees are paid by a developer, the rebate typically occurs in a subsequent fiscal year after the project is complete and occupied. This lag in timing means that any fee rebates paid to affordable housing developers will not necessarily be offset by development fee revenues in the same year that the rebate is paid.
- The current budget includes $85,000 in the Community and Economic Development Department to pay affordable housing rebates that were negotiated under the existing policy. Most of that funding has already been used to pay a single rebate ($66,630) for one project. The Office of Sustainability budget includes $15,000 to pay the energy efficiency and tree protection rebates. If this policy change achieves its intended purpose (i.e., greater utilization of the rebate programs), more funding will be required in future fiscal years as more developers make use of these programs

Mr. David Nutter spoke in support of this revision to the Land Use Incentive Grant Policy.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to repeal the Fee Grant Program for Affordable Housing Development with a new, stand-alone Affordable Housing Fee Rebate Program. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 126

B. RESOLUTION NO. 19-145 - RESOLUTION AMENDING THE CITY OF ASHEVILLE'S LAND USE INCENTIVE GRANT POLICY

Community Development Program Director Paul D'Angelo said that this is the consideration to adopt an amended Land Use Incentive Grant Policy

Background:

- In November of 2010, City Council first adopted a Land Use Incentive Policy that provided incentives to encourage development projects that fulfill important public purposes directly addressing annual strategic goals set by Council like affordable housing.
- Council directed that the Policy be reviewed yearly after its adoption. Since that time, the Policy has been revised five times in March of 2011, January of 2013, August of 2014, September of 2015, and September of 2018.
- In addition, Fee Rebates were removed and recommended as a separate policy.
- The Policy was reorganized to be easier to read and more linear; i.e. the scoring matrix is all on one page with the following page offering the descriptions.
- A goal of Community Development staff, per community discussions with stakeholders and developers, is to make policies easy to comprehend, usable & equated to an investment dollar amount to be used as a source in a pro forma / balance sheet.
- Please note that the top changes were approved in June, 2019, by committees, with the bottom changes approved in August, 2019, by committees.
- Changes of note -
    - Every 5 points, versus 10 points, equal one year of property tax grant
    - Maximum length of a property tax grant - 20 years plus 1
    - Minimum 20 years of affordability versus 15 years
    - Addition of a Walkability Score
    - Addition of points for serving Low Income Individuals & Families under 60% AMI
    - Additional length of tenant affordability and update in points
    - Addition of points for accepting Tenant Based Rental Assistance
    - Addition of points for removing an individual from the Homeless by-name list
    - Addition of points for locating in the Central Business District
    - Points if part of a Brownfield Redevelopment
    - Points for energy efficiency
    - Points for Rehab / Redevelopment with added language that at a minimum, a 1 to 1 ratio of the redeveloped / rehabbed units must be targeted at the same Area Median Income (AMI) as the original units.
    - A criteria to access the Land Use Incentive Grant is that the building must be at least 70% residential in use based on square footage not to include a parking structure if applicable.
    - A scoring of 10 points for developers who add the elements of Universal Design for aging in place for at least 20% of the total units.
    - A scoring of 10 points for developers who build outside of a Qualified Census Tract (QCT). QCTs are census tracts in which at least 50% of the households have an income less than 60% of the Area Median Gross Income (AMGI). Link here to a QCT Map - Census Tracts 1,2,3,9,13,20,25.06 are all QCTs.
    - Added language to clarify that the City cannot accept a new or updated LUIG application after building permits have been issued.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- Affordable Housing Advisory Committee March 7, 2019 - recommended to move forward to HCD Committee unanimously
- Housing & Community Development Committee June 18, 2019 - passed unanimously, accepting all initial changes to the LUIG Policy
- Finance & Human Resources Committee - June 25, 2019 - passed unanimously, accepting all initial changes to the LUIG Policy
- Housing & Community Development Committee August 20, 2019 - passed unanimously, accepting additional updates to the LUIG Policy

- Finance & Human Resources Committee August 27, 2019 - passed unanimously, accepting additional updates to the LUIG Policy with added language noted in Redevelopment / Rehab

Pro(s):

- The proposed amendments come from staff, community stakeholders, developers and committee members over the past year that address issues of concern, such as accepting Housing Choice Vouchers, Energy Efficiency, and assisting our Homeless population
- The policy follows Community Development efforts of creating policies that are easy to comprehend, usable & equated to an investment dollar amount to be used as a source in a pro forma / balance sheet.
- Based on analysis, additional years of a property tax grant has the potential to incentivize developers to add affordable units

Con(s):

- The proposed increase in the term of the grant could defer the net increase of City of Asheville property taxes for affordable housing developments for as much as 21 years.

Fiscal Impact:

- The proposed increase in the term of the grant could defer the net increase of City of Asheville property taxes for affordable housing developments for as much as 21 years.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to amend the City's Land Use Incentive Policy. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 133

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Four individuals spoke in support of Council adopting a climate emergency resolution.

Mr. Quinn Powers, spoke about the problem of heroin use especially at the corner of Montana and Hanover.

Four individuals spoke about the need to extend evening service hours in this fiscal year.

Mr. Jonathan Wainscott spoke in support of districts.

Councilman Kapoor said the Finance & Human Resources Commission looked at an updated General Fund model. He said that the Mission dollars are already included in the base budget for next fiscal year. He reiterated that we can't fund transit using the General Fund and parking fees. The only way we can do it is to get some type of additional revenue source.

Councilwoman Mayfield said the 5-year projection is located on the City's website under the Finance & Human Resources Committee's October 22, 2019, meeting. She felt that since we want to do more transit, urban forester position, urban forestry plan, recycling position, put money in the capital budget for solar, add more money for affordable housing, compensation, etc., we need to be talking about a property tax increase next year until we get authorized to do something else, that is our only option.

Councilwoman Mayfield also said that we are in a climate crisis but Asheville is not doing nothing. We are doing more than any city in North Carolina. We are farther down the road in figuring out how to

implement our 100% renewal resolution and we have avoided the construction of a 190 megawatt natural gas fired peaker plant. Our resolution commits us to do more than just meet our own energy goals with renewable energy, we are also committed in supporting the County in their goal of 100% renewable for the community.

Mayor Manheimer agreed that the City has been working on this for a very long time. It's very clear that the biggest things that will make a difference is car driving and getting the state to mandate a renewable mix for generation in our state.

Closed Session

At 6:51 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1).The law that makes the information privileged and confidential is N.C. Gen. Stat. § 143-318.10(e); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, specifically the handling or settlement of claims, including but not limited to the following matter: City of Asheville v. Parkway Court, LLC, Case File Number 17 CVS 1380. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); and (3) To discuss matters relating to the location or expansion of industries or other businesses in the City of Asheville, including on a list of potential economic development incentives. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:19 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:19 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – November 12, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 22, 2019

B. RESOLUTION NO. 19-246 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH ADW ARCHITECTS P.A. FOR THE NEW FIRE STATION 13 BUILDING DESIGN SERVICES

Action Requested: Adoption of a contract (amendment) in the amount of $407,567 to increase professional services with ADW Architects, P.A., beyond the schematic design phase and to provide services for design development through project close-out for the full scope of the Fire Station 13 Design Services Project.

Background:

- The building needs (scope) were confirmed in preliminary design meetings with public safety departments to ensure that the facility, as proposed, will meet the immediate and future needs.Schematic design and cost estimates were generated as part of the initial design phase.
- The public was informed of the impacts of this facility to the neighborhood through a public engagement process focusing on facility operations and site development. Public input also helped to inform decisions related to the aesthetics of the building.
- The original design contract of $ 456,583 allowed for the schematic design of the facility which includes three apparatus bays, an Emergency Operations Center, and administration space to be used by public safety operations, and a community room.
- This facility will serve the joint use of the Fire and Police Departments and will help to improve the service response in the Five Points, Montford, UNC-Asheville, and Richmond Hill communities.
- This location represents additional facilities for both public safety departments.
- This amendment of $ 407,567 will fund project development through final design, bidding, construction administration, and project close-out.
- After this amendment, the total contract amount will be $ 864,150.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned business through solicitation processes

which included posting on the State's Interactive Purchasing System and requiring vendors to reach out to Minority & Women-Owned Business Enterprises (MWBE) for subcontracted services. Two Women-Owned Firms submitted qualifications for consideration. The selected team will be utilizing one subconsultant, Stewart Engineering, Inc, certified as a Historically Underutilized Business (HUB) and a Minority-Owned Enterprise (MBE) with the State of NC.

Council Goal(s):

- A Clean and Healthy Environment & A Financially Resilient City

Committee(s):

- None

Pro(s):

- The new emergency services building will provide improved response time to public safety calls.
- The new station will provide the dual uses of fire and police services and a community conference room.

Con(s):

- None

Fiscal Impact:

- Funding for this amendment is already included in the adopted Capital Improvement Program budget for Fire Station 13.

Motion:

- Motion to authorize the City Manager to execute a contract (amendment) with ADW Architects, P.A., in the amount of $ 407,567, and total contract amount of $864,150 for the New Fire Station 13 building design, and to further authorize the City Manager or designee to execute any change orders up to the contingency amount of 10% of the contract ($86,415).

RESOLUTION BOOK NO. 41 - PAGE 140

C. RESOLUTION NO. 19-247 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SOLE SOURCE PROCUREMENT OF IMAGING EQUIPMENT WITH VIKEN DETECTION FOR THE ASHEVILLE HIGH INTENSITY DRUG TRAFFICKING AREAS/DRUG ENFORCEMENT AGENCY TASK FORCE

Action Requested: Adoption of a resolution supporting the sole source procurement of imaging equipment with existing funds from the 2018 HIDTA grant.

Background:

- On October 23, 2018, and March 12, 2019, the City Council approved budget amendments to fund the 2018 HIDTA Program Grant to the total awarded amount of $345,416.
- The Asheville HIDTA/DEA Task Force requires a handheld X-Ray Imager for use in detecting concealed threats through steel vehicle fenders, steel doors, bumpers, exhaust manifolds, dashboards, seats and tires.
- Viken Detection is the only known manufacturer and United States distributor of the required equipment.
- The cost of the equipment is $50,435. This action does not increase the current budget.

Council Goal(s):

- A Connected and Engaged Community

Committee(s):
- Finance and Human Resources Committee, October 22, 2019 - Directed to move forward to the full City Council.
- Public Safety Committee, October 31, 2019 - Directed to move forward to the full City Council.

Pro(s):
- Fosters partnerships with Federal and local law enforcement agencies.

Con(s):
- None

Fiscal Impact:
- Funding for this purchase has been previously approved and is available for expenditure.

Motion:
- Move to adopt a resolution approving the sole source procurement of imaging equipment for the Asheville HIDTA/DEA Task Force.

RESOLUTION BOOK NO. 41 - PAGE 141

D. RESOLUTION NO. 19-284 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE CONTRACTS WITH EMERGENCY SOLUTIONS GRANT SUBRECIPIENTS AND EXECUTE ANNUAL SERVICES AGREEMENT FOR THE ASHEVILLE-BUNCOMBE HOMELESS MANAGEMENT INFORMATION SYSTEM WITH THE MICHIGAN COALITION AGAINST HOMELESSNESS

Action Requested: Adoption of a resolution to authorize the City Manager to execute contracts with Emergency Solutions Grant (ESG) subrecipients and execute annual services agreement for the Asheville-Buncombe Homeless Management Information System (HMIS).

Background:
- The City of Asheville serves as the Fiscal Sponsor for Emergency Solutions Grant funds allocated to Asheville by the NC Department of Health and Human Services.
- The City submitted the ESG Regional Application and accompanying project applications for a total of $125,971 on October 11, 2019.
- On October 30, 2019, NC Department of Health and Human Services announced that all applicant projects had been funded at the levels in the chart below.
- An additional $9,448 was awarded to the City of Asheville for administration of the awards.
- Operation of the community's Homeless Management Information System is a required component for both ESG and Continuum of Care funding. The Michigan Coalition Against Homelessness is the City's HMIS services provider. The annual services agreement must be executed at this time. The cost is offset by the ESG funding for HMIS.

FY 2019-20 ESG FUNDING AWARDS

PROJECT APPLICATION	TYPE	AWARD
CARING for Children - Trinity Place Youth Shelter	ES	$20,000

City of Asheville - HMIS	HMIS	$2,000
Homeward Bound - Homelessness Prevention	PVT	$58,000
Helpmate - Emergency Shelter	ES	$32,771
Helpmate - Rapid Rehousing for DV Survivors	RRH	$13,200
Administration	ADMIN	$9,448
Total of all FY2019 projects, plus admin:		**$135,419**

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- Homeless Initiative Advisory Committee - August 27, 2019
- Housing and Community Development - October 15, 2019

Pro(s):

- Provides funding to sustain existing homeless prevention, rapid rehousing, emergency shelter operations, HMIS, and administration of the awards.

Con(s):

- None.

Fiscal Impact:

- $135,419 in revenue to support existing homeless prevention, rapid rehousing, emergency shelter operations, HMIS, and administration of the awards. No matching funds from the City of Asheville are required. The cost of the HMIS annual services agreement is offset by the ESG award for HMIS.

Motion:

- Motion to authorize the City Manager to execute contracts with the subrecipients and with the Michigan Coalition Against Homelessness for the City's annual Homeless Management Information System services agreement.

RESOLUTION BOOK NO. 41 - PAGE 142

E. RESOLUTION NO. 19-249- RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT, GRANT FUNDS FROM THE U.S. DEPARTMENT OF JUSTICE FOR THE 2019 BULLETPROOF VEST PARTNERSHIP GRANT

ORDINANCE NO. 4777 - BUDGET AMENDMENT FROM THE U.S. DEPARTMENT OF JUSTICE FOR THE 2019 BULLETPROOF VEST PARTNERSHIP GRANT

Action Requested: Adoption of a resolution to apply for and accept the 2019 BVP Grant and adopt a budget amendment in the City's Special Revenue Fund in the amount of $50,438.62.

Background:

- The City of Asheville receives an annual opportunity to apply for a U.S. Department of Justice (DOJ), Bulletproof Vest Partnership Grant (BVP).
- The DOJ has preliminarily determined that the Asheville Police Department (APD) is eligible to receive a 2019 award of $25,219.31 which requires a dollar for dollar match by the City.
- The funding will allow the purchase of 78 bulletproof vests over the 2 year life of the grant.

Council Goal(s):
- A Connected and Engaged Community

Committee(s):
- Finance & Human Resources Committee, October 22, 2019 - Directed to move forward to the full City Council.
- Public Safety Committee, October 31, 2019 - Directed to move forward to the full City Council.

Pro(s):
- Increases officer safety by providing crucial safety equipment.

Con(s):
- None

Fiscal Impact:
- The City of Asheville's match is $25,219.31 and is included in the APD Fiscal Year 2020 budget.

Motion:
- Motion to adopt a resolution approving the application and acceptance of the grant and a budget ordinance amendment to appropriate the funding.

RESOLUTION BOOK NO. 41 - PAGE 143
ORDINANCE BOOK NO. 33 - PAGE 1

F. ORDINANCE NO. 4778 - BUDGET AMENDMENT TO ACCEPT STAFFING FOR ADEQUATE FIRE AND EMERGENCY RESPONSE GRANT FOR UPSTAFFING IN THE ASHEVILLE FIRE DEPARTMENT

Action Requested: Adoption of a budget amendment in the City's Special Revenue Fund in the amount of $868,014 utilizing the Federal Emergency Management Agency (FEMA) Staffing for Adequate Fire and Emergency Response (SAFER) Grant and City matching funds.

Background:
- On October 23, 2018, City Council passed a resolution to authorize the City Manager to apply for the three FEMA grants. One of these grants was the SAFER grant.
- The SAFER program is designed to help fire departments hire and train additional firefighters to provide for a safer emergency scene.
- In 2018, the Asheville Fire Department was awarded the grant to provide funding for nine firefighters for a total of $1.3 million.
- In 2019, for the second year in a row, the Asheville Fire Department was awarded the SAFER grant but this year it provides funding for six firefighters for a total of $535,275, with the City's cost over the three-year grant period being $332,739.
- The budget amendment in the Special Revenue Fund reflects the full grant award and match from the City over the three year grant period. The City's match of $72,335 for the

current fiscal year will come from anticipated savings in the existing Fire Department General Fund budget.
- For the remainder of the grant period, the Department and the Budget office will include the City's General Fund match as part of each year's annual budget process.

Council Goal(s):
- Smart City

Committee(s):
- Finance and Human Resources Committee - October 22, 2019 - Approved
- Public Safety Committee - October 31, 2019 - Approved

Pro(s):
- Firefighter and public safety would be increased significantly

Con(s):
- The City's total match over the three year period is $332,739
- Added outfitting and equipment costs to be absorbed in this fiscal year's operating budget
- Grant funding ends after Fiscal Year 2021-22

Fiscal Impact:
- The City's total share over the three year period will be at least $332,739. Furthermore, the Asheville Fire Department will utilize already budgeted funds in the General Fund to outfit and equip the six new firefighter recruits. The grant does not require the City to maintain the higher level of staffing after year three.
- If Council direction at year four was to continue the higher staffing level, the City would be responsible for the full cost of the six positions. If the direction was to return to current level staffing after year three, the firefighters hired under the grant would be reassigned within the department and normal hiring in year four would be curtailed, with no ongoing staff or financial impact.
- In the current fiscal year, the federal grant funds are 75% of the total compensation and benefits and amount to $217,004. The City is responsible for a 25% match of compensation and benefits which amounts to $72,335.
- In the second year, the grant funds and City responsibility are the same as in the first year.
- In the third year, the grant funds 35% of the salary and benefits for the six firefighters to equal $101,269 while the City's responsibility is $188,070.

	FY 19-20	FY 20-21	FY 21-22	Total
Grant Funds	$217,003	$217,003	$101,268	$535,275
City Funds	$72,335	$72,335	$188,070	$332,739
Total	$289,338	$289,338	$289,338	$868,014

Motion:
- Motion to adopt a budget amendment in the City's Special Revenue Fund in the amount of $868,014 utilizing the FEMA SAFER Grant and City matching funds.

ORDINANCE BOOK NO. 33 - PAGE 2

G. RESOLUTION NO. 19-250 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH TENNOCA CONSTRUCTION COMPANY FOR THE HAYWOOD STREETSCAPE PROJECT

RESOLUTION NO. 19-251 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MEMORANDUM OF UNDERSTANDING WITH THE METROPOLITAN SEWERAGE DISTRICT OF BUNCOMBE COUNTY FOR COST SHARING FOR THE HAYWOOD STREETSCAPE PROJECT

ORDINANCE NO. 4779 - BUDGET AMENDMENT FROM MSD TO BUDGET THEIR SHARE OF THE HAYWOOD STREETSCAPE PROJECT

Action Requested: Adoption of: 1) a resolution authorizing the City Manager to enter into a cost sharing Memorandum of Understanding with the Buncombe County Metropolitan Sewerage District (MSD); 2) execution of a contract with Tennoca Construction Co. in the amount of $4,749,345 for the construction of the Haywood Streetscape Project contingent upon the approval of the project by MSD; and further authorizing the City Manager to execute any change orders that may arise during the project up to the 10% contingency amount that is included in the $4,749,345; and 3) a budget amendment in the amount of $1,709,532 to budget MSD's share of the project cost.

Background:

- The City has prioritized this project as a major need and a safety issue. The project is included in the November 2016 Transportation Bond.
- City Council approved a design contract for this streetscape in August 2018.
- The scope of the construction will include needed sidewalk rehabilitation, Americans with Disabilities Act (ADA) improvements, street resurfacing, stormwater improvements, sanitary sewer improvements, water line improvements, and added site amenities.
- Because multiple agencies are requiring infrastructure improvements as part of this project, a partnership is being created to fairly share costs between the City (streetscape), the City's water department, and MSD.
- Bid documents were compiled to include capital improvements for the City's transportation bond fund, the City's water department, and MSD. Costs for each entity are itemized individually. A Memorandum of Understanding is being executed to detail the reimbursement procedures for each agency.
- Bids for prequalified contractors were initially advertised on August 15, 2019. Only two bids were received at the bid opening deadline, so the project was readvertised and bids were opened on October 10, 2019.
- The City received two bids. The contractor names and bid amounts for the total base bids (including Streetscape, Water and MSD) are listed below:
    - Tennoca Construction Company of Candler, NC: $ 5,855,319.
    - Thomas Construction Company of Johnson City, TN: $ 6,145,128.
- Tennoca Construction Co. was the lowest responsive, responsible bidder; however the low bid exceeded each agencies available budget for the project, so the City and MSD entered into negotiations with the lowest responsible bidder on October 22, 2019.
- Those negotiations resulted in a revised total contract price of $4,749,345.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business

Enterprises (MWBE) for subcontracted services. MWBE subcontractors are anticipated to be used on this project. They include New Dimensions in Pavement Markings, Fletcher NC; Concrete Specialty Contractors, Inc, Shelby NC; Hamilton Hauling LLC, Candler NC.

Council Goal(s):

- A well planned and liveable community; Transportation and accessibility; Thriving local economy

Committee(s):

- Tree Commission (8/19/19); Downtown Commision Design Review Committee (2/19/19 & 11/14/18); Bike/Ped Task Force (1/16/19); Multimodal Commission (10/24/18).

Pro(s):

- Addresses needed infrastructure and safety improvements and delivers on sidewalk, drainage, and roadway improvements identified in the approved 2016 Bond Referendum.
- Coordinates construction between the City and MSD Capital Improvement Projects that will reduce redundancy in costs and in construction impacts to the public during the future construction process.

Con(s):

- This project will cause disruption in the downtown area throughout the entire duration of the approximate ten month construction project.

Fiscal Impact:

- The total amount of the contract plus contingency is $4,749,345. The breakdown of costs between the City's General Capital Projects Fund, the City's Water Resources Capital Projects Fund, and MSD is shown in the table below. The City funding is already included in those respective funds adopted budgets.

City General CIP (Bond Program)	$2,346,307
City Water CIP	$693,506
MSD	$1,709,532
Total	$4,749,345

Motion:

- Adoption of a resolution authorizing the City Manager to enter into a cost sharing Memorandum of Understanding with MSD, as well as executing a contract with Tennoca Construction Co. in the amount of $4,749,345 for the construction of the Haywood Streetscape Project contingent upon the approval of the project by the MSD Board; and further authorizing the City Manager to execute any change orders that may arise during the project up to the 10% contingency amount that is included in the $4,749,345; and a budget amendment in the amount of $1,709,532 to budget MSD's share of the project cost.

RESOLUTION NO. 19-250 - RESOLUTION BOOK NO. 41 - PAGE 144

ORDINANCE BOOK NO. 33 - PAGE 3

H. **RESOLUTION NO. 19-252 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND AN EXISTING CONTRACT WITH POYNER SPRUILL FOR OUTSIDE COUNSEL**

ORDINANCE NO. 4780 - BUDGET AMENDMENT FOR OUTSIDE COUNSEL AND ADDITIONAL OUTSIDE LEGAL SERVICE EXPENSES

Action Requested: Adoption of a resolution that would authorize the City Manager to amend an existing contract with Poyner Spruill for outside counsel; and the associated budget amendment in the amount of $100,000 to fund the contract amendment and additional outside legal service expenses.

Background:
- Current contract funds have been depleted.
- Cases in both the Supreme Court and Court of Appeals are expected to be lengthy and costly.

Vendor Outreach Efforts:
- Since this was a pre-existing contract, no new vendor outreach was pursued.

Council Goal(s):
- An equitable and diverse community.
- A well-planned and livable community
- A clean and healthy environment.
- Quality affordable housing.

Committee(s):
- None

Pro(s):
- Provides the needed resources to enforce the City's ordinances.

Con(s):
- None identified.

Fiscal Impact:
- Funding for this budget amendment will come from unassigned General Fund fund balance.

Motion:
- Move to adopt a resolution that would authorize the City Manager to amend an existing contract with Poyner Spruill for outside counsel; and the associated budget amendment in the amount of $100,000 to fund the contract amendment and additional outside legal service expenses.

RESOLUTION BOOK NO. 41 - PAGE 146
ORDINANCE BOOK NO. 33 - PAGE 4

I. **RESOLUTION NO. 19-253 - RESOLUTION FOR THE STANDARDIZATION PROCUREMENT OF EQUIPMENT AND SERVICES FOR THE RELOCATION OF PEACH KNOB PUBLIC SAFETY RADIO SYSTEM EQUIPMENT AND AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH MOTOROLA SOLUTIONS INC.**

Action Requested: Adoption of a resolution authorizing the Information Technology Services Department to purchase antenna equipment and related services to relocate an existing radio system simulcast site to an adjacent State-owned radio tower based on standardized needs.

Background:

- In 2015, the City Council awarded a contract to Motorola Solutions, Inc. to replace the City's public safety radio system.
- One of four simulcast radio sites is located at the City's aging Peach Knob tower facility which is over capacity due to changes in the building code.
- Through the terms of a recently adopted mutual tower sharing agreement with the State of North Carolina Department of Public Safety, the City is able to relocate the Peach Knob simulcast site to the State's higher capacity radio tower facility located adjacent to the Peach Knob tower facility.
- Motorola Solutions equipment is used at the Peach Knob facility and is covered by an existing support and maintenance agreement.

Vendor Outreach Efforts:

- Due to the need for standardization and compatibility with existing equipment, Motorola Solutions, Inc. is the only provider qualified to perform the relocation of the City's radio equipment at this site.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None

Pro(s):

- Continues a mutual tower sharing partnership with the NC Department of Public Safety
- Allows the City's radio system to operate on a more reliable tower with a superior equipment facility.
- Project maintains existing maintenance and support obligations of the equipment manufacturer.

Con(s):

- None

Fiscal Impact:

- The total amount of this expenditure including taxes will be approximately $48,000. This will be allocated from the City's tower management budget specifically designated for upkeep and maintenance of City radio tower facilities.

Motion:

- Motion to adopt a resolution authorizing the Information Technology Services Department to purchase antenna equipment and related services to relocate an existing radio system simulcast site to an adjacent State-owned radio tower based on standardized needs. resolution for the standardization procurement of equipment and services for the relocation of Peach Knob public safety radio system equipment and authorizing the City Manager to execute an agreement with Motorola Solutions, Inc.

RESOLUTION BOOK NO. 41 - PAGE 147

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT

2020 Census Coordination Efforts Update

City Manager Campbell introduced Director of Planning & Urban Design Todd Okolichany who provided Council with a brief update on the City's 2020 Census coordination efforts. He said the Census Bureau administers the Census using Federal resources and the Census utilizes local governments to increase participation rates. Postal mailings will be distributed mid-March 2020 and will be active through July. Mailings will provide three methods to complete the Census (Phone, Online, and In-Person). Census will never call never call or email you. In-person Census employees will have official identification. 2020 Census will be the "short form" version (i.e., 10-15 questions). After several mailed reminders, Census employees will knock on doors in July to contact those residents who have not returned their form. Census runs March - July. Final counts are reported to the President on December 31, 2020. Partnership with Buncombe County, who is leading this effort, and other organizations. By law, U.S. Census keeps records confidential for 72 years and does not share this information with other agencies (e.g. ICE). Goal is to reach "hard to count populations", such as traditionally under-resourced neighborhoods, children, seniors, people experiencing homelessness, university students, veterans, and others. There are 16 federal assistance programs that use the census data to determine how to distribute funds (e.g. Medicaid). The Complete County Committee (CCC) is a Census-recommended cross-sector committee designed to encourage participation in their community. Primary objective is to develop an outreach plan tailored to the unique characteristics of their community. The Buncombe County CCC includes representatives from: City of Asheville and other local governments, Schools (e.g.,ACS, BCS), Universities (e.g., UNCA, AB-Tech), Non-profit Community (e.g., United Way), Faith Community (e.g., churches), and Business (e.g., large employers). Next steps include Census Training: October 10; Full CCC meeting in November; Convene Subcommittees; and Develop Communication Plan: late October. Ongoing there will be recruit for Census employees (Partnership, Recruiting Specialists); Coordinate with partner organizations; and Implement cross-municipality marketing campaign. Right now the priority is hiring enough census workers to help count the population in 2020. Buncombe County is currently behind in how many people have applied. Target is 2,250 applications. It's important to know that (1) Jobs can be part-time and flexible schedule; (2) Census workers work from home; and (3) Census taking jobs pay $14.00 in Buncombe County. Staff will update Council on a quarterly basis in 2020.

RESOLUTION NO. 19-254 - RESOLUTION AUTHORIZING 2020 CENSUS PARTNERSHIP

The City of Asheville (1) Commits to partnering with the U.S. Census Bureau and the State of North Carolina; (2) Will support the goals for the 2020 Census and will disseminate 2020 Census information; and encourage all City residents to participate in events and initiatives that will raise the overall awareness of the 2020 Census and increase participation; (3) Will provide Complete Count Committee and Census advocates to speak to City and community

organizations; and support census takers as they help our City complete an accurate county; and (4) Will strive to achieve a complete and accurate count of all persons within our City.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of a resolution authorizing the 2020 census partnership. This motion was seconded by Councilman Young carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 148

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS AND COMMISSIONS

RESOLUTION NO. 19-255 - RESOLUTION APPOINTING A MEMBER TO THE ALCOHOLIC BEVERAGE CONTROL BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Alcoholic Beverage Control Board.

The term of Jan Davis will expire on November 13, 2019.

The following individuals applied for the vacancy: Timothy W. Collins, Arthur Michael Edwards, Ander Schreiner and Scott Fowler.

The Boards & Commissions Committee recommended reappointment of Mr. Davis.

Vice-Mayor Wisler moved to reappoint Jan Davis to serve an additional three-year term to the Alcoholic Beverage Control Board, term to expire November 13, 2022, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 149

RESOLUTION NO. 19-256 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE CRIMESTOPPERS BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville-Buncombe Crime-Stoppers Board.

Beau Dean and Tana Macaluso have both resigned as members of the Asheville-Buncombe Crimestoppers Board, both leaving unexpired terms until June 30, 2020.

The following individuals applied for the vacancies: Travis Smith and Alvin Malesky Jr.

The Boards & Commissions Committee recommended appointing Travis Smith and Alvin Malesky..

Vice-Mayor Wisler moved to (1) appoint Travis Smith as a member of the Asheville-Buncombe Crimestoppers Board to serve the unexpired term of Mr. Dean, term to expire June 30, 2020, and (2) appoint Alvin Malesky as a member of the Asheville-Buncombe Crimestoppers Board to serve the unexpired term of Ms. Macaluso, term to expire June 30, 2020. Both terms are until their successors have been appointed.This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 150

RESOLUTION NO. 19-257 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Asheville-Buncombe Historic Resources Commission.

Ms. Hillary Mannion has resigned, thus leaving an unexpired term until July 1, 2020.

The following individual applied for the vacancy: Will Hornaday.

The Boards & Commissions Committee recommended appointing Will Hornaday.

Vice-Mayor Wisler moved to appoint Will Hornaday to serve the unexpired term of Ms. Mannion, as a member of the Asheville-Buncombe Historic Resources Commission, term to expire July 1, 2020, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 151

RESOLUTION NO. 19-258 - RESOLUTION APPOINTING MEMBERS TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Homeless Initiative Advisory Committee.

The terms of David Nash and Randy Stoudy (homeless or formerly homeless seat), expired on November 1, 2019.

The following individuals applied for the vacancy: Josh Ivey, Annie Carpenter, Karen George, Shannon Watkins, Sarah Tarpey, Patrick Sasale, Patrick Gensert, Rachel Bliss, Kelby Hartson Carr, Paul Robinson, Thomas Parker and Sherab Chodron.

The Boards & Commissions Committee recommended reappointing Mr. Nash and Mr. Stoudt.

Vice-Mayor Wisler moved to reappoint David Nash and Randy Stoudt (homeless or formerly homeless seat) to each serve a three-year term, terms to expire November 1, 2022, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 152

RESOLUTION NO. 19-259 - RESOLUTION APPOINTING MEMBERS TO THE SOIL EROSION AND STORMWATER REVIEW COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Soil Erosion and Stormwater Review Committee.

The terms of Pete Hildebrand and Catherine Rosjford, expired on November 1, 2019.

The following individuals applied for a vacancy: None.

The Boards & Commissions Committee recommended reappointing Mr. Hildebrand and Ms. Rosjford.

Vice-Mayor Wisler moved to reappoint Pete Hildebrand and Catherine Rosjford to each serve an additional three-year term, terms to expire November 1, 2022, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 153

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Closed Session

At 5:16 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(1). The statutory authorization is contained in N.C.G.S. 143-318.10 (e); and (2) To consult with an attorney employed by the City about an administrative procedure and the handling of a claim with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 5:58 p.m., Councilman Young moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 5:58 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – November 26, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branhan; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 12, 2019

B. RESOLUTION NO. 19-260 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT AT RICHMOND HILL PARK ON CITY-OWNED PROPERTY TO DEPENDABLE HOUSE BUYER, LLC.

Action Requested: Adoption of a resolution authorizing the City Manager to execute an access easement to Dependable House Buyer LLC over City-owned property at Riverview Church Road.

Background:

- The City of Asheville owns 150 acres of property known as Richmond Hill Park. An existing gravel and soil road runs through the western-most portion of Richmond Hill Park and is currently used to access several adjacent homes. It has been in use for over twenty years as documented in Plat Book 98, Page 195, however no formal easement exists between the City and the homeowners.
- The City of Asheville commissioned a survey of the property in 2005. That survey is provided as Exhibit A and shows the area of the existing access road.
- A local developer (Dependable House Buyer LLC) has approached the City with a request for a formal access easement and a willingness to repair the road and maintain it. He purchased 4.8 acres of land in the land-locked neighborhood.
- The road is on a part of the park that is not in use for recreation. Parks and Recreation was consulted by the Real Estate Division and they have no objections to the access easement.
- The City is not interested in maintaining this road according to Public Works and Transportation Departments and it will remain open to the general public as a condition of the easement.
- The developer's surveyor has estimated that the road would be approximately 1,050 feet long and 45' wide, making the permanent easement 47,250 square feet or 1.085 acres.
- The developer has offered to pay $9,000 for the easement and perform maintenance and repair of the road. Recent land sales in the area, including the developer's purchase of 4.8 acres of land for $65,000, indicate that this is a reasonable offer for the easement.

Council Goal(s):

- A Well Planned and Liveable Community

Committee(s):
- Not Applicable

Pro(s):
- This access road will be improved and maintained with no cost to the City.
- This existing road will be established as legal access.
- Developer is paying for the access easement.

Con(s):
- This easement will grant permanent easement rights within a City-owned park but the access use does not interfere with the park's recreational uses.

Fiscal Impact:
- The City will have no financial responsibility associated with maintenance of the road.
- Compensation for the easement will benefit the General Fund.

Motion:
- Motion to approve a resolution authorizing the City Manager to convey a non-exclusive access easement to Dependable House Buyer, LLC.

RESOLUTION BOOK NO. 41 - PAGE 154

C. RESOLUTION NO. 19-261 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BEVERLY GRANT/BARNHILL JOINT VENTURE TO ADD TO THE SCOPE OF THE CONSTRUCTION PROJECT ADDITIONAL INFRASTRUCTURE IMPROVEMENTS FROM THE RIVERSIDE DRIVE RAILROAD CROSSING TO HILL STREET

Action Requested: Adoption of a resolution authorizing the City Manager to execute a change order not-to-exceed $1,800,000 with Beverly Grant/Barnhill Joint Venture to add to the scope of the construction project additional infrastructure improvements from the Riverside Drive railroad crossing to Hill Street.

Background:
- Value engineering of the RADTIP back in June 2017 included eliminating proposed "jughandles" at the Riverside Drive railroad crossing and an associated retaining wall that would have cost $2,461,000. These jughandles were designed to improve the safety of bicycles crossing the Norfolk Southern rail lines in both directions through a more perpendicular crossing.
- Since eliminating these proposed improvements, city staff and the engineering consultants for this project have explored alternative methods of providing safe bicycle crossing without the need to build a cost prohibitive retaining wall for the northbound bicycle traffic. Southbound bicycle traffic will have a dedicated jughandle crossing if this change order is approved.
- The design alternative selected for northbound bicycle traffic that can be implemented within the existing RADTIP budget involves building a narrowed 10' vehicle lane with a wider 6' wide bicycle lane that transitions to a shared vehicle/bicycle facility ("sharrows") at the Riverside Railroad crossing. This design allows a bicyclist to cross the tracks at a more perpendicular angle.

Vendor Outreach Efforts:

- DBE participation on this project is currently tracking at 6.7% to date. This change order is anticipated to include 9% in DBE participation.

Council Goal(s):
- A well-planned and livable community
- Transportation and Accessibility
- Smart City.

Committee(s): Staff has presented this information to the following stakeholders and committees prior to bringing this recommendation to Council.
- Asheville Bicycle and Pedestrian Task Force - October 17, 2019
- Multimodal Commission - September 25, October 30, 2019

Pro(s):
- Makes bicycle crossings safer at a location that has a history of documented injuries.
- Provides safe pedestrian access to newly constructed bond funded sidewalks at Hill Street.
- Provides much needed stormwater infrastructure in an area that historically ponds water on a routine basis.
- Utilizes available TIGER VI grant funding thereby reducing the local funding required to make improvements.
- All improvements can be funded using available project contingency.
- Continues to deliver on the original commitments of RADTIP, providing pedestrian and bicycle connectivity from Hill Street to the North to Amboy Road to the South of the RAD.
- This work will be completed by Aug. 2020 within the same timeframe of the original construction schedule.

Con(s):
- Does not include the "ideal" jughandle bicycle crossing design for the northbound bicyclists.
- In order to take advantage of the remaining TIGER grant funds, Federal Highway Authority (FHWA) requires that this contract addition be negotiated with the current contractor and not competitively bid.

Fiscal Impact:
- The funding required to add this scope back into the construction contract is available within the contingency of the already approved project budget. No additional funding is required. The approval of this not-to-exceed $1,800,000 change order plus the current contract value of $31,532,920.54 will bring the total contract value to not-to-exceed $33,332,920.54

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a change order for not-to-exceed $1,800,000 with Beverly Grant/Barnhill Joint Venture to add to the scope of the construction project additional infrastructure improvements from the Riverside Drive railroad crossing to Hill Street.

Mr. Michael Soule and Clark Mackey, representing Asheville on Bikes, thanked City Council for these improvements but also urged City Council to work towards making infrastructure improvements north on Riverside Drive safe for people in all modes of transportation.

Vice-Mayor Wisler noted that staff is still working on problems associated with the railroad crossing.

RESOLUTION BOOK NO. 41 - PAGE 155

D. RESOLUTION NO. 19-262 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH GREYBEARD FENCING SOLUTIONS FOR THE RAY L. KISIAH PARK FENCING IMPROVEMENTS

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a construction contract with Greybeard Fence Solutions of Mars Hill, NC, in the amount of $184,939 and to further authorize change orders up to the contingency amount of $18,494 (10%) for Ray L. Kisiah Park fencing improvements.

Background:

- The project upgrades were approved in the GO Bond and will allow for the replacement of outdated facilities including sports field fencing and amenities.
- This project will improve the appearance, usefulness, and safety of facilities, and help the department implement the Parks, Recreation, Cultural Arts Master Plan adopted by City Council in 2009.
- Three bids were received and opened on October 30,2019:
    - Greybeard Fencing Solutions, Mars Hill, NC $184,939
    - Seegars Fencing, Woodruff, SC $245,465
    - Asheville Contracting Co. Inc., Candler, NC $408,000 (HUB-Women Owned Business)

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which include posting on the State's Interactive Purchasing System, targeted outreach with the City's Business Inclusion Manager, and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- Greybeard Fencing Solutions, Mars Hill, NC was found to be the lowest responsible/responsive bidder for this project.

Council Goal(s):

- A Clean and Healthy Environment & A Well-Planned and Livable Community.

Committee(s):

- Recreation Advisory Board (November 10) - project status update

Pro(s):

- Addresses needed infrastructure and safety improvements and delivers on ballfield improvements identified in the approved 2016 Bond Referendum.
- The facility will be under construction for 8-10 weeks during the off-season to minimize impacts to programs.

Con(s):

- None

Fiscal Impact:

- Funding for this contract exists within the approved GO Bond Capital Budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a construction contract with Greybeard Fence Solutions of Mars Hill, NC, in the amount of $184,939 and

to further authorize change orders up to the contingency amount of $18,494 (10%) for Ray L. Kisiah Park fencing improvements.

RESOLUTION BOOK NO. 41 - PAGE 156

E. RESOLUTION NO. 19-263 - RESOLUTION AUTHORIZING procurement of the CANDIDATE PHYSICAL ABILITY TEST EQUIPMENT FROM SOLE SOURCE VENDOR CPAT DISTRIBUTION INC. FOR THE ASHEVILLE FIRE DEPARTMENT

Action Requested: Adoption of a resolution authorizing the procurement of the Candidate Physical Ability Test equipment from sole source vendor CPAT Distribution, Inc.

Background:

- Through the Asheville Fire Department's accreditation process with Center for Public Safety Excellence, it was recommended for AFD to administer a nationally validated physical ability test for firefighter candidates. The Human Resources Department has supported this recommendation.
- To utilize a validated physical ability test means an outside organization has evaluated the test for its applicability to the job of a firefighter in the Asheville Fire Department
- The Fire Service Joint Labor Management Wellness/Fitness Initiative Task Force between the IAFF and the IAFC was tasked with addressing the issue of physical performance in the fire service.
- The Candidate Physical Ability Test (CPAT) was developed to be a fair evaluation system in the selection of firefighters to ensure that all firefighter candidates possess the physical ability to complete critical tasks effectively and safely.
- Their development of CPAT to obtain a diverse pool of candidates who are physically capable of performing the tasks required by firefighters has become the standard for entry level firefighter physical ability testing.
- Based on the standard established by the Task Force, the Asheville Fire Department will utilize the CPAT to ensure it is adhering to the industry's best practices for a validated physical ability test.
- The Asheville Fire Department holds the Candidate Physical Ability Test Program License. To maintain the license, the Department is required to obtain a specified set of equipment to administer the test. Some of this equipment is only manufactured for and distributed by CPAT Distribution, Inc.
- The cost of the equipment from CPAT Distribution, Inc. is approximately $20,000.

Vendor Outreach Efforts:

- Due to the need for compatibility with the Candidate Physical Ability Test, CPAT Distribution, Inc. is the only manufacturer and distributor of this equipment.

Council Goal(s):

- Smart City
- Thriving Local Economy

Committee(s):

- Public Safety Committee - October 31, 2019 - Approved

Pro(s):

- Implementing the CPAT furthers the City's goal of equity and inclusion in the recruiting process.
- Allows the Department to meet the recommendation from the Center for Public Safety Excellence to utilize a nationally validated physical ability test.

- Reduces the risk of liability to the City from possible litigation over implicit bias in physical ability testing.

Con(s):
- None

Fiscal Impact:
- Funding for this purchase is already included in the Fire Department budget.

Motion:
- Move to adopt a resolution authorizing the procurement of the Candidate Physical Ability Test equipment form sole source vendor CPAT Distribution, Inc.

RESOLUTION BOOK NO. 41 - PAGE 157

F. RESOLUTION AUTHORIZING EXCHANGE OF REAL PROPERTY LOCATED ON SOUTH MARKET STREET FOR PROPERTY LOCATED ON BEAUMONT STREET

RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT DONATION AND CONVEYANCE OF REAL PROPERTY ADJACENT TO CITY-OWNED PROPERTY AT 161 S. CHARLOTTE STREET FROM FIFTY FIVE SOUTH MARKET, LLC.

These items have been removed from consideration at this meeting.

G. ORDINANCE NO. 4781 - ORDINANCE CHANGING THE NAME OF THE TREE COMMISSION TO URBAN FORESTRY COMMISSION AND SUPPORT BY THE DEVELOPMENT SERVICES DEPARTMENT

Action Requested: Adoption of an ordinance changing the name of the City's Tree Commission to the "Urban Forestry Commission" and be supported by the Development Services Department.

Background:
- In 1965, the City of Asheville adopted Ordinance Number 1677, establishing the Asheville Tree Commission.
- The Tree Commission has advised Council with respect to the planting, replacement, and removal of trees in the City.
- The Tree Commission has determined that its name should be changed to the Urban Forestry Commission as urban forestry is now the common term used to describe the ways in which c ties manage their forest assets.
- Staff is further recommending that Section 2-161 of the City Code be modified to allow the City Manager to appoint the appropriate staff to serve as support for the Commission.

Council Goal(s):
- A well-planned and livable community

Committee(s):
- Boards and Commissions Committee (recommended approval on August 27, 2019)

Pro(s):
- Will modernize the Tree Commission's name.
- Will increase flexibility with respect to staffing support.

Con(s):
- None noted.

Fiscal Impact:
- None.

Motion:
- Move to adopt an ordinance changing the name of the City's Tree Commission to the "Urban Forestry Commission" and be supported by the Development Services Department.

ORDINANCE BOOK NO. 33 - PAGE 5

H. RESOLUTION NO. 19-164 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR APPRENTICESHIP AND INTERNSHIP PROGRAM GRANTS, AND IF AWARDED, AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE APPRENTICESHIP AND INTERNSHIP PROGRAMS FOR FISCAL YEAR 2020-21

Action Requested: Adoption of a resolution authorizing the City Manager to apply for the North Carolina Department of Transportation (NCDOT) Apprenticeship and Internship Grant Program and if awarded, authorize the City Manager to enter into an agreement with NCDOT to fund the Apprenticeship and Internship Programs for Fiscal Year (FY) 2020-21.

Background:
- The NCDOT announced during the week of November 11th the availability of funding for the State's Apprenticeship and Internship program for students seeking to work with public transportation agencies in the state of North Carolina.
- During FY 2019-20, the City of Asheville's Transportation Department applied for and received grant funds to sponsor an apprentice or intern to work with staff in the Transportation Department interested in learning more about public transportation.

Council Goal(s):
- A well-planned and livable community
- Transportation and accessibility

Committee(s):
- None - Finance & Human Resources Committee cancelled November 26, 2019, meeting

Pro(s):
- Provides funding for an apprenticeship or internship position within the Transportation Department.
- Grant funds supplements funding for apprenticeship and/or internship positions for FY 2020-21.

Con(s):
- The required 10% local match of $5,503.30.

Fiscal Impact:
- The total grant funding being requested for the Fiscal Year 2020-21 NCDOT Apprenticeship and Internship Programs is estimated to be $55,053. The City's required 10% local match is $5,503.30, and the State grant would be approximately $49,549.70.

Both the State grant and the City's local match will need to be budgeted in the FY 2020-21 Transit Services Budget.

Motion:

- Motion to approve a resolution authorizing the City Manager to apply for and accept funding from NCDOT Grant Program and if awarded, authorize the City Manager to enter into an agreement with the NCDOT to fund the Apprenticeship and Internship Program for FY 2020-21.

RESOLUTION BOOK NO. 41 - PAGE 157

I. RESOLUTION NO. 19-265 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH J. BRADY CONTRACTING INC. TO COMPLETE AN EMERGENCY REPAIR OF HVAC UNITS AND CONTROLS IN THE THOMAS WOLFE AUDITORIUM

ORDINANCE NO. 4782 - BUDGET AMENDMENT TO COMPLETE AN EMERGENCY REPAIR OF HVAC UNITS AND CONTROLS IN THE THOMAS WOLFE AUDITORIUM

Action Requested: Adoption of a resolution authorizing the City Manager to amend the contract with J. Brady Contracting, Inc. in the amount of $50,000 to complete an emergency repair of Heating Ventilation and Air Conditioning (HVAC) units and controls in the Thomas Wolfe Auditorium, and budget amendment in the amount of $50,000 from USCC fund balance.

Background:

- The main heating element in the Thomas Wolfe Auditorium seating area has failed, leaving the venue at 50% capacity for heating. Additionally, in the past several months numerous air conditioning coils have failed leaving the venue at roughly 25% capacity for cooling.
- An immediate repair is necessary, if the last remaining unit fails the venue is at risk of closing and potentially cancelling events.
- A timely repair is possible within the next six weeks if a current contract with J.Brady Contracting Inc. is amended and a transfer of $50,000 is made from the U.S. Cellular Center's appropriated fund balance by November 27th.
- Staff intends to announce potential transformative enhancements to the Thomas Wolfe Auditorium in December, 2019.

Vendor Outreach Efforts:

- Not Applicable; amendment of a current contract.

Council Goal(s):

- A Thriving Local Economy
- A Clean and Healthy Environment

Committee(s):

- None.

Pro(s):

- Repairs help ensure the Thomas Wolfe Auditorium remains open for the near future.
- Repairs allow for guests at events at the Thomas Wolfe Auditorium to enjoy performances in a comfortable environment.

Con(s):

- This repair enhances controls of cooling and heating, however does not address the physical aspects of the cooling system in the seating chamber.

Fiscal Impact:

- U.S. Cellular Center operating fund balance will be reduced by $50,000. Total fund balance will remain above the 16% minimum recommended by policy.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a contract amendment to the construction manager-at-risk contract with J. BRADY CONTRACTING, INC., in the amount of $50,000.00, for a total maximum price of $4,031,264.79 to complete HVAC repairs at the Thomas Wolfe Auditorium within the U.S. Cellular Center Facility Renovation and HVAC Modernization contract; and adopt a budget amendment in the amount of $50,000 from USCC fund balance.

RESOLUTION BOOK NO. 41 - PAGE 158
ORDINANCE BOOK 33 - PAGE 7

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNOPENED ALLEY KNOWN AS LENNOX COURT

RESOLUTION NO. 19-266 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED ALLEY KNOWN AS LENNOX COURT

Streets Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened alley known as Lennox Court. This public hearing was advertised on November 1, 8, 15 and 22, 2019.

Background:

- N. C. General Statute Sec. 160A-299 grants cities the authority to permanently close streets and alleys.
- The Jewish Community Center has petitioned the closure and owns one adjacent property, 236 Charlotte Street (PIN # 9649-54-9870).
- This closure allows maximum land use potential for further development in accordance with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Multimodal Transportation Committee -August 28, 2019 - Recommended closing the right of way as long as pedestrian access is intact. This condition has been met.

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):

- None

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 5:12 p.m.,

Mr. Warren Suggs spoke in support of the closing.

Mayor Manheimer closed the public hearing at 5:13 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to permanently close an unopened alley known as Lennox Court. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 160

B. **PUBLIC HEARING TO PERMANENTLY CLOSE TWO UNOPENED RIGHTS-OF-WAY KNOWN AS POND ROAD AND LANCE LANE LOCATED OFF LONG SHOALS ROAD**

RESOLUTION NO. 19-267 - RESOLUTION TO PERMANENTLY CLOSE TWO UNOPENED RIGHTS-OF-WAY KNOWN AS POND ROAD AND LANCE LANE LOCATED OFF LONG SHOALS ROAD

Streets Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close two unopened rights-of-way known as Pond Road and Lance Lane located off Long Shoals Road. This public hearing was advertised on November 1, 8, 15 and 22, 2019.

Background:

- N.C. General Statute Sec. 160A-299 grants cities the authority to permanently close streets and alleys.
- James Wilson with Long Shoals Development (PIN # 9644-99-5794) has petitioned for the closure. Adjoining property owners Cane Creek - Vistas LLC (PIN #9644-99-5598), Karen Fraser and Gordon B Fraser Trust (PIN #s 9644-99-3427, 9644-99-3772) have joined this petition.
- This closure allows maximum land use potential for further development in accordance with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Multimodal Transportation Committee - 8/28/19 - Recommended closing the right of way by unanimous vote

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goal to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):

- None

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 5:14 p.m., and when no one spoke, she closed the public hearing at 5:14 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to permanently close two unopened rights-of-way known as Pond Road and Lance Lane located off Long Shoals Road. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 162

C. PUBLIC HEARING TO CONSIDER AMENDMENTS TO ARTICLE VIII OF THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO PERMIT "CAMPGROUNDS" AND "ACCESSORY DWELLING UNITS" IN THE HIGHWAY BUSINESS ZONING DISTRICT

Principal Planner Shannon Tuch said that this is the consideration of amendments to Article VIII of the Unified Development Ordinance in order to permit "Campgrounds" and "Accessory Dwelling Units" in the Highway Business Zoning District. This public hearing was advertised on November 15 and 22, 2019.

Action Requested: Adopt a zoning text amendment to amend the UDO *Table of Permitted Uses* to add Campgrounds and Accessory Dwelling Units (ADUs) as a permitted use ("P") in the Highway Business (HB) zoning district.

Background:

- On July 26, 2019, Drew Crawford (DIYTINY Inc.) submitted an application for a zoning text amendment, as allowed under UDO Sec. 7-7-2. Initiation of Amendments.
- The petitioner owns and manages a tiny home community on property located at 22 Burleson Rd., zoned HB. These tiny homes are mobile and on wheels, and are commonly referred to as "THOWs".
- The petitioner received a Notice of Zoning Violation (NOV) for establishing the tiny home community without any of the necessary permits.
- The petitioner filed an appeal of the NOV with the Asheville Board of Adjustment and was heard on July 22, 2019 & August 26, 2019. This appeal was unsuccessful and the Board of Adjustment upheld the city's issuance of the NOV.
- The petitioner is interested in the potential for THOWs to be used as permanent housing; however, (most) THOWs are not built under the NC State Building Code or certified through Housing and Urban Development (HUD). As a result, THOWs may not be occupied for more than 180 days. If occupied for more than 180 days, the use would no

longer be classified as a Campground and would be classified as some form of residential.

- The purpose of the HB zoning district is, *"to address the needs of commercial development along major thoroughfares"*. This may include high density, multi-family residential.

Campgrounds in HB

- THOWs are not approved for permanent housing and are regulated under the NC Department of Motor Vehicles for temporary or recreational use only.
- A group of THOWs would be classified as a "Camper-trailer park" and would be permitted anywhere a "Campground" would be permitted. Campgrounds are not a permitted use in HB.
- On January 9, 2018, the Asheville City Council adopted Ord. No. 4637 *"Ordinance Amending Chapter 7 of the Code of Ordinances of the City of Asheville to Define Lodging Types and Amend the Table of Uses"*. This ordinance clarified differences between different forms of lodging, and updated the Table of Permitted Uses (TOU) identifying in which zoning districts the different forms of lodging would be permitted.
- As a result of Ord. No. 4637, Campgrounds were removed as a permitted use in HB because the new comprehensive plan identifies a land use goal to prioritize moving away from suburban-style, corridor development towards multi-modal oriented, mixed-use, urban forms of development. Most HB zoned property was identified as "Urban Corridor" on the Future Land Use Map that was adopted as part of the plan.
- Ord. No. 4637 also amended the Table of Permitted Uses to add Campgrounds to the Lodging Expansion (LODG-EXP) zoning district. Other existing forms of lodging, such as Bed & Breakfasts and Boardinghouses, also experienced changes to the zoning districts in which these uses would be permitted.
- Campgrounds remain a permitted use in the Regional Business (RB), Commercial Industrial (CI), Resort (RES) and River (RIV) zoning districts.
- While the petitioner's property does not directly front on Tunnel Rd., most HB zoned property does and should this amendment be approved, it would allow Campgrounds in areas not suitable for recreating.

ADUs in HB

- ADUs are permitted in conjunction with a single family home and is subordinate in size and placement. A single-family home may only have one ADU.
- HB zoning is <u>not</u> intended to support low density single-family development, with or without accessory units.
- The Highway Business zoning district allows up to 35 units per acre and does not distinguish between primary and accessory dwelling units. Multi-family developments, along with multiple individual cottage-style units, would be freely permitted in the HB zoning district.
- The applicant has stated that the purpose of this request is to reduce building setbacks for accessory units against residential neighbors.

Comprehensive Plan Consistency:

- This proposal does <u>not</u> align with the *Living Asheville* comprehensive plan in that the plan identifies most HB zoned property as "Urban Corridor" on the Future Land Use map which prioritizes multi-modal access, transit facilities, and building and parking placement that enhances the pedestrian experience over the traditional car-oriented, suburban style of development. It is also important to note that the plan also describes the need to, *"Develop a comprehensive study of all lodging types and their impact on the community in order to evaluate policy options related to these different uses. In the interim, continue enforcement of illegal short-term vacation rentals*".

- The plan further identifies the need for all elements of the built environment, including housing, to create sustainable living environments; and, for this housing to be safe and healthy.

Council Goal(s):

- This proposal does not directly align with Council adopted goals. Opportunities for new businesses and/or development is generally tied to the goal of a *Thriving Local Economy.*

  (Note: because THOWs cannot be classified as housing, goals specific to increasing the supply of housing do not apply).

Committee(s):

- The petitioner was heard by the Housing & Community Development Committee on June 18, 2019, and spoke on the subject of tiny homes on wheels being a useful and beneficial form of permanent or semi-permanent housing.
- The petitioner was heard by the Planning & Zoning Commission on September 4, 2019, and November 7, 2019, and was denied unanimously by the Commission on both dates.

Pro(s):

- Provides more flexibility to owners of property zoned HB and broadens opportunities for camping as a form of lodging and/or constructing ADUs.

Con(s):

- The proposed changes are inconsistent with the *Living Asheville* comprehensive plan and the purpose statements for HB included in the UDO.
- The proposed change would apply to <u>all</u> HB zoned properties with no site specific review or mitigation considered.
- The proposed change would allow for a low-cost investment that establishes an interim use that may keep these strategically located properties with good infrastructure underdeveloped for an extended period of time.
- Underdeveloped properties may further discourage investment in adjacent properties where the city is seeking to encourage redevelopment and investment.
- The impacts of lodging on the larger Asheville community are not well understood (a study regarding hotels is currently in process).
- Uncertified units that have not received safety inspections should not/may not be used as housing, particularly for individuals who have limited housing options.
- Most HB zoned property fronts directly onto, or is not far from, a thoroughfare and may be a less hospitable environment for a Campground.

Fiscal Impact:

- There is no anticipated fiscal impact to this proposal.

Staff Recommendation:

- Staff does <u>not</u> support the proposed zoning text amendment to change the Table of Permitted Uses for the HB zoning district to: 1) Add Campgrounds - primarily because it is inconsistent with the *Living Asheville* comprehensive plan where the plan calls for property along primary corridors to be developed at a higher intensity and with an urban form - *Campgrounds* and/or *Camper-trailer* parks are rural-suburban in nature; and 2) add *Accessory Dwelling Units* as a permitted use in the HB zoning district primarily because an option to allow multiple units on an HB zoned property already exists and ADUs apply to low density single-family development only, and does not support commercial development more appropriate to highway corridors.

Ms. Tuch explained that the Highway Business District, by right, already allows for high density residential use, either in the form of attached multi-family dwelling units or as individual cottage units. Both are broadly allowed in the Highway Business District and the Highway Business District can support multiple dwelling units. There is nothing to prevent the construction of units subject to all of the applicable standards.

Ms. Tuch said that as an alternative to this text amendment, she recommended the applicant continue his efforts of exploring a pathway to constructing his units under HUD certification program or under the North Carolina Building Code. We already have an overlay that allows for manufactured housing which can be expanded in the future if desired, or we can look to see if it was appropriate to adopt a different zoning classification for tiny home communities provided they can meet the HUD certification standard or the North Carolina Building Code standard.

Mayor Manheimer opened the public hearing at 5:20 p.m.

Ms. Audra Schroeder spoke in support of this text amendment and reviewed with Council a chart showing financing for a tiny home vs. a regular home.

Ms. Amelia Schroeder spoke in support of this text amendment and hoped that Asheville will set an example of tiny homes as affordable housing.

Mr. Drew Crawford, DIYTiny, explained in detail his request and urged Council to (1) recognize that scope and size matters and discuss ADU's and where cottage development can be located; (2) write special use district rules for "Residential Campground" as a zoning use; and (3) establish tiny houses as a bridge between rental and ownership for affordable housing.

Mayor Manheimer closed the public hearing at 5:42 p.m.

Mayor Manheimer explained that people can put ADU's (or small homes) to properties now in residentially zoned areas. Ms. Tuch explained that one of the challenges with this conversation is that when we talk about tiny homes on wheels, this is a recreational unit and regulated under the N.C. Dept. of Motor Vehicles. It is not classified as housing - not a dwelling unit, regardless of what someone's intent may be. We cannot put it in the category of housing.

Councilwoman Mayfield and Councilman Young hoped that staff will continue to work on this option for affordable housing. They would not be supportive of this one change because they felt we need to look at it in a larger context.

Vice-Mayor Wisler moved to deny the proposed wording amendments to Article VIII of the UDO and find that the proposed amendments are inconsistent with the city's comprehensive plan in that, 1) campgrounds, defined as areas for temporary occupancy for recreational use, are not consistent with the vision for Urban Corridors, and 2) Accessory Dwelling Units, which generally accompany low density single family development, are not consistent with the support of commercial development encouraged in the HB zone and therefore, the action to deny is reasonable and in the public interest. This motion was seconded by Councilman Kapoor and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION AMENDING THE CITY OF ASHEVILLE'S LAND USE INCENTIVE GRANT POLICY

This item has been removed from consideration at this meeting.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Jody Williams and Ms. Teresa Newman, representing Help Asheville Bears, urged Council to work with the State Attorney's Office and N.C. Wildlife Commission to convict people using illegally using traps for bears or selling bear parts in Western North Carolina.

Ms. Sara Stroupe asked City Council to adopt a resolution in support of Asheville's military and veteran caregivers. Mayor Manheimer said that since the requested resolution has several asks, she instructed City Manager Campbell to follow-up with Ms. Stroupe to advise her what is already in existence and ways to build on it.

Several individuals urged City Council to pass the climate emergency resolution as written by the Sunrise Movement and place it on the December 10, 2019, City Council Agenda. The individuals then each read a passage of "ON - The (Burning) Case for a Green New Deal" by Naomi Klein.

Councilman Haynes supported the climate emergency resolution be placed on the December 12, 2019, agenda for City Council consideration. Councilwoman Mayfield said that the Sustainability Advisory Committee on Energy & the Environment continues to be open for discussion with the Sunrise Movement on the proposed resolution.

Closed Session

At 6:43 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.11(a)(1). The statutory authorization is contained in N.C.G.S. 143-318.10 (e); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, the handling or settlement of a claim regarding the following: Mayfair Partners, LLC v. City of Asheville 18-CVX-4870; and Gwen Alexander v. City of Asheville 18-CVS 2331. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:10 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Kapoor and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:10 p.m.

Magdalen Bulleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – December 10, 2019 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

AGENDA CHANGE

Mayor Manheimer thanked the Sustainability Advisory Committee on Energy & the Environment (SACEE) for providing Council with a resolution declaring a climate emergency. She also thanked the Sunrise Movement for meeting with her earlier today to discuss the resolution. At the request of the Sunrise Movement, the climate emergency resolution which was recommended by SACEE resolution not be considered at this meeting in order to give them a little more time for conversation in order for the two groups to come to an agreement on a final resolution. She was hopeful that a resolution could be considered in one of the two Council meetings in January, 2020. She thanked SACEE and the Sunrise Movement for the work that has already been done and the work that will be forthcoming.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 26, 2019

B. RESOLUTION NO. 19-268 - RESOLUTION ADOPTING THE 2020 CITY COUNCIL MEETING SCHEDULE

Summary: The following schedule of the meetings of the Asheville City Council for 2020 be, and the same is, hereby established as follows: City Council Formal Meetings - 5:00 p.m. - 2nd and 4th Tuesdays of each month - Council Chamber – 2nd Floor - City Hall Building, Asheville, N.C.

The following meetings are hereby cancelled: Tuesday, July 14, 2020; Tuesday, August 11, 2020; and Tuesday, December 22, 2020.

RESOLUTION BOOK NO. 41 - PAGE 164

C. MOTION APPROVING THE FISCAL YEAR 2020-21 BUDGET CALENDAR

Action Requested: Motion to adopt the Fiscal Year 2020-2021 Budget Calendar.

Background:

- As a part of the Fiscal Year 2020-2021 Operating and Capital Budget development process, which began internally in October, staff is proposing a budget schedule which encompasses the following:
    - An initial budget worksession with City Council in January 2020;
    - A series of budget worksessions with City Council in March and April 2020;
    - Formal presentation of the City Manager's Proposed Budget on May12, 2020; and
    - Budget adoption on June 9, 2020.

Council Goal(s):
- A Financially Resilient City
- A Connected and Engaged Community

Committee(s): None

Pro(s):
- Provides City Council, staff, and the community with a calendar of upcoming dates related to development of the FY 2020-2021 budget.

Con(s):
- None.

Fiscal Impact:
- None.

Motion:
- Motion to adopt the Fiscal Year 2020-2021 Budget Calendar.

D. ORDINANCE NO. 4783 - ORDINANCE ENACTING A THROUGH TRUCK PROHIBITION ALONG ROYAL PINES DRIVE FROM SWEETEN CREEK ROAD TO HENDERSONVILLE ROAD IN SOUTH ASHEVILLE

Action Requested: Adoption of an ordinance enacting a through truck prohibition along Royal Pines Drive in South Asheville.

Background:
- The City of Asheville Code of Ordinances Section 19-60 regulates trucks traveling along designated residential streets.
- Large trucks are routinely using Royal Pines Drive as a "shortcut" between Sweeten Creek Road and Hendersonville Road.
- Large trucks should not be using Royal Pines Drive as a "shortcut" since there are no destinations along Royal Pines Drive for large trucks.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- Prohibits through trucks from using Royal Pines Drive.
- Keeps through trucks on US numbered routes.
- Eliminates delay to the traveling public.

Con(s):

- None

Fiscal Impact:

- The cost of installing and maintaining truck prohibition signs is included in the current operating budget.

Motion:

- Motion to approve an ordinance enacting a through truck prohibition along Royal Pines Drive from Sweeten Creek Road to Hendersonville Road in South Asheville.

ORDINANCE BOOK NO. 33 - PAGE 8

E. RESOLUTION NO. 19-269 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE LICENSE AGREEMENT WITH MAPLE CREST, LLC, AND THE HOUSING AUTHORITY FOR THE REIMBURSEMENT OF COSTS ASSOCIATED WITH SOIL REMEDIATION, STORMWATER IMPROVEMENTS AND OTHER CONSTRUCTION RELATED ACTIVITIES THAT SUPPORT THE FUTURE DEVELOPMENT OF PROPERTY AT 319 BILTMORE AVENUE

Action Requested: Adoption of a resolution to authorize the City Manager to amend the license agreement with Maple Crest LLC and the Housing Authority for the reimbursement of costs associated with soil remediation, stormwater improvements and other construction related activities that support the future development of property at 319 Biltmore Avenue.

Background:

- The City entered into a Memorandum of Understanding with Duke Energy in January 2017 for property located at 319 Biltmore Avenue and later entered into an Option to Purchase the property in October 2017 in order to redevelop the property for an affordable, mixed income community. In 2018, the City developed site concepts and performed pro-forma analysis for affordable housing on 319 Biltmore and is taking next steps to market the site for redevelopment. The site is one of the "High Impact Sites" included within the Affordable Housing Bond program.
- The adjoining property is known as Lee Walker Heights and the Housing Authority, in partnership with Mountain Housing Opportunities, Inc. is currently in the process of construction for the major redevelopment of Lee Walker Heights.
- On July 22, 2019 the City entered into a license agreement with Maple Crest, LLC (a joint venture of the Housing Authority and Mountain Housing Opportunities) to allow the construction of a new roadway and earthwork improvements on property located at 319 Biltmore, in connection with the redevelopment of Lee Walker Heights.
- Site work is underway at 319 Biltmore, and there are certain infrastructure improvements, such as the relocation of an existing stormwater line and environmental remediation, that would benefit the future development of 319 Biltmore.
- These site improvements are outside of the current scope of the Lee Walker Heights redevelopment, however significant cost and time savings would result if the City were to contract with Maple Crest to perform these improvements at this time, prior to the installation of the new roadway to connect Lee Walker Heights to Biltmore Avenue.
- Under the current License Agreement, Maple Crest agreed to cover the costs of environmental remediation, including soil remediation, at 319 Biltmore, up to $64,100.00 and the City agreed to cover environmental costs that exceed that cap, but those costs were not known at the time.

- Utilizing bond funds (of the $15M dedicated to City-owned land), staff is requesting $400,000 be allocated for infrastructure improvements to support future affordable and mixed income housing development at 319 Biltmore Avenue, which includes a 10% contingency for any overage. This funding will reimburse the following expenses:
    - Additional Soils remediation estimated at $100,000
    - Stormwater Relocation & Replacement estimated at $300,000
- The reimbursement will be paid to the Housing Authority for lender requirements and accounting purposes.

Council Goal(s):
- Well Planned and Livable Community
- Quality Affordable Housing

Committee(s):
- None.

Pro(s):
- Soils remediation and stormwater relocation are needed to deliver development-ready conditions at 319 Biltmore Avenue
- Significant time and cost savings for performing the work now, prior to the installation of the new roadway to connect Lee Walker Heights to Biltmore Avenue

Con(s):
- None

Fiscal Impact:
- The City will expend $400,000 of Affordable Housing Bond Funds to support the development of affordable and mixed income housing on City-owned land.

Motion:
- Motion to adopt a resolution that authorizes the City Manager to amend the license agreement with Maple Crest LLC and the Housing Authority for the reimbursement of costs associated with soil remediation, stormwater improvements and other construction related activities that support the future development of property at 319 Biltmore Avenue.

RESOLUTION BOOK NO. 41 - PAGE 165

F. RESOLUTION NO. 19-270 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE EASEMENT AGREEMENTS OR ABANDON EASEMENTS ON BEHALF OF THE CITY UNDER CERTAIN CIRCUMSTANCES

Action Requested: Adoption of a resolution to authorize the City Manager to execute easement agreements or abandon existing easements on behalf of the City under certain circumstances.

Background:
- To improve efficiency, it is recommended that the City Council consider delegating authority to the City Manager to execute easement agreements or abandon existing easements on behalf of the City under certain circumstances.
- The situations would not involve the expenditure of City funds, nor relinquish needed City property rights. By allowing these instruments to be executed at the staff level, the parties involved can expedite the process and further streamline Council agendas by removing non-controversial items which have no fiscal impact.

- If approved, the Manager would Execute easements under the following general guidelines:
    - No monetary compensation is warranted or paid
    - City receives consideration in the form of sufficient non-monetary public benefit (Ex: easement allowing utility provider to install a street light)
    - The utility or value of City land upon which the easement is being granted will be unaffected and not devalued. (Determination based upon an analysis by City Real Estate staff and any other affected City Departments).
- If approved, the Manager would Abandon City easements under the following general guidelines:
    - The easement is no longer needed for City operation or services (Ex: abandoning a waterline easement after a City project has replaced and relocated the waterline to a new location).
    - The easement has little or no value to the City (Determination based upon an analysis by City Real Estate staff and any other affected City Departments).

Council Goal(s):
- Well Planned and Livable Community

Committee(s):
- None

Pro(s):
- Will allow the City to more quickly and efficiently grant or abandon easements

Con(s):
- None

Fiscal Impact:
- None

Motion:
- Motion to adopt a resolution that authorizes the City Manager to execute easement agreements or abandon existing easements on behalf of the City under certain circumstances.

RESOLUTION BOOK NO. 41 - PAGE 166

G. ORDINANCE NO. 4784- BUDGET AMENDMENT IN EACH OF THE CITY'S ANNUAL OPERATING FUNDS TO APPROPRIATE FROM RESTRICTED AND ASSIGNED FUND BALANCE THE REQUIRED BUDGET AUTHORIZATION FOR PRIOR YEAR CONTRACTS, PURCHASE ORDERS, AND OTHER CARRY-OVER APPROPRIATIONS THAT ROLLED FORWARD TO FISCAL YEAR 2019-20

Action Requested: Technical budget amendment in each of the City's annual operating funds to appropriate from restricted and assigned fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to Fiscal Year (FY) 2019-20.

Background:
- As part of its ongoing operations, the City enters into various contracts and purchase order agreements throughout the fiscal year.

- Budget funds are encumbered for the full amount of the expected purchase.
- These contracts and purchase orders are often not fully completed and paid in one fiscal year.
- North Carolina General Statutes provide authorization for local governments to reserve the unexpended portion of these prior year commitments and roll those budgets forward to the new fiscal year.

- As a part of the FY 2018-19 annual audit, staff identified prior year commitments and carry-over appropriations to roll forward to FY 2019-20.
  - These dollar amounts were deducted from the unassigned fund balance amounts that were reported in the Comprehensive Annual Financial Report (CAFR).
  - The technical budget amendment will provide authorization to officially appropriate these amounts in the FY 2019-20 budget for each of the City's annual operating funds. It is standard practice for staff to bring forward this technical budget amendment each year at the same City Council meeting in which the external auditors present the annual audit results.

Council Goal(s):
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- Provides budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2019-20.

Con(s):
- None.

Fiscal Impact:
- There is no impact on unassigned/available fund balance in the City's operating funds.

Motion:
- Motion to adopt a technical budget amendment in each of the City's annual operating funds to appropriate from restricted and assigned fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2019-20.

ORDINANCE BOOK NO. 33 - PAGE 9

H. RESOLUTION NO. 19-271 - RESOLUTION CALLING FOR A PUBLIC HEARING ON JANUARY 14, 2020, TO ISSUE LONG-TERM (20 YEAR) GENERAL OBLIGATION BONDS RELATED TO THE 2016 BOND REFERENDUM

INTRODUCTION OF BOND ORDER AUTHORIZING THE ISSUANCE OF GENERAL OBLIGATION REFUNDING BONDS RELATED TO THE 2016 BOND REFERENDUM

Action Requested: Resolution setting a public hearing on January 14, 2020, to receive public comments on the proposed General Obligation (GO) Refunding Bond financing for the refinancing of existing debt; and introduction of Bond Order authorizing the issuance of General Obligation Refunding Bonds related to the 2016 Bond Referendum.

Background:

- In May, 2018, Council authorized the issuance of a General Obligation Bond Anticipation Note in an amount not to exceed $23,000,000.
- Since that time, the City has drawn down $15.6 million and hopes to draw on the remaining amount available over the next few months with an emphasis on affordable housing initiatives.
- In order to refund the principal, the City intends to issue long-term, fixed-rate GO Bonds in early March, 2020. Such an issuance requires a public hearing.

Council Goal:

- Financially Resilient City

Committee(s):

- None

Pro(s):

- Converts GO funding from short-term variable-rate debt to long-term, fixed-rate bonds.
- Spreads capital costs over longer term to better match assets' lives.

Con(s):

- None

Fiscal Impact:

- Annual debt service payments will increase because long-term fixed rates are higher than short-term variable rate debt. This increase is included in the City's long-range financial model for issuing and paying-off debt. The final amounts of the new debt service payments will be determined on the bond sale date.

Motion:

- Motion to authorize staff to proceed with the process and set a public hearing on January 14, 2020, and after receiving public comment regarding the financing, that Council proceed with final approvals for the financing on January 28, 2020.
- Motion to introduce Bond Order authorizing the issuance of General Obligation Refunding Bonds related to the 2016 Bond Referendum.

RESOLUTION BOOK NO. 41 - PAGE 167

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. FISCAL YEAR ENDED JUNE 30, 2019, AUDIT REPORT

Ms. Becki King, City Controller, who introduced Mr. Mark Snyder, and Mr. Robbie Bittner, representing RSM , who reported on the Fiscal Year ended June 30, 2019, audit report, summarizing that the City has received an unmodified "clean" (highest level of assurance) rating.

B. MANAGER'S REPORT

City Manager Campbell said that she would provide Council with an update of Council's priorities and initiative over the next several Council meetings. Regarding transit number, she said that she will discuss them as part of the City Council budget worksession on January 14, 2020, at 3:00 p.m. in the Council Chamber.

City Manager Campbell was pleased to announce that the City of Asheville employee parking lot on Marjorie Street will now be open at 4:30 p.m. on City Council meeting dates for the public to park while attending the City Council meeting.

Sustainability Update

Sustainability Officer Amber Weaver provided Council with a history of commitment to sustainability initiatives; leaders in the climate resilience; NC Local Government and Duke Energy Climate Collaborative; Work to incorporate equity and climate justice into policies, practices and procedures; policies and letter of support on state, federal, national and global carbon mitigation and climate commitments; and support and collaborate with nonprofits while achieving sustainability initiatives.

She reviewed the 11 resolutions regarding sustainability.

Regarding the carbon reduction goal, the goal is 4% annual carbon reduction for municipal operations until an 80% carbon reduction is reached based on 2008 emissions. Key accomplishments include (1) Carbon Disclosure Project = Grade B; (2) 5 LED lighting upgrades; (3) 1st PV Array being installed at the ART Station; (4) Building Automation System upgrades at the Municipal Building and U.S. Cellular Center; (5) 5 electric buses; and (6) all Electric LEED Certified Fire Station.

Regarding the 100% renewable energy goal, the goal is 100% renewable energy for City operations by 2030 and support Buncombe County's community-wide goal by 2042. Key accomplishments include: (1) completion of the 100% Renewable Energy Roadmap for Municipal Buildings; (2) Green Source Advantage RFP w/Buncombe County; and (3) Aggregated Solar RFP with Buncombe County.

Regarding the climate resiliency, the City of Asheville's climate resilience assessment was a collaborative effort with UNC-Asheville's National Environmental Modeling and Analysis Center. Led by the Office of Sustainability, this initiative is designed to help the City be prepared for and hopefully lessen the impacts of future extreme weather and climate change. Key accomplishments include: (1) Climate Resilience Assessment was adopted as part of the Comprehensive Plan, Living Asheville; (2) Climate Resilience Resource Guide; and (3) GARE's Racial Equity Toolkit was utilized in the creation of the Climate Resilience Resource Guide.

Regarding local, state and utility partnerships, the goal is establishing a joint City, County, and Utility Energy Innovation Task Force. Key accomplishments include (1) eliminating the need for a 190 MW peaker unit; (2) creation of the Blue Horizons Project; (3) 19 MW utility-scale battery storage; (4) development of the State's first two utility-scale microgrids; (5) enrollment of over 600 homes in Duke EnergyWise energy conservation program; (6) weatherization of over 400 low-income homes; (7) participation in the Environmental Defense Fund Cities Initiative; (8)

NC Local Government & Duke Energy Climate Collaborative; and (9) NC Executive Order 80: Address Climate Change and Transition to a Clean Energy Economy.

Regarding the Food Policy Action Plan, the goal is that the Food Policy Action Plan addresses food security, food emergencies and urban farming. Key accomplishments include continued partnership with Asheville-Buncombe County Food Policy Council and Bountiful Cities - $30,000 (a) AVL Edibles Map; (b) create garden signage; (c) Food Preservation Workshop; (d) Maintenance Plan Dr. Carver Edible Park; and (e) management and oversight of the AVL Community Gardens.

Regarding the waste reduction goal, the goal is establishing a long-term waste reduction goal of 50% municipal solid waste reduction by 2035. Key accomplishments include (1) continued partnership with Asheville Greenworks - $30,000 (a) Compost Demonstration Workshops; (2) Adopt A Spot Program; (3) Asheville Housing Authority Recycling Education Workshops; (4) Neighborhood Recycling & Waste Reduction Education Outreach; (5) Waste Audits; (6) 2019 Food Waste Summit; and (7) NC DEQ Grant: promoting the Recycle Right and Anti-contamination Campaign.

Ms. Weaver then reviewed the southeast sustainability statistics.

City Manager Campbell acknowledged that we know we have a lot more to do but these are things we are doing. We have challenges and we expect, through the next several months, to balance all of the complementary interests.

Vice-Mayor Wisler noted that we continue to have sustainability as a core value.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 1 SOUTH TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO MIXED USE EXPANSION/CONDITIONAL ZONE TO ALLOW A MIXED-USE DEVELOPMENT THAT INCLUDES RESIDENTIAL, RETAIL, SERVICE AND ENTERTAINMENT USES

At the request of the applicant's attorney, Councilman Kapoor said that pursuant to Rule 19 (f) of the Asheville City Council Rules of Procedure he moved to defer consideration of the motion considering the conditional zoning request for 1 South Tunnel Road from Regional Business District to Mixed Use Expansion/Conditional Zone for a period of up to 100 days or until such time as a motion to revive consideration is adopted, whichever is earlier. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

B. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT TO SUPPORT AFFORDABLE HOUSING UNITS AT ASHELAND/COXE AVENUES

RESOLUTION NO. 19-272 - RESOLUTION GRANTING A LAND USE INCENTIVE GRANT TO SUPPORT AFFORDABLE HOUSING UNITS AT ASHELAND/COXE AVENUES

At the request of Mayor Manheimer, Councilman Young moved to recuse Mayor Manheimer from participating in this matter (Land Use Incentive Grant) and the following matter (Conditional Zoning) due to a conflict of interest. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At this time, Mayor Manheimer handed the gavel over to Vice-Mayor Wisler to preside over the meeting and left the meeting room.

Community Development Program Director Paul D'Angelo said that this is the consideration of (1) a resolution granting a land use incentive grant to support affordable housing units at Asheland/Coxe Avenues.

Action Requested: Request/application by Tribute Companies for a Land Use Incentive Grant (LUIG) to support affordable housing units at a mixed-use, mixed-income development at Asheland / Coxe Avenues.

Review:

- Tribute companies has applied for a Land Use Incentive Grant for their development at Asheland & Coxe per the LUIG policy adopted by City Council and amended on October 22, 2019.
- The development consists of 488 rental apartments with 10% (49) of the homes proposed for 80% Area Median Income (AMI) for 20 years.
- This project is composed of four sites located within the Asheville Central Business District.
    - 172 Asheland Avenue parcel (PIN# 9648-38-0052)
    - 185 Coxe Avenue parcel (PIN# 9648-37-2825)
    - 5 Federal Alley parcel (PIN# 9648-37-1928)
    - 99999 Coxe Avenue Parcel (PIN# 9648-37-2643)
- The developer estimates a total development cost of $45M.
- Tax Value of the property, to be based on Buncombe County Tax Assessment estimate, is $90M post completion.
- The project, as presented to staff, meets the following Eligibility Requirements:
    - The proposed development consists of two or more dwelling units for rent;
    - At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the AMI.
    - The affordable units will be affordable to and leased to income-eligible households for at least 20 years.
    - The proposed development must be located inside the city limits.
    - The proposed development must be located to provide residents convenient access to jobs, schools and services.
    - The proposed development must be 70% residential in use based on square footage not to include a parking structure if applicable.
- Per the LUIG Scoring Matrix and based upon the policy, the project will receive 30 total points for affordability and an additional 50 points for location for a total score of 80 points. Per the policy, this will equal 16 years of grants in the amount of the City Property Taxes payable on the Ashland / Coxe Development.

Proposal:

- Affordable Rental Housing
    - The proposed project will provide forty-nine (49) units affordable to households at 80% or less of median income for an affordability period of twenty (20) years. Under this category, the project qualifies for 20 points.
- Rental Assistance
    - The proposed project will accept 20% of the final number of affordable units as Housing Choice Vouchers / Rental Assistance in the community, currently 10 vouchers. Under this category, the project qualifies for 10 points.
- Superior locational efficiency

- The proposed project is located within .25 mile of a 1/2 hour transit stop served by an existing sidewalk , within the Central Business District, within 1 mile from job or urban center, and within a .5 mile from a Transportation Amenity. Under this category, the project qualifies for 50 points.

- Staff has scored the project with 80 points, which qualifies the project for sixteen years (16) of Land Use Incentive Grant.

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- Housing & Community Development - November 26, 2019 - passed unanimously with a cap of $80,000 per affordable unit grant
- Finance & HR Committee - December 10, 2019

Staff Recommendation: Staff recommends approval with a cap of $80,000 per affordable unit grant.

Pro(s):
- The proposed project will provide 49 affordable rental housing units to households earning 80% or less of AMI;
- The proposed project will have an affordability period of twenty (20) years;
- The proposed project addresses the pressing need for affordable one-bedroom apartments (49);
- The proposed project should have a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy;
- 49 affordable units located in the central business district (walkability score of 81 - very walkable) provides options for our downtown community workers who fall within the 80% AMI incomes.

Con(s):
- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development.

Fiscal Impact:

Grant - full tax value grant
- The parcels have a combined current tax value of $4.1 million and pay taxes of approximately $17,585 annually.
- Under the estimated Tax Value of $90M post-completion, the annual city tax will be approximately $386,010.
- The difference is $368,425 which would be granted to the property owner annually after payment for 16 years.
- For 20 years and 49 affordable units at 80% AMI, the city will grant back a total of $5,894,800 over the 16 years of the LUIG which equals $120,302 per affordable unit of subsidy which is higher than the current estimate of up to $80,000 in subsidy for 80% AMI homes as suggested by our Lord Aeck Sargeant consultants.
- In years 17-20 of the affordability period, the City will receive the approximate $386,010 annually in city tax revenue, or a total over the 4 years of $1,544,040 in property taxes. Please note the City will still receive property taxes of approximately $17,585 in years 1 - 16.

Grant - tax value grant capped at $80,000 per unit

- At a cap of $80,000 per affordable unit, for 20 years and 49 affordable units at 80% AMI, the city will grant back a total of $3,920,000 over the 16 years of the LUIG or $245,000 per year, years 1 - 16.
- In years 17-20 of the affordability period, the City will receive the approximate $386,010 annually in city tax revenue, or a total over the 4 years of $1,544,040 in property taxes. Please note the City will still receive property taxes of approximately $141,010 based on the $245,000 cap.

Councilman Kapoor said that the Finance & Human Relations Commission met earlier in the day and recommended approval the LUIG at an amount not to exceed $80,000 per affordable unit. As part of the meeting discussion, there was a direction to ask staff to investigate a potential policy change of adjusting a cap based on inflation amount as it related to tax and value.

Mr. Wyatt Stevens, attorney for Tribute Companies, said that his client has been in active discussions with the City about this opportunity. This LUIG grant will enable them to have 49 affordable units to families making less than 80% AMI for 20 years. He said this is a remarkable project and could not happen without the partnership with the City. He reiterated his concern about the cap of $80,000 over 16 years and flagged for Council that they may need to come back for reconsideration of that cap in the future.

Vice-Mayor Wisler opened the public hearing at 5:47 p.m., and when no one spoke, she closed the public hearing at 5:47 p.m

Vice-Mayor Wisler said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Kapoor moved to approve the Land Use Incentive Grant to the Tribute Companies for the Asheland / Coxe Development for an amount not to exceed $80,000 per affordable unit with the direction to staff to review possible LUIG policy changes of adjusting a cap based on inflation amount as it related to tax and value. This motion was seconded by Councilman Young and carried unanimously (with Mayor Manheimer being recused from voting).

RESOLUTION BOOK NO. 41 - PAGE 170

PUBLIC HEARING TO CONSIDER CONDITIONALLY ZONING PROPERTY LOCATED AT 172 ASHELAND AVENUE, 185 AND 99999 COXE AVENUE AND 5 FEDERAL ALLEY FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A MIXED-USE DEVELOPMENT

ORDINANCE NO. 4785 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 172 ASHELAND AVENUE, 185 AND 99999 COXE AVENUE AND 5 FEDERAL ALLEY FROM CENTRAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT EXPANSION/CONDITIONAL ZONE FOR THE CONSTRUCTION OF A MIXED-USE DEVELOPMENT

Urban Planner Jessica Bernstein said that this is the consideration of (1) a resolution granting a land use incentive grant for 172 Asheland Avenue, 185 and 99999 Coxe Avenue and 5 Federal Alley; and (2) an ordinance to conditionally zoning property located at 172 Asheland Avenue, 185 and 99999 Coxe Avenue and 5 Federal Alley from Central Business District to Central Business District Expansion/Conditional Zone for the construction of a mixed-use development. This public hearing was advertised on November 29 and December 6, 2019.

Action Requested: Conditional zoning petition for property currently zoned Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ)

Project Location and Contacts:

- The project site consists of four parcels with a combined area of approximately 4.43 acres, located at 172 Asheland Avenue, 185 and 99999 Coxe Avenue and 5 Federal Alley (PINs 9648.37-2643, 9648.38-0052, 9648.37-1928 and 9648.37-2825) that are owned by Asheland Properties LLC and South Slope Holdings LLC.
- Petitioner: Tribute Investment & Development Inc; Contact: Warren Sugg.

Summary of Petition:

- The proposal is for a new mixed-use development containing approximately 488 residential units, approximately 86,000 square feet of office and commercial space and 973 structured parking spaces in five buildings.
- The petition includes a rezoning via conditional zoning from Central Business District (CBD) to Central Business District Expansion Conditional Zone (CBD EXP CZ) due to the size of the project.
- The site is located in an identified Opportunity Zone, which is intended to drive long-term capital into low-income communities by using tax incentives to encourage private investment.
- On October 23, 2018, City Council passed a resolution to "work with Opportunity Fund Investors and take a proactive approach to offer guidance in Opportunity Zone investments that promote Equitable Growth, Development without Displacement and Healthy Communities of Opportunity for all residents in and around Opportunity Zones."
- Asheland and Coxe Avenues are both key pedestrian streets and the site spans both the intermediate and tallest height zones in the Central Business District (145 feet and 265 feet, respectively). The buildings range in height from five to seven stories due to grade changes across the multiple frontages (maximum building height shown as 80 feet).
- The proposal includes 12 foot wide sidewalks on Coxe Avenue and a 10 foot wide sidewalk on the Federal Alley project frontage, both with street trees in grates. The applicant is also proposing to construct a six-foot wide sidewalk along the section of Federal Alley that connects to Coxe Avenue, off of the project site.
- The Asheland Avenue frontage provides a 10 foot sidewalk behind a five foot grass strip and street trees in planters within the hardscaped plaza proposed with this design.
- There are a variety of urban courtyard spaces at different levels to make up the 70 to 85 foot grade change between the Asheland and Coxe Avenue frontages and includes both areas open to the public and office/commercial visitors as well as privately controlled spaces for residents.
- Vehicular access to the development is via two driveways into the parking structure, one from Asheland and one from Federal Alley. The project also includes two additional curb cuts (one on Asheland Avenue and one on Coxe Avenue) to provide off-street trash and loading access. There is also a parallel loading space proposed along Asheland Avenue.
- There is a portion of an existing unopened right-of-way that dead-ends within the project site. The closure of this right-of-way section will follow the City's process, which will necessitate separate action by City Council.
- Design and operational standards for downtown projects are all met, providing active pedestrian-friendly uses along the ground level of all three facades, street wall step-backs, compliant fenestration on all facades, use of materials to break up building mass and a large structural connector art piece on Coxe Avenue.
- The project triggered the requirement of a Traffic Impact Study which is reviewed by both the City of Asheville and the NC Department of Transportation. Conditions accompany this project related to mitigating traffic congestion and increasing safety and usability for pedestrians and transit users.
- While only roughly 35 trees are required by code, the proposal includes the planting of an

additional 145+/- trees in efforts to create an "urban forest" effect on the site.

- The project includes a number of conditions, some of which are due to a lack of compliance with City standards and additional conditions meant to mitigate impacts or provide a public benefit:
    - The project dedicates 10 percent of the residential units as affordable at 80% AMI for 20 years.
    - Significant urban open space is designed throughout the site (which is not a requirement in the downtown) with a greater amount of landscaping than required by code.
    - The portion of the unopened right-of-way that is within the project site will follow the City's closure process including review by the Multimodal Commission and City Council.
    - The applicant will provide an upgraded transit shelter on the project site along Asheland Avenue and will provide a bench at the existing stop on the west side of Asheland.
    - The code limits a single standard driveway per development but due to the size of the development area, a total of four driveways are proposed.
    - Loading is not permitted on key pedestrian streets; a parallel loading pull-off space is proposed for Asheland Avenue.
    - The Asheland frontage includes a five foot grass strip with a 10 foot sidewalk (along with additional hardscaped space) as this corridor on the edge of downtown does not follow an urban streetscape or development pattern. 10 foot wide sidewalks are shown on Federal Alley with a six foot section connecting to Coxe Avenue.
    - The applicant is proposing to construct an additional sidewalk along Federal Alley to connect to Coxe Avenue.
    - Staff has recommended that the applicant upgrade the pedestrian crossing at Asheland and Hilliard Avenues to include accessible signals and push buttons as detailed in the conditions.
    - Upgrades will be provided for pedestrian crossings at the Asheland Avenue driveway. This will either be an upgraded pedestrian crossing with a hybrid beacon at Asheland and Morgan Avenues or the applicant will shift the driveway southward to align with the Morgan Avenue intersection where a fully-signalized crossing for both pedestrians and vehicles would be installed, as detailed in conditions six through eight.

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that the Downtown Future Land Use category encourages mixed-use developments prioritizing pedestrian infrastructure, high-density residential, a variety of active commercial spaces and both market-rate and affordable residential options.
- Enhancing the urban tree canopy is a highlighted goal in the comprehensive plan section for Harmony with the Natural Environment, as well as incorporating green infrastructure into design.
- The proposal is aligned with numerous goals in the Livable Built Environment section of the plan, including the mix of uses, high density residential component with dedicated affordability, sidewalks, transit upgrade, structured parking and using creative design and urban open space for placemaking enhancements.
- Increasing the housing supply, especially in a walkable and transit-supportive location is a primary goal of the Resilient Economy section of the plan.

Compatibility Analysis:

- The proposal provides a mix of uses complementary to downtown and provides structured parking incorporated behind a liner building that activates a previously inactive right-of-way (Federal Alley).
- The design and materials break up the massing of larger structures and provide a variety of creative design features for placemaking and to reflect and respect each of the three different frontages.
- Widened sidewalks are provided on all frontages and active uses on the ground levels enhance the pedestrian realm. The open space connecting Asheland and Coxe Avenues incorporates both public and private areas, landscaping and creative stormwater treatment, making positive use of the significant grade change across the project site.
- Due to the design of the site and building elements, the structure and design is considered compatible in this urban location.

Council Goal(s):
- A Well-Planned and Livable Community
- Quality Affordable Housing
- Transportation and Accessibility

Committee(s):
- Technical Review Committee (TRC) - November 4, 2019 - approved with conditions
- Downtown Commission - September 13, 2019 - approved design review (6-0)
    - The Commission also held a separate discussion on impact issues and focused primarily on a desire to increase both the accessibility of the open space on the site and the contribution to affordable housing.
- Multimodal Commission for alley closure - not yet scheduled
- Planning & Zoning Commission - November 7, 2019 - recommended approval (7-0)

Staff Recommendation:
- Staff recommends approval of this project and finds that the mix of uses and project design is compatible with the requirements of the zoning district, downtown design standards and guidelines and the Living Asheville Comprehensive Plan in numerous ways as noted in the report.

Ms. Bernstein said that staff and the applicant have agreed to shift the driveway southward to align with the Morgan Avenue intersection where a fully-signalized crossing for both pedestrians and vehicles would be installed as shown on the site plan - alternate.

Councilwoman Smith was concerned with the already congested area at Morgan Avenue and Asheland Avenue with school related traffic, work related traffic and people travelling to and from the medical and social services on Asheland Avenue. This will impact our on-time services of our buses. She could not support this project without more information on this impact.

When Councilwoman Mayfield asked if there has been any discussion with the neighborhood about traffic calming measures on surrounding streets, i.e., Morgan Avenue, Ms. Bernstein was unaware of any discussion but that the Transportation Department has a process for traffic calming devices with neighborhoods. Councilwoman Mayfield said that if the neighborhood is interested in traffic calming devices, this might be an opportunity to make that a condition for the developer to pay for them, if the developer is agreeable.

Mr. Stevens, attorney representing Tribute Company, said that this client has agreed to add a condition that they would fund up to $30,000 for any traffic calming that is deemed necessary for that area.

Mr. Brian Cook, architect with the applicant, reviewed with Council in detail the site plan for the project, along with the different buildings and which floors would contain retail space, office space and apartments. He then reviewed with Council the parking deck, which will be well hidden within the project area.

Mr. Matt Sprouse, landscape architect for the applicant, highlighted some of the site conditions. On the 4.5 acre site, they have broken up the mass so spaces have air, light and plantings in the middle of the development. They will have three new vibrant streetscapes on Coxe Avenue, Federal Avenue and on Asheland Avenue, with a vibrant courtyard. They will bring back an urban canopy into the courtyard space, focusing on native trees, native shrubs, pollinators, etc. He said 37 trees are required for the project; however, they will be adding 145 more trees into the courtyard space. They are very aware of the stormwater issues happening on the south slope so there are some engineered innovative solutions. He urged Council to approve this project as they are trying to bring some new life into this area.

Mr. Chris Day, traffic engineer for the applicant, said that they are in agreement with City staff to align the driveway with Morgan Avenue with a fully signalized crossing. They analyzed that intersection with Morgan Avenue and found that as you drive north to Hilliard, that intersection (currently an "F") backs up and there are many folks who try to make a left onto Morgan Avenue and find their way to S. French Board to avoid that light. Two times a day that neighborhood receives that traffic. In the evening, 6% of the cars (55) are turning onto Morgan Avenue. There is also a significant amount of traffic going the opposite direction when school lets out. They had conversations with staff about this intersection, as well as the Hilliard/Asheland intersection (currently an "F"). The Hilliard/Asheland intersection will also have an "F" even if this project gets built. After conversations with Transportation staff, their recommendation was that since this is in the Central Business District area they should improve pedestrian safety. That includes creating a fully signalized intersection at Morgan/Asheland so it creates safer vehicular movements and safer pedestrian movements. The developer will also add pedestrian improvements to the Asheland/Hilliard intersection as well. While it is a fully signalized intersection, it does not have crosswalks for pedestrians. The developer will fund that improvement at that intersection. Based upon the data analyzed, the study suggests we are looking at 10 additional vehicles that would be interested in leaving this project in the evening and going straight into the Morgan Avenue neighborhood.

Councilwoman Smith said that it is a high priority of Council to make sure our transit is reliable, noting that traffic calming does not help with the congestion of traffic in the area. She felt his project does have merit; however, the vitality of downtown cannot override the quality of life for the people who are dependent upon our buses getting them to their destinations on time.

In response to Vice-Mayor Wisler, the City's Traffic Engineer said that generally traffic studies are focused on overall traffic operations, like how much is there a delay and capacity is affected by the project. It doesn't focus on if it is a single occupant vehicle or if it is affecting a transit bus. There was not a specific consideration on how bus performance would be affected. But, the study did focus a lot more than typical on pedestrian impacts and the factor for transit was the importance of providing at least the adjacent bus stop facilities. The Transportation Department has not raised any particular concerns about direct affect on transit.

Councilwoman Mayfield suggested signal preemption at the intersection. The City's Traffic Engineer said signal preemption needs to be looked at more systematically but our buses don't have the equipment associated with that. Councilwoman Mayfield said that since the project won't be built for approximately 3 years, we have 3 years to think about bus flow in this area.

Vice-Mayor Wisler opened the public hearing at 6:34 p.m.

Mr. David Nutter spoke in support of this conditional zoning and its prime location. He also was pleased that the private sector is helping with our affordable housing crisis.

Ms. Sharon Sumrall spoke in opposition of the project in that she felt that the project is massive. She expressed concerns about the trees, parking, stormwater, and small amount of affordable housing.

Mr. Michael Stratton felt that the parking garage is too large and we do not have a functional transit system.

Ms. Sandy Aldridge felt that on-time bus performance is important and that 10% of affordable units is not a lot.

Ms. Nina Tovish was pleased that the project provides infill and more trees than required. She was; however, concerned about the number of cars in the parking garage and suggested that only one car per apartment dwelling be allowed. That would encourage walkability and the use of public transit.

Mr. Joe Minicozzi spoke in support of the project and felt that we need to invest more in transit.

Vice-Mayor Wisler closed the public hearing at 6:49 p.m.

Mr. Stevens responded to several concerns raised, from the need for the 1,000 parking deck to their mitigation of traffic. He said that there is no evidence that this project will measurably harm the existing transit performance in that area, But, with respect to the new traffic signal, they will make sure that the new signal includes the necessary equipment so when the City buses have the equipment for signal preemption, the signal will be ready.

Councilman Kapoor spoke in support of the project. He felt there will be significant affordable housing and office space in the project. He also felt there will be opportunities to address transit, noting the issues will still exist if there is a project there or not.

Councilman Young felt this is a good project, but not a great project. He would prefer to see 60% AMI and deeper affordability. He was glad to see that Housing Choice Vouchers will be accepted. He agreed that we need to invest more into our transit system.

Councilwoman Smith believed that if the on-time bus performance issue was brought up before this meeting, the developer would have put more thought into it. She noted that the City's Traffic Engineer said that traffic studies do not focus on bus impacts. She felt we needed more time to discuss this point and if there is not a delay in the vote, she would not be able to support the project.

Vice-Mayor Wisler said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve the conditional zoning request for the Coxe/Asheland Mixed-Use Development from Central Business District (CBD) to Central Business Expansion District (CBD EXP CZ) for the construction of a new mixed-use development, with the amendment to the B.1 Conditions that the applicant will fund any traffic calming measures which the City deems necessary as a result of the project up to $30,000, and find that the request is reasonable, is in the public interest, is consistent with the city's comprehensive plan, and meets the development needs of the community in that: 1) the

Downtown Future Land Use category of the Living Asheville Comprehensive Plan anticipates a mix of uses as included in this development; 2) the project enhances the pedestrian experience with widened sidewalks, active ground floor uses and intentional urban open space with portions that are accessible to the public; 3) the proposal incorporates affordable residential units; and, 4) the project is compatible with the surrounding area. This motion was seconded by Councilwoman Mayfield and carried on a 5-1 vote, with Councilwoman Smith voting "no". (with Mayor Manheimer being recused from voting).

ORDINANCE BOOK NO. 33 - PAGE 11

At this time, Mayor Manheimer re-entered the meeting and presided over the rest of the meeting.

C. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT TO SUPPORT AFFORDABLE HOUSING UNITS AT THE VERDE VISTA PHASE II DEVELOPMENT

Community Development Program Director Paul D'Angelo said that this is the consideration of (1) a resolution granting a land use incentive grant to support affordable housing units at the Verda Vista Phase II development.

Action Requested: Request by CCC Verde Vista II LLC to utilize the Land Use Incentive Grant to support affordable housing units at the mixed income rental development known as Verde Vista Phase II.

Review:

- CCC Verde Vista II LLC has proposed the development of a second phase of the Verde Vista Apartments, located in east Asheville in close proximity to Swannanoa River Road and the Wal-Mart Supercenter. The developer intends to build 56 multifamily rental apartments on a 3.21 acre parcel (PIN# 9658-52-9309). Conditional Zoning approval was sought and given on May 28, 2019.
    - Among the conditions for approval listed in the exhibits (Ordinance No. 4744) was the commitment to 6 affordable units (10% of the total units). These units are to be offered at a rate not to exceed 80% of the Area Median Income (AMI) per the City of Asheville Community Development Division's affordable and workforce housing standards, posted annually. The affordability period is to run for 20 years from the date the Certificate of Occupancy is issued.
- The property is situated in close proximity to an Asheville Regional Transit (ART) bus stop, as well as a full service grocery and a number of potential employers. These are all features prioritized in the LUIG policy.
- The developer submitted a Land Use Incentive Grant (LUIG) application in September, prior to the LUIG policy update that occurred on October 22, 2019. Under the updated policy, no LUIG applications can be accepted for projects which have already received City Council approval where they have already committed to affordable housing. The developer has asked that their request be considered in relation to the policy effective at the time of their application which did not explicitly require that a LUIG be requested prior to other approvals by City Council.

Proposal:

- The property's location and commitment to affordable housing merits a score of 40 on the LUIG scoring matrix, resulting in an award period of 4 years.
- The current assessed value of the parcel is $335,600 (City Taxes of $1,439). The projected post-development value of the property will be determined by the Tax Value of the property, to be based on Buncombe County Tax Assessment. An estimate of post

construction value from the developer is $6.2M. Final valuation is determined by Buncombe County Tax Assessment. This would result in an annual grant award of $25,153. Over the 4 year award period, the total value of the LUIG award would amount to $100,612.

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- Housing & Committee Development - November 26, 2019 / Vote of 3 - 0 for denial of the application

Staff Recommendation: Staff recommends denial of this LUIG request because the developer already committed to providing 10% of the units (6 units) affordable to households at 80% AMI for a period of 20 years as part of their Conditional Zoning (Ordinance No. 4744) approved on May 28, 2019, without the need, or request at the time, for a land use incentive grant.

Pro(s):
- The proposed project will create 6 affordable rental housing units made available to households earning 80% or less of AMI for a period of 20 years.
- The project meets the criteria for a LUIG under the policy in place prior to October 2019.
- The proposed project addresses the City's stated priority for one-bedroom apartments.

Con(s):
- The award will commit City resources to a conditional zoning project. Prior to this application, these projects did not require fiscal support. This could establish a precedent for future projects, and place increased pressure on the City's budget.

Fiscal Impact:
- The city will grant approximately $25,153 of city property taxes annually for 4 years ($100,612 total) based on the improvement value of the property
- For 6 affordable units at 80% AMI for 20 years, this equals $16,768 per unit of subsidy which is well within the estimate of up to $80,000 in subsidy for 80% AMI homes as suggested by our Lord Aeck Sargeant consultants.
- In years 5-20 of the affordability period, the City will annually receive the full property tax amount of approximately $26,592.

In response to Councilwoman Mayfield, Mr. D'Angelo explained that the old LUIG policy said "unless granted an exception from the City Council for just cause shown, no grant would be allowed under this policy for projects which have received building permits." Language in the new policy says "or that had been through City Council with conditional zoning approval."

Mr. Robert W. Oast Jr., representing the developer, said that this is a good, strong project and was approved with conditions on May 28, 2019. In addition to the 56 units, 6 of which are affordable housing, there are other benefits, i.e., providing bus stop, transit facilities, license for the City to use River Ford Parkway, etc. He said staff's denial is only based upon the fact that the application was submitted after the conditional zoning was approved - not based on the merits of the project. He said they had no reason to know that the policy was changed and in fact, the policy did not change until after the application was submitted. He said that as Council knows, sometimes conditional zoning conditions are negotiated at the last minute and the inclusion of the affordable housing was similar to that. It was not discussed at the Planning & Zoning Commission meeting and the affordable units were not part of the original submission. It came up between the time the Planning & Zoning Commission recommended unanimous approval of

the project and when it got to Council. The condition for affordable housing was added because City Council asked for it. The weekend before the City Council public hearing he suggested to the developer that affordable housing be added to the project and suggested that the LUIG policy might help with the financial impact of that. He sent it to the developer to perform a financial analysis to make sure the numbers worked for him. He said the City was aware he was going to do this. The developer agreed to the inclusion of affordable housing. The availability of the LUIG was a key component of the developer's decision to provide the affordable housing and throughout this process no one said the timing of the application submittal would be an issue. This policy is supposed to encourage affordable housing where it might not otherwise be possible. This is just such a case and the policy worked exactly like it should have. Both the new and old policies allow Council to make exemptions for just cause shown to these timing requirements. He suggested that if Council agrees that the request was made after it should have been (and he contends that it was not), there is a provision that allows this application to be considered on its merits and that is all he asked. He urged Council for fair consideration of their request regarding the affordable units.

Councilwoman Mayfield was concerned that Mr. Oast discussed the LUIG with his client; however, failed to say anything about those conversations to City Council. In her opinion, from Council's perspective, Mr. Oast came forward and offered 6 affordable units without asking for a LUIG. She would feel differently about this had Mr. Oast said they were looking at a LUIG or that they might come back for a LUIG in the future.

Councilwoman Mayfield wondered how may conditional zonings were approved without a LUIG that have affordable units and how many of them might come back for a LUIG.

Councilman Young said that when a developer comes forward willing to put in affordable housing without City money is important to him and that plays into his consideration of the project. To come back to City Council for a LUIG after the conditional zoning has been obtained is not something he is willing to support.

Mr. Oast stressed that at the time the conditional zoning came before Council, it was not a requirement of the LUIG policy that the application for the LUIG be submitted before the conditional zoning was approved. If they had known that, they would have taken appropriate steps to make sure Council received them at the same time.

When Councilwoman Mayfield asked what will be the impact on the project if a LUIG is not approved, Mr. Oast said they are still thinking about that.

Mr. Tom Egen, with Mission Properties, said that affordable housing was not part of this project application. Mr. Oast contacted him to see if they received a LUIG could an affordable housing component be included in the project. It was his understanding that they had to get the LUIG grant approved prior to receiving their building permit. At this time, they don't have their building permit - they have held off on getting it because that was the policy. It was their intention all along to apply for a LUIG.

Councilman Young suggested the developer construct 6 additional units (for a total of 12) and then apply for a full LUIG. Mr. Egen replied that they didn't think that was a feasible option at this point. Their project has been completely vetted with their bank loan with the 10% affordable units, which included the LUIG.

Mayor Manheimer opened the public hearing at 7:36 p.m.

Ms. Nina Tovish recalled the conditional zoning public hearing on this item back in May. She didn't hear one mention of a possible LUIG. She hoped Council will support staff and their Committee recommendations of denying this request.

Mayor Manheimer closed the public hearing at 7:38 p.m.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Kapoor moved to deny the request by CCC Verde Vista II LLC to utilize the Land Use Incentive Grant to support the production of affordable housing units because the commitment to provide affordable housing was already made as part of the Conditional Zoning approval without the stated need for a land use incentive grant. This motion was seconded by Councilman Young and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 19-273 - RESOLUTION APPROVING A HOUSING TRUST FUND LOAN AWARD REQUESTED BY ASHEVILLE AREA HABITAT FOR HUMANITY TO ALLOW THEM TO DEVELOP FOR-SALE AFFORDABLE HOMES AT SITES ACROSS THE CITY AND AUTHORIZING THE CITY MANAGER TO NEGOTIATE AND EXECUTE ALL DOCUMENTS NECESSARY TO GIVE EFFECT TO THIS APPROVAL

Due to a conflict of interest, Councilman Young moved to recuse Councilman Hayes from participating in the matter. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

Community Development Program Director Paul D'Angelo said that this is the consideration of a resolution approving a Housing Trust Fund Loan Award requested by Asheville Area Habitat for Humanity to allow them to develop for-sale affordable homes at sites across the City and authorizing the City Manager to negotiate and execute all documents necessary to give effect to this approval.

Background::

- In response to increased demand for for-sale housing available to low and moderate income households, staff approached Asheville Area Habitat for Humanity (AAHH) to explore their capacity for constructing single-family homes in Asheville neighborhoods within their larger project cycle.
- Both Staff and AAHH feel there is value in identifying and implementing a model that primarily utilizes local funding sources, and can operate with greater flexibility and at the infill scale, versus models dependent on competitive Federal funds. Should this effort prove successful, the opportunity exists to replicate similar projects in the future.
- Particular focus was given to Asheville neighborhoods that are threatened with displacement by rising home costs. Three of the sites currently identified are located in the Shiloh neighborhood.
- Along with the commitment to a Down Payment Assistance program, the City of Asheville's Community Development Division has sought to develop strategies to make homeownership available to households in Asheville who wish to attain housing stability and develop wealth, but would otherwise be challenged without some form of support.

Proposal:

- AAHH proposes to complete 8 homes and make them available for sale to households at or below 80% Area Median Income (AMI). Particular focus will be given to households at or below 60% AMI. Sale prices are expected to be in the approximate range of $190,000-235,000.
    - Of the 8 homes, 2 are existing structures acquired by AAHH. The Housing Trust Fund (HTF) investment in these two properties will be considered down payment assistance for the homeowner, and go in at closing.
    - The remaining 6 homes will be constructed on lots either currently owned by AAHH or to be acquired in the near future.
- AAHH requests a HTF loan in the amount of $860,000 which they will pair with $964,000 of their own equity. The balance of the $860,000 will be drawn upon as needed to complete each home.
- The loan fund will not accrue interest. This decision was made in accordance with AAHH, as any interest accrued during the construction period will affect home prices and add an additional burden to low to moderate income buyers.
- After homebuyer selection, qualification will be verified by Asheville Community Development staff, and a closing scheduled. The AAHH equity committed to each home will convert to a loan in first position secured by the property.
- Additional funding will be pursued from NCHFA's Self-Help Loan Pool, the City of Asheville's Down Payment Assistance program, and other potential sources. It is anticipated that $540,000 of the HTF loan will be paid back and returned to the HTF account. The remaining HTF dollars in each home will convert to a down payment assistance loan to be secured by a deed of trust, and will be repaid upon transfer or sale of the property by the homeowner.
- Upon home sale, affordability conditions tied to the AAHH first loan would mirror those for similar Habitat projects. Loan funds provided by NCHFA, DPA, and HTF would have repayment provisions consistent with each program's respective policy.
- It is anticipated that construction can begin shortly after loan closing, and homes may be available for sale by spring 2020. AAHH's development schedule calls for 5 of the homes be available for sale by fall 2020. It is suggested that the loan term be set for 3 years to allow for potential delays, with the ability to extend for 1 additional year upon mutual agreement by AAHH and Asheville CD Staff.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- Housing & Committee Development - November 26, 2019 - unanimously passed to Council

Pro(s):

- The project impacts a form of affordable housing that traditionally been difficult for the CD Division to sponsor without substantial HUD subsidy. The effort to take on this project acknowledges the threat of displacement in Asheville's neighborhoods.
- AAHH is an experienced partner and has a long track record of completing quality home projects on time and at cost. This project anticipates homes to become available for purchase within a short period of time.
- AAHH has the established staff and programs to prepare low-to-moderate income buyers for the full complexity of homeownership. It is the CD Division's goal that households supported by this project be able to successfully maintain homeownership.

Con(s):

- The full $860,000 principal would not accrue interest, and produce no program income at the conclusion of the program. All loans have an inherent risk which is traditionally reflected in an interest rate, meaning the City of Asheville would inherit part of the risk in this project without the promise of financial recourse.
- Even after repayment of the $540,000 construction portion of the loan, an amount estimated at $40,000 per home would remain outstanding. If combined with City-sponsored Down Payment Assistance funds (which are available at amounts between $25,000-40,000), it is conceivable that each home sale would require a City subsidy ranging between $65,000-80,000. This highlights the difficulty and expense of supporting affordable home ownership in the City of Asheville, and may be contrasted unfavorably with the amounts required to support some affordable rental units.

Fiscal Impact:

- The project would draw $860,000 from the City's Housing Trust Fund. Of this, at least $540,000 would be outstanding during a marginally risky construction period. Upon the sale of 8 homes, approximately $320,000 of HTF dollars would remain outstanding in the project.
- The loans, both to AAHH and the homeowners, would be structured to require no interest payments, preventing the receipt of program income.

Mr. Andy Barnett, Executive Director of Habitat for Humanity, thanked City staff for working with him to find ways to put a program together into a HTF that supports the creation of affordable home ownership units. We will be targeting households at and below 70% of AMI. Their typical AMI that they serve is well under 60% AMI. We will be working in infill neighborhoods - 6 of the 8 units have been acquired.

Councilman Young recalled when he talked about home ownership opportunities for individuals who are at 60% AMI. He was pleased to say this is the first project that we will hopefully approve for home ownership opportunities. There are individuals who have purchased homes from Habitat that are in the Housing Choice Voucher program where those Housing Choice Vouchers can be converted to help pay for their mortgage. We have a group of people who are trying to obtain home ownership and build generational wealth in some means and this will do that.

Councilwoman Mayfield appreciated Habitat's growing feasibility in different projects in different parts of the City.

When Mayor Manheimer asked for public comment, no one spoke.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved to approve the request by Asheville Area Habitat for Humanity to borrow $860,000 from the Housing Trust Fund. This motion was seconded by Councilwoman Mayfield and carried unanimously (with Councilman Haynes being recused from voting).

RESOLUTION BOOK NO. 41 - PAGE 172

B. RESOLUTION ENDORSING THE DECLARATION OF A CLIMATE EMERGENCY AND EMERGENCY MOBILIZATION EFFORT TO RESTORE A SAFE CLIMATE

This resolution has been removed from this agenda for consideration.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Councilman Kapoor was pleased to announce that Senior Police Officer Justin Booth was awarded the Crisis Intervention Team Officer of the Year for 2019 from the National Alliance on Mental Illness Western Carolina.

Mayor Manheimer was pleased to announce City Manager Campbell was awarded the 2019 Champion in Real Estate from the Urban Land Institute.

Ms. Dawn Chavez, Executive Director of Asheville Greenworks, spoke about the City's tree canopy and their goal of 50,000 trees by the year 2040. At the suggestion of Vice-Mayor Wisler, Ms. Chavez said that she would put some thought into how the number of trees that citizens plant on their property can be accounted for in that goal.

Ms. Alex Lines said that the Sunrise Movement asked that the Sustainability Advisory Committee on Energy & the Environment's (SACEE) resolution regarding a climate emergency be removed from consideration at this meeting. She feels that the SACEE version is very far from alignment from the Sunrise Movement resolution on what they think is important on accountability and a timeline. She appreciated the opportunity to continue working together for a resolution to be placed on Council's next meeting agenda.

Mr. Chad Brooks spoke in support of Fire District Captain Joy Ponder and improper management.

Ms. Sarah Benoit, Ms. Matilda Bliss and Ms. Ashley McDermott also spoke in support of the Sunrise Movement's climate emergency resolution.

Mr. Joe Minicozzi and Mr. Reid Thompson spoke about the repeated trucks on Maxwell Street and the City's lack of enforcement.

Ms. Vicki Meath was disappointed the City has not released the updated numbers for the Transit Master Plan, noting that the first year of the Master Plan has not been funded yet. She hoped City Council will adopt a budget amendment to extend the evening service hours in January.

Ms. Sandy Aldridge noted that December 10 is "International Human Rights Day."

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:32 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Absent: Councilwoman Sheneika Smith

Budget Worksession

City Manager Campbell said that the goals of this worksession are to (1) provide current year update and financial context; (2) identify challenges and opportunities in next year's budget; and (3) obtain feedback to inform next steps in the budget process.

Budget Manager Taylor Floyd said the Fiscal Year 2019-20 General Fund budget is 52% property taxes, 21% sales tax, 7% utility taxes and 20% other. We are on target for General Fund revenues, We are also on target for General Fund expenditures (personnel cost management, utilities, fleet management/fuel; and health care.

Interim Human Resources Director Peggy Rowe updated Council on the compensation study. Consultants were engaged to analyze the City's salary and benefits package and to provide a recommendation to the City Manager. She reviewed the Phase 1 scope of work and the movement of salaries to $31,200. The City has a total of 1,256 full-time and regular part-time employees, with 93 earning less than $31,200. Departments with impacted positions include Capital Projects; Community & Economic Development; Parks & Recreation; Police; Public Works; Transportation; and Water Resources. The estimated annualized cost for adjusting salary for 93 employees including overtime, increase in cost of benefits, additional City contribution to the retirement system and life insurance premiums is $412,560. If $32,200 becomes the new wage floor, the shift causes additional compression as a group of employees' pay shifts upward. An additional 87 employees could potentially be impacted by the new wage increase. The cost to adjust for compression could be $30-196,000. There is likely to be pay compression in other pay grades. When Phase II of the total Compensation Study is complete, the following recommendations will be provided: (1) position compensation based on responsibilities; (2) adjustments for market and internal compensation inequities; and (3) adjustments to address pay compression in the current plan and the impact of new pay grades and ranges. In summary, Phase 1: initial identified positions to be adjusted to $31,200 year (a) supports commitment to adjust lower pay rates first; and (b) staff will provide additional information and options at Council retreat in February. Phase II timeline: (a) additional data collection including market analysis (January-March); (b) preliminary report (April-May); and (c) final report (May-June).

Budget Manager Floyd said that the current year General Fund summary shows revenues estimated at $133.4 Million and expenses at $132.6 Million, with a deficit of $0.8 Million. He then reviewed the Enterprise Fund status.

He said the Transit Fund status details show that transit is trending $500,000 over budget due to increased cost of fuel/electricity and paratransit service.

Paratransit details include (1) the Americans with Disabilities Act requires public transit agencies to provide equivalent services to people with disabilities; (2) door-to-door service is provided for eligible riders throughout the entire city, which is above and beyond federal requirements; and (3) City contracts with Buncombe County to provide services.

In October of 2019, City Council asked staff to monitor the budget to see if the last half of the 1st year of the Transit Master Plan (extended hours of operation) could begin this fiscal year. A cost analysis was prepared and considered (1) when would the extended hours of operation begin; (2) paratransit increase; (3) maintenance impacts; (4) ART staff increases (drivers/ dispatch/mechanics); (5) vehicle availability; (6) additional security needs at transit station; and (7) fuel increase plus increased fuel cost. The cost to extend the hours of operation to complete Year 1 of the Transit Master Plan (+$1.1 Million for full year): (1) extended hours of operation - $950,000; and (2) upgrade/purchase operational software - $150,000. Due to existing projected shortfall in Transit Fund of $500,000, cost to implement for partial year approximately $250-300,000, and logistical challenges of quick turnaround, it is unlikely for this fiscal year.

Regarding the next fiscal year budget development, the internal progress update is (1) facility and infrastructure maintenance identified as high priority by Management Team; and (2) departments completing development of budget proposals (operations & capital). The external progress update is (1) budget process information shared with Boards & Commissions; and (2) capital financing and forecast information shared with Finance & Human Resources Committee.

Preliminary revenue projections: (1) property tax growth to follow recent trends; (2) moderating sales tax growth; (3) additional Mission-HCA revenue ($2.2 Million); (4) minor growth in other revenues; and (5) current estimate: $5-6 Million additional revenue. Examples of expense increases include (1) full year of transit service improvements; (2) paratransit, fuel and electricity; (3) maintenance in River Arts District; (4) additional ongoing personnel costs; (5) annual capital debt model allocation; and (6) current estimate: $6-8 Million additional operating costs. The revenue growth is expected to be used up by ongoing operating cost increases.

Chief Financial Officer Barbara Whitehorn then reviewed the investments in short term (1-3 year) priority strategies. She then reviewed examples of strategic investments for review, in particular transit and capital. In the strategic investment funding, revenue growth is expected to be used up by ongoing operating cost increases. Additional revenue required to fund any of these new investments. Revenue options to be determined.

At the Council retreat, staff will affirm guiding principles, provide a 5-year forecast, provide a more detailed budget information; and show alignment with Council priorities.

City Manager Campbell, along with City staff, responded to various questions/comments from Council, some being, but not limited to: confirmation of information on Phase 1 of the Compensation Study and entire compression analysis organization-wide by the City Council retreat; are any of the 93 positions earning less then $31,200 vacant; explanation of paratransit services contracted with Buncombe County and why are we contracting with Buncombe County; does the County subsidize paratransit and will that continue; if we go fare free for public transit do we have to go fare free on paratransit; and what is the cost per person for a paratransit ride.

Councilwoman Mayfield said that to do the new things that she wanted to see done we need a new revenue source. She pulled together advocates, along with Councilman Young, to come up with a proposal to generate new revenue. A 3-cent tax increase for our future. Their plan is to restore our tree canopy; build a bus system for the 21st Century; and invest in renewable energy and affordability. We can fill the gap between our plans and our revenue through a 3-cent increase to property taxes. A 3-cent property tax increase will provide $4.5 Million. The plan will fund (1) hiring an Urban Forester & start-up costs - $100,000; (2) Urban Forest Master Plan and recurring tree-planting program - $200,000; (3) expand evening hours to 10:30 p.m. or later - $1 Million; (4) Year 2 of Transit Master Plan - $1.2 Million; (5) renewable energy & energy efficiency - $1.5 Million; (6) low-income weatherization via Blue Horizons - $250,000; (7) new Housing Voucher Pilot Project - $100,000; (8) additional Housing Trust Fund

allocation - $100,000; and (9) Asheville-Buncombe County Land Trust operating costs - $50,000. Vice-Mayor Wisler wondered how this proposal will affect renters.

Councilman Kapoor's main concern is providing basic services across the City. We have a duty to make sure that all of our residents are kept safe, that they can depend on having clean drinking water, that the roads they travel on are maintained, and that their tax dollars are being efficiently and effectively used to provide basic services. Despite the many good things that are happening across our City, we're seeing a heroin and drug needle litter crisis in West Asheville and downtown that's being accompanied by a significant jump in property crime; we've had several recent water outages caused by outdated water infrastructure that have hurt residents and local businesses; we have some of the worst roads of any city in the state and unmet capital needs of now over $600 Million including for building new fire stations; and we are having trouble hiring and keeping many of our City employees who provide the very services that our residents expect. To address these immediate problems, our next budget must have (1) funding to address the heroin and drug needle litter emergency; (2) funding to ensure that our water system infrastructure is dependable so that we prevent a public health disaster; (3) a responsible bond program that begins to fund our infrastructure and capital needs that have been ignored for years; and (4) funding for appropriate wage adjustments for our employees who deliver the services all of us depend on.

Mayor Manheimer noted that we do have capital needs around public safety and thought it might be time for another General Obligation Bond Referendum and perhaps that could include some environmental initiatives.

At 4:21 p.m., Mayor Manheimer adjourned the budget worksession.

Tuesday – January 14, 2020 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JANUARY 21, 2020, AS "NATIONAL DAY OF RACIAL HEALING"

Mayor Manheimer read the proclamation proclaiming January 21, 2020, as "National Day of Racial Healing " in the City of Asheville. She presented the proclamation to Director of Equity Inclusion Kimberlee Archie, who then introduced Michael Hayes, Kasia Maatafale, Ponkho Bermejo and DeWayne Barton. Mr. Barton stated that we need to practice racial healing every day.

II. CONSENT AGENDA:

A. **APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 10, 2019**

B. **ORDINANCE NO. 4786 - ORDINANCE CHANGING THE POSTED SPEED LIMIT ALONG SEVERAL STREETS WITHIN THE CITY OF ASHEVILLE**

Action Requested: Adoption of an ordinance changing the posted speed limit along several streets within the City of Asheville.

Background:

- N.C. Gen. Stat. § 20-141 gives the City the authority to regulate speed limits within its corporate limits.
- City staff received requests from citizens to consider changes to the speed limits.
- City staff performed appropriate traffic-engineering studies along the various streets.
- Staff will bring speed limit changes to City Council on a quarterly cycle in an effort to improve the efficiency of the approval process.
- West Haywood Street, from Park Avenue North to Roberts Street will be changed to 20 miles per hour.
- The following streets will be changed to 25 miles per hour:
    - Asbury Road, from Wolfe Cove Road to Bassett Road
    - Bassett Road, from Wolfe Cove Road to Spooks Branch Road
    - Bearden Avenue, from Cumberland Avenue to Montford Avenue
    - Briarcliff Drive, from SR 3503 (Overlook Road) to Stancliff Drive
    - Buffalo Street, from Burton Street to a point 320 feet north of Ohio Street
    - Cameron Street, from Arlington Street to NC 694 (Town Mountain Road)
    - Creasman Place, from Selwyn Road to a point 550 feet north of Selwyn Road
    - Elizabeth Street, from Broadway to Cumberland Avenue
    - Fawn Drive, from Briarcliff Drive to Oakwilde Drive
    - Forsythe Drive, from Woodrow Avenue to North Street
    - Hampstead Road, from Manetta Road to Country Club Road
    - Hilliard Avenue, from West Haywood Street to SR 3548 (Clingman Avenue)
    - Oakwilde Drive, from Briarcliff Drive to a point 650 feet west of Stancliff Drive
    - Selwyn Place, from Selwyn Road to a point 300 feet north of Selwyn Road
    - Thompson Street, from US 25 (Hendersonville Road) to a point 750 feet north of Glendale Avenue
    - West Haywood Street, from Hilliard Avenue to Park Avenue North
    - West Street, from Forsythe Avenue to North Street
    - Windswept Drive, from College Street to Alexander Drive
- The Asheville Police Department concurs with the changes.

Council Goal(s):

- Transportation and Accessibility.

Committee(s):

- None

Pro(s):

- City staff has been able to respond favorably to citizen requests.
- The new speed limits will be consistent with streets of like characteristics and design.
- Based on the 85th percentile speeds, most drivers would adhere to the recommended speed limits on these streets.

Con(s):

- None

Fiscal Impact:

- The cost of installing and maintaining speed limit signs is included in the current operating budget.

Motion:

- Motion to approve an ordinance enacting (1) a 20 mph speed limit on West Haywood Street from Park Avenue North to Roberts Street; and (2) a 25 mph speed limit on Asbury Road, from Wolfe Cove Road to Bassett Road, Bassett Road, from Wolfe Cove Road to Spooks Branch Road, Bearden Avenue, from Cumberland Avenue to Montford Avenue, Briarcliff Drive, from SR 3503 (Overlook Road) to Stancliff Drive, Buffalo Street, from Burton Street to a point 320 feet north of Ohio Street, Cameron Street, from Arlington Street to NC 694 (Town Mountain Road), Creasman Place, from Selwyn Road to a point 550 feet north of Selwyn Road, Elizabeth Street, from Broadway to Cumberland Avenue, Fawn Drive, from Briarcliff Drive to Oakwilde Drive, Forsythe Drive, from Woodrow Avenue to North Street, Hampstead Road, from Manetta Road to Country Club Road, Hilliard Avenue, from West Haywood Street to SR 3548 (Clingman Avenue), Oakwilde Drive, from Briarcliff Drive to a point 650 feet west of Stancliff Drive, Selwyn Place, from Selwyn Road to a point 300 feet north of Selwyn Road, Thompson Street, from US 25 (Hendersonville Road) to a point 750 feet north of Glendale Avenue, West Haywood Street, from Hilliard Avenue to Park Avenue North, West Street, from Forsythe Avenue to North Street, and Windswept Drive, from College Street to Alexander Drive.

ORDINANCE BOOK NO. 33 - PAGE 20

C. RESOLUTION NO. 20-1 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE EXISTING REPAIR AGREEMENT WITH SAFE INDUSTRIES FOR SERVICES RELATED TO THE REPAIR OF ASHEVILLE FIRE DEPARTMENT APPARATUS

Action Requested: Adoption of a resolution authorizing the City Manager to amend the existing repair agreement with Safe Industries related to the repair of Asheville Fire Department (AFD) Truck 9574 to increase the contract amount from $78,636 to $117,991.

Background:

- AFD Truck 9574 was involved in an accident on 1/17/2019.
- The contract for the original scope of work with Safe Industries for repairs was $78,636.
- During the completion of the original scope of work, Truck 9574 was discovered to have frame damage.
- Truck 9574 was inspected by a KME specialist, and it was determined the frame could be repaired instead of being replaced. The cost of these repairs is $39,354.86.
- The contract amount will go from $78,636 to $117,991.

Vendor Outreach Efforts:

- The truck was manufactured by KME, and purchased through the regional dealer, Safe Industries. The repair is being performed by Safe Industries, as they are the only KME repair vendor available to us. This allowed for original KME parts to be replaced with the same manufacturer's parts.

Council Goal(s):

- Smart City

Committee(s):

- n/a

Pro(s):

- Allows for Vendor to be paid for work performed.
- Allows for Truck 9574 to return to service, which will help AFD be prepared to meet the needs of the community.

Con(s):

- Increases expenditures under the contract.

Fiscal Impact:

- Costs for these services are included in the General Fund fleet allocations for the Department's vehicle repair and maintenance activities.

Motion:

- Motion to adopt a resolution authorizing the City Manager to amend the existing repair agreement, from $78,636 to $117,991, with Safe Industries related to the repair of Asheville Fire Department Truck 9574.

RESOLUTION BOOK NO. 41 - PAGE 173

D. RESOLUTION NO. 20-2 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION CONTRACT WITH AUSTIN CONSTRUCTION & GRADING FOR RAY L. KISIAH PARK PAVING AND BATTING CAGE IMPROVEMENTS

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a construction contract with Austin Construction & Grading of Horseshoe, NC, in the amount of $196,332.83 and to further authorize change orders up to the contingency amount of $19,633 (10%) for Ray L Kisiah Park Paving and Batting Cage improvements.

Background:

- Funding for these project upgrades were approved as part of the voter approved 2016 General Obligation (GO) Bonds and will allow for the replacement of outdated facilities including paving and sports field amenities.
- This project will improve the appearance, usefulness, and safety of facilities and are consistent with the department's Parks, Recreation, Cultural Arts Master Plan adopted by City Council in 2009.
- Seven bids were received and opened on December 12, 2019:
    - Austin Construction & Grading, Horseshoe, NC $196,332.83
    - Allison Contractors, LLC Hendersonville, NC $213,308
    - NHM Constructors, LLC Asheville, NC $228,491.23
    - Construction & Landscape Service, Inc., Marshall, NC $285,167
    - Owen Joseph, LLC, Arden, NC $305,673
    - Appalachian Paving & Concrete, Inc. Swannanoa, NC $313,000
    - Patton Construction Group, Inc, Asheville, NC $330,170

Vendor Outreach Efforts:

- Staff performed outreach to Minority and Women-Owned Business Enterprises (MWBE) through solicitation processes which included posting on the State's Interactive Purchasing System, targeted outreach with the City's Business Inclusion Manager, and requiring prime contractors to reach out to MWBE service providers for subcontracted services. Austin Construction is not a MWBE firm and will not be subcontracting with a MWBE.

Council Goal(s):
- A Clean and Healthy Environment & a Well-Planned and Livable Community.

Committee(s):
- Recreation Advisory Board (November 10, 2019) - project status update

Pro(s):
- Addresses needed infrastructure and safety improvements and delivers on ballfield improvements identified in the approved 2016 Bond Referendum.
- The facility will be under construction for eight to ten weeks during the off-season to minimize impacts to programs.

Con(s):
- None

Fiscal Impact:
- Funding for this contract exists within the approved GO Bond Capital Budget.

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into a construction contract with Austin Construction & Grading of Horseshoe, NC, in the amount of $196,332.83 and to further authorize change orders up to the contingency amount of $19,633 (10%) for Ray L Kisiah Park Paving and Batting Cage improvements.

RESOLUTION BOOK NO. 41 - PAGE 174

E. **RESOLUTION NO. 20-3 - RESOLUTION SETTING A PUBLIC HEARING ON FEBRUARY 11, 2020, TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS OAK STREET**

Action Requested: Adoption of a resolution to set a public hearing for February 11, 2020, for the closure of an unopened right-of-way known as Oak Street.

Background:
- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Nettlewood Assoc LLC has petitioned the closure and owns three adjacent properties, 36,49, and 50 Peachtree Road, PIN #s 9656-10-0853, 9656-10-2829, and 9656-10-0957.
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):
- A well-planned and livable community

Committee(s):
- Multimodal Transportation Committee - October 30, 2019 - Recommended closing the right-of- way

Pro(s):
- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources.

Con(s):
- None noted.

Fiscal Impact:
- There will be no fiscal impact related to this closure.

Motion:
- Motion to adopt resolution of intent to set a public hearing on February 11, 2020, to close an unopened right-of-way known as Oak Street.

RESOLUTION BOOK NO. 41 - PAGE 175

F. RESOLUTION NO. 20-4 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LEASE WITH PULLIAM STATE BUREAU LLC AT 9 WALDEN RIDGE FOR THE SOUTH ASHEVILLE POLICE RESOURCE CENTER

Action Requested: Adoption of a resolution authorizing the City Manager to execute a lease agreement for property at 9 Walden Ridge, Suite 20 for the South Asheville Police Resource Center.

Background:
- The Asheville Police Department (APD) is currently leasing space at 1 Pond Street from Skyland Fire and Rescue Corporation. The building is being sold to a new owner and APD's lease expires in June of 2020.
- The current facility does not meet APD's needs and a new location has been identified to serve as a South Asheville Police Resource Center.
- The property located at 9 Walden Ridge is a former N.C. State Bureau of Investigation office and includes private offices for supervisors, community/roll call room, work areas for patrol officers and ample parking.
- The owner of the property at 9 Walden Ridge, Pulliam State Bureau, LLC, has offered to lease to the City for the following terms:
    - Lease Area - 5,941 Square Feet
    - Initial term of 5 years with two options to renew for 5 years each.
    - Lease rate of $13 per square foot, which is at or below market value for South Asheville, (approx. $6,436 per month), with the City responsible for its share of insurance and taxes.
    - Escalation applied only at each renewal period at a rate of 10%.
    - Landlord to perform routine maintenance and repairs on outside walls, structural portions of interior walls and pipes, ducts etc. that serve the building.
    - The owner of the building has offered to make improvements such as the removal of unneeded equipment and the creation of additional work spaces to accommodate APD.
- A lease is preferred to a purchase of property in this case. Long-term capital and space planning is needed for a permanent location, with a potential to co-locate APD with other civic services to serve South Asheville.

Council Goal(s):
- A Well-Planned and Livable Community

Committee(s):
- None

Pro(s):

- With respect to the overall location, layout and functionality of the space, this property provides an improved work environment for Asheville Police Department employees compared to former location.
- The new space can accommodate more personnel to service the continued growth of the South District.
- This space provides the option to off-site some APD units currently working from overcrowded conditions in the downtown Municipal Building.
- The property is well-located for a South Asheville Resource Center, with good proximity to the service area.
- The new space has capacity for community meetings and interactions, which is currently not available in the existing space. The location is accessible via Asheville Transit and is within close proximity to other retail and commercial centers.
- The lease rate and terms are competitive.

Con(s):

- None

Fiscal Impact:

- Existing funding within APD's operational budget will cover the expenses for the remainder of the Fiscal Year 2020. Thereafter, funds will be budgeted in APD's base budget to pay for the lease expenses year over year.

Motion:

- Motion to approve the resolution authorizing the City Manager to execute a lease agreement for property at 9 Walden Ridge, Suite 20 for the South Asheville Police Resource Center.

RESOLUTION BOOK NO. 41 - PAGE 176

G. RESOLUTION NO. 20-5 - RESOLUTION AUTHORIZING THE SALE OF TWO FREIGHTLINER DUMP TRUCKS AND ONE JOHN DEER BACKHOE DEEMED SURPLUS CITY PERSONAL PROPERTY

Action Requested: Approval of a resolution authorizing the sale of two (2) Freightliner Dump Trucks and one (1) John Deere Backhoe deemed surplus City personal property.

Background:

- The Maintenance Division of the City's Water Resources Department identified one (1) 2010 Freightliner M2 Dump Truck, one (1) 2013 Freightliner M2 Dump Truck, and one (1) 2010 John Deere 410J Backhoe as surplus personal property, with no anticipation of utilization by the City.
- The estimated wholesale values depending on condition are as follows:
  - 2010 Freightliner M2 Dump Truck is approximately $28,000
  - 2013 Freightliner M2 Dump Truck is approximately $30,000
  - 2010 John Deere 410J Backhoe is approximately $30,000
- Historical bid sales have been higher than estimates. Bids will be solicited through GovDeals online auction.
- Pursuant to N.C.G.S. §160A-266, the Sale and Disposal of Personal Property valued at $30,000 or more must be approved by the City Council. The City's Purchasing Manager has authority to dispose of personal property valued at less than $30,000 by private negotiation and sale.

Council Goal(s):
- Financially Resilient Community

Committee(s):
- None

Pro(s):
- Prudent asset management
- Space utilization eliminates the need to store large, unused equipment
- Competitive process yielded market price

Con(s):
- None

Fiscal Impact:
- The dump trucks and backhoe are fully depreciated and the Water Resources Fund will recognize the entire amount as revenue from the sale of the assets.

Motion:
- Motion to adopt a resolution authorizing the sale of two (2) Freightliner M2 Dump Trucks and one (1) John Deere 410J Backhoe deemed surplus City personal property.

RESOLUTION BOOK NO. 41 - PAGE 177

H. RESOLUTION NO. 20-6 - RESOLUTION SETTING A PUBLIC HEARING ON FEBRUARY 11, 2020, TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY BETWEEN MIDWAY DRIVE AND WILLIS WAY

Action Requested: Adoption of a resolution to set a public hearing for February 11, 2020, for the closure of an unopened right-of-way between Midway Drive and Willis Way

Background:
- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Ted and Jessica Leaven has petitioned the closure and owns both adjacent properties, 65 Ramoth and Midway Dr, PIN #s 7649-48-1087 and 9646-48-2076.
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):
- A well-planned and livable community

Committee(s):
- Multimodal Transportation Committee -December 11, 2019 - Recommended closing the right-of- way

Pro(s):
- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources.

Con(s):

- None noted.

Fiscal Impact:
- There will be no fiscal impact related to this closure.

Motion:
- Motion to adopt resolution of intent to set a public hearing on February 11, 2020, to close an unopened right-of-way between Midway Drive and Willis Way.

RESOLUTION BOOK NO. 41 - PAGE 178

I. RESOLUTION NO. 20-7 - RESOLUTION SETTING A PUBLIC HEARING ON FEBRUARY 11, 2020, TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY OFF FEDERAL ALLEY

Action Requested: Adoption of a resolution to set a public hearing for February 11, 2020, for the closure of an unopened right-of-way off Federal Alley

Background:
- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Asheland Properties has petitioned the closure and owns two adjacent properties, 172 Asheland Avenue and 5 Federal Ally PIN#s 9648-38-0052and 9648-37-1928 and joined by South Slope Holdings LLC at 185 Coxe and 99999 Coxe Avenue PIN #s 9648-37-2825 and 9648-37-2643
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):
- A well-planned and livable community

Committee(s):
- Multimodal Transportation Committee -December 11, 2019 - Recommended closing the right of way

Pro(s):
- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources.

Con(s):
- None noted.

Fiscal Impact:
- There will be no fiscal impact related to this closure.

Motion:
- Motion to adopt resolution of intent to set a public hearing on February 11, 2020, to close an unopened right-of-way off Federal Alley.

RESOLUTION BOOK NO. 41 - PAGE 180

J. RESOLUTION NO. 20-8 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE'S PARTICIPATION IN THE LOCAL GOVERNMENT CLIMATE LITIGATION AMICUS BRIEF PROJECT

Action Requested: Support of the City of Asheville's participation in the Local Government Climate Litigation Amicus Brief Project.

Background:

- The Sabin Center for Climate Law at Columbia Law School is seeking local government participation in its amicus, or "friend of the court", climate litigation project to challenge recent rollbacks by the Trump Administration of national climate protections that help safeguard municipalities from some of the worst impacts of climate change.
- This summer, the Administration finalized a rollback of the Clean Power Plan, America's first-ever national standards to reduce climate pollution from the power sector. The Administration's new plan, the "ACE" rule, sets no limits on climate pollution from the power sector and in fact is expected to increase pollution in numerous states.
- The Administration has also introduced the Safer Affordable Fuel-Efficiency (SAFE) Vehicles Rule which would result in a rollback of federal and state Clean Car Standards and lead to a significant increase in climate pollution.
- According to the Sabin Center, local governments can make a major contribution to pushing back against these rollbacks by participating as amici, friend of the court, in upcoming litigation challenges to these new laws.
- Participation will give the City an opportunity to review and comment on briefs written by the Sabin Center and also to provide information on how greenhouse gas reduction and renewable energy goals adopted by City Council are in direct conflict with, and would be negatively impacted by the new laws.
- Participation in the Amicus Brief Project has been discussed with staff from the Legal Department and they have indicated they will have the ability to assist the Sustainability Department in the review and comment on the briefs.

Council Goal(s):

- Equitable and Diverse Community
- A Clean and Healthy Environment

Committee(s):

- Sustainability Advisory Committee on Energy and the Environment unanimously passed support of City Council supporting the City of Asheville's participation in the Local Government Climate Litigation Amicus Project at their November 2019 meeting.

Pro(s):

- Supports Resolution 11-77 Establishing a Carbon Footprint Reduction Goal
- Supports Resolution 13-222 Clean Energy Economy
- Supports Resolution 17-119 Reaffirming City's Commitment to Paris Climate Agreement
- Supports Resolution 17-104 Encouraging a State Goal of 100% Renewable Energy by 2050
- Supports Resolution 18-279 Establishing a 100% Renewable Energy Goal for the City of Asheville

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Motion to adopt a resolution supporting the City of Asheville's participation in the Local Government Climate Litigation Amicus Brief

RESOLUTION BOOK NO. 41 - PAGE 181

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Kapoor moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT - TRANSIT

City Manager Campbell introduced Assistant Transportation Director Jessica Morriss who said that City Council Strategy E.2 - Implement Year 1 recommendations of the Transit Master Plan (1-3 years), during the first half of Year 1, there has been a 25% service increase: route configurations, on-time performance improvements, added frequency, new routes and extended route, added stops, and new buses. These were all launched January 5, 2020.

The Transit Fund status details show that tranit is trending $500,000 over budget due to increased cost of fuel/electricity and paratransit service.

Paratransit details include (1) the Americans with Disabilities Act requires public transit agencies to provide equivalent services to people with disabilities; (2) door-to-door service is provided for eligible riders throughout the entire city, which is above and beyond federal requirements; and (3) City contracts with Buncombe County to provide services.

In October of 2019, City Council asked staff to monitor the budget to see if the last half of the 1st year of the Transit Master Plan (extended hours of operation) could begin this fiscal year. A cost analysis was prepared and considered (1) when would the extended hours of operation begin; (2) paratransit increase; (3) maintenance impacts; (4) ART staff increases (drivers/ dispatch/mechanics); (5) vehicle availability; (6) additional security needs at transit station; and (7) fuel increase plus increased fuel cost. The cost to extend the hours of operation to complete Year 1 of the Transit Master Plan (+$1.1 Million for full year): (1) extended hours of operation - $950,000; and (2) upgrade/purchase operational software - $150,000. Due to existing projected shortfall in Transit Fund of $500,000, cost to implement for partial year approximately $250-300,000, and logistical challenges of quick turnaround, it is unlikely for this fiscal year.

The Fiscal Year 2021 Transit Budget requests include (1) Base Budget (+$2.5 Million) (a) annualizes first portion of Year 1 (launched January 5, 2020); (b) increases paratransit cost; and (c) increases fuel/electricity cost; (2) Additional Service - Complete Transit Master Plan Year 1 (+$1.1 Million for full year (less if implemented after July 1, 2020) (a) add extend hours of operation - $950,000; and (b) upgrade operational software - $150,000; and (3) additional service - Transit Master Plan Year 2 (estimated +$1.1 Million for full year (less if implemented after July 1, 2020) (a) additional north and south crosstown route and added frequency on S3 and S6.

Transit summary (1) 1st half of Year 1 Transit Master Plan launched successfully on January 5, 2020; (2) projected shortfall of $500,000 in current fiscal year budget for transit; (3) not

likely to implement Year 1 half of Year 1 Transit Master Plan this fiscal year, but ... (4) Fiscal Year 2021 budget process will look at transit budget requests for completion of Year 1 and implementation of Year 2.

City Manager Campbell along with Ms. Morriss responded the various questions/ comments from Council, some being, but are not limited to: when can we expect to begin implementation of the full year of extended hours; explanation of the increase of paratransit costs with Buncombe County; what is the percentage of the budget for maintaining the same level of service; confirmation that if we move to fare free transit for regular service we have to by law have fare free transit for paratransit; confirmation that fare free transit will strain our system and not only for the loss of revenue; hope that Buncombe County might reconsider not eliminating their subsidy for paratransit and increase their participation so that we can improve our plan to increase service to the residents.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4602) FOR THE RAD LOFTS PROJECT LOCATED AT 146 AND 179 ROBERTS STREET TO REVISE CONDITIONS RELATED TO AFFORDABILITY

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to amend a previously approved conditional zoning approval (Ordinance No. 4602) for the RAD Lofts Project (Urban Place/Conditional Zone) located at 146 and 179 Roberts Street, to revise conditions related to affordability. This public hearing was advertised on January 3 and 10, 2020.

Project Location and Contacts:

- The project site consists of two separate parcels with a combined area of approximately 3.26 acres located at 146 and 179 Roberts Street (PINs 9648-06-1956 and 9648-07-2183) that are owned by 146 Roberts LLC.
- Petitioner: Harry Pilos.

Summary of Petition:

- The project has gone through a number of approvals by City Council:
  - First approved on October 22, 2013 (Ordinance No. 4241) for a mixed-use development and conditional zoning from River and Commercial Industrial to Urban Place Conditional Zone
  - Amended on May 26, 2015 (Ordinance No. 4414) to revise conditions related to the mix of uses, increase parking and alter the number and massing of the buildings
  - Amended on January 10, 2017 (Ordinance No. 4548) to revise conditions related to the mix of uses, building size and amount of parking
  - Amended on July 25, 2017 (Ordinance No. 4602) to revise conditions related to building size, parking and mix of uses and to provide a wider range for these conditions to allow for some flexibility
- The mix of uses, site plan and building designs are not proposed to be changed with this amendment. They remain as shown and described in the conditions from the most recent approval.
- The applicant is only proposing a change to the condition governing the designation of affordable residential units as described in condition no. 8:
  - Current condition: Five percent of the units will be designated as affordable by the City's standards. The remaining 95% of the units will be leased at or below the City's published 2015 rates for workforce housing as a baseline, assuming

and including an annual increase of 3% calculated as of the date of completion of the project as indicated on the attached schedule B1-a. This condition is in effect for a period of ten years from initial CO (Certificate of Occupancy). The applicant will enter into an affordable housing deed restriction with the City to memorialize the aforementioned rent limits and period of affordability. The deed restriction shall be recorded by the applicant in the Buncombe County Register of Deeds prior to obtaining final CO.

- Proposed condition: At least ten percent of the total units (between 230 and 245 units) shall meet the City's standards for affordability at 80% AMI for a period of ten years from the issuance of the Certificate of Occupancy (CO). The rent and income shall follow the Affordable and Workforce Housing Standards determined annually by the City of Asheville Community Development Department.
- An Affordable Housing Deed Restriction will be provided by the City and filed and recorded by the applicant/property owner in the Buncombe County Register of Deeds prior to obtaining final CO. The applicant has stated that this request is due to difficulties securing financing for the project with the comprehensive restrictions on rents and balancing the more extensive affordability component with significant increases in construction costs that have occurred since the project was originally approved.

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that the Traditional Corridor Land Use category encourages mixed-use developments prioritizing pedestrian infrastructure and multimodal access, buildings close to the street and higher residential densities.
- While a reduction, the amendment still contains a commitment to affordability, thus aligning with key goals in the *Resilient Economy* Plan section.

Compatibility Analysis:

- The mixed-use development proposal has been evaluated in previous reviews and determined to be compatible with the surrounding area and an ideal location for the uses proposed. This amendment does not impact the compatibility.

Council Goal(s):

- A Well-Planned and Livable Community
- Quality Affordable Housing
- Transportation and Accessibility

Committee(s):

- Technical Review Committee (TRC) - n/a
- Planning & Zoning Commission - December 4, 2019 - recommended approval (7-0)

Staff Recommendation:

- Staff consistently recommends maintaining as much commitment to affordability as the applicant is able to provide and supports this project's efforts to move forward to gain the 230-245 residential units and mixed-use development in this location.

In response to Mayor Manheimer, Community Development Programs Director Paul D'Angelo explained the difference between workforce housing vs. market rate housing.

There was considerable discussion amongst Council members and Mr. Harry Pilos, representing RAD Lofts, regarding the tools the City has available to reach 20% affordable

housing at 80% AMI for 20 years and Mr. Pilos' explanation of not taking advantage of the City's tools and keeping his request at 10% affordable housing at 80% AMI for 10 years.

Mr. Pilos said that this project is so much more than housing, noting that they have had to clean up this Brownfields site and pay $750,000 to replace the storm drain.

Mayor Manheimer opened the public hearing at 6:00 p.m.

Ms. Kristen Goldsmith felt the project is a mediocre project and does not meet our goals for affordability. She suggested Council deny this amendment.

Mayor Manheimer closed the public hearing at 6:03 p.m.

At the request of Councilwoman Mayfield, Mr. D'Angelo read Resolution No. 18-269 which recommitted Council's support for opportunity fund investment that promotes equitable growth, developments without displacement, and healthy communities of opportunities in Asheville's opportunity zones.

Councilman Young was disappointed that staff's recommendation as it does not align with Council's commitment on affordable housing nor does it align with the Council's support for opportunity zones. He felt this development promotes gentrification. The affordable housing workshop that City Council held last year provided information on the many tools the City has to incentivize affordability.

Mayor Manheimer said that the City's goal of 200 units per year was at 80% AMI with subsidy and this would bring on-line 23 units at 80% AMI, without a subsidy request. She felt we need to be clear in directing staff that if a private developer proposes a project that doesn't use our incentive policies then they should not recommend it. She didn't recall giving staff the direction to not recommend a project that doesn't use one of our tools. She recalled that the developer the City brought in who spoke at the affordable housing workshop explained to Council that private developers that do not have a subsidy cannot be expected to produce more than 10% of affordable units at 80% AMI. She asked that any future projects that are located in an opportunity zone that City staff acknowledge that fact in their staff report to Council.

In response to Councilman Kapoor, City Attorney Branham said that the law regarding rezonings for conditional purposes requires the Council to make three primary determinations: (1) that it is consistent with the approved area plans that are relevant to that particular project; (2) that it is a reasonable project; and (3) that it is in the public interest.

Councilman Kapoor said that this project meets our goal toward providing affordable housing. He felt that getting 23-24 affordable units even for 10 years is much more than we will have. He's not a developer, but it was clear to him from the affordable housing workshop, that it's not easy to get financing. With respect to staff recommendations, more information is better but he looks for their independent judgement as they are the professionals.

Councilwoman Mayfield said that projects that are in opportunity zones, that staff to flag that for Council and to include language the language from the resolution. She felt the resolution Council adopted would give them the leverage turn away projects that really were going to displace low income residents and not be a benefit to the community they are in. She felt this project is in the right place and thanked Mr. Pilos for trying to make this project happen.

Mr. Pilos said they have worked with staff for 6 years to create a model and they have always worked with him in good faith. He would now be willing to spend another month with staff, but he personally believed that the conclusion will be the same - without getting 95% of the

income stream restrictions lifted to go to market, he can't get the project done. He noted that this project goes way beyond just affordable housing - increase retail, activity, etc. He asked that this hearing be continued.

Vice-Mayor Wilser moved to continue this public hearing until February 25, 2020. This motion was seconded by Councilman Young and carried unanimously.

Councilwoman Mayfield said that we learned in the affordable housing workshop and in the City Council Housing & Community Development Committee that the City cannot meet our affordable housing needs alone. We need private developers to step up to the plate.

City Manager Campbell said that because we want to be clear in Council's direction, in March staff will be bringing forward for Council's consideration the priorities of the affordable housing workshop and benchmarks moving forward.

Councilwoman Smith supported staff providing Council with information on projects in opportunity zones in order to give Council all the information necessary to make an informed decision.

B. PUBLIC HEARING TO CONSIDER AMENDING THE 2019-20 ANNUAL ACTION PLAN FOR THE REALLOCATION OF AN ESTIMATED $723,208 IN FEDERAL HOME INVESTMENT PARTNERSHIP PROGRAM FUNDS

RESOLUTION NO. 20-9 - RESOLUTION AMENDING THE 2019-20 ANNUAL ACTION PLAN FOR THE REALLOCATION OF AN ESTIMATED $723,208 IN FEDERAL HOME INVESTMENT PARTNERSHIP PROGRAM FUNDS

Community Development Programs Director Paul D'Angelo said that this is the consideration of a resolution amending the 2019-2020 Annual Action Plan for the reallocation of an estimated $723,208 in federal HOME Investment Partnership Program funds. This public hearing was advertised on December 13, 2019.

Action Requested: Adoption of a resolution authorizing the City Manager to submit an Amendment to the 2019-2020 Annual Action Plan for the HOME Investment Partnerships Program (HOME), enabling the City of Asheville and the Asheville Regional Housing Consortium to reallocate $723,308 for a total of $1,269,322 in 2019-20 HOME funds from the U.S. Department of Housing and Urban Development.

Review:

- The City has $723,308 in HOME funds available for reallocation.
- The Asheville Regional Housing Consortium received applications for HOME funds and made funding recommendations over two 2019 meetings (April 2019 and October 2019).
- HOME funds must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties)
- Federal HOME Program and HUD regulations require a public hearing be held before substantial plan amendments can be adopted by the HOME Lead Entity, the City of Asheville.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- Asheville Regional Housing Consortium - October 31, 2019 - Approved unanimously

Pro(s):

- The proposed reallocation of $1,269,322 commits and puts toward viable projects federal HOME Program funding
- Approximately 170 affordable rental units will be created, 18 homeowners will be assisted with down payment assistance, and additional rental assistance will be supported in Henderson and Buncombe Counties. No project proposals were received in the reallocation for either Transylvania or Madison County projects.
- Funding recommendations reflect the carefully considered recommendations of the Asheville Regional Housing Consortium.

Con(s):

- None

Fiscal Impact:

- The Action Plan is fully funded from federal CDBG and HOME entitlement grants, unused funds from previous completed projects, and estimated program income. There is no other fiscal impact associated with this action.

Mr. D'Angelo responded to Vice-Mayor Wisler when she asked how this money became available for reallocation.

Mayor Manheimer opened the public hearing at 6:33 p.m.

Ms. Kasia Maatafale asked that the City's website be updated with the current Action Plan.

Mayor Manheimer closed the public hearing at 6:34 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to approve a resolution authorizing the City Manager to submit an Amendment to the 2019-2020 Consolidated Action Plan for the HOME Investment Partnership Program. This motion was seconded by Councilwoman Smith and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 182

C. PUBLIC HEARING ON ISSUANCE OF THE GENERAL OBLIGATION REFUNDING FUNDING BONDS

ADOPTION OF THE BOND ORDER AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $23,000,000 GENERAL OBLIGATION REFUNDING BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

RESOLUTION NO. 20-10 - RESOLUTION FOR THE ISSUANCE OF THE CITY OF ASHEVILLE, NORTH CAROLINA, GENERAL OBLIGATION REFUNDING BONDS, SERIES 2020A AND THE CITY OF ASHEVILLE, NORTH CAROLINA, TAXABLE GENERAL OBLIGATION REFUNDING BONDS, SERIES 2020B

Chief Financial Officer Barbara Whitehorn said that this is the consideration (1) To hold a public hearing; (2) adoption of Bond Order; and (3) adoption of a resolution for the issuance of

General Obligation (GO) Refunding Bonds for the refinancing of existing debt. This public hearing was advertised on January 3, 2020.

Background:

- In May, 2018, Council authorized the issuance of a GO Bond Anticipation Note in an amount not to exceed $23,000,000.
- Since that time, the City has drawn down $15.6 million on the loan and hopes to draw on the remaining amount available over the next month with an emphasis on affordable housing initiatives.
- In order to refund the principal, the City intends to issue long-term, fixed-rate GO Bonds in early March, 2020.

Council Goal:

- Financially Resilient City

Committee(s):

- None

Pro(s):

- Converts GO funding from short-term variable-rate debt to long-term, fixed-rate bonds.
- Allows City to pay off the debt over a longer time period and match the longer, useful life of the assets it funds.

Con(s):

- None

Fiscal Impact:

- Annual debt service payments will increase because long-term fixed rates are higher than short-term variable rate debt. This increase is included in the City's long-range financial model for issuing and paying-off debt. The final amounts of the new debt service payments will be determined on the bond sale date.

The bond order titled, **"BOND ORDER AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $23,000,000 GENERAL OBLIGATION REFUNDING BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA"** was introduced at the regular meeting of the City Council on December 10, 2019, and was published on January 3, 2020, with notice that the City Council would hold a public hearing thereon on January 14, 2020, at 5:00 p.m. or as soon thereafter as practicable.

At 6:38 p.m., Mayor Manheimer announced that the City Council would hear anyone who wished to be heard on the questions of validity of the bond order and the advisability of issuing the General Obligation Refunding Bonds, and when no one spoke, she closed the public hearing at 6:38 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the bond order and resolution and they would not be read.

Councilwoman Smith moved that the following bond order be adopted without change or amendment as previously introduced at the meeting of the City Council held on December 10, 2019, and for City Council to direct the City Clerk to publish a notice of adoption of the bond order as prescribed by The Local Government Bond Act. This motion was seconded by Councilman Young and carried unanimously:

BOND ORDER AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $23,000,000
GENERAL OBLIGATION REFUNDING BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

WHEREAS, the City of Asheville, North Carolina (the "*City*") has previously issued its General Obligation Bond Anticipation Note, Series 2018 (the "*2018 Note*");

WHEREAS, the City Council of the City (the "*City Council*") deems it advisable to refund all of the outstanding principal amount of the 2018 Note;

WHEREAS, an application has been filed with the Secretary of the Local Government Commission of North Carolina requesting Commission approval of the bonds hereinafter described as required by the Local Government Bond Act.

NOW, THEREFORE, BE IT ORDERED by the City Council of the City of Asheville, North Carolina, as follows:

Section 1. The City Council deems it advisable to refund the 2018 Note.

Section 2. To raise the money required to pay the costs of refunding the 2018 Note as set forth above, General Obligation Refunding Bonds of the City in one or more series (the *"Refunding Bonds"*) are hereby authorized and shall be issued pursuant to the Local Government Bond Act of North Carolina. The maximum aggregate principal amount of such Refunding Bonds authorized by this bond order shall be and not exceed $23,000,000.

Section 3. Taxes will be levied in an amount sufficient to pay the principal and interest of the Refunding Bonds.

Section 4. A sworn statement of the City's debt has been filed with the City Clerk and is open to public inspection.

Section 5. This bond order shall take effect on its adoption.

Councilwoman Smith moved for the adoption of a resolution for the issuance of City of Asheville, N.C. General Obligation Refunding Bonds, Series 2020A, and City of Asheville, N.C., taxable General Obligation Refunding Bonds, Series 2020B. This motion was seconded by Councilman Young and carried unanimously. (Order of vote corrected procedurally by ratification of resolution vote.)

RESOLUTION BOOK NO. 41 – PAGE 184

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Civic Center Commission, the following individual applied for the vacancy: David Nutter. Since only one application was received and there are two vacancies, it was the consensus of Council to re-advertise for these vacancies.

Regarding the Human Relations Commission, the following individuals applied for a vacancy: Lisa Lemons, Susy Chandler, Melissa Ray, Sam Franklin. It was the recommendation of the Human Relations Commission and the Boards & Commissions Committee to postpone making appointments to this Commission until June, 2020.

Regarding the Recreation Board, the following individuals applied for the vacancy: Craig Ruhland, Matt Lutz and Madison Brightwell. It was the recommendation of the Recreation Board and the Boards & Commissions Committee to postpone making appointments to this Commission and re-advertise for the seat.

RESOLUTION NO. 20-11 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ADJUSTMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Board of Adjustment.

The terms of Pratik Bhakta (Regular) and Daniel Summerlin (Regular) expire on January 21, 2020.

The following individuals applied for the vacancy: David Angelus and Rick Freeman.

The Boards & Commissions Committee recommended reappointment of Mr. Bhakta and Mr. Summerlin.

Vice-Mayor Wisler moved to reappoint Pratik Bhakta (Regular) and Daniel Summerlin (Regular) to each serve an additional three-year term, terms to expire January 21, 2023, or until their successors have been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 203

RESOLUTION NO. 20-12 - RESOLUTION APPOINTING A MEMBER TO THE DOWNTOWN COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Downtown Commission.

Brent Campbell resigned as a member of the Downtown Commission, thus leaving an unexpired term until December 31, 2021.

The following individuals applied for the vacancy: David Angelus, Jeffrey Kellman, Sherree Lucas, Robin Raines, Brad Blackburn, Kimberly Levi and Joy Wilson.

The Boards & Commissions Committee recommended appointing Robin Raines.

Vice-Mayor Wisler moved to appoint Robin Raines as a member of the Downtown Commission to serve the unexpired term of Mr. Campbell, term to expire December 31, 2021, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 204

RESOLUTION NO. 20-13 - RESOLUTION APPOINTING MEMBERS TO THE FIREMEN'S RELIEF FUND

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Firemen's Relief Fund.

The terms of Barbara Whitehorn and Raymond Tweed, as members on the Firemen's Relief Fund, expired January 1, 2020. Due to recent legislation, the term limits have been removed and now the members serve at the pleasure of Council or until they resign.

No one applied for the vacancy.

The Boards & Commissions Committee recommended reappointing Mr. Tweed and Ms. Whitehorn.

Vice-Mayor Wisler moved to reappoint Raymond Tweed and Barbara Whitehorn to each serve at the pleasure of City Council or until they resign. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 205

RESOLUTION NO. 20-14 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Metropolitan Sewerage District (MSD) Board.

The term of Esther Manheimer, as a member of the MSD Board expires on January 19, 2020.

No one has applied for the vacancy.

The Boards & Commissions Committee recommended reappointing Esther Manheimer.

Vice-Mayor Wisler moved to reappoint Esther Manheimer as a member of the MSD Board to serve an additional three-year term, term to expire January 19, 2023, or until her success has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 206

RESOLUTION NO. 20-15 - RESOLUTION APPOINTING MEMBERS TO THE RIVERFRONT REDEVELOPMENT COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Riverfront Redevelopment Commission.

The terms of Darren Green (property/business owner), Tim Schaller (property/business owner in the Riverfront) and Carleton Collins (at-large member) expired on January 1, 2020.

The following individual applied for the vacancy: Kimberly Levi.

The Boards & Commissions Committee recommended reappointment of Darren Green (3-year term), Tim Schaller (3-year term) and Carleton Collins (1-year term).

Vice-Mayor Wisler moved to (1) reappoint Darren Green (property/business owner) and Tim Schaller (property/business owner in the Riverfront) to each serve an additional three-year term respectfully, terms to expire January 1, 2023, or until their successors have been appointed; and (2) appoint Carleton Collins (at-large member) to serve a one-year term, term to expire

January 1, 2021, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 207

RESOLUTION NO. 20-16 - RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABILITY ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Sustainability Advisory Committee on Energy & the Environment (SACEE).

The terms of Maggie Gulick, Anne Keller and Sonia Marcus (expertise in the field of energy management) expired on December 31, 2019.

The following individuals applied for the vacancy: Ron Edgerton, Chris Pelrine, Paul Schulman, Andrea Baty, Patricia Meason Williams, Jeffrey Vanderlip, Alison Ormsby, Dakota Lee Lathroop, Daniel Falkenstein and Kelsey Wood.

The Boards & Commissions Committee recommended reappointment of Maggie Gulick and Anne Keller and appointment of Alison Ormsby.

Vice-Mayor Wisler moved to (1) reappoint Maggie Gulick and Anne Keller to serve an additional three-year term respectfully, terms to expire December 31, 2022, or until their successors have been appointed; and (2) appoint Alison Ormsby (expertise in field of energy management) to serve a three-year term, term to expire December 31, 2022, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 208

RESOLUTION NO. 20-17 - RESOLUTION APPOINTING MEMBERS TO THE URBAN FORESTRY COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Urban Forestry Commission.

The terms of Ed Macie and Patrick Gilbert, as members on the Urban Forestry Commission, expired December 31, 2019. In addition, Guillermo Rodriguez resigned, thus leaving an unexpired term until December 31, 2020.

The following individuals applied for the vacancy: Robert Brown, Patricia Strang, Karen MacNeil, Callie Warner and Noah Poulos.

The Boards & Commissions Committee recommended (1) reappointing Mr. Macie and Mr. Gilbert; and (2) re-advertise for the other vacant seat as requested by the Urban Forestry Commission.

Vice-Mayor Wisler moved to reappoint Ed Macie and Patrick Gilbert to each serve a three-term, terms to expire December 31, 2022, or until their successors have been appointed; and re-advertise for the third vacant seat. This motion was seconded by Councilman Haynes and carried unanimously.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Dan Glidden and Tim Birthisel urged Council to adopt a resolution urging congress to pass HR 763 - Energy Innovation and Carbon Dividend Act to address climate change.

Mr. Gary Holcombe spoke about the need for speed humps on Busbee View Circle.

Mr. Joe Minicozzi spoke about the traffic concerns on the residential street of Maxwell Street.

Ms. Vicki Meath spoke to Council about the need to fund and implement the Transit Master Plan, in particular advancing evening service hours.

Closed Session

At 7:00 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(1). The statutory authorization is contained in N.C.G.S. 143-318.10 (e) and N.C. Gen. Stat. sec. 160A-168; (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, the handling or settlement involving the following matter: City of Asheville v. Parkway Court, LLC COA 19-963. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6). This motion was seconded by Councilwoman Mayfield and carried unanimously.

At 7:44 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:44 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – January 28, 2020 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: Councilwoman Sheneika Smith

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 14, 2020

B. ORDINANCE NO. 4787 - ORDINANCE AMENDING THE FEES & CHARGES MANUAL TO ADJUST CURRENT RATES AND BOOKING POLICY FOR 8 RIVER ARTS PLACE

Action Requested: Adoption of an ordinance amending the fees and charges manual for Fiscal Year (FY) 2019-20 to adjust current rates and booking policy for 8 River Arts Place.

Background:

- In 2016, City Council Council approved a contract to renovate the facility and reaffirmed the community's vision for the space as follows: "For the facility to provide space for a highly visible information and wayfinding kiosk that supports the greater River Arts District by providing information about the district for visitors on arts and culture, shopping, studios, galleries, recreation opportunities, events, and restaurants. It is also intended to be a destination in its own right, with plans for a public-private-partnership lease, and to serve as flexible space for a gallery, office, studio, retail, or performance space that would be rented to private sector partners."
- After two years of operation of 8 River Arts Place (formerly 14 Riverside Drive) by the Strategic Development Office division, a request was made for the Harrah's Cherokee Center division to take over the event related operation of the property.
- Harrah's Cherokee Center staff begun handling booking, contracting, invoicing and oversight of special events held at the property beginning in October 2019
- As noted above, long term plans continue to work towards a public-private-partnership, with a goal of finalizing this process within the next one to two years. Harrah's Cherokee Center operation will continue until the process is complete.
- Current rate structures are not sustainable; often times not covering the staff related costs with the rental, let alone overhead and profit.

Council Goal(s):

- Smart City
- Connected and Engaged Community
- Thriving Local Economy

Committee(s):

- Civic Center Commission - December 3, 2019 - Recommended proposed rate and booking policy adjustments.
- Finance Committee - December 10, 2019 - Recommended proposed rate and booking policy adjustments for full council approval.

Pro(s):

- Covers Harrah's Cherokee Center staff time and basic materials.
- Adjust rates to be more in line with other event rental spaces in the community.

Con(s):

- Significant increase in rates.

Fiscal Impact:

- Minimal fiscal impact, creates a cost recovery system, but does not create true revenue generation.

Motion:

- Motion to approve an ordinance amending the fees and charges manual for Fiscal Year (FY) 2019-20 to adjust current rates and booking policy for 8 River Arts Place, effective for newly contracted events after February 1, 2020.

ORDINANCE BOOK NO. 33 - PAGE 22

C. ORDINANCE NO. 4788 - ORDINANCE AMENDING THE FEES & CHARGES MANUAL TO ADJUST CURRENT RATES AND BOOKING POLICY FOR THE HARRAH'S CHEROKEE CENTER

Action Requested: Adoption of an ordinance amending the fees and charges manual for Fiscal Year (FY) 2019-20 to adjust current rates and booking policy for the Harrah's Cherokee Center.

Background:

- Harrah's Cherokee Center staff has not adjusted rates in a significant way in over three years.
- Due to increased expenses including adjustments in temp/seasonal staff living wage rates increasing to a minimum of $13.65 per hour the majority of posted staff billable wages need to be increased.
- Staff recommends that we formalize 'Last Minute' events more formally in the Center's booking policy as these events usually have more expenses associated with them.
- Staff propose increasing base rental fee minimums on non-ticketed events. Non-ticketed events do not allow for the same potential revenue streams for the facility as ticketed events. Therefore, staff recommends that rental fees for non-ticketed events be higher than ticketed events.

Council Goal(s):

- Smart City
- Connected and Engaged Community
- Thriving Local Economy

Committee(s):

- Civic Center Commission - December 3, 2019 - Recommended proposed rate and booking policy adjustments.
- Finance Committee - December 10, 2019 - Recommended proposed rate and booking policy adjustments for full council approval.

Pro(s):

- Covers additional staff costs after living wage adjustments.
- affords for greater revenue opportunities with 'last minute' events to help cover additional costs incurred by the city in other departments.
- Adjust rates to be more in line with other event rental spaces in the southeast.

Con(s):

- Places Harrah's Cherokee Center staffing billable rates as the highest in the region of competing concert venues.

Fiscal Impact:

- Anticipated net increase in revenues of approximately $23,000 annually.

Motion:

- Motion to approve an ordinance amending the fees and charges manual for Fiscal Year (FY) 2019-20 to adjust booking policy and rates for the Harrah's Cherokee Center, effective for newly contracted events after February 1, 2020.

ORDINANCE BOOK NO. 33 - PAGE 28

D. RESOLUTION NO. 20-20 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH BRYANT LAND AND DEVELOPMENT INDUSTRIES INC. FOR THE ENHANCEMENTS TO THE STATE STREET PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Bryant Land and Development Industries, Inc. in the amount of $1,281,068.20 plus a 15% contingency of $192,160.23 ($1,473,228.43 total) for the State Street Enhancement Project.

Background:

- The project includes the milling and resurfacing of State Street, repairs to the concrete sidewalk and pedestrian improvements at the intersections with Pennsylvania Avenue, Hanover Street, Short Michigan Avenue, and Wellington Street.
- These include improvements to ADA accessibility (all intersections), pedestrian signal heads (Hanover intersection), and pedestrian activated beacons (Pennsylvania and Wellington).
- Finally, a revised pavement marking plan has been designed for State Street.
- The project was advertised on November 1, 2019 and the bid opening was scheduled for December 3, 2019. Since the City did not receive a sufficient number of bids, the project was readvertised on December 4, 2019. The following bids were opened on December 17, 2019:

Bryant Land and Development Industries, Inc., Burnsville, NC	$1,281,068.20
Harrison Construction Company, Asheville, NC	$1,524,858.39
Rogers Group, Inc., Nasheville, NC	$1,591,391.95

- Construction is anticipated to start in mid-February and take four to six months.

Vendor Outreach Efforts:

- Staff performed outreach to Minority & Women-Owned Business Enterprise (MWBE) service providers through solicitation processes which included posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to MWBEs for subcontracted services.
- No MWBE submitted a bid to be the prime contractor on the project.

- MWBEs will be performing the guardrail installation, sign installation, and pavement markings. These items amount to 3.1% of the total project expenditures.

Council Goal(s):
- This action complies with Council's 2036 vision for transportation and accessibility.

Pro(s):
- Provides for the resurfacing of State Street which is a heavily traveled road that is in poor repair.
- Will make the sidewalk more ADA-compliant.
- Provides for safer pedestrian crossings of State Street.

Con(s):
- Construction will be disruptive to the neighborhood and to traffic. Efforts will be made to minimize disruptions.

Fiscal Impact:
- Funding is coming from the 2016 General Obligation Bond approved by Asheville constituents in November 2016. The total maximum cost of this contract, including contingency, is $1,473,228.43. This is approximately 4% of the Transportation bond funding.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Bryant Land and Development Services, Inc. in the amount of $1,281,068.20 plus a 15% contingency of $192,160.23 for a total of $1,473,228.43 for the project known as State Street Enhancements.

RESOLUTION BOOK NO. 41 - PAGE 212

E. RESOLUTION NO. 20-21 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH FIRST BAPTIST CHURCH FOR CITY EMPLOYEE PARKING AT 5 OAK STREET

Action Requested: Adoption of a resolution authorizing the City Manager to execute a new lease agreement between First Baptist Church and the City of Asheville.

Background:
- The City of Asheville leases parking spaces from the First Baptist Church at 5 Oak Street to meet the growing need for City Hall employee parking,
- An initial lease agreement was signed in March of 2018 for one year and the City leased thirty parking spaces as a trial period to see if the spaces were used by City employees.
- When the City renewed it the following year, a decision was made to lease twenty spaces.
- At this time, almost all of the leased spaces are in use by City employees and the City is seeking to establish a new lease to extend the term for 20 spaces.
- The current lease will expire in February of 2020 and the City seeks a new lease with a term of two years and a price of $50.00 per space. With 20 spaces being leased, the monthly amount is $1,000 ($12,000 per year).

Council Goal(s):
- A Thriving Local Economy

Committee(s):

- None

Pro(s):

- This parking lot provides much needed extra parking for city employees.
- The $50 fee is below market rate in the downtown area.
- Because of the walk involved, the City has offered wellness points for employees using the parking spaces at the church.

Con(s):

- None.

Fiscal Impact:

- The Parking Services Fund is responsible for the rental amount of $12,000 per year under the terms of the lease.

Motion:

- Motion to approve the resolution authorizing the City Manager to execute a lease with the First Baptist Church.

RESOLUTION BOOK NO. 41 - PAGE 213

F. ORDINANCE NO. 4789 - BUDGET AMENDMENT IN FEDERAL TRANSIT ADMINISTRATION SECTION 5310 FUNDS TO FUND PASS-THROUGH GRANTS TO SUB-RECIPIENTS AND A PORTION OF THE CITY'S EXISTING PARATRANSIT AND ADMINISTRATIVE COSTS

Action Requested: Adoption of budget amendment in the amount of $332,174 in Federal Transit Administration Section 5310 funds to fund pass-through grants to sub-recipients and a portion of the City's existing paratransit and administrative costs. These funds are annual recurring funds that have been accounted for in the budget. These funds were previously anticipated and do not offset the current shortfall in the budget for paratransit services.

Background:

- At its March 12, 2019, meeting, City Council approved a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization for Section 5310 Funds, and to accept the grants and sign all the appropriate agreements with the French Broad River Metropolitan Planning Organization, Federal, and/or State agencies.
- The purpose of the Section 5310 funding program is to improve mobility for seniors and individuals with disabilities by removing barriers to transportation services and expand transportation mobility options.
- These are Federal Transit Administration (FTA) funds under Award # 1057-2019-3 for the Enhanced Mobility of Seniors and Individuals with Disabilities program that the City is the designated recipient for the region. The funds will be distributed to each of the applicants via an application process through the Metropolitan Planning Organization. The City is responsible for overseeing and disbursing the funds to the applicants. The chart below outlines the amount funded for each recipient.
- The budget amendment will provide expenditure authorization for the $332,174 in grant funds. The City's portion of the funds is used to support the existing City paratransit service and administrative costs.
- These funds were previously anticipated and do not offset the current shortfall in the budget for paratransit.

Subrecipient	Project	FTA Amount	Local Match (20% or 50%)	Total
City of Asheville	ADA Paratransit	$99,000	$19,800 (20%)	$118,800
Buncombe County	SEDTAP	$72,880	$14,576 (20%)	$87,455
Vocational Solutions	Vocational and Life Skills Training	$15,840	$3,148 (20%)	$18,988
Council on Aging	Volunteer Driver Program	$13,690	$13,690 (50%)	$27,380
Land of Sky Regional Council	Senior Companion Program	$32,340	$32,340 (50%)	$64,680
Vocational Solutions	Vocational and Life Skills Training	$4,950	$4,950 (50%)	$9,900
Buncombe County	RIDE Vouchers Program	$52,337	$52,337 (50%)	$104,674
Madison County	Transportation to Meal Sites	$7,920	$7,920 (50%)	$15,840
City of Asheville	Program Administration	$33,217	N/A	$33,217
	Total	**$332,174**	**$148,761**	**$480,934**

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- Project funding is provided by the FTA. Local match is 50% for operating projects and 20% for capital projects. Each sub-recipient is responsible for their local match.
- The City is provided $33,217 for administration purposes, which does not require a local match.

Con(s):
- None.

Fiscal Impact:
- The total grant award for the projects is $332,174 and will be funded with Federal Funds. As noted above, $33,174 will be reimbursed to the city for administrative costs, and Asheville's local match for the provision of the Americans with Disabilities Act paratransit services totals $19,800.

Motion:
- Motion to adopt a budget amendment in the amount of $332,174 in Federal Transit Administration Section 5310 funds to fund pass-through grants to sub-recipients and a portion of the City's existing paratransit and administrative costs.

ORDINANCE BOOK NO. 32 - PAGE 38

G. **RESOLUTION NO. 20-22- RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN ADDENDUM #3 TO THE 2003 INTERGOVERNMENTAL AGREEMENT WITH BUNCOMBE COUNTY DATED SEPTEMBER 2, 2003, REGARDING THE DISTRIBUTION OF STATE 9-1-1 FUNDS**

Action Requested: Adoption of Addendum #3 to the 2003 Intergovernmental Agreement between the City and County dated September 2, 2003.

Background:

- The City and County executed an Intergovernmental Agreement on September 2, 2003, outlining the obligations between the County, as the Primary Public Safety Answering Point (PSAP), and the City, as the secondary PSAP. The purpose is to create a County and City consolidated call center; and provide clarity around the call center's expenditures.
- On December 13, 2005, the County and City executed an addendum to the 2003 Intergovernmental Agreement establishing a new completion date for the consolidated public safety communication center paid for by the County.
- On September 25, 2009, the City and County executed Addendum #2 to the 2003 Intergovernmental Agreement creating a joint agreement for the operation of the communication center.
- Since then, the State's 911 Board has determined that the City's operation meets the definition of a Secondary PSAP, and requires an agreement between the City and County for the County to receive and disburse the City's secondary PSAP funds for the City's benefit.

Council Goal(s):

- Smart City

Committee(s):

- None

Pro(s):

- Maintains the status quo regarding current 911 operations.

Con(s):

- None.

Fiscal Impact:

- No changes to the distribution of existing funds.

Motion:

- Motion to approve the resolution authorizing Addendum #3 to the Intergovernmental Agreement between the City and Buncombe County dated September 2, 2003 (9-1-1 funds)

RESOLUTION BOOK NO. 41 - PAGE 214

H. **RESOLUTION NO. 20-23 - RESOLUTION SUPPORTING THE FRENCH BROAD METROPOLITAN PLANNING ORGANIZATION DEVELOPMENT OF A REGIONAL TRANSIT FEASIBILITY STUDY**

Action Requested: Adopt a resolution of support for the French Broad River Metropolitan Planning Organization's development of a Regional Transit Feasibility Study

Background:

- The French Broad River Metropolitan Planning Organization (MPO) is the regional transportation planning organization for the Asheville region.
- In 2019, the MPO Board and Technical Committee voted to support the development of a regional transit feasibility study and to increase the dues of each member agency equally to support the cost of the study.
- The study will be completed over the next two fiscal years.
- The City budgeted half of the due increase in Fiscal Year (FY) 2020 Transportation Department budget and will include the remaining half in the base budget for FY 2021.
- The study is intended to provide a deeper understanding of the existing needs for regional transit, the existing conditions of current systems, and make recommendations as to the feasibility of creating regional transit services.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- The project will be managed by the MPO, including the contract and deliverables.
- The study will provide useful recommendations as to the need, costs, and implementation options for providing regional transit services.

Con(s):

- The City's MPO dues were increased by $2,107 to support the cost of the study (the increase is temporary and is only for the Regional Transit feasibility study).

Fiscal Impact:

- The City of Asheville's dues to the MPO were increased by $2,107 as a contribution toward the completion of the study. Half of this amount was budgeted in the Transportation Department FY 2020 budget and the second half will be included in the base budget request for FY 2021.

Motion:

- Motion to adopt a resolution of support for the French Broad River Metropolitan Planning Organization's development of a Regional Transit Feasibility Study.

RESOLUTION BOOK NO. 41 - PAGE 215

I. RESOLUTION NO. 20-24 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INSPECTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR PEDESTRIAN PHASING AT THE INTERSECTION OF OVERLOOK ROAD AND PINCHOT DRIVE

Action Requested: Adoption of a resolution authorizing the City Manager to enter into and execute a review and inspection agreement with the N.C. Department of Transportation (NCDOT) for the NCDOT to perform design review and inspection of the addition of pedestrian phasing at the intersection of Overlook Rd and Pinchot Dr. and submit payment not to exceed the City Manager's Council authorized financial approval limit.

Background:

- The City has plans to construct a new sidewalk along NC 3503 (Overlook Rd.) between Pinchot Dr. and Briarcliff Dr. as identified in the 2016 Bond Referendum.
- The new sidewalk will tie into an existing sidewalk network and will connect a residential neighborhood to schools, a library, and other local destinations.
- The project includes pedestrian phasing and crosswalk at one intersection.
- The City has prepared the appropriate designs, added pedestrian phasing, and will be furnishing and installing the equipment and crosswalks.
- NCDOT will review and approve the designs and inspect the work during the construction phase which is currently scheduled to begin in Spring 2020.
- City Council is required to authorize all intergovernmental agreements by NCGS 160A-461.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- A new section of sidewalk will be constructed that will provide an important pedestrian connection between a neighborhood and local destinations, including three schools and a library.
- The pedestrian experience will be enhanced and made safer through signalized intersections with pedestrian phasing and crosswalks.
- The NCDOT will own and control the traffic signal (and associated equipment) and maintenance will be performed according to NCDOT's current policies and procedures.

Con(s):

- None

Fiscal Impact:

- The financial impact of this agreement is expected to be less than $30,000. Funds are budgeted for this project as part of the 2016 GO bond referendum.

Motion:

- Motion to authorize the City Manager to enter into and execute a review and inspection agreement with the N.C. Department of Transportation (NCDOT) for the NCDOT to perform design review and inspection of the addition of pedestrian phasing at the intersection of Overlook Rd and Pinchot Dr. and submit payment not to exceed the City Manager's Council authorized financial approval limit.

RESOLUTION BOOK NO. 41 - PAGE 216

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT

Investments in City Facilities and Services

City Manager Campbell reviewed Council's strategic priority of a Financially Resilient City (1) enhance City facilities and services to maintain high quality of life; and (2) invest needed financial and staff resources to address maintenance, new construction and operational needs.

She said that City Capital Improvement Projects include road maintenance, Martin Luther King Jr. Drive, traffic calming, bus shelters, traffic signal replacement, outdoor courts, playgrounds, Tempie Avery Montford Center, Mills Gap sidewalk, and Hill Street sidewalk. Capital projects under construction include (1) ballfields at Ray L. Kisiah and Shiloh; (2) traffic signals; (3) Richmond Hill Park restrooms; (4) greenway connectors at Elsie's Bridge and Reed Creek; (5) Jake Rusher Park; (6) Haywood streetscape; and (7) Augusta Barnett playground. Capital projects in design include the following (1) sidewalk projects - Airport Road, Fulton Street, Gerber Road, Johnston Boulevard, Overlook Road, Onteora Road, New Haw Creek Road, Patton Avenue, and Swannanoa River Road; (2) streets and greenways - Swannanoa River Greenway; and greenway connectors; and (3) Parks & Recreation - Wesley Grant Center; and Memorial Stadium.

Water Resources Maintenance and Investments

Water Resources Director David Melton said that regarding capital planning, (1) 5-year Capital Improvement Plan reviewed and adjusted annually; (2) Water Master Plan has a 30-year planning horizon; (3) 20 miles of water lines replaced annually; (4) track areas of need through GIS technology; (5) proactive decisions on where to invest in water system; and (6) balancing act in terms of impacts to water system. The balancing act consists of (1) making improvements at a rate that can be sustained by our system and customers; (2) mountain topography creates higher pressure and more breaks in some areas; and (3) safety - high pressure in some areas mean water must sometimes be shut off to make a repair. Regarding the North Fork Dam improvements, (1) dam will be able to better withstand inflow from severe storm events, as well as add attenuation capacity to the reservoir; and (2) expected completion by end of 2020. Regarding the North Fork Transmission Line Bypass, (1) $2.1 Million project - completed in November 2019; (2) installation of 1,700 feet of 36-inch transmission waterline with tie-ins to the existing 36-inch and 24-inch transmission lines; and (3) designed to protect our community from a system-wide water loss during a major flood. Regarding the Tunnel Road Waterline installation - $2 Million project involved installation of a 30-inch waterline where a 24-inch line was in place. Regarding Neighborhood Enhancement Projects, (1) replaced approximately 20 miles of old and aging water lines; and (b) completed in 2019. Regarding boil water advisories, (1) when a pipe gets down to low or no pressure for a repair, this triggers a Boil Water Advisory for the respective areas; (2) required by the state; (3) public health and safety are most important; and (4) especially vulnerable populations. He explained who gets an alter (1) the person whose name is on the combined utility bill; (2) people and businesses listed in the white and yellow pages; and (3) people and businesses who register online or through 2-1-1. When you receive a Boil Water Advisory, it means that contamination is possible but not confirmed. As a precaution, we recommend customers vigorously boil water for at least 1 minute before consumption or drink bottled water. Once tests confirm there is no contamination, we will contact you through AVL Alert. You should receive the "Lift" Alert through the same method you receive the "Boil Water Advisory" Alert, or (2) all "Advisories" and "Lifts of Advisors" are posted on the City's website. The City has updated the language on this webpage to be clearer; or (3) call Water Customer Service at 828-251-1122. He encouaged everyone to sign up for all alerts. If a contamination is found, a "Boil Water Notice" will be sent through AVL Alerts. The City of Asheville is partnering

with Buncombe County Health & Human Services to educate and work with businesses impacted by Boil Water Advisories.

City Manager Campbell and Water Resources Director Melton responded to various comments from Council, some being, but are not limited to: possibility that the County's Health Department reflect the City's boil water advisories; how does the City monitor vulnerable areas; how does the City balance the right amount of projects with acknowledging the impacts on the community.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 20-18 - RESOLUTION DISSOLVING THE ENERGY INNOVATION TASK FORCE AND ESTABLISHING THE BLUE HORIZONS COMMUNITY COUNCIL FOR THE PURPOSE OF ACHIEVING THE COMMUNITY-WIDE RENEWABLE ENERGY GOAL THROUGH THE BLUE HORIZONS PROJECT

RESOLUTION NO. 20-19 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY TO ISSUE A JOINT REQUEST FOR PROPOSALS FOR THE MANAGEMENT AND IMPLEMENTATION OF THE BLUE HORIZONS PROJECT AND THE BLUE HORIZONS PROJECT COMMUNITY COUNCIL

Councilwoman Mayfield said that the following are the Energy Innovation Task Force's (EITF) goals from 2016: (1) Avoid or delay the construction of the 190-MW/$100 million natural gas-fired peaker plant planned for 2023; and (2) Transition to a cleaner, affordable, and smarter energy future in WNC, rooted in community engagement and collaboration that is mutually beneficial to the community, customers, and Duke Energy. Using a chart, she showed the many organizations involved in the Blue Horizons Project.

Councilwoman Mayfield noted that the EITF accomplishments include (1) eliminated the need for the peaker plant; (2) two micro-grids with local support - the first utility-sale micro-grids in the state; (3) 19 MW of battery storage - more than anywhere else in North Carolina; (4) pilot programs approved by NCUC for Buncombe County - Fee for Service upgrades fr low-income families and cold climate heat pump pilot; (5) advanced metering infrastructure deployed in Buncombe County ahead of schedule; (6) New Clean Cities collaboration with Duke Energy to help cities reach their renewable energy goals; and (7) Blue Horizons Project launched in February 2018.

Mr. Sam Ruark-Eastes, Executive Director of Green Built Alliance, said that the Blue Horizons Project accomplishments include (1) significant increases in Energy Efficiency and Peak Demand Response programs; (2) Focus on multi-family energy efficiency; (3) 480 low-income homes weatherized since 2016; (4) Partnerships with Creation Care Alliance, Waste Reduction Partners, Community Action Opportunities, and Mountain Housing Opportunities furthered energy efficiency and solar in churches, multi-family housing, retirement communities, and businesses; (5) $370,000 in grants received; (6) 56 presentations, 57 community events, 4 interviews; and (7) Active and growing website and social media presence (a) 300 visits per month to website; and (b) 600 followers on Facebook.

City Sustainability Officer Amber Weaver provided a chart for the transition to Blue Horizons Project Community Council (BHPCC). She explained the BHPCC membership along with their roles and responsibilities. She then reviewed the scope of work and deliverables: (1) Support City and County in working towards 100% renewable energy for the community by 2042; (2) Continue core work of community engagement; (3) Conduct a series of listening sessions throughout the County to gather input for the community-wide renewable energy plan; (4) Scale up low-income weatherization work to 350 homes in FY 20-21, 450 in FY 21-22, and 550 in FY 22-23; (5) Develop programs to help businesses and residents install solar - Solarize Campaigns, low-income solar program; (6) Support the City and County to achieve their 100% renewable operational goal as quickly as possible; (7) Implement Cool Communities groups; and (8) Continue the collaborative partnership of the EITF through Blue Horizons Project Community Council.

Staff Report Information:

Action Requested: Adoption of a resolution to dissolve the Energy Innovation Task Force (EITF) and to create the Blue Horizons Project Community Council to advise the Blue Horizons Project and adoption of a resolution authorizing the City Manager to enter into an interlocal agreement with Buncombe County to issue a joint Request for Proposals (RFP) for a non-profit to implement the Blue Horizons Project.

Background:

- In March 2016, Council adopted Resolution 16-64 to establish a joint City, County, and Utility Energy Innovation Task Force (EITF) to address 1) prevention of Duke Energy's Peaker Plant, and 2) provide clean renewable energy for Western North Carolina.
- The EITF created and advises the Blue Horizons Project, a community campaign for energy efficiency and renewable energy.
- The EITF accomplished the initial goal of preventing the Duke Energy Peaker Plant and will dissolve as a City/County Task Force.
- The Blue Horizons Project will continue the work on Goal #2 - provide clean renewable energy for Western North Carolina - and be advised by a new community based advisory board to be known as the Blue Horizons Project Community Council.
- Elected officials and staff from both the City and County along with Duke Energy drafted a revised charter for the Blue Horizons Project which received support from both the EITF and the Sustainability Advisory Committee on Energy and the Environment (SACEE).
- A local nonprofit will manage the Blue Horizons Project and will provide staff support to the Blue Horizons Project Community Council. The City and County will have representation on this council.
- The City of Asheville will enter into an interlocal agreement with Buncombe County to give the authority to issue a joint RFP for a non-profit to implement the deliverables of the Blue Horizons Project.
- The City will have a role in selecting and negotiating the responsive bidder.
- The Blue Horizons Project Community Council will support the work of the City and County's 100% Renewable Energy Goals.

Council Goal(s):

- A Clean and Healthy Environment

Committee(s):

- Energy Innovation Task Force (EITF), January 10, 2020 recommended approval
- Sustainability Advisory Committee on Energy and the Environment (SACEE), January 15, 2020, recommended approval

Pro(s):

- Establishes a new charter for the Blue Horizons Project now that the initial goal of delaying the Duke Energy natural gas peaker plant has been achieved.
- Re-commits the City and County to the support of the Blue Horizons Project

Con(s):

- None

Fiscal Impact:

- The Sustainability Office's adopted operating budget for the current fiscal year includes $205,000 to support the EITF. Sustainability staff have requested that same budget amount for Fiscal Year (FY) 2021 to support the Blue Horizons Project Community Council. Buncombe County has also requested funds for FY 2021 to support the Blue Horizons Project Community Council. If a responsive bidder is selected, a contract will be issued after FY 2021 has begun."

In response to Councilman Kapor, Councilwoman Mayfield said that Buncombe County has invested in the low income weatherization program, and they have made a similar commitment moving forward.

A resident was concerned about how this project addresses the warming of downtown Asheville and asked for information on the Cool Communities group.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolutions and they would not be read.

Councilwoman Mayfield moved to adopt a resolution dissolving the Energy Innovation Task Force (EITF) and creating the Blue Horizons Project Community Council to advise the Blue Horizons Project. This motion was seconded by Councilman Young.

Councilwoman Mayfield asked for a friendly amendment to her motion to read: "... adopt a resolution to dissolve the Energy Innovation Task Force and anticipate the establishment of the Blue Horizons Project Community Council to advise the Blue Horizons Project. Councilman Young accepted Councilwoman Mayfield's friendly amendment and the motion carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 210

Councilwoman Mayfield moved to adopt a resolution authorizing the City Manager to enter into an interlocal agreement with Buncombe County to issue a joint Request for Proposal (RFP) for a non-profit to implement the Blue Horizons Project. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 211

B. RESOLUTION NO. 20-25 - RESOLUTION ENDORSING THE DECLARATION OF A CLIMATE EMERGENCY AND EMERGENCY MOBILIZATION EFFORT TO RESTORE A SAFE CLIMATE

City Sustainability Officer Amber Weaver said that in 2017 Mayor Manheimer *reaffirmed* Asheville's commitment to uphold the Paris Climate Agreement on behalf of the City of Asheville; and while world leaders have recognized the urgent need to combat climate change by signing the Paris Agreement, the City of Asheville recognizes the need for a new strategy to address climate change. Today, City Council is the first community within North Carolina to publicly declare a Climate Emergency supporting efforts of The Climate Mobilization Campaign, the

Sunrise Movement and Extinction Rebellion. With adoption of City Council's declaration, Asheville joins 75 other US Governments representing over 25 million people; with a total of 1,327 global governments representing over 810 million people worldwide. Declaring Climate Emergency is the critical first step in acknowledging the systematic overhaul needed to address global warming. Through the work of The Sunrise Movement, Extinction Rebellion, and the City's Sustainability Advisory Committee, here are a few highlights within Asheville's Climate Emergency resolution: (1) The City declares that a climate and ecological emergency threatens our city, region, state, nation, civilization, humanity, and the natural world; (2) The City commits to an equitable and just citywide mobilization effort to reverse global warming that, if met with all necessary financial and regulatory assistance and authorization from State and Federal authorities, would end citywide greenhouse gas (GHG) emissions as quickly as possible and no later than 2030; (3) City Council supports staff efforts to consolidate the various separate sustainability goals and department initiatives into an updated Climate Justice Plan; (4) The City will incorporate the Climate Justice Plan into the Comprehensive Plan, *Living Asheville,* and all other plans as appropriate; (5) Through the City's Capital Improvement Plan and budget process, the City will identify the projects and funding needed to fulfill the City's existing 100% renewable and carbon reduction goals and address the current climate and ecological emergency; (6) Beginning in Fiscal Year 2021, the City will consider GHG emissions in its assessment of Capital Improvement Plan (CIP) Project requests and provide a sustainability impact statement for all new CIP projects included in the adopted Annual Budget; and (7) Furthermore, the City will work with business, land development, and other private sectors to identify and incentivize effective ways to reduce GHG emissions and meet the community-wide 100% renewable energy goal.

The following resolution is being recommended for adoption by the Sustainability Advisory Committee on Energy & the Environment (SACEE) and the Sunrise Movement: "WHEREAS, world leaders have recognized the urgent need to combat climate change by signing the Paris Agreement, agreeing to keep global warming "below 2°C above pre-industrial levels," and pursuing "efforts to limit the temperature increase to 1.5°C"; and WHEREAS, in 2016 Mayor Esther Manheimer signed the Paris Climate Agreement on behalf of the City of Asheville (the "City"); and WHEREAS, the loss of life and damage caused by current global warming demonstrates that the Earth is already too hot for safety and has resulted in the increased frequency and intensity of wildfires, floods, sea level rise, disease, drought, and extreme weather; and WHEREAS, according to the United Nations' Special Rapporteur on Extreme Poverty, a 1.5°C increase in global temperature could expose 500 million people to water poverty, 36 million people to food insecurity because of lower crop yields, and 4.5 billion people to heat waves; and WHEREAS, in October 2018, the United Nations released a special report which projected that limiting warming to even a 1.5°C target this century will require an unprecedented transformation of every sector of the global economy by 2030; and WHEREAS, the United States of America and other industrialized countries have disproportionately contributed to climate change and accordingly bear an extraordinary responsibility in rapidly solving this crisis; and WHEREAS, scientists have warned that we are currently overshooting our ecological limits and potentially driving the sixth mass extinction of species that could devastate much of life on Earth for millennia, and pose as great a risk to humanity as climate change, according to the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services; and WHEREAS, restoring a safe and stable climate requires an emergency climate mobilization on a scale not seen since World War II in order to: (1) reach zero greenhouse gas ("GHG") emissions across all sectors of the economy, (2) rapidly and safely drawdown and remove all excess carbon from the atmosphere until safe, pre-industrial climate conditions are restored, and (3) implement measures to protect all people and species from the consequences of an abrupt climate breakdown; and WHEREAS, such necessary measures to restore a safe climate include: (1) a rapid and just phase-out of fossil fuels; (2) ending GHG emissions as quickly as possible to establish a zero-emissions economy; (3) a widespread effort to safely drawdown excess carbon from the atmosphere; and (4) a full transition to a regenerative agriculture system; and (5)

widespread conservation and restoration of ecosystems; and WHEREAS, justice requires that frontline and marginalized communities actively participate in the planning and implementation of this climate mobilization effort and equally benefit from the transition to a climate-safe economy; and WHEREAS, the scope and scale of action necessary to stabilize the climate and biosphere will require unprecedented levels of public awareness, engagement, and deliberation to develop and implement effective, just, and equitable policies to address the climate emergency; and WHEREAS, at present, the City does not currently have the local legislative authority to phase out fossil fuel production, power generation, or use within the City as a whole; and WHEREAS, the City adopted Resolution 11-77 to increase its Municipal Carbon Footprint reduction goal to 4% annually on April 12, 2011, and as of 2017 the City had achieved a 31% reduction; and WHEREAS, the City adopted Resolution 13-228 Supporting a Clean Energy Economy on October 22, 2013; and WHEREAS, the City adopted Resolution 15-200 for a Community Clean Energy Policy Framework on October 27, 2015; and WHEREAS, the City adopted Resolution 16-64 establishing a joint City, County and Utility Energy Innovation Task Force ("EITF") for the purpose of researching, prioritizing, recommending, and implementing recommendations to create energy efficiency, demand-side management and renewable energy opportunities to reduce energy use in Buncombe County on March 22, 2016; and WHEREAS, the work of the EITF and its partners successfully achieved, among other notable accomplishments, the long-term and likely permanent delay to the construction of an additional natural gas fired peaking power plant at Duke Energy's Lake Julian facility; and WHEREAS, the City adopted Resolution 17-119 supporting a state goal of 100% renewable energy by 2050 and increased protection for standing forests and the creation of green jobs on June 13, 2017; and WHEREAS, in 2018 Buncombe County and the City adopted Resolution 18-279 that committed the City to transitioning all municipal operations to 100% renewable energy by December 31, 2030, and a community energy use to 100% renewable energy goal by 2042; and WHEREAS, starting in 2018, the City initiated a climate resilience assessment in cooperation with the National Environmental Modeling & Analysis Center where representatives from all 14 City departments, along with community members and environmental sustainability experts, were assembled to discuss the latest climate science and develop a climate resilience strategy that would allow the City and community to adapt and become more resilient to climate change; and WHEREAS, in 2019 the City completed its resiliency process and released a Climate Resilience Resource Guide that provides strategies for community members to become more resilient to the extreme weather caused by climate change; and WHEREAS, in 2014, the City adopted Resolution 14-27, which committed the City to a 50% reduction in waste by 2035; and WHEREAS, in 2017 the City adopted Resolution 17-257, which established a Food Policy Action Plan to increase food access and distribution, support sustainable agriculture practices in locally grown foods, and expand community food education; and WHEREAS, in 2018, the City purchased five electric buses and adopted a Transit Master Plan that calls for a massive expansion of the City's transit system to better serve people who have to ride the bus and to give elective riders a viable option to driving; and WHEREAS, the above-listed resolutions and associated work plans collectively constitute a multifaceted response to the climate crisis we face; and WHEREAS, the City has been an environmental leader and must accelerate its efforts to create an ecologically regenerative local economy that is socially, racially, and economically just. The City must accomplish this task at emergency speed, through broad community mobilization and by advocating for the regional, national, and international efforts needed to reverse global warming and our current ecological crisis; and WHEREAS low-income communities and communities of color in Asheville and Buncombe County have historically faced unfair levels of displacement, violence, discrimination, and governmental apathy and underfunding; currently face unequal access to suitable housing, education, health services, and healthy food; and are projected to be more heavily impacted by the effects of climate change due to a lack of the funding and resources necessary for stability and resiliency. NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: (1) The City declares that a climate and ecological emergency threatens our city, region, state, nation, civilization, humanity, and the natural world; and (2) The City commits to an equitable and just citywide mobilization effort to reverse global warming that, if met

with all necessary financial and regulatory assistance and authorization from State and Federal authorities, would end citywide GHG emissions as quickly as possible and no later than 2030. Further, the City commits to more deeply incorporate sustainability considerations into its departmental decision making and programs; and (3) The City recommits to its current annual and overall carbon and GHG reduction goals and recommits to evaluate these goals as necessary to identify additional adaptation and resilience strategies in preparation for intensifying local climate impacts; and (4) The City will continue to recognize that the full participation, inclusion, support, and leadership of community organizations, faith communities, youth, labor organizations, academic institutions, indigenous groups, and racial, gender, family, immigrant and disability justice organizations and other allies are integral to an equitable response and mobilization effort; and (5) The City recognizes the need for and supports additional public engagement throughout the city and county to discuss the current climate emergency and develop a plan to reach the community's renewable energy and GHG reduction goals. This outreach must ensure the voices of marginalized communities are included. This input will be incorporated into the city's Climate Justice Plan and the broader community wide plan. The city and SACEE commit to engaging community partners in holding an initial public input session in May 2020; and (6) The City will continue to utilize and revise the City's Comprehensive Plan, *Living Asheville*, as a tool to identify land use and zoning authority in order to reduce GHG emissions and adopt climate-adaptive land use strategies. The city will incorporate the Climate Justice Plan into the Comprehensive Plan and all other plans as appropriate; and (7) City Council commits to discussing how to generate the revenue needed to fund its carbon reduction, 100% renewable, waste, energy, transit, and urban forestry goals at its 2020 annual retreat; and (8) The City hereby recognizes that there is a global climate emergency which demands a massive-scale mobilization to halt, reverse, and address its consequences and causes, and supports the passage of legislation that would initiate a national emergency-speed mobilization to reverse global warming and the ecological crisis described in this Resolution, which could include, but not be limited to, H.Con.Res.52 and S.Con.Res.22, a carbon fee and dividend policy, cap and trade policy, or other similar comprehensive GHG emission reduction policy; and (9) The City commits to call on Buncombe County, sister North Carolina municipalities, the State of North Carolina, the United States Congress, the President of the United States, and all governments and people worldwide to declare a climate emergency and cooperatively initiate a climate mobilization to reverse global warming and the ecological crisis, and provide maximum protection for all people and species of the world; and (10) The City Council supports the delivery of this resolution to all relevant State and Federal agencies and elected representatives representing constituents within the City along with a request that all necessary support and assistance needed to effectuate this resolution be provided as soon as possible; and (11) The City will also continue to provide an annual Sustainability Management Report regarding its efforts to expand renewable energy use and maximize GHG emission reductions within each energy sector. As required by City Resolution 18-279 (100% Renewable Energy Resolution) the Sustainability Management Report will also indicate: (A) whether the City is on track to meet its renewable energy transition goals, and (B) whether adequate funding has been allocated by City Council to fund the necessary renewable energy transition goals; and (12) The City will engage with all relevant local, and state entities to identify the feasibility of and opportunities for gaining local authority to phase out fossil fuel production, power generation, and use within the City; and (13) Through the City's Capital Improvement Plan ("CIP") and budget process, the City will identify the projects and funding needed to fulfill the City's existing 100% renewable and carbon reduction goals and address the current climate and ecological emergency. When identifying funding needs, the City Manager will report to City Council whether existing funding is sufficient or if additional revenues will be needed; and (14) City Council supports staff efforts to consolidate the various separate sustainability goals and department initiatives into an updated Climate Justice Plan by December 2020; and (15) Beginning in fiscal year 2021 (which begins in 2020), the City will consider GHG emissions in its assessment of CIP project requests and provide a sustainability impact statement for all new CIP projects included in the Adopted Annual Budget Document; and (6) The City commits to keeping the concerns of vulnerable communities central to all climate program

planning processes and to invite and encourage such communities to actively participate in the development and implementation of the City's climate change mitigation and adaptation efforts. This engagement should result in real benefits for these communities without exacerbating the current lack of affordable housing within the City. Examples of such benefits include, but are not limited to, pollution reduction, healthier homes, and reduced energy costs; and (17) The City will work with business, land development, and other private sectors to identify and incentivize effective ways to reduce GHG emissions and meet our community wide 100% renewable energy goal."

Five individuals spoke in support of this resolution.

Councilman Haynes said that even though this took a little longer than he might have hoped, he acknowledged all the parties who assisted in moving this climate emergency resolution forward. The important roles played by members of the City, Amber Weaver and the Office of Sustainability; City Manager Campbell; and the Mayor and members of Council. Most of all he would like to commend The Sunrise Movement and its members for encouraging Council to pass a climate emergency resolution. Without the persistent efforts of this vitally important youth-led movement, this resolution would not have happened.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 20-25. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 217

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mayor Manheimer said that we have heard from the community about moving ahead with the Transit Master Plan's call for extended hours and at our last budget worksession we observed how we don't have any additional funds for this year. But, in recognizing that whenever we fund the next step of our transit service there is a lot of logistical work that has to be done before the service can come on-line. So, in the hopes of accelerating that process and looking forward to a fiscal year that does include a full-year funding for extended hours, discussion and direction will be given to the City Manager regarding extending transit's hours.

City Attorney Branham said that since this item is not on the formal agenda, City Council will need to make a preliminary motion to add this to the agenda.

Mayor Manheimer said that the format they used in the past when asking the City Manager to prepare something to bring back to Council is an informal head-nod, not technically amending the agenda.

Councilman Kapoor was uncomfortable in placing something on the agenda since some Council members have been having conversations surrounding this issue and some have not been informed. At this time, he doesn't know the content of what is being added to the agenda.

Mayor Manheimer said this is not a request to amend the budget or even put the issue on the agenda. This is looking at the logistics of what it will take to bring the service on line.

Councilwoman Mayfield moved to add this item to this agenda regarding direction to the City Manager regarding transit. This motion was seconded by Councilman Young.

Councilman Kapoor felt that Council should have some documentation in front of them in order for them to read it and know what is actually being requested.

Mayor Manheimer understood Councilman Kapoor's concern and said that we will add this to the February 11, 2020, agenda in order to give direction to the City Manager regarding extending transit hours.

At this time, Councilwoman Mayfield withdrew her motion.

Ms. Vicki Meath, Executive Director of Just Economics of Western North Carolina, along with 9 other individuals urged Council to adopt an amendment to implement extended transit hours in this fiscal year. If Council is planning to fund evening hours for the next fiscal year, staff will add the cost of evening service hours into the base budget for Fiscal Year 2021. Even if the allocation is a small amount, an amendment would get the changes in motion and staff can begin to take the next steps. In communication with Jessica Morriss, she indicated that there is a three month lag time between allocation and implementation. So in my understanding, if you make the allocation by April 1, the implementation could begin June 1. We have been fighting for extended evening hours since 2014. We made our advocacy objective for supporting funding for full implementation of the first year of the Transit Master Plan clear throughout last year's budget process, again in October, and continuously since.

Mr. Jonathan Wainscott voiced concern of the standing water and ice at the railroad bridge on Riverside Drive.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:49 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – February 11, 2020 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Mayor Manheimer said that at Council's January 28, 2020, meeting she said that there would be an item on this agenda regarding direction to the City Manager regarding extending transit hours. She said she felt it would be more appropriate to have this discussion at Council's annual retreat on March 13, 2020. At that time, Council will give the City Manager direction on what they would like to see in the Manager's budget for Fiscal Year 2020-21.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING FEBRUARY 2020 AS "WOMEN VOTERS MONTH"

Councilwoman Manheimer read the proclamation proclaiming February 2020, as "Women Voters Month" in the City of Asheville. She presented the proclamation to Aiden Carson and Ruth O'Donnell, League of Women Voters of Asheville-Buncombe County Co-Presidents, who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING FEBRUARY 14, 2020 AS "TRAUMA INTERVENTION PROGRAM DAY"

Councilman Kapoor read the proclamation proclaiming February 14, 2020, as "Trauma Intervention Program Day" in the City of Asheville. He presented the proclamation to Denise Gonzalez, Crisis Team Manager of Trauma Intervention Program of Western North Carolina, and others who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

At the request of Councilman Haynes, Consent Agenda Item "K" was removed from the Consent Agenda for discussion and/or an individual vote.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 28, 2020

B. RESOLUTION NO. 20-26 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ISSUE FREE ANNUAL TRANSIT PASSES TO BOARD MEMBERS OF CITY-MANAGED BOARDS AND COMMISSIONS

Action Requested: Adoption of a resolution to provide board members with free annual transit passes

Background:

- To provide board members of city managed boards (those that have a city employee staff liaison) with free annual transit passes.
- 238 annual passes to be issued in 2020.
- Annual passes have unlimited use on all ART (Asheville Rides Transit) bus routes.
- Annual passes expire at the end of the calendar year; new passes will be issued in January.
- The Clerk's Office will coordinate with the transit manager and committee staff liaisons to issue passes yearly.
- Board members will be required to return the annual pass at the end of their term, or at the time of resignation, so that the new (replacement) board member can have the pass.

Council Goal(s):

- Connected and Engaged Community
- Transportation and Accessibility

Committee(s):

- Boards & Commissions Council Committee- January, 14, 2020 - unanimous recommendation to forward to City Council

Pro(s):

- Incentive and perk for board members who volunteer their time to serve on a city committee.
- Increased ridership and awareness of public transportation.
- Aid to alleviate parking and transportation barriers for board members to attend meetings.

Con(s):

- Loss of revenue from annual passes distributed.

Fiscal Impact:

- If every member received an annual pass, the potential loss of revenue would be $52,360 (238 members x $220 fee); however, it is unlikely that all members will request an annual pass.

Motion:

- Move to adopt a resolution to provide annual transit passes to board and commission members.

RESOLUTION BOOK NO. 41 - PAGE 222

C. RESOLUTION NO. 20-27 - RESOLUTION SETTING A PUBLIC HEARING ON FEBRUARY 25, 2020, TO CONSIDER AN ORDINANCE APPROVING AN ANNEXATION AGREEMENT BETWEEN THE CITY OF ASHEVILLE AND THE TOWN OF FLETCHER DESIGNATING A NON-CONTIGUOUS AREA AS NOT SUBJECT TO ANNEXATION BY FLETCHER

Action Requested: Adoption of a resolution to set a public hearing for February 25, 2020, to consider an ordinance approving an annexation agreement between the City of Asheville and Town of Fletcher designating a non-contiguous area as not subject to annexation by Fletcher.

Background:

- The City has received a petition from property owner, Butel Two, LLC, to voluntarily annex a 2.01 acre property developed as a Holiday Inn and Suites and located at 9 Brian

Boulevard (PIN #9643-85-3550), near the airport, in Buncombe County which is non-contiguous to the primary corporate limits of Asheville (the "Property").

- N.C. Gen. Stat. sec 160A-58.1 permits a city to annex a non-contiguous area, however, if the area is closer to the primary corporate limits of another city/town than it is to the corporate limits of the city that is being asked to annex, then there must be an annexation agreement between the two municipalities which states that the city/town whose corporate limit is closer, will not seek to annex this area.
- It has been determined that the property for which annexation is requested is closer to the primary corporate limits of the Town of Fletcher than it is to the primary corporate limits of the City of Asheville, and therefore, the two municipalities would need to enter into an Annexation Agreement before the City could consider the requested annexation.
- N.C. Gen. Stat. sec. 160A-58.23 authorizes cities to enter into Annexation Agreements as long as they are of reasonable duration not to exceed 20 years and they are approved by ordinance of the governing board of each city.
- The Town of Fletcher has expressed its willingness to enter into an Annexation Agreement, valid for a period of 20 years, in which they agree not to seek to annex the Property. The Town of Fletcher considered an ordinance approving the agreement at its February 3rd Town Council meeting, at which time it was adopted unanimously.
- Approval of the Annexation Agreement by the City of Asheville does not bind it to annex the Property and the actual annexation would be considered at a later date and a separate public hearing. The property would also need to be rezoned (Lodging Expansion Conditional Zoning) in order to be annexed into the City. The annexation and rezoning process would be handled concurrently.

Council Goal(s):

- A connected and engaged community
- A well-planned and livable community

Committee(s):

- None

Pro(s):

- The Annexation Agreement with the Town of Fletcher would allow the City to annex the non-contiguous property if it so desires.
- The request to enter into an annexation agreement is a necessary step in order to be responsive to the petitioner's request for voluntary annexation.
- The annexation of the Property, if approved, will provide the City with new property tax revenue.

Con(s):

- None noted.

Fiscal Impact:

- If the property is annexed, the City would receive approximately $56,000 in property tax revenue based on the current value and tax rate.

Motion:

- Motion to adopt a resolution of intent to set a public hearing on February 25, 2020, to consider an ordinance approving an Annexation Agreement with the Town of Fletcher.

RESOLUTION BOOK NO. 41 - PAGE 223

D. RESOLUTION NO. 20-28 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH CAROLINA SPECIALITIES

CONSTRUCTION LLC, FOR THE JAKE RUSHER PARK IMPROVEMENTS PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Carolina Specialties Construction, LLC in the amount of $975,274, for the Jake Rusher Park Improvements project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of 10% ($97,527.40).

Background:

- Jake Rusher Park has been identified to receive improvements in the approved GO Bond package. The neighborhood has provided input at several public meetings and the park is designed for the most desired amenities: restrooms, parking, and sports courts.
- Bids were advertised on December 19, 2019. The pre-bid meeting was held on January 7, 2020.
- The following four bids were received and formally opened on January 23, 2020:
    - Carolina Specialties Construction, Hendersonville NC $828,157 base bid - $975,274 with all alternates.
    - J. Bartholomew Construction, Hendersonville NC, $859,500 base bid - $990,500 with all alternates.
    - Patton Construction, Asheville NC, $890,570 base bid - $1,126,870 with all alternates.
    - Sossamon Construction, Gaffney SC, $1,001,123 base bid - $1,168,710 with all alternates.
- Alternates included 1) replacing existing deteriorating storm drainage; 2) providing one year maintenance for trees and shrubs; and 3) adding sports courts with fencing, furnishings, and goals; and 3) sidewalks to the courts.
- Carolina Specialties Construction was the lowest responsive, responsible bidder. The construction work will include all of the alternates and is estimated to take six to seven months.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. The low bidder is not a MWBE, but will be contracting with three MWBE subcontractors.

Council Goal(s):

- A well - planned and livable community.

Committee(s):

- A project update was given to the Recreation Advisory Board on January 13, 2020.

Pro(s):

- Provide needed park improvements for this South Asheville park.
- All bid alternates can be built with this bid.

Con(s):

- None

Fiscal Impact:

- Funding for this contract is included in the approved GO Bond Capital budget and annual Parks and Recreation Capital Improvements Program budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with Carolina Specialties Construction, LLC., in the amount of $975,274 for the Jake Rusher Park Improvements project and further authorizing the City Manager to execute any change orders that may arise during the project up to the 10% contingency amount of $97,527.40.

RESOLUTION BOOK NO. 41 - PAGE 224

E. ORDINANCE NO. 4790 - ORDINANCE TO ENABLE THE CITY OF ASHEVILLE TO REGULATE AND ADMINISTER PARKING AT THE ASHEVILLE REGIONAL AIRPORT

Action Requested: Adoption of an ordinance to enable the City of Asheville to regulate and administer parking at the Asheville Regional Airport.

Background:

- The Greater Asheville Regional Airport Authority has requested in writing that the City of Asheville regulate and administer parking at the airport.
- Public Safety staff at the airport will issue the citations and submit them to the City.
- N.C. Gen. Stat. § 160A-301(d) gives the City the authority to regulate and administer parking on privately-owned public vehicular areas.
- Regulate means to apply the parking regulations of Chapter 19, Article V, Division 1 of the City of Asheville Code of Ordinances.
- Administer means to process the actual citations as they are submitted.
- The City of Asheville provided this service several years ago and has the capacity to resume performing this function.

Council Goal(s):

- Transportation and Accessibility.

Committee(s):

- Multi-Modal Transportation Commission - January 22, 2020 - Unanimously approved
- Planning & Economic Development - February 10, 2020 - Pending

Pro(s):

- Enables the City to provide a service to another entity.
- Provides a good partnership opportunity.
- Citation revenue will exceed administration expenses.

Con(s):

- None

Fiscal Impact:

- The cost to administer the program is about $3.50 per citation and the anticipated revenue per citation is $20.00. Revenue will exceed administration expenses.

Motion:

- Motion to approve an ordinance to enable the City of Asheville to regulate and administer parking at the Asheville Regional Airport.

ORDINANCE BOOK NO. 33 - PAGE 39

F. RESOLUTION NO. 20-29 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE N.C. DEPT. OF TRANSPORTATION - PUBLIC TRANSPORTATION DIVISION OF SECTION 5303 METROPOLITAN PLANNING PROGRAM ANNUAL FUNDS TO FUND A PORTION OF THE EXISTING TRANSIT PLANNING DIVISION PERSONNEL BUDGET, AND IF SUCCESSFUL, TO ACCEPT THE FUNDS

Action Requested: Adoption of a resolution authorizing the City Manager to apply to the North Carolina Department of Transportation (NCDOT) Public Transportation Division for the Fiscal Year (FY) 2020-21 Federal Transit Administration (FTA) Section 5303 Metropolitan Planning Program annual funds, which are used on a recurring basis to fund a portion of the existing Transit Planning Division personnel budget, and if successful, to accept the grant funds, and sign all the appropriate agreements, and include the revenue in the FY 2020-21 Budget.

Background:

- FTA Section 5303 Metropolitan Planning Program provides recurring funding for transit planning activities, including personnel.
- The City applied for and receives Section 5303 funding on a recurring basis. These funds are programmed annually to supplement a portion of existing transit division planning staff wages. The City receives $60,000 (80%) from FTA, and the City and NCDOT provide $7,500 each in matching funds (20%). Without these funds, the general fund would need to provide additional funding for transit personnel.
- Staff have applied for these funds since the application deadline was February 7, 2020 .
- If for some reason the Council does not authorize the application on February 11, 2020, staff will withdraw it.
- If awarded, staff will budget the funding in the proposed FY 20-21 transit administration budget to fund personnel.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- Supplements funding for multiple transit planning positions.
- Enables the City of Asheville to leverage $67,500 in Federal and State funds to support transit planning activities.

Con(s):

- The City is responsible for half of the 20% local match, which is $7,500.

Fiscal Impact:

- The required local match in the amount of $7,500 will be included in the proposed FY 2020-21 Transit Operating Budget.

Motion:

- Motion to authorize the City Manager to apply to the North Carolina Department of Transportation (NCDOT) Public Transportation Division for the FY 20-21 Federal Transit Administration (FTA) Section 5303 Metropolitan Planning Program annual funds, which are used on a recurring basis to fund a portion of the existing Transit Planning Division personnel budget, and if successful, to accept the grant funds, and sign all the appropriate agreements, and include the revenue in the FY 2020-21 Budget.

RESOLUTION BOOK NO. 41 - PAGE 225

G. RESOLUTION NO. 20-30 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ADE PROJECT, LLC, FOR THE ASHEVILLE BUSINESS INCLUSION OFFICE TECHNICAL ASSISTANCE PROGRAM

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a general contract with ADE Project of NC, in the amount of $95,000, to provide small business development to MWBEs.

Background:

- At the end of 2018, the City received the results of the Disparity Study which reviewed the participation of minority- and women-owned businesses in City contracting. This study showed substantial disparities in certain areas of contracting, especially in the African American community.
- Council identified this work as a priority and approved funding for this effort in this year's budget.
- This contract is the result of a Request for Proposals (RFP) issued by the Asheville Business Inclusion Office. Four proposals were received. Two of the proposals were not qualified to perform the work because they did not have work experience in the Relevant Geographic Market Area (as defined by the Disparity Study).
- ADE Project was selected as the most qualified vendor to perform the work.
- The contractor will lead groups, design, and deliver high - quality technical assistance to the existing Relevant Market Area concentrating on small businesses and startups owned by African Americans as well as other minorities identified by the Disparity Study.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and targeted outreach by the City's Business Inclusion Manager.
- The consultant selected is an African American vendor.

Council Goal(s):

- A diverse community
- Thriving local economy
- A connected and engaged community

Committee(s):

- N/A

Pro(s):

- The disparity study provided substantial information that the City should prepare and better encourage the participation of minority- and women-owned businesses in its contracts, including sponsor workshops, training, and conferences that help minority- and women-owned businesses increase business experience and capacity to become actively involved in City contracting.
- ADE will provide such services on behalf of the City.
- The work will be done by an all African American led team of instructors.

Con(s):

- None

Fiscal Impact:

- Funding for this contract exists within the approved Economic and Community Development Department budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a general contract with ADE Project of NC, in the amount of $95,000, to provide small business development to MWBEs.

RESOLUTION BOOK NO. 41 - PAGE 226

H. RESOLUTION NO. 20-31 - RESOLUTION AMENDING THE 2020 CITY COUNCIL MEETING SCHEDULE TO ADD A WORKSESSION REGARDING AN UPDATE ON HOTEL DEVELOPMENT STANDARDS ON TUESDAY, FEBRUARY 25, 2020, AT 3:00 P.M. IN THE COUNCIL CHAMBER, LOCATED ON THE 2ND FLOOR OF CITY HALL

RESOLUTION BOOK NO. 41 - PAGE 227

I. RESOLUTION NO. 20-32 - RESOLUTION APPROVING THE ISSUANCE OF UP TO $17,850,000 MULTI-FAMILY HOUSING REVENUE BONDS BY THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE TO PROVIDE FINANCING FOR ARROWHEAD APARTMENTS TO SATISFY SECTION 147 (F) OF THE INTERNAL REVENUE CODE

Action Requested: Adoption of a resolution approving the issuance of bonds by the Housing Authority of the City of Asheville for Arrowhead Apartments

Background:

- The Asheville Housing Authority has requested approval of issuance of up to $17,850,000 in multi-family housing revenue bonds to provide financing for the acquisition and rehabilitation of the Arrowhead Apartments, a 116 unit development for seniors (62+) built in 1979 which is located in four residential buildings at 100 Cheerio Lane in Asheville.
- The project is, and will continue to be, 100% subsidized under the Project-Based Section 8 Housing Assistance Program ("HAP Contract") program of HUD and all units are affordable to and set aside for individuals with incomes at or below 60% of the AMI.
- The property will be acquired and renovated by Arrowhead Renewal LP, a North Carolina Limited Partnership, or an affiliated or related entity, via a 4% Low Income Housing Tax Credit ("LIHTC") syndication financed by tax-exempt bonds issued by the Housing Authority.
- The proposed rehabilitation scope will completely overhaul the unit interiors-upgrading kitchens, bathrooms, living spaces, appliance and fixtures. The rehabilitation will also address mechanical systems such as HVAC, elevators, plumbing, electrical as well as roofing. The proposed renovation is expected to cost more than $40,000/unit.
- The IRS Code Section 147(f) requires that any bonds issued by the Housing Authority for developments such as this have the approval of the plan of financing by City Council, following a public hearing with respect to such plan. On November 7, 2019, the Housing Authority held a public hearing, and there were no comments.
- This approval by City Council does not obligate the City in any way to issue or pay for the bonds, or for any other debt undertaken by Arrowhead Renewal LP in connection with this project.

Council Goal(s):

- An Equitable and Diverse Community

- A Well-Planned and Livable Community
- Quality Affordable Housing

Committee(s):
- None

Pro(s):
- The significant rehabilitation of an existing 116 unit affordable housing development for seniors.

Con(s):
- None

Fiscal Impact:
- As noted above, the approval of this bond issuance does not require City investment.

Motion:
- Motion to adopt the resolution approving in principle the issuance by the Housing Authority of the City of Asheville of up to $17,850,000 in multi-family housing revenue bonds for the acquisition and rehabilitation of Arrowhead Apartments.

RESOLUTION BOOK NO. 41 -PAGE 228

J. RESOLUTION NO. 20-33- RESOLUTION OF INTENT TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS MERRITT PARK LANE AND SETTING A PUBLIC HEARING ON MARCH 24, 2020

Action Requested: Adoption of a resolution to set a public hearing for March 10, 2020, for the closure of a portion of an unopened right-of-way off Merritt Park Lane.

Background:
- N. C. Gen. Stat. Sec 160A-299 grants cities the authority to permanently close streets and alleys.
- The City of Asheville has petitioned for this closure which is associated with the sale of City-owned property at 360 Hilliard Ave. (PIN # 9648-18-3942) and 9999 Merritt Park Lane (PIN# 9648-18-3669) to Hilliard Park Apartments, LLC for an affordable housing development.
- An unopened portion of Merritt Park Lane crosses the Merritt Park Lane property and runs along its eastern border.
- Upon closure, all of the portion of the unopened right-of-way that crosses the Merritt Park property will become the property of Hilliard Park Apartments, LLC and all of the unopened right-of-way along the eastern border of the Merritt Park property will become the property of the City as agreed to by Hilliard Park.
- As part of the purchase agreement, Hilliard Park has agreed to construct a public greenway which will run along the western border of the 360 Hilliard property as well as the northern portion of the Merritt Park property where the unopened right-of-way currently exists. Upon completion, the greenway area will be deeded back to the City.
- This closure allows maximum land use potential for further development while complying with Living Asheville - A Comprehensive Plan for our Future. This is a multi-family residential building with 86 units, several of which are affordable units.

Council Goal(s):
- A well-planned and livable community

Committee(s):
- Multimodal Transportation Committee - January 22, 2020 - Recommended closing the right of way by unanimous vote.

Pro(s):
- The closure would allow for more efficient use of the existing adjacent properties.
- A portion of the closed right of way on the Merritt Park property will be constructed as a public greenway.
- Meets Council's goals to promote sustainable, high density infill growth that makes efficient use of existing resources

Con(s):
- None noted.

Fiscal Impact:
- There will be no fiscal impact related to this closure.

Motion:
- Motion to adopt resolution of intent to set a public hearing, March 10, 2020, to close an unopened portion of right-of-way off Merritt Park Lane.

RESOLUTION BOOK NO. 41 - PAGE 230

K. RESOLUTION URGING CONGRESSIONAL PASSAGE OF H.R. 763 - ENERGY INNOVATION AND CARBON DIVIDEND ACT TO ADDRESS CLIMATE CHANGE

At the request of Councilman Haynes, this item was removed from the Consent Agenda for discussion and/or an individual vote.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda, without Consent Agenda Item "K". This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

K. RESOLUTION NO. 20-34 - RESOLUTION URGING CONGRESSIONAL PASSAGE OF H.R. 763 - ENERGY INNOVATION AND CARBON DIVIDEND ACT TO ADDRESS CLIMATE CHANGE

Action Requested: Adoption of Resolution Urging Congressional Passage of HR763 Energy Innovation and Carbon Dividend Act to Address Climate Change.

Background:
- City Council passed Resolution 18-92 Federal Congressional Action to Adopt Legislation for a Carbon Fee and Dividend Policy to Address Climate Change per Citizens Climate Lobby recommendation in April 2018.

- HR763 imposes a fee on the carbon content of fuels, including crude cil, natural gas, coal or any other product derived from those fuels that emit greenhouse gases into the atmosphere.
- HR763 includes exemptions for fuels used for agricultural or non-emitting purposes.
- HR763 exempts fuel used by the Armed Forces.
- HR763 includes rebates for facilities that capture and sequester carbon dioxide.
- HR763 includes border adjustment provisions that require certain fees or refunds for carbon-intensive products that are exported or imported.
- Support of this resolution and the recent Climate Emergency Resolution adopted on January 28, 2020, acknowledges that climate change is a critical and issuing a carbon fee and dividend would be an effective way to address carbon reduction.

Council Goal(s):
- Equitable and Diverse Community
- A Clean and Healthy Environment

Committee(s):
- Sustainability Advisory Committee on Energy and the Environment unanimously approved the resolution at their November 2019 meeting.

Pro(s):
- Supports Resolution 18-92 Federal Congressional Action to Adopt Legislation for a Carbon Fee and Dividend Policy to Address Climate Change

Con(s):
- None

Fiscal Impact:
- None

Councilman Haynes said that he could not support the House Bill 763 which Council is being asked to endorse. Speaking to the Sustainability Advisory Committee on Energy & the Environment in October, a representative with the Citizens Climate Lobby described the Bill as a meatless bone. While it's true that it would do little to address the climate emergency, we are facing flaws that run much deeper than that. This Bill precludes the Environmental Protection Agency from regulating C02 emissions covered by the Bill for a period of ten years. Whether the Bill's targets are being met will be assessed in the year 2030 - the same year that last year's IPCC report says we need to have drastically reduced C02 emissions. Brett Harti of the Center for Biological Diversity stated "We don't have a decade to cross our fingers and hope a huge giveaway to fossil fuel companies gets us out of the climate crisis." It exempts the U.S.Military which is the largest institutional consumer of petroleum in the world. According to the Open Secrets website, 48 of the bill's co-sponsors have taken money from the oil and gas industry and the Electric Utilities industry. We can no longer allow the fossil fuel and utility industries to help write legislation ensuring their self preservation while their actions continue to move the planet towards irreversible catastrophic changes to the environment. At our previous meeting this Council unanimously passed a climate emergency resolution calling for bold actions to combat the climate crisis. HR 763 fails to meet that challenge. He could not support this endorsement.

Two individuals opposed the Bill.

Six individuals spoke in support of the Bill.

Councilwoman Mayfield moved to adopt a resolution urging congressional passage of HR763 Energy Innovation and Carbon Dividend Act to address climate change. This motion was seconded by Councilman Young and carried on a 6-1 vote, with Councilman Haynes voting "no".

RESOLUTION BOOK NO. 41 - PAGE 232

III. PRESENTATIONS & REPORTS:

A. NEIGHBORHOOD ADVISORY COMMITTEE UPDATE

Ms. Barber Melton, Chair of the Neighborhood Advisory Committee (NAC), said that NAC consists of 9 members, all appointed by City Council, with representation from neighborhoods throughout the City. The Committee was established in 2012 to improve communications between neighborhoods and the City Council and to submit reports concerning issues facing neighborhoods. The Committee acts as a sounding board for neighborhood issues and is a conduit to bring these issues, along with strategies for improvement, to City Council. They held two Issues Forums and are currently planning for a Festival of Neighborhoods on May 16 at Dr. Martin Luther King Jr. Park. Last year, NAC re-evaluated holding regional meetings due to diminished participation. Instead, they looked at holding issues forums on concerns mentioned in previous regional meetings and settled on the top two - traffic and noise in June and August respectively.

The main issues addressed by neighborhoods on the traffic issues forum included traffic calming/congestion, traffic enforcement, pedestrian/traffic safety, and I-26 related issues. City staff in Transportation, Police, Planning along with the N.C. Dept. of Transportation local Division 15 reviewed the issues. Comparisons were made on issues that are already in line for review and/or how the remaining traffic matters will be addressed, for example - some are part of the I-26 Connector Project, or the Tunnel Road Corridor Study. Follow-up made with all attendees on the issues addressed and next steps.

Regarding the noise issues forum, this issues forum was provided by the Development Services Department on results of the survey and meetings with groups and residents. All information regarding the noise ordinance revision can be found at bit.ly/NoiseOrdinanceCOA.

NAC has also began to invite neighborhoods to present at their regular monthly meeting about their history, successes and concerns. To date they have heard from Shiloh, Burton Street, West End/Clingman Avenue, Haw Creek, the Heart of Chestnut Hills, Asheville Housing Authority and Hillside Terrace (which is a newly registered neighborhood). Plans are to continue hearing monthly from neighborhoods for 2020. From the neighborhood invitation series, they have heard housing cost/gentrification/housing supply; traffic, parking; break-ins, crime and safety complaints; loss of community involvement/diminishing civic participation; and homeless issues/access to mental health services, job skill trainings. They observed that (1) people do care about and love neighborhoods; (2) people do want to help their neighbors; (3) people will work with city planners and the police; and (4) what people get out of their neighborhoods depends, in part, on what they put into them.

Two neighborhoods added Plans on a Page and/or registered with the City - Oakley neighborhood; and Hillside Terrace neighborhood. In addition, the Neighborhood Hero Award is given annually to neighborhood members or groups who continually do extraordinary work on behalf of their communities.

NAC has heard from or participated in the following last year: homestays, revenue diversification, infill, development notification tool, open space/tree save, noise ordinance, urban centers, the budget process, and advancing racial equity 101 training.

In response to Councilwoman Mayfield, Ms. Melton said that the effort of NAC in exploring ways to increase the capacity of neighborhood leaders is ongoing. She said that the Coalition of Asheville Neighborhoods and NAC work together as they are all out for the same thing - to make a better community.

On behalf of City Council, Mayor Manheimer thanked Ms. Melton and the entire Committee for their dedication and hard work.

B. MANAGER'S REPORT - EQUITY

City Manager Campbell said that this is another report in the ongoing series of updates on Council's strategic initiatives.

Director of the Office of Equity & Inclusion Kimberlee Archie, provided City Council with an equity & inclusion update. She outlined the 6 Council strategies related to equity & inclusion, along with the vision 2036. The Office of Equity & Inclusion fosters a fair and inclusive culture across city government, promotes equitable policies, practices and procedures, and facilitates improved human relations.

Embedding racial equity framework (1) Normalize (a) Training staff and boards and commissions; (b) Increase comfort talking about race/racism - Videos, Documentaries, Podcasts and post discussions; (2) Internal organizing - Internal organizing: Equity Core Teams, Interdepartmental Action Teams; (3) External organizing/ influence; Boards and Commissions, Buncombe County City Manager's Office, Safety + Justice; Western North Carolina DEC; Asheville-Buncombe County United Way; UNC- Asheville, Asheville City Schools; (4) Operationalize (a) Fiscal Year 2021 Budget Process; (b) City Property Disposition Policy; (c) Noise Ordinance Update; and (d) Urban Centers Rezoning.

She then reviewed how equity is embedded in the Council strategies as follows: (1) Council Strategy A.5: Expand partnership opportunities with Asheville City Schools through the Equity Collaboration to eliminate disparities in access to quality schools and other educational resources (a) Equity Collaborative; and (b) Staff as Equity Resource; (2) Council Strategy A.6: Develop and implement a strategy based on the NLC report to foster economic mobility (a) Position the City as a Model Employer; (3) Council Strategy A.1: Incorporate equity into hiring policies, practices and procedures, especially in public safety (on-going) (a) Progress with data collection; and (b) Piloting practice changes; (4) Council Strategy A.2: Expand diversity on City boards and commissions (on-going) (a) New application; and (b) Inclusion Survey; (5) Council Strategy A.3: Review city programming, facilities, staffing operations to enhance racial equity, with an emphasis on Parks and Recreation (on-going) (a) Develop Action Team to track performance; and (6) Council Strategy A.4: In partnership with others, participate in community dialogue and potential strategies to honor history and contributions of the African American community in Asheville (on-going) (a) Supporting AAHC on monument process; and (b) Increased Communication & Coordination. She reviewed the measuring impact and results; along with an analysis in decision-making policy-making.

Listening and being responsive and accountable to the Community's Vision of Racial Equity in Asheville, especially those most impacted by inequities and disparities - (a) Racial Healing mini-grants results; (b) Deepened Racial Equity Facilitators' Pipeline (mini-grant); and (c) Responsive and Inclusive African American Business Development. Black History IS American History Film Series & Discussions Feb 10, 17, 24 and 27; and they are Hosting Economic Inclusion in Southern Cities Learning Cohort May 2 - 4.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS OAK STREET

RESOLUTION NO. 20-35 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS OAK STREET

Streets Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way known as Oak Street. This public hearing was advertised on January 17, 24, 31 and February 7, 2020.

Action Requested: Adoption of a resolution to permanently close an unopened right-of-way known as Oak Street.

Background:

- N. C. Gen. Stat. Sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Nettlewood Associates LLC (PIN # 9656-10-0957, 9656-10-0853, 9656-10-2829) has requested the closure. Nettlewood Associates LLC owns all adjoining parcels.
- This closure allows maximum land use potential for further development while complying with *Living Asheville - A Comprehensive Plan for Our Future*. The ultimate plan is a surgical center. The closure is being pursued prior to the sale of the property.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - December 11, 2019 - Recommended closing the right-of-way by unanimous vote.

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):

- None noted.

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 6:00 p.m., and when no one spoke, she closed the public hearing at 6:00 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Kapoor moved to adopt a resolution to permanently close an unopened right-of-way known as Oak Street. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 234

B. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY BETWEEN MIDWAY DRIVE AND WILLIS WAY

RESOLUTION NO. 20-36 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY BETWEEN MIDWAY DRIVE AND WILLIS WAY

Streets Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way between Midway Drive and Willis Way. This public hearing was advertised on January 17, 24, 31 and February 7, 2020.

Action Requested: Adoption of a resolution to permanently close an unopened right-of-way between Midway Drive and Willis Way.

Background:

- N. C. Gen. Stat.Sec 160A-299 grants cities the authority to permanently close streets and alleys.
- Ted and Jessica Leaven have requested the closure and own both adjacent properties, 65 Ramoth Road and Midway Drive, PIN #s 7649-48-1087 and 9646-48-2076.
- This closure allows maximum land use potential for further development while complying with *Living Asheville - A Comprehensive Plan for our Future*. The alley is between two parcels owned by the same owner. The owner is wanting to combine the two parcels into one. Part of the attached deck is in the right-of-way.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - December 11, 2019 - Recommended closing the unopened right-of-way by unanimous vote

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- Meets Council's goals to promote sustainable, high density infill growth that makes efficient use of existing resources

Con(s):

- None noted.

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 6:03 p.m., and when no one spoke, she closed the public hearing at 6:03 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to adopt a resolution to permanently close an unopened right-of-way between Midway Drive and Willis Way. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 235

C. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNOPENED ALLEY OFF FEDERAL ALLEY

RESOLUTION NO. 20-37 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED ALLEY OFF FEDERAL ALLEY

Streets Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened alley off Federal Alley. This public hearing was advertised on January 17, 24, 31 and February 7, 2020.

Action Requested: Adoption of a resolution to permanently close a portion of Federal Alley

Background:

- N. C. Gen. Stat. Sec. 160A-299 grants cities the authority to permanently close streets and alleys.
- Asheland Properties LLC (PIN # 9648-38-0052, 9648-37-1928, 9648-37-2825, 9648-37-2643) has requested the closure.
- This closure allows maximum land use potential for further development while complying with *Living Asheville - A Comprehensive Plan for Our Future.* This is for the Asheland/Coxe development. This is a wide portion of right-of-way. This will allow the wider sidewalk to be constructed out to Federal Alley.

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee - December 11, 2019 - Recommended closing the right-of-way by unanimous vote.

Pro(s):

- The closure will allow the Asheland/Coxe development to install sidewalk and trees along Federal Alley.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):

- None noted.

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 6:04 p.m.

A woman who works in the adjacent building said they are about to lose parking spots when the apartments come in. Any opportunities to support the employees downtown who help with tourism would be appreciated.

Mayor Manheimer closed the public hearing at 6:08 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to adopt a resolution to permanently close a portion of Federal Alley. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 237

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Multimodal Transportation Commission, the following individuals applied for the vacancy: Dennis Wencel, Sandy Aldridge, Shannon Watkins and Amy Jones. At the request of the Multimodal Transportation Commission and the Boards & Commissions Committee, it was the consensus of Council to delay the appointment.

RESOLUTION NO. 20-38 - RESOLUTION APPOINTING MEMBERS TO THE CIVIC CENTER COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Civic Center Commission.

Kyle Smith resigned as a member of the Civic Center Commission, thus leaving an unexpired term until June 30, 2021. In addition, Sykes Lowe has resigned as a member of the Civic Center Commission, thus leaving an unexpired term until June 30, 2020.

The following individuals applied for the vacancy: David Nutter, Lee Arevian, John Ellis, Steven M. Howard, Tony Micocci and Mukunda Pacifici.

The Boards & Commissions Committee recommended appointment of John Ellis and Mukunda Pacifici.

Vice-Mayor Wisler moved to (1) appoint Mukunda Pacifici as a member of the Civic Center Commission to serve the unexpired term of Mr. Smith, term to expire June 30, 2021, or until his successor has been appointed; and (2) appoint John Ellis as a member of the Civic Center Commission to serve the unexpired term of Ms. Lowe, term to expire June 30, 2020, and then a full three-year term, term to expire June 30, 2023, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 238

RESOLUTION NO. 20-39 - RESOLUTION APPOINTING A MEMBER TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Recreation Board.

Mr. Justin Thompson resigned as a member of the Recreation Board, thus leaving an unexpired term until June 30, 2021.

The following individuals applied for the vacancy: Craig Ruhland, Matt Lutz, Madison Brightwell, Bryce Senz, Elizabeth Lafitte, Shannon Rupert and James Barney.

At the recommendation of the Recreation Board, the Boards & Commissions Committee recommended appointing Elizabeth Lafitte.

Vice-Mayor Wisler moved to appoint Elizabeth Lafitte as a member of the Recreation Board to serve the unexpired term of Mr. Thompson, term to expire June 30, 2021, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 239

RESOLUTION NO. 20-40 - RESOLUTION APPOINTING MEMBERS TO THE URBAN FORESTRY COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Urban Forestry Commission.

Mr. Guillermo Rodriguez resigned, thus leaving an unexpired term until December 31, 2020.

The following individuals applied for the vacancy: Robert Brown, Patricia Strang, Karen MacNeil, Callie Warner, Noah Poulos, Catherine Murphy and Perrin de Jong.

At the request of the Urban Tree Commission, the Boards & Commissions Committee recommended appointing Perrin de Jong.

Vice-Mayor Wisler moved to appoint Perrin de Jong to serve the unexpired term of Mr. Rodriguez, term to expire December 32, 2020, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 240

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Vicki Meath and 5 individuals urged Council to adopt a budget amendment to extend evening transit hours in this fiscal year.

Mr. Ehren Cruz, representing LEAF Downtown, spoke to Council about helping them with a conflict with another event on August 9. Their event is on August 7-8 and they are unable to have their equipment, staging, etc. removed before the August 9 event begins.

Mr. Jonathan Wainscott was pleased to see that the problem about ice on Riverside Drive has been resolved.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:28 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

62

Tuesday – February 25, 2020 - 3:00 p.m.

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor (arrived in meeting at 3:55 p.m.); Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

Update on Hotel Development Standards

City Manager Campbell said this worksession will be an update on the hotel development standards. We have had the assistance of the Urban Land Institute (ULI) to respond to concerns and issues raised. We will provide information, along with recommendations from ULI and staff next steps around regulatory strategies. Staff will ask for City Council concurrence of their recommendations or if staff should be doing something differently.

Director of Planning & Urban Design Director Todd Okolichany said the purpose of this worksession is to get Council's concurrence on (1) Hotel development planning process; (2) Briefing book overview and highlights; (3) Urban Land Institute (ULI)Technical Assistance Panel Process (TAP) recommendations; and (4) Council concurrence on recommendations and priorities. He stressed they looked at hotel development as a land use.

He reviewed the hotel development study timeline which started on September 24, 2019, and in late summer of 2020 staff will present final regulatory changes to Council for review and discussion.

Questions answered through the TAP process were (1) What is the appropriate balance of hotels?; (2) How can Asheville leverage hotel development to meet city goals?; (3) Should the city consider special requirements for hotel development in certain areas?; and (4) How can the city work with hoteliers and other stakeholders to reduce negative impacts and better integrate hotels into the community?

He explained the Briefing Book covers all of these topics - Asheville geography, land use and demographics; Overview of relevant plans; Economic conditions, housing and taxation; Regulatory framework; Tourism history, vacation rentals and hotel development trends; and Hotel impacts. This report was prepared with the study questions in mind, and includes data that helped to inform ULI's recommendations. Hotel impacts included transportation and parking, water, sewer, community safety, economic, environmental and social impacts (e.g. displacement).

He reviewed the history and trends: Asheville has a long history as a tourism destination, and hotel development has increased at a faster rate in recent years. Asheville hotel demand remains strong based on high occupancy rates. Short term vacation rental growth also remains strong. Housing affordability continues to be a priority issue. Visitation continues to grow, with a majority of people coming from within the region for health care, entertainment, to eat, shop, etc. In the last 10 years, Asheville's population has grown by about 11% while hotels have increased by approximately 25%. Today, we have about 85 hotels and over 8,300 rooms. Hotel occupancy rates peak at over 80% during peak seasons (Summer and Fall), which is higher than national average) and reach at least 75% occupied throughout the year except during winter months (low is around 47% occupied). One short term vacation rental (STVR) for every four hotel rooms. Not everyone who visits Asheville is a tourist but may be visiting for other reasons. About 35% of visitors are overnight visitors that stay in area lodging - 65% are day trips.

Hotel impacts on water and sewer - On average, hotels use less water than similarly-sized residential uses. Wastewater system demand for hotels is comparable to residential uses. On average hotels use approximately 2,706 gallons per room/per month which is lower than other commercial uses and residential uses, which average 4,500 gallons per unit/per month. The wastewater system demand for hotels is comparable to residential uses, which require an allocation of 120 GPD/bedroom for residential units. The MSD Water Reclamation Facility is operating at approximately 50% capacity.

Hotel impacts on community safety - Hotels generally do not place a greater burden on public safety resources than other uses. Hotels represent a small portion of public safety budgets. Population growth and visitors indeed have an impact on the city's infrastructure and facilities. We clearly have many infrastructure needs and deferred maintenance. However, Asheville experiences these impacts from all types of development, not just from hotels. Our briefing report focused on the impacts of hotels compared to other land use types. Asheville's overall water system is currently at about 50% capacity. In 2018, the cost per call dispatched was $253. Hotel-related calls, therefore, cost the city approximately $658,000 in 2018, or 2% of the Asheville Police Department (APD) budget. AFD & APD: In 2018, the Asheville Fire Department (AFD) received about 900 calls related to hotels or less than one call per month per hotel, which translates to an annual cost of approximately $2,500 for hotel-related AFD service. Restaurants generated approximately 940 of AFD calls in 2018. Between 2014 and 2018, calls to the APD for hotel-related issues have averaged approximately 2% of all department calls.

Hotel impacts regarding economic: Hotel guests have a large positive economic impact on the city, especially on local businesses. Buncombe County ranks in the top four jurisdictions in the state for collections of occupancy taxes. Accommodations and food services wages are low but are higher than the state average. Visitor spending impacts local businesses. About half of visitor spending was on food and beverage and retail combined, and lodging accounted for 23.4% of visitor spending. Visitors to Asheville spent $2.0 billion in 2017, which generated $3.1 billion in total business sales, including indirect and induced impacts. Direct Impacts: Travelers create direct economic value within a discrete group of sectors (e.g. recreation, transportation). This supports a relative proportion of jobs, wages, taxes, and GDP within each sector. Indirect Impacts: These are generated by the purchase of goods and services from each directly impacted sector (e.g. food wholesalers, utilities). Induced Impacts: These are generated when employees whose incomes are generated either directly or indirectly by tourism, spend those incomes in the Buncombe County economy. Tourism in Asheville generated $368 million in overall tax revenues (including property, sales and occupancy taxes?) in 2017, including $199 million in state and local revenues. For every $1 spent on advertising, visitors spent $43 in the Asheville community. Wages: In Buncombe, the Accommodations and Food Services job sector is the lowest paying sector ($20,688), but is higher than the state average by 16%. When separating Food Services from hospitality, Accommodations wages are about 30% higher. Average wages in Asheville ($43,070) are low overall compared to the state ($47,200) and national averages ($51,960) due to lower wages in the highest paying job sectors (e.g. Professional, Scientific and Tech).

Hotel impacts regarding the environment: Tourism, like many industries, contributes to greenhouse emissions with the industry's largest contributors linked to transportation, shopping and food. According to a 2018 article published in the journal *Nature Climate Change*, tourism accounts for approximately 8% of greenhouse gas emissions, which contribute to climate change. The study found that the industry's biggest emissions contributors are transportation, shopping and food. According to the UN Intergovernmental Panel on Climate Change, aviation accounts for roughly 3.5% of all human related climate impacts. While 82% of Asheville visitors arrive by car, passenger counts at the asheville airport continues to grow (up 45% in May 2019 compared to May 2018).

Hotel impacts around traffic and parking: Hotels typically generate less vehicle trips than other uses. Parking requirements for hotels is typically less than other uses. Parking availability downtown continues to be a top issue. A 100 room hotel generates 836 trips per weekday including trips to restaurants and other tourism related activities, while 100 single family homes would generate 940 trips. In surveys completed in 2018 and 2019 by the Downtown Commission and Asheville Downtown Association, parking was cited as a top priority as well as a top concern.

Hotel impacts regarding social impacts: Social impacts are difficult to quantify. City staff are using tools to better understand and mitigate impacts of displacement (i.e. neighborhood vulnerability map and racial equity toolkit). The need for tourism to be developed and managed in a sustainable manner for both visitors and local communities is paramount. As pointed out in the opening statement of Living Asheville - There is a need to balance the needs of full time residents, second home owners, tourists and visitors that include housing, jobs, visitor accommodations and infrastructure improvements with the need to preserve the unique sense of place, culture and natural environment that make the city a desirable place to live and visit. While tourism and the associated hotel development are an economic engine for the community and have contributed to the emergence of Asheville as a vibrant city, having provided opportunities for small businesses and industry to grow and enhanced markets for makers and other creatives, the public policy question that the city seeks to address is, how can Asheville balance tourism and the needs of residents and businesses to ensure the authentic character and quality of life for all Ashevillians is not diminished. We are using more tools to understand and mitigate negative social impacts.

ULI recommendations - big ideas: Use tourism as a way to get what the community wants. Strengthen partnerships and build trust. Equip all stakeholders with facts. Invest in cultural and community assets for both residents and tourists. Tap into the pride and compassion of Asheville. Create predictability in the development review process.

ULI's recommendations are distributed amongst the following categories - revenue generating, planning, and regulatory.

ULI recommendations regarding revenue generating (1) Require lease of any city right-of-way needed during hotel construction - Transportation and Legal have already started a process to 1) update the ordinance to allow for penalties when lane closure permits are not adhered to; and 2) update the lane closure policy and fees. We anticipate bringing this forward before the end of the year. We are expecting to increase the fees (or license agreement) for parking, sidewalk, and lane closures so that the fee is dependent on the location, length of time, and area closed. This is similar to what other agencies do. (2) Utilize existing Business Improvement District (BID) framework - the ordinance passed in 2012; (3) Continue to explore a food and beverage tax - considered in 2018 for prepared food and beverages to be used for increased cleanliness in business districts, better public safety and improved sidewalk maintenance (for example). ULI suggested that it could be applied on a certain spending threshold (e.g. over $10); and (4) Renegotiate the tax split from the hotel occupancy tax.

ULI's recommendations regarding planning (1) Leverage and regularly update community visioning documents (a) Downtown Master Plan; and (b) Living Asheville; (2) Prepare a tourism management plan - this plan can develop solutions for sustainable tourism and manage this sector in a way that aligns with city goals; (3) Consider a Livability and Tourism Department (or a standing committee that meets regularly). The Tourism division serves as a liaison between the tourism industry and the city's residents, enforces the tourism ordinance and provides administrative support to the Tourism Commission; and (4) Help fund transit such as a circulator bus between key attractions.

ULI's recommendations regarding regulatory - (1) Establish zoning for hotels, including

criteria and standards; (2) Evaluate traffic impact analysis threshold - Transportation has started looking at this. Traffic Impact Analysis' (TIA) are now required to include comprehensive analysis of multimodal impacts, which is already in the code, but was not historically required. Consider having different TIA requirements depending on the location of the project. For example, projects in the Central Business District or other right-of-way (ROW)-restricted corridors will not likely be able to make intersection improvements, so rather focus more on pedestrian, bike, and transit facilities and safety; (3) Develop valet parking standards - This should include non-valet also. General loading and unloading and valet space should be included within the project site and not within the ROW with new construction. As with the Flatiron, it is not always possible to provide interior loading/unloading with an existing building. Therefore we need to revisit the current Unified Development Standards standard for this and revise as necessary. We also need an enforcement component to be included; (4) Evaluate current design guidelines; (5) Consider local historic district designation for downtown; and (6) Enact a Community Benefits Agreement as part of the development approval process.

Public benefit ideas include affordable housing; sustainability - green building, renewable energy, tree canopy, stormwater management, green infrastructure, recycling and/or composting; and stream mitigation; greenways; transportation demand management - day care (location sensitive), bicycle parking facilities, and transit passes; design review - restoration or preservation of historic structures; compliance with architectural review, and improved materials; public parking, public space; public art; shuttle service.

Staff is asking for Council's concurrence in the short-term to direct staff to pursue the following recommendations during the hotel moratorium: (1) Revenue generating: (a) Require license agreement for city right-of-way during hotel construction; and (b) Regulatory: (a) Re-establish hotels as a permitted use in select zoning districts and areas, including criteria and standards. (1) Incentivize public benefits; (2) Identify design improvements; (3) Evaluate traffic impact analysis threshold; and (4) Develop valet parking standards. It was the consensus of the Council for staff to move forward on these short-term recommendations.

Staff is also asking for Council's concurrence in the long-term to direct staff to investigate the remaining recommendations: (1) Revenue generating: (a) Business Improvement District (BID); (b) Food and beverage tax; and (c) Tax split from the hotel occupancy tax; (2) Planning: (a) Regularly update comprehensive plan and Downtown Master Plan; (b) Prepare a tourism management plan; (c) Consider a Livability and Tourism Department (or a standing committee); and (d) Identify sources and partners towards funding a circulator bus; and (3) Regulatory: (a) Evaluate and update current design guidelines; and (b) Consider local historic district designation for a portion(s) of downtown. Mayor Manheimer also felt that we should also be looking at the ¼ cent sales tax for revenue generating. It was the consensus of the Council for staff to move forward on these long-term recommendations with who will take the lead on some of the recommendations still to be determined.

It was the consensus of the Council for staff to move forward on these long-term recommendations.

Mr. Okolichany then reviewed the next steps as follows: February - March 2020 - Conduct additional research as necessary; March - April 2020 - Develop proposed zoning amendments; Spring 2020 - Public engagement on proposed zoning amendments; and Summer 2020 - Council approval of proposed zoning amendments.

There was considerable discussion/questions/comments raised by the Council. Mr. Okolichany responded to those questions/comments, with Council giving direction to obtain additional information on several issues along with more public input sessions.

Mayor Manheimer adjourned the worksession at 4:37 p.m.

Tuesday – February 25, 2020- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING FEBRUARY 11, 2020, AS "IANNUCCI'S PIZZERIA & ITALIAN RESTAURANT APPRECIATION DAY"

Councilman Kapoor read the proclamation proclaiming February 11, 2020, as "Iannucci's Pizzeria & Italian Restaurant Appreciation Day" in the City of Asheville. He presented the proclamation to Nick, Danielle and A.J. Iannucci, who thanked Council for this recognition.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 11, 2020

B. RESOLUTION NO. 20-41 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH AUSTIN CONSTRUCTION AND GRADING COMPANY FOR THE ELSIE'S BRIDGE GREENWAY CONNECTOR PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Austin Construction and Grading Company in the amount of $108,759.08, to construct the Elsie's Bridge Greenway Connector project.

Background:

- This project re-purposes a former road bridge to connect Depot Street to Ralph Street. The project includes construction of concrete trail path to include grading and erosion control, construction of concrete curb ramp and incidental concrete sidewalk, and refurbishment of bridge surface and installation of handrail.
- Development of this facility will enable the neighborhood to connect to the future Town Branch Greenway.
- Plans provide for a community garden on the corner of the City-owned property.
- Expected construction duration is 90 days.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and

requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- A MWBE, Asheville Fence (Asheville Contracting Company Inc.) of Candler, NC, is a named subcontractor for this project..

Council Goal(s):
- An equitable and diverse community
- A well-planned and livable community
- A clean and healthy environment

Committee(s):
- None

Pro(s):
- Development of this facility will enable the neighborhood to connect to the future Town Branch Greenway.
- Plans provide for a community garden on the corner of the City-owned property.

Con(s):
- None

Fiscal Impact:
- Funding for this contract is already included in the 2016 General Obligation (G.O.) Bond Program.

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into a contract with Austin Construction and Grading Company in an amount not to exceed $108,759.08 to construct Elsie's Bridge Greenway Connector Project.

RESOLUTION BOOK NO. 41 - PAGE 241

C. RESOLUTION NO. 20-42 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH PIEDMONT UTILITY GROUP INC. TO CONSTRUCT THE REED CREEK GREENWAY EXTENSION PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Piedmont Utility Group, Inc. in the amount of $149,523.50, to construct the Reed Creek Greenway Extension Project.

Background:
- The Reed Creek Greenway Extension is an extension of existing greenway facilities behind a planned mixed-use building construction. The project includes construction of asphalt trail path to include grading and erosion control, construction of concrete curb ramps and incidental concrete sidewalk, entrance monuments, and installation of handrail.
- Development of the extension will ultimately span the stretch between Magnolia Avenue and Elizabeth Street.
- Expected construction duration is 90 days.
- The facilities behind the upcoming mixed-use building construction (from approximately West Chestnut Street bridge south to Elizabeth Street) will be constructed by the developer simultaneously with the building construction.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- No MWBE firms submitted bids with this prime contractor.

Council Goal(s):

- An equitable and diverse community
- A well-planned and livable community
- A clean and healthy environment

Committee(s):

- None

Pro(s):

- This project will extend the existing Reed Creek Greenway from Magnolia Avenue to Elizabeth Street.

Con(s):

- None

Fiscal Impact:

- Funding for this contract is already included in the 2016 General Obligation (G.O.) Bond Program.

Motion:

- City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into a contract with Piedmont Utility Group, Inc. in an amount not to exceed $149,523.50 to construct Reed Creek Greenway Extension project.

RESOLUTION BOOK NO. 41 - PAGE 242

D. RESOLUTION NO. 20-43 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH HAZEN AND SAWYER FOR PROFESSIONAL SERVICES ASSOCIATED FOR PHASE 2 OF A WATER SYSTEM FLUSHING PROGRAM TO ADDRESS DISCOLORED WATER

Action Requested: Adoption of a resolution authorizing the City Manager to execute a professional services contract with Hazen and Sawyer for a not to exceed amount of $50,000 for the development of a Unidirectional Flushing Program Pilot Study.

Background:

- The Water Resources Department has identified the need for this project to address issues with discolored water that sometimes occurs after water main breaks or intermittent, large changes with system demand. The discolored water is a result of sediments, biofilms, and other deposits being scoured off the pipe walls when water velocities increase dramatically in a section of pipe. The dramatic increase in velocities is typically caused by main breaks and large demand changes.
- A Unidirectional Flushing (UDF) Program is designed to create water velocities in sections of pipe needed to scour the deposits from the pipe walls in a controlled manner by isolating customers, manipulating valves, and utilizing fire hydrants or blow-offs to discharge the water in an environmentally safe manner.

- Unidirectional Flushing is typically implemented over a percentage of the water system each year as a preventive maintenance measure. The methods of the UDF program can also be utilized during an emergency event where discolored water has been reported. Implementation of those methods will allow us to better isolate the issue to smaller parts of the system and to more effectively flush out any discolored water.
- This contract will allow the development of a pilot study to be implemented over two areas of the water system with pipes of various age and types to determine the effectiveness of removing deposits from pipes in the City of Asheville's water system. If the results of the pilot study are positive, a request for phase 2 of the program will be made to develop the program for the entire system.
- Selection of the two pilot areas will be a function of the contract. The process will incorporate input from staff and the engineer. Each pilot area will include approximately 25 miles or less of pipe in a geographically distinct and easily isolated section of the distribution system, one where city crews have conducted a valve assessment and one that has not been covered in the valve assessment program.
- Impact to customers will likely be possible discolored water. Customers will be notified prior to flushing. A "discolored water" template is being developed to utilize AVLAlerts for this exercise as well as normal system flushing. There will be the possibility of boiled water advisories during the flushing process which will be communicated prior to any flushing.
- The duration for the actual flushing will be a few weeks for each area. The duration for the complete pilot study will be determined based on estimates from the consultant with the limitation of not to exceed $50,000.

Vendor Outreach Efforts:

- Through a qualifications based selection process beginning in August of 2014, the City of Asheville Water Resources staff selected nine consulting firms to provide on-call professional services for an array of different types of water system General Projects. Hazen and Sawyer was one of the selected firms due to their expertise in areas of hydraulic modeling, water system analysis, and project development.
- The City of Asheville entered into a master agreement with Hazen and Sawyer on April 22, 2015 for on-call professional services for General Projects valid for three years with the option to renew for two additional years. On April 23, 2018, the City of Asheville executed a renewal master agreement with Hazen and Sawyer for the additional two years of on-call professional services.
- If approved, the proposed engineering services described here will be developed into a subcontract under the conditions of the master agreement.
- City of Asheville Water Resources staff determined that utilizing the on-call professional services for General Projects was the best method to deliver this project and Hazen and Sawyer was the most qualified of the on-call firms to develop the UDF program.
- No other vendor outreach was performed.

Council Goal(s):

- A Financially Resilient City, A Clean and Healthy Environment

Committee(s):

- None

Pro(s):

- This project is aligned with the City and the Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects to provide safe and reliable service.

- Hazen and Sawyer has successfully provided engineering services for other water system improvement projects. Their experience with our water system and expertise in hydraulic modeling and other areas needed to produce an UDF program will be critical to a successful UDF program.

Con(s):

- None

Fiscal Impact:

- The funding needed for the professional services agreement is currently allocated within the Water Resources Capital Improvements Project Fund.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a professional services contract with Hazen and Sawyer for the development of an Unidirectional Flushing Program Pilot Study for an amount not to exceed $50,000

Mr. Jonathan Wainscott spoke in support of this resolution.

RESOLUTION BOOK NO. 41 - PAGE 243

E. RESOLUTION NO. 20-44 - RESOLUTION AMENDING THE 2020 CITY COUNCIL MEETING SCHEDULE TO ADD A CITY COUNCIL RETREAT ON MARCH 13, 2020, BEGINNING AT 8:00 A.M. IN THE BANQUET HALL OF HARRAH'S CHEROKEE CENTER LOCATED AT 87 HAYWOOD STREET, ASHEVILLE, N.C.

RESOLUTION BOOK NO. 41 - PAGE 244

F. RESOLUTION NO. 20-45 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH IBI GROUP TO INCLUDE A FACILITY STUDY FOR THE ART TRANSIT GARAGE

Action Requested: Adoption of a resolution authorizing the City Manager to amend a professional services contract with IBI Group, PC in the amount of $79,750 to add a Facilities Study for the ART Transit Garage to the contract.

Background:

- In May 2019, City Council authorized the City Manager to enter into a contract in the amount of $278,000 with IBI Group, PC, Raleigh, NC, to conduct a facility study for the City's operations and maintenance (O&M) centers. The study includes a space needs assessment for Public Works, Fleet, Parks Maintenance, and Facilities Maintenance. The study will evaluate the costs associated with relocating these service facilities and the impact to City operations and services.

- The 2018 Transit Master Plan includes a projection for the year 2030 that increases the fleet from 26 to 52 buses and which would more than double the service hours. Additionally, it envisions a transition to 100% renewable energy within this timeframe.

- The existing Transit Garage at 360 W. Haywood Street is at capacity and cannot accommodate the projected increase in the bus fleet and service hours without an investment in facilities.

- A facility study is needed to evaluate the facilities costs associated with an expansion in transit services. The study will inform the City of the size of space required, potential cost for relocation, will help consider various maintenance delivery models, and life cycle costs associated with a new site if relocation were to occur. The study will include the funding requirements and budgetary cost estimates for a new location.

- This firm was selected by a staff committee using a qualifications based selection process. It is anticipated that the findings from the study will be available in September.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business through solicitation processes which included posting on the State's Interactive Purchasing System and encouraging consultants to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. No MWBE firms submitted qualifications for consideration as the prime consultant.

Council Goal(s):

- Transportation and Accessibility, A Well-Planned and Livable Community, and A Financially Resilient City

Committee(s):

- None

Pro(s):

- Funds a key study critical to implementing the 2018 Transit Master Plan.
- Performs a key planning task essential for an organization with a large facilities portfolio.
- Considers possible efficiencies of facility co-location with other City operations.

Con(s):

- None

Fiscal Impact:

- The total cost for the ART Transit Garage study is a negotiated fee of $79,750. Funding for this study is already included in the adopted Transit Services Fund budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to amend a professional services contract with IBI Group, PC in the amount of $79,750 to add a Facilities Study for the ART Transit Garage to the contract.

RESOLUTION BOOK NO. 41 - PAGE 245

G. ORDINANCE NO. 4791 - BUDGET AMENDMENT TO ACCEPT PRIVATE DONATIONS TO PURCHASE K-9 BALLISTIC VESTS

Action Requested: Approval of a budget amendment in the General Fund in the amount of $5,000 to budget private donations to help purchase K-9 ballistic vests for the Asheville Police Department (APD).

Background:

- On October 11, 2019, a private donation was recorded in the amount of $4,000 which included a memo that the funds be used to purchase dog protective vests.
- On November 26, 2019, a private donation was recorded in the amount of $1,000 which included a memo that the funds be used to purchase dog protective vests.

- APD has researched different K-9 vests and received a quote to purchase 8 vests to outfit our entire K-9 team for a unit price less than the current state contract price of the chosen model of a vest.
- APD is requesting the ability to use the aforementioned donations to help fund the cost of the vests.

Council Goal(s):
- A Connected and Engaged Community

Committee(s):
- n/a

Pro(s):
- Provide protection to our service animals

Con(s):
- None

Fiscal Impact:
- The budget amendment will increase the City of Asheville's General Fund budget by $5,000.

Motion:
- Motion to adopt a budget amendment in the General Fund in the amount of $5,000 to budget private donations to help purchase K-9 ballistic vests for the Asheville Police Department.

ORDINANCE BOOK NO. 33 - PAGE 40

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS: None

IV. PUBLIC HEARINGS:

A. CONTINUATION OF PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4602) FOR THE RAD LOFTS PROJECT LOCATED AT 146 AND 179 ROBERTS STREET TO REVISE CONDITIONS RELATED TO AFFORDABILITY

This public hearing was opened on January 14, 2020, and continued to this date. At the applicant's request, Councilman Kapoor moved to continue this public hearing until March 10, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

B. PUBLIC HEARING TO CONSIDER AN ORDINANCE APPROVING AN ANNEXATION AGREEMENT BETWEEN THE CITY OF ASHEVILLE AND THE TOWN OF FLETCHER DESIGNATING A NON-CONTIGUOUS AREA AS NOT SUBJECT TO ANNEXATION BY FLETCHER

ORDINANCE NO. 4792 - ORDINANCE APPROVING AN ANNEXATION AGREEMENT BETWEEN THE CITY OF ASHEVILLE AND THE TOWN OF FLETCHER DESIGNATING A NON-CONTIGUOUS AREA AS NOT SUBJECT TO ANNEXATION BY FLETCHER

Assistant City Attorney Jannice Ashley said that this is the consideration of an ordinance approving an annexation agreement between the City of Asheville and the Town of Fletcher designating a non-contiguous area as not subject to annexation by Fletcher. This public hearing was advertised on February 14, 2020.

Action Requested: Adoption of an ordinance approving an Annexation Agreement between the City of Asheville and Town of Fletcher designating a non-contiguous area as not subject to annexation by Fletcher.

Background:

- The City has received a petition from property owner, Butel Two, LLC, to voluntarily annex a 2.01 acre property developed as a Holiday Inn and Suites and located at 9 Brian Boulevard (PIN #9643-85-3550), near the airport, in Buncombe County which is non-contiguous to the primary corporate limits of Asheville (the "Property").
- N.C. Gen. Stat. sec 160A-58.1 permits a city to annex a non-contiguous area, however, if the area is closer to the primary corporate limits of another city/town than it is to the corporate limits of the city that is being asked to annex, then there must be an annexation agreement between the two municipalities which states that the city/town whose corporate limit is closer, will not seek to annex this area.
- It has been determined that the property for which annexation is requested is closer to the primary corporate limits of the Town of Fletcher than it is to the primary corporate limits of the City of Asheville, and therefore, the two municipalities would need to enter into an Annexation Agreement before the City could consider the requested annexation.
- N.C. Gen. Stat. sec. 160A-58.23 authorizes cities to enter into Annexation Agreements as long as they are of reasonable duration not to exceed 20 years (maximum time allowed by statute) and they are approved by ordinance of the governing board of each city.
- The Town of Fletcher has expressed its willingness to enter into an Annexation Agreement, valid for a period of 20 years, in which they agree not to seek to annex the Property. The Town adopted Ordinance No. 0-20-01 approving the Annexation Agreement at its February 3rd, 2020 Town Council meeting.
- Approval of the Annexation Agreement by the City of Asheville does not bind it to annex the Property and the actual annexation would be considered at a later date and following a separate public hearing. The property would also need to be rezoned (Lodging Expansion Conditional Zoning) in order to be annexed into the City. The annexation and rezoning process would be handled concurrently.

Council Goal(s):

- A financially resilient City

Committee(s):

- None

Pro(s):

- The Annexation Agreement with the Town of Fletcher would allow the City to annex the non-contiguous property if it so desires.
- The request to enter into an annexation agreement is a necessary step in order to be responsive to the petitioner's request for voluntary annexation.

- The annexation of the Property, if approved, will provide the City with new property tax revenue.

Con(s):

- None noted.

Fiscal Impact:

- If the property is annexed, the City would receive approximately $56,000 in property tax revenue based on the current value and tax rate. We will have information about the cost to serve this site by the time we consider the actual annexation.

Mayor Manheimer opened the public hearing at 5:11 p.m., and when no one spoke, she closed the public hearing at 5:11 p.m.

Vice-Mayor Wislerk moved to adopt an ordinance approving an Annexation Agreement with the Town of Fletcher designating the property at 9 Brian Boulevard, a non-contiguous area, as not subject to annexation by Fletcher. This motion was seconded by Councilman Kapoor and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 41

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Closed Session

At 5:12 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.11(a)(1). The statutory authorization is contained in N.C.G.S. 143-318.10 (e) and N.C. Gen. Stat. sec. 160A-168; (2) to establish, or to instruct City staff concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a proposed contract for the acquisition of real property by purchase; and (3) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including but not limited to, the handling or settlement involving the following matters: City of Asheville v. Parkway Court, LLC; and Robert Frost vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilwoman Mayfield and carried unanimously.

At 6:55 p.m., Councilman Kapoor to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:55 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

ANNOUNCEMENT

Mayor Manheimer expressed City Council's sincerest condolences to the family of Woodfin Town Manager Jason Young who passed away on March 9, 2020.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MARCH 10, 2020, AS "ZELDA FITZGERALD DAY"

Councilman Kapoor read the proclamation proclaiming March 10, 2020, as "Zelda Fitzgerald Day " in the City of Asheville. He presented the proclamation to Mr. Jim MacKenzie, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 25, 2020

B. RESOLUTION NO. 20-46 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH BROWN AND CALDWELL FOR THE EMERGENCY REPAIRS TO THE NORTH FORK WATER TREATMENT PLANT WATER STORAGE TANK BAFFLE CURTAINS

Action Requested: Adoption of a resolution authorizing the City Manager to execute a professional services contract with Brown and Caldwell for the emergency repairs to the North Fork WTP water storage tank baffle curtains and geotechnical testing for an amount not to exceed $423,000 with a contingency of $50,000 for a total project cost of $473,000.

Background:

- The North Fork Water Treatment Plant is the largest of the three water treatment plants for the City of Asheville water system. The North Fork WTP produces approximately 67% of the water that supplies the City of Asheville's water distribution system.
- In 2008, the North Fork water storage tank was retrofitted with five baffle curtains to increase the contact time (CT) of the treated water. The CT times are important to the treatment process at North Fork because they aid the disinfection process and are regulated by state and federal agencies.
- Four of the five baffle curtains have fallen to the bottom of the tank and are no longer serving the purpose that they were intended. As a result, the North Fork clearwell must remain above 20' at all times and be dosed at a higher residual level to meet minimum mandated requirements.

- Geotechnical testing of the North Fork Water Treatment Plant sodium hypochlorite feed area is required to determine the degree of settlement and remediation options. This area supports the weight of two chemical bulk storage tanks that store up to 12,000 gallons each of sodium hypochlorite for use in the plant's water treatment and disinfection.
- The storage area has exhibited signs of significant settling resulting in cracking of the floor, tank support pads, and the building foundation. Testing of the area will be required to determine what steps are necessary to stabilize and protect the facility for the future.

Vendor Outreach Efforts:

- Through a qualifications-based selection process beginning in August 2014, the City of Asheville selected nine consulting firms to provide on-call professional services for an array of different types of water system projects. Brown and Caldwell was one of the firms selected based on their expertise in areas of water treatment plant construction and upgrades.
- The City of Asheville entered into a master agreement with Brown and Caldwell on June 8, 2015 for on-call professional services valid for three years with the option to renew for two additional years.
- On April 19, 2018, the City of Asheville executed a renewal master agreement with Brown and Caldwell for the additional two years of on-call professional services.
- If approved, the proposed engineering services will be developed into a subcontract under the conditions of the master agreement.
- City of Asheville Water Resources staff determined that utilizing the on-call professional services for General Projects was the best method to deliver this project and Brown and Caldwell was the most qualified of the on-call firms.

Council Goal(s):

- A Financially Resilient City; A Clean and Healthy Environment

Committee(s):

- None

Pro(s):

- Return the North Fork WTP water storage tank to design parameters and return operational flexibility.
- Decrease the requirement for higher disinfection dosages and costs.
- Reduce the risk of compliance violations.
- Protect and stabilize the North Fork Water Treatment Plant Sodium Hypochlorite Bulk Storage area.

Con(s):

- None

Fiscal Impact:

- Funding for this repair will come from Water Resources capital improvement funding that was previously allocated to NCDOT projects which are delayed and will not require payment in the current fiscal year.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a professional services contract with Brown and Caldwell for the emergency repairs to the North Fork WTP water storage tank baffle curtains for an amount not to exceed $423,000 with a contingency of $50,000 for a total project cost of $473,000.

RESOLUTION BOOK NO. 41 - PAGE 246

C. RESOLUTION NO. 20-47 - RESOLUTION TO SET A PUBLIC HEARING ON MARCH 24, 2020, FOR TRIBUTE DEVELOPMENT COLLEGE AVENUE APARTMENTS LAND USE INCENTIVE GRANT

Action Requested: Adoption of a resolution setting a public hearing on March 24, 2020, to consider a Land Use Incentive Grant application for Collier, Tribute Companies.

Review:

- Tribute Companies have applied for a Land Use Incentive Grant (LUIG) for their development at 11 Collier Avenue per the LUIG policy adopted by City Council and amended on October 22, 2019.
- The development consists of 54 rental apartments with 100% (54) of the homes proposed serving individuals and families earning between 60.1% and 80% Area Median Income (AMI) for 20 years.
- This project is located in the Asheville Central Business District -
    - 11 Collier Avenue (PIN# 9648-38-5770)
- The developer estimates a total development cost of $6.5M.
- Tax Value of the property, to be based on Buncombe County Tax Assessment estimate, is $4,776,599 post completion.
- The project, as presented to staff, meets the following Eligibility Requirements:
    - The proposed development consists of two or more dwelling units for rent;
    - At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income (AMI).
    - The affordable units will be affordable to and leased to income-eligible households for at least 20 years.
    - The proposed development must be located inside the city limits.
    - The proposed development must be located to provide residents convenient access to jobs, schools and services.
    - The proposed development must be 70% residential in use based on square footage not to include a parking structure if applicable.
- Per the LUIG Scoring Matrix and based upon the policy, the project will receive 110 total points for affordability and an additional 50 points for location for a total score of 160 points. Per the policy, this will equal 21 years of grants in the amount of the City Property Taxes payable on the Ashland / Coxe Development.

Proposal:

- Affordable Rental Housing
    - The proposed project will provide fifty-four (54) units affordable to individuals and families earning between 60.1% to 80% of the area median income for an affordability period of twenty (20) years. Under this category, the project qualifies for 100 points.
- Rental Assistance
    - The proposed project will accept 5 Housing Choice Vouchers / Rental Assistance in the community, and possibly consider more. Under this category, the project qualifies for 10 points.
- Superior locational efficiency
    - The proposed project is located within .25 mile of a 1/2 hour transit stop served by an existing sidewalk , within the Central Business District, within 1 mile from job or urban center, and within a .5 mile from a Transportation Amenity. Under this category, the project qualifies for 50 points.
- Staff have scored the project with 160 points, which qualifies the project for twenty one years (21) of Land Use Incentive Grant.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- Housing & Community Development Committee - February 11, 2020 - approved
- Finance & HR Committee - February 25, 2020 - approved

Pro(s):

- The proposed project will provide 54 affordable rental housing units to households earning 80% or less of area median income;
- The proposed project will have an affordability period of twenty (20) years;
- The proposed project addresses the pressing need for affordable one-bedroom apartments (54);
- The proposed project should have a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy;
- 54 affordable units located in the central business district (walkability score of 87 - very walkable, bike score of 70 - very bikeable) provides options for our downtown community workers who fall within the 80% AMI incomes.
- Tribute Companies will communicate with the Asheville Housing Authority as the development prepares to come online that they are accepting Housing Choice Vouchers.

Con(s):

- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development.
- The Collier Development, while not required, offers no parking for its residents and can add to the individual or family transportation costs.

Fiscal Impact:

- The parcel has a combined current tax value of $521,000 and pays city property taxes of approximately $2,235 annually.
- Under the estimated Tax Value of $4,776,599 post completion, the annual city property tax will be approximately $20,487.
- The difference is $18,251 which would be granted to the property owner annually after payment for 21 years.
- For 21 years and 54 affordable units at or below 80% AMI, the city will grant back a total of $383,292 over the 21 years of the LUIG which equals $7,098 per unit of subsidy which is lower than the estimate of up to $80,000 in subsidy for 80% AMI homes as suggested by our Lord Aeck Sargeant consultants and a subsidy cap that has been noted in other LUIG Staff Reports.
- After year 21, the City will receive the approximate $20,487 annually in city tax revenue (depending on future property tax increases, etc.). Please note the City will still receive property taxes of approximately $2,235 in years 1 - 21.

Motion:

- Motion to adopt a resolution to set a public hearing for City Council to consider a Land Use Incentive Grant application on March 24, 2020.

RESOLUTION BOOK NO. 41 - PAGE 247

D. RESOLUTION NO. 20-48 - RESOLUTION REVOKING RESOLUTION NO. 93-145 AND ESTABLISHING POLICY REGARDING SETTLEMENT OF LIABILITY CLAIMS ON BEHALF OF THE CITY OF ASHEVILLE

Action Requested: Revoke Resolution 93-145 and adopt new claim settlement authority resolution

Background:

- In 1993, Asheville City Council adopted Resolution 93-145; granting the City of Asheville Risk Management Division (Risk Management) authority to settle liability claims and lawsuits up to $25,000 on matters including but not limited to property damage, bodily injury, and employment claims while settlements exceeding $25,000 still required Asheville City Council approval.
- Resolution 93-145 only provided administrative settlement authority for those matters under the purview of the City's Risk Manager. However, other liability claims are handled primarily by the City Attorney, including but not limited to land use, zoning, and code enforcement matters.
- Risk Management and the City Attorney's Office seek updated settlement authority not to exceed $50,000 per claimant to increase efficiency by expediting claim resolutions.
- The proposed administrative settlement authority limit accounts for inflation since Resolution 93-145 was adopted in 1993, and expands the authority to include those claims managed by the City Attorney.
- Settlements exceeding $50,000 shall continue to require City Council approval.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- Finance and Human Resources Committee - February 25, 2020 - unanimously adopted to move forward to full Council.

Pro(s):

- Increased settlement authority expedites liability claims and lawsuit resolution to support claimants' return to pre-loss condition and values the amount to keep up with inflation.
- Increased efficiency for Council Meetings as fewer small claims will require the body's consideration.
- Creates consistency for claimants.

Con(s):

- None.

Fiscal Impact:

- There is no fiscal impact to this action. Annually, the Property & Liability Fund is allocated by City Council to utilize for liability claims and lawsuit-related settlements. Other settlements would be funded by specific project budgets or department funds.

Motion:

- Motion to adopt a resolution to revoke Asheville Resolution 93-145 authorizing the City Risk Manager to settle liability claims up to $25,000 and establish policy granting the City Risk Management Division and City Attorney's Office authority to settle liability claims and lawsuits up to $50,000 per claimant.

RESOLUTION BOOK NO. 41 - PAGE 248

E. ORDINANCE NO. 4793 - TECHNICAL BUDGET AMENDMENT TO BUDGET $5.0 MILLION IN 2016 GENERAL OBLIGATION BOND FUNDING IN THE CITY'S HOUSING TRUST FUND

Action Requested: Adoption of a technical budget amendment to budget $5.0 million in 2016 General Obligation (G.O.) Bond funding in the City's Housing Trust Fund.

Background:

- The $74 million General Obligation Bond Referendum that City of Asheville residents approved in November 2016 included $5.0 million for affordable housing loans.
- Staff initially budgeted all of the G.O. Bond funding in the City's General Capital Projects Fund, including the $5.0 million for affordable housing loans .
- After discussions with the City's Controller, staff are recommending that the affordable housing loans be budgeted and accounted for in the City's Housing Trust Fund in order to better track all of the loan receivables that are part of the City's affordable housing loan program.
- In order to make this accounting change, a technical budget amendment is required to set up authorization for the loans in the Housing Trust Fund.

Council Goal(s):

- A Financially Resilient City

Pro(s):

- Improves accounting and reporting by consolidating all affordable housing loans in one single fund.

Con(s):

- None.

Fiscal Impact:

- There is no overall fiscal impact with this technical budget amendment.

Motion:

- Motion to adopt a budget amendment to budget $5.0 million in 2016 General Obligation (G.O.) Bond funding in the City's Housing Trust Fund.

ORDINANCE BOOK NO. 33 - PAGE 45

F. **RESOLUTION NO. 20-49 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FRENCH BROAD METROPOLITAN PLANNING ORGANIZATION FOR THE ANNUAL FISCAL YEAR 2019 SECTION 5307 AND FISCAL YEAR 2019 SECTION 5310 GRANT FUNDING TO FUND TRANSIT OPERATIONS FOR ROUTE 170 (FIXED-ROUTE), AND THE CITY OF ASHEVILLE'S PARATRANSIT SERVICE, AND IF SUCCESSFUL, TO ACCEPT THE FUND, SIGN ALL OF THE APPROPRIATE AGREEMENTS, AND INCLUDE IN THE FISCAL YEAR 2021 BUDGET**

Action Requested: Adoption of a resolution authorizing the City Manager to submit grant applications in response to the annual Call for Projects issued by the French Broad River Metropolitan Planning Organization (FBRMPO) for the FY 2019 Section 5310 and JARC (Section 5307) Funds, and if successful, to accept the grant funds and sign all the appropriate agreements with the FBRMPO, Federal and State agencies, and to include the revenue in the FY20-21 Budget.

Background:

- On January 31, 2020, FBRMPO issued a call for projects for the Federal Transit Administration FY 2019 Section 5310 and JARC Funds soliciting proposals, and upon

evaluating proposals received, FBRMPO will award grant funds through a competitive process to successful applicants.

- The Section 5310 Funding program is used for improving mobility for seniors and individuals with disabilities by removing barriers to transportation services provided in the City of Asheville, and to provide enhanced mobility options to seniors and individuals with disabilities. The City uses 5310 funds to pay for a portion of the City's existing paratransit service. The total amount of funding available from FY 2019 5310 funds is $303,332 and the City expects to apply for $166,832, which is the maximum allowed under the program. The match for these funds is 20%.
- The 5307 JARC funding source is used to fund a portion of the operating costs of Route 170, which operates fixed-route service from downtown Asheville to the Town of Black Mountain. Route 170 frequency was increased from 5 to 8 trips per day recently with the January 5 launch of increased transit service per the Transit Master Plan.
- The total amount of funding available from FY 2019 5307 JARC funds is $296,270 and the City expects to apply for $231,558, which is 50% of the total cost to operate the route 170 (the match for JARC funds is 50%).
- The City is the designated recipient for the region and oversees and administers the grants after they are awarded to subrecipients by the FBRMPO. The City receives a 10% administrative fee for this effort.The grant application deadline for both grants is March 27, 2020.
- These funds are annual recurring funds that are used to fund existing paratransit services and the Route 170 to Black Mountain.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- Project funding will enable the City of Asheville to use federal funds to help offset the annual operating cost of paratransit and Route 170 fixed-route services. Grant recipients and subrecipients are responsible for their local match.
- The City will also receive $62,700 for oversight and administrative cost which does not require a local match. Of this amount, $33,703 will be used for the administrative cost for the Section 5310 program, with the remaining amount of $29,627 to be used for administering the JARC grant program.

Con(s):

- The City is responsible for the 20% and 50% local match for the Section 5310 and JARC Funding programs respectively.

Fiscal Impact:

- The local match will be included in the proposed FY 2020-21 operating budget.

Motion:

- Motion to approve a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (FBRMPO) for:

    a. FY 2019 Section 5310 Funds in the amount of $166,832, and if successful, to accept the grant funds and sign all the appropriate agreements with the FBRMPO, Federal, and/or State agencies, and to include the revenue in the FY20-21 Budget.

b. FY 2019 Section 5307 JARC Funds in the amount of $231,558, and if successful, to accept the grant funds and sign all the appropriate agreements with the FBRMPO, Federal, and/or State agencies, and to include the revenue in the FY20-21 Budget.

RESOLUTION BOOK NO. 41 - PAGE 250

H. RESOLUTION NO. 20-50 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT RENEWAL WITH LEXISNEXIS FOR A CRIME ANALYSIS TOOL

Action Requested: Adoption of 2020 renewal of the November 21, 2016, contract with LexisNexis ACCURINT Virtual Crime Center (AVCC) - crime analysis platform (formerly ATACRAIDS), now at $124,872 with an Addendum and a Schedule A.

Background:

- The Asheville Police Department (APD) entered into a contractual agreement with LexisNexis ACCURINT (formerly ATACRAIDS) for a local and nationwide crime analysis platform on November 21, 2016. The total annual cost to APD at the onset was $29,600.00 with a 3% annual increase.
- The ACCURINT platform has been extensively used internally by APD officers and crime analysts, used by the Citizen Police Advisory Committee (CPAC), as well as made available to the both the citizens of Asheville and Media via the web based Community Crime Mapper. The platform disseminates crime data in a geospatial map and on a link analysis chart.
- On October 31, 2019, LexisNexis announced its new robust platform known as ACCURINT Virtual Crime Center (AVCC) at an annual cost of $35,000.
- The new AVCC platform and with total contract costs (Nov. 2016 to current date) is now at $124,872.

Vendor Outreach Efforts:

- LexisNexis is the creator, a sole source vendor of (AVCC), which the City of Asheville's Police Department and its citizens are familiar with and have access to since November 2016. The access is through the web based Community Crime Mapper that disseminates crime data in a geospatial map and on a link analysis chart. The Crime Mapper allows its customers to access real-time nationwide public records databases. Accordingly, there is no other vendor or application available for purchase today that has the capabilities included in AVCC.
- Due to sole source justification, no outreach to minority and women owned business conducted.

Council Goal(s):

- Smart City

Committee(s):

- None

Pro(s):

- Use of a nationwide crime analysis platform, now more robust, extensively used internally by APD and its crime analysts since 2016, as well as, made available to the citizens of Asheville.

Con(s):

- None

Fiscal Impact:

- A $5,000 increase from the 2019 annual cost, i.e., $35,000 per year with a 3% increase annually. The funding for the contract is already included in the adopted Police Department budget.

Motion:

- Motion to approve the resolution authorizing the Asheville Police Department to renew the November 21, 2016, contract with LexisNexis by going to ACCURINT Virtual Crime Center (AVCC) - crime analysis PLATFORM with the new Addendum and Schedule A.

RESOLUTION BOOK NO. 41 - PAGE 251

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda This motion was seconded by Councilwoman Mayfield and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. CITY MANAGER'S REPORT - COVID-19 UPDATE

City Manager Campbell said we will not be able to answer all the questions about this unfortunate situation; however, we hope to provide resources to help you make good decisions about your health, your family's health and your neighbor's health.

Asheville Assistant Fire Chief Barry Hendren said that there has been excellent cooperation between Buncombe County Public Health, Emergency Management Services, and others. The current situation is that (1) Buncombe County Public Health is the lead agency for preparation and response to COVID-19 outbreak and they will lead the response to the outbreak if it does occur; (2) seven confirmed cases in North Carolina - no confirmed cases in Western North Carolina; (3) one confirmed case in Spartanburg, South Carolina; (4) prevention and preparation is the primary focus within our community; (5) risk in community remains low; and (6) accurate information to community is the priority. In addition, the Governor today declared North Carolina a State of Emergency to assist with the response and preparation efforts for local governments.

Dr. Jennifer Mullendorf, Medical Director for Buncombe County Health & Human Services, said they have been communicating with a wide variety of partners, including health

care providers, health care long-term care facilities, schools systems, private and charter schools, employers, etc. pushing out resources to help them present infection in our community and also to be prepared to respond. We do not have any confirmed cases in Buncombe County at this time. If anyone is worried that they have COVID-19, do not show up at the Emergency Department or your doctor's office. Call your medical provider. If you don't have a medical provider, call the Buncombe County Health & Human Services Communicable Disease and we will determine if you meet the criteria for testing and work that out. The statewide recommendation is that people at high risk - people over 65 and who have underlying health conditions or a weak immune system should avoid large gatherings.

Mr. Fletcher Tove, Buncombe County Public Health Emergency Preparedness Coordinator, said this is a constantly evolving situation. There is a weekly team to keep up with the pace of events and information coming from the Centers for Disease Control & Prevention (CDC) and the State Department of Health & Human Services. They have established a Joint Information Center. They will also have a weekly press conference on Thursdays.

Mr. Taylor Jones, Buncombe County Emergency Services Director, was pleased with the cooperation and coordination and critical thinking skills across all Buncombe County.

Assistant Fire Chief Hendren said that the City of Asheville efforts are focused on supporting community and staff (a) reviewing Continuity of Operations Plan for all departments; (b) accurate and timely information to staff; (c) proactively planning utilizing past experiences of Novel Infections (H1-N1, SARS); and (d) collaboration with Buncombe County Emergency Management & Public Health.

Websites for accurate information regarding COVID-19 resources include Buncombe County Public Health, N.C. Dept. of Health & Human Services, and CDC.

There is a high level of collaboration between Buncombe County and the City of Asheville to coordinate prevention and response and minimize the effects of outbreak.

In response to Councilwoman Mayfield, Mr. Tove said that there is a regional team for Western North Carolina and there is conversation throughout our region on public health.

In response to Councilman Kapoor, Mr. Tove said to make sure you scrub your hands for 20 seconds with warm, soapy water; stop touching your face; cough and sneeze into your elbow and if you use a kleenex, through the kleenex away; increase frequency of disinfecting high contact surfaces; practice social distancing - try to keep 3 feet away from someone's face; limit your travelling or avoid large gatherings. He said that we are also monitoring our economic impact.

City Manager Campbell said that the City is continuing to look at opportunities for the public to be engaged with our elected officials.

IV. PUBLIC HEARINGS:

A. CONTINUATION OF PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4602) FOR THE RAD LOFTS PROJECT LOCATED AT 146 AND 179 ROBERTS STREET TO REVISE CONDITIONS RELATED TO AFFORDABILITY

ORDINANCE NO. 4794 - ORDINANCE TO AMEND THE PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4602) FOR THE RAD LOFTS PROJECT LOCATED AT 146 AND 179 ROBERTS STREET TO REVISE CONDITIONS RELATED TO AFFORDABILITY

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to amend a previously approved conditional zoning approval (Ordinance No. 4602) for the RAD Lofts Project (Urban Place/Conditional Zone) located at 146 and 179 Roberts Street, to revise conditions related to affordability. This public hearing was advertised on January 3 and 10, 2020. This public hearing was opened on January 14, 2020, and continued at the applicant's request to February 25, 2020, in order to continue working with staff. On February 25, 2020, at the applicant's request, the public hearing was continued to this date.

Action Requested: Amendment to the conditions for the previously approved RAD Lofts project (Urban Place Conditional Zone)

Project Location and Contacts:

- The project site consists of two separate parcels with a combined area of approximately 3.26 acres located at 146 and 179 Roberts Street (PINs 9648-06-1956 and 9648-07-2183) that are owned by 146 Roberts LLC.
- Petitioner: Harry Pilos.

Summary of Petition:

- The project has gone through a number of approvals by City Council:
    - First approved on October 22, 2013 (Ordinance No. 4241) for a mixed-use development and conditional zoning from River and Commercial Industrial to Urban Place Conditional Zone
    - Amended on May 26, 2015 (Ordinance No. 4414) to revise conditions related to the mix of uses, increase parking and alter the number and massing of the buildings
    - Amended on January 10, 2017 (Ordinance No. 4548) to revise conditions related to the mix of uses, building size and amount of parking
    - Amended on July 25, 2017 (Ordinance No. 4602) to revise conditions related to building size, parking and mix of uses and to provide a wider range for these conditions to allow for some flexibility
- The mix of uses, site plan and building designs are not proposed to be changed with this amendment. They remain as shown and described in the conditions from the most recent approval (in the B.1 conditions) and includes between 200-245 residential units, between 14,000 - 20,000 square feet of commercial space, streetscape improvements and up to 358 structured parking spaces.
- The applicant is <u>only</u> proposing a change to the condition governing the designation of affordable residential units as described in condition no.8. The project was approved for a LUIG in 2015 based on this affordability condition which has not been utilized since the project has not been built.
    - ***Current condition:*** Five percent of the units will be designated as affordable by the City's standards. The remaining 95% of the units will be leased at or below the City's published 2015 rates for workforce housing as a baseline, assuming and including an annual increase of 3% calculated as of the date of completion of the project as indicated on schedule B1-a. This condition is in effect for a period of ten years from initial Certificate of Occupancy (CO). The applicant will enter into an affordable housing deed restriction with the City to memorialize the aforementioned rent limits and period of affordability. The deed restriction shall be recorded by the applicant in the Buncombe County Register of Deeds prior to obtaining final CO.

- ***Proposed condition:*** At least ten percent of the units shall meet the City's standards for affordability at 80% Area Median Income or AMI (60.1 - 80% AMI) for a period of ten years from the issuance of the Certificate of Occupancy (CO). The rent and income shall follow the Affordable and Workforce Housing Standards determined annually by the City of Asheville Community Development Department. An Affordable Housing Deed Restriction will be provided by the City and filed and recorded by the applicant/property owner in the Buncombe County Register of Deeds prior to obtaining final CO.

- The project location is within Census Tract 9, an Opportunity Zone area, a designation that was not in place during the original approval nor subsequent amendments. Resolution No. 18-269 states that Council commits to work with investors and offer guidance on projects within these areas that promote equitable growth, do not displace low income or residents of color and do not result in the loss of community assets or land. The subject property was formerly a steel factory (Dave Steel Co.) that operated between 1929 and 2007, after which the plant closed its facility on Roberts Street and moved its operation to South Carolina.

Subsidy Analysis

- The current proposal for 10/80/10 does not include any subsidy from the City to gain the affordable units. Staff undertook an analysis to determine the subsidy if Council were to make a special exception to allow a ten-year affordability period, versus the LUIG policy which requires a 20-year affordability period. Per the analysis, the City would lose $2,169,670 in property tax dollars if the LUIG was specially approved for this proposal to gain approximately 25 units at 80% AMI for 10 years.

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that the Traditional Corridor Land Use category encourages mixed-use developments prioritizing pedestrian infrastructure and multimodal access, buildings close to the street and higher residential densities.
- While there is a reduction in units between 80-120% AMI, the proposal doubles the number of units dedicated at 80% AMI or below. Since the amendment still contains a commitment to affordability, it is aligned with key goals in the *Resilient Economy* Plan section.

Compatibility Analysis:

- The mixed-use development proposal has been evaluated in previous reviews and determined to be compatible with the surrounding area and an ideal location for the uses proposed. This amendment does not impact the compatibility.
- The nearest residential neighborhoods in Census Block 9 (Southside, South French Broad) have been identified as an area that is vulnerable to displacement and are approximately a half mile away.
- The project site is located in an area that has already been involved in ongoing significant redevelopment and investment. The City and community partners have invested well over 30 million dollars in improving the immediate area around the project site through the River Arts District Transportation Improvement Project (RADTIP) and via design and planning efforts through the River Arts District Form Based Code with a goal of attracting reinvestment and mixed-use development to this area. Due to the location of the Southside neighborhood - at approximately a half mile away from the project site - and affordability component of the project, staff believes this proposed project amendment is in alignment with City goals and is compatible with the surrounding area.

Council Goal(s):

- A Well-Planned and Livable Community
- Quality Affordable Housing
- Transportation and Accessibility

Committee(s):

- Technical Review Committee (TRC) - n/a
- Planning & Zoning Commission - December 4, 2019 - recommended approval (7-0)

Staff Recommendation:

- Staff consistently recommends that applicants include as many affordable units as they are willing and able to provide
- Staff supports the requested amendment to the number of affordable units.
- The amendment doubles the number of residential units that will be dedicated as affordable at 80% AMI for the ten year period from 5% to 10%, resulting in a net gain in dedicated affordable units.
- The previous Land Use Incentive Grant agreement between the City and the applicant would be abandoned. Without the agreement, the applicant will not be receiving any subsidies from the City and will fund the affordable component entirely independently.
- While City staff consistently encourages applicants to make use of development incentives available, current policy does not require that an applicant commit to those incentives.
- Since the applicant is willing to provide an increase in the number of units dedicated at 80% AMI without encumbering any City funds, staff is supportive of that change.
- Further, City affordable housing funds would be available for other projects looking to incorporate affordability.
- Although not proposing to partner with the City on affordability, the applicant is in a cost-sharing agreement with the City on improvement of a major stormwater project on the site that has widespread impact and benefit. Additionally, the applicant will undergo brownfield remediation on the site, which is another beneficial partnership.
- Regarding alignment with the Opportunity Zone policy, the site is a vacant former industrial site and does not directly displace any residential or commercial uses nor any City or community land/assets. The City does not currently have a process or policy to evaluate the potential for displacement within a geographical range related to increases in property value from development in the area.
- As stated in the subsidy analysis section above, there would be a greater cost to the City in pursuing a special approval for the LUIG and therefore staff recommends supporting the change as proposed by the applicant.

Ms. Bernstein said that the applicant and the City have agreed to an additional condition - Housing choice vouchers shall be accepted for the designated affordable units.

Mr. Harry Pilos, applicant, said that he is prepared to make two donations of $100,000 each to help with the affordable housing crisis. One hundred thousand dollars is to the Asheville-Buncombe Community Land Trust and $100,000 is to Thrive, a subsidiary of UNC. Accepting the housing choice vouchers as it applies to the 10% is very easy for them to do.

Councilwoman Mayfield understood that the $100,000 donation to the Asheville-Buncombe Community Land Trust will be for operations; and the $100,000 donation to Thrive is in support of the housing voucher pilot program which is an effort to try to convince more landlords to come into the housing voucher program and help close the gap between market rate and what the vouchers provide.

Mayor Manheimer opened the public hearing at 5:39 p.m.

Four individuals spoke against the amendment, noting that there needs to be more than 10% affordable housing, the project will displace the population, and the need for community benefit agreements that include the people in the community.

Mayor Manheimer closed the public hearing at 5:48 p.m.

In response to Councilwoman Smith, Mr. Pilos said that he has been committed since the start to put in a small New York style organic grocery store.

Councilman Kapoor moved to recommend approval of the conditional zoning amendment to ordinance 4602 for RAD Lofts - Urban Place Conditional Zone (UP CZ) for the revised condition related to affordability and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: 1) the amendment does not substantially deviate from the project details previously approved other than the change to affordability; 2) the project increases the number of dedicated affordable residential units for low moderate income households; and, 3) the project is compatible with the surrounding area and future land use map. This motion was seconded by Councilwoman Mayfield.

Councilman Kapoor moved to amend his motion to include into the B.1 conditions the condition that housing choice vouchers shall be accepted for the designated affordable units. This amendment to the motion was seconded by Councilwoman Mayfield and carried unanimously.

Mayor Manheimer said that this is a mixed use project with housing and commercial components. When we began the River Arts District Transportation Improvement Program, there was a lot of discussion about how the area would serve several purposes - convert industrial to commercial/residential with greenways, sidewalks, etc., and they hoped it would spur investment from the private sector. The developer is proposing 10% affordability and the consultant stated from the City Council Affordable Housing Workshop that 10% is a reasonable compromise from a private developer. Concerning gentrification, she noted the different projects on Depot Street and Clingman Avenue that have or will have affordable housing structures. She felt this neighborhood is being developed in a blended way.

Councilwoman Smith appreciated the remediation of the brownfields site, but a lot of post industrial properties are in low income areas. This area needs to have a sense of belonging and ownership.

The amended motion was then voted on and carried on a 4-3 vote, with Councilman Haynes, Councilwoman Smith and Councilman Young voting "no". Due to the 4-3 vote, Mayor Manheimer stated that this ordinance will need to have a second reading, which will be on the March 24, 2020, agenda.

ORDINANCE BOOK NO. 33 – PAGE 46

B. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS MERRITT PARK LANE

RESOLUTION NO. 20-51 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY KNOWN AS MERRITT PARK LANE

Streets Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way known as Merritt Park Lane. This public hearing was advertised on February 14, 21, 28 and March 6, 2020.

Action Requested: Adoption of a resolution for the closure of a portion of an unopened right-of-way off Merritt Park Lane.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- City of Asheville has petitioned for this closure which is associated with the sale of City-owned property at 360 HIlliard Ave. (PIN # 9648-18-3942) and 9999 Merritt Park Ln (PIN # 9648-18-3669) to Hilliard Park Apartments, LLC for an affordable housing development.
- An unopened portion of Merritt Park Lane crosses the Merritt Place Lane property and runs along its eastern border.
- Upon closure, all of the portion of the unopened right-of-way that crosses Merritt Park property will become the property of Hilliard Park Apartments, LLC and all of the unopened right-of-way along the eastern border of the Merritt Park property will become the property of the City as agreed to by Hilliard Park.
- As part of the purchase agreement, Hilliard Park Apartments has agreed to construct a public greenway which will run along the western border of the 360 Hilliard property as well as the northern portion of the Merritt Park property where the unopened right-of-way currently exists. Upon completion, the greenway area will be deeded back to the City.
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future. This is part of the construction of the affordable housing project at 360 Hillard and the ultimate construction of the greenway.
- An easement for MSD is being reserved within the closure, no other known utilities exist

Council Goal(s):

- A well-planned and livable community

Committee(s):

- Multimodal Transportation Committee -January 22, 2020; Recommended closing the right of way by unanimous vote

Pro(s):

- The closure would allow for more efficient use of the existing adjacent properties.
- A portion of the closed right of way on the Merritt Park property will be constructed as a public greenway.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources, by allowing the construction of the affordable housing at 360 Hillard and allowing for the construction of the new greenway.

Con(s):

- None noted.

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 6:03 p.m., and when no one spoke, she closed the public hearing at 6:03 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to permanently close an unopened portion of right-of-way off Merritt Park Lane. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 252

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Citizens-Police Advisory Committee, the following individual applied for the vacancy: Cathy Banks. At the request of the Citizens-Police Advisory Committee and the consensus of the Boards & Commissions Committee, it was the consensus of City Council to re-advertise for the vacancy.

RESOLUTION NO. 20-52 - RESOLUTION APPOINTING A MEMBER TO THE BOARD OF ELECTRICAL EXAMINERS

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Board of Electrical Examiners.

David Martin (utility representative) has resigned as a member of the Board of Electrical Examiners, thus leaving an unexpired term until July 1, 2020.

The following individual applied for the vacancy: Drew Pike

The Boards & Commissions Committee recommended appointing Drew Pike.

Vice-Mayor Wisler moved to appoint Drew Pike (utility representative) as a member of the Board of Electrical Examiners to serve the unexpired term of Mr. Martin, term to expire July 1, 2020, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 258

RESOLUTION NO. 20-53 - RESOLUTION APPOINTING A MEMBER TO THE MULTIMODAL TRANSPORTATION COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Multimodal Transportation Commission.

Kim Roney (transit representative) has resigned as a member of the Multimodal Transportation Commission, thus leaving an unexpired term until July 1, 2021. David Nutter (greenway representative) has resigned, thus leaving an unexpired term until July 1, 2022. In addition, John Rideout (at-large representative) has resigned, thus leaving an unexpired term until July 1, 2020.

The following individuals applied for the vacancy: Dennis Wencel, Shannon Watkins, Amy Jones and Sandy Aldridge.

At the recommendation of the Multimodal Transportation Commission, and the Boards & Commissions Committee recommended appointing Dennis Wencel as the at-large representative and to re-advertise for the two remaining seats..

Vice-Mayor Wisler moved to appoint Dennis Wencel (at-large representative) to serve the unexpired term of Mr. Rideout, term to expire July 1, 2020, and then a full three-year term, term to expire July 1, 2023, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 259

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Judy Mattox, organizer for Youth for Environmental Stewardship, along with 7 individuals (combination of Buncombe County and Asheville City Schools), presented City Council with petitions (containing 2,084 signatures) in support of providing renewable energy sources. Also, as Chair of the local Sierra Club, she strongly advocated City Council to fund climate change priorities, including renewable energy, energy efficiency, weatherization, public transit, urban forestry, and affordable housing. We support the 3-cent property tax that would raise $4.5 Million which would fund all of these climate change priorities.

Mr. Robert Louis Hardy urged Council to support funding for the Walton Street pool.

Six individuals spoke in support of the 3-cent property tax increase with a tax relief plan for low income individuals.

Ms. Sarah Benoit said we need to have hotels take a bigger responsibility in their impact.

Ms. Dee Williams spoke about discussions of low income energy efficiency need to have the inclusivity of low income people.

Ms. Vicky Meath urged Council to add in the budget the evening service hours as well as year 2 of the Transit Master Plan. She also encouraged Council to raise the living wage especially for City workers.

Councilman Kapoor said that Council has been taking a lot of hands on approach in our development projects whether it's negotiating development projects or allocating funds to non-profit organizations. It's important for us to make sure that our ethics rules reflect this new reality. He said that he and Councilwoman Mayfield are working on some proposals that he will bring forward to Council for their consideration regarding transparency.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:50 p.m.

Magdalen Burleson
CITY CLERK

Esther E Manheimer
MAYOR

Friday – March 13, 2020 - 8:00 a.m.
Harrah's Cherokee Center - Asheville

Annual Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

At 8:00 a.m., City Council hosted the legislative delegation for breakfast.

At 9:30 a.m., Mayor Manheimer welcomed everyone to the City Council Annual Retreat.

Mayor Manheimer then convened the retreat. She said the purpose of the retreat is to focus on our budget process; highlight City Council's priorities and align those priorities in the budget process.

City Manager Campbell reviewed with Council their priority strategies and provided a look back over the 2019-20 accomplishments.

City Manager Campbell then introduced Mr. Ed Manning, Executive Director of Leadership Asheville, who would be facilitating the treat. Mr. Manning who briefed Council on the meeting goals and guidelines.

City Manager Campbell then introduced Tom Tveidt, President of SYNEVA Economics, who reviewed with Council the economic and demographic trends. The big view is (1) if it feels busy, it's because it is; (2) the City reins as the center of commercial activity; (3) employment surges, population growth tempers; (4) industrial diversity flourishes; (5) attracting the people other communities only dream about; and (6) but difficult disparities remain-especially in earnings and incomes. The highlights include (1) employment in the City has been steadily growing since 2010; (2) the City's employment growth rate is above the nation and state; (3) lowest City unemployment rate in two decades; (4) in-commuters complete 76% of City employment; (5) 55% of net employment gains in the Asheville Metro have been in the City; (6) 72% of net employment gains in Buncombe County have been in the City; (7) 4 industries have led City employment growth (Accommodations & Food Services 27%, Public Administration 15%, Retail Trade 12% and Health Care 10%); (8) 73% of employment gains have been in industries earning below the state average; (9) minority population have participated positively in the City's employment growth; (10) retail sales collections trend lower; (11) construction permitting holds, with strong commercial activity; (12) the City's population is growth rate is slowing; (13) the City is attracting minority populations; (14) the City's population has a high relative proportion of ages 25 to 29 and is attracting a high proportion of ages 20 to 34; (15) significant income and earnings disparities persist, especially impacting Black households & the well-educated; and (16) the City is home to a high proportion of low & middle-income renting households. Throughout the presentation, Mr. Tveidt answered various questions/comments from Council.

Assistant Finance Director Tony McDowell provided Council with a budget overview which showed (1) uncertain economic outlook; (2) revenue growth will be used up by ongoing operating cost increases; and (3) additional revenue will be needed to fund any new capital and operating investments. Future year items for Council to consider include (1) growing risk of economic recession; (2) revaluation will impact Fiscal Year 2022 revenues; (3) cost of Fire Station 13 coming online; and (4) unknown impact of (a) compensation study implementation; (b) recycling contract; (c) technology; and (d) deferred maintenance. He then reviewed strategic investment requests. Mr. McDowell then gave an update on the 5-year General Fund forecast,

explaining the expense and revenue drivers. Mr. McDowell responded to questions/comments from Council regarding the budget. It was the consensus of Council to add discussion about a property tax relief program and a renter assistance program at the next City Council budget worksession.

City Manager Campbell introduced Ms. Carolyn Flowers, Principal at InfraStrategies, who reviewed in detail the national trends in transit of zero-fare; labor challenges; mobility as a service; bus restructuring; microtransit; and funding options/strategies. Assistant Transportation Director Jessica Morriss then reviewed the Asheville transit planning service who gave an overview of the current system; the Transit Master Plan; the Transit Master Plan background; transit service enhancements; Transit Master Plan strengths; Transit Master Plan challenges; Transit Fund status details; current transit funding status details; and completing the Transit Master Plan. She then reviewed the budget requests for the Fiscal Year 2021 transit budget; along with funding options. The key takeaways are that (1) the industry is changing; (2) system needs to be reliable in order to attract ridership; (3) additional funding sources are needed; and (4) implementation of the Transit Master Plan must be paired with available resources. There was considerable discussion, along with individual Council's thoughts, regarding additional policy review and analysis: (1) update and revise implementation schedule of the Transit Master Plan and better link to funding strategy; and (2) review zero-fare impacts and work with Just Economics and others to look at options. It was the consensus of Council to have staff consider exploring additional funding sources, i.e., Tourism Development Authority; and Buncombe County support. City Manager Campbell, Ms. Flowers and Ms. Morriss responded to various questions/comments from Council regarding transit. City Manager Campbell understood that all elected officials, staff and the community are committed to the implementation of the Transit Master Plan. Per Council's direction staff will bring back options, with pros and cons, that will hopefully address most of the issues identified around transit. It was the consensus of Council to ask staff to explore ways to incorporate $1.1 Million for the expansion of evening hours in next year's budget. Councilwoman Mayfield, Councilman Haynes and Councilman Young's request to incorporate $1.1 Million for extended hours in next year's budget even if a property tax increase is necessary, was not supported by the majority of Council.

City Manager Campbell introduced Jim Fox, Senior Research Analyst, FernLeaf Interactive, who reviewed Asheville's climate resilience assessment. He explained what resilience is and moving from threat to solution. Primary threats to Asheville include (increased flooding, nuisance flooding and landslides due to stronger or more frequent heavy precipitation events; (2) increased risk of water shortage and wildfires due to increasing severity of drought; (3) supply chain interruptions; and (4) increasing temperature variability that leads to extreme heat events. The most social vulnerable areas are families participating in SNAP, and in areas where majority of SNAP retailers could be affected. Impacts to people include food access; and disproportionate impacts to vulnerable populations. Important prioritized strategies that can be implemented on current resources include (1) provide information on assets and threats to Emergency Management; (2) improve communications across departments during hazard events; (3) promote water conservation; (4) enhance response and recovery programs; (5) conduct additional studies as necessary to determine detailed strategies for flood and landslide hazard mitigation; (6) increase use of stormwater and flood control; (7) continue to improve water supply and distribution systems; (8) promote climate resilience concepts and best management practices through public education and communication; (9) develop partnerships to promote green infrastructure strategies; and (10) promote regional partnerships to build resilience. Important, but will require more stakeholders or resources include (1) modify the Unified Development Ordinance as it pertains to steep slopes in accordance with the climate assessment prioritization table; (2) upgrade stormwater infrastructure systems and enhance capacity through green infrastructure utilizing strategies identified in the comprehensive plan; (3) continue to build further capacity into water supply; and (4) prepare and plan for supply chain interruptions through partnerships with appropriate regional entities. Active strategies and previous efforts are (1)

improvements to North Fork Dam; (2) proactive floodplain and slope ordinances; (3) protection of access points on steep slopes; (4) proactive fire programs and codes; (5) partnerships for water supply (Mills River, County); (6) initiatives and studies (tree canopy, Energy Task Force, weatherization); and (6) Emergency Management Planning (Regional Hazard Mitigation Plan). Sustainability Officer Amber Weaver reviewed the Sustainability Management Plan. She then briefed Council on sustainability's accomplishments. She outlined some sustainability challenges such as (1) many new goals adopted since passage of Sustainability Management Plans; (2) while low cost efficiency improvements have been implemented,more costly investments are needed - average building is almost 60 years old; and inadequate funding for reroofing, building envelope and HVAC upgrades; (3) cost to achieve waste reduction goals has grown due to global recycling industry trends; and (4) Capital Improvement Projects funding gap for addressing internal sustainability goals both on energy and resilience. Asheville's sustainability goals (1) Climate Justice Initiative; (2) 100% renewable energy goal; (3) waste reduction goal; (4) community-wide 100% renewable energy goal; and (5) 4% carbon reduction goal. Staff asked for the following Policy review and analysis is to update the Sustainability Management Plan to include: (1) Climate Justice initiatives; (2) a review of adopted resolutions and goals; (3) a review of adopted work plans and time commitments; (4) Ashevile's Climate Resilience Assessment; and (5) a definition of climate equity with Asheville's frontline community members. The key takeaways are (1) lead by example as an organization and lead with equity; (2) investments are needed in capital projects throughout city departments that support sustainability goals; and (3) need collaboration and external partnerships to achieve sustainability goals. City Council then discussed sustainability. City Manager Campbell, Solid Waste Manager Jess Foster, Mr. Fox and Ms. Weaver responded to various questions/comments from Council regarding sustainability. Per Council's direction staff will look at comprehensive recommendations, funding through bonds possibly in November, 2020, and urban forestry and forest master plan.

City Manager Campbell then introduced Marianne Oyaas, The Archer Company, who reviewed with Council an overview of the total compensation study; increasing minimum salary and associated compression issues; market survey information; and recommendations. The market survey initial findings show that (1) on average, the City pay is below market; and (2) additional consultant analysis will provide recommendations for further adjustments in late spring. The takeaway is that (1) Plan $31,200 minimum implementation and address compression in current fiscal year; (2) initial information suggests City is below market; and (3) more information and recommendations will be provided in the consultant's report. Ms. Oyaas and Compensation & Benefits Manager Larisa Lowman responded to various questions/comments from Council regarding the total compensation study. Per Council's direction, staff was directed to implement new minimum in the current fiscal year (May 2020), which will increase salary for 92 employees to $31,200 and address compression impact for 29 employees; and to come back to Council's worksession with the results of the rest of the study.

Mayor Manheimer announced a change to the March 24, 2020, meeting and City Clerk Burleson will send out the information to City Council on Monday.

At 3:34 p.m., Mayor Manheimer adjourned the meeting and announced that City Council will gather later in the evening for dinner.

Magdalen Burleson
City Clerk

Esther E. Manheimer
Mayor

Tuesday – March 24, 2020- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding (participating via speaker phone); Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith (participating via speaker phone); Councilman W. Keith Young (participating via speaker phone); City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Vice-Mayor Wisler led City Council in the Pledge of Allegiance.

ANNOUNCEMENT

Vice-Mayor Wisler thanked the residents for complying with emergency mandates and thanked staff for working hard to keep vital services happening. She hoped the residents will help City staff stay safe by complying with social distancing. She also urged the residents to comply with future edicts and for taking this pandemic seriously. We are trying to balance the need of our community to be safe and healthy with the need to keep government business going. Public comment is welcomed and we will continue to explore ways to get public comment while observing smart interaction.

Vice-Mayor Wisler said that 130 public comments were received for this agenda. Ninety-six of the comments were in support of the Urban Forester and Urban Forest Master Plan. Other comments ranged from the Mayor's additional authority to respond to the COVID-19 pandemic to allowing the public comment word limit be raised from 350 to 450 words. All comments have been provided to City Council and will be attached to these minutes.

She asked our residents to be patient with us and with each other while we all navigate this emergency.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Vice-Mayor Wilser removed Consent Agenda A (1) from the Consent Agenda in order that only the City Council members present to vote on that motion.

A. PROCEDURAL MOTIONS

MOTION TO ALLOW REMOTE PARTICIPATION BY UP TO THREE COUNCIL MEMBERS DURING PUBLIC MEETINGS DURING THE DURATION OF THE LOCALLY DECLARED STATE OF EMERGENCY

This item was removed from the Consent Agenda in order to allow only those City Counci members present to vote on this matter.

MOTION TO DELEGATE TO THE CITY MANAGER THE AUTHORITY TO CANCEL ANY REGULARLY SCHEDULED MEETINGS OF THE CITY COUNCIL DURING THE DURATION OF THE LOCALLY DECLARED STATE OF EMERGENCY

MOTION TO SUSPEND THE CITY COUNCIL RULES REGARDING PUBLIC COMMENT TO RECEIVE ALL PUBLIC COMMENT DURING CITY COUNCIL

MEETINGS DIGITALLY ON ALL ITEMS, INCLUDING INFORMAL DISCUSSION PERIODS; HOWEVER, (1) ANY PUBLIC COMMENT MUST BE SENT IN BY 5:00 P.M. THE DAY BEFORE THE MEETING TO THE GOOGLE FORM OR BY CALLING IN TO 259-590 AND LEAVING A VOICEMAIL; (2) EMAIL MUST HAVE THE SUBJECT MATTER OF THE PUBLIC COMMENT OUTLINED; AND (3) MUST BE NO MORE THAN 350 WORDS

City Clerk Burleson read a comment from the public to raise the word limit from 350 to 450 words.

B. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 10, 2020; AND THE CITY COUNCIL ANNUAL RETREAT MINUTES OF MARCH 13, 2020

C. RESOLUTION NO. 20-54 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO THE EXISTING TRANSIT CONSULTANT CONTRACT WITH INFRASTRATEGIES, LLC.

Action Requested: Adopt a resolution authorizing the City Manager to execute an amendment to the existing Transit Consulting Contract between the City of Asheville and InfraStrategies, LLC.

Background:
- Carolyn Flowers, Managing Principal of InfraStrategies, LLC was retained by the City
- during February 2019 to provide transit operations consulting services for the Transit Division of the Transportation Department.
- The original contract was for $49,000.
- This contract amendment seeks to add $60,000 to the contract, which was already budgeted in the Fiscal Year (FY) 2020 Transit Operations Budget.

Vendor Outreach Efforts:
- N/A - this is a current contract.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- N/A

Pro(s):
- This action will continue to support implementation of the 2018 Transit Master Plan by providing additional technical and professional support to City staff.

Con(s):
- Funding is currently budgeted in the FY 2020 budget.

Fiscal Impact:
- Funding for this contract amendment was approved by the City Council as part of the FY 2020 budget process and is currently included in the Transit Operations budget.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute an amendment to the existing Transit Consulting Contract between the City of Asheville and InfraStrategies, LLC (Carolyn Flowers).

RESOLUTION BOOK NO. 41 - PAGE 260

D. RESOLUTION NO. 20-55 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT WITH KIMLEY-HORN & ASSOCIATES TO PERFORM ENGINEERING SERVICES FOR THE NEIGHBORHOOD ENHANCEMENT PROJECTS AREA 7

Action Requested: Adopt a resolution authorizing the City Manager to sign a contract with Kimley-Horn & Associates for engineering services in the amount of $828,800 for the Neighborhood Enhancement Projects Area 7. Funds from the City of Asheville Water Resources Department Capital Improvement Project budget are available for this project.

Background:

- The Water Resources Department has prioritized this waterline replacement project for the current fiscal year and is seeking engineering design and project management assistance for this project.
- The project will replace approximately 24,500 linear feet of existing substandard and failing water lines with predominantly 6-inch and 8-inch water lines and appurtenances designed and constructed in accordance with the City of Asheville standards.
- The water lines prioritized for replacement as part of the Neighborhood Enhancement Projects Area 7 are within and along the following various neighborhoods and streets: Beacon Village area, Rainbow Ridge area, Barnard Avenue, Sevier Street, Hill Street, Joyner Avenue, Pearson Bridge, and Thompson Street.

Vendor Outreach Efforts:

- Through a qualifications based selection process beginning in August 2014, the City of Asheville selected four consulting firms to provide on-call professional services for Water Distribution and Storage Projects.
- Kimley-Horn & Associates was one of the selected firms due to their expertise in areas of water distribution projects, water system analysis, and project development.
- The City of Asheville entered into a master agreement with Kimley-Horn & Associates on May 11, 2015 for on-call professional services for Water Distribution and Storage Projects. The agreement had a three year term with the option to renew for two additional years. Then on April 19, 2018, the City of Asheville executed a renewal master agreement with Kimley-Horn for the additional two years of on-call professional services.
- If approved, the proposed engineering services will be developed into a subcontract under the conditions of the master agreement.
- City of Asheville Water Resources staff determined that utilizing the on-call professional services for Water Distribution and Storage Projects was the best method to deliver this project and Kimley-Horn & Associates was specifically qualified to provide the required engineering services.
- No other vendor outreach was performed.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None.

Pro(s):

- This project is aligned with the City and the Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects in order to provide safe and reliable service.
- Kimley-Horn & Associates has successfully provided engineering services for other water system improvement projects. Their experience with our water system and expertise in water distribution projects will lead to a successful project with lesser negative impacts to customers and the City's water system.

Con(s):

- Failure to award an engineering services contract would prevent the Water Resources Department from completing the Neighborhood Enhancement Project in a timely manner and delay the replacement of the existing aging water system.

Fiscal Impact:

- The funding needed for the professional services agreement is currently allocated within the Water Resources Capital Improvements Project Fund.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a professional services contract with Kimley-Horn & Associates to provide engineering design services for a waterline replacement project known as Neighborhood Enhancement Projects Area 7 for an amount not to exceed $828,800.

RESOLUTION BOOK NO. 41 - PAGE 261

F. RESOLUTION NO. 20-56 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A GRANT APPLICATION TO THE FEDERAL TRANSIT ADMINISTRATION FOR THE FISCAL YEAR 2020 SECTION 5339 (b) BUSES AND BUS FACILITIES DISCRETIONARY GRANT FUNDS PROGRAM, AND IF SUCCESSFUL, TO ACCEPT THE GRANT FUNDS AND SIGN ALL THE APPROPRIATE AGREEMENTS WITH THE FEDERAL TRANSIT ADMINISTRATION, FEDERAL AND STATE AGENCIES

Action Requested: Adoption of a resolution authorizing the City Manager to submit a grant application to the Federal Transit Administration (FTA) for the FY 2020 Section 5339(b) Bus and Bus Facilities Discretionary Grant Funds Program, and if successful, to accept the grant funds and sign all the appropriate agreements with the FTA, Federal and State agencies. This grant program is a competitive program and receipt of funds is not guaranteed.

Background:

- In January 2020, the Federal Transit Administration published Notice of Funding Opportunity for the FY 2020 Section 5339(b) Buses and Bus Facilities discretionary grant program.
- The grant is competitive and discretionary, whereby the FTA solicits project proposals from applicants, and awards funding to successful applicants for eligible capital projects through a competitive process.
- The Buses and Bus Facilities Funding program can be used for the purchase or lease of buses, related equipment, as well as to rehabilitate, construct or lease bus-related facilities. Funds awarded for both grants may include incidental costs related to acquiring buses, construction of facilities and infrastructure, workforce development and training activities, and project administration.
- The City plans to submit an application in the amount of $1,250,000 to continue the City's bus stop improvement program. The funding will be used to provide curb-ramp improvements, sidewalk connections, shelters, seating, solar lighting, and digital signage at bus stops with the top 15% ridership, as well as locations serving vulnerable populations, such as the Veterans Restoration Quarters, Mission Hospital, the Veterans Administration Hospital, public housing locations, etc.
- The application deadline for the Buses and Bus Facilities grant is March 30, 2020.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None (Finance & Human Resources cancelled)

Pro(s):

- Project funding will enable the City of Asheville to use federal funds to help fund additional high-priority bus stop improvements.

Con(s):

- The match for the Buses and Bus Facilities grant is 20%, however improvements related to ADA and facilities have only a 10% match, which a significant portion of the grant will likely qualify for. The maximum match amount assuming a 20% match would be $250,000, and assuming a 10% match would be $125,000.

Fiscal Impact:

- The local match is included in the Transit Capital Projects Fund budget.

Motion:

- Motion to approve a resolution authorizing the City Manager to submit a grant application to the Federal Transit Administration (FTA) for the FY 2020 Section 5339(b) Buses and Bus Facilities Grant in the amount of $1,250,000 and if successful, to accept the grant funds and sign all the appropriate agreements with the FTA, Federal, and/or State agencies.

RESOLUTION BOOK NO. 41 - PAGE 262

G. ORDINANCE NO. 4795 - ORDINANCE DELEGATING ADDITIONAL AUTHORITY TO THE MAYOR TO ISSUE REGULATIOSN BY PROCLAMATION AS NECESSARY TO RESPOND TO THE COVID-19 PANDEMIC

Action Requested: Adoption of an ordinance delegating to the Mayor of the City of Asheville the authority to regulate by proclamation any activities or conditions the control of which may be reasonably necessary to maintain order and protect lives or property during the state of emergency that has been declared in relation to the spread of COVID-19.

Background:

- N.C. Gen. Stat. § 166A-19.31(b) authorizes municipalities to adopt five categories of regulations in times of a declared state of emergency.
- Pursuant to N.C. Gen. Stat. § 166A-19.31(a), the Asheville City Council has delegated portions of its authority to enact emergency regulations to the Mayor, through its adoption of Section 2-2 of the City Code of Ordinances.
- As written, Section 2-2 of the City Code does not authorize the Mayor to issue by proclamation regulations pursuant to N.C. Gen. Stat. § 166A-19.31(b)(5), which broadly allows municipalities to regulate any activities or conditions the control of which may be reasonably necessary to maintain order and protect lives or property during a state of emergency.
- Given the need to be able to respond quickly to the threats posed by the novel corona virus known as COVID-19, it is desirable to allow the Mayor to issue all regulations needed to address the outbreak via proclamation.

Council Goal(s):

- Well Planned and Livable Community

Committee(s):

- None

Pro(s):

- Will allow the Mayor to regulate by proclamation any activities or conditions the control of which may be reasonably necessary to maintain order and protect lives or property during the state of emergency that has been declared in relation to the spread of COVID-19

Con(s):

- None

Fiscal Impact:

- None

Motion:

- Motion to adopt an ordinance delegating to the Mayor of the City of Asheville the authority to regulate by proclamation any activities or conditions the control of which may be reasonably necessary to maintain order

and protect lives or property during the state of emergency that has been declared in relation to the spread of COVID-19.

City Clerk Burleson said there were nine public comments regarding the Mayor's additional authority during the COVID-19 pandemic.

ORDINANCE BOOK NO. 33 - PAGE 58

H. RESOLUTION NO. 20-57 - RESOLUTION REGARDING THE N.C. DEPT. OF TRANSPORTATION I-26 CONNECTOR TIP PROJECT I-2513

Summary: Councilwoman Mayfield presented this resolution which will serve as City Council's comment on the final Environmental Impact Statement for I-26. Staff will be preparing a more technical letter. The following is the a portion of the resolution: "NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: (1) The City of Asheville calls on NC DOT to continue collaborating with the I-26 Working Group to develop improved designs for the east side of the Patton Avenue Corridor and the Jeff Bowen Bridge and incorporate those into the Record of Decision or the Request for Proposals; and (2) The City of Asheville further calls on NC DOT and its future design-build contractor to further reduce the size and impact of the project by: (a) tightening the footprint of all urban intersections throughout the project corridor, specifically including the Haywood Road interchange; (b) reducing the number of lanes on the new I-26 bridge over the river and continuing north to the Broadway exit; (c) reducing the height and radius of the I-240 flyover bridges; and (d) reducing the visual and auditory impacts on Riverside Cemetery and the adjacent Montford neighborhood; and (3) The City of Asheville further calls on NCDOT, with regard to the Request for Proposals and Aesthetic Recommendations, that: (a) NCDOT evaluate the design team qualifications, not only for multi-disciplinary representation to include urban planning, bridge design, structural engineering and landscape architecture, but also for demonstrated experience implementing creative transportation solutions that are contextually sensitive to both the natural environment and the urban character of a scenic destination city such as Asheville; (b) Substantial weight be assigned in RFP evaluation criteria to the qualifications of the responder's design team as described above; (c) NCDOT include in its RFP an Aesthetics Scope of Work ("ASW") reflecting the Aesthetics Recommendations; (d) NCDOT include the City in the RFP development and revision process; (e) the proposals submitted be evaluated on the degree to which they achieve the goals and objectives of the ASW and any additional improvements and betterments; and (f) the City be allowed to review and comment on the responses to the RFP; and (4) The City further calls on NCDOT and the design-build contractor to consider any new land use, greenway, or other plans or design proposals developed after the Record of Decision is signed that impact or relate to the project; and (5) The City further calls on NCDOT and the design-build contractor to utilize local businesses and residents to the greatest degree possible in the construction of the project; and (6) The City of Asheville further calls on NCDOT to work together to determine a suitable use for land underneath new bridges in the project so that land is put to use for the benefit of Asheville residents; and (7) The City of Asheville further calls on NCDOT to support the City's acquisition of available right of way in the Patton Avenue Corridor in a "development-ready" state to further the redevelopment of that corridor as envisioned by the City; and (8) The City of Asheville be considered a key partner with NCDOT and the design-build contractor and that NCDOT consult with the City during the contract period on all aesthetic and design modifications, giving full consideration to the City's views.

Councilwoman Mayfield thanked the NCDOT for their close collaboration over the last 4 years on this project. We have improved this project immeaurably and appreciate the efforts and resources that the NCDOT in Raleigh and the local division have put forth in making this a better project. She said that the City will be a critical key partner in this project.

City Clerk Burleson read five public comments regarding the I-26 Connector.

RESOLUTION BOOK NO. 41 - PAGE 263

Vice-Mayor Wisler said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA

MOTION TO ALLOW REMOTE PARTICIPATION BY UP TO THREE COUNCIL MEMBERS DURING PUBLIC MEETINGS DURING THE DURATION OF THE LOCALLY DECLARED STATE OF EMERGENCY

Vice-Mayor Wisler moved to allow remote participation by up to three Council members during public meetings during the duration of the locally declared state of emergency. This motion was seconded by Councilwoman Mayfield and carried unanimously by those present (Vice-Mayor Wisler, Councilman Haynes, Councilman Kapoor and Councilwoman Mayfield.)

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

City Clerk Burleson read a comment that thar ked Council for preserving good governance in this time by postpoining hearings on the controversial Collier Avenue Land Use Incentive Grant and the still-depated open space amendment. Both should wait until in person public comment and board/commission meetings can safely be restored, since they are not dependent on external deadlines.

A. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR TRIBUTE DEVELOPMENT COLLIER AVENUE APARTMENTS

Councilman Kapoor moved to continue the public hearing to consider a Land Use Incentive Grant for Tribute Development, Collier Avenue Apartments, until April 14, 2020. This motion was seconded by Councilman Haynes and carried unanimously.

B. PUBLIC HEARING CONSIDER ADOPTION OF AN ORDINANCE DESIGNATING THE PROPERTY KNOWN AS THE LEWIE MULLER GRIFFITH HOUSE, LOCATED AT 65 WOODLAND ROAD, AS A LOCAL HISTORIC LANDMARK

Councilman Kapoor moved to continue the public hearing on adoption of an ordinance designating the property known as the Lewiw Muller Griffith House, located at 65 Woodland Road, as a local historic landmark until April 14, 2020. This motion was seconded by Councilman Haynesand carried unanimously.

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OPEN SPACE REQUIREMENTS

Councilman Kapoor moved to continue the public hearing amending the Unified Development Ordinance to update open space requirements until April 14, 2020. This motion was seconded by Councilman Haynes and carried unanimously.

V. UNFINISHED BUSINESS:

A. SECOND READING OF ORDINANCE NO. 4794 - ORDINANCE TO AMEND THE PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4602) FOR THE RAD LOFTS PROJECT LOCATED AT 146 AND 179 ROBERTS STREET TO REVISE CONDITIONS RELATED TO AFFORDABILITY

Vice-Mayor Wisler said that the public hearing regarding Ordinance No. 4794 was conducted on March 10, 2020, and no public comment will be taken at this second and final reading.

Councilman Young moved to continue the second and final reading of Ordinance No. 4794 until April 14, 2020. This motion was seconded by Councilwoman Smith and failed on a 2-5 vote, with Councilwoman Smith and Councilman Young voting "yes" and Mayor Manheimer, Vice-Mayor Wisler, Councilman Haynes, Councilman Kapoor and Councilwoman Mayfield voting "no."

Councilwoman Mayfield moved to adopt Ordinance No. 4794. This motion was seconded by Councilman Kappor and carried on a 4-3 vote, with Councilman Haynes, Councilwoman Smith and Councilman Young voting "no."

ORDINANCE BOOK NO. 41 - PAGE 46

VI. NEW BUSINESS:

A. ONE BUNCOMBE FUND

Community & Economic Development Director Sam Powers said that this is the consideration of participation in the One Buncombe Fund; set date of April 14, 2020, for public hearing for participating in One Buncombe Fund.

Background:

- In response to the COVID-19 crisis, our local governments in Buncombe County, business community and other stakeholders are coming together to create a single point of donations to help individuals and businesses impacted by COVID-19.
- This effort will be branded as the "One Buncombe" campaign. A donation page will be hosted by Buncombe County with funds deposited to the Buncombe County Service Fund (BCSF), which is an existing Non Profit organization created by Buncombe County.
- Funds placed into the BCSF will be managed by a seven person board, which will include members of local governments including the City of Asheville, businesses, and philanthropic organizations. Funds will be used for individuals and small businesses that have been impacted by COVID-19.
- *Funds for individuals* who have lost employment due to COVID-19 will be delivered via the Buncombe County Health and Human Services (HHS) existing General Assistance (GA) program.
- Funds will be used for life essential needs caused by the COVID-19 public health crisis, such as utility bills, deposits, fuel oil, kerosene, natural gas, propane, wood, mortgages, etc.
- Funds will be paid to the service providers, not directly to individuals. Individuals will be screened and referred to other HHS programs as needed.
- *Funds for small businesses* impacted by COVID-19 will be provided through loans of up to $10,000 with an initial 6-month period of no payments of any kind.
- Interest will accrue at 5.5% during that period, but this is not paid, and rolls up into the loan at the end of the 6-month period.
- Loans will be designed to provide low cost "bridge funding" to help businesses stay open and limit job losses until businesses can apply for longer term disaster funding from SBA or other sources. The BCSF will contract with a third party to administer this business program.
- The City Attorney has advised that this initiative meets the Economic Development requirements or the Community Development requirements in North Carolina. A public hearing is required as per N.C. Gen. Stat. 158-7.1.
- Both individuals and businesses will be encouraged to donate.

Council Goal(s):

- Financially Resilient City
- Equitable and Diverse Community
- Thriving Local Economy

Committee(s):

- None.

Pro(s):

- Provides immediate disaster assistance from a centralized fund, administered by existing experienced program management agencies.
- Supports both individuals and business community members in Asheville.

Con(s):

- The magnitude of this crisis may require additional resources, and the City is limited in the funding available.

Fiscal Impact:

- This economic development appropriation is not in the current adopted budget.
- The appropriation of $100,000 would come from the City Fund Balance.
- A budget amendment would be required and would be considered at the April 14, 2020, meeting along with the public hearing.

In response to Councilwoman Mayfield, Mr. Powers said that the Board of Directors is being built but will include local government, banking, business and philantrophic community. As the committees evolve, there will be opportunities for involvement.

Councilwoman Mayfield appreciated the leadership of the City, County and the Buncombe County Service Foundation, also with the other organizations that have come together.

In response to Councilman Kapoor, Mr. Powers said that if the Program can get the fund established with a base amount, their goal is to start receiving applications.

When Councilwoman Smith asked if the program will include grant assistance, Mr. Powers said that the Buncombe County Health & Human Resources will screen applicants to ensure all other potential sources are exhausted.

Councilman Kapoor moved to direct staff to advance the concept of the City of Asheville's participation in the Buncombe County Service Foundation (BCSF) One Buncombe Fund; to consider an appropriation of $100,000 from City Fund Balance; and to set the public hearing for consideration of the economic development appropriation to the BCSF One Buncombe Fund for April 14, 2020. This motion was seconded by Councilman Haynes and carried unanimously.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

City Clerk Burleson reiterated that 96 public comments received were in support of the Urban Forester and Urban Forest Master Plan.

Councilman Kapoor encouraged citizens to sign up for alerts from Buncombe County or check the County's website regularly as things change very quickly.

Councilman Young urged City Council to consider funding for Pisgah Legal Services; and allocating bond money to the Housing Trust Fund for an emergency eviction program and rental assistance program.

VIII. ADJOURNMENT:

Vice-Mayor Wisler adjourned the meeting at 5:40 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Public Comments via Phone - March 24, 2020

Danielle Martin:
Hi, my name is Danielle Martin. I live in the city of Asheville. I'm calling about Agenda Five A, which shouldn't even be considered right now, considering where we are in this city with the coronavirus and still not being able to have affordable housing. More housing going up that people can't afford makes absolutely no sense.

Speaker 1:
Hi, I'm a resident of Asheville and I'm making an informal or public comment for informal discussion regarding the need for an urban forest in Asheville. There's been numerous studies to show the rate of the loss of the tree canopy in Asheville, and that it is getting worse each year. So what I'm asking right now is that the city put funds for an urban forester who can address the problems before we lose the beauty of the city, which is such an important part of what attracts people to come to Asheville.

So if you'll consider funds for an urban forester or someone who can specifically work on this job, that would be wonderful. Thank you. Bye.

Helen:
My name is Helen Rae Charbonneau, H-E-L-E-N R-A-E C-H-A-R-B-O-N-N-E-A-U. (864)-884-9146. I'm a lifelong resident of Asheville, North Carolina, and I would be very interested in seeing in our city hire an Urban Forester to preserve and protect the trees that we have now and to plant more trees just about everywhere we can, because I'd like Asheville to be known as a cool green city. Thank you very much. Bye-bye. Oh, I live in Fairview, North Carolina. Thank you. Bye.

Jared Leno:
Hi, my name is Jared Leno. I'm a resident of Asheville and I am calling because of my concern for the urban forest of Asheville. A recent climate symposium in Asheville's urban tree canopy study revealed that not only is Asheville losing our tree canopy at the unsustainable rate of almost 70% over the last 10 years, but we have lost more than that in our underserved neighborhoods that were redlined in the past. This is not fair, and the time is now to correct this for all of Asheville. And we asked you to address this last year, but no meaningful steps have been taken. No city steps adequately deal with this problem without professional guidance and how you manage urban forests. Put funds for an urban forest serve in a plan to address these problems in the city budget for the coming year. You have been asked for this before. Now is the time to do the right thing for Asheville. Thank you very much.

Amy Cantrell:
Hi, this is Reverend Amy Cantrell. I am wishing to make a public comment on unfinished business, letter A, the [Radloff 00:00:12] Project, and to ask that council ensure that gentrification in our traditionally, historically black neighborhood of Southside is not happening and that people are not being pushed out, particularly our African-American community who have lived there historically for decades and decades, that that community has been decimated enough. And we need to be really clear about the results of urban renewal and to ensure that we're not perpetuating urban renewal 2.0 via projects like the Radloff. And so I hope that council will pay attention to that in terms of their votes on this project

and what they're seeing in terms of this project and that there might be some guarantees put into place for residents in that neighborhood that would help stem the tide of gentrification. Thank you so much.

Susan Sertain:
Hello. My name is Susan Sertain. That's S-U-S-A-N S-E-R-T-A-I-N, and I am commenting, I'm in the public comment section of the agenda, and I've lived in Nashville for over 20 years. I just want to say that being keenly aware of the loss of our urban forest and the tree canopy, I feel that I need to make some statements regarding the decision that was made to not include the urban forester in the master plan on the budget again this year.

I know that there have been plenty of letters to the editor about it and I know at our climate symposium that we had last year, there were many of you there and we came highly aware of the dilemma that we're in that's even created, it's made more difficult by this climate crisis that we're in. With the development and the gentrification that's happening, it's making our neighborhoods that are suffering already even more endangered, because trees are being cut, the heat island is getting hotter because of the loss of trees as well as the climate, and there's going to be some terrible results as far as health and the mental health and physical health of our lower income communities as well as ourselves.

We need the trees for our sanity just for the calming nature. Scientists have proved that this is a fact. We know that our children deserve so much more than our disregard for the trees. And I'm thinking mostly about the mature trees. I know that we feel like it's okay to cut down the mature trees because we know we're going to plant young trees or Collamer trees. But if we think about it, we know that that is absolutely not going to be a good replacement for those trees, those mature trees. It takes over 50 years for them to really be able to do a good job for us with the water sequestering, the oxygen, the air, cleaning the air.

There's so much that the trees do for us, the mature trees do for us. I know we're in the middle of a pandemic. I know it's going madly on its way and we don't have a way to stop it, it seems. And I wonder if, because we've cut so many trees all over the globe, have we messed up ecosystems that could have caused the planet to have a ... be healthy enough to be able to handle it within ourself.

I know that there was a decision to hold back on the urban forester, but an urban forester is someone who is professional, a degreed staff member who does far more than what a city arborist can fit into their day. Our city arborist is completely overworked. And when we think about these new ordinances, which I do appreciate there being updates going in there, especially that you'll even be voting on. I don't think it's official yet. But anyway, it's being considered, and I am very grateful of that being involved with the Treasure Tree program here in Asheville.

Knowing that these trees need to be protected, and I'm very grateful for that, but I know that if we don't do something ... If we think that we can take care of these ordinances, the new ordinance that might be put in place with just in-house procedures going through different staff members that are already in place, we'll soon find ... I believe that you will soon find that that person is also overworked.

And the same things that are happening now where developers can get policies passed because people are not trained, there's not a systematic guideline that needs to be in place that an urban forester can do, that can also monitor whether this has been followed, can fine people who ignore it, who think they can get away with it, or even who didn't know, it's an opportunity for them to be trained.

I think that it's just going to be a situation that we're still remaining in, that we're in now, we will remain in it, because we're trying to take care of something that is so much bigger than us, with just dealing with it in-house. It's just, I don't believe it's going to work. And I really, I'm asking you to reconsider, to really think about putting that in place, that

person in place, that plan in place, so that we can have the Asheville that we want to be proud of and that we know is a healthy place to live.

Thank you for considering this, for reconsidering this, and I hope that you make a decision that heads us in that direction. Thank you.

Susan Loftis:
Hi, this is Susan Loftis. I'm a planner who lives in Asheville and I'm working on the aesthetics committee and have been as the liaison to NCDOT for the committee. And I am commenting on the resolution for this for tomorrow evening concerning the I-26 corridor. And my name, again, is L-O-F like Frank, T like Tom, I, S like Sam.

My general comment on the resolution is that we need to clarify that the current configuration of the [4B 00:00:41] river crossings is not consistent with the intent of the Asheville design center. And the designers who originally came up with that content, who originally came up with that concept, are of the opinion that it is not recognizable in its current state and it needs to be redesigned.

My second comment has to do with urban forestry. We need an urban forest canopy plan, and we need an urban forester. And I am advocating that we prioritize the allocation of funds for the urban forest, urban forester position as soon as possible. Thanks again, Susan Loftis. (404) 545-4815. Thank you.

Alison Ormsby:
Hello, my name is Alison [Ormsby 00:00:00]. I'm a resident of Asheville. I'm calling you to leave a message about the item, informal discussion and public comment, Sub item A and I just wanted to say that I really support the proposal for an urban forester and urban forest master plan.

It is really shocking how much canopy cover we've lost and it's really making our city not climate resilient. As a tree city, we should really live up to that designation. So please put funds for an urban forester and an urban forest plan in the city budget. This is something that is important to all residents and it's important to the future of Asheville.

Thank you very much. Bye.

Tamara:
Hello, my name is Tamara Trexler and I am a resident at Asheville. I live right here on Broadway downtown and I am calling in regards to... I am in support of funding for the proposed Urban Forester and Comprehensive Urban Forest Master Plan and this year's budget and the Tree Protection Task Force. I'm very concerned about the developments within the city and on the outskirts where things are just rapidly being denuded. Trees just are being trashed and clear cut, and just want to make sure that this was paid attention to. And I think an Urban Forester and a Master Plan and funding for that is a good way to make sure that that's being monitored and redeveloped. As things change, we're going to need to redevelop and making sure that it's animal friendly as well. There's not just people that live in the cities.

There are critters and we enjoy our critters. We are a mountain city and we are not Charlotte and we are not Orlando and we are not Raleigh. We want to keep Asheville mountainous and beautiful with fresh green spaces and air and home for critters and birds and keep things that are native and sustainable, not just mass produced bulk trees that don't add to the environment. There's so many issues and it just really makes sense. If we're going to spend money on

putting up trees and protecting them, we need to have somebody in charge who knows what they're doing. So we need to address this problem and solve it. Thank you.

Jo Ellen Wade:
Hey there. My name is Jo Ellen Wade, W-A-D-E, and I live in Candler, North Carolina. I'm calling to make a comment for the city council about my serious concerns that we need an urban forest and an urban Forester and an urban forest master plan. Trees are critical to our environment and the city and county could do well to have many more of them. They filter the air that we breathe and they are critical to maintaining the health of our environment. More trees, more trees, more trees, and we need an urban forest master plan and a professional to guide us in developing that master plan. And not to mention that more trees are very welcoming to our critically needed tourists. Thank you very much, bye-bye.

Florrie Funk:
Hi, my name is Florrie Funk. That's F-L-O-R-R-I-E F-U-N-K. I live in Asheville and I'm calling for, this is for informal discussion. I'd like to leave a comment for the City Council meeting. My comment is, Asheville needs an urban forestry master plan and a knowledgeable urban forester to manage it. It is urgent to maintain and increase our tree canopy in the city of Asheville with native species trees. We are losing our canopy at a dramatic rate, and this is something that needs to be addressed immediately. We need an urban forestry master plan and an urban forester. Thank you very much.

Susan Smith:
Hi, this is Susan Smith. My number is (828)-230-2500. was calling because I wanted to make a comment for the city council meeting that I believe we should set up funding for the Urban Forester and the Comprehensive Urban Forest Master Plan and this year's budget and would love to see that done. Please make note. I appreciate it. Thank you. Bye.

Speaker 1:
Yes, my name's Nancy Cromer, N-A-N-C-Y Cromer, C-R-O-M-E-R, and I live in Nashville. And this is a comment for informal discussion. And my comment was about, I know that there was some talk and a couple of the council people were promoting a tax increase this year. You never know if it's still under consideration, but I just wanted to say under the current circumstances, you've got a lot of old people living in Asheville on fixed incomes. Those incomes are being decimated by the current financial situation. You have people losing their jobs because we're very much a service economy. And so I just think it's wise to put off any consideration of a property tax increase until this all settles out and until Asheville's economy, which is taking a hit, rebounds. I think it's reckless, reckless to consider a tax increase at this time. Thank you. Bye.

Dixie Deerman:
I'm Dixie Deerman, D-I-X-I-E D-E-E-R-M-A-N, also known as lady passion, a long time Asheville resident and activist. I asked council to respond to NASA data and allocate funds to hire an urban forester and include community generated plans to preserve Asheville's decimated tree canopy in the city's master plan.
Please add my comments and desires to the official minutes of the upcoming city council meeting. You may contact me at 251-0343. I live at 113 Clinton Avenue in West Asheville. Thank you.

Carol Diamond:
Hi. My name is Carol Diamond. That's D-I-A-M-O-N-D. I'm a resident of Candler, and I'm calling about the Asheville Urban Forester position, and the comprehensive urban forest master plan in this year's budget. I would very much like to see that happen. Trees give us so many benefits. I would like to see some of our money spent on that. Thank you.

Veneet Allen:
Hi, this is Veneet Allen. I'm a resident of Asheville and I'm calling because I'm very concerned about the urban forest in Asheville. We're losing our canopy at the rate of about 7% over the last seven, 10 years. And it's just not sustainable and it's creating a lot more heat in the area. So I strongly urge you to hire an urban forester and to come up with a strategic plan for managing the urban forest here. So please do that. Thank you. Bye bye.

Marcia Schroeder:
Hello. I'm Marcia Schroeder, M-A-R-C-I-A, S-C-H-R-O-E-D-E-R and I'm a resident of Asheville and I'm calling because of my concern for the urban forest in Asheville.

I understand that we've lost almost 7% of the urban forest in the past 10 years. I also understand that we have currently no professional guidance on how to manage our urban forest and protect it. I am asking to be put under the informal discussion and public comment on your agenda and I'm asking for you to approve funds for an urban forester to come up with a plan for these problems and add this to our city budget.

I think it's the right thing for Asheville and I think it's extremely important.

My number is (828) 277-1009 if you have any questions. Thank you.

Kristen McCloud Johnson:
Hi, my name is Kristen McCloud Johnson. I'm calling from Asheville. I live here in 28805. And I am calling to comment about the proposal for the urban forester and the comprehensive urban forest master plan. I definitely want that put into this year's budget. I feel like that is a critical issue for our city. We need as many trees as possible for the health of the city as a whole, and also the health of the people in the city. That is what makes Asheville beautiful. The urban canopy is very important to keeping the air clean. It beautifies the city. It's beneficial to humans, animals, the Earth as a whole. Anything we can do to promote more trees in our city and keeping our beautiful city green and as healthy as possible.

So I would like that to go into the budget. That is my comment. And I thank you so much for hearing it. I think it's important that we have an urban tree canopy in Asheville. And I want that to be put into our budget so we have people in place that can help make that a reality. Thank you so much. And I don't know if you need my phone number but it's 828-424-7727. And again, my name is Kristen McCloud Johnson. Thank you so much. Bye-bye.

Dawn Chavez:
This is Dawn Chavez, D-A-W-N C-H-A-V-E-Z, and I am an Asheville city resident. I am calling for public comments. I'd like to comment on the need for the city to include in this year's budget, this upcoming year's budget, funding for an urban forester and an urban forest master plan. As is without including these two items in the budget, our urban forest, which has already lost almost six and a half percent of it's urban tree canopy, will lose even more. This is even in spite

of the new proposed tree ordinance to protect trees from sites that are under development. The city does not have the capacity at the moment without an urban forester to adequately enforce this new ordinance, nor will it have the capacity to plan for the future of its urban forest. Thank you for including my comments this evening.

Public Comment via Google Form - March 24, 2020

3/21/2020 20:44:29	Consent Agenda	F	Consent Agenda Item F needs to be approved, I just pray the mayor uses these new powers with even greater skill and her ethical example of emergency power is good enough to be recognized and replicated. Most leaders need to do those things right now. With examples like Trump and Sen. Burr, we are seeing there are plenty of low quality leaders out there. I basically trust our mayor 10X more than Trump or people like Burr. We need to pray the leaders we need now are much more the case than the frequent failings that do make the news. Item F should also be about mitigating crisis stressors which lead to poor citizen morale. Morale needs to be part of what the local COVID 19 response and recovery is about, as well as modeling for the state and national level. For example we are going in with things like a noise ordinance that still forces citizens to use the ludicrous COA Noise Ordinance Appeals Board process. People staying as serene as possible and not being nuisances is actually a big behavioral thing if this crisis lasts as long as it might. Use these powers wisely. Feel free to direct APD to maintain order in an effective and just manner. The noise ordinance is just an example of all the policy and resource issues we are starting out with that may soon seem impossible to work with in past ways. A) There will likely be no Noise Ordinance Appeals Board meetings for a while. B) In any case, who would be able to add going through the Noise Ordinance Appeals Board in order to keep our community in some sort of state of wellness as COVID 19 unfolds? Noise isn't going to be our only challenge. But more noise is part of a bad crisis endurance outlook. Next is thinking of continuity in as just and as effective a manner as possible in a low resource environment. Asheville noise pollution was not taken seriously. Recognizing and working with noise includes a new outlook.	Grant Millin (2nd attempt)

3/22/2020 11:13:48	Informal Discussion & Public Comment	Other	Aside from seeking more testing and personal protective equipment, how is the City collaborating with the County and State to implement Coronavirus strategies that appear to have been effective in Asia? The following two seem particularly important in addition to what is already being done: * Separation of COVID-19 patients from other patients in different wings of hospitals or designation of entire hospitals for COVID-19 treatments only; * Establishment of facilities where those who test positive for COVID-19, but are not critically ill, can be isolated from the non-positive public, including their families, e.g., now empty or much-less-used school buildings, churches, hotels, etc.?	Imke Durre, imke.durre@gmail.com
3/23/2020 9:23:25	New Business	Other	Why are not city essential personnel getting compensated like other surrounding county/city utilities? such as double time, time and a half, time off, or something. Coming out to risk a higher chance of getting infected that could come back to there families is a real risk. If the city cares like they say whats being done about this. I understand that there are people being re-purposed which is awesome but what about the others that get to stay home and get paid how is that fair to the essential personnel?	Dustin Hickman
3/23/2020 10:35:54	Informal Discussion & Public Comment	Other	Earlier this month Mayor Manheimer, Buncombe Board of Commissioners Chairman Brownie Newman, and a representative from the Asheville Buncombe Hotel Association made an announcement at a CIBO meeting that they'd almost reached a deal on reforms to the occupancy tax to propose to the state legislature for the upcoming short session. Since then, Newman scheduled public comment on these reforms, which was canceled due to COVID-19. He also shared his stance at a commissioner meeting and via Facebook. In contrast, the Mayor and council have been noticeably silent outside of that announcement. City residents deserve the chance to give input before a proposal is sent to Raleigh. We are opposed to a process that includes negotiating with a brand new hotel lobbying group, but does not include public comment on the specifics being agreed on with them. I understand that the Mayor feels we must propose reforms which fit within the legislation as it stands, and that	Ami Worthen

			are amenable with hoteliers who have significant pull with our legislators. This will not get the results we need. This moment has brought to light the inherent un-sustainability of tourism. It is exposing the low wages and lack of benefits for workers. It is showing us that hotel-driven over-tourism has led to a proliferation of businesses reliant on out-of-town visitors, rather than resilient local economies. This crisis makes the need for an overhaul of the occupancy tax all the more apparent. If insufficient reforms are proposed and passed, we could be stuck with them for years. If getting what we want is not possible at this time, the commissioners can repeal the occupancy tax until we can.	
3/23/2020 12:39:52	Public Hearings	A	I am deeply concerned for the urban forests in Asheville. The recent Climate Symposium and Asheville's Urban Tree Canopy Study revealed that Asheville losing our tree canopy at the unsustainable rate of almost 7% in the last 10 years. In addition, we have lost more of it in our underserved neighborhoods that were red lined in the past. This is not fair, and the time is NOW to correct this for all of Asheville. You were asked to address this last year, but no meaningful steps have been taken. NO city staff can adequately deal with this problem without professional guidance in how to manage an urban forest. Put funds for an Urban Forester and a plan to address these problems into the city budget for the coming year. You have been asked for this before - Now is the time to do the right thing for Asheville.	Ursula Murphy ursulam@gmail.com
3/23/2020 12:42:32	Informal Discussion & Public Comment	Other	We need to increase the number of trees in Asheville. Trees are great for tourism! Who wants to come to the mountains and see pavement and buildings? Tourists with lots of $ to spend need shade to rest their sore feet after pub crawling. Thanks for your considering my statement. I appreciate all you do, Sincerely, Naomi Palmer	Naomi Palmer 828 484 1059 twigmother@yahoo.com

3/23/2020 12:45:57	Informal Discussion & Public Comment	Other	As a resident of Asheville, we are aware of the loss of our urban forest and tree canopy. WE need trees in Asheville. Our children deserve a better future than this. Trees are a key component in fighting the negative effects of climate change. Yes, we are facing an unknown pandemic; meanwhile, climate change continues to wreak havoc on the ecosystem, health and aesthetic appeal of Asheville. The City of Asheville needs professional guidance on how we turn this tide, manage our forest, prevent continued loss. We understand there are NO ordinances to protect trees in Asheville unless they are on steep slopes or a part of the tree save are on a zoning plan. This is wrong! We need to get a professional plan to address this and only the addition of an urban forester can really devote the knowledge and focus to solving this problem. Thank you	Mike Lovoy 828-545-5393
3/23/2020 12:49:06	Informal Discussion & Public Comment	Other	I urge you to fund an Urban Forester for Asheville. Asheville's title of "Tree City USA" is under urgent threat due to continual loss to our tree canopy, a trend which is leading to a hotter city and more CO2 emissions. It's bewildering that the city funded a study of our tree canopy loss but is not now taking action? Why? Why waste money on a study that proved that our canopy depletion has been rapid over the past ten years and not fund an Urban Forester? Why declare a Climate Emergency and not take one of the MOST economically efficient steps of increasing our tree canopy with an Urban Forester?	Brooke Heaton
3/23/2020 12:52:24	Informal Discussion & Public Comment	Other	Urban forests are important for mitigating the urban heat island effect, reducing stormwater run-off, uptaking urban pollutants, creating habitat for urban animals, reducing stress, and improving property values, among many other things. The city of Asheville should hire an Urban Forester full-time, especially considering that the city has lost about 6.4% of its tree cover in the last decade. Not only do we need to increase our urban tree cover, but we need someone who understands how urban trees work, which species are best suited to which areas, and where our urban canopy needs to grow. Thank you for considering this request!	Andrew Laughlin, 504-444-2098
3/23/2020 12:52:26	Informal Discussion & Public Comment	Other	I would like to voice my adamant support for including the Urban Forester and Comprehensive Urban Forest Master Plan in this year's budget. Not only are Urban Forests beautiful and make a significant contribution to a community's psychological, physical, ecological, and emotional health, they are also a wise investment in the economic future of a city. Since our city government - for better or worse - has invested SO MUCH in making this	Melissa Scheiderer Thalman, Melissa.thalman@zoho.com

			place a desirable tourist destination, it would be unwise to allow a decline in the Urban Forest to threaten the stability of that industry by making Asheville a less desirable place to visit. As it stands now, our existing Urban Forest is a strategic economic advantage. By including the two items above in the budget, you as city leaders ensure that this is preserved and strengthened for the future well-being of our city.	
3/23/2020 12:52:46	Informal Discussion & Public Comment	A	I request that you include funding for the Urban Forester and Comprehensive Urban Forest Master Plan in this year's budget. It's imperative that Asheville protect our trees NOW. Without trees there is no clean air, oxygen, cool spaces and so much more. Now is the time to listen and begin to care for our world as a whole. Thank you.	Roni Hidalgo 108 W Fox Chase Rd, Asheville NC 28804
3/23/2020 12:54:35	Informal Discussion & Public Comment	C	I support an urban forester	Roy Harris
3/23/2020 12:55:58	Informal Discussion & Public Comment	E	I support an urban forester	Roy Harris
3/23/2020 12:56:20	New Business	Other	I'm expressing support for appointing an Urban Forester and implementing an Urban Forestry Plan for Asheville and hopefully Buncombe County. The need for mature trees throughout the city is a no brainer as there is abundant scientific research proving the benefits of trees in an urban environment. Thank you for being smart in forming your decision.	Donald Dawson
3/23/2020 12:56:30	Informal Discussion & Public Comment	Other	I strongly urge City Council to hire a professional urban forester and fund a comprehensive urban forest master plan. It is time for the city to embrace a science-based approach to managing our urban forest, to reverse the decades-long loss of canopy. Our urban forest is our first line (and most cost effective) local defense against climate change. Asheville is one of the last cities of its size in the Southern US without professional expertise on staff to help steward this precious resource. Its time to join the 21st century, and City Council, its time for you to do your job and protect our natural environment, and the health and well being of Asheville's Citizens. Thank you.	Edward Macie
3/23/2020 12:57:44	Public Hearings	F	Asheville needs an urban forester to protect, preserve & heal our valuable trees. Please add this to the new budget.	Karen Crutchfield 828-633-6614

3/23/2020 12:58:55	Informal Discussion & Public Comment	A	We need an urban Forrester immediately! Follow Green Works suggestion!	Roberta Wall
3/23/2020 13:00:18	Informal Discussion & Public Comment	Other	Hi, my name is Shelly Hawk. Over the last few years I have become keenly aware of the loss of our urban forest in Asheville. Letters to the editor appear regularly about this and community members have often spoken at council meetings to express concerns. The recent Climate Symposium indicated that we have lost nearly 7% of our canopy in the past decade, with even higher percentages of canopy loss in populations living below poverty level. This is environmental injustice and our community deserves better. The City of Asheville needs the expertise and guidance of a professional urban forester to strategically manage, replenish and protect our forest for all residents. We must look ahead for the sake of Asheville's future generations. I implore you to make 2020 the year that we invest in a comprehensive urban forestry program for Asheville and the long term health of our community. Thank you for listening.	Shelly Hawk 609.306.3155
3/23/2020 13:00:52	Informal Discussion & Public Comment	P	Asheville does not deserve a designation as "Tree City USA." We are in dire need of an urban forester in Asheville. The City of Asheville needs the expertise and guidance of a professional urban forester to strategically manage, replenish and protect our forest for all residents. We must look ahead for the sake of Asheville's future generations. I implore you to make 2020 the year that we invest in a comprehensive urban forestry program for Asheville and the long term health of our community.	Lynn Cox coosa@mac.com
3/23/2020 13:01:17	Informal Discussion & Public Comment	Other	As a resident of Asheville since 1983 and former member of the Tree Commission, I am keenly aware of the loss of our urban forest and tree canopy. Letters to the editor appear weekly about this, and the recent Climate Symposium which I attended indicated that we have lost almost 7% of our canopy in the past decade. Trees not only provide environmental benefits, they also cool our city and make it more attractive to residents and visitors. Our children deserve a better future than this. Trees are a key component in fighting the negative effects of climate change. The coronavirus may be dominating our attention right now, but meanwhile, climate change continues to wreak havoc on the ecosystem, health and aesthetic appeal of Asheville. The City of Asheville needs professional guidance on how we turn this tide, manage our forest, and prevent continued loss. Sadly, there are	Phyllis Stiles, phdstiles@gmail.com

			NO ordinances to protect trees in Asheville unless they are on steep slopes and makes prioritizing our urban forest urgent. We need to get a professional plan to address this and only the addition of an urban forester can really devote the knowledge and focus to solving this problem. Thank you.	
3/23/2020 13:02:46	Informal Discussion & Public Comment	Other	This pandemic is changing everything in our lives, and yet, we must carry on. The City Council and City Manager must work on a budget for this coming year despite this crisis, and I am writing to strongly urge that you include funding for an Urban Forester and master forest plan for Asheville. Vijay Kapoor in last week's ACT stated that this is not the year to create an urban forest master plan (ACT, 3/18/20). Yet, there are not enough resources or staff to prevent any further loss of our tree canopy, nor provide the skilled forestry management leadership within the existing staff to do this. Put this into this year's budget. Thank you.	Cathy Walsh
3/23/2020 13:14:25	Informal Discussion & Public Comment	A	Asheville needs an Urban Forester and Urban Forest Master Plan! We needed it 20 years ago, but now is a second best time. We need a strong tree ordinance that is enforceable as well.	Royce Clay - roycestreeservice@gmail.com
3/23/2020 13:19:05	Informal Discussion & Public Comment	A	Hello, I am citizen of Asheville and I am concerned about the rapid loss of the tree canopy in Asheville. Forest preservation and canopy preservation are very important to me and I would ask that City Council make hiring an Urban Forester and creating a Master Plan for preserving and creating greenspace a top priority this year as part of the budget. Thank you	KARI FERNANDEZ, KARICITA50@HOTMAIL.COM
3/23/2020 13:19:12	Informal Discussion & Public Comment	A	As a resident of Asheville, I have been keenly aware of the loss of our urban forest and tree canopy. Letters to the editor appear weekly about this, and the recent Climate Symposium which I attended indicated that we have lost almost 7% of our canopy in the past decade. Wow - if we don't stop this bleeding, we will have fewer trees, an Asheville that is less attractive and cool for tourists to visit in the not too distant future. Our children deserve a better future than this. Trees are a key component in fighting the negative effects of climate change. Yes, we are facing an unknown pandemic; meanwhile, climate change continues to wreak havoc on the ecosystem, health and aesthetic appeal of Asheville. The City of Asheville needs professional guidance on how we turn this tide, manage our forest, prevent continued loss. From public meetings that I have attended, I have learned that there are NO ordinances to protect trees in Asheville unless they are on steep slopes. This is wrong! We need to get a professional	Sally Jones gertarg@yahoo.com

			plan to address this and only the addition of an urban forester can really devote the knowledge and focus to solving this problem. Thank you.	
3/23/2020 13:21:11	New Business	A	As a resident of Asheville, I have been keenly aware of the loss of our urban forest and tree canopy. Letters to the editor appear weekly about this, and the recent Climate Symposium which I attended indicated that we have lost almost 7% of our canopy in the past decade. Wow - if we don't stop this bleeding, we will have fewer trees, an Asheville that is less attractive and cool for tourists to visit in the not too distant future. Our children deserve a better future than this. Trees are a key component in fighting the negative effects of climate change. Robert Stephen Biggerstaff	Robert Biggerstaff Stephen.biggerstaff@charter.net
3/23/2020 13:21:44	Informal Discussion & Public Comment	A	I am concerned about the loss of urban forest and trees in general in Asheville. As with most issues, we need a comprehensive plan to save and restore the tree canopy. As a nearly 20 year resident of Asheville (and nearly lifelong WNC resident), I find the decreased number of trees noticeable both visually and in regard to temperature. I live now in a wooded location, and when I go into downtown, I can instantly feel a significant difference in temperature. As you of course know, trees are also crucial to reducing CO2 emissions. We position ourselves as a city with environmental consciousness, and re-establishing an urban forest canopy is crucial.	Margaret Vestal
3/23/2020 13:22:24	Informal Discussion & Public Comment	A	I would like to see Asheville create a permanent position for an Urban Forester. And to allocate the funds needed to make this a long term priority.	Aaron Maret

3/23/2020 13:22:46	Informal Discussion & Public Comment	Other	As an Asheville Homeowner, I have been aware of the loss of our urban forest and tree canopy. Letters to the editor appear weekly about this, because we have lost almost 7% of our canopy in the past decade. Our children deserve a better future than this. Trees are a key component in fighting the negative effects of climate change. Yes, we are facing an pandemic and as much as we must fight this existential threat today we have to also fight longer term against an even more devastating outcome due to climate change. The aesthetic appeal of Asheville depends on our trees. The City of Asheville needs professional guidance on how we turn this tide, manage our forest, prevent continued loss. From public meetings that I have attended, I have learned that there are NO ordinances to protect trees in Asheville unless they are on steep slopes. Friends from less "enlightened " urban areas even in TEXAS are appalled when they hear this! It's wrong and you know it's wrong! We need to get a professional plan to address this and only the addition of an urban forester can really devote the knowledge and focus to solving this problem. Thank you, Troy and Sara Guglielmina	Troy and Sara Guglielmina Homeowners - Taxpayers - 7 Debra Ln. Asheville
3/23/2020 13:23:25	Consent Agenda	A	Speakers were previously allowed 3 minutes. At a normal speaking rate of 140-160 wpm, that would be 420-480 words. I therefore suggest that the proposed 350 word limit be increased to 450 words. One can read 450 words in less than 3 minutes so 450 words should not be an undue burden on the council members.	Charles Warner, CLW@comcast.net
3/23/2020 13:26:40	Informal Discussion & Public Comment	A	I would like the City to hire an Urban Forrester to come up with a plan to address our accelerating reduction in tree cover as a result of disease and development. I see a lot of trees getting cut down and not enough being planted. Trees are beautiful, help keep us cool, provide habitat for other living creatures, and keep our air fresh. Our Urban forest needs to grow!	Nancy Hyton, nancyhyton@gmail.com
3/23/2020 13:27:17	Informal Discussion & Public Comment	A	Our city needs an urban forester and an urban forest master plan. We need to be planting trees in ways that are compatible with our growth plan, so that our efforts can have the best and longest-lasting effects. We want our town to grow, and also our trees, so that our children can have better air quality and we can leave the earth a better place.	Katherine McDaniel
3/23/2020 13:34:33	Informal Discussion & Public Comment	Other	Hello, I am writing in support of including funds for a city Urban Forester permanent staff position and for development and adoption of an Urban Forest Master Plan	Benjamin Gillum 828-989-2815 96 Holland St. 28801

			with accompanying regulations to reverse the rapid tree loss in our city and care for existing trees.	
3/23/2020 13:35:13	Informal Discussion & Public Comment	Other	There have been many complaints in past meetings about tourism "ruining" the character of our town, with some people wanting to limit the number of tourists and to stop building new hotels. Well, we can now see the effects of severely limiting tourism: empty hotels, small shops closing (some of which will not reopen), empty store fronts, rising unemployment, and reduced tax revenue for the city. The current tourism shutdown will eventually be lifted, but how long will it be before the tourist industry recovers, if ever, to its former level? This is not just an academic question - the livelihood of many people depends on it. I suggest that now is the time to consider how much tourism the city wants to embrace, and to work toward obtaining that level as quickly as possible so as to minimize the number of shops that are permanently closed and the number of people who are forced to seek work elsewhere.	Charles Warner. CLW@comcast.net
3/23/2020 13:36:19	Public Hearings	A	I totally support to hire a urban forest master plan and an arbolists.	Ana Boza
3/23/2020 13:39:01	Informal Discussion & Public Comment	A	Hello, City Council Representatives and Mayor Mannheim! I'm a resident of South Asheville and I am writing because of my increasing concern for the urban forest in Asheville. The recent Climate Symposium and Asheville's Urban Tree Canopy Study revealed that not only is Asheville losing our tree canopy at the unsustainable rate of almost 7% in the last 10 years, but we have lost more of it in our underserved neighborhoods that were red lined in the past. This is not fair, and the time is NOW to correct this for all of Asheville and for future generations. You were asked to address this last year, but no meaningful steps have been taken. NO city staff can adequately deal with this problem without professional guidance in how to manage an urban forest. Put funds for an Urban Forester (who will provide professional guidance and a plan to address these problems) into the city budget for the coming year. You have been asked for this before - NOW is the time to do the right thing for Asheville! Thank you.	Judith A. Gifford, 12 Pebble Creek Drive, Asheville 28803 715-308-5860
3/23/2020 13:41:37	Informal Discussion & Public Comment	A	Please consider adding an Urban Forester and funds for an Urban Forest Plan to this year's city budget. The recent Climate Symposium outlined our 7% canopy loss and the need for citywide tree management. I served six years on the Asheville Planning Commission and I saw firsthand how difficult it is to protect mature trees and enforce adequate long-term care of new pantings. The air quality	Billie Buie, 2 Horizon Hill Road. bhbuie@gmail.com

			improvements and contribution to climate change reversal that cities can make through tree management are significant. Please allow Asheville to do its part in this effort.	
3/23/2020 13:47:47	Public Hearings	A	Hi, I'm a resident of Asheville and I am calling because of my concern for the urban forest in Asheville. The recent Climate Symposium and Asheville's Urban Tree Canopy Study revealed that not only is Asheville losing our tree canopy at the unsustainable rate of almost 7% in the last 10 years, but we have lost more of it in our underserved neighborhoods that were red lined in the past. This is not fair, and the time is NOW to correct this for all of Asheville. You were asked to address this last year, but no meaningful steps have been taken. NO city staff can adequately deal with this problem without professional guidance in how to manage an urban forest. Put funds for an Urban Forester and a plan to address these problems into the city budget for the coming year. You have been asked for this before - Now is the time to do the right thing for Asheville.	Hannah Anderson
3/23/2020 13:49:22	**Informal Discussion & Public Comment**	A	I am an Asheville resident who attended last fall's Climate Symposium at A-B Tech. I have also read the Urban Tree Canopy Study, so I understand that the city where I live lost 7% of its tree canopy in the past decade. Not surprisingly, neighborhoods that have suffered the injustice of red-line tactics now experience tree loss at even greater rates. It's clear to me that the city won't be able or willing to address the effective management of our urban forest without an Urban Forester with the professional credentials needed to preserve and extend the tree canopy that has in the past kept our climate a refuge of moderation for residents and visitors alike. So, put the funds into the next budget for an Urban Forester who can devise, execute, and enforce ordinances and associated planning to keep our trees in the ground and out of the wood chipper.	**Philip Blocklyn, blocklynp@gmail.com**

3/23/2020 13:50:14	Informal Discussion & Public Comment	Other	Dear Honorable Mayor and Councilmembers: I am writing to implore you to find ways to make it possible to hire an expert urban forester with a proven track record of not only protecting but restoring our city's tree canopy. When I first moved to Asheville in 2002, this city was lush with green life. In the last 18 years, the city has transformed in such a way that areas rich in vegetation have been replaced with parking lots and buildings, many of which are hotels. The loss of trees has been palpable and we've seen and felt the economic burden of erosion from aggressive tree removal for the sake of development. It is important that I mention the significant value of trees: they are inherently beautiful; they clean our air and make us more resilient as we face the deeper challenges of climate change; stop erosion (which saves our city from cost-prohibitive remediation efforts); and they are living beings that support other life including birds and pollinators which have experienced dramatic decreases in their numbers in the last decade. Asheville is long overdue for a comprehensive urban forestry program. This is a propitious investment in our city's future. Thank you for taking the time to consider my comment. Sincerely, Gloria Shen	**Gloria Shen (828)417-7020**
3/23/2020 13:50:43	Informal Discussion & Public Comment	A	I'm a resident of Asheville and I am calling because of my concern for the urban forest in Asheville. 3/23/2020 13:54:17	Informal Discussion & Public Comment	U	Hi, my name is Frank Russo. I have become aware of the loss of our urban forest in Asheville due to new building and investment in tourism. This information appears regularly in Letters to the Editor. As you are probably aware, the recent Climate Symposium indicated that we have lost nearly 7% of our canopy in the past decade, with even higher percentages of canopy loss in populations living below poverty level. The City of Asheville needs the expertise and guidance of a professional urban forester to strategically manage, replenish and protect our forest for all residents. After all, that is one reason I moved here. I thought Asheville was ahead of the game on environmentalism. Show this by making 2020 a year we invest in a comprehensive urban forestry program for Asheville. We not only need to be concerned about our health but also the long term health of our environment. Please move forward on funding this issue. Thank you.	Frank Russo
3/23/2020 13:55:22	Public Hearings	A	I am long time resident of Asheville and moved here because at the time Asheville had an environmental awareness and seemed to care about nature. Over the years as tourism become more important I have seen the city officials allow actions that aren't as environmental friendly as the candidate platform they ran on. The Climate Symposium was valuable and insightful. It is horrible that we have lost almost 7% of our canopy in just 10 years! Climate change continues to wreak havoc on the ecosystem, health and aesthetic appeal of Asheville. Trees are a key component in fighting the negative effects of climate change. The City of Asheville needs professional guidance on how we turn this tide, manage our forest, prevent continued loss. Yes, we need to address the pressing issues of this pandemic and we need to pro active in creating options that will off set future crisis such as rising temperatures in our city. We need to get a professional plan to address this and only the addition of an urban forester can really devote the knowledge and focus to solving this problem. Thank you.	Mary Love

3/23/2020 13:56:31	Informal Discussion & Public Comment	A	As a resident of Asheville, I am so aware of the loss of our urban forest and tree canopy. I attended the recent Climate Symposium which indicated that we have lost almost 7% of our canopy in the past decade. We must stop this bleeding or we will have fewer trees, an Asheville that is less attractive and cool for tourists to visit in the not too distant future. Our children deserve a better future than this. Trees are a key component in fighting the negative effects of climate change. Yes, we are facing an unknown pandemic; meanwhile, climate change continues to wreak havoc on the ecosystem, health and aesthetic appeal of Asheville. The City of Asheville needs professional guidance on how we turn this tide, manage our forest, prevent continued loss. From public meetings that I have attended, I have learned that there are NO ordinances to protect trees in Asheville unless they are on steep slopes. This is wrong! We need to get a professional plan to address this and only the addition of an urban forester can really devote the knowledge and focus to solving this problem. Thank you.	Anne Winter
3/23/2020 13:57:28	Informal Discussion & Public Comment	A	After seeing my new neighbor on Grandview Dr. 'butcher' 150 foot trees (on Duke Power land) so they could have a "better view from their deck", and learning that is was 'perfectly legal', it just drives home the need for better forest management within the city limits. A comprehensive plans needs to be funded and put in place to ensure this type of activity cannot continue. Please act quickly to fund the Urban forester and Comprehensive Urban Forest Management Plan in THIS year's budget. Respectfully, Andrew Pardue	**Andrew Pardue - as.pardue48@gmail.com**
3/23/2020 14:01:52	Informal Discussion & Public Comment	A	Hi, I'm a resident of Asheville and I am calling because of my concern for the urban forest in Asheville. Thank you.	**Lucy Morris, Lucy@phoenixpossibilities.com, PO Box 710, Asheville NC 28802**
3/23/2020 14:04:24	Public Hearings	Other	RE: An Urban Forester for the city. Asheville has been my home for the past 22 years. More and more, particularly in the last 3-4 years, I have watched as huge swatches of land with dense patches of trees are plowed under for apartments, hotels, and businesses. While growth can be good for a community, blatantly denuding our surrounding landscape does permanent damage to what makes Asheville a wonderful place to live. Before it is too late, please hire or bring in an Urban Forester to help preserve our natural river and mountain canopy. Thank you!	Teresa Imfeld, timfeld@buncombe.main.nc.us
3/23/2020 14:10:31	Informal Discussion & Public Comment	A	Please fund an urban forester and support staff as needed to address the restoration and sustainability of the Asheville urban tree canopy. Also please please commit to coordination with the tree trimming and removal practices done around power lines. We can do better! Stay healthy and thank you for all your efforts!	Ann Prescott 828 747-7719
3/23/2020 14:12:46	Informal Discussion & Public Comment	A	I am a citizen of Asheville and fully support Greenworks' plan for our urban forest and forester. Please do the right thing and protect our invaluable trees. Thank you for your service.	Matthew Milling 8179887690

3/23/2020 14:21:36	Informal Discussion & Public Comment	A	Please strongly consider adding an Urban Forester position and the adoption of a formal Urban Forestry Master Plan. I attended the recent Tree Symposium hosted by Asheville Greenworks and appreciate the grave need for a master plan to put rules in place that will halt the disturbing trend of tree loss in Asheville. Aside from the obvious aesthetics considerations and associated mental health benefits trees provide, there are real and numerous climate change implications linked to loss of tree canopy. Asheville and Buncombe County are taking brave and aggressive steps to address environmental concerns...protection of our surviving tree canopy ought to also be front and center in crafting any environmental policy going forward. Thank you for your attention to this subject and your serious consideration of these measures.	James DeGrave
3/23/2020 14:22:44	Informal Discussion & Public Comment	A	Hi, I'm a resident of Asheville and I am calling because of my concern for the urban forest in Asheville. The recent Climate Symposium and Asheville's Urban Tree Canopy Study revealed that not only is Asheville losing our tree canopy at the unsustainable rate of almost 7% in the last 10 years, but we have lost more of it in our underserved neighborhoods that were red lined in the past. This is not fair, and the time is NOW to correct this for all of Asheville. You were asked to address this last year, but no meaningful steps have been taken. NO city staff can adequately deal with this problem without professional guidance in how to manage an urban forest. Put funds for an Urban Forester and a plan to address these problems into the city budget for the coming year. You have been asked for this before - Now is the time to do the right thing for Asheville.	Richard Moseley 321-626-9163
3/23/2020 14:25:11	Informal Discussion & Public Comment	A	Hi, I'm a resident of Asheville and I am writing because of my concern for the urban forest in Asheville. The recent Climate Symposium and Asheville's Urban Tree Canopy Study revealed that not only is Asheville losing our tree canopy at the unsustainable rate of almost 7% in the last 10 years, but we have lost more of it in our underserved neighborhoods that were red lined in the past. This is not fair, and the time is NOW to correct this for all of Asheville. You were asked to address this last year, but no meaningful steps have been taken. NO city staff can adequately deal with this problem without professional guidance in how to manage an urban forest. 			asked for this before - Now is the time to do the right thing for Asheville.	
3/23/2020 14:26:22	Consent Agenda	G	I support the adoption of the resolution on the I-26 Connector Project (TIP-2513). This adoption will move the project forward, but gives the City and the French Broad MPO the latitude to ensure that the projects meets the needs of all types of transportation -- not just cars and trucks.	Keith Bamberger
3/23/2020 14:31:57	Informal Discussion & Public Comment	A	As a former transportation planner and someone who works in planning for the State of North Carolina, I think it is vital to the City of Asheville to hire an urban forester and create an Forest Plan for the city. The benefit of trees to neighborhoods, health, energy use, and the general welfare are all well documented and know. The Asheville Urban Forest plan could maximize these benefits for both short term, but especially long term gain for all the people of Asheville.	Keith Bamberger
3/23/2020 14:34:02	Informal Discussion & Public Comment	A	I'm Dixie Deerman, also known as Lady Passion — a long-time Asheville resident and activist. I ask Council to respond to NASA data and allocate funds to hire an Urban Forester and include community-generated plans to preserve Asheville's decimated tree canopy in the city's Master Plan. Please include my desires in the official minutes of the upcoming Council meeting.	**Dixie Deerman (Lady Passion) 251-0343 113 Clinton Ave. Asheville NC 28806**
3/23/2020 14:37:24	Informal Discussion & Public Comment	G	I support the Council's resolution regarding the NC DoT I-26 Connector TIP Project I-2513. Please include my public comment in the official minutes of the upcoming Council meeting.	**Dixie Deerman (Lady Passion)**
3/23/2020 14:42:11	Informal Discussion & Public Comment	Other	Asheville does need to be concerned about our urban forest. We need an urban forester to assist city in care of our urban forest. We do need an urban forest master plan to implement care of our forests. Please consider that our forests have a real need to be cared for wisely.	**Jean Pinkston 828-775-6448**
3/23/2020 14:42:36	Informal Discussion & Public Comment	A	I was so excited and proud when I read a few months ago that the City of Asheville was looking to hire an Urban Forrester and develop a Comprehensive Urban Forest Master plan to manage and help protect the natural beauty of our rapidly developing city. As a citizen of downtown Asheville, I enjoy seeing the effort our city has thus far put into maintaining greenery throughout the city, but fear that rapid development may permanently destroy much of the urban canopy that helps make our city so lovely, and a healthier place to live. Studies have shown the social, health, and economic benefits of urban forests to the general population of a city, and I hope City Council will	**Kimberly Dal Santo**

			take the findings of such studies to heart, so our beautiful community may continue to be a place where it's citizens thrive. I encourage, and request as a citizen, the Asheville City Council and City Manager put funding for the proposed Urban Forester and Comprehensive Urban Forest Master Plan in this year's budget.	
3/23/2020 14:43:05	Informal Discussion & Public Comment	M	Why is the Asheville mall open.	Lori
3/23/2020 14:46:02	Informal Discussion & Public Comment	A	Pls support the protection, maintainance, and replanting of the Asheville urban forests! Such a simple and easy action, plant a tree, or better yet, don't destroy one!! Please fund a vivacious and desperately needed Urban Forest program. Thank you.	Paul Allen 224-406-4204
3/23/2020 14:47:44	Informal Discussion & Public Comment	A	I recently returned back to North Carolina where I was born and lived the first twenty-four years of my life. Moving from Colorado, I was struck by the lack of public recreational spaces and specifically the lack of tree canopy in the downtown areas. Trees provide so many societal benefits including climate relief, aesthetics, shade, etc. If we want to preserve Asheville as a place people want to visit, we must create an Urban Forest Initiative and fund it accordingly with a Urban Forester role. This initial investment will not only serve our current resident and tourist population but it will serve future generations. Please consider the long-term advantages to having a urban forest plan.	Ashley Pendergrass

3/23/2020 14:50:39	Public Hearings	A	Dear Mayor Manheimer and City Council Members, I'd like to first thank you all for all you are doing for our community during this challenging time. Your leadership is recognized and appreciated. I'd like to comment on the need for an Urban Forrester. I'm not sure where it is on the agenda, but I understand it is in the budget and it is being discussed today. I have lived in Asheville for almost 31 years and I am distressed by what seems to be an increasing loss of our oldest and largest trees, many that were perfectly healthy (ie. - no rot apparent in the remaining stump.) All along Edwin Place and Kimberly and throughout North Asheville, 80+-year-old trees have been brought down in the past 8 months. Last August, Duke Power unnecessarily took down a stand of older trees at the YWCA. It was reported to be a "mistake," on behalf of the contracting company. How many more trees are being mistakenly removed? A trained Urban Forrester would better know what trees need to come down and hold contractors accountable. I further recommend that our city explore the research done in Durham by the Durham Rotary which mapped the historic lack of urban tree infrastructure in lower-income and historically African American neighborhoods. Racial equity must extend to which neighborhoods get trees and this should be a priority for Asheville as well. While I am sad to see the loss of trees in my neighborhood, I also believe that the city can find a way to ensure equitable tree distribution for all of our health and well being. Investing in a trained Urban Forrester and staff and making sure they have racial equity as a priority in their efforts will be an important step forward for all of us, our community and our planet. Thank you for your time and consideration of my comments. Beth Maczka	**Beth Maczka 828 273-1688**

3/23/2020 14:56:44	Informal Discussion & Public Comment	B	Hi, I'm a resident of Asheville and I am calling because of my concern for the urban forest in Asheville. The recent Climate Symposium and Asheville's Urban Tree Canopy Study revealed that not only is Asheville losing our tree canopy at the unsustainable rate of almost 7% in the last 10 years, but we have lost more of it in our underserved neighborhoods that were red lined in the past. This is not fair, and the time is NOW to correct this for all of Asheville. You were asked to address this last year, but no meaningful steps have been taken. NO city staff can adequately deal with this problem without professional guidance in how to manage an urban forest. Put funds for an Urban Forester and a plan to address these problems into the city budget for the coming year. You have been asked for this before - Now is the time to do the right thing for Asheville.	**Sam Trueman**
3/23/2020 14:56:51	Informal Discussion & Public Comment	A	As a resident of Asheville, I have been keenly aware of the loss of our urban forest and tree canopy. Letters to the editor appear weekly about this, and the recent Climate Symposium which I attended indicated that we have lost almost 7% of our canopy in the past decade. Wow - if we don't stop this bleeding, we will have fewer trees, an Asheville that is less attractive and cool for tourists to visit in the not too distant future. Our children deserve a better future than this. Trees are a key component in fighting the negative effects of climate change. Yes, we are facing an unknown pandemic; meanwhile, climate change continues to wreak havoc on the ecosystem, health and aesthetic appeal of Asheville. The City of Asheville needs professional guidance on how we turn this tide, manage our forest, prevent continued loss. From public meetings that I have attended, I have learned that there are NO ordinances to protect trees in Asheville unless they are on steep slopes. This is wrong! We need to get a professional plan to address this and only the addition of an urban forester can really devote the knowledge and focus to solving this problem. Thank you.	**David Byers**

3/23/2020 15:01:45	Consent Agenda	G	Please support the I-26 FEIS resolution unanimously. The fact that Asheville's government and citizens have wrung such concessions as we have from NC-DOT is almost as astonishing as the fact that a state that already has more miles of road pavement per capita than any other refuses to slow its 20th-century highway-building juggernaut, even though the induced sprawl development and fossil-fuel pollution it encourages are primary contributors to our 21-st century climate eemrgency. If all we can do is continue to advocate point-by-point for minimizing destructive impacts and adding the benefits we have been seeking, then that's exactly what we need to do. One concern I have is that in my explorations of the FEIS, I've found that this massive monument to bureaucratese is laced with descriptions of archeological impacts in West Asheville and elsewhere, such as the partial burying (with markers) of the remains of what historians of Asheville describe as "the first hydroelectric plant in the world to furnish power for a private commercial trolley line". This historic site -- a potential candidate for National Register of Historic Places recognition -- is part of the Hominy Creek Greenway. In communicating this impact to Greenway volunteers and advocates, I realized that we do not know and (unless I'm missing something) have not been told what further impacts the I-26 Connector Section A construction will have on the Hominy Creek Greenway. If that's true of this greenway, it's probably true of others. I hope the City can assign staff to research this aspect of the project.	**Steve Rasmussen, 828-242-5859, stevencrasmussen @gmail.com**
3/23/2020 15:04:17	Consent Agenda	A	Thank you for preserving good governance in this time of crisis by postponing hearings on the controversial Collier Ave. LUIG and the still-debated Open Space amendment. Both should wait till in-person public comment and board/commission meetings can safely be restored, since they are not dependent on external deadlines.	**Steve Rasmussen, 828-242-5859, stevencrasmussen @gmail.com**
3/23/2020 15:05:54	Informal Discussion & Public Comment	A	Greetings. I'm a resident of Asheville and I'm submitting a public comment regarding Asheville's urban forest. I learned at the recent Climate Symposium that Asheville's Urban Tree Canopy Study revealed that we lost 7% of our tree canopy in the last 10 years, much of it in under-served neighborhoods. This rate of loss is alarming as is the fact that no meaningful steps have been taken to address this. Furthermore, no city staff can adequately deal with this problem without professional guidance in how to manage an urban forest. I'm urging you to please BUDGET	**Sarah Fraser**

			FUNDS for an Urban Forester and a plan to address this issue in the city budget for the coming year. I believe climate change could deliver a blow to our society and community that is as profound as COVID-19. Now is the time to act to prevent catastrophic impacts. Preserving our urban canopy is one important way to absorb CO2 and also combat the urban heat island affect making our community more resilient in a warming world.	
3/23/2020 15:16:12	Informal Discussion & Public Comment	Other	As a resident of Asheville for over 20 years, I have been keenly aware of the loss of our urban forest and tree canopy. Letters to the editor appear weekly about this, and the recent Climate Symposium which I attended indicated that we have lost almost 7% of our canopy in the past decade. That is an incredible loss and if we continue removing healthy mature trees as we have been, resulting in fewer trees, we will have an Asheville that is less attractive and cool for tourists to visit in the not too distant future. Our children deserve a better future than this. Trees, our mature trees more so than the young saplings, are a key component in fighting the negative effects of climate change offering everything needed for our health and sanity. This pandemic has been able to grow and spread forcing us into hiding, meanwhile, climate change continues to wreak havoc on the ecosystem of our planet as well as the health and aesthetic appeal closer home, our own city and neighborhoods of Asheville. Knowing that plans continue to be made to cut more trees and that steps are not being put into place for the thorough overseeing of a professional and focused plan to plant, maintain and care for an Urban Landscape is beyond my comprehension.The City of Asheville needs professional guidance on how we turn this tide, manage our forest and prevent continued loss. From public meetings that I have attended, I have learned that there are NO ordinances to protect trees in Asheville unless they are on steep slopes. This is wrong! I know that some important updates are being made but monitoring those ordinance inserts is going to be a monstrous challenge in-house.	Susan Sertain

			We need to get a professional plan to address this and only the addition of an urban forester can really devote the time, knowledge and focus to solving this problem. Thank you. Susan Sertain	
3/23/2020 15:18:45	Informal Discussion & Public Comment	Other	I am writing to request that City Council fund an Urban Forester position in the upcoming budget year. Asheville is rapidly losing its tree canopy and needs a comprehensive plan to address how to protect our remaining trees and replenish the urban forest. Our climate is rapidly changing and preserving our tree canopy can help with the urban heat island effect, intercept some rainwater to reduce flooding, and improve the aesthetics and quality of life in our neighborhoods. It is a balancing act to promote infill development along with tree preservation so a dedicated Urban Forestry position and a Comprehensive Urban Forest Master Plan is essential to guide the City in the future.	Mary Weber
3/23/2020 15:20:21	Informal Discussion & Public Comment	Other	Hi, I'm a resident of Asheville and I am calling because of my concern for the urban forest in Asheville. The recent Climate Symposium and Asheville's Urban Tree Canopy Study revealed that not only is Asheville losing our tree canopy at the unsustainable rate of almost 7% in the last 10 years, but we have lost more of it in our underserved neighborhoods that were red lined in the past. This is not fair, and the time is NOW to correct this for all of Asheville. You were asked to address this last year, but no meaningful steps have been taken. NO city staff can adequately deal with this problem without professional guidance in how to manage an urban forest. Put funds for an Urban Forester and a plan to address these problems into the city budget for the coming year. You have been asked for this before - Now is the time to do the right thing for Asheville.	Bobby Beebe, 513-304-4355
3/23/2020 15:22:27	Informal Discussion & Public Comment	A	Hi, I'm a resident of Asheville and I am calling because of my concern for the urban forest in Asheville. 3/23/2020 15:32:54	Informal Discussion & Public Comment	A	I know these are extraordinary times with added stresses to the city budget, but I believe our tree canopy reduction will not be corrected unless we put in the budget funds for an urban forester as a permanent position and make a commitment to developing a urban forest plan for the next 5 - 10 years at least. Our city and county both need to sharpen up our long-term planning skills and strategies. No short-term fixes; no talk without action and commitment of funds and personnel. Thank you for considering my views.	Mary Goodkind, mary@lindleyg.com
3/23/2020 15:33:34	Informal Discussion & Public Comment	Other	As a resident of Asheville, I believe the City of Asheville needs professional guidance on how we manage our forests and prevent continued loss. From public meetings that I have attended, I have learned that there are NO ordinances to protect trees in Asheville unless they are on steep slopes. This is wrong! Garrett Martin, garrett@venturelifefilms.com

3/23/2020 15:45:01	Informal Discussion & Public Comment	A	Is there an approximation of how long businesses such as hair salons are going to be forced to shut down? What is the criteria that would allow them to reopen? This is forcing money to be taken to other counties outside the area and services to be done illegally in homes and in unsanitary conditions.	Crystal Linville cclinville@gmail.com
3/23/2020 15:45:21	Informal Discussion & Public Comment	Other	I recently read about the old hemlock tree that was set to be removed from the courthouse lawn. It saddened me to see it go because I know very little effort or planning will be done to secure an Adequate replacement. As has been the case for most of the trees cut down throughout the city and county. We need a person in place that cares and who's sole responsibility is to ensure tree health, growth, and replanting within the city. Let's not loose the natural live beauty that is Asheville.	Nick Cargo 828-776-9547
3/23/2020 15:49:01	Public Hearings	A	Hi, I'm a resident of Asheville and I am writing because of my concern for the urban forest in Asheville. The recent Climate Symposium and Asheville's Urban Tree Canopy Study revealed that not only is Asheville losing our tree canopy at the unsustainable rate of almost 7% in the last 10 years, but we have lost more of it in our underserved neighborhoods that were red lined in the past. Put funds for an Urban Forester and a plan to address these problems into the city budget for the coming year. You have been asked for this before - Now is the time to do the right thing for Asheville, and for the planet. Please be part of the solution. Our health as people is interdependent with the health of the biosphere. Trees are a big part of that. Take a look around... there's more concrete than trees. We need to restore balance in our community. Now.	Paula Sellars paula@phoenixpossibilities.com

3/23/2020 15:53:28	Informal Discussion & Public Comment	A	Why are urban-forest advocates insisting that the city must address its canopy-loss crisis by spending scarce funds to hire an Urban Forester instead of delegating UF responsibilities to existing staff? Here's why: Although there are inside staff planners who are able to preview a plan for compliance re: our new ordinance 7-19-1., there are not enough outside inspectors to handle the current work load with all of the new developments being built. There are none that are qualified to understand the horticultural or urban-forestry science behind maintaining the health of the trees or understanding the science behind it. Since someone will have to be hired regardless, it may as well be someone qualified, who would also be able to do other administrative duties such as TRC, community outreach, education programs, and so forth. Right now, the flood of tree-clearing requests by developers coming through TRC alone is handled by an inhumanly overtaxed volunteer member of the Urban Forest Commission. The Arborist is working to his absolute capacity on Public Trees and has no jurisdiction over private trees. A UF can assist the load of the City Arborist. The Office of Sustainability has nothing to do with the Ordinance enforcement. And frankly, the City Manager may not realize this, but the delegation she is proposing would be just one more example of the continual short-sighted postponement of dealing with our city's self-created ecological crisis that's gotten us to this point.	Steve Rasmussen, 828-242-5859, stevencrasmussen@gmail.com
3/23/2020 16:06:05	Informal Discussion & Public Comment	A	As a resident of Asheville, I have been keenly aware of the loss of our urban forest and tree canopy. Put funds for an Urban Forester and a plan to address these problems into the city budget for the coming year. You have been asked for this before. We need to fund an urban forester to help mitigate effects of climate change as well as keep our city cool for our communities and tourists. Thank you.	Veronica Crane-Lindsey Veronica.lindsey@att.net
3/23/2020 16:20:11	Unfinished Business	A	The gentrification of our community must stop! How many generations will Asheville be responsible for destroying in the black community? It is time for you all to walk the walk of equality for the people. Stop hurting the Black Community. We don't want this!	Zakiya Rogers
3/23/2020 16:23:53	Informal Discussion & Public Comment	A	Asheville needs to hire an urban forester and a professional plan for the maintenance of Asheville's tree canopy which is disappearing at an unsustainable rate, creating a heat island and destroying the unique beauty that people buy property here to enjoy.	Tao Semko taosemko@gmail.com

3/23/2020 16:24:55	Informal Discussion & Public Comment	Other	My name is Sharon Sumrall, I live on Beaucatcher Mt. I am writing to support the need for an Ubran Forester for the City of Asheville. I assume at this point that Staff as well as Council is aware of our tree canopy loss, the urban heat island effect as well a the aesthetic value of trees. We have a new Tree Protection Ordinance in the works, that is offering better alternatives than the existing ones. This is just the beginning for future tree protection ordinances that head us in the direction of no net tree loss. Urban Foresters have the knowledge and science in order to facilitate the technical expert advice that is required to maintain a cities green infrastructure by offering our city new opportunities that can also help the current staff with the following: A. review and serve as technical expertise by evaluating site plans to ensure compliance of all applicable codes, recommend changes as needed for the protection of trees. B. Inspect new construction sites for proper tree protection implementation; evaluate and determine compliance with land development codes and tree ordinances. C. Assist the City Arborist in overseeing field staff or contractors in tree planting and maintenance issues. Mark Foster is working at his absolute capacity and an UF would benefit Public Works as well as DSD considerably. D. Make presentations to Council, Commissions and other departments, develop and administer community outreach and education programs. At this time City Inspectors are also at their maximum workload. Someone is going to need to be hired, and it needs to be someone with the knowledge and science of an UF. Our new ordinance will give us additional funds in the future, and we as a city need to have the foresight to see the importance of an UF for our sustainable future. Thank you, Sharon Sumrall/Urban Forestry Commission	Sharon Sumrall
3/23/2020 16:26:28	Informal Discussion & Public Comment	Other	Trees are one of Asheville's greatest assets. We are a city of trees. I moved to Asheville in 2018 partly due to it's beautiful tree-lined streets and squares. Now more than ever the trees of Asheville are necessary for our city to continue as a destination for people. Please make funding to hire an Urban Forester part of the city budget. It's time we as a community take this important step to ensure the future of our urban forest.	Catherine Gilbert 14 Stonebridge Drive 28805 828 273-2322

3/23/2020 16:28:25	Informal Discussion & Public Comment	A	My name is Karen MacNeil. Over the last few years I have become keenly aware of the loss of our urban forest in Asheville. Letters to the editor appear regularly about this and community members have often spoken at council meetings to express concerns. The recent Climate Symposium indicated that we have lost almost 7% of our canopy in the past decade, with even higher percentages of canopy loss in populations living below poverty level. This is environmental injustice and our community deserves better. The City of Asheville needs the expertise and guidance of a professional urban forester to strategically manage, replenish and protect our forest for all residents. We must look ahead for the sake of Asheville's future generations. The Tree Protection Task Force has recently created a Resolution of Support for a Comprehensive Urban Forestry Program in Asheville. Dawn Chávez, Executive Director of Asheville Greenworks and Ravenscroft Reserve Initiative have signed in support, with more anticipated to join in the near future. I implore you to make 2020 the year that we invest in a comprehensive urban forestry program for Asheville and the long term health of our community. Thank you for listening.	Karen MacNeil karenskyli@gmail.com
3/23/2020 16:29:31	Informal Discussion & Public Comment	A	My wife and I retired to Asheville from Charleston S.C. three and a half years ago. We felt like we had moved to paradise, and we still feel that way. However, we quickly realized that one of the primary elements that makes Asheville wonderful was under threat. We witnessed many trees being taken down all around the city, and we learned that Asheville has lost 7% of its tree canopy over the past 10 years. We were surprised to find that unlike Charleston and many other southeastern cities, the City of Asheville provides very little protection for existing trees. I urge City Council and the City Manager to stop taking our trees for granted. They provide us with so many benefits, financial, psychological, and aesthetic. Please hire an urban forester to help protect these natural treasures. Thank you. Bob Rymer	Bob Rymer bobrymer111@gmail.com
3/23/2020 16:30:23	Unfinished Business	A	We don't want our neighborhoods being additionally gentrified and built up. This development is not what I want for my community.	Bianca gragg 4106935504
3/23/2020 16:31:58	Informal Discussion & Public Comment	A	We the people, not just of color do not want any more gentrification of neighborhoods as the city has been allowing for years. Let's really stop with talks of making homes/apartments affordable and put actions within purpose in order. I feel that all are aware that projects for	Thomas Priester

			affordable housing over the past 10 years or so are not affordable.. if so why are we still having this conversation every year. How can one that does intend to access affordable housing or never lived by those means ..determines the fate or rate of what's affordable. Thank you	
3/23/2020 16:37:56	Informal Discussion & Public Comment	A	Preserving the green space is Asheville is necessary because it is the heart of Asheville and what gives us our identity. This is also important for climate change reasons and striving to keep our earth healthy and pollutant free/ somewhat free.	Harper Bolick - 8287820134
3/23/2020 16:38:08	Unfinished Business	A	As a native Ashevillian, I have seen this town flourish but not in a way that fosters prosperity for all. The gentrification of our Black neighborhoods is akin to the taking of our families home and land to build I-240 etc. decades ago without adequate compensation. The gentrification of our city has created a service industry economy where the people who work here can't afford to live here. Have you not learned that these developers only want to make money and not help the working poor? Let me say it this way: If all of the service industry workers have to move away because they can't afford housing, then who will be here to service these rich, self-entitled Gentrifiers? Vote No.	Kimberly Collins
3/23/2020 16:38:28	Informal Discussion & Public Comment	A	I think we should preserve more green space in Asheville especially with the current climate crisis. We need to do our part in preserving the Earth and air we breathe even if not many other people are doing it now. (I'm from AHS by the way)	Zola Ferraby (715-308-2108)
3/23/2020 16:38:36	Presentations & Reports	A	I want to make sure that trees are considered in all matters that occur with the city of Asheville. This would include the hiring of an urban forest or to oversee the preservation and restoration of our city's trees, I want Asheville to be known as a cool, green city.	Helen Rae Charbonneau, hrcharb@gmail.com, 864.884.9146
3/23/2020 16:38:45	Informal Discussion & Public Comment	E	Please keep Asheville green. Development just hurts the natural areas and the natural parts are what I love about Asheville.	Adele adwilliams@acsgmail.net

3/23/2020 16:41:00	Informal Discussion & Public Comment	Other	Asheville City Council, In the presence of our current crisis stemming from the COVID-19 epidemic, it is more important than ever to show community solidarity and to protect all of our people locally. As the Sunrise Movement, we demand the following health and safety actions from the City of Asheville and Buncombe County to insure a high quality of life for all: House and shelter our neighbors: Open hotel rooms free of charge to houseless people. Place a 2 month moratorium on rent, mortgage payments and utility bills, without expected back pay or interest. Place a 2 month moratorium on evictions. Provide food security: Set up food distribution centers in school districts to provide free, nutritious food for anyone who needs it while public schools are closed. Make free food delivery available for families in isolation. Protect incarcerated people and immigrant communities: Release non-violent offenders from prison and jail, and provide tests and prioritize the health of all remaining incarcerated people. Release nonviolent ICE-detainees and provide tests and prioritize the health of all remaining detained people. Cease any and all collaboration with ICE. Ensure the economic and physical wellbeing of working people: Provide fare free transit for the year. Protect health care workers and provide free health services for all people still working. Provide paid family sick leave to all city and county government employees. Invest in clean energy and local green jobs. Protect democracy: Implement contingency measures at the county level to ensure residents can fully participate in this fall's general election, including but not limited to creating an easier process for mail absentee voting. Create an expanded online system for public input, including but not limited to a virtual 3 minute public comment during Asheville City Council meetings.	Chloe Moore 508-723-2926 griffithquay@gmail.com

3/23/2020 16:42:13	Informal Discussion & Public Comment	A	Our earth is in great trouble as of right now. We need this green new deal to keep pushing forward and to be one of the top priorities in our Community. I am a high school student at Asheville High School and it is very important to me that we start making a change. This is our change. This is our way to have Asheville be one of the multiple city's that are having early realizations and helping to stop the fall of our world. Thank you,	Quinn Ray (# = 8282808055)
3/23/2020 16:44:36	Informal Discussion & Public Comment	A	Kudos to the Buncombe County Environmental Health Team for their response to our concern about a restaurant drive thru where the same person who handled money and cards was filling coffee cups and putting on the lids this morning. They got right on it and had them change their procedure so it's two separate people, not one. And they followed up with all the restaurants with drive thru to be sure they are doing it properly to help avoid the risk of passing on the covid-19 virus. Very much impressed, THANK YOU!	Dr. Christopher Pratt
3/23/2020 16:45:17	Informal Discussion & Public Comment	A	In re Urban Forester and Urban Forest Plan. The creation of an urban forest long range plan is a critical step for the City, an action which has substantial public support. I urge you to appropriate the necessary funds to hire a qualified forester who would be tasked with developing and overseeing implementation of such a plan. John Curry	John Curry jcurryavl@gmail.com
3/23/2020 16:48:50	Informal Discussion & Public Comment	A	I want the city of Asheville to hire an urban forester to preserve and manage our urban tree cover. I want a green Asheville.	Josette Parker Clark
3/23/2020 16:49:43	Consent Agenda	G	I believe the clause regarding to expanding bicycle and pedestrian infrastructure by a mere 5 miles is severely inadequate, particularly in regards to the scale of the I-26 expansion project. While I can agree that the road infrastructure is not ideal in many circumstances, the solution to the problem has been overlooked. The solution being, making Asheville and it's surrounding area's more connected via fully separated pedestrian and bicycle pathways. These take up far less room than expanding roads, can be implemented smoothly into existing infrastructure and will lessen the amount of drivers on the road. Imagine if you will that people who live in the southern region of Asheville's metro area had the possibility to bike along a protected cycle path all the way to downtown, or if there were pathways to easily get to a main corridor to utilize a direct bus route that would run more frequently than every 30 min. The number of people	Harris Wagner; phone 917 584 8973

			on the road in cars, would vastly decrease and decrease the traffic load. It is time for Asheville to put it's money where it's mouth is and make itself into a bike friendly area, if smaller municipalities can implement such changes like Brevard then surely this is within reason. When I think of bike friendly places I think of places where there are parks within riding distance from ones home and where one is not intimidated to merely ride across town. Almost every other mecca for biking has these features except for Asheville. (Durango CO, Moab UT, Salt Lake City UT, Missoula MT, Knoxville TN, etc.). Thank you for your time.	
3/23/2020 16:51:09	Informal Discussion & Public Comment	A	Thank you all for your commitment and service to the residents of Asheville. Seeing the trees taken out for the Haywood Streetscape project was a shocking and timely reminder to me of how much we rely on our trees for quality of life and health. I know that the best way for our community to have a specific and best practices plan for maintaining our urban canopy is to create the position of Urban Forester. We need the expertise and strategic approach a person in that position will bring. Thank you.	Rebecca Lance 8288088636
3/23/2020 16:51:23	Unfinished Business	A	I grow up around this part of Asheville, and I've noticed that most people don't acknowledge or pay attention to this area or the people who live here until it's time to create something that's never going to benefit the people who are already here. Most of these people are African Americans. This part has alway been a food desert, but I've never heard or seen anything trying to be done until this new development was in the works. A new development that's only going to benefit white people. If a new apartment complex is going to be made, it needs to be affordable to all.	Jayla Bunn jaylabunn@gmail.com
3/23/2020 16:52:28	Informal Discussion & Public Comment	A	I think it is vital for the city council to fund an Urban Forester and Comprehensive Urban Forest Master Plan. The city is approving so many new developments in an effort to address the need for affordable housing for our service industry workers as well as new hotels for our growing tourism industry, both are critical for our local economy, however should not come at the cost of the our environment. The preserved forests that we are lucky to be surrounded by are the reason that so many people come to our city. We must be committed to preserving not only the surrounding forest but also our urban forest in order to do our part in combating global climate change. Yes, We are facing an unknown pandemic; meanwhile, climate change continues to wreak havoc on the	April Morgan

			ecosystem, health and aesthetic appeal of Asheville. The City of Asheville needs professional guidance on how we turn this tide, manage our forest, prevent continued loss. From public meetings that I have attended, I have learned that there are NO ordinances to protect trees in Asheville unless they are on steep slopes. This is wrong! We need to get a professional plan to address this and only the addition of an urban forester can really devote the knowledge and focus to solving this problem. Thank you.	
3/23/2020 16:54:59	Informal Discussion & Public Comment	Other	It seems that the current COVID-19 pandemic has turned our lives upside down. At the same time, as a resident of the City of Asheville, I am calling on City Council and City Manager to stop disregarding the pressing need to act for the benefit of the entire Asheville community and to fund an Urban Forester and a Comprehensive Urban Forester Master Plan in the 2020/21 budget and to expedite the issuance of an appropriately updated tree ordinance that will disallow the removal of any large trees without a well-founded permit. The city has lost too many trees in the past decade, and the loss has not stopped since the publication of the results of the city's tree canopy study. The power of trees in helping mitigate the devastating effects of climate change must be used. It is a crime on Asheville's population if this knowledge continues to be ignored and defied by city staff and council. Inge	**Inge Durre ingedurre@gmail.com 828-989-3976**
3/23/2020 16:56:18	Informal Discussion & Public Comment	A	I am a highschool student and I want to preserve the green space in Asheville	Cali Fix. Email: califix03@gmail.com
3/23/2020 16:56:35	Consent Agenda	F	I should hope that this would include power to implement widespread testing for the novel COVID-19 disease. This is a unique opportunity for Asheville to get ahead of the curve of many other cities in the US and show what is possible with greater knowledge and take example from other countries around the world such as South Korea. Please do not let us down, the everyday public who live full time in Asheville are in dire straits.	Harris Wagner; phone 917 584 8973

144

3/23/2020 16:56:58	New Business	A	As a city resident and homeowner I am distraught at the number of trees we are loosing and the apparent lack of a cohesive plan to remain a city with ANY greenery. The clear cutting for the housing development off Biltmore Avenue is so disappointing . Certainly some trees could have been preserved. The current tree clearing on Weaver Boulevard that allows a local builder to build a private home along a beloved greenway is just too much. Yes we need housing but we need sensible, rational permitting with long term thinking. The Weaver Boulevard building is an arrogant project enabled by city permitting. The loss of continuity along that greenspace is priceless. At very least can we make specific recommendations to the builder for replanting the dozens of trees they have eliminated? The entire neighborhood is dismayed at this building and they are paying close attention. Please drive or walk along Weaver Boulevard to witness this for yourself. Was UNCA given the option to purchase this land ?? Thank you for reading thus far.	Alisa Hixson ajhixson@gmail.com
3/23/2020 17:04:56	Unfinished Business	J	We need anUrban Forester and Comprehensive Urban Forest Master Plan in this year's budget. Or we need a City Government and Manager who can get that done. Not doing this will be one more nail in the Asheville Coffin. Thanks	Dennis Whte 3 Sunset Vw, Asheville 828.205.1484

Tuesday – April 14, 2020 - 3:00 p.m.

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes (participating remotely via speaker phone); Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith (participating remotely via speaker phone); Councilman W. Keith Young (participating remotely via speaker phone); City Manager Debra Campbell; and City Clerk Magdalen Burleson

Budget Worksession

City Manager Campbell, along with Assistant Finance Director for Budget & Forecasting Tony McDowell, provided the City Council with an update on the current year budget and a review of the Fiscal Year (FY) 2020-21 budget process.

Ms. Cambell said that COVID-19 will severely impact revenues. Operational changes include fare-free transit; fee on-street and garage parking; deferring/waiving some leases, monthly charges and loan payments; contribution to One Buncombe Fund; and sheltering at the Harrah's Center.

She said some key takeaways are (1) we are operating in the grey; (2) decisions will need to be made with limited information about the length and severity of the economic downturn from COVID-19; and (3) Manager's FY recommended budget will likely be a continuation budget with no new services or enhancements.

Mr. McDowell said that regarding the current year summary, (1) spending will continue for essential services; (2) implementing targeted, strategic reductions and/or delays in spending where possible; (3) General, Parking and Harrah's Cherokee Center Asheville funds are likely needed to utilize fund balance, as expenses will exceed revenues; and (4) federal/state assistance will help to mitigate financial impact.

He showed a chart of the FY 2019-20 General Fund Revenues. Property Tax - (1) on budget, but lower estimate; and (2) most revenue comes in during winter - 99.15% of levy collected as of March; (3) County Tax Office estimated collection rate for Asheville: current year: 99.25% - 99.30%; last fiscal year: 99.95%. Sales Tax - (1) substantially under budget, but decline very difficult to predict; (2) march sales data not available until June; and (3) estimates for remainder of fiscal year: NC League of Municipalities 20% decline; and Buncombe County assuming 35% decline. Other losses (1) State utility taxes - electricity consumption down from reduced commercial activity; (2) Investment earnings - interest rate reduction; (3) Development fees - slowdown in new construction activity; (4) WNC Nature Center - currently closed; and (5) Recreation fees - no programming provided. Unknowns include (1) breadth and depth of decline in sales taxes; (2) potential state action to delay revenues (a) suspension of motor vehicle registrations; and (2) deferment of sales tax payments; and (3) potential for federal and state assistance. Using a chart, Mr. McDowell showed the FY 20 General Fund revenue losses - potential loss of $4 Million.

General Fund expenditures (1) spending priorities (a) current personnel; (b) essential services; (c) COVID-19 response; and (d) implementing $31,200 on May 8 paycheck and addressing the associated compression (estimated impact of $75,000); and (2) targeted reductions (a) hiring freeze for existing vacancies; and (b) delay or forego operating expenses.

Mr. McDowell then reviewed the fiscal impact of COVID-19 for the current year on the Enterprise Funds - Harrah's Cherokee Center Asheville - estimated fund balance impact of $100,000; Parking services - estimated fund balance impact of $1.5 Million of $2.2 Million

available; Transit Services - estimated shortfall of $300-500,000 (federal assistance will help offset COVID-19 impacts); Water Services - overall, no major financial impact through June 30; and Stormwater & Street Cut - no major financial impact expected at this time.

The financial impact summary (1) General Fund projected fund balance decline of $2.8 Million - $5.5 Million; (2) Parking Services Fund projected fund balance decline of $1.5 Million; and (3) other Enterprise Funds unlikely to experience major financial impact in the current year.

The FY 2020-21 budget planning summary includes (1) budget decisions for next fiscal year need to be delayed as long as possible; (2) General Fund revenue projections have been reduced; and (3) implementing new services or program enhancements will need to be delayed.

Mr. McDowell then reviewed the revised budget calendar to indicate the Manager's proposed budget will be presented on May 26 (not May 12); the budget public hearing will be held on June 9 (not May 26); and adoption of the budget on June 23 (not June 9).

Regarding an interim budget option (1) state statutes allow for the adoption of an interim budget; (2) Asheville and many North Carolina local governments adopted interim budgets in FY 03 due to uncertainty over state reimbursement revenue; (3) utilized interim budget in FY 03 for two month; and (4) consider only if other local governments in the state are doing the same.

FY 2020-21 unknown include (1) How far will sales tax revenue fall; (2) how quickly will economic growth return; (3) will property tax collection rates decline due to the economic crisis; (4) will City facilities have to shut down for any length of time after July 1; and (5) when and how much assistance will the City receive from the federal and state government.

He reviewed the FY 21 baseline revenues for sales tax, property tax and other.

He then reviewed the FY 21 budget baseline expenditures (which budget still includes funding) for (1) implementation of $31,200 minimum and addressing related compression; (2) state mandated increase in retirement contribution; and (3) continuation of transit service enhancements that began in January 2020 and paratransit cost increase. Changes include (1) hiring freeze for currently vacant positions; (2) elimination of employee pay adjustment (cost of living adjustment); (3) maintenance of current year amount for OPEB contribution; capital debt model contribution; Health Fund contribution; and Department operating budgets; and (4) fund River Arts District Transportation Improvement Project maintenance for partial year.

FY 21 baseline budget summary includes options for balancing the budget (1) Fund Balance; (2) revenue adjustments; and (3) further reductions to operating budgets.

Mr. McDowell then reviewed some strategic investment requests along with strategic investments in transit, compensation, and sustainability.

Updates to the key takeaways from the retreat include (1) even more uncertain economic outlook; (2) minimal revenue growth will be used up by ongoing operating cost increases, even after making reductions to expenditures; and (3) while enhancements can be considered if the fiscal picture improves later in the year, additional revenue will be needed to fund any new capital and operating investments.

Next steps include (1) adjustment of the budget adoption schedule; (2) monitor economic trends and adjust estimates as needed; and (3) work to balance the general fund budget over the next few weeks.

Throughout the presentation, City Manager Campbell and Mr. McDowell responded to various questions/comments from Council. For those questions that were unable to be answered immediately, responses will be sent to Council.

Mayor Manheimer adjourned the budget worksession at 4:32 p.m.

Tuesday – April 14, 2020- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes (participating remotely via speaker phone); Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith (participating remotely via speaker phone); Councilman W. Keith Young (participating remotely via speaker phone); City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

At the request of Vice-Mayor Wisler, Consent Agenda Item "P" was removed from the Consent Agenda for discussion and/or individual votes.

A. MOTION TO ALLOW REMOTE PARTICIPATION BY ALL COUNCIL MEMBERS DURING PUBLIC MEETINGS THROUGHOUT THE DURATION OF THE LOCALLY DECLARED STATE OF EMERGENCY. PARTICIPATION INCLUDES VOTING ON ALL MATTERS, AND SHALL COUNT TOWARDS A QUORUM OF THE COUNCIL

B. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 24, 2020

C. RESOLUTION NO. 20-58 - RESOLUTION SETTING A PUBLIC HEARING ON MAY 12, 2020, TO CONSIDER A LAND USE INCENTIVE GRANT FOR 2 RESTAURANT COURT RENTAL COMMUNITY, BEAUCATCHER VISTA LLC

Action Requested: Adoption of a resolution to set a public hearing on May 12, 2020, to consider a Land Use Incentive Grant application for 2 Restaurant Court Rental Community, Beaucatcher Vista LLC.

Review::

- Kirk Booth d/b/a as Beaucatcher Vista LLC has proposed the development of a 40-unit, 100% affordable multifamily property on a 1.31 acre parcel located at 2 Restaurant Court (PIN #9658-08-2350) in Asheville directly off of Tunnel Road. All 40 units are intended to be 1 bedrooms, with 30 of the units set aside for households at or below 60% of Area Median Income (AMI) and the remaining 10 for 80% AMI households.

- The property is situated in close proximity to commercial and transit amenities, including an ART bus stop, an Ingles grocery and pharmacy, and a number of potential employers. These are all factors prioritized in the LUIG policy.

Proposal:

- The property's location and commitment to affordable housing merits a score of 150 on the LUIG scoring matrix, resulting in an award period of 21 years. The City's LUIG policy caps award terms at 20 years plus 1 from the date of release of all occupancy permits for the property.
- The current assessed value of the parcel is $786,000 with an annual City tax obligation of $3,371.15. An estimate of post-construction value from the developer is $4,000,000. True valuation will be determined by Buncombe County Tax Assessor after project completion.
- A project valued at $4,000,000 at the current City tax rate of 0.4289 would result in an annual grant award of $13,784.85. Over the 21 year award period, the total value of the LUIG award would amount to $289,481.85.
- This request will be presented in unison with a $1,000,000 Housing Trust Fund request. The combined City subsidy should both awards be approved is $1,289,481.85, or a total City subsidy of $32,237.05 per affordable unit.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- None

Pro(s):

- The proposed project will create 40 affordable rental housing units made available to households earning 80% or less of AMI for a period of 21 years.
- The proposed project addresses the City's stated priority for one-bedroom apartments.

Con(s):

- None

Fiscal Impact:

- The parcel has a current tax value of $786,000 and with an annual City of Asheville tax bill of $3,371.15.
- The estimated tax value upon completion is $4.0M, which at current rates would result in a City tax bill of $17,156. The difference in tax payment is $13,784.85. An equivalent amount would be granted back annually to the property owner for 21 years.
- The maximum term of a LUIG is 20 years plus 1. Therefore, over a period of 21 years, the estimated value of this LUIG award is $289,481.85

Motion:

- Motion to adopt a resolution to set a public hearing on May 12, 2020, to consider a Land Use Incentive Grant application for 2 Restaurant Court Rental Community, Beaucatcher Vista LLC.

RESOLUTION BOOK NO. 41 - PAGE 267

D. RESOLUTION NO. 20-59 - RESOLUTION APPROVING (1) A MODIFICATION TO A 2018/19 COMMUNITY DEVELOPMENT BLOCK GRANT APPLICATION, ORIGINALLY AWARDED TO POSITIVE YOUTH CHANGES MINISTRY

ALLOWING THE AWARD TO INSTEAD BE MADE TO THE YOUNG MEN'S INSTITUTE CULTURAL CENTER; (2) AUTHORIZATION FOR COMMUNITY DEVELOPMENT TO SUBMIT AN UPDATE TO THE 2018-29 CONSOLIDATED ACTION PLAN FOR CDBG AND THE HOME INVESTMENT PARTNERSHIPS PROGRAM PROGRAMS TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT; AND (3) AUTHORIZATION FOR THE CITY MANAGER TO SIGN ALL DOCUMENTS NECESSARY TO IMPLEMENT THE PLAN

Action Requested: Approval of (1) a modification to a 2018/19 CDBG Grant Application, originally awarded to Positive Youth Changes Ministry (PCYM) allowing the award to be made to the Young Men's Institute (YMI) Cultural Center (CC); (2) authorization for Community Development to submit an update to the 2018-19 Consolidated Action Plan for Community Development Block Grants (CDBG) and the HOME Investment Partnerships Program (HOME) programs to the U.S. Department of Housing and Urban Development (HUD); and (3) authorization for the City Manager to sign all documents necessary to implement the plan.

Background:

- The City awarded $175,000 to PCYM, a new non-profit working in partnership with the Young Men's Institute Cultural Center (YMI CC), in the Spring of 2018 to implement a Youth Elevation Collaborative Program, a workforce development program.
- During the early stages of the program year, in conjunction with technical assistance from staff and consultants, and with the dissolution of the original partnership around PCYM, City Staff began working with YMI CC to find a way to move the application forward in the spirit of the original program while being mindful of HUD regulations.
- City Staff, working in partnership with YMI CC, came to the conclusion with PCYM and YMI CC that YMI CC would be a better fit as lead applicant with their experience in workforce development and community access and could offer a program substantially similar to the one PCYM had proposed as lead and that been awarded.
- A modified application is acceptable to HUD when partnership changes occur as long as the modified application is then added as an amendment to the appropriate HUD Consolidated Action Plan.

Proposal:

- This modified application, being submitted by the YMI (Young Men's Institute) Cultural Center, is a workforce and entrepreneurial development initiative of the YMI Cultural Center in collaboration with Positive Changes Youth ministries.
- The initiative will focus on employment and careers in Hospitality, Medical, Manufacturing, and Municipalities(HMMM), while also promoting economic upward mobility of our lower-income communities' members with the development of a skilled workforce in these 4 major industries in our area.
- With this initiative, YMI will be developing this "Continuum of Success" Program for the entrepreneur, unemployed, youth, hard to employ and the underemployed as well as with the employers/stakeholders.
- The business development and incubation component will support the building of capacity or the future development of minority businesses.
- Proposed outcomes will be job creation and job retention with a focus on our low income, marginalized and disenfranchised population..
- In considering economic upward mobility, YMI CC will also be introducing/reintroducing Asheville youth to the trade fields and other opportunities.
- A major focal point of this project will be the convening of a bi-monthly meeting of all the workforce development agencies and stakeholders to combine the siloed conversations and initiatives for a more strategic implementation of a solution based program that meets local economic/workforce development needs.

- YMI will establish the Asheville Workforce Action Team (AWAT) – which will consist of stakeholders, employees/participants, educators, community leaders and a member of the Community Development Division, to form a Public Private Workforce Development Team.

Council Goal(s):
- A Diverse Community
- Thriving Local Economy

Committee(s):
- None

Pro(s):
- Approval of this project and update to the 18/19 Consolidated Action Plan will assist in the movement of these HUD dollars into our community.
- "Continuum of Success", when fully funded and operational, will lead to job creation and job retention.
- Approval of this project will support a Bi-monthly meeting of all Workforce Development Partners to work in collaboration, focus and partnership versus the siloed efforts of today.

Con(s):
- None

Fiscal Impact:
- None

Motion:
- Move to adopt the resolution to (1) approve modification to the 2018/19 CDBG Grant Application originally awarded to PCYM, allowing the award to instead be made to YMI CC; (2) authorize the update of the City's Consolidated Annual Action Plan for 2018-2019 to the U.S. Department of Housing and Urban Development; and (3) authorize the City Manager to execute any and all documents giving effect to this resolution.

RESOLUTION BOOK NO. 41 - PAGE 268

E. RESOLUTION NO. 20-60 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND A CONTRACT WITH PASSPORT LABS FOR PARKING CITATION MANAGEMENT

Action Requested: Adoption of a resolution authorizing the City Manager to amend contract # 91800137 with Passport Labs, increasing the total value of the contract to $405,000, for parking citation management.

Background:
- The City of Asheville entered into a contract with Passport Labs in September 2017 for management of the City's parking citations.
- The fee structure paid to Passport Labs on a monthly basis is dependent on three factors including:
  1) the number of parking citations issued ($3.00 per citation),
  2) the total amount of parking fines and late fees collected (35% of amount collected), and
  3) the number of delinquent payment letters mailed to vehicle owners ($1.25 per letter).
- Staff initially estimated the average fee structure to be paid to Passport Labs at $6,600 per month.

- Currently, the average monthly fees paid have been closer to $9,000 per month, which is reflective of an increase in fines/fees paid to the City, an increase in the number of citations accruing late fees, and an increase in the actual monetary value of specific fines and late fees asscciated with all parking violations.

Vendor Outreach Efforts:
- N/A - this is a current contract.

Council Goal(s):
- Transportation and Accessibility.

Committee(s):
- None

Pro(s):
- Enables the City to continue to provide efficient parking management resources.

Con(s):
- None

Fiscal Impact:
- The cost of regulating and administering parking is included in the current operating budget.

Motion:
- Motion to approve a resolution authorizing the City Manager to amend contract #91800137 with Passport Labs, increasing the total value of the contract to $405,000, for parking citation management.

RESOLUTION BOOK NO. 41 - PAGE 269

F. ORDINANCE NO. 4796 - BUDGET AMENDMENT FROM WORKERS' COMPENSATION INSURANCE RECOVERY FUNDS FOR OTHER WORKERS' COMPENSATION CLAIM EXPENSES THROUGH JUNE 30, 2020

Action Requested: Adoption of a budget amendment to appropriate $465,000 in workers' compensation insurance recovery funds for other workers' compensation claims expenses through June 30, 2020.

Background:
- Since July 1, 2019, the City of Asheville (City) self-insured workers' compensation program has received workers' compensation insurance claim reimbursements that have exceeded the initial budget.
- $465,000 of the reimbursed insurance funds are requested to be utilized for workers' compensation claims expenses to be incurred through June 30, 2020.

Council Goal(s):
- Vision - Smart City; striving to control City costs and provide the highest possible level of service.

Committee(s):
- N/A

Pro(s):

- Provides reimbursed funds to be utilized as needed through June 30, 2020.

Con(s):
- None.

Fiscal Impact:
- Insurance recovery funds were deposited into the City's Workers' Compensation Fund. Upon City Council approval, the funds will be utilized for workers' compensation claims expenses.

Motion:
- Motion to adopt a budget amendment in the Workers' Compensation Fund in the amount of $465,000 from insurance recovery funds to be utilized for other claims expenses through June 30, 2020, as needed.

ORDINANCE BOOK NO. 33 - PAGE 59

G. RESOLUTION NO. 20-61 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND IF AWARDED, ACCEPT FUNDING FROM THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR FUNDING FOR FISCAL YEAR 2022 THROUGH FISCAL YEAR 2026 TRANSPORTATION FUNDING AND EXPRESSING SUPPORT FOR PROJECTS SUBMITTED BY THE N.C. DEPT. OF TRANSPORTATION DIVISION 13

Action Requested: Adoption of a resolution authorizing the City Manager to apply for, and if awarded, accept funding from the French Broad River Metropolitan Planning Organization (FBRMPO) for Fiscal Year (FY) 2022 through FY 2026 for approximately $21,000,000 in transportation funding and expressing support for projects submitted by the North Carolina Department of Transportation (NCDOT) Division 13.

Background:
- In January 2020, the FBRMPO issued a call for projects as part of the Surface Transportation Block Grant (STBG-DA) and Transportation Alternatives (TAP-DA) programs. These federal funds are awarded on a competitive basis through a call for projects that is typically held every two years. In this funding cycle, the FBRMPO is awarding five years worth of funding instead of two.
- The total available amount of funding in this grant cycle for the three-county FBRMPO area is $28.2 M and will be available in FY 2022 through FY 2026. The grant requires a minimum 20% local match.
- The call for projects is open to local governments in the FBRMPO area which includes the counties of Buncombe, Henderson, Haywood, and Madison. In addition, the NCDOT Division 13 and 14 Offices may apply for the funds with the support of the affected jurisdiction.
- The City proposes to apply for approximately $21 M in grant funds for six multimodal projects.
- The projects that are proposed are priority projects that have not yet been funded through the City's Capital Improvement Program (CIP) (except for limited funding for the Hazel Mill Sidewalk project). Additionally, several of the projects were chosen because they have a higher potential for partnership funding, such as from the Tourism Development Authority (TDA), which would reduce or eliminate providing the local match from the City's budget.
- Additionally, NCDOT plans to apply for four projects within the City of Asheville and has requested City support/concurrence with their proposed projects. All of NCDOT's

suggested projects focus on pedestrian safety improvements. If NCDOT projects are awarded, the City would not be responsible for funding the match.

- City staff and NCDOT Division 13 intend to apply for grants for the projects listed below. The projects are not in priority order. The scoring matrix used by the MPO prioritizes all the projects. The City is responsible for submitting projects that we support that best meets the scoring matrix and has the best potential of being funded.
- The projects will be scored by the FBRMPO. The City's prioritization of the projects does not affect the outcome of the selected projects. The MPO's matrix determines which projects are selected.

City of Asheville Proposed Projects

Project Name	Requesting Agency	Proposed Federal Ask	COA Match	Total Project Cost
Coxe Avenue Complete Street	COA	$9,040,000	$2,260,000	$11,300,000
Haywood St./Page Ave./Flint Street Improvements	COA	$6,800,000	$1,700,000	$8,500,000
North RADTIP Greenway (Hill St. to Pearson Bridge Rd)	COA	$2,560,000	$640,000	$3,200,000
Hazel Mill Rd. Sidewalk	COA	$1,600,000	$400,000	$2,000,000
Pedestrian and School Zone Improvements	COA	$660,000	$165,000	$825,000
Lee Walker Heights at Biltmore Ave. Traffic Signal	COA	$352,000	$88,000	$440,000
COA Requests Total		**$21,012,000**	**$5,253,000**	**$26,265,000**

NCDOT Proposed Projects

Project Name	Requesting Agency	Proposed Federal Ask	COA Match	Total Project Cost
Haywood Rd. Upgrades (pedestrian improvements, resurfacing, lighting)	NCDOT	$7,775,000	$0	$9,723,624
Charlotte St./I-240 Interchange (pedestrian improvements)	NCDOT	$628,250	$0	$1,378,250
NC112/Sandhill Rd. Intersection (turn lane and pedestrian improvements)	NCDOT	$336,000	$0	$421,000
Broadway Sidewalk (existing to Riverside Dr.)	NCDOT	$310,000	$0	$488,959
NCDOT Requests Total		**$9,049,250**	**$0**	**$12,011,833**

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- If awarded, these projects represent a significant investment in multimodal transportation infrastructure over a five-year period.
- All of the proposed projects are identified capital needs that align with city goals.
- Several of the projects present an opportunity for partnership with the TDA.

Con(s):

- Depending on which, if any, of the City's proposed projects are awarded, the maximum total matching funds that would need to be programmed in the City's CIP in FY 2022 to FY 2026 would be $5,253,000. This represents a 20% match.

Fiscal Impact:

- The total required local match is $5,253,000 over a five year period (if all projects were awarded). Except for the potential match for the Hazel Mill Road sidewalk project, none of the funding for the other matches is currently included in the City's five-year CIP cash flow model. There may be an opportunity to leverage additional funding from outside organizations to contribute to the local match, however additional City resources may need to be dedicated to the CIP during upcoming budgets in order to fund the City match.

Motion:

- Motion to adopt a resolution authorizing the City Manager to apply for and, if awarded, accept funding from the French Broad River Metropolitan Planning Organization for FY 2022 through FY 2026 for approximately $21,000,000 in transportation funding and expressing support for projects submitted by NCDOT Division 13.

RESOLUTION BOOK NO. 41 - PAGE 270

H. RESOLUTION NO. 20-62 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION CONTRACT WITH B.H. GRANING LANDSCAPING INC. FOR SHILOH PARK IMPROVEMENTS

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a construction contract with B.H. Graning Landscapes, Inc. of Sylva, NC, in the amount of $131,313.86 and to further authorize change orders up to the contingency amount of $13,130 (10%) for Shiloh Park improvements.

Background:

- The project upgrades were identified in the Parks Equity Scoring Criteria and will address a maintenance backlog of facilities within the park including sport courts (basketball, tennis, pickleball), walking trails, and site furniture.
- This project will improve the appearance, usefulness, and safety of facilities, and help the department implement recommendations within the Parks, Recreation, Cultural Arts Master Plan adopted by City Council in 2009. The project is expected to last 60 days.
- The following three bids were received and opened on December 12, 2019:

o B.H. Graning Landscapes, Inc., Sylva, NC	$131,313.86
o Bryant's Land & Development, Burnsville, NC	$153,950.00
o French Broad Paving Marshall, NC	$161,545.00

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business enterprises (MWBE) through solicitation processes which include posting on the State's Interactive Purchasing System, targeted outreach with the City's Business Inclusion Manager, and requiring

prime contractors to reach out to MWBE service providers for subcontracted services. No MWBE firms submitted bids.

Council Goal(s):

- A Clean and Healthy Environment & a Well-Planned and Livable Community.

Committee(s):

- Recreation Advisory Board (November 10, 2019) - project status update

Pro(s):

- Addresses priority infrastructure and safety improvements in communities identified in the Parks Equity Criteria Based System.
- Implement recommendations within the Parks, Recreation, Cultural Arts Master Plan adopted by City Council in 2009.

Con(s):

- None

Fiscal Impact:

- Funding for this contract exists within the approved City Capital Budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a construction contract with B.H. Graning Landscapes, Inc. of Sylva, NC, in the amount of $131,313.86 and to further authorize change orders up to the contingency amount of $13,130 (10%) for Shiloh Park improvements.

RESOLUTION BOOK NO. 41 - PAGE 271

I. RESOLUTION NO. 20-63 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH HARRISON CONSTRUCTION COMPANY DIVISION OF APAC ATLANTIC, INC. FOR THE FISCAL YEAR 2020 ASPHALT RESURFACING CONTRACT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Harrison Construction Company Division of APAC Atlantic, Inc. in the amount of $1,989,899.25 plus a 15% contingency of $298,484.89 ($2,288,384.14 total) for the Fiscal Year (FY) 2020 Asphalt Resurfacing contract.

Background:

- The main scope of the project is the resurfacing of 19 streets for a total of 3.83 miles. Also included will be repairs to the concrete sidewalk, ADA improvements, and the installation of 3,800 feet of stand-up curb and 300 feet of curb and gutter.
- The project was advertised on February 21, 2020, and bids were opened on March 12, 2020.
- The following bids were received:

Harrison Construction Co. Division of APAC Atlantic Inc., Asheville, NC	$1,989,899.25
French Broad Paving, Marshall, NC	$2,120,623.50
Bryant Land and Development Industries, Burnsville, NC	$2,497,616.25
Rogers Group, Inc., Nashville, TN	$2,748,060.70

- Construction is anticipated to start in June and take six months.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned businesses through solicitation processes which included posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- No minority or women-owned business enterprises submitted a bid to be the prime contractor on the project.
- MWBEs will be performing the utility adjustments, pavement marking installations, and part of the paving. These items amount to 32% of the project expenditures.

Council Goal(s):
- This action complies with Council's 2036 vision for transportation and accessibility.

Pro(s):
- Provides for the repair and resurfacing of 19 poorly rated roads.
- Will make the sidewalks more ADA-compliant.

Con(s):
- Possible disruption to traffic flow.
- Efforts will be made to minimize disruptions to the neighborhoods and to traffic during construction.

Fiscal Impact:
- Funding is provided in the FY 2020 Streets Program. This funding is part of the annual resurfacing program and is not bond-funded. The total cost of this contract, including contingency, is $2,288,384.14.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Harrison Construction Company Division of APAC Atlantic, Inc. in the amount of $1,989,899.25 plus a 15% contingency of $298,484.89 for a total of $2,288,384.14 total for the project known as FY 2020 Asphalt Resurfacing.

RESOLUTION BOOK NO. 41 - PAGE 272

J. RESOLUTION NO. 20-64 - RESOLUTION APPROVING A FEE WAIVER FOR AHOPE'S SHELTER REHABILITATION PROJECT LOCATED AT 19 NORTH ANN STREET (HOMEWARD BOUND) AND AUTHORIZATION FOR CITY MANAGER TO EXECUTE ANY DOCUMENTS NECESSARY FOR THIS APPROVAL

Action Requested: Approval of a Fee Rebate/Waiver Request for the AHOPE Day Center Renovations for Homeward Bound.

Review:
- Homeward Bound submitted architectural drawings for the rehabilitation of their day center "AHOPE" at 19 N Ann Street, Asheville 28801. At this location, Homeward Bound provides services such as showers, bathroom facilities, mail, common areas among others to as many as 180 people daily who are experiencing homelessness.
- Homeward Bound has owned and operated this building for decades and it is now in need of a complete rehabilitation. The work to be done includes a new and bigger bathroom and shower facilities, to include a total of 6 showers, over 300 lockers for client storage, nap rooms, phone charging stations, common areas, mailroom, meeting rooms, offices and other spaces for various services.

- Since 1987, Homeward Bound, a non-profit 501 (c) 3 organization (Initially Hospitality House) has been working diligently to help members of our community experiencing homelessness find housing and access many other necessary community services.
- As a non-profit, Homeward Bound is requesting a Fee Rebate or Waiver from the Community Development Division / Development Services Department for the rehabilitation work to occur at AHOPE to assist with their budget and to fulfill their mission.

Proposal:

- In the Fee Rebate Policy updated on October 22, 2019, Resolution #19-244, the Affordable Housing Minimum Requirements to Qualify for a 100% grant rebate on the affordable unit as it pertains to this AHOPE Renovation -
  - The proposed development must be within Asheville City limits.
  - Affordability where at least 20% of the units target individuals & families under 30% AMI or those homeless or in danger of being homeless, i.e. taking an individual or family off the Homeless By-name List.
  - A project can be either new construction or rehabilitation.
- Under Additional Guidance & Underwriting, Housing Types in the Policy -
  - All housing types will be considered, including rental units and homeownership units, condos, townhomes & single-family homes. Other housing types may be considered upon request.
- Under Fee Waivers in the Policy -
  - Certain Fees eligible for rebates as described above, may be waived upfront on a case by case basis based on a developer's affordable housing experience and demonstrated financial need of the project upon approval by City Council. Fees related to utilities funded by enterprise funds (i.e. water) may not be waived.
- City Staff agrees that AHOPE should be considered as a Housing Type as it provides daily housing services to our most in need population, our homeless and in danger of being homeless.
- City Staff agrees that AHOPE meets all of the qualifications for a 100% rebate based on the Fee Rebate criteria noted above as it would pertain to a rehabilitation.
- City Staff recommends that AHOPE be considered for a Fee Waiver based on the fact that they qualify for a 100% fee rebate, that have demonstrated a financial need for the project that justifies a waiver and based on Homeward Bound's Affordable Housing & Homeless experience.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- None

Pro(s):

- The proposed rehabilitation will continue to provide daily housing services to our most vulnerable population;
- The proposed rehabilitation charges no daily housing charge;
- Homeward Bound uses the "Housing First" national best practice to end homelessness, in line with the City of Asheville's Community Development Division and our Continuum of Care Grant.
- AHOPE is often the only place that people who live outside and are homeless can go for services.
- AHOPE serves as a hub of information and connection to other community resources to assist our homeless population.

- Approving the fee waiver for this rehabilitation will allow AHOPE to remain open, expand and improve services for the homeless population, and continue to remain an asset and resource to our homeless population.

Con(s):
- None noted

Fiscal Impact:
- Fee Rebates had a limited budget of $85,000 for Fiscal Year 19/20 which have been depleted. Fees associated with this rehabilitation are estimated at approximately $12,000, not to exceed $15,000. With a Council approved waiver, the Department of Development Services would receive no fees from this project and the Fee Rebate budget would not be affected.

Motion:
- Motion to approve a fee waiver for the rehabilitation of Homeward Bound's AHOPE Day Center.

RESOLUTION BOOK NO. 41 - PAGE 273

K. RESOLUTION NO. 20-65 - RESOLUTION AMENDING THE 2020 CITY COUNCIL MEETING SCHEDULE TO CANCEL THE APRIL 28, 2020, FORMAL CITY COUNCIL MEETING

RESOLUTION BOOK NO. 41 - PAGE 274

L. RESOLUTION NO. 20-66 - RESOLUTION AUTHORIZING THE CITY MANAGER TO GRANT A DRIVEWAY EASEMENT TO A PROPERTY OWNER ON BEVERLY ROAD

Action Requested: Adoption of a resolution authorizing the City Manager to grant a driveway easement to a property owner on Beverly Road.

Background:
- The City was approached by an attorney representing a new property owner on Beverly Road in Asheville. It had been discovered that the driveway of a long existing residence encroached on land owned by the City of Asheville and the property owner requested an easement from the City.
- The driveway was extending onto the Ann Patton Joyce Park by approximately 194 square feet.
- The Real Estate Division consulted the Parks and Recreation Department to determine whether they would object to the granting of this easement.
- The Parks and Recreation Department indicated that the driveway was on the northern tip of the passive park and would not impact the usability of the park or its aesthetics.
- The new property owner (Andrew Lanteri) supplied an appraisal and a survey and has agreed to pay fair market value for the easement area.

Council Goal(s):
- A Well Planned and Livable Community

Committee(s):
- None

Pro(s):

- This action by the City will allow the sale of a single family residence to proceed.
- The City is receiving compensation based on fair market rates.

Con(s):
- The easement will require staff time to process and action at a city council meeting.

Fiscal Impact:
- The City is disposing of a small amount of land (194 SF) and will receive revenue in the amount of $1,202.80 plus the real estate transaction fee of $280.

Motion:
- Motion to approve the resolution authorizing the City Manager to grant this easement to a private property owner.

RESOLUTION BOOK NO. 41 - PAGE 275

M. RESOLUTION NO. 20-67 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BROWN AND CALDWELL FOR PROFESSIONAL SERVICES ASSOCIATED WITH THE NORTH FORK WATER TREATMENT PLANT'S SODIUM BICARBONATE SILO REPLACEMENT

RESOLUTION NO. 20-68 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH HARPER GENERAL CONTRACTORS FOR PROFESSIONAL SERVICES ASSOCIATED WITH THE NORTH FORK WATER TREATMENT PLANT'S SODIUM BICARBONATE SILO REPLACEMENT

Action Requested: Adoption of resolutions authorizing the City Manager to increase the professional services and contract amounts for Brown & Caldwell SA (#91800305) and Harper General Contractors (#94900315) for the North Fork Water Treatment Plant's Sodium Bicarbonate Silo Replacement.

Background:
- Sodium bicarbonate is an essential part of the water treatment process to help reduce the corrosion in the City's and customers' waterlines. The City is required to use sodium bicarbonate per our compliance with the Lead and Copper Rule.
- Original feed system was installed in 1996 and had reached the end of its useful life. Construction for the replacement of the silo started in August of 2019. During the course of the project, engineering services were expanded in oversight and design as a result of the discovery of complications associated with underground assets and poor soil conditions.
- The construction schedule was impacted due to the investigations, test results, and updating of the design due to the underground complications.

Vendor Outreach Efforts:
- Through a qualifications-based selection process beginning in August of 2014, City of Asheville staff selected nine consulting firms to provide on-call professional services for an array of different water system projects.
- Staff selected Brown and Caldwell as one of the selected firms due to their expertise in the areas of water treatment plant construction and upgrades.
- The City of Asheville entered into a master agreement with Brown and Caldwell on June 8, 2015 for on-call professional services valid for three years with the option to renew for two additional years.

- On April 19, 2018, the City of Asheville executed a renewal master agreement with Brown and Caldwell for the additional two years of on-call professional services.
- Harper General Contractors was one of three companies determined to be the lowest responsive, responsible bidder for construction of the Sodium Bicarbonate Silo and associated equipment and demolition services.
- This is a continuation of contracted services utilizing existing vendors. No additional outreach was performed.

Council Goal(s):
- A Clean and Healthy Environment

Committee(s):
- None

Pro(s):
- Increased funds will ensure the completion of the required project with proper functionality.
- The Water Resources Department will continue to meet the Environmental Protection Agency Lead and Copper Rule.

Con(s):
- City (Water Resources) would not be able to meet the Environmental Protection Agency Lead and Copper Rule.

Fiscal Impact:
- Brown and Caldwell (SA #91800305) - $36,200
- Harper General Construction (#91900315) - $20,000
- Funding for this repair will come from Water Resources capital improvement funding that was previously allocated to NCDOT projects which are delayed and will not require payment in the current fiscal year.

Motion:
- Motion to approve additional funds and change orders to the Brown and Calwell contract and the Harper General Contractors contract involved in the construction of the sodium bicarbonate silo and feed system at the North Fork Water Treatment Plant.

RESOLUTION NO. 20-67 - RESOLUTION BOOK NO. 41 - PAGE 276
RESOLUTION NO. 20-68 - RESOLUTION BOOK NO. 41 - PAGE 277

N. RESOLUTION NO. 20-69 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE ANY AGREEMENTS REGARDING DONATIONS TO THE HOUSING TRUST FUND, WITH PERMISSION OF THE DONOR, TO UTILIZE THOSE FUNDS IN A DIFFERENT CAPACITY IN ORDER TO SUPPORT AND ADVANCE AFFORDABLE HOUSING EFFORTS

ORDINANCE NO. 4797 - BUDGET AMENDMENT FOR THRIVE ASHEVILLE VOUCHER PILOT PROGRAM

Action Requested: Authorization for the City Manager to execute agreements regarding donations to the Housing Trust Fund, with permission of the donor, to utilize those funds in a different capacity in order to support and advance affordable housing efforts, and a budget amendment in the amount of $100,000 from donated funds to establish a project budget in the Special Revenue Fund for the City's contribution to Thrive Asheville.

Background:

- The City of Asheville occasionally receives donations to the Housing Trust Fund (HTF) from private individuals and companies to support and advance affordable housing efforts.
- The City of Asheville Housing Trust Fund program was established in September 2000 with the goal of providing low cost financial assistance to incentivize the development and preservation of affordable housing within the city limits for the benefit of moderate to low income individuals and families.
- Donations to the HTF have traditionally been added to the HTF budget at the time of donation.

Proposal:

- Recently, individual pilot programs that have been vetted in the community have been identified as being in need of a capital injection for the program to enhance their efforts toward supporting and advancing affordable housing, including the development and preservation of affordable housing.
- One such program, Thrive Asheville, is in need of $100,000 for their Landlord-Tenant Partnership Program which will link 25 families, who currently live in public housing developments, to privately-owned properties in neighborhoods with greater opportunities and safety.
- Working with the City Manager's Office and Economic and Community Development Department, the Deerfield Episcopal Retirement Community graciously agreed that $100,000 of its previously made $250,000 donation to the City's HTF, donated on October 22, 2019, could be used for this Thrive Asheville Voucher Pilot Program.
    - $100,000 Thrive Asheville Voucher Budget / City of Asheville Funding
        - Landlords $48,000
        - Tenant Training & Support $13,060
        - Indemnification $37,500
        - Non-profit Oversight $1,440
- Moving forward, in order to most effectively utilize similar donations, and more directly invest non-City donated funding for affordable housing efforts, City Staff recommends that the City Manager be granted authority to execute agreements with donors regarding changes in the use of their donations.
- The City of Asheville's Community Development Division will attend monthly meetings with Thrive & other partner agencies as well as receive quarterly reports from Thrive on how the funding is being spent.
- A summary of the education sessions for both tenants and landlords, and outcomes to include the number of individuals successfully placed in privately-owned properties in neighborhoods with greater opportunities and safety.

Council Goal(s):

- A Diverse Community
- Thriving Local Economy
- A Financially Resilient City

Committee(s):

- None

Pro(s):

- Approval allows funding to be more directly invested into programs that will support and advance affordable housing efforts.

- City Council will remain updated on donations as wells as executed agreements with donated funds that will support and advance housing efforts.

Con(s):
- None noted.

Fiscal Impact:
- As noted above, the donated funds have already been received by the City. The budget amendment will simply move the funds from the HTF to a project in the Special Revenue Fund established specifically to track and report on the contribution to Thrive Asheville.

Motion:
- Motion to authorize the City Manager to execute agreements regarding donations to the Housing Trust Fund, with the permission of the donor, to utilize those funds in a different capacity in order to support and advance affordable housing efforts, and approve a budget amendment in the amount of $100,000 from donated funds to establish a project budget in the Special Revenue Fund for the City's contribution to Thrive Asheville.

Councilwoman Mayfield asked the City Manager to look for funds to go to the Asheville-Buncombe Community Land Trust.

RESOLUTION BOOK NO. 41 - PAGE 278
ORDINANCE BOOK NO. 33 - PAGE 60

O. RESOLUTION NO. 20-70 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE EXISTING CONTRACT WITH CAROLINA TRACTOR & EQUIPMENT FOR SERVICES RELATED TO THE REPAIR AND MAINTENANCE OF CITY VEHICLES AND EQUIPMENT

Action Requested: Adoption of a resolution authorizing the City Manager to amend the existing maintenance agreement with Carolina Tractor & Equipment to increase the annual contract value from $500,000 to $650,000 to supplement Fleet Maintenance capacity.

Background:
- The Fleet Management Division of the Public Works Department maintains over 1,000 city- owned vehicles and pieces of equipment.
- Subcontracted work is used to supplement existing staff resources at times of high demand or to provide services when the Fleet Division does not have suitable facilities or resources (e.g., paint shop, etc.).
- Under an earlier procurement process, Carolina Tractor & Equipment was selected to provide supplemental fleet maintenance services. Adopted on October 25, 2016, Resolution 16-228 authorized the City Manager to enter into a contract with this firm for an initial one-year term with up to four one-year renewals. The annual contract value was initially noted as $200,000.
- Resolution 18-120 authorized the City Manager to amend the original agreement to increase the annual contract value from $200,000 to $300,000 due to an increased workload caused by vehicle accidents and repairs.
- Resolution 19-238 authorized the City Manager to further amend the agreement to increase the annual contract value from $300,000 to $500,000 due to significant repairs necessitated by aging equipment during FY19.
- Due to the COVID-19 pandemic, Fleet Management is requesting the annual contract value be increased from $500,000 to $650,000 to allow for continuity of essential City

operations in the event that Fleet Management is unable to perform heavy vehicle repairs.

Vendor Outreach Efforts:

- Staff performed outreach to minority- and women-owned businesses through the original contract solicitation process, which included posting on the City's bid page, Twitter, and the State's Interactive Purchasing System.

Council Goal(s):

- Thriving Local Economy
- Connected and Engaged Community
- Smart City

Pro(s):

- Allows third-party service work to continue as a supplement to in-house staff;
- Provides flexibility in service delivery without significant capital investment in equipment or facilities (e.g., paint shop, etc.) that aren't used on a daily basis; and
- Supports vehicle "uptime" and returning vehicles to service after needed repairs.

Con(s):

- Potential increases of expenditures under the contract.

Fiscal Impact:

- Costs for these services are included in the General Fund fleet allocations for departments requiring vehicle repair and maintenance activities.

Motion:

- Motion to adopt a resolution authorizing the City Manager to amend the existing maintenance agreement with Carolina Tractor & Equipment to increase the annual contract value from $500,000 to $650,000 to supplement Fleet Maintenance capacity.

RESOLUTION BOOK NO. 41 - PAGE 279

P. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY (COUNTY) AUTHORIZING QUALIFIED CITY OF ASHEVILLE (CITY) EMPLOYEES TO SERVE ON A TEMPORARY BASIS IN COUNTY JOB FUNCTIONS TO SUPPORT CONTINUITY OF COUNTY OPERATIONS AND SERVICE DELIVERY, AND TO ALLOW COUNTY EMPLOYEES TO SERVE IN JOB FUNCTIONS FOR THE CITY DURING THE COVID-19 STATE OF EMERGENCY

This item was removed from the Consent Agenda for discussion and/or an individual vote.

Mayor Manheimer said that public comment was allowed via phone; however, no one called in for comment on the Consent Agenda.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda, minus Consent Agenda Item "P". This motion was seconded by Councilman Kapoor and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

P. **RESOLUTION NO. 20-71 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY (COUNTY) AUTHORIZING QUALIFIED CITY OF ASHEVILLE (CITY) EMPLOYEES TO SERVE ON A TEMPORARY BASIS IN COUNTY JOB FUNCTIONS TO SUPPORT CONTINUITY OF COUNTY OPERATIONS AND SERVICE DELIVERY, AND TO ALLOW COUNTY EMPLOYEES TO SERVE IN JOB FUNCTIONS FOR THE CITY DURING THE COVID-19 STATE OF EMERGENCY**

Action Requested: Ratification of an interlocal agreement with Buncombe County (County) authorizing qualified City of Asheville (City) employees to serve on a temporary basis in County job functions to support continuity of County operations and service delivery, and to allow County employees to serve in job functions for the City during the COVID-19 State of Emergency.

Background:

- The County requested the City provide City employees to serve in County positions to support continuity of County operations during the COVID-19 State of Emergency including but not limited to: driving ambulances, driving individuals from quarantine to their homes, and other services if the City has capacity to allocate qualified City employees to provide assistance
- The City seeks to support County requests and redeploy City employees to serve in County positions, when appropriate to support the County's service delivery during the COVID-19 State of Emergency
- The City requests the County provide qualified employees to serve in City positions to support continuity of City operations during the COVID-19 State of Emergency, should the need arise and the County has capacity to support City requests
- The City seeks City Council's authorization for the City Manager to enter into an Interlocal Agreement with Buncombe County for the purpose stated above
- Employee redeployment will be coordinated by the City Human Resources Department
- Services related to the Interlocal may be considered through the duration of the COVID-19 State of Emergency.

Council Goal(s):

- Not Applicable. This measure is undertaken to respond to the COVID-19 crisis.

Committee(s):

- None

Pro(s):

- Provides human resources in support of the parties request for assistance to provide their respective continuity of operations during the COVID-19 State of Emergency

Con(s):

- None.

Fiscal Impact:

- City employees will be paid with approved Fiscal Year 2020 City budget funds.

In response to Vice-Mayor Wisler, City Manager Campbell explained how this will be utilized and how reimbursement will take place if we get federal or state COVID-9 funds. Vice-Mayor Wisler asked that Council be kept apprised of how many City staff and the number of hours that are associated with redeployment to the County.

Vice-Mayor Wisler moved to authorize the City Manager to enter into an Interlocal Agreement with Buncombe County to provide City employees to work temporarily for Buncombe County, and Buncombe County employees to work temporarily for the City, during the COVID-19 State of Emergency. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 280

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR TRIBUTE DEVELOPMENT COLLIER AVENUE APARTMENTS

Vice-Mayor Wisler moved to continue the public hearing to consider a Land Use Incentive Grant for Tribute Development Collier Avenue Apartments until May 12, 2020. This motion was seconded by Councilman Young and carried unanimously.

B. PUBLIC HEARING CONSIDER ADOPTION OF AN ORDINANCE DESIGNATING THE PROPERTY KNOWN AS THE LEWIE MULLER GRIFFITH HOUSE, LOCATED AT 65 WOODLAND ROAD, AS A LOCAL HISTORIC LANDMARK

ORDINANCE NO. 4798 - ORDINANCE DESIGNATING THE PROPERTY KNOWN AS THE LEWIE MULLER GRIFFITH HOUSE, LOCATED AT 65 WOODLAND ROAD, AS A LOCAL HISTORIC LANDMARK

Director of Planning & Urban Design Todd Okolichany said that this is the consideration of an ordinance to designate the Lewie Muller Griffith House (Griffith House) located at 65 Woodland Road as a local historic landmark. This public hearing was advertised on March 13 and 20, 2020. On March 24, 2020, City Council continued the public hearing until this date.

Project Location and Contacts:

- The designation site consists of a 0.99 acre parcel located at 65 Woodland Road (PIN 9649.75-5465) that is owned by Doris-Marie C. Martin.
- Petitioners: Doris-Marie C. Martin, Josi Ward.

Summary of Petition:

- The subject property consists of a 0.99 acre lot located on Woodland Road within the Grove Park National Register Historic District.
- The property contains a single family residential two-story historic structure, known as the Griffith House, and a one story non-historic accessory structure.
- The subject property is listed as a "contributing" resource in the Grove Park National Register Historic District.
- The Griffith House, constructed in 1926, is significant architecturally as a highly intact example of a French Eclectic style dwelling.
- The Griffith House is also significant for being the work of master architect, Ronald Greene, who designed many of Asheville's most well-known buildings.
- The designation includes the entire exterior and interior of the house, the accessory structure and the 0.99 acre lot on which the structures are located, including planting beds, open front lawn and rose garden in the rear yard as shown on the original landscape plan.

Comprehensive Plan Consistency:

- This action aligns with Goal 7 (Celebrate the Unique Identify of Neighborhoods Through Creative Placemaking) and Goal 8 (Elevate the Arts and Cultural Sectors to Strengthen and Preserve Heritage and History) of the Living Asheville Comprehensive Plan by continuing to support stewardship and preservation of historic properties and by celebrating and honoring the city's cultural and historic resources.
- This proposal also aligns with the 2036 Council Vision in the "Well-Planned and Livable Community" area. The local historic landmark designation would preserve a historic structure that contributes to Asheville's unique character.

Compatibility Analysis:

- The property is listed as a "contributing" resource in the Grove Park National Register District, and preservation of the property will aid in maintaining the historic character of the surrouhding neighborhood.
- When a property is designated as a local historic landmark, design restrictions are placed on the property and any modification to the land or structures must receive a Certificate of Appropriateness from the Historic Resources Commission; thus, the historic character of the building(s) and site will be preserved.

Fiscal Impact:

- Designation of a site as a local historic landmark makes the property eligible for a 50% annual reduction in local property taxes. Currently, the tax appraisal for the property included in the proposed designation is $490,900. If the property is designated as a local landmark the potential tax savings for the property owner, including city, county and school taxes, would be $2,645 per year.

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Historic Resources Commission - February 12, 2020 - recommended approval (10-0)

Staff Recommendation:

- Staff finds that the proposed local historic landmark designation is compatible with the Living Asheville Comprehensive Plan and the Historic Preservation Master Plan. The Historic Resources Commission reviewed this proposed designation on February 12, 2020.
- The Commission voted 10-0 in favor of the landmark designation and recommended Asheville City Council approval of this local historic landmark designation application.

Mayor Manheimer said that public comment was allowed via phone; however, no one called in for comment on this item.

Mayor Manheimer opened the public hearing at 5:22 p.m., and when no one spoke, she closed the public hearing at 5:22 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to adopt the ordinance designating the Lewie Muller Griffith House as a local historic landmark. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 33 – PAGE 61

C. **PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OPEN SPACE REQUIREMENTS**

Councilwoman Mayfield moved to continue this public hearing until May 26, 2020. This motion was seconded by Councilman Kapoor and carried unanimously.

D. **PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING AT 137 BROAD STREET FROM COMMUNITY BUSINESS I TO COMMUNITY BUSINESS I/CONDITIONAL ZONE TO INCLUDE AN ADJACENT PARCEL FOR THE CONSTRUCTION OF A NEW MIXED-USE BUILDING**

At the request of City staff, Vice-Mayor Wisler moved to continue this public hearing until May 12, 2020. This motion was seconded by Councilman Young and carried unanimously.

E. **PUBLIC HEARING TO CONSIDER APPROVAL TO PARTICIPATE IN THE ONE BUNCOMBE FUND BY AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE BUNCOMBE COUNTY SERVICE FOUNDATION FOR MANAGEMENT OF AN APPROPRIATION OF $100,000AND TO EXECUTE ANY AND ALL DOCUMENTS NECESSARY TO GIVE EFFECT TO THIS RESOLUTION**

RESOLUTION NO. 20-72 - RESOLUTION APPROVING A $100,000 APPROPRIATION TO THE ONE BUNCOMBE FUND AND AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE BUNCOMBE COUNTY COMMUNITY SERVICE FOUNDATION, INC. TO ADMINISTER THESE FUNDS FOR THE PURPOSES OF PROVIDING EMERGENCY LOANS TO SMALL BUSINESSES AND GRANTING FUNDS TO ASSIST INDIVIDUALS IMPACTED BY THE COVID-19 CRISIS

ORDINANCE NO. 4799 - BUDGET AMENDMENT TO PARTICIPATE IN ONE BUNCOMBE FUND

Community & Economic Development Director Sam Powers said that after this public hearing, Council is requested to approve of an appropriation of $100,000 to the One Buncombe Fund to assist small businesses and individuals affected by COVID-19 and authorization for by the City Manager to enter into an agreement with the Buncombe County Service Foundation (BCSF) for management of the funds and to execute any and all documents necessary to give effect to the resolution; and adopt the associated budget amendment in the amount of $100,000 from General Fund unassigned fund bala ... This public hearing was advertised on April 3, 2020. nce.

Background:

- In response to the COVID-19 crisis, Buncombe County local governments, the business community, and other stakeholders have joined together to create a single-point relief fund for individuals and small businesses, as well as a one-stop fund for donations to help individuals and small businesses impacted by COVID-19.
- This effort is the One Buncombe Fund. At the March 24,2020 City Council meeting, Council endorsed the One Buncombe Fund concept, scheduled a Public Hearing for this meeting (April 14, 2020), and tentatively agreed to appropriate $100,000 to the Fund, subject to the Public Hearing.

- A donation/application website has been activated, www.OneBuncombe.org, with funds deposited to the Buncombe County Service Foundation (BCSF), which is an existing Non Profit organization created by Buncombe County.
- Funds placed into the BCSF One Buncombe Fund are managed by a nine-person board, which includes members of local governments including the City of Asheville, businesses, and philanthropic organizations. Funds will be used for individuals and small businesses that have been impacted by COVID-19.
- Funds for low and moderate income individuals who have lost employment due to COVID-19 will be delivered via the Buncombe County Health and Human Services (BCHHS) existing General Assistance (GA) program.
- Funds will be used for life-essential needs caused by the COVID-19 public health crisis, such as assistance with utilities, rent, and mortgages.
- Funds will be paid to the service providers, not directly to individuals. Individuals will be screened and referred to other HHS programs as needed.
- Funds for small businesses impacted by COVID-19 will be provided through loans of up to $10,000 with an initial six-month period of deferred payments of principal and interest. Small businesses are defined as those that have 1-49 employees.
- An initial interest rate of 4% will accrue during that period and rolls up into the loan at the end of the six-month period.
- Loans will be designed to provide low cost "bridge funding" to help businesses stay open and limit job losses until businesses can apply for longer-term disaster funding from SBA or other sources. The BCSF will contract with a third party, Mountain BizWorks, a non-profit community development financial institution (CDFI), to administer this business program.
- The City Attorney has advised that this initiative meets the Economic Development requirements or the Community Development requirements in North Carolina. A public hearing is required as per N.C. Gen. Stat. 158-7.1.
- Both individuals and businesses will be encouraged to donate.
- As of Monday, April 13, 2020, BCHHS has received 2,050 applications for individual assistance. Seven hundred and seventy-five requests have been processed and 341 have been approved for a total of $138,000 in expenditures. Began with 9 workers processing claims and now at 20.
- As of Monday, April 13, 2020, Mountain BizWorks received 133 applications for businesses thus far. There have been 26 loans approved totalling $243,000 helping to retain 240 jobs, and are on track to approve a significantly larger round of loans this week.
- Partners include Buncombe County, City of Asheville, Asheville Area Chamber of Commerce, Mountain BizWorks; Land of Sky Regional Council, Town of Montreat, Biltmore Lake Charitable Fund, Ramble Charitable Fund, Buncombe County Tourism Development Authority; and over 400 friends and neighbors.

Council Goal(s):

- Financially Resilient City
- Equitable and Diverse Community
- Thriving Local Economy

Committee(s):

- None.

Pro(s):

- Provides immediate economic disaster assistance from a centralized fund, administered by existing experienced program management agencies.
- Supports both individuals and businesses in Asheville.

Con(s):

- The magnitude of this crisis may require additional resources. The City is limited in available funding.

Fiscal Impact:

- This economic development appropriation is not in the current adopted budget.
- The appropriation of $100,000 would come from the General Fund unassigned fund balance.
- A budget amendment is required.

Mayor Manheimer said that public comment was allowed via phone; however, no one called in for comment on this item.

Mayor Manheimer opened the public hearing at 5:36 p.m., and when no one spoke, she closed the public hearing at 5:36 p.m.

In response to Councilman Kapoor, Mr. Powers said that all donations are tax deductible. Mr. Powers also said that this program is for those who don't have other options available to them.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and ordinance and they would not be read.

Vice-Mayor Wisler moved to approve the appropriation of $100,000 from General Fund unassigned fund balance to the Buncombe County Service Foundation (BCSF) to be used in the One Buncombe Fund. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 41 - PAGE 281

Vice-Mayor Wisler moved to adopt a budget amendment to participate in One Buncombe Fund. This motion was seconded by Councilman Kapoor and carried unanimously.

ORDINANCE BOOK NO. 33 – PAGE 65

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Thirteen individuals spoke about the need for the Tourism Development Authority and the City of Asheville to open up hotels for the homeless population, medical professionals and others who need safe housing.

One individual spoke about the need for a comprehensive urban forestry program and an urban forester.

In response to Councilman Haynes, Assistant City Manager Cathy Ball addressed the issues of hotels and what is taking place for the homeless population and others. Councilwoman Smith asked that the public be provided with updated information.

PRIMARY ELECTION RESULTS - CITY OF ASHEVILLE - MARCH 3, 2020

Attached is the abstract containing the number of legal votes in the Primary Election, City of Asheville, held on March 3, 2020.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:06 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

2020 PRIMARY ELECTION
03/03/2020
ABSTRACT OF VOTES
FOR
BUNCOMBE COUNTY, NORTH CAROLINA

INSTRUCTIONS
The county board shall prepare abstracts of all the ballot items in triplicate originals. The county board shall retain one of the triplicate originals, and shall distribute one each to the clerk of superior court for the county and the State Board of Elections. The State Board of Elections shall forward the original abstract it receives to the Secretary of State (GS § 163A-1173)

STATE OF NORTH CAROLINA
COUNTY OF BUNCOMBE

The County Board of Elections for said county, having opened, canvassed, and judicially determined the original returns of the election in the precincts in this county, held as above stated, do hereby certify that the attached is a true abstract thereof, and contains the number of legal ballots cast in each precinct for each office or referendum named, the name of each person or choice voted for, their party affiliation (where applicable), and the number of votes cast for each person or choice for the item named.

This is the 13th day of March, 2020.

Tuesday – April 28, 2020 - 5:00 p.m.

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor (participating via speaker phone); Councilwoman Julie V. Mayfield; Councilman W. Keith Young (participating via speaker phone); City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson

Absent: Councilwoman Sheneika Smith

Mayor Manheimer said that the purpose of this special meeting is to consider a resolution authorizing the City Manager to apply for and receive funds from Federal Emergency Management Agency funding to recover costs due associated with the COVID-19 pandemic event and to designate the applicant agents.

RESOLUTION NO. 20-73 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND RECEIVE FUNDS FROM FEDERAL EMERGENCY MANAGEMENT AGENCY FUNDING TO RECOVER COSTS DUE ASSOCIATED WITH THE COVID-19 PANDEMIC EVENT AND TO DESIGNATE THE APPLICANT AGENTS

Fire Chief Scott Burnette said that this is the consideration of adoption of a resolution authorizing the City Manager to designate the applicant agents for the City of Asheville to apply for and receive reimbursement funds from FEMA Public Assistance.

Background:

- The COVID-19 pandemic began to affect the City of Asheville on March 13, 2020.
- The City of Asheville has incurred and will continue to incur expenses as a result of this event.
- FEMA has streamlined the Public Assistance project application process.
- Applicants are served on a first-come/first-served basis, so there is a sense of urgency.
- The first step in the application process is the designation of two applicant agents.
- The Primary's role (and Secondary's role in the Primary's absence) is to execute and file applications for federal and/or state assistance on behalf of the Organization for the purpose of obtaining certain state and federal financial assistance under the Robert T. Stafford Disaster Relief & Emergency Assistance Act, (Public Law 93-288 as amended) or as otherwise available.
- Additionally, the agents are authorized to represent and act for the Organization in all dealings with the State of North Carolina and the Federal Emergency Management Agency for all matters pertaining to such disaster assistance required by the grant agreements.

Vendor Outreach Efforts:

- N/A

Council Goal(s):

- A financially resilient city

Committee(s):

- None

Pro(s):

- Allows for potential recovery of costs associated with the COVID-19 declared disaster

Con(s):

- None

Fiscal Impact:

- Funds received will be reimbursed for costs incurred responding to and in support of the COVID 19 pandemic.

In response to Councilwoman Mayfield, Chief Burnette said that the City will be able to apply for any COVID-19 related, actual out-of-pocket expenses. We may know the result of our application in a matter of weeks.

In response to Vice-Mayor Wisler, Chief Burnette said that we will continue to make applications for specific time periods and projects.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to adopt a resolution authorizing Daniel Flinn, Division Chief - Administration, Fire Department and Abigail Riley, Financial Business Manager as primary and secondary agents to apply for and receive financial assistance from FEMA Public Assistance for the COVID 19 pandemic. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 41 – PAGE 283

Mayor Manheimer adjourned the special meeting at 5:08 p.m.

Magdalen Burleson
CITY CLERK

Esther G. Manheimer
MAYOR

Tuesday – May 12, 2020 - 3:00 p.m.

This budget briefing was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; and City Clerk Magdalen Burleson.

Mayor Manheimer explained that this worksession is being held remotely and appreciated the patience of the public. The public may listen live by phone by dialling 855-925-2801 and enter Code 8658. Live stream of the meeting can be found at www.publicinput.com/AvlBudgetBriefMay122020.

City Manager Campbell said that we will be providing an update on Current Year Financial Status since April 14 Council Work Session; and a preview of the Fiscal Year 2020-21 (FY21) Manager's Recommended Budget. She said key takeaways will be (1) Ongoing major uncertainty; (2) Continuation budget with limited service enhancements; (3) Departments worked to make cuts with a focus on minimizing operational impacts; and (4) Even with state/federal support, fund balance needed to support operations

Chief Financial Officer Barbara Whitehorn then reviewed the current fiscal year update, outlining the notes from April 14 budget worksession: (1) Operational changes: Fare-free transit service; Free on-street and garage parking; Deferring/waiving some leases, monthly charges and loan payments; Contribution to One Buncombe Fund; and Shelter for people experiencing homelessness; (2) Significant revenue and expenditure impacts; (3) Spending will continue for essential services & implementation of $31,200 minimum pay; (4) Implementing targeted, strategic reductions and/or delays in spending where possible; (5) General and Parking Funds will use fund balance, as expenses will exceed revenues; and (6) Federal/State assistance will help to mitigate some financial impact.

She reviewed the changes to the General Fund since the April 14 budget worksession: (1) Lowered ABC revenue estimate by $200,000; (2) Anticipating ~20% decline from March to June in sales taxes after discussions with other cities; (3) State deferral of vehicle registrations for five months; (4) Ongoing **major uncertainty** in revenue estimates, especially sales taxes; (5) Identified approximately $1.0M in savings through departmental budget reviews and hiring freeze; (6) Anticipating expenses will exceed revenues in the range of $2.5M - $5.0M (Previous est. $2.8 - $5.5M); (7) Available fund balance at year end will drop to between 14-16%; and (8) Federal and State assistance amounts unknown.

She showed a chart of the current year sales tax estimates. The U.S. Census Bureau said that overall retail sales during March were down 8.7 percent seasonally adjusted from February and down 6.2 percent unadjusted year-over-year. The monthly drop is the largest ever recorded, exceeding a 4.3 percent decline in November 2008 during the Great Recession. April national retail sales data will be released on May 15. She then reviewed charts for the current year General Fund Update and and Fund Balance Update.

She then reviewed changes to the Enterprise Funds since the April 14 budget worksession (1) Transit COVID-19 expenses and budget shortfall will be covered with CARES Act funding - $500,000 May 12 budget amendment for bus driver protective equipment; and (2) $1.5M shortfall in Parking Fund due to suspension of parking deck and on-street parking fees. She used a chart to show the current year parking major revenues, and explained the transit use of CARE Act funding.

The financial impact summary is (1) General Fund projected fund balance decline: $2.5M - $5.0M; (2) Parking Services Fund projected fund balance decline: $1.5M; and (3) Other Enterprise Funds unlikely to experience major financial impact in the current year.

She then reviewed the framework for the Fiscal Year 2020-21 Manager's Preliminary Recommended Budget: Updates to key takeaways from the retreat include (1) Even more uncertain economic outlook; (2) Minimal revenue growth will be used up by ongoing operating cost increases, even after making reductions to expenditures; and (3) While enhancements can be considered if the fiscal picture improves later in the year, additional revenue will be needed to fund any new capital or operating investments.

She reviewed the guiding principles of essential service delivery (ensuring departments have the resources required to meet service delivery expectations); enhancing customer value (ensuring efficient service delivery that improves the customer experience); and strategic alignment (aligning resources - new and existing - to achieve community, Council and staff goals). She explained how we implement the guiding principles in a crisis (1) **Ensure safety** of our staff and community; (2) Work to **limit impacts** on existing services; and (3) Whether essential or strategic, not the time to reduce the services our community relies on.

Ms. Whitehorn then gave a preview of the Fiscal Year 2020-21 Manager's Preliminary Recommended Budget. It **continues funding for existing services** with limited enhancements, new programs or initiatives. And, it maintains current property tax rate (42.89¢) and recommends **no fee increases**.

She then reviewed the Council's strategic priorities, along with the Fiscal Year 2020-21 budget details. Fiscal Year 2020-21 General Fund salaries & wages (1) Funding for $31,200 minimum pay, LGERS required increase; (2) No funding to implement other recommendations of Compensation Study; (3) No general wage increase for employees; and (4) Assuming continuation of hiring freeze through first six months of FY21.

Fiscal Year 2020-21 General Fund operating expenditures (1) Primary goal: **continuity of operations**; (2) Continued **transit** support; (3) Collaborative work with departments to hold operating budgets flat year over year; (4) Budget developed with **intentionality** and a focus on **equity**; and (5) Recommend reallocation of portion of Strategic Partnership Funds (SPF) to support equity and address opportunity gap goals: (a) $35,000 to support ACS After-School Coordinator; and (b) $43,000 to Parks & Recreation for extended community center hours and summer youth/teen programming.

The Fiscal Year 2020-21 General Fund summary is (1) Continuity of operations and existing programs with no additional funding for new or enhanced services; and (2) Fund balance appropriation of up to $1.5M may be necessary, reducing fund balance to the range of 13% - 15%.

The Fiscal Year 2020-21 Enterprise Fund summary is (1) **No fee increases** in water and stormwater; (2) Uncertainty around re-implementation of fees for transit and parking may impact revenues in those funds; (3) Parking revenue likely will be slow to rebound; (4) Water Capital Improvement Program charge to be eliminated ($7M reduction in revenue) (a) Water capital fund balance to make up difference; and (b) External consultants working on rate study to better balance cost burden between commercial and residential customers; and (5) Harrah's Center budget reduced to reflect fewer expected events.

The Fiscal Year 2020-21 Capital Improvement Program (1) Projects already underway will continue; (2) No new projects funded; (3) Projects included if a delay could jeopardize external funding; and (4) General Obligation Bond projects continuing to ensure completion within

timeframe.

There is a continuation of capital investments, i.e., ongoing allocations for Facility maintenance, Computer replacement, Vehicle replacement, Road resurfacing, and Neighborhood sidewalks.

She said the key takeaways are (1) Ongoing major uncertainty; (2) Continuation budget with limited service enhancements; (3) Departments worked to make cuts with a focus on minimizing operational impacts; and (4) Even with state/federal support, fund balance needed to support operations.

City Manager Campbell, along with Ms. Whitehorn, responded to various questions/ comments from Council, some being, but are not limited to: what is fund balance and what is it a percentage of; what is included in the mitigating revenue loss for transit use of CARES Act funding; are we considering using CARES act funding for hazard or bonus pay for transit drivers and other transit workers; if the pandemic ends sooner and there is left-over CARES Act funding , does staff have any ideas on what we might spend it on; how confident does staff feel about estimates for sales tax; when will we start to know about sales tax revenue and what actions should be take to address that; we are keeping the OPEB contribution the same as prior year; what is the County projecting in sales tax; for planning purposes, will the state let us know where the sales tax comes from; confirmation that staff will provide Council a memorandum on budget assumptions; are there plans to restore bus routes, particularly to the Spruce Hill area; is dedicating the $78,000 to address opportunity gap goals the best us of those reallocated funds because of social distancing; and request for staff to provide information on the City's support for the Asheville-Buncombe Community Land Trust.

There was discussion, initiated by Councilman Haynes, regarding employee salaries, in particular firefighters pay. In summary, City Manager Campbell said that the compensation study will be completed in late May or early June and at that time we will look at all our employees' pay.

Mayor Manheimer adjourned the budget worksession at 4:25 p.m.

Tuesday – May 12, 2020- 5:00 p.m.

This regular meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer explained that this meeting is being held remotely and appreciated the patience of the public. Public comment was taken by calling a toll free public input line. The public may also listen live by phone by dialling 855-925-2801 and enter Code 8659. In addition, written public comment was accepted. Live stream of the meeting can be found at www.publicinput.com/AshevilleCityCouncilMay122020.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

At the request of City staff, Consent Agenda "D" was removed from consideration.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 14, 2020; AND SPECIAL MEETING ON APRIL 28, 2020

B. RESOLUTION NO. 20-74 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH RSM US LLP TO CONDUCT THE CITY'S AUDIT FOR FISCAL YEAR ENDING JUNE 30, 2020

Action Requested: Adoption of a resolution authorizing the Mayor to execute a contract with RSM US LLP for auditing City accounts for fiscal year ending June 30, 2020.

Background:

- North Carolina General Statute §159-34 requires that local governments have its accounts audited each fiscal year and submit a copy of the audit report and financial statements to the Local Government Commission. Staff recommends retaining the services of RSM US LLP to conduct an audit of the City's accounts for the fiscal year ending June 30, 2020.
- The estimated fee for fiscal year 2019-2020 audit is $98,200.
- Execution of this contract complies with the Audit Policy portion of City Council's Financial Policies which states that the City "shall enter into multi-year agreements of not more than five years in duration through a series of single-year contracts as consistent with applicable legal requirements."
- This will be the third consecutive year of contracting RSM US LLP to perform the City's audit.

Vendor Outreach Efforts:

- No competitive bid process was conducted this year.

Council Goal:

- Financially Resilient City

Committee:

- No prior Committee approval. Final audit results are presented annually to the Finance and Audit Committees.

Pro:

- Contracting with RSM US LLP aligns with City Council's financial policy and will help ensure the timely and successful completion of the annual audit.

Con:

- None

Fiscal Impact:

- Fees of $98,200 for the annual audit are budgeted in the Internal Audit operating budget.

Motion:

- Move to adopt a resolution authorizing the Mayor to execute a contract with RSM US LLP for auditing City accounts for the fiscal year ending June 30, 2020.

RESOLUTION BOOK NO. 41 - PAGE 284

C. RESOLUTION NO. 20-75 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A SUPPLEMENTAL AGREEMENT WITH CDM SMITH

FOR MAINTENANCE UPGRADES TO THE MILLS RIVER WATER TREATMENT PLANT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a Supplemental Agreement for professional services contract with CDM Smith for the design, bidding, and project management of the Mills River Water Treatment Plant - Miscellaneous Plant Upgrades - Phase 2 in the amount of $1,349,500 with a contingency of $40,000 for a total project cost of $1,389,500.

Background:

- Mills River Water Treatment Plant is over 20 years old. Assets and components required to produce high quality drinking water are reaching the end of their useful life.
- CDM Smith completed a Professional Engineer's Report in 2017 which is the basis of this second phase of the continued rehabilitation project.
- Phase 1 of the project is currently under construction. The water treatment plant rehabilitation is staged in 2 phases to allow for continued plant operation during rehabilitation.
- Phase 2 includes replacement of bulk chemical storage tanks, expansion of chemical storage and feed systems, additional raw and finished water storage, additional filter capacity, replacement of multiple motors and pumps, and filter control upgrades.

Vendor Outreach Efforts:

- Through a qualifications-based selection process beginning in August 2014, the City of Asheville selected nine consulting firms to provide on-call professional services for an array of different types of water system projects. CDM Smith was one of the selected firms due to their expertise in areas of water treatment plant construction and upgrades.
- The City of Asheville entered into a master agreement with CDM Smith on June 8, 2015 for on-call professional services valid for three years with the option to renew for two additional years. On April 19, 2018, the City of Asheville executed a renewal master agreement with CDM Smith for the additional two years of on-call professional services.
- If approved, the proposed engineering services described here within will be developed into a subcontract under the conditions of the master agreement.
- City of Asheville Water Resources Staff determined that utilizing the on-call professional services for General Projects was the best method to deliver this project and CDM Smith was the most qualified of the on-call firms. Based on the current master agreement, no additional vendor outreach was performed.

Council Goal(s):

- A Clean and Healthy Environment

Committee(s):

- None

Pro(s):

- Continued functionality of assets necessary to produce high quality drinking water.
- Ability to continue compliance with Federal and State regulations.

Con(s):

- Impacts could hamper the delivery of water into the water distribution system
- Impact the ability to meet future increased water demands
- Impact the ability to meet EPA and State regulations.

Fiscal Impact:

- The Water Resources Department currently has the funds needed for this construction agreement budgeted in the "Water Treatment Plant Project" in the Capital Improvement Program Fund.
- $1,349,500 with a contingency of $40,000 for a total project cost of $1,389,500

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a professional services - supplemental agreement with CDM Smith for the Mills River Water Treatment Plant - Miscellaneous Plant Upgrades - Phase 2 Design, Bidding, and Project Management.

RESOLUTION BOOK NO. 41 - PAGE 285

D. RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH PARKER TECHNOLOGIES INC. FOR THE PARKING GARAGE VIDEO CALL CENTER ANSWERING SERVICE

This item was removed from consideration.

E. MOTION ADOPTING THE REVISED FISCAL YEAR 2020-21 BUDGET CALENDAR

Action Requested: Motion to adopt a revised Fiscal Year (FY) 2020-2021 Budget Calendar.

Background:

- At the December 9, 2019, meeting, City Council adopted the Fiscal Year 2020-2021 Budget Calendar, which included the following key dates:
  - Formal presentation of the City Manager's Proposed Budget on May 12, 2020;
  - Budget Public Hearing on May 26, 2020; and
  - Budget adoption on June 9, 2020.
- As a result of the COVID-19 crisis, staff is recommending the following changes to the remaining dates on the calendar:
  - Budget Work Session on May 12, 2020
  - Set Budget Public Hearing on May 12, 2020;
  - Formal presentation of the City Manager's Proposed Budget on May 26, 2020;
  - Budget Public Hearing on June 9, 2020; and
  - Budget adoption on June 23, 2020.

Council Goal(s):

- A Financially Resilient City
- A Connected and Engaged Community

Committee(s):

- None

Pro(s):

- Provides additional time to make FY 2020-2021 budget decisions while remaining in compliance with The North Carolina Local Government Budget and Fiscal Control Act which requires submission of the City Manager's Proposed Budget by July 1.

Con(s):

- None.

Fiscal Impact:

- None.

Motion:

- Motion to adopt the revised Fiscal Year 2020-2021 Budget Calendar.

F. RESOLUTION NO. 20-77 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PURCHASE AND INSTALL SAFETY PROTECTION BARRIERS IN EXISTING TRANSIT VEHICLES

ORDINANCE NO. 4800 - BUDGET AMENDMENT TO FUND PURCHASE OF SAFETY PROTECTION BARRIERS IN EXISTING TRANSIT VEHICLES

Action Requested: Adoption of a resolution authorizing the City Manager to purchase and install safety protection barriers in existing transit vehicles including eighteen (18) Gillig buses, five (5) Proterra electric buses, and four (4) Vicinity buses for a total of twenty-seven (27) buses at a total estimated cost not to exceed $500,000; and a budget amendment in the Transit Capital Projects Fund in the amount of $500,000 from Federal Transit Administration (FTA) CARES Act funds to fund the purchases. In addition, the authorization includes the following tasks:

1. Execute a purchase order of approximately $160,000 to work with Gillig to engineer, design, retrofit and install the safety protection barriers in the eighteen (18) existing 30-foot diesel and diesel electric hybrid Gillig buses.

2. Execute a purchase order of approximately $140,000 to work with Proterra to engineer, design, retrofit, and install the safety protection barriers in the five (5) 35-foot electric buses;

3. Execute a change order to the existing City of Asheville/City of Oxford, Mississippi Contract No. 500350, not to exceed $100,000, in order to engineer, design, and install safety protection barriers, to the four (4) Grande West Vicinity buses previously purchased, prior to completing the bus build and delivering them to Asheville Rides Transit System; and

4. Execute a purchase order of approximately $100,000, to work with AROW Global Corporation, the manufacturer of the safety protection barriers, and/or selected vendor to provide assistance and oversight of the installation of the safety protection barriers in the identified transit buses.

5. Approve a sole source justification to procure the transit barriers from Gillig, Proterra and Vicinity bus manufacturers due to the configuration and specification of each of the buses to be retrofitted with the safety barriers.

Background:

- During February 2020, the Centers for Disease Control and Prevention (CDC) and other federal partners, including the United States Department of Transportation, issued guidance to the public transportation industry in response to the Coronavirus (COVID-19).
- During March 2020, the Federal Transit Administration (FTA) published a Notice of Funding Availability for the Coronavirus Aid, Relief, and Economic Security (CARES) Act, which is intended to provide additional supplemental funding to transit systems to prevent, prepare for, and respond to COVID-19.
- On April 9, 2020, the FTA announced availability of $25 billion apportioned to the transit industry under the CARES Act and the Asheville Urbanized Area (UZA) would receive about $8.6 million.

- The FTA announced that the CARES Act funds are to be used for transit operating and capital expenses, and would consider all expenses incurred on or after January 20, 2020 in response to economic or other conditions caused by COVID-19.
- Transportation Department staff are working with the French Broad River Metropolitan Planning Organization (FBRMPO), as well as Buncombe, Haywood and Henderson Counties to allocate the CARES Act funding to eligible transit systems in the Asheville UZA.
- Transportation Department staff would work with the various bus manufacturers to engineer, design and retrofit existing buses in the fleet with safety protection barriers to protect ART drivers from assault and in emergency situations such as COVID-19.
- The total number of vehicles in the fleet to be retrofitted are 27, including 18 Gillig, 5 Proterra electric, and 4 Vicinity buses.
- Final design would include a sliding glass barrier in the driver's sitting area allowing face-to-face interaction with passengers without obstruction.
- Transportation Department staff recommends using CARES Act funds to purchase and install the safety barriers.
- CARES Act funds provide 100% of the Federal match of the anticipated funding and does not require any local match.
- Transportation Department staff will allocate the CARES Act funds to the Transit Capital Projects fund once received from the FTA.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- CARES Act funding provides 100% of the funds for the project.
- No local match is required.
- Provides protection for the bus drivers.

Con(s):
- None

Fiscal Impact:
- As noted above, the CARES Act provides 100% of the funding with no local match required.

Motion:
- Motion to adopt a resolution authorizing the City Manager to purchase and install safety protection barriers in existing transit vehicles including eighteen (18) Gillig buses, five (5) Proterra electric buses, and four (4) Vicinity buses for a total of twenty-seven (27) buses at a total estimated cost not to exceed $500,000; and a budget amendment in the Transit Capital Projects Fund in the amount of $500,000 from Federal Transit Administration (FTA) CARES Act funds to fund the purchases.

RESOLUTION BOOK NO. 41 - PAGE 287
ORDINANCE BOOK NO. 33 - PAGE 66

G. RESOLUTION NO. 20-78 - RESOLUTION SUPPORTING THE N.C. DEPT. OF TRANSPORTATION IN FUNDING, DESIGNING AND CONSTRUCTING IMPROVEMENTS AT THE INTERSECTION OF BREVARD AND SARDIS ROADS

Action Requested: Adoption of a resolution supporting the N.C. Dept. of Transportation (NCDOT) in funding, designing, and constructing improvements at the intersection of NC 191 (Brevard Road) and NC 112 (Sardis Road).

Background:

- The NCDOT has identified a need to make improvements at the intersection of NC 191 (Brevard Road) and NC 112 (Sardis Road).
- The improvements include a right-turn lane with appropriate taper along the eastbound approach of the intersection in order to enhance the efficiency and safety of the intersection.
- The NCDOT will fund, design, and construct the project at a total estimated cost of $740,000.
- The NCDOT plans to use High Impact / Low Cost Funds for the project.
- The High Impact / Low Cost program was established in 2017 to provide funds to complete low cost projects with high impacts to the transportation system including intersection improvements, minor widening, and operational improvements.
- The funds are allocated equally to the 14 Divisions throughout the state.
- The projects are expected to be under contract within 12 months of funding approval by the NCDOT Board of Transportation.
- Projects that have a total cost greater than $250,000 require a resolution of support from the appropriate city, town, or county.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- Enables a low cost project with high impacts to the transportation system to be constructed.
- Enhances the efficiency and safety of the intersection.
- The NCDOT is funding, designing, and constructing the project.

Con(s):

- None

Fiscal Impact:

- There is no fiscal impact to the City of Asheville.

Motion:

- Motion to adopt a resolution supporting the NCDOT in funding, designing, and constructing improvements at the intersection of NC 191 (Brevard Road) and NC 112 (Sardis Road).

RESOLUTION BOOK NO. 41 - PAGE 288

H. RESOLUTION NO. 20-79 - RESOLUTION UPDATING THE CITIZEN PARTICIPATION PLAN FOR THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT FUNDING & ACTION PLANS TO ADDRESS CONTINGENCY OPERATIONS DURING A LOCAL, STATE AND/OR NATIONAL EMERGENCY

Action Requested: Approval of an updated Citizen Participation Plan.

Background:

- The City of Asheville is a Participating Jurisdiction (PJ) in the U.S. Department of Housing and Urban Development (HUD) 's HOME program and an entitlement community for the CDBG program. As a recipient of federal funding, the City is required to have a Citizen Participation Plan.
- In addition to existing citizen participation plan requirements, under 24 CFR 91.105(a)(2)(i) through (iii) for local governments, the Citizen Participation Plan must also encourage citizens to participate in the development of the Analysis of Impediments (AI) / Assessment of Fair Housing (AFH) and any revisions in the same manner one would encourage citizen participation in the consolidated plan, any substantial amendments to the plan and the performance report.
- The City of Asheville is required by HUD to include contingency planning for encouraging public participation for HUD funded programs in light of emergency situations such as COVID-19.

Proposal:

- This revised Citizen Participation Plan meets the requirements for citizen participation in the development of and access to the City's AI/AFH, 5 Year Consolidated Plan, Annual Action Plans, and any substantial amendments thereto, and the City's performance report also known as the CAPER, Consolidate Annual Performance & Evaluation Report.
- The revised proposal also includes new language around contingency planning for public participation around HUD funds in a public health emergency.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community
- A Connected & Engaged Community

Committee(s):

- None

Pro(s):

- Accepting the updated Citizen Participation Plan is a HUD requirement and keeps the City of Asheville in compliance as the PJ & Entitlement Community.
- This Plan sets guidelines for encouraging participation in HUD funding & reporting, including plans for communication via the internet and social media and extended outreach to communities potentially affected by HUD funding and those often marginalized in the participation process.
- Community Development received input from various City of Asheville Departments, including the Communication & Public Engagement and Equity & Inclusion.

Con(s):

- The consequence of not adopting the revised Citizen Participation Plan would be to prevent the City from meeting its requirement to HUD.

Fiscal Impact:

- None

Motion:

- Motion to accept the updated City of Asheville Citizen Participation Plan.

RESOLUTION BOOK NO. 41 - PAGE 289

I. **RESOLUTION NO. 20-80 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND A CONTRACT WITH RESTOCON TO PROVIDE ADDITIONAL FUNDS TO REPLACE CENTER STAIRWELL IN THE CIVIC CENTER PARKING GARAGE**

Action Requested: Adoption of a resolution authorizing the City Manager to amend the Asheville Parking Garage Repairs contract with Restocon Corporation (# 91900331) increasing the total value of the contract to $408,000.

Background:

- The City of Asheville entered into a contract with Restocon Corporation in October 2018 for various repairs to the Harrah's Cherokee Center - Asheville parking garage.
- The repairs included a significant rehabilitation of the center stairwell within the garage.
- The scope of work was developed from a comprehensive garage condition assessment that was completed during October 2016.
- During February 2020, a detailed structural analysis of the center stairwell indicated a significant deterioration in the overall condition of the center stairwell and it was recommended to totally replace it.
- During March 2020, Restocon Corporation estimated that in order to replace the center stairwell, an additional $99,422 would be required.
- Contingency funds in the amount of $20,763 are included to ensure satisfactory completion of work by late summer 2020.

Vendor Outreach Efforts:

- N/A - This is a current contract.

Council Goal(s):

- Transportation and Accessibility.

Committee(s):

- None.

Pro(s):

- Enables the City to continue to provide safe and functional access within the parking garage.
- Part of an overall plan to extend the service life of the parking garage.

Con(s):

- The center stairwell is closed until the replacement work is completed.

Fiscal Impact:

- The appropriate funds are included in the current Parking Services Fund capital projects budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to amend the Asheville Parking Garage Repairs contract with Restocon Corporation (# 91900331) increasing the total value of the contract to $408,000.

RESOLUTION BOOK NO. 41 - PAGE 302

J. **RESOLUTION NO. 20-81 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH THE JOHN R.**

MCADAMS COMPANY, INC. FOR THE PEBBLE CREEK STREAM STABILIZATION PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract amendment with The John R. McAdams Company Inc. in the amount of $71,200 and to enter into change orders to this contract, if needed, not to exceed a contingency amount of $10,680 (15%) for a total Phase 2 budget of $81,880 for the Pebble Creek Stream Stabilization Project - Contract Amendment # 1.

Background:

- The approved Phase 1 budget for this project was $88,561.50 including contingency. Phase 1 realized a savings of $23,868.44 under the budgeted amount. The Phase 1 budget with savings, along with the Phase 2 budget amount of $81,880 results in a total budget of $146,573.06 for this project.
- The City of Asheville has maintenance responsibility on an existing Stormwater Easement through the Pebble Creek Community. There are existing gabion basket retaining walls that are failing along the stream banks located inside the easement. This project includes the design of a new conveyance system and retaining walls along the stream banks in the easement that will safely convey the stormwater through the tight corridor between the buildings.
- The RFQ for this project was advertised on January 10, 2019, with Statements of Qualifications received on January 24, 2019.
- Four (4) consulting firms submitted Statement of Qualifications. Qualifications were reviewed and on May 15, 2019, the John R. McAdams Company Inc. was selected as the best qualified firm.
- The Contract between the City of Asheville and The John R. McAdams Company Inc. was entered into on June 10, 2019.
- Without knowing the extent of failure, capacity of the existing channel, or influence on the surrounding utilities, Phase 1 was to conduct due diligence, preliminary engineering design, and community input so that a determination could be made on how best to move forward with Phase 2 to complete the design and take the project through construction. The first phase was under the threshold for the City Manager's signature authority.
- Professional Services, including Final Design, Permitting and Construction Administration for the contract would proceed immediately after approval of the Contract Amendment. The schedule for Construction Administration would be through April 2021, dependent on any issues that might arise during Permitting.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned businesses through solicitation processes which included posting on the State's Interactive Purchasing System, City of Asheville website, City of Asheville Twitter Account, and requiring engineering firms to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- Past engineering firms who have shown interest in bidding on City of Asheville projects were informed about the project's advertisement. During preparation for advertising this RFQ, the contract was shared with the Business Inclusion staff in the Community & Economic Development Department.
- Out of the four (4) qualifications received, no consultant firm was Minority Business or Women Owned Business certified. Two of the firms submitting qualifications proposed utilizing WBE subcontractors for portions of the project. The John R. McAdams Company was chosen for the design because of their qualifications specific to the needs of this project.

Council Goal(s):

- A Financially Resilient City

Committee(s):
- None

Pro(s):
- The contract amendment will allow The John R. McAdams Company to continue with the design and construction phase of this stream stabilization project.
- The stream stabilization project will protect the existing residential structures that are in very close proximity to the existing Stormwater Easement and stream.
- The capacity of the existing corridor will be increased to allow passage of larger storm events safely through the system.

Con(s):
- Construction may be somewhat disruptive to nearby residences. Efforts will be made to notify the public and minimize disruptions.

Fiscal Impact:
- Funding for this contract is budgeted in the Stormwater Utility Fund Capital Improvement Program.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a contract amendment with The John R. McAdams Company, Inc. in the amount of $71,200 and to enter into change orders to this contract, if needed, not to exceed a contingency amount of $10,680 (15%) for a total revised contract amount of $148,210 and a revised professional services budget amount of $146,573.06 for the Pebble Creek Stream Stabilization Project.

RESOLUTION BOOK NO. 41 - PAGE 303

K. ORDINANCE NO. 4801 - ORDINANCE AUTHORIZING THE CITY MANAGER TO TEMPORARILY SUSPEND OR DEFER FEES AND CHARGES LISTED IN THE FISCAL YEAR 2019-20 FEES AND CHARGES MANUAL AND OTHER RENTAL AND LOAN PAYMENTS TO THE CITY ON A CASE-BY-CASE BASIS, AS NECESSARY TO ADDRESS HARMS CAUSED BY THE COVID-19 PANDEMIC

Action Requested: Adoption of an ordinance authorizing the City Manager to temporarily suspend or defer fees and charges listed in the Fiscal Year (FY) 2019-20 Fees and Charges Manual and other rental and loan payments to the City on a case-by-case basis, as necessary to address harms caused by the COVID-19 pandemic.

Background:
- Fees and charges assessed by the City are reviewed annually and adopted by City Council as outlined in the FY 2019-20 Fees and Charges Manual.
- The City also has rental and loan payment schedules with other parties.
- Many Asheville businesses are either closed or operating in a limited capacity due to the COVID-19 pandemic, creating substantial economic challenges for owners, employees, and customers.
- Some businesses have requested temporary relief from City fees and charges and loan payments in an effort to help reduce their expenses.
- In support of these requests, several fees and charges and other payments have already been temporarily suspended or deferred or are under review for such action.

Council Goals:

- Transportation and Accessibility
- A Thriving Local Economy
- A Financially Resilient City

Committee:

- None.

Pros:

- Facilitates business operations that are able to continue during the COVID-19 pandemic.
- Reduces operating costs for businesses during the COVID-19 pandemic.
- Reduces transportation costs for the community during the COVID-19 pandemic, helping to maintain access to essential services, businesses, and employment.
- City Manager authority to temporarily suspend fees and charges and other payments provides heightened responsiveness to community needs during the COVID-19 pandemic.

Con:

- Loss or deferment of revenue to the City.

Fiscal Impact:

- Currently suspended fees result in monthly lost revenue of approximately $677,000.
- Loan payments deferred have no impact on operations and no long-term financial impact as the amounts will be repaid as part of the final payment on notes outstanding.
- Federal grant funds are expected to offset the loss of Transit Farebox revenue.

Motion:

- Motion to adopt an ordinance authorizing the City Manager to temporarily suspend or defer fees & charges listed in the FY 2019-20 Fees and Charges Manual and other rental and loan payments to the City on a case-by-case basis.

ORDINANCE BOOK NO. 33 - PAGE 67

L. **RESOLUTION NO. 20-82 - RESOLUTION TO RATIFY THE CITY MANAGER'S EXECUTION OF A MEMORANDUM OF UNDERSTANDING WITH RED ROOF INN FOR PROVISION OF 60 ROOMS FOR COVID-19 NON-CONGREGATE MOTEL SHELTER FOR UNSHELTERED AT-RISK PEOPLE EXPERIENCING HOMELESSNESS**

RESOLUTION NO. 20-83 - RESOLUTION TO RATIFY THE CITY MANAGER'S EXECUTION OF NEW SERVICES CONTRACT WITH HOMEWARD BOUND OF WESTERN NORTH CAROLINA TO CONDUCT ESSENTIAL SHELTER OPERATIONS

RESOLUTION NO. 20-76 - RESOLUTION TO RATIFY THE CITY MANAGER'S EXECUTION OF CONTRACT AMENDMENT WITH AXIS SECURITY FOR PROVISION OF 24/7 SECURITY AT RED ROOF INN

Action Requested: Approval of motions to ratify City Manager's execution of contracts with Red Roof Inn, Inc., Homeward Bound of Western North Carolina, and Axis Security.

Background:

- On April 8, the City entered into a 30-day licensing agreement with Homeward Bound of Western North Carolina to operate a 50-bed emergency homeless shelter at Harrah's Cherokee Center for persons experiencing unsheltered homelessness at significant risk of contracting COVID-19 because of age and/or underlying chronic health concerns.
- Operations have gone smoothly and have achieved the initial public health objective of prevention of COVID-19 among the community's unsheltered homeless population.
- The shelter's census has dwindled to 32 over the last week and best practices emerging across the country and in other North Carolina cities now indicate that non-congregate shelter settings in motels provide an appropriate address of public health concerns for those experiencing unsheltered homelessness during the COVID-19 pandemic and an opportunity to provide supportive services with the goal of transitioning as many of these individuals to permanent housing.
- The availability of FEMA reimbursement specifically for non-congregate COVID-19 emergency motel homeless shelters now make such options more feasible.
- Council previously authorized the City Manager at its special called meeting on April 28 to apply for, execute related contracts, and receive FEMA funding for various needs in the community. City staff will complete and submit a project application to FEMA specifically for this activity.
- City staff engaged multiple local hoteliers to secure an appropriate site where Homeward Bound of Western North Carolina could continue its existing staff efforts to operate the shelter in a new venue at the Red Roof Inn, 16 Crowell Rd., with which the City has contracted for 60 rooms initially at a nightly rate of $44.99 plus tax.
- The City has renewed its shelter operations agreement with Homeward Bound as well as extended its agreement with Axis Security Inc. to provide round-the-clock security to ensure the operational and property safety.
- The new arrangement will expand shelter capacity and increase the number of beds available to the community's most at-risk unsheltered persons experiencing homelessness.
- Outreach is both part of the City's overall COVID-19 homeless response and a key element of our ongoing strategy. There are people who will remain outdoors and we will continue to conduct outreach to those people and provide ongoing supportive services to outreach clients who have been sheltered in this effort, all with the ultimate goal of securing permanent supportive housing.

Vendor Outreach Efforts:

- Staff performed outreach to multiple hoteliers to secure competitive rates and the most appropriate property layout, per FEMA guidance.

Council Goal(s):

- A Diverse Community
- A Well-Planned and Livable Community
- Fiscally Resilient City

Committee(s):

- None

Pro(s):

- Expands existing COVID-19 homeless shelter operations capacity.
- Public Health and safety
- Non-congregate motel shelter operations, and security costs are eligible for FEMA reimbursement.
- Provides opportunities to provide counselling and supportive services to help these individuals transition into permanent housing.

Con(s):

- No set end date
- Potential Damages incurred at the Hotel are not eligible for reimbursement from FEMA

Fiscal Impact:

- Funding for the contracts will initially come from previously approved budget authorization that was approved as part of the Affordable Housing CIP project, so no budget amendment is required. Community & Economic Development will utilize Capital Improvement Program funding to cover up front costs pending FEMA reimbursement.

Motion(s):

- Motion to ratify the City Manager's execution of a Memorandum of Understanding with Red Roof Inn for provision of 60 rooms for COVID-19 non-congregate motel shelter for unsheltered at-risk people experiencing homelessness;
- Motion to ratify the City Manager's execution of new services contract with Homeward Bound of Western North Carolina to conduct essential shelter operations.
- Motion to ratify the City Manager's execution of contract amendment with Axis Security for provision of 24/7 security at Red Roof Inn.

Four comments were received from the public regarding housing the homeless at the Red Roof Inn and the security. Mayor Manheimer said that security is provided at homeless shelters as well - so this is not a different protocol. Assistant City Manager Cathy Ball said there is the ability to have people leave the rooms and go out. We worked with Mountain Mobility for on-demand transportation service. The location of the Red Roof Inn is not ideal but we cannot force hoteliers to partner with the City.

In response to Mayor Manheimer, City Attorney Campbell and Assistant City Manager Cathy Ball gave some background information regarding the homeless transition from Harrah's Cherokee Center to the Red Roof Inn. We are working very closely with homeless advocacy groups about the best way to work with the homeless. We are also providing wrap-around services to move this population to transition or permanent housing.

RESOLUTION NO. 20-82 - RESOLUTION BOOK NO. 41 - PAGE 304
RESOLUTION NO. 20-83 - RESOLUTION BOOK NO. 41 - PAGE 305
RESOLUTION NO. 20-76 - RESOLUTION BOOK NO. 41 - PAGE 286

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda, minus Consent Agenda "D". This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR BEAUCATCHER COMMONS 2 RESTAURANT COURT DEVELOPMENT

Vice-Mayor Wisler moved to continue this public hearing to consider a land use incentive grant for Beaucatcher Commons 2 Restaurant Court development until May 26, 2020. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

B. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR TRIBUTE DEVELOPMENT COLLIER AVENUE APARTMENTS

Vice-Mayor Wisler moved to continue this public hearing to consider a land use incentive grant for Tribute Development Collier Avenue Apartments until May 26, 2020. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING AT 137 BROAD STREET FROM COMMUNITY BUSINESS I TO COMMUNITY BUSINESS I/CONDITIONAL ZONE TO INCLUDE AN ADJACENT PARCEL FOR THE CONSTRUCTION OF A NEW MIXED-USE BUILDING

Vice-Mayor Wisler moved to continue this public hearing to consider an amendment to a previously approved conditional zoning at 137 Broad Street from Community Business I to Community Business I/Conditional Zone to include an adjacent parcel for the construction of a new mixed-use building until May 26, 2020. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. ORDINANCE NO. 4802 - ORDINANCE AMENDING THE FIREARMS ORDINANCE TO ALLOW BOW HUNTING FOR DEER POPULATION CONTROL ON PRIVATE PROPERTY

Assistant City Attorney Aarin Miles said that this is the consideration of adoption of an ordinance to amend Sec. 11-7 of the Code of Ordinances of the City of Asheville.

Background:

- On January 28, 2020, Christopher Arbor, a teacher at Asheville School, spoke at the Public Safety Committee, during public comment requesting that the City amend its firearm ordinance to allow bowhunting of deer in order to control the deer population, with concerns of lyme disease and deer interfering with the school's forestry efforts.
- Mr. Arbor was accompanied by Joe Lasher of Backyard Bow Pro, who would be the third party that Asheville School would contract with to hunt the deer on the School's property, if permitted. Mr. Lasher indicated that meat from the harvested deer would be donated to food banks.
- Another person, who was the President of the Hillside Terrace Neighborhood Association, spoke to the Committee in support of the amendment indicating that this initiative would help with neighborhood beautification.
- On February 25, 2020, Legal presented research to the Public Safety Committee.
- Christopher Arbor, Steven Beltrem, Joe Lasher, and the President of the HIllside Terrace Neighborhood Association were present and provided public comment in response to staff presentation.
- Legal staff was directed by the Public Safety Committee to draft a proposed amendment to Sec. 11-7: Discharge of Firearms and Weapons, of the Code of Ordinances of the City of Asheville.
- This amendment would allow archery hunting of deer within the City limits under very limited circumstances to include: property size restrictions, height from which hunting must occur, occurring only during the Western Deer season or with a depredation permitted issued by the North Carolina Wildlife Resource Commission, the hunter

possess a valid NC hunting license, and hunter receives a permit to proceed from APD prior to commencing archery hunting on the property.

Vendor Outreach Efforts:
- None

Council Goal(s):
- Clean and Healthy Environment
- Connected and Engaged Community

Committee(s):
- Public Safety Committee - February 25, 2020 - Voted unanimous for Legal to draft ordinance amendment.

Pro(s):
- If this is an effective means of controlling deer, it would assist in agricultural production within the City which aligns with the Food Policy, as well as creating a better balance of deer population and their food supply.

Con(s):
- Discharge of any type of weapon within the City may be viewed as a risk and a public safety concern. Additionally, if exceptions are made, enforcement of the ordinance as it relates to discharge of other types of weapons or for control of other nuisance animals, may become more difficult

Fiscal Impact:
- None

Ms. Miles responded to various questions from Councilwoman Mayfield, noting that donating the harvested deer to a food back is not a requirement of the ordinance. The ordinance does require a depredation permit issued by the North Carolina Wildlife Resource Commission. The hunter must possess a valid North Carolina hunting license, must have written permission from the property owner, and must receive a permit to proceed from the Asheville Police Department prior to commencing archery hunting on the property.

Mayor Manheimer announced that no public comment was received on this item.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to adopt the amendment to Sec. 11-7 entitled "Discharge of Firearms or Weapons," of the Code of Ordinances of the City of Asheville. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 – PAGE 70

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Eight voice-mail comments were received regarding housing the homeless; one regarding the budget; one person who requested assistance; and two people who were opposed to re-opening hotels.

Councilman Young said that politics aside, we must pull together and do the right thing to help the City weather this storm.

Closed Session

At 5:54 p.m., Councilman Kapoor moved to go into closed session for the following reasons: (1) to consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6). This motion was seconded by Councilman Young and carried unanimously by roll call vote.

At 6:06 p.m., Vice-Mayor Wisler moved to come out of the closed session. This motion was seconded by Councilman Kapoor and carried unanimously by roll call vote.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:06 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – May 26, 2020- 5:00 p.m.

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants you to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; live call in; and email.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 12, 2020

B. RESOLUTION NO. 20-84 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH J. BARTHOLOMEW CONSTRUCTION LLC FOR THE SHELBURNE ROOF AND WINDOW REPLACEMENT PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with J. Bartholomew Construction, LLC in the amount of $632,500, for the Shelburne Roof and Window Replacement project; and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of 5% ($31,625).

Background:

- This property located at 75 Shelburne Road was returned to City ownership at no cost to the City from a Federal agency about ten years ago. At the time of transfer to City ownership, the building was in poor condition and has continued to deteriorate.
- Currently this facility houses Facilities Maintenance and several Police operations. The site also serves as a materials storage facility for Public Works stormwater, sanitation, and fleet management.
- The building now houses essential City functions that require dry, secure conditions.
- The roof and masonry are leaking. This project will replace roofing systems throughout the 1960's building and complete structural masonry repairs. High-bay windows in the former "drill hall", while significantly deteriorating, are currently functional.
- Request for Bids was first advertised on March 11, 2020. No pre-bid meeting was held due to observance of pandemic public health concerns. Additional site information was provided to bidders.
- Formal bids were received April 30, 2020. The bids were not opened because only two bids were received.
- Request for Bids was Re-Advertised on May 5, 2020. Contractors were offered site visits following current COVID-19 restrictions per the State of North Carolina, Buncombe County, and the City of Asheville.

- Window Replacement not accepted: Additive Alternate #2 for upper window replacement did not meet the project budget. Windows are currently functioning and will need to be addressed in a future project.
- Construction will begin around July 15, 2020 with completion around November 15, 2020.
- Two bids were received and formally opened on May 14, 2020, their names and Base Bid + Alternate # 1 amounts are listed below:

o J. Bartholomew Construction	Hendersonville, NC	$ 632,500
o WNC Roofing	Fletcher, NC	$ 774,000

J. Bartholomew Construction, LLC was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. The low bidder is not MWBE. The Contractor did document outreach to MWBE sub-contractors. Hemphill Concrete and Finishing (Black Minority Business Enterprise) of Brevard, NC will be performing masonry repairs.

Council Goal(s):

- A Clean and Healthy Environment & A Financially Resilient City

Committee(s):

- None

Pro(s):

- The roof system will be insulated per current codes and leak free.

Con(s):

- None

Fiscal Impact:

- Funding for this contract is included in the Capital Improvement Program (CIP).

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with J. Bartholomew Construction, LLC, in the amount of $632,500, for the Shelburne Roof and Window Replacement project; and further authorizing the City Manager to execute any change orders that may arise during the project up to the 5% contingency amount of $31,625.

RESOLUTION BOOK NO. 41 - PAGE 306

C. RESOLUTION NO. 20-85 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A SEWER EASEMENT ON CITY-OWNED PROPERTY ON OLD HAYWOOD ROAD AND EASTVIEW CIRCLE TO HAWTHORNE AT HAYWOOD APARTMENTS LLC FOR CONSTRUCTION OF A SEWER SERVICE LINE

Action Requested: Adoption of a resolution authorizing the City Manager to grant a sewer easement to Hawthorne at Haywood Apartments, LLC.

Background:

- The City was approached by a local developer who is building a new phase of the Hawthorne at Haywood Apartments and needed a connection to the nearest Metropolitan Sewerage District (MSD) sewer line. The closest opportunity for sewer connection is a line on Eastview Circle.
- The N.C. Dept. of Transportation does not allow sewer within the roadway of Eastview Circle and no remaining right of way outside of pavement is accessible for the sewer installation.
- The only feasible connection left is across city property (9618-90-5267) at the intersection of Old Haywood and Eastview Circle.
- The Real Estate Division consulted other City departments to determine whether it would be in the City's best interest to allow this easement on City property. The Asheville Fire Department uses the property as a fire station and Asheville Police Department has a traffic division at this location.
- Representatives of both departments indicated that they had no objections to this sewer extension. The Streets Department was also consulted and they have no objection.
- The easement being requested is approximately 100 linear feet long and is 20 feet wide. The width is mandated by MSD regulation specifying minimum width. Fair Market Value has been determined to be $4,820 and the developer has agreed to pay this amount.

Council Goal(s):

- A Well Planned and Livable Community

Committee(s):

- None

Pro(s):

- Project will bring much needed rental units to the Asheville area.
- City is receiving compensation for the easement.

Con(s):

- There will be temporary disruption on City property during construction.

Fiscal Impact:

- City is receiving unbudgeted revenue for the easement in the amount of $4,820.

Motion:

- Motion to approve the resolution authorizing the City Manager to grant a sewer easement to Hawthorne at Haywood Apartments, LLC

RESOLUTION BOOK NO. 41 - PAGE 307

D. ORDINANCE NO. 4803 - TECHNICAL BUDGET AMENDMENT TO THE FISCAL YEAR 2019-20 GENERAL FUND (2100 FUND) BUDGET TO ACCOUNT FOR THE REFUNDING COMPONENT OF THE 2018 GENERAL OBLIGATION BOND DRAW PROGRAM

Action Requested: Adoption of a technical budget amendment to the Fiscal Year (FY) 2019-20 General Fund (2100 Fund) budget in the amount of $22,445,994 to account for the refunding component of the 2018 General Obligation (GO) Bond draw program.

Background:

- In 2016, the voters of Asheville approved a GO bond referendum for $74 million.
- The City uses a draw program to minimize the cost of debt. A draw program is a model using short-term debt (24-59 month) during the construction of projects. This short-term debt is then "refunded," or refinanced with long-term debt (20 years). This model minimizes the interest the City pays on debt during construction, ensuring that the City's debt capacity is used most efficiently.
- In June 2018, the City entered into a GO bond draw program in an amount not to exceed $23 million.
- Over the subsequent 21 months, the City drew down on the loan to fund various GO-related projects. In March 2020, the City repaid the interim GO bond ($22.2 million) by issuing 20 year, fixed-rate bonds.
- The FY 2019-20 budget did not include appropriations for the refunding of the 2018 GO bond draw program debt with long-term debt because the amount to be refinanced and the timing were not yet determined when the FY 2019-20 budget was adopted.
- This technical amendment incorporates this appropriation into the budget in order to ensure that the General Fund does not exceed the approved annual budget in the City's Comprehensive Annual Financial Report (CAFR).

Council Goal:
- Financially Resilient City

Committee(s):
- None

Pro(s):
- Amends the FY 2019-20 budget in order to ensure statutory budgetary compliance.

Con(s):
- None

Fiscal Impact:
- There is no net fiscal impact from this technical budget amendment. It will simply amend the FY 2019-20 budget in the General Fund to reflect the receipt of refunding proceeds from the bank and the subsequent payment to bondholders to defease the prior debt issuance.

Motion:
- Motion to approve a technical budget amendment to the Fiscal Year 2019-20 General Fund (2100 Fund) budget in the amount of $22,445,994 to account for the refunding component of the 2018 General Obligation Bond draw program.

ORDINANCE BOOK NO. 33 - PAGE 72

E. RESOLUTION NO. 20-86 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH GMV SYNCROMATICS TO PROVIDE DIGITAL REAL-TIME ARRIVAL/DEPARTURE SIGNAGE AT THE DOWNTOWN TRANSIT CENTER

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with GMV Syncromatics in an amount not to exceed $188,068 to provide digital real-time arrival/departure signage at the downtown transit center.

Background:

- The City of Asheville is currently in the process of renovating various aspects of the downtown transit station at 49 Coxe Ave.
- Recently completed portions of the renovation project include a complete renovation of the interior waiting room and ART staff space; new paint, furniture, and lighting on the platform, and new static signage for the platform bays and building.
- Outstanding items include the addition of solar panels to the roof (to be completed this summer), ADA improvements to the sidewalks and ramps adjacent to the transit station on the west side, and the addition of digital real-time arrival/departure signage to improve the rider experience.
- The City issued a request for proposals February 13, 2020,and received 5 proposals.
- The vendor was selected by a committee of transit staff from the City, ART and City IT staff.
- Installation of the signage will be done under a separate city contract.

Vendor Outreach Efforts:

- A Request for Proposals was issued and posted on the City's bid page as well as the State Department of Administration Historically Underutilized Business website.
- No bids were received from disadvantaged or minority businesses.
- Electrical work and installation of the signage will be bid separately and will include additional outreach to local disadvantaged and minority businesses.

Council Goal(s):

- Transportation and Accessibility.

Committee(s):

- None

Pro(s):

- Digital signage will be placed at the transit center inside the passenger waiting area and outside on the platform to provide riders with real-time transit arrival and departure information, as well as rider alerts and messages.
- The digital signage will improve the rider experience and provide additional opportunities for the City and ART to communicate with riders.

Con(s):

- The cost of the signage.

Fiscal Impact:

- The contract is for 3 years with options to renew for two additional years for a total of 5 years.
- The total 5 year cost of the contract is $188,068. This includes $137,573 in hardware and $6,995 in annual software licensing, support, and maintenance fees for the first year. Years 2 through 5 would include an annual payment of $10,875 for software licensing, support and maintenance.
- The contract allows for additional signage purchases to be made as funding is available in order to expand the system.
- The hardware component ($137,573) of the project is to be funded primarily through previously awarded Federal Transit Administration funds budgeted as part of the transit center renovation project. The City is responsible for 20% of this cost ($27,514), which is also budgeted in that same capital project. Annual maintenance, support and licensing fees are included in the Transit Operations Fund budget and will be funded with City funds.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a contract with GMV Syncromatics in an amount not to exceed $188,068 to provide digital real-time arrival/departure signage at the downtown transit center.

RESOLUTION BOOK NO. 41 - PAGE 308

F. RESOLUTION NO. 20-87 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ESRI INC. FOR GIS SOFTWARE MAINTENANCE

Action Requested: Adoption of a resolution authorizing the City Manager to renew a three-year contract with Esri, Inc. for GIS software maintenance.

Background:

- On August 22, 2017, Council approved Resolution No. 17-185 Esri, Inc. for a three-year contract for GIS Software Maintenance.
- This new contract would allow the City of Asheville to continue building an award-winning GIS program using Esri software for GIS dashboards, Map Asheville, the open data program, water utility management, Public Works asset management, Equity mapping and storytelling, and other initiatives.
- Currently, Esri software is also providing a central data repository and dashboard for the coordinated COVID-19 response.

Vendor Outreach Efforts:

- Esri provides a competitive enterprise license agreement for public sector clients. Changing the City's underlying GIS infrastructure would result in significant costs in terms of lost productivity and the need to rebuild existing GIS assets.
- While City staff keeps a close eye on the enterprise GIS software market, there are few alternatives and none that can provide the same level of value compared to Esri.

Council Goal(s):

- Connected and Engaged Community
- A Diverse Community
- A Well-Planned and Livable Community

Committee(s):

- None

Pro(s):

- Increased support of departmental business requirements via greater options for GIS software licensing
- Ability to install additional software without additional purchases
- Hold the line on increasing software maintenance costs

Con(s):

- If continued funding is not appropriated, some staff will lose the ability to utilize GIS software and data.

Fiscal Impact:

- The first year is $55,500; $5,500 will come from the Water Service Fund and $50,000 will come from IT Services GIS Application Service funding.

- Funding for the first year of the contract is included in the adopted Fiscal Year 2019-20 Budget.
- The total for the three-year contract is $178,155, including sales tax.

Motion:
- Motion to approve the adoption of the resolution authorizing the City Manager to enter an agreement with Esri, Inc. for a three-year contract for GIS Software Maintenance.

RESOLUTION BOOK NO. 41 - PAGE 309

G. RESOLUTION NO. 20-88 - RESOLUTION APPOINTING VICE-MAYOR WISLER TO REPRESENT THE CITY OF ASHEVILLE ON THE FRIENDS OF FONTA FLORA STATE TRAIL BOARD OF DIRECTORS

Action Requested: Adoption of a resolution appointing Vice-Mayor Gwen Wisler to the Friends of the Fonta Flora State Trail, Inc. Board of Directors.

Background:
- The Fonta Flora State Trail is the second state trail in North Carolina. It starts in Burke County at Lake James and is planned to extend through McDowell and Buncombe Counties to terminate in Asheville.
- The City Council of the City of Asheville approved the adoption of the Fonta Flora State Trail extension to Asheville on December 13, 2016, via Resolution # 16-273.
- The Friends of the Fonta Flora State Trail, Inc. is a newly formed non-profit organization designed to support local jurisdictions to coordinate and hasten the planning and implementation of the Fonta Flora State Trail from Morganton to Asheville.
- The Board of Directors is currently being formed and will be made up of elected officials, economic development officials, and trail builders from the three county area.
- Vice-Mayor Gwen Wisler, liaison to the Greenway Committee, was invited to sit on the board for a three-year term.

Council Goal(s):
- Transportation and Accessibility
- Connected and Engaged Community

Committee(s):
- All committees suspended until further notice due to COVID-19.

Pro(s):
- The City of Asheville will have a representative on the Board of Directors.
- State trail status should provide high level planning and funding opportunities to governing entities that are involved with the state trail.

Con(s):
- Time commitment would be required for the city's representative.

Fiscal Impact:
- There is no fiscal impact for this action.

Motion:
- Adopt a resolution appointing Vice-Mayor Gwen Wisler to the Friends of the Fonta Flora State Trail, Inc. Board of Directors

RESOLUTION BOOK NO. 41 - PAGE 310

H. RESOLUTION NO. 20-89 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH MATTERN & CRAIG INC. FOR THE NEW HAWCREEK BOND SIDEWALK PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract amendment with Mattern & Craig, Inc. in the amount of $39,405, for a total contract amount of $719,780 and to further authorize change orders up to the contingency amount of $35,500 (5.2%) for Bond Sidewalk Bundle B.

Background:

- This project, New Haw Creek Sidewalks, is part of the original Bond Sidewalk Bundle B design contract consisting of three other active GO bond sidewalk projects with Mattern & Craig, Inc.
- The City originally entered into a contract in the amount of $573,725 for Bond Sidewalk Bundle B design services (Resolution 17-261, dated November 27, 2017), and later expanded the scope of services to meet the requirements the Federal grants that were awarded to supplement the project budgets. The first contract amendment resulted in a revised contract of $680,375 (Resolution 19-109, dated May 14, 2019)
- Design consideration, to date, for the Haw Creek sidewalk envisioned the sidewalk being constructed on the west side of the road past Dogwood Grove then crossing to the east side of the road.
- Certain challenges with constructing on the east side of the road prompted the suggestion to further evaluate construction on the west side allowing crossings at intersections of Beverley Road and Bel Road.
- Site investigation of the original alignment identified obstructions. The full significance of these obstacles was not realized until a design review workshop in February 2020.
- Understanding the significance of the east side obstructions prompted an investigation of a new alignment. After preliminary design work on the new alignment, it was determined that the new alignment is feasible and recommended.
- This amendment to the design services contract will include additional survey as well as additional drainage and retaining wall design required for constructing on the west side of Haw Creek. The cost of this additional work is $39,405, bringing the total cost of the design contract for the four projects to $719,780.
- The additional contingency of $35,500 is being requested to cover unexpected changes which may occur in the design of this and the other three active projects in this bond package.
    - New Haw Creek design will be complete in August 2020, with construction completion in May 2020.
    - Johnston Boulevard design will be complete in November 2020, with construction completion in January 2023.
    - Onteora Boulevard design will be complete in October 2020, with the construction completion in April 2021.

Vendor Outreach:

- During the establishment of the original contract, staff performed outreach to minority and women owned businesses through solicitation processes which included posting on the State's Interactive Purchasing System and encouraging consultants to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. No MWBE firms submitted qualifications for consideration as the prime consultant.

Council Goal(s):

- Smart City
- Well-planned and livable community

Committee(s):
- None

Pro(s):
- Design of sidewalk that will meet City and National standards
- Improve mobility and safety on city streets
- Adhere to federal guidance and project federal funding

Con(s):
- Construction will be disruptive to adjacent residences and businesses

Fiscal Impact:
- Funding for this contract is already included in the 2016 General Obligation (G.O.) Bond Program and has since been supplemented by federal grant funding at an 80% Federal/20% City level.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a contract amendment with Mattern & Craig, Inc. in the amount of $39,405, for a total contract amount of $719,780 and to further authorize change orders up to the contingency amount of $71,000 (9.8%) for Bond Sidewalk Bundle B.

RESOLUTION BOOK NO. 41 - PAGE 311

I. RESOLUTION NO. 20-90 - RESOLUTION APPROVING THE 2020 GENERAL OBLIGATION BOND DRAW PROGRAM

Action Requested: Adoption of a resolution directing the City Manager and Chief Financial Officer to pursue debt financing for capital projects with a draw program that includes the issuance of interim, variable rate General Obligation Bonds (GOs) in an amount not to exceed $25,000,000. The interim GOs will provide construction financing for projects which, upon completion, will be permanently financed through longer-term, fixed rate GOs.

Background - Timeline:
- In 2016, the voters of Asheville approved a GO bond referendum for $74 million.
- In June 2018, the City entered into a GO bond draw program in an amount not to exceed $23 million.
- In March 2020, the City refunded the interim GO bonds ($22.2 million) by issuing 20 year, fixed rate bonds.
- In June 2020, the City wishes to enter into its second GO bond draw program in an amount not to exceed $25 million, and in keeping with the 2016 referendum mandate.

Background - Draw Program:

- The City uses a draw program to minimize the cost of debt. The program allows the City to draw down funds as they are needed during the construction of projects (24-59 months). This short-term debt is then "refunded," or refinanced with longer-term, fixed rate debt (20 years).
- This approach minimizes the interest the City pays on debt during construction and ensures that the City's debt capacity is used most efficiently.

Council Goal:
- Financially Resilient City

Committee(s):
- None

Pro(s):
- Allows the City to move forward with the Capital Improvement Program as funds are spent

Con(s):
- None

Fiscal Impact:
- The initial draw on the GO bonds for costs incurred to date is $5.1 million. At current variable rates associated with this facility (roughly 1.92%), the annualized interest expense on the initial draw is $98 thousand. As further draws are made on the bonds, the interest expense will increase accordingly. Funds are included in the City's FY 2020-2021 proposed debt service budget to cover these costs. They are also included in the City's multi-year capital improvements debt model.

Motion:
- Motion to approve the proposed General Obligation Bond Resolution

RESOLUTION BOOK NO. 41 - PAGE 312

J. RESOLUTION NO. 20-91 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH PARKER TECHNOLOGIES INC. FOR THE PARKING GARAGE VIDEO CALL CENTER ANSWERING SERVICE

Action Requested: Adoption of a resolution authorizing the City Manager to amend the existing parking garage call center contract (# 91700296) with Parker Technology, Inc., increasing the total value of the contract to $91,000, and to extend the contract until May 31, 2020.

Background:
- The City of Asheville entered into a contract with Passport Labs in February 2017 for a video-based customer answering / "call for assistance" service within the four City-operated parking garages.
- The fee structure paid is dependent on the number of "call for assistance" buttons placed at each parking garage exit, as well as the hours within a day that each assistance point is monitored.
- At the beginning of the contract, not all garage exits were equipped with "call for assistance" buttons, and all in-place buttons were only being monitored during evening and weekend hours.
- During May 2018, additional "call for assistance" buttons were installed, and all exits used by hourly garage customers were enhanced to 24/7 monitoring.
- Parking Services raised all parking garage gates on March 18, 2020 due to COVID-19 response. No use of the video call for assistance service has been recorded since then, although the garages have remained open for patrons.

- The contract expired in February 2020 and the requested additional funds would allow Parking Services to pay for services through May 31, 2020.

Vendor Outreach Efforts:
- N/A - This is a current contract.

Council Goal(s):
- Transportation and Accessibility.

Committee(s):
- None.

Pro(s):
- Enables the City to continue to provide timely assistance for parking garage customers.
- Provides "face-to-face" customer support.

Con(s):
- None

Fiscal Impact:
- The cost of increasing the contract value in order to maintain 24/7 customer assistance is included in the current Parking Services Fund operating budget.

Motion:
- Motion to adopt a resolution authorizing the City Manager to amend the existing parking garage call center contract (# 91700296) with Parker Technology, Inc., increasing the total value of the contract to $91,000, and to extend the contract until May 31, 2020.

RESOLUTION BOOK NO. 41 - PAGE 334

K. RESOLUTION NO. 20-92 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH LOOMIS ARMORED US, LLC, FOR ARMORED CARRIER SERVICE

Action Requested: Approval for a contract between the City and Loomis Armored US, LLC, a cash pickup & delivery service, in an amount not to exceed $160,000 over a five year period.

Background - Timeline:
- Various City departments and divisions accept cash payments for services - including Water, Parking, WNC Nature Center, Harrah's Cherokee Center Asheville and Development Services.
- State Statute (NC 159-32) requires that cash receipts in excess of $500 be deposited with a financial institution on a daily basis.
- The City has not had a consistent, coordinated method for making cash deposits.
- To ensure compliance with State statute and improve employee safety, Finance and the aforementioned departments have undertaken an effort to standardize cash deposit activities across the City using Smart Safes and armored car pickup.
- Following a Request for Proposals process, Loomis Armored US, LLC was chosen as the preferred vendor.
- Under the proposed contract, Loomis Armored US, LLC will provide armored vehicle cash pick-up & delivery services as well as State Statute compliant "smart safes" for the periods of time in between cash pickup.

Council Goal:
- Financially Resilient City

Committee(s):
- None

Pro(s):
- Improved employee safety, ensuring that employees are not responsible for carrying cash to the bank.
- Compliance with State Statute through the use of Smart Safes on site.
- Efficient use of City resources, APD officers will not be needed to escort Water Resources deposits to the bank.

Con(s):
- None

Fiscal Impact:
- Contracted service costs not to exceed $160 thousand over a five year period. Each department or division has included these costs in their respective budgets.

Motion:
- Move to adopt a resolution authorizing the Mayor to execute a contract with Loomis Armored US, LLC.

RESOLUTION BOOK NO. 41 - PAGE 335

L. **RESOLUTION NO. 20-93 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, A U.S. DEPT. OF JUSTICE CORONAVIRUS EMERGENCY SUPPLEMENTAL FUNDING PROGRAM GRANT**

ORDINANCE NO. 4804 - BUDGET AMENDMENT TO ACCEPT A U.S. DEPT. OF JUSTICE CORONAVIRUS EMERGENCY SUPPLEMENTAL FUNDING PROGRAM GRANT

Action Requested: Adoption of a resolution to apply for and accept the 2020 Coronavirus Emergency Supplement Funding (CESF) grant and adopt a budget amendment in the City's Special Revenue Fund in the amount of $153,278.

Background:
- The City of Asheville received an email notifying us of the opportunity to apply for a Department of Justice (DOJ) Coronavirus Emergency Supplemental Funding Program (CESF) grant.
- The DOJ has preliminarily determined that the Asheville Police Department (APD) is eligible to
receive a 2020 award of $153,278 which is allocated solely to the APD.
- The APD will use the funds to prevent, prepare for, and respond to the coronavirus pandemic.

Council Goal(s):
- A Connected and Engaged Community

Committee(s):

- None

Pro(s):
- Allows for reimbursement for purchases pertaining to the Coronavirus pandemic.

Con(s):
- None

Fiscal Impact:
- There is no local match required.

Motion:
- Motion to adopt a resolution approving the application and acceptance of the grant and a budget amendment to appropriate the funding.

RESOLUTION BOOK NO. 41 - PAGE 336
ORDINANCE BOOK NO. 33 - PAGE 73

M. RESOLUTION NO. 20-94 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, WITH THE EXECUTIVE OFFICE OF THE PRESIDENT, OFFICE OF NATIONAL DRUG CONTROL POLICY FOR THE 2020 HIGH INTENSITY DRUG TRAFFICKING AREAS GRANT

ORDINANCE NO. 4805 - BUDGET AMENDMENT FOR THE 2020 HIGH INTENSITY DRUG TRAFFICKING AREAS GRANT

Action Requested: Adoption of a resolution to apply for and accept the 2020 High Intensity Drug Trafficking Areas (HIDTA) Grant; and adopt a budget amendment in the City's Special Revenue Fund in the amount of $285,416.

Background:
- The City of Asheville receives an annual opportunity to receive a HIDTA Program Grant.
- The Office of National Drug Control Policy has preliminarily determined that the City of Asheville
  is eligible to receive a grant of $285,416.
- The purpose of the HIDTA program is to reduce drug trafficking and production in the United States, specifically in areas where drug related activities are having a significant harmful impact.
- The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration, Asheville Police Department, and the Sheriff Offices' of several Western North
  Carolina Counties.
- Grant funds are used for overtime, travel, services and supplies. All expenses are tracked and
  audited by local and Federal authorities.
- The Asheville HIDTA is the direct beneficiary of the grant funds. A United States Drug Enforcement Administration supervisor, who is the Asheville HIDTA manager, determines how
  grant funds will be expended. All members of the Asheville HIDTA receive reimbursement when
  they incur qualified expenses conducting Asheville HIDTA business..
- The Asheville Police Department acts as the fiduciary for the grant. When expenses are incurred,

the fiduciary settles the claims using appropriated City of Asheville funds and then requests a
100% reimbursement from the Federal Government.

Council Goal(s):
- A Connected and Engaged Community

Committee(s):
- None

Pro(s):
- Fosters partnerships with Federal and local law enforcement agencies.

Con(s):
- None

Fiscal Impact:
- There is no local match required.

Motion:
- Motion to adopt a resolution approving the application and acceptance of the grant; and a budget amendment to appropriate the funding.

RESOLUTION BOOK NO. 41 - PAGE 337
ORDINANCE BOOK NO. 33 - PAGE 74

N. RESOLUTION NO. 20-95 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE SELECTION OF A CONTRACTOR TO PROVIDE SUPPLEMENTAL TRANSIT SERVICE IN THE CITY OF ASHEVILLE TRANSIT AREA

ORDINANCE NO. 4806 - BUDGET AMENDMENT IN THE TRANSIT SERVICES FUND FROM CARES ACT FUNDING TO PROVIDE BUDGET AUTHORIZATION FOR THE CONTRACT COST

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Young Transportation in an amount not to exceed $962,000 to provide supplemental transit operations support for the City of Asheville in an effort to restore portions of fixed-route transit services that have been reduced due to COVID-19 impacts to service capacity; and a budget amendment in the Transit Services Fund in the amount of $962,000 from CARES Act funding to provide budget authorization for the contract cost.

Background:
- The COVID-19 pandemic has impacted the City of Asheville's fixed-route transit service, Asheville Rides Transit (ART), in a number of specific ways that have resulted in the need to reduce transit service.
- Specifically, social distancing requirements have necessitated limiting the number of people on a bus to 10 (including the driver). This has essentially reduced the overall service capacity by more than 50%, resulting in instances of overcrowding and not being able to pick up all riders.
- Additionally, staffing levels at ART have also been impacted, both due to COVID-19, natural employee turnover, and nationwide driver shortage, which has been exacerbated by COVID-19.
- Staffing shortages contributed to the need to cut 3 routes (170, S6, and one bus on WE1

route) in March, which has had a significant negative impact on many ART riders.

- Approximately $3.75 million in CARES Act funding has been provided to the City of Asheville specifically to be used for transit expenses related to COVID-19, including expenses related to purchasing operational support.
- The City released an RFP on May 13 requesting proposals to provide supplemental transit operations support, specifically requesting the provision of large vehicles and drivers to be used 12 hours per day in order to cover the peak ridership times of day on the 3 routes that were previously cut (170, S6, WE1). The contractor may also be asked to provide pick-ups and drop-offs to aid in overcrowding being experienced due to the 10-person limit per bus.
- It is unknown how long these services will continue to be necessary, though it is likely that it will no longer be needed when ART staffing levels return to normal and physical distancing measures are no longer required.
- The $962,000 cost to be authorized is a maximum amount and includes 4 buses for 12 hours per day, operating 7 days per week, between June 1 and December 31. It is possible that the number of buses per day needed may be less than 4 on any given day, and it is possible that the City may not need the additional support through December, however staff requests authorization for this maximum amount in case it is needed. Any remaining funds would be returned to the Transit Operations Fund.
- This supplemental service is not new or supplanted service and has no impact on the existing contract with RATPDev, Inc. or the Collective Bargaining Agreement between RATPDev, Inc. and its staff.

Vendor Outreach Efforts:

- A Request for Proposals was issued and posted on the City's bid page as well as the State Department of Administration Historically Underutilized Business website.
- The City received one proposal from a minority/woman-owned business based in Winter-Garden, Florida; however the proposal did not meet the selection criteria as well as Young Transportation's proposal and therefore was not selected.

Council Goal(s):

- Transportation and Accessibility.

Committee(s):

- None

Pro(s):

- The contract will provide service 12-hours per day to cover peak ridership times, primarily on the 3 routes that were previously cut. The contractor may also provide service to pick up and drop off riders that may be left at a stop due to the bus being full as a result of the 10-person limit.
- CARES Act funding can be used to fund this contract, rather than City funds.

Con(s):

- The cost to procure additional private services to supplement our fixed-route transit service.

Fiscal Impact:

- The contract is for a not-to-exceed amount of $962,000. CARES Act funding will be used to fund these services, and there is a 0% City match required.
- A budget amendment is needed in order to provide sufficient budget authorization to encumber the contract in the current year Transit Services Fund budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a contract with Young Transportation in an amount not to exceed $962,000 to provide supplemental transit operations support for the City of Asheville in an effort to restore portions of fixed-route transit services that have been reduced due to COVID-19 impacts to service capacity; and a budget amendment in the Transit Services Fund in the amount of $962,000 from CARES Act funding to provide budget authorization for the contract cost.

RESOLUTION BOOK NO. 41 - PAGE 338
ORDINANCE BOOK NO. 33 - PAGE 75

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

III. PRESENTATIONS & REPORTS:

A. PRESENTATION OF THE FISCAL YEAR 2020-21 BUDGET

City Manager Campbell was pleased to present the Fiscal Year (FY) 2020-21 Annual Operating Budget. She thanked the Finance & Budget Department, Department Directors, and City Council. The budget document can be accessed on-line.

City Manager Campbell then gave a brief overview of (1) a brief discussion of expected year-end results; and (2) FY 2020-21 Manager's Recommended Budget (a) challenges of budgeting in uncertain economictimes; and (b) recommendations.

Key takeaways included: (1) Ongoing major uncertainty; (2) Continuation budget with limited service enhancements; (3) Departments worked to make cuts with a focus on minimizing operational impacts; and (4) Even with state/federal support, fund balance needed to support operations.

Chief Financial Officer Barbara Whitehorn reviewed a PowerPoint of the FY 2019-20 year-end update: In the General Fund (1) Significant revenue loss from sales taxes, ABC revenue, and investment earnings; (2) Identified $1 million in savings; (3) $2.5-4.5 million use of fund balance; and 94) Available fund balance at year end will drop to between 14-16%. She showed a chart tracking sales tax for the year-end results.

State and federal assistance: (1) State CRF Assistance o $942,000 from Buncombe County; (2) Federal CARES Act Funding o $615,000 Community Development Block Grant (CDBG) Program. o $3.7 million for COVID-19 Transit Impacts; and (3) Dept. of Justice Coronavirus Emergency Supplemental Funding Program (CESF) o $153,000 for the Police Department.

Year-end results for the Enterprise Funds include: (1) Parking (a) Revenue loss from free parking. o $500,000/month; and (b) Identified savings to reduce expected fund balance use to $1.4 million; (2) Transit (a) Revenue loss from fare-free; and (b) Transit COVID-19 expenses and budget shortfall will be covered with CARES Act funding.

The financial summary for the year-end results (1) General Fund use of fund balance - range of $2.5 - $4.5M; (2) Continue to monitor sales taxes and regularly report to Council; (3)

Parking Fund use of fund balance - approximately $1.4M; and (4) State & federal assistance helping offset financial impacts.

Key drivers in the budget development of the FY 2020-21 Manager's Recommended budget include (1) Even more uncertain economic outlook; (2) Minimal revenue growth will be used up by ongoing operating cost increases, even after making reductions to expenditures; and (3) While enhancements can be considered if the fiscal picture improves later in the year, additional revenue will be needed to fund any new capital or operating investments.

Our guiding principles include (1) essential service delivery - ensuring departments have the resources required to meet service delivery expectations; (2) enhancing customer value - ensuring efficient service delivery that improves the customer experience; and (3) strategic alignment - aligning resources (new and existing) to achieve community, City Council and staff goals.

We implement these guiding principles in a crisis by (1) ensuring safety of our staff and community; (2) work to limit impacts on existing services - whether essential or strategic, not the time to reduce the services our community relies on; and (3) be prepared for the plan to change.

The FY 2020-21 recommended budget continues funding for existing services with limited enhancements, new programs or initiatives; and maintains current property tax rate (42.89¢) and recommends no fee increases. She showed a chart of the summary budget, along with a chart of Fiscal Year 2020-21 General Fund revenues.

For the FY 2020-21 General Fund operating expenses, the primary goal is (1) continuity of operations; (2) continued transit support; (3) collaborative work with departments to hold operating budgets flat year over year; and (4) budget developed with intentionality and a focus on equity.

FY 2020-21 salaries & wages: (1) Funding for $31,200 minimum annual pay, LGERS required increase; (2) No general wage increase for employees; (2) Assuming continuation of hiring freeze through first six months of FY 2020-21; (4) Delayed implementation of other recommendations of Compensation Study. o Base pay of all employees, including firefighters being evaluated; and (5) Firefighter Pay Plan (a) Trainee pay: $32,630 annually (6 mo.); (b) Firefighter starting pay: $33,935 annually (~2 yrs.) - Step increases, 2.5%; (c) Sr. Firefighter pay: $40,603 annually; and (d) Other Pay - Education Pay, 1.5-5% - Certification Pay, 2-3%

We aren't making deeper cuts today (1) Flat Budgets (a) Maintain levels of service for the community; (b) Departments minimized increases; and (c) Overall increase driven by Transit improvements in FY 2020-21; (2) Staffing (a) Amount of work expected of employees is increasing during the crisis; and (3) Hold Steady and Prepare for Change.

Strategies for a prolonged recession will be to communicate Early and Often with Council and the Community (1) Continuation of hiring freeze; (2) Maintenance and Capital Investments (a) Defer facility and infrastructure maintenance; and (b) Defer capital projects not already in progress; and (c) Service Cuts.

In the FY 2020-21 General Fund operating budget, we recommend reallocation of a portion of Strategic Partnership Funds (SPF) to support equity and address opportunity gap goals: (1) $35,000 to support ACS After-School Coordinator; (2) $43,000 to Parks & Recreation for extended community center hours & summer youth/teen programming; and (3) $15,000 to Pisgah Legal Services Tenant Eviction Response Team.

She then outlined several of Council's strategic priorities that are on-going.

In summary for the General Fund, revenue is $133.1 Million; expenditures are $134.6 Million; for a use of Fund Balance of $1.5 Million. Continuity of operations and existing programs with no additional funding for new or enhanced services. Fund balance appropriation of $1.5 Million included in the budget, reducing fund balance to the range of 13-15%.

For the FY 2020-21 Enterprise Funds, (1) No fee increases in water and stormwater; (2) Uncertainty around re-implementation of fees for transit and parking may impact revenues in those funds; and (3) Parking revenue likely will be slow to rebound.

In summary for the Enterprise Funds: (1) Transit Fund - $2.1 million (21%) increase in costs (a) Continuation of service enhancements implemented in January, 2020; and (b) Increased paratransit costs; (2) Harrah's Cherokee Center Fund - Budget reduced by $1.1 million to reflect fewer expected events (a) Use of $217k in fund balance; (3) Water Resources Fund (a) No fee increases; and (b) Water Capital Improvement Program charge to be eliminated ($7.4 million reduction in revenue) (i) Water capital fund balance to make up difference; and (ii) External consultants working on rate study to better balance cost burden between commercial and residential customers.

She then reviewed a chart of summary of Enterprise Funds.

For the FY 2020-31 Capital Improvement Program (1) Projects already underway will continue; (2) No new projects funded; (3) Projects included if a delay could jeopardize external funding; and (4) GO bond projects continuing to ensure completion within timeframe.

She noted that key takeaways include (1) Ongoing major uncertainty; (2) Continuation budget with limited service enhancements; (3) Departments worked to make cuts with a focus on minimizing operational impacts; and (4) Even with state/federal support, fund balance needed to support operations.

The public hearing on the budget will be held on June 9 with options of live telephone, pre-recorded and written public comment. The budget adoption is scheduled for June 23, 2020.

In response to Councilman Kapoor, Ms. Whitehorn said that they will provide Council with a list of the continuing capital projects, along with a list of a list of streets they anticipate to repair.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT 2 RESTAURANT COURT RENTAL COMMUNITY, BEAUCATCHER VISTA LLC

Community Development Program Director Paul D'Angelo said that this is the consideration of a resolution granting a land use incentive grant for 2 Restaurant Court rental community, Beaucatcher Vista LLC. This public hearing was advertised on May 1, 2020. On May 12, 2020, the public hearing was continued to this date.

Review::

- Kirk Booth d/b/a as Beaucatcher Vista LLC has proposed the development of a 40-unit, 100% affordable multifamily property on a 1.31 acre parcel located at 2 Restaurant Court (PIN #9658-08-2350) in Asheville directly off of Tunnel Road. All 40 units are intended to be 1 bedrooms, with 30 of the units set aside for households at or below 60% of Area Median Income (AMI) and the remaining 10 for 80% AMI households.

- The property is situated in close proximity to commercial and transit amenities, including an ART bus stop, an Ingles grocery and pharmacy, and a number of potential employers. These are all factors prioritized in the LUIG policy.

Proposal:

- The developer has requested a Land Use Incentive Grant (LUIG) award estimated at $289,481.85. In addition, the developer seeks a loan of $1,000,000 from the City's Housing Trust Fund, which request will be considered at the May 26, 2020, Council meeting.
- The property's location and commitment to affordable housing merits a score of 150 on the LUIG scoring matrix, resulting in an award period of 21 years. The City's LUIG policy caps award terms at 20 years plus 1 from the date of release of all occupancy permits for the property.
- The current assessed value of the parcel is $786,000 with an annual City tax obligation of $3,371.15. An estimate of post-construction value from the developer is $4,000,000.
- True valuation will be determined by Buncombe County Tax Assessor after project completion. A project valued at $4,000,000 at the current City tax rate of 0.4289 would result in an annual grant award of $13,784.85. Over the 21 year award period, the total value of the LUIG award would amount to $289,481.85.
- This request will be presented in unison with a $1,000,000 Housing Trust Fund request. The combined City subsidy should both awards be approved is $1,289,481.85, or a total City subsidy of $32,237.05 per affordable unit.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- None

Pro(s):

- The proposed project will create 40 affordable rental housing units made available to households earning 80% or less of AMI for a period of 20 years.
- The proposed project addresses the City's stated priority for one-bedroom apartments.

Con(s):

- None.

Fiscal Impact:

- The parcel has a current tax value of $786,000 and with an annual City of Asheville tax bill of $3,371.15.
- The estimated tax value upon completion is $4.0M, which at current rates would result in a City tax bill of $17,156. The difference in tax payment is $13,784.85. An equivalent amount would be granted back annually to the property owner for 21 years.
- The maximum term of a LUIG is 20 years plus 1. Therefore, over a period of 21 years, the estimated value of this LUIG award is $289,481.85

Vice-Mayor Wisler said that she has heard concerns regarding the developer's neighboring development at 444 Beaucatcher Road. The concerns include garbage and recycling, intrusion of cottages into the setback required, no sidewalk and curbs, cottages are built with their backs to the street; and lack of maintenance of the vegetative buffer. Via email, Planning & Urban Design Director Todd Okolichany said that the 444 Beaucatcher Road was permitted in 2012 and had 12 units. It's possible that sidewalks were not required at that time. He said that the planner for that project still works from the City and he felt sure that the project

would not have been approved if it hadn't conformed to the City's standards. Councilwoman Mayfield asked that these concerns be addressed prior to the final vote on this matter.

Mr. Chris Day, with Civil Design Concepts, said this project proposes 40 affordable housing. They had a neighborhood meeting in December and heard concerns of trash, landscaping, etc. All traffic ties to Restaurant Court. They are providing required buffers. Regarding trash, they will have a dumpster on site that will be managed. At this time they have no commitments on renewable energy components.

Mayor Manheimer opened the public hearing at 5:59 p.m.

Two individuals spoke about the concern of problems associated with the developer's prior development at 444 Beaucatcher Road. Concerns included garbage, no recycling, vegetative buffer, etc.

In accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Vice-Mayor Wisler moved to recess this item until June 9, 2020, at which time this public hearing will be voted on. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

In response to Vice-Mayor Wisler, City Attorney Branham said that when this matter comes back up for final vote, the public hearing portion of this process will have been concluded, but City Council will be able to discuss the item prior to any vote.

B. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR TRIBUTE DEVELOPMENT COLLIER AVENUE APARTMENTS

Community Development Program Director Paul D'Angelo said that this is the consideration of a resolution granting a land use incentive grant for Tribute Development Collier Avenue Apartments. This public hearing was advertised on March 13, 2020. On March 13, 2020, this public hearing was continued to April 14, 2020. On April 14, 2020, this public hearing was continued to May 12, 2020. On May 12, 2020, this public hearing was continued to this date.

Action Requested: Approve the application for the Land Use Incentive Grant application for Tribute Companies Collier Development.

Review:

- Tribute Company has applied for a Land Use Incentive Grant (LUIG) for their development at 11 Collier Avenue per the LUIG policy adopted by City Council and amended on October 22, 2019.
- The development consists of 54 rental apartments with 100% (54) of the homes proposed serving individuals and families earning between 60% and 80% Area Median Income (AMI) for 20 years.
- This project is located in the Asheville Central Business District -
    - 11 Collier Avenue (PIN# 9648-38-5770)
- The developer estimates a total development cost of $6.5M.
- Tax Value of the property, to be based on the Buncombe County Tax Assessment estimate, is $4,776,599 post-completion.
- The project, as presented to staff, meets the following Eligibility Requirements:
    - The proposed development consists of two or more dwelling units for rent;
    - At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income (AMI).

  - The affordable units will be affordable to and leased to income-eligible households for at least 20 years.
  - The proposed development must be located inside the city limits.
  - The proposed development must be located to provide residents convenient access to jobs, schools, and services.
  - The proposed development must be 70% residential in use based on square footage not to include a parking structure if applicable.
- Per the LUIG Scoring Matrix and based upon the policy, the project will receive 110 total points for affordability and an additional 50 points for the location for a total score of 160 points. Per the policy, this will equal 21 years of grants in the amount of the City Property Taxes payable on the Collier Ave. Development.

Proposal:

- Affordable Rental Housing
  - The proposed project will provide fifty-four (54) affordable units (100% of the units) to individuals and families earning between 60% to 80% of the area median income for an affordability period of twenty (20) years. Under this category, the project qualifies for 100 points.
- Rental Assistance
  - The proposed project will accept 5 Housing Choice Vouchers / Rental Assistance in the community, and possibly consider more. Under this category, the project qualifies for 10 points.
- Superior locational efficiency
  - The proposed project is located within .25 mile of a 1/2 hour transit stop served by an existing sidewalk, within the Central Business District, within 1 mile from a job or urban center, and within a .5 mile from a Transportation Amenity. Under this category, the project qualifies for 50 points.
- Staff has scored the project with 160 points, which qualifies the project for twenty-one years (21) of Land Use Incentive Grant.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- Housing & Community Development Committee - February 11, 2020 - approved
- Finance & HR Committee - February 25, 2020 - approved

Pro(s):

- The proposed project will provide 54 affordable rental housing units to households earning 80% or less of area median income;
- The proposed project will have an affordability period of twenty (20) years;
- The proposed project addresses the pressing need for affordable one-bedroom apartments (54);
- The proposed project should have a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy;
- 54 affordable units located in the central business district (walkability score of 87 - very walkable, bike score of 70 - very bikeable) provides options for our downtown community workers who fall within the 80% AMI incomes.
- Tribute Companies will communicate with the Asheville Housing Authority as the development prepares to come online that they are accepting Housing Choice Vouchers.

Con(s):

- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development.
- The Collier Development, while not required, offers no parking for its residents and can add to the individual or family transportation costs.

Fiscal Impact:

- The parcel has a combined current tax value of $521,000 and pays city property taxes of approximately $2,235 annually.
- Under the estimated tax value of $4,776,599 post-completion, the annual city property tax will be approximately $20,487.
- The difference is $18,251 which would be granted to the property owner annually after payment for 21 years.
- For 21 years and 54 affordable units at or below 80% AMI, the city will grant back a total of $383,292 over the 21 years of the LUIG which equals $7,098 per unit of subsidy which is lower than the estimate of up to $80,000 in subsidy for 80% AMI homes as suggested by our Lord Aeck Sargeant consultants and a subsidy cap that has been noted in other LUIG Staff Reports.
- After year 21, the City will receive the approximate $20,487 annually in city tax revenue (depending on future property tax increases, etc.). Please note the City will still receive property taxes of approximately $2,235 in years 1 - 21.

Councilwoman Mayfield said that many people are trying to preserve this property and wanted the public to know that if this land use incentive grant gets approved, that does not mean that negotiations with the developer are finished. Those efforts are continuing.

Mayor Manheimer opened the public hearing at 6:19 p.m.

Mr. Chris Day, with Civil Design Concepts, said that they are in active conversation with Ravenscroft Reserve to preserve this land.

Two voicemail comments were received opposing this item, as this is the last potential public green space in the South Slope neighborhood.

Councilman Haynes confirmed that voting on recessing this matter does not constitute support for the project.

In accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilman Young moved to recess this item until June 9, 2020, at which time this public hearing will be voted on. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

C. PUBLIC HEARING TO AMEND THE 2019-20 U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT ANNUAL ACTION PLAN

Vice-Mayor Wisler moved to continue the public hearing to amend the 2019-20 U.S. Dept. of Housing & Urban Development Annual Action Plan to June 9, 2020. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING AT 137 BROAD STREET FROM COMMUNITY BUSINESS I TO COMMUNITY BUSINESS I/CONDITIONAL ZONE TO INCLUDE AN ADJACENT PARCEL FOR THE CONSTRUCTION OF A NEW MIXED-USE BUILDING

Councilman Young moved to continue this public hearing to consider an amendment to a previously approved conditional zoning at 137 Broad Street from Community Business I to Community Business I/Conditional Zone to include an adjacent parcel for the construction of a new mixed-use building until July 28, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

E. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OPEN SPACE REQUIREMENTS

Councilman Young moved to continue this public hearing to consider an ordinance to amend the Unified Development Ordinance to update open space requirements until June 23, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 20- 96- RESOLUTION APPROVING A HOUSING TRUST FUND LOAN AWARD FOR 2 RESTAURANT COURT RENTAL COMMUNITY, BEAUCATCHER VISTA LLC

Director of Community Development Programs Paul D'Angelo said that this is consideration of support of a request by Beaucatcher Vista LLC to utilize the Housing Trust Fund to construct affordable rental housing at the property located at 2 Restaurant Court.

Review::

- Kirk Booth d/b/a as Beaucatcher Vista LLC has proposed the development of a 40-unit, 100% affordable multifamily property on a 1.31 acre parcel located at 2 Restaurant Court (PIN #9658-08-2350) in Asheville directly off of Tunnel Road. All 40 units are intended to be 1 bedrooms, with 30 of the units set aside for households at or below 60% of Area Median Income (AMI) and the remaining 10 for 80% AMI households.
- Since 2009, Mr. Booth has completed 9 affordable housing projects in partnership with the City of Asheville resulting in 136 affordable units. This will be his second project using a factory-built product manufactured by Clayton Homes in Tennessee. The technology promises a faster, more efficient construction process, with on-site responsibilities restricted mostly to installation and finishing. He anticipates the units will be available by early 2021.

Proposal:

- The developer seeks a loan of $1,000,000 from the City's Housing Trust Fund (HTF). In addition, the developer has requested a Land Use Incentive Grant (LUIG) award estimated at $289,481.85, which request will be considered at the May 26, 2020, Council meeting. Loan commitments from TruPoint Bank for $1,910,600 and Buncombe County for $296,334 have already been secured. The development partnership is committing the property (valued at $786,000) as equity.
- The units will be located in two separate buildings framing an interior breezeway, and set back towards the rear of the property facing resident parking. All units will be

approximately 450 square feet, and possess full baths, kitchens, and enclosed bedrooms.
- Units will be made available to qualified affordable residents, as well as persons possessing rental assistance. The developer has a demonstrated history of close engagement with the Asheville Housing Authority, Homeward Bound, and other entities providing resident placement and rental assistance.

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- None

Pro(s):
- The project produces 40 units of affordable housing at a location near the City's core, with good access to transit and essential services. The developer's commitment to set aside the majority of these units for 60% AMI households and citizens utilizing rental assistance addresses one of the City of Asheville's highest stated needs.
- The per unit HTF subsidy of $25,000 per affordable unit ($32,237.05 of combined City subsidy) which is lower than the current estimate of up to $80,000 in subsidy for 80% AMI homes as suggested at the Affordable Housing Workshop on September 6, 2019.
- Mr. Booth is an experienced developer, and familiar with City of Asheville affordable housing programs and the expectations associated with them.
- The developer's use of a modular construction product promises a less risk versus a fully site-built construction process.

Con(s):
- None.

Fiscal Impact:
- The project would require $1,000,000 from the City's Housing Trust Fund.
- The loan will be structured to require full repayment of principal and interest (accruing at 2% annually) over a term of 20-years.

In response to Vice-Mayor Wisler, City Attorney Branham said that this action is to approve a Housing Trust Fund loan. If the land use incentive grant requested is not approved, the development would no longer be viable and there would be no Housing Trust Fund loan for this development.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to approve the request by Beaucatcher Vista LLC to borrow funds from the Housing Trust Fund. This motion was seconded by Councilman Young and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 - PAGE 339

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Five voicemail comments were received, four of which were concerned about fireworks in west Asheville; and one opposing the re-opening of non-essential businesses during COVID-19. One live call-in supported raising all firefighters to $15/hour and also supported efforts for virtual board/commission meetings. Deputy Police Chief James Baumstark provided Council with an update on the concerns about fireworks in west Asheville stating that they are increasing patrol in the Pisgah View area (which seems to be the source of the fireworks) to talk to residents, using social media to advise people of the danger of fireworks and educate them which fireworks are legal and which are not, etc. Councilwoman Mayfield also noted that she spoke with the Executive Director of the Housing Authority who will remind tenants about quiet times requirements in their leases.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:51 p.m.

Magdalen Burleson
CITY CLERK

Edwin C. Manheimer
MAYOR

Tuesday – June 9, 2020- 5:15 p.m.

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; live call in; and email.

PLEDGE OF ALLEGIANCE

Vice-Mayor Wisler led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 26, 2020

B. RESOLUTION NO. 20-97 - RESOLUTION ACCEPTING THE ANNUAL FLOOD MITIGATION ACTIONS REPORT AND SUPPORTING THE RE-CERTIFICATION AS A MEMBER OF THE COMMUNITY RATING SYSTEM PROGRAM

Action Requested: Adoption of a resolution accepting the annual Flood Mitigation Actions report and supporting the re-certification as a member of the Community Rating System Program.

Background:

- The City of Asheville joined the Community Rating System (CRS) program, a program through the Federal Emergency Management Agency (FEMA), and administered by the Insurance Services Office (ISO) in 2014. As required by the CRS program, a Repetitive Loss Area Analysis (RLAA) was prepared in 2014 by Brown and Caldwell to supplement the Buncombe-Madison Regional All Hazards Mitigation Plan.
- CRS provides lower insurance premiums under the National Flood Insurance Program. The premium reduction is in the form of a CRS Class. The classes are obtained by actions that are above and beyond the requirements of the National Flood Insurance Program administered by FEMA.
- Currently, property owners in Asheville receive a 10 percent reduction in their flood insurance premiums through participation in the CRS program.
- In order to maintain the current status in the CRS program, staff is required to provide to council the annual report of the Flood Mitigation Actions Items that were part of the RLAA report from Brown and Caldwell adopted by Council on December 10, 2013.
- Highlighted in the report, staff from multiple departments continue to work together, looking for ways to reduce flooding and damage from floods.
- We do this through community outreach from the City website, social media, flyers, and events, working with the Army Corps of Engineers and other partners on flood mitigation opportunities, and working with developers and property owners on ways to protect their properties from flooding.

Vendor Outreach Efforts:

- Not Applicable.

Council Goal(s):
- A Clean and Healthy Environment
- Thriving Local Economy

Committee(s):
- None

Pro(s):
- The property owners in Asheville will continue to receive a 10% reduction on their flood insurance.
- Provides a higher level of protection through the current flood ordinance, improving resilience.
- Promotes public education of the Special Flood Hazard Areas.

Con(s):
- None

Fiscal Impact:
- There is no additional fiscal impact to continuing the efforts necessary for the CRS program, staff time is currently programmed into the annual operating budget.

Motion:
- Motion to approve a resolution accepting the report prepared by City staff for the flood mitigation action associated with the repetitive loss area analysis report.

RESOLUTION BOOK NO. 41 - PAGE 340

C. **RESOLUTION NO. 20-98 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACQUIRE PROPERTY ALONG FEDERAL ALLEY FROM THE STATE OF NORTH CAROLINA TO FACILITATE IMPROVEMENTS IN FEDERAL ALLEY**

RESOLUTION NO. 20-99 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION FROM TRIBUTE INVESTMENT & DEVELOPMENT INC. FOR THE ACQUISITION OF PROPERTY ADJACENT TO FEDERAL ALLEY

Action Requested: Authorize the City Manager to acquire property from the State of North Carolina to facilitate improvements in Federal Alley that will make the area more pedestrian friendly and to facilitate ingress and egress from a new mixed use development and; to accept funds from Tribute Investment & Development as reimbursement for the purchase price.

Background:
- Tribute Development wants to improve an existing unopened City right-of-way, known as Federal Alley, with sidewalks and vehicle access to benefit the future mixed use development at Asheland and Coxe. The City's Planning Department supports these right-of-way improvements since they will benefit public infrastructure and provide much needed cross-connections between Asheland and Coxe.
- However, the existing Federal Alley is narrow, and to accommodate the sidewalk, additional property (718.2 square feet of real property) was needed from the adjacent

property owner - the State of NC (specifically, the area is used by NC State Minerals Lab). The State prefers to sell the property to the City of Asheville rather than the developer.
- Although the developer will construct the improvements, the improved alley will be owned and maintained by the City of Asheville's Streets Department.
- The value of the area in question has been determined by appraisal to be $49,225. The State has agreed to sell the property to the City of Asheville for that amount.
- Tribute has agreed to reimburse the City the purchase price and they will construct the improvements outlined above.
- The Board of Trustees acting on behalf of NCSU has authorized the State of NC to sell this property to the City of Asheville.
- The Council of State will vote on the sale this summer. They have accepted the City's initial Offer Letter containing these terms.

Council Goal(s):
- A More Livable Community

Committee(s):
- None

Pro(s):
- Supports the development of projects that increase pedestrian safety and accessibility in the downtown area of Asheville.
- City will acquire property and be reimbursed by Tribute for the cost of the purchase.

Con(s):

- None

Fiscal Impact:
- As noted earlier in the staff report, the City will be reimbursed for its purchase of the property. Since the transaction will not take place until next fiscal year, the budget for the purchase and the reimbursement will be included in the Fiscal Year 2020-21 Budget Ordinance that Council is scheduled to approve on June 23, 2020.

Suggested Motion:
- Move to adopt a (1) resolution to authorize the City Manager to acquire property along Federal Alley from the State of NC and (2) resolution to accept funds from Tribute to cover those costs.

RESOLUTION NO. 20-98 - RESOLUTION BOOK NO. 41 - PAGE 344
RESOLUTION NO. 20-99 - RESOLUTION BOOK NO. 41 - PAGE 345

D. RESOLUTION NO. 20-100 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT AMENDMENT WITH EQUINOX ENVIRONMENTAL CONSULTATION & DESIGN INC. FOR THE SWANNANOA RIVER GREENWAY - PHASE II PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute an amendment to the existing greenway design contract between the City of Asheville and Equinox Environmental Consultation and Design, Inc. (Equinox, contract #91900109), in the amount of $454,811.20 increasing the total value of the contract to $612,449.30 and to enter into change

orders to this contract not to exceed an additional 10% of the current contract amount or $45,481.12.

Background:

- The City of Asheville entered into a contract with Equinox in July 2018 for a feasibility analysis of potential greenway routes within the Swannanoa River area.
- The September 2019 feasibility analysis determined that coordination with the North Carolina Department of Transportation (NCDOT) on NCDOT's work within the area would result in the best value for the City's project.
- The scope of work for the contract amendment includes surveys, greenway design, geotechnical engineering, permitting, public engagement, and other tasks needed for greenway design.
- During March and April 2020, Equinox assembled a design team and estimated that the design and construction document creation would cost $454,811.20.
- The referenced segment of this greenway will connect new housing along Thompson St to recreation and shopping facilities.
- This segment is part of a much larger Wilma Dykeman Riverway Corridor system. In total the Wilma Dykeman Riverway will provide nearly 10 miles of greenway. Between this segment and the segment in the RiverArts District nearly 3.5 miles of this greenway will be built by 2021
- Additional phases are contingent upon future funding and coordination with the NCDOT.
- The design to construction contract process is estimated to have an 18-month duration. Assuming a July 1, 2020 design phase start date, the construction contract advertisement is projected to start in December 2021.

Vendor Outreach Efforts:

- Staff performed outreach through solicitation processes using the State's Interactive Purchasing System and requesting prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. No MWBE service providers are being used in the delivery of this contract. Equinox was unable to find local MWBE businesses for the services needed on this project, but is committed to using MWBE participation as needed and available for other services going forward.

Council Goal(s):

- Transportation and accessibility.

Committee(s):

- None

Pro(s):

- Greenway construction would enhance multi-modal transportation within the area and provide alternatives to commuters
- Contributes to increasing the City's greenway inventory
- Works towards defining Asheville as a recreation destination

Con(s)

- Eventual construction will be disruptive to the area.

Fiscal Impact:

- With this supplemental increase of $454,811.20, the total amount of the contract is increased to $612,449.30. Adding in a 10% contingency of $45,481.12 to the supplemental increase brings the total required budget to $657,930.42. This contract is

funded through the General Obligation Bond Program as part of the Transportation and Infrastructure Program.

Motion:

- Motion to adopt a resolution to authorize the City Manager to execute an amendment to the existing greenway design contract between the City of Asheville and Equinox Environmental Consultation and Design, Inc., in the amount of $454,811.20 increasing the total value of the contract to $612,449.30 and to enter into change orders to this contract not to exceed an additional 10% of the current contract amount or $45,481.12.

RESOLUTION BOOK NO. 41 - PAGE 346

E. RESOLUTION NO. 20-101 - RESOLUTION OF SUPPORT FOR THE FEDERAL TRANSIT ADMINISTRATION PUBLIC TRANSPORTATION AGENCY'S SAFETY PLAN

Action Requested: Adopt a resolution of support for the Federal Transit Administration Public Transportation Agency Safety Plan.

Background:

- On July 19, 2019, the Federal Transit Administration (FTA) Final Rule for the Public Transportation Agency Safety Plan (PTASP) became effective, which requires public transportation operators to develop processes and procedures to implement the safety plans.
- The PTASP ensures that the City of Asheville develops performance targets as part of its Plan as required by the FTA in the National Public Transportation Safety Plan (NSP).
- The PTASP ensures the City of Asheville develops criteria as part of its plan to address applicable federal requirements and standards set forth by the FTA, and to include a timeline for conducting an annual review to update the City's PTASP.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- The PTASP will be managed by staff in the Transit Planning Division in the Transportation Department and coordinated with the City's Transit Management Company, RATPDev Inc.
- The PTASP requires working with the French Broad River Metropolitan Planning Organization.

Con(s):

- None

Fiscal Impact:

- N/A

Motion:

- Motion to adopt a resolution of support for the City of Asheville's Federal Transit Administration Public Transportation Agency Safety Plan.

RESOLUTION BOOK NO. 41 - PAGE 347

F. **RESOLUTION NO. 20-102 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT EXTENSION WITH THE N.C. DEPT. OF PUBLIC SAFETY FOR THE STATE REGIONAL HAZARDOUS MATERIALS RESPONSE TEAM NUMBER 6**

Action Requested: Adoption of 2020 Contract Extension Agreement for the State Regional Hazardous Materials Response Team Number Six (6)

Background

- North Carolina is divided into seven geographical regions for the purpose of hazardous material emergency response.
- The North Carolina Department of Public Safety contracts with municipalities across North Carolina to respond into the geographical regions and provide technician level hazardous materials emergency response.
- The region's six areas encompass the westernmost twenty counties.
- The City of Asheville has been a regional hazardous materials provider since Fiscal Year 1994-1995.
- The State of North Carolina provides funding that fully supports the operational costs of the program.
- The City receives $69,000 annually for administration, equipment, training, medical surveillance, and workman's compensation.
- The truck and equipment provided to the City by the State for use on State and local hazmat missions are valued at $1.5 million.
- The City is reimbursed at 100% of the costs expended when the team is deployed for a state mission.
- The current agreement ends on June 30, 2020, and a new agreement for the next four years was originally set to begin July 1, 2020, but due to circumstances surrounding COVID-19, the North Carolina Department of Public Safety Division of Emergency Management wants to activate the fifth-year extension clause of the agreement for four months with the City of Asheville for Hazardous Materials Emergency Response Services from July 1, 2020 through October 31, 2020.
- The Asheville Fire Department will come before Council in the coming months for the renewal of the agreement for November 1, 2020 - June 30, 2024.

Vendor Outreach Efforts:

- N/A

Council Goal(s):

- Smart City

Committee(s):

- None

Pro(s):

- The State of North Carolina provides the hazardous materials response truck, all response equipment and provides for administrative costs of operating the team. In addition, the state funds extensive training for members of the Asheville Fire Department to enable us to competently handle hazardous materials emergencies.
- The City of Asheville has full use of the truck and all specialty equipment within the City of Asheville. Without the state hazardous materials contract, Asheville taxpayers would need to provide much of the resources necessary to properly respond to Hazardous Materials emergencies within Asheville.

- With the contract, we have the advantage of the equipment and resources being funded at the state level, rather than at the local level.
- During the twenty nine years that we have provided regional hazardous materials response services, we have not experienced difficulties or disadvantages with the program. This program is also consistent with the City's Strategic Operating Plan.
- Firefighter and citizen safety will be enhanced.

Con(s):
- None identified

Fiscal Impact:
- There are no fiscal impacts that have been identified

Motion:
- Move to adopt a resolution authorizing the City Manager to enter into a four month contract extension agreement with the North Carolina Department of Public Safety to provide regional hazardous materials emergency response for region 6.

RESOLUTION BOOK NO. 41 - PAGE 348

G. RESOLUTION NO. 20-103 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE TERMS OF THE 2019 AGREEMENT WITH ADVENT HEALTH TO PROVIDE ANNUAL PHYSICALS EXAMINATIONS FOR FIREFIGHTERS

Action Requested: Adoption of a resolution authorizing the City Manager to amend the terms of the 2019 agreement with Advent Health to provide annual physical examinations for firefighters in 2019 in the amount of $117,300.

Background:
- The current Fiscal Year (FY) 2019 agreement with Advent Health allocates $89,125 and allows firefighters to receive required annual physical examinations in accordance with standards set forth by the National Fire Protection Association.
- The original term of the FY2019 contract was July 1, 2018 to June 30, 2019.
- The Asheville Fire Department (AFD) and Advent agreed to amend the original agreement to extend the term of the contract to December 31, 2019, but no funds were added to the contract.
- Due to the way in which Advent processes patients, bills those patients, and invoices those patients, there were some discrepancies with invoicing and billing for firefighter physicals.
- During the six month extension period, AFD and Advent were working out the correct number of employees and the services they received during this time to ensure the correct amount of funds were available and added to the agreement at the expiration of the extension.
- Furthermore, the original term of the agreement date ending alongside the end of the fiscal year caused logistical difficulties in contract renewal and service conducted--waiting for the new fiscal year's funding to renew the agreement and/or enter a new agreement with Advent Health meant ceasing firefighter physicals for the duration it took to get the amendment executed.
- The Asheville Fire Department and Advent Health did not want to have this break in service because of the extremely difficult nature of conducting 275 physicals in a 52 week period (and alternatively 413 physicals in a 76 week period).

- All firefighter physicals conducted between July 1, 2018 and December 31, 2019 were assigned to the FY19 contract and Advent has correctly and appropriately invoiced the City for the remaining physicals conducted from July 1, 2019 to December 31, 2019.
- The agreement needs to include an additional six months of firefighter physicals at the cost of $40,175. This brings the total cost of the contract to $117,300, which pushes the contract above the $90,000 threshold.
- The Asheville Fire Department and Advent Health have entered into a new agreement for FY20 with a changed scope of service for firefighter physicals. The new agreement term is for January 1, 2020 to December 31, 2020 in the amount of $77,125.
- This new agreement term no longer aligns with the end of the fiscal year and remediates the logistical difficulties the Department was having with agreement execution versus physicals conducted.

Vendor Outreach Efforts:

- Prior to entering the original contract with Advent Health, similar organizations were solicited to provide estimates of their services. SiteMed, which held the contract previously, did not provide the organizational efficiency needed to examine 275 firefighters throughout the course of the year. The costs of Mission Hospital's services were prohibitive. Thus, the services and costs of Advent Health best fit the mission of Asheville Fire Department's desire to provide its firefighters with the best care to meet and exceed health standards while controlling costs. A review of the costs, operational efficiencies, and satisfaction of the firefighters with the services, factored into making the determination to renew the agreement with Advent Health.
- No MWBE firms were identified for this contract.

Council Goal(s):

- Smart City

Committee(s):

- None

Pro(s):

- Meets best practices for the industry by complying with consensus standards of NFPA 1582 that will reduce risks and provide for the health, safety, and effectiveness of firefighters
- Allows for the continued medical monitoring and testing of firefighters to ensure they are fit for the challenges of emergency response

Con(s):

- None

Fiscal Impact:

- Funding for the physicals is included in the adopted FY 2019 – 2020 budget, thus there are no additional impacts.

Motion:

- Move to adopt a resolution authorizing the City Manager to amend the agreement with Advent Health for $117,300 for firefighter physicals.

RESOLUTION BOOK NO. 41 - PAGE 349

H. RESOLUTION NO. 20-104 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH J. BRADY

CONTRACTING INC. FOR THE HARRAH'S CHEROKEE CENTER RENOVATION & HVAC MODERNIZATION PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to amend the contract with Brady Services, Inc. in the amount of $166,360.77, for a revised total maximum price amount of $4,219,637.65 to complete the Harrah's Cherokee Center Asheville (HCCA) Facility Renovation & HVAC Modernization Project.

Background:

- This amendment authorizes capital project funds required to close out the HVAC modernization phase of the project.
- This three phase project installed 1) flexible theater seating in the arena, a sound and lighting package; 2) converted a storage room into a press/meeting room with additional supporting projects including the expansion of storage for the displaced room; and 3) modernized much of the building's 1970's era HVAC system.
- The project was included in the City's 2016-17 fiscal year capital improvements budget. The project is partially funded by a $1,500,000 grant from the 2016 Tourism Product Development Fund.
- On August 28, 2018, City Council authorized a contract amendment to begin the Phase 2 facility renovation (press/meeting room renovation and storage expansion). This phase was completed in November 2018 ahead of the HVAC Modernization to meet a HCCA scheduling commitment.
- On March 26, 2019, City Council authorized a contract amendment to begin the HVAC Modernization phase. This phase replaced critical parts of the building's 40+ year old HVAC system. Where equipment could not be replaced due to budget constraints, it was upgraded with zone controls, monitoring, and other smart technology systems.
- All new and upgraded equipment included in this project were integrated with the recently installed building automation system.
- The City used the Construction Manager at Risk (CMAR) delivery method to contract with J. Brady Contracting, Inc. to complete the facility renovations and HVAC modernization. This delivery method was chosen because it allows a lead contractor to coordinate the efforts of many different trades over a large area and a broad scope.
- The CMAR delivery method groups the work into smaller "bid packages". The HVAC modernization project was grouped into six (6) separate bid packages and a total of 14 bids were received from first tier subcontractors across all bid packages.
- The project is complete and this contract amendment reconciles all changes through the end of the project. Additionally this amendment will secure an extended service agreement for the new equipment.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned business through solicitation processes which included posting on the State's Interactive Purchasing System and required vendors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. MWBE firms were involved in the completion of this work through the prime contractor.

Council Goal(s):

- A Thriving Local Economy

- A Clean and Healthy Environment

Committee(s):
- None

Pro(s):
- Improved the venue's ability to host a wider range of events.
- Reduced energy consumption with new efficient equipment or with upgrades to existing equipment with intelligent controls.
- Capital investment provided reliable building infrastructure, reducing repair costs, and downtime associated with broken HVAC equipment.

Con(s):
- Redirecting budget from other HCCA capital maintenance projects means that less funding is available in the short term for other deferred maintenance needs.

Fiscal Impact:
- The amount of this contract amendment exceeds the available budget in the (HCCA) Facility Renovation & HVAC Modernization project. Funds from the HCCA General Maintenance project will be used to fund this contract amendment.

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a contract amendment to the construction manager-at-risk (CMAR) contract with J. BRADY CONTRACTING, INC., in the amount of $166,360.77, for a total maximum price of $4,219,637.65 for the Harrah's Cherokee Center Asheville Facility Renovation and HVAC Modernization.

RESOLUTION BOOK NO. 41 - PAGE 350

I. RESOLUTION NO. 20-105 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND A CONTRACT WITH WALTER P. MOORE & ASSOCIATES TO PROVIDE PROFESSIONAL MANAGEMENT FOR THE ONGOING WORK TO REPLACE THE CENTER STAIRWELL AT THE HARRAH'S CENTER PARKING GARAGE

Action Requested: Adoption of a resolution authorizing the City Manager to amend the Harrah's Cherokee Center - Asheville Garage Repairs project management contract with Walter P. Moore & Associates (# 91700048) increasing the total value of the contract to $92,280.

Background:
- The City of Asheville entered into a contract with Walter P. Moore & Associates in June 2016 for a condition assessment and project management of various repairs to the Harrah's Cherokee Center - Asheville parking garage.
- The repairs included a significant rehabilitation of the center stairwell within the garage.
- The scope of work was developed from a comprehensive garage condition assessment that was completed during October 2016.
- During February 2020, a detailed structural analysis of the center stairwell indicated a significant deterioration in the overall condition of the center stairwell and it was recommended to totally replace it.
- During May 2020, Walter P. Moore and Associates estimated that in order to provide project management services for the replacement of the center stairwell, an additional $5,400 would be required.

- The current contract is $85,800 and this amendment will increase the contract by $6,480 (including contingency funds in the amount of $1,080) for a new total contract of $92,280. Contingency funds are included to ensure satisfactory completion of the work by late summer 2020.

Vendor Outreach Efforts:
- N/A - This is a current contract.

Council Goal(s):
- Transportation and Accessibility.

Committee(s):
- None.

Pro(s):
- Enables the City to continue to provide safe and functional access within the parking garage.
- Part of an overall plan to extend the service life of the parking garage.

Con(s):
- The center stairwell is closed until the replacement work is completed.

Fiscal Impact:
- The required funds are included in the current Parking Services Fund capital projects budget.

Motion:
- Motion to adopt a resolution authorizing the City Manager to amend the Harrah's Cherokee Center - Asheville Garage repairs project management contract with Walter P. Moore & Associates (# 91700048) increasing the total value of the contract to $92,280.

RESOLUTION BOOK NO. 41 - PAGE 351

J. **RESOLUTION NO. 20-106 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FEDERAL TRANSIT ADMINISTRATION FOR THE FISCAL YEAR 2020 CARES ACT SECTION 5307 URBAN TRANSIT FORMULA FUNDS, AS WELL AS APPROVE THE FISCAL YEAR 2020 CARES ACT FUND SUBRECIPIENT AND SUBALLOCATION AGREEMENT**

ORDINANCE NO. 4807 - BUDGET AMENDMENT FOR FISCAL YEAR 2020 TRANSIT MULTI-YEAR FUND BUDGET

Action Requested: Adopt a resolution authorizing the City Manager to apply for the FY 2020 CARES Act (Section 5307) grant funds and to sign all appropriate agreements with the Federal Transit Administration (FTA), Federal and State agencies, execute subrecipient agreements; and amend the FY 2020 Transit Multi-Year Fund (6510) budget by $4,936,900 to include that portion of the CARES Act revenue which will be passed on to the subrecipients.

Background:
- In March 2020, the Federal Transit Administration (FTA) published a Notice of Funding Availability for the Coronavirus Aid, Relief, and Economic Security (CARES) Act, which is intended to provide additional supplemental funding to transit systems to prevent, prepare for, and respond to COVID-19.

- On April 9, 2020, the FTA announced availability of $25 billion apportioned to the transit industry under the CARES Act, including $8.6 million for the Asheville Urbanized Area (AUZA). The FTA announced that the CARES Act funds will be used for transit operating and capital expenses and all other expenses incurred on or after January 20, 2020 in response to economic or other conditions caused by COVID-19.
- At its April 28, 2020 special meeting, the French Broad River Metropolitan Planning Organization (FBRMPO) Board approved and adopted a resolution allocating the CARES Act funding to eligible AUZA transit systems. The chart on page 2 outlines the amount allocated to each transit system in the AZUA region.
- CARES Act funds will provide 100% of the Federal match of the anticipated funding and does not require any local match.
- Transportation Department staff is working with all subrecipients on how they will use the funds allocated to them and will submit an application to the FTA in the amount of $8.6 million by June 30, 2020 for approval.
- Transportation Department staff is recommending approving the CARES Act Subrecipient and Suballocation Agreement to be executed between the City of Asheville and subrecipients and approve Haywood County to become a formal subrecipient of the City of Asheville, instead of the non-profit transportation contractor.
- On May 1, 2020, the Transportation Department staff submitted the required Federal Split Letter to the FTA Region VI Office outlining the FBRMPO-approved allocation of CARES Act funds.
- The budget amendment will provide expenditure authorization for the $4.9 million in grant funds which will be passed on to the subrecipients.

FBRMPO ALLOCATED FY2020 CARES ACT (SECTION 5307) FUNDS		
	PROPOSED DISTRIBUTION/ PERCENT	**ESTIMATED DISTRIBUTION/AMOUNT**
City of Asheville	**42.63%**	**$3,668,469**
Buncombe County	**28.62%**	**$2,462,856**
Henderson County	**20.41%**	**$1,756,356**
Haywood County	**8.34%**	**$717,688**
SUB-RECIPIENTS TOTAL		**$4,936,900**
ALLOCATED TOTAL		**$8,605,369**

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- N/A

Pro(s):
- CARES Act funds will enable the City of Asheville to use federal funds to help offset operational and capital expenses incurred on or after January 20, 2020 in response to economic or other conditions caused by COVID-19.

Con(s):

- N/A

Fiscal Impact:

- The CARES Act provides 100% of the funding with no local match required. As noted above, the budget amendment included with this staff report will appropriate the funding that will be passed on to the subrecipients. Council has already taken action at prior meetings to budget $1,462,000 in CARES Act funding for City of Asheville uses, including purchasing protective barriers for buses and contracting for supplemental operations support. The City will continue to utilize CARES Act funding to help offset operational and capital expenses associated with the COVID-19 response, and bring forward additional budget amendments as needed.

Motion:

- Motion to adopt a resolution authorizing the City Manager to apply for the FY 2020 CARES Act (Section 5307) grant funds, and to sign all appropriate agreements with the Federal Transit Administration (FTA), Federal and State agencies, execute subrecipient agreements, and amend the FY 2020 Transit Multi-Year Fund (6510) budget by $4,936,900 to include that portion of the CARES Act revenue which will be passed onto the subrecipients.

Four voicemail comments were received to urge the city to use the full amount of the Community Development block grant funds for a rental assistance program.

RESOLUTION BOOK NO. 41 - PAGE 352
ORDINANCE BOOK NO. 33 - PAGE 76

K. **RESOLUTION NO. 20-107 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PURCHASE SAFETY PROTECTION BARRIERS USING SOLE SOURCE PROCUREMENT FROM GILLIG AFTERMARKET PARTS FOR INSTALLATION IN EXISTING 18 GILLIG BUSES IN ASHEVILLE RIDES TRANSIT FLEET**

Action Requested: Adoption of a resolution authorizing the City Manager to purchase safety protection barriers using sole source procurement from Gillig Aftermarket Parts for installation in existing eighteen (18) Gillig transit buses in Asheville Rides Transit (ART) fleet.

Background:

- On May 12, 2020, the City Council adopted a Resolution authorizing the City Manager to execute a purchase order of approximately $160,000 to work with Gillig to engineer, design, retrofit, and install safety protection barriers from AROW Global Corporation, the manufacturer of the safety protection barriers, in eighteen (18) existing 30-foot diesel and diesel electric hybrid buses.
- A sole source procurement through Gillig Aftermarket Parts is necessary to ensure that the safety barriers are designed and installed correctly to fit the various Gillig bus models that the City of Asheville owns. AROW Global corporation is Gillig's approved provider of the safety protection barriers.
- CARES Act funds will be used to purchase and install safety protection barriers in the existing eighteen (18) Gillig buses.
- The use of sole-source procurement is permitted in this instance pursuant to N.C.G.S. 143-129(e)(g)(iii) as equipment compatibility is an overriding concern.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- Provides protection for transit bus drivers
- Use CARES Act funding to purchase and install the safety protection barriers in the Gillig buses
- No local match is required

Con(s):
- None

Fiscal Impact:
- As noted above, the CARES Act provides 100% of the funding with no local match required. The budget for this purchase was adopted at City Council's May 12, 2020 meeting.

Motion:
- Motion to adopt a resolution authorizing the City Manager City to purchase safety protection barriers using sole source procurement from Gillig Aftermarket Parts for installation in existing eighteen (18) Gillig transit buses in Asheville Rides Transit (ART) fleet.

RESOLUTION BOOK NO. 41 -PAGE 353

L. RESOLUTION NO. 20-108 - RESOLUTION ACCEPTING AN OFFER FOR SALE OF AIR RIGHTS OVER WALL STREET; DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS; AND IF NO BIDS ARE RECEIVED OR ACCEPTED, AUTHORIZING THE CITY MANAGER TO SELL AIR RIGHTS TO COLLABORATIVE PARTNERSHIP PROPERTIES IN ORDER THAT A BALCONY CAN BE CONSTRUCTED OVER WALL STREET

Action Requested: Adoption of a resolution accepting an offer for sale of air rights over Wall Street; directing the City Clerk to advertise for upset bids; and if no bids are received or accepted, authorizing the City Manager to grant air rights to Collaborative Partnership Properties who want to construct a balcony over the sidewalk along Wall Street.

Background:
- The City was approached by a local architect concerning air rights over the sidewalk along Wall Street for a unit within a building located at 26 Battery Park.
- Initial concerns were raised by Streets and Downtown Planning regarding the well-being of street trees on Wall Street.
- The architect met with the City's Arborist who requested that the balcony be shortened in length to reduce the impact on the trees. The owners agreed to a design revision and they agreed that their contractor would again meet with the Arborist to discuss protecting the trees during construction.
- It was determined that the balcony for the office space unit would be 21 feet long and 5 feet wide for a total request of 105 square feet of air rights that would be needed to accommodate the balcony.
- The construction of the balcony, along with the air rights easement, will not substantially impair or hinder the use of the right of way as a passage.

- The value of the air rights was determined by consulting two recent appraisals of land value in the surrounding area. The value was determined to be $753 and the owners have agreed to pay that amount.
- A public notice will be placed in the newspaper after the City Council has approved the air rights and a sale will not occur until 10 days after the notice has been published.

Council Goal(s):
- A Well Planned and Livable Community

Committee(s):
- None

Pro(s):
- City is receiving compensation for the air rights being granted.

Con(s):
- There will be temporary disruption during construction.

Fiscal Impact:
- City is receiving unbudgeted compensation for the air rights in the amount of $753.

Motion:
- Motion to adopt a resolution accepting an offer for sale of air rights over Wall Street; directing the City Clerk to advertise for upset bids; and if no bids are received or accepted, authorizing the City Manager to grant air rights to Collaborative Partnership Properties who want to construct a balcony over the sidewalk along Wall Street.

RESOLUTION BOOK NO. 41 - PAGE 354

M. ORDINANCE NO. 4808 - ORDINANCE WAIVING CONSTRUCTION PERMITTING FEES IN RELATION TO THE ASHEVILLE ART MUSEUM'S CONSTRUCTION OF AN EXIT PASSAGEWAY AT 2 SOUTH PACK SQUARE

Action Requested: Adoption of an ordinance waiving construction permitting fees in relation to the Asheville Art Museum's construction of a fire resistant Exit Passageway at 2 South Pack Square.

Background:
- The City of Asheville owns real property located at 2 South Pack Square, the Asheville Art Museum ("AAM"), and at 18 Biltmore Avenue, The Wortham Performing Arts Center, ("Wortham").
- AAM is required to construct, as part of its renovation project, a fire resistant Exit Passageway through the arcade from Biltmore Avenue leading to Wortham.
- The construction of the proposed Exit Passageway will promote the safe operation of the City's facilities.
- AAM has requested that the City waive the construction permitting fees that it would normally be required to pay in order to construct the Exit Passageway.
- The basis for this fee waiver request is that the proposed project is intended to, in part, benefit a City-owned property.
- Completion of this Exit Passageway is required in order for AAM and Wortham to gain certificates of occupancy.

Council Goals:
- Transportation and Accessibility

- A Thriving Local Economy
- A Financially Resilient City

Committee:
- None.

Pros:
- Will facilitate the safe operation of a City-owned facility.

Con:
- Limited loss of revenue to the City.

Fiscal Impact:
- Waived fees are expected to total approximately $6,000.

Motion:
- Motion to adopt an ordinance waiving construction permitting fees in relation to the Asheville Art Museum's construction of an Exit Passageway at Biltmore Avenue.

ORDINANCE BOOK NO. 33 - PAGE 77

N. RESOLUTION NO. 20-109 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ASHEWELL MEDICAL GROUP TO PROVIDE FDA-APPROVED COVID-19 ANTIBODY AND PCR TESTING FOR CITY EMPLOYEES

Action Requested: Adoption of a resolution authorizing the City Manager to enter into an agreement with Ashewell Medical Group for up to $148,750 for COVID-19 testing.

Background:
- The agreement allows for up to 850 city employees to be tested for COVID-19 and its antibodies at $175 per employee and a total of $148,750.
- Ashewell Medical Group will provide FDA-approved antibody and PCR testing of COVID-19 for employees who have been working in the community since March 2020.

Vendor Outreach Efforts:
- Three local vendors provided quotes for testing
- Ashewell Medical Group is a woman-owned business.

Council Goal(s):
- Clean and Healthy Environment

Committee(s):
- None

Pro(s):
- Testing will provide information for employees, their families, and leadership about the impacts working in the pandemic has had so far.
- Testing will provide reassurance to employees and the community as workgroups are reassembled.
- Enhanced PPE and procedures developed based on outcomes
- Understanding what level of potential immunity we have in our employee community

Con(s):

- None

Fiscal Impact:

- Funding for this agreement will come from the existing Fiscal Year 2019-20 Health Fund budget. There will be an opportunity for the City to be reimbursed for these expenses from FEMA.

Motion:

- Move to adopt a resolution authorizing the City Manager to enter into an agreement with Ashewell Medical Group for $148,750 for COVID-19 Testing for frontline City Employees.

RESOLUTION BOOK NO. 41 - PAGE 356

O. RESOLUTION NO. 20-110 - RESOLUTION AUTHORIZING THE CITY MANAGER TO TEMPORARILY SUSPEND OR DEFER RENT AND LOAN PAYMENTS TO THE CITY ON A CASE-BY-CASE BASIS, AS NECESSARY TO ADDRESS HARMS CAUSED BY THE COVID-19 PANDEMIC AND TO RATIFY ANY ADMINISTRATIVE DECISION ALREADY ENACTED TO DEFER LOAN PAYMENTS OR TO SUSPEND COLLECTION OF RENTS

Action Requested: Adoption of a resolution authorizing the City Manager to temporarily suspend/waive or defer rental (including capital contributions to leased property) and loan payments to the City on a case-by-case basis, as necessary to address harms caused by the COVID-19 pandemic.

Background:

- On May 12, 2020, the City Council adopted an ordinance authorizing the City Manager to temporarily suspend fees and charges listed in the FY 2019-20 Fees and Charges Manual. At the time of adoption, the temporary suspension or deferral of rental or loan payments to the City on a case-by-case basis was also contemplated as discussed in the May Staff Report. However, that action was inadvertently left out of the adopted ordinance. Adoption of this resolution will correct that omission.
- The City has rental (including capital contributions to leased property) and loan payment schedules with other parties.
- Many Asheville businesses are either closed or operating in a limited capacity due to the COVID-19 pandemic creating substantial economic challenges for owners, employees, and customers.
- Some businesses have requested temporary relief from loan payments, rent payments, and capital contributions in an effort to help reduce their expenses.
- Categories and Criteria for suspending or deferring rent payments or loan payments.
- This action is intended to aid businesses during the formal declaration of emergency. When that declaration expires, any further deferral or waiver would be considered case-by-case by the City Manager.

Council Goals:

- A Thriving Local Economy
- A Financially Resilient City

Committee:

- None

Pros:

- Facilitates business operations that are able to continue normally during the COVID-19 pandemic.
- Reduces operating costs for businesses during the COVID-19 pandemic.
- City Manager authority to temporarily suspend or defer rent or loan payments and capital contributions provides heightened responsiveness to community needs during the COVID-19 pandemic.

Con:

- Loss or deferment of revenue to the City.

Fiscal Impact:

- Loan payments deferred (discussed below) have no impact on operations and no long-term financial impact as the amounts will be repaid as part of the final payment on notes outstanding.
- Rent or capital contribution payments to the City temporarily waived or suspended could result in a loss of revenue to the City of approximately $4,000 to $8,500 for rental payments and up to $18,900 in capital contributions (assuming three to six months of waiver), depending on how many Lessee's request relief and for how long. To date, the City has only received one request to waive rent and one request for waiver of capital contribution.

Motion:

- Motion to adopt a resolution authorizing the City Manager to temporarily suspend/waive or defer rental (including capital contributions to leased property) and loan payments to the City on a case-by-case basis and to ratify any administrative decision already enacted to defer loan payments or to suspend collection of rents.

RESOLUTION BOOK NO. 41 - PAGE 357

P. **RESOLUTION NO. 20-111 - RESOLUTION RATIFYING THE CITY MANAGER'S EXECUTION OF THE EXISTING MEMORANDUM OF UNDERSTANDING WITH RED ROOF INN FOR PROVISION OF 60 ROOMS FOR COVID-19 NON-CONGREGATE MOTEL SHELTER FOR UNSHELTERED AT-RISK PEOPLE EXPERIENCING HOMELESSNESS**

RESOLUTION NO. 20-112 - RESOLUTION RATIFYING THE CITY MANAGER'S EXECUTION OF THE CONTRACT WITH HOMEWARD BOUND OF WESTERN NORTH CAROLINA TO CONDUCT ESSENTIAL SHELTER OPERATIONS

Action Requested: Approval of resolutions to ratify City Manager's execution of contract extensions with Red Roof Inn, Inc. and Homeward Bound of Western North Carolina.

Background:

- On May 12, 2020, Council ratified the City Manager's execution of agreements with Red Roof Inn, Inc., Homeward Bound of Western North Carolina, and Axis Security for operations of a COVID-19 motel-based non-congregate emergency homeless shelter for persons experiencing unsheltered homelessness and at significant risk of contracting COVID-19 because of age and/or underlying chronic health concerns.
- Sixty-five people (couples, families occupying some rooms) are currently in shelter and will continue to achieve the public health objective of prevention of COVID-19 among the community's unsheltered homeless population.
- It is desirable to continue this program, but the current term of the City's agreements with its partner organizations terminate in advance of the June 9th City Council Meeting.

- To avoid any lapse in service to this population, it is necessary to execute the amendments prior to June 9th to continue the agreements.
- The existing agreements with the vendors allow for extensions to continue operations if needed, however additional funding is necessary.
- The existing agreement with Axis Security requires only an extension beyond the current term ending on June 30th. Sufficient funds for this activity were previously approved on May 12th and no additional amounts are needed to extend the term of the contract for security. No council action on this contract is requested at this time.

Council Goal(s):
- A Diverse Community
- A Well-Planned and Livable Community
- Fiscally Resilient City

Committee(s):
- None

Pro(s):
- Continues the successful operation of the existing expanded COVID-19 homeless shelter.
- Addresses public health and safety.
- Non-congregate motel shelter, essential operations, and security costs are eligible for FEMA reimbursement.

Con(s):
- Potential damages incurred at the Hotel are not eligible for reimbursement from FEMA

Fiscal Impact:
- Additional costs for the extensions include $100,000 for Homeward Bound for up to two additional 30 day periods and $183,024 for Red Roof Inn for up to two additional 30 day periods.
- Funding for the contracts will come from previously approved budget authorization that was approved as part of the Affordable Housing Capital Improvement Program, so no budget amendment is required. Community & Economic Development will utilize Capital Improvement Program funding to cover upfront costs pending FEMA reimbursement.

Motion(s):
- Motion to adopt a resolution to ratify the City Manager's execution of an amendment of the existing Memorandum of Understanding with Red Roof Inn for provision of 60 rooms for COVID-19 non-congregate motel shelter for unsheltered at-risk people experiencing homelessness for up to two (2) additional 30 day terms, at a total cost not to exceed $183,024; and
- Motion to adopt a resolution to ratify the City Manager's execution of new services contract with Homeward Bound of Western North Carolina to conduct essential shelter operations for up to two (2) additional 30 day terms, at a total cost not to exceed $100,000,

Q. RESOLUTION NO. 20-113 - RESOLUTION AMENDING THE 2020 CITY COUNCIL MEETING SCHEDULE TO ADD A REGULAR FORMAL MEETING ON JULY 14, 2020

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Kapoor moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously by roll call vote.

III. PRESENTATIONS & REPORTS:

A. DRAFT I-26 CONNECTOR PROJECT AESTHETICS COMMITTEE REPORT: PHASE 1 - VERTICAL AESTHETIC TREATMENTS

Director of Transportation Ken Putnam introduced Ted Figura, Chair of the I-26 Connector Project Aesthetics Committee.

Action Requested: Receive the draft I-26 Connector Project Aesthetics Committee Report: Phase 1 - Vertical Aesthetic Treatments and provide appropriate comments and feedback to help the Aesthetics Committee with their ongoing work.

Background:

- City Council approved a motion to establish the I-26 Connector Project Aesthetics Committee on April 24, 2018.
- City Council approved the initial committee members on July 24, 2018 via Resolution # 18-192.
- The first Aesthetics Committee meeting was held on October 3, 2018 and they currently meet every two weeks.
- The Aesthetics Committee recommendations are being developed in two phases.
    1. Phase 1 - Vertical Aesthetics Treatments (structural aspects, subject report).
    2. Phase 2 - Horizontal Aesthetics Treatments (horizontal, primarily landscaping, aspects, will begin shortly). A project budget of 1% to 1 ½% of the construction budget for each section is typically set up for horizontal aesthetics treatments so there should be no fiscal impact for the City.
- The report is labeled "draft" because some issues affecting the recommendations remain unresolved and some cost information is incomplete.
- The I-26 Connector project number is identified as I-2513. The current final design / construction phases for the four separate sections are listed below.
    1. I-2513A - June 2022
    2. I-2513B - June 2021
    3. I-2513C - June 2025
    4. I-2513D - June 2021
- The I-26 Connector project will be constructed using a design-build process.
- Separate from the Aesthetics Committee recommendations, the Transportation Department staff identified infrastructure type improvements (betterments) including sidewalks, multi-use transportation paths, bicycle lanes, and replacing two existing pedestrian bridges.
- City Council will need to review and approve a design-build agreement with betterments between the North Carolina Department of Transportation (NCDOT) and the City at a later date including the estimated costs that the City would be responsible for.
- By receiving the I-26 Connector project Aesthetics Committee's Phase-1 report, City Council is not agreeing to implement all recommended aesthetic treatments discussed in the report, but rather is committing to using the report to help inform future conversations and negotiations between the City and NCDOT in relation to the I-26 connector project.

- The estimated costs included in the subject agreement would have to be submitted with the partially signed agreement (Staff is appealing that decision with NCDOT).

Council Goal(s):
- Transportation and Accessibility.

Committee(s):
- None

Pro(s):
- Once-in-a-lifetime opportunity to enhance the appearance of a major City gateway.
- Provides multi-use transportation (greenway) network connecting downtown Asheville and West Asheville across the Jeff Bowen bridges.

Con(s):
- City's cost share for enhanced Vertical Aesthetics Treatments recommendations.

Fiscal Impact:
- Cost estimates vary for the vertical aesthetic treatments. If the standard agreed upon treatments were approved, there would be no cost to the City. Cost estimates for vertical aesthetic treatments that exceed the standard agreed upon treatments range from $6,200,000 to $9,800,000. There is currently no funding included in the City's Capital Improvement Program (CIP) for vertical aesthetic treatments.
- There is, however, $2,000,000 currently programmed in the City's CIP to fund the City's share of the cost for betterments identified by the Transportation Department staff. The City's share of the betterment costs would be $1,700,000 which is 17% of the total cost for betterments and the NCDOT would be responsible for the rest of the cost.

Suggested Action:
- Receive the draft I-26 Connector Project Aesthetics Committee Report: Phase 1 - Vertical Aesthetic Treatments and provide appropriate comments and feedback to help the Aesthetics Committee with their ongoing work

Mr. Figura reviewed a PowerPoint. The following is the Executive Summary of their report: "The I-26 Connector is one of the largest transportation projects ever to take place in Asheville, and it will have a major impact on its residents and visitors. Proposed more than 30 years ago, the Connector will affect the I-26 corridor from I-40 to the Woodfin town line, reconfiguring several interchanges and removing interstate traffic from the Bowen Bridge. Its size and scale will leave a permanent impact on Asheville's character.

"The City of Asheville and its partners, the County and the Asheville Area Tourism Development Authority (TDA), have a once-in-a-lifetime opportunity to not only soften the impact of the Interstate's expansion but to create unique and positive place-making experiences that will benefit the City for decades to come. While the North Carolina Department of Transportation (NCDOT) is providing some aesthetic improvements at no cost to the City, the more powerful place-making statements recommended in this report will require the investment of local dollars if they are to become reality.

"Members of the I-26 Connector Aesthetics Committee (AC) fully acknowledge the extraordinary fiscal challenges that all local parties are facing due to the coronavirus pandemic. Yet, this opportunity is too important to be lost. Although some expenditures may be able to be postponed, most of the aesthetic improvements recommended in this report must be built as the project is being constructed. Consequently, NCDOT requires an upfront commitment from the City to fund these elements. The AC urges City Council to make this commitment and to

explore wide-ranging and innovative means to fund these improvements.

"The AC has been working with NCDOT, interest groups and concerned citizens to ensure the project's adverse impacts are addressed and minimized. The AC has considered not only the interstate traveler's experience, but also what citizens and tourists will encounter in the City's streets and neighborhoods. Using a broad definition of aesthetics, the AC has developed recommendations for treatments and for related engineering modifications to minimize the adverse effects of the project and maximize its aesthetic appeal. The engineering design recommendations contained in the City's streets and neighborhoods.

"Using a broad definition of aesthetics, the AC has developed recommendations for treatments and for related engineering modifications to minimize the adverse effects of the project and maximize its aesthetic appeal. The engineering design recommendations in the report are suggestions for the design-build contractor to consider and, if implemented, but would greatly improve the project at no additional cost to the City.

"These engineering design recommendations include:

- limiting the Interstate's expansion to six through lanes and minimizing the number of auxiliary lanes;
- tightening the Haywood Road interchange to save more properties and improve West Asheville's walkability and connectivity;
- reducing the height, size and complexity of the spans crossing the French Broad River; and
- reconfiguring I-240 and connections to Patton Avenue to provide greater connectivity for the Hillcrest community, save properties along Hill Street, and lower I-26 elevations near Riverside Cemetery.

"The AC recommends aesthetic treatments to apply throughout the Interstate corridor and for key components of the project. The Committee's recommendations pertaining to the entire corridor generally can be implemented with little or no cost to the City. A stacked stone liner treatment, for instance, will be provided by NCDOT for all walls and bridge abutments along the Interstate. However, local funding will be required if key components of the I-26 Connector are to be enhanced. The AC identified the three most significant components as the Bowen Bridge, Patton Avenue east of the bridge, and the Haywood Road Bridge and intersection.

• The Bowen Bridge would become a signature gateway into Downtown Asheville. Multi Use paths (MUP) are recommended on both spans of the bridge, enhanced with specialty pavement, attractive railings, decorative lighting, and moveable planters. Monument pillars greet those crossing the bridge from both sides. Spectacular LED lighting located on the bridge's exterior would be an extra feature. The bridge will reflect its original art moderne style, as required by the State Historic Preservation Office (SHPO).

• Patton Avenue (East) would transition to the Downtown with compatible sidewalk treatment and decorative lighting. An MUP will continue from the Bowen Bridge into Downtown. With NCDOT approval, the City could install public art on a widened median at a future date.

• Haywood Road Bridge would make a statement viewed from both the Interstate and from Haywood Road. From Haywood Road, the bridge would be flanked by monument pillars with enhanced sidewalk treatment, lighting, and custom railings. The overall design of the bridge would reflect the distinctive character of the West Asheville neighborhood. As with all the interstate bridges, a place would be reserved for the installation of iconic medallions facing the interstate traffic.

" The AC also recommends aesthetic treatments for the following areas, listed below from north to south:

• For the Broadway Street Underpass, the AC recommends a design evoking a railroad underpass, with an MUP along the east side of the street.

• Riverside Drive would be shifted back to its current right-of-way and be two lanes to reduce impacts on the Montford neighborhood and Riverside Cemetery.

• The AC's recommendations to reduce the Connector's adverse impacts on Riverside Cemetery have been incorporated into the recommendations made by the Section 106 Consulting Parties and would be implemented as mitigation at no cost to the City.

• The AC recommends that the French Broad River Crossings be designed to be simple, sleek and with wide spans to minimize intrusion into the river.

• The Atkinson Street Bridge should include an MUP and be designed with box abutments and other simple architectural features to enhance its appearance.

• The State Street Bridge should be designed with an arched underpass with a stacked stone linear inset.

• For the Amboy Road Underpass and Traffic Circle, the AC recommends the bridge create a tunnel effect with stone facia mimicking the tunnels on the Blue Ridge Parkway. Entrance traffic circles would be landscaped with a stamped concrete border and sidewalks.

• The Brevard Road Bridge would have decorative lighting and landscaped medians (if retained on Brevard Road).

• Greenways constructed as part of the project should be lighted and landscaped, with grading, signage, traffic control and lane markings designed to facilitate pedestrian and bicyclist safety where greenways intersect with vehicular traffic. Project design also needs to accommodate future greenway connections.

"Detailed recommendations are contained in the report, as are a break-down of cost estimates.

"To summarize, the I-26 Connector will forever transform Asheville's look and feel. The City has a choice - made more difficult by present circumstances— to allow the adverse impacts of the Interstate's expansion to predominate, or to soften and alter those impacts through improvements recommended in this report. While NCDOT will fund some aesthetic treatments, it is up to the City and its partners—Buncombe County and the TDA—to take this once-in-a-lifetime opportunity and turn vision into reality."

Below is the cost summary:

Better Bucket	
Bowen Bridge	**$3.6M ($681K deferrable)**

Haywood Rd. Bridge/Interchange	$546K ($87K deferrable)
Patton Avenue (East)	$380K (155K deferrable)
Other	$1.7M ($1.6M deferrable)
Total Better Bucket	$6.2M
Best Bucket (added cost)	
Bowen Bridge	$2.3M (2.1M deferrable)
Haywood Rd. Bridge/Interchange	$192K
Patton Avenue (West)	$79K
Amboy Road Area	$378K
Riverside Drive	$654K
Total Best Bucket (added cost)	$3.6M
Total Better + Best	$9.8M (some costs still TBD)

Mr. Figura said that the AC will continue to work with the NCDOT to (1) refine options; (2) develop Aesthetics Package for Request for Proposals (RFP) - description of funded recommendations to be included in the RFP; (3) consult on changes proposed by design-build contractor; and (4) continue to develop Phase II landscaping recommendations.

Councilwoman Mayfield thanked the members of the I-26 Connector Aesthetics Committee and the tremendous amount of work they did. She also thanked the NCDOT and AECOM for their help, and our own transportation staff. She explained the importance of these improvements to the success of the overall project for us. We have options – need to figure out the right process to determine which of options is appropriate. Which options may depend on when we have to pay for the improvements. We are still waiting on the timing of payment requirements from NCDOT. Also depends on who else can join the City in these investments – Buncombe County and the Tourism Development Authority. The City has set aside $2 million, but most of this will cover the betterments. She welcomed feedback from the public. Due to this COVID-19 pandemic, she said we will figure out other strategies to obtain public input.

Vice-Mayor Wisler thanked Councilwoman Mayfield who has worked diligently on this project for years.

In response to Vice-Mayor Wisler, Mr. Figura and Councilwoman Mayfield said that they will try to produce some images on what the funding options would look like with no funding vs. what the Aesthetics Committee is proposing.

Councilwoman Mayfield noted that this will come back to Council on the final recommendations and a funding plan.

On behalf of Council, Mayor Manheimer thanked the Aesthetics Committee for their hard work and dedication.

B. UPDATE FROM THE CHIEF OF POLICE

City Manager Debra Campbell thanked City Council for the opportunity to share her thoughts durings such an important time in our City and our nation's history. While we are still facing the many impacts of a global pandemic, we also laid to rest another Black man, Mr. George Floyd, who unfortunately died at the hand of a law enforcement officer. It is another sad day in our nation's history but we will channel our sadness into our commitment to serve our community with honor, respect and hope. Although we have made some progress, there are many systems that have contributed to the racial inequities that have put us where we are today, including some actions by local government. People are experiencing and expressing valid feelings of sadness, anger, fear and uncertainty. We hear, see and respect these feelings and the experiences of all those who have been impacted by structural racism acts by individuals. As an organization, we must have more resolve than ever to address the issues of social and economic inequities. Now is the time. We sincerely hope we have reached a crucial mass of people who reject the inequities in our systems that have caused so much harm for so long. The systems are complex and we acknowledge it will be a long hard road. She wanted everyone to know we will continue our work to be a local government that inspires trust from the people we serve. We will also be an organization that commits to being better today than we were yesterday. From Police Chief David Zack, you will hear about the City's work we have done to date related to police reform, our plans to address community demands and hear definite timelines and schedules to implement actions to improve relations with the community and enhance oversight and accountability of police officers.

Police Chief David Zack said that he has condemned, and will continue to condemn, as do the men and women of the Asheville Police Department (APD), the unjustified killing of George Floyd by law enforcement. All four officers have been arrested and charged. Now justice must prevail.

He reviewed a PowerPoint as follows: Key takeaways: (1) We have heard community concerns about systemic racism and police violence nationwide, to include past APD incidents; (2) APD has made progress since the August 2017 incident involving Mr. Johnnie Rush; (3) More changes must and will be made; and (4) 30/60/90 day action plan for APD.

He acknowledged that (1) There is community distrust for APD; (2) Community concern regarding APD's ability to police itself; (3) Residents deserve a detailed account of all that occurred during the protests; and (4) APD cannot solve systemic racism alone. Our plan forward will require the participation of government and community partners.

Independent review (1) Recommend an outside entity to complete a full after action report to determine if APD actions during the protests were justified; (2) Just because actions are

justified, doesn't make them necessary. This will be looked at as well; (3) Due process will be followed; and (4) Unjustified or unnecessary action will result in the appropriate discipline.

Community incident briefings: (1) After action reports on an incident of this magnitude takes significant time to complete; (2) Asheville residents want some answers now, they will get them; (3) Shortly after my arrival I contracted with LE transparency engagement advisors to keep the public better informed during critical incidents like this; (4) They will be in our City as early as tomorrow with the goal of providing a better understanding of what took place during protests. Bringing in transparency engagement advisors to create a series of videos accounting for APD actions during protests (a) Will include body worn camera footage and radio communication; and (b) Provide community with first-hand footage to determine if APD actions were justifiable and necessary.

8 Can't Wait Campaign: (1) 8 police reforms that Campaign Zero states will "decrease police violence by 72%"; and (2) APD has all 8 in place. Our use of force policy, as well as many other departmental policies, are available on the Asheville Police Department's website.

Use of force changes: (1) In 2018 APD worked with members of the community to establish the Community Police Policy Work Group; (2) Group reviewed and provided feedback on APD use of force policy; and (3) feedback was incorporated into current use of force policy.

Ban chokeholds: (1) APD does not train or condone the use of chokeholds; (2) Chokeholds are prohibited, except for situations where an officer reasonably believes that deadly force is necessary and there are no alternatives to that level of force; and (3) APD Use of Force Policy Section 402.4(D).

Require De-escalation: (1) When safe, officers will use de-escalation techniques to attempt to slow down and/or stabilize a situation to allow for more time, options, and resources for incident resolution; and (2) APD Use of Force Policy, Section 402.1(A).

De-escalation training: (1) De-escalation is an element in all APD tactical training; (2) Integrating Communication, Assessment, and Tactics (ICAT) - mandatory for all sworn personnel; (3) Crisis Intervention Training - 85% of all APD officers are certified in CIT - Certification a requirement to carrying a taser. ICAT - training program created by the Police Executive Research Forum (PERF) to ICAT - training program created by the Police Executive Research Forum (PERF) to provide first responding police officers with the tools, skills, and options needed to successfully and safely defuse a range of critical incidents. Designed especially for situation involving persons who are unarmed or are armed with weapons other than firearms, and who may be experiencing a mental health or other crisis

Require warning before shooting: (1) Prior to use of lethal force, where safe and feasible, officers will identify themselves as law enforcement and order the subject to stop the activity which has caused the potentially deadly encounter; and (2) APD Use of Force Policy, Section 402.3(B).

Exhausting all options: (1) Officers must only use the amount of force that is objectively reasonable, necessary under the circumstances, and proportional to the threat or resistance of a subject; and (2) APD Use of Force Policy, Section 402.2(B).

Duty to intervene: (1) Ethical Policing is Courageous (EPIC) - all sworn and non-sworn APD employees have completed this training where the duty to intervene is emphasized; (2) Current APD Use of Force policy, section 402.2(C) states "any officer present and observing another officer that is using force that is clearly beyond that of which is reasonable or necessary,

should safely intercede to prevent use of excessive force"; and (3) Must be promptly reported to supervisor.

Ban shooting at moving vehicles: (1) Officers will not fire any weapon from or at a moving vehicle, except to counter an imminent threat of death or serious physical injury to officer or another person, and no other means are available at that time to avoid or eliminate danger; and (2) APD Use of Force Policy, Section 402.4(B),

Require use of force continuum: (1) APD trains officers to operate on a use of force continuum; (2) Training teaches officers to make force decisions based on the level of threat presented; and (3) Our defensive tactics training includes transitioning between responses so officers are well-equipped to move up and down the continuum based on the threat presented.

Require comprehensive reporting: (1) Officers are required to report any use of force; (2) All use of force incidents are reviewed by officer's chain of command and Professional Standards section; (3) Review includes body worn camera footage, interviews with officers, witnesses, and person that had force used against them; (4) APD Use of Force Policy, Section 402.6; (5) Within five days of receiving a use of force report, Professional Standards Commander will submit a report to the FBI Use of Force Data Collection Database; and (6) Fewer than 45% of agencies report this information to FBI.

Highlights for 30/60/90 Day Action Plan for APD: (1) department-wide restructuring; (2) equitable promotional process; and (3) higher accountability in use of force reporting.

30 days: (1) Expand current definition of what constitutes use of force; (2) Increase indicators into early intervention system to identify/address issues before they become a problem; (3) Revise promotional process to reflect merit based and equity; (4) Drug Suppression Unit (DSU) will be abolished. Too much emphasis has been placed on enforcement of low level drug crimes. Must place greater focus on violent and property crime; (5) We must partner with the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) to assist with reducing gun violence in particular; (6) Based on accepted industry benchmarks, 6% of arrests usually result in use of force to effect the arrest. The reports from the Asheville Police Department are not reflective of this, and therefore we need to expand the current definition of what constitutes use of force.; and (7) Increase the signs and indicators into the early intervention system intended to help identify and address issues before they become a problem.

60 days: (1) Complete promotional processes to support a department wide restructuring; (2) Have independent monitor in place to conduct after action report; (3) Create a department liaison with the District Attorney's Office to identify cases that could not meet prosecution standards as they apply to interrogation, search and seizure, warrant application, and evidence collection and storage; and (4) Implementation of TIP411 to provide community ability to anonymously report crime and officer misconduct.

Beyond 90 days - organizational chart showed a new Community Engagement Division. This Division: (1) Fully staffed division whose sole purpose will be to quickly respond to neighborhood quality of life issues and more complex societal issues such as substance abuse, homelessness, and mental health. The centerpiece of all our reform involves a complete restructuring of the department to create a fully staffed Community Relations Division, bringing the community back into community policing. This division will address challenges from neighborhood quality of life issues to complex societal issues such as homelessness. The division will include several full time officers dedicated to homeless outreach and working with existing homeless service providers. In addition, I will establish an integrity unit, who will focus on ensuring that policies and procedures are consistently being followed. (2) Homeless Outreach Team: (a) Full time officers dedicated to facilitating access to mental, medical, and social service

care. This will be their only function; and (b) We will be researching existing models in cities such as Austin, San Diego, and Cincinnati who have developed successful programs; (3) Mental Health Addiction Coordinator; (a) Review reports for any underlying mental health conditions and follow up after all reports of overdose; and (b) Arrests and incarceration only exacerbates these conditions; (4) Integrity Unit: (a) Sole focus will be to ensure policies and procedures are consistently being followed through random and scheduled oversight; and (b) Consistently monitoring our soon to be established customer satisfaction surveys where residents can more readily provide positive and negative feedback following calls for service, traffic stops, random encounters, etc. where a formal complaint may not normally be considered; and (5) Implementation of gun violence reduction strategy: (a) Data-driven identification of responsible groups and individuals at highest risk of being involved in a shooting; (b) Respectful communication of risk directly to those high risk groups and individuals; (c) Make services, supports, and opportunities available to those highest risk groups; and (d) Focused enforcement on groups/individuals that continue to engage in violence crime.

In summary, (1) Our community demands and expects change; (2) APD has been evolving and will continue to; (3) Our plans are actions and not words; (4) Our goals are reachable and will define our agency culture; and (5) It is our intent to bring to the residents of Asheville a police department they can be proud of.

City Manager Campbell then reviewed the 30 day response to rallying together - community demands: (1) Resolution to remove monuments on tonight's agenda; (2) Work with the community on the renaming of streets - process already in place to rename any city street; and (3) Provide protocol, practices and resource allocation data from the Equity and Inclusion Department on the our City Website.

She said the 60 day response to rallying together - community demands: (1) Continue partnering with Asheville City Schools and Buncombe County Schools to address Opportunity Gaps; (2) Community conversations around budget to support transparency and needs; and (3) initiate conversations with the district attorney's office regarding the probation decision for Mr. Hickman.

She then said the 90 day response to rallying together - community demands: (1) Better understand and work through solutions for remaining demands: - (a) Creation of "Harm Free Zones"; and (b) All Civilian Oversight Committee; (2) utilize best practices to recruit people of color; and (3) develop Race and Gender Conscious Policy in response to the disparity study as part of City contracting and procurement.

In response to Councilwoman Smith, Chief Zack said that the use of tear gas is a use of force and the officers are required to make their reports per the policy. All body cam footage is being downloaded for review.

When Councilwoman Mayfield asked about the plan to work with community partners on the restructuring, refining and change of some of the policies, Chief Zack said that the Homeless Outreach Team is a community partnership model, and they will be seeing what has been successful in other cities. Community involvement is the center of the new Community Engagement Division.

Councilwoman Mayfield said that before restructuring occurs, she suggested that there be opportunities to sit down and meet with some community leaders to talk more about their ideas on restructuring, as we have a lot of creative people who would like to participate in the restructuring proposal

In response to Councilman Haynes, Chief Zack said that they will use existing personnel

for the new Community Engagement Division by realigning certain positions. This restructuring requires no additional funding.

Councilman Kapoor read the following statement: "I want to speak directly to the officers at the Asheville Police Department. Last week was probably the most difficult week that you have ever experienced as a police officer. Many of you had to work hours well beyond your normal shifts for days straight. Some of you had bottles thrown at you without knowing what was in them. Some of you had fireworks shot at you and at least one of you had your clothing set on fire by them. All the while, your job and in fact your duty was to protect people in their exercise of constitutionally protected speech – speech that was overwhelmingly critical of you. I think that very few people could deal with that and I want to thank you. During my time on Council, I've had a chance to meet and get to know many of you as people, and not just as police officers. You've shared stories with me of what it's actually like to be a police officer in this city. What I've learned from you is that to do your job effectively, the people that you serve and protect in the community need to trust you. And if we're being honest with each other, right now many of them don't. Last week changed things in this country. Nationwide, people saw things across the country that have shaken their confidence in police. People are hurting right now in this city and their pain is real. I am asking you to buy-in to the reforms that Chief Zack talked about not because you have to, but because you actually want to take a step in the direction of establishing trust. You cannot control what happens in other parts of the country, but each one of you can impact what happens here in Asheville. Though it may not seem that way now, there is an opportunity for all of us to come out stronger than when we began if people work together. Please take that step. "

Councilwoman Mayfield read the following statement: "Last week has been challenging in many ways – one of the hardest of my time on council for sure. People rightly look to council for action and change, and that can be hard to do in the midst of an immediate crisis. People look to us to be in charge, but we are not in charge of operational decisions like those made last week. Left me feeling helpless and the public feeling angry and frustrated at the lack of response. With the immediate events of last week behind us, however, now IS OUR time to act. We are taking first steps today with our vote on the confederate monuments and by postponing the budget adoption so we can identify new and different investments to make in our communities. And the chief has laid out some helpful reforms. But there is much more to be done. As someone who began my career as a HR advocate with Amnesty International, fighting the death penalty and other government abuses of power, and as someone who got into government work because I fervently believe in the power and purpose of government to protect people and improve their lives, I am elated about the opportunity before us to make sweeping change. I am sick, of course, about the immediate reason we are here – the tragic, senseless and needless murder of George Floyd. That tragedy, however, has presented us with this moment of transformation when we can be our best. We have the right people in place in the city staff and on council, we have momentum and leadership in the community, and we are a small, creative, engaged, and passionate city – together we can rise to the opportunities presented by this moment. I challenge us all not to squander it. Thank you to the thousands of people who emailed and called us. I love that you engaged with us and she assured everyone that we've never seen anything like this. " Some questions raised by Councilwoman Mayfield include: (1) What can we do participatory budgeting around in the coming year? (2) Can we overlay the urban renewal maps with properties owned and used by the city to look for opportunities to give them back or otherwise put them to use for the black community - Specifically re the Biltmore Ave. property - can we make space available there or elsewhere for black owned businesses/nonprofits?; (4) Can we bring to a close the long process of amending our personnel policies so there are faster consequences for bad behavior?; (5) Can we regularly report to council traffic stop numbers and other indicators of racially-motivated policing?; and (6) Can we bring the Racial Equity institute to town just for the police to ensure they have this important experience?

City Manager Campbell said that as we start the work over the next few months, some of the items raised will be a part of that work. She felt we can include them in our 30/60/90 day list of things we want to respond to. We want to be action oriented. She was not saying that we can do everything in 90 days, but we can get started. Our commitment to the community is that this is urgent and we will move quickly.

Councilman Young said that a big conversation needs to be about how we do public safety, and we need to begin by looking at a menu of options which will lead to reallocation of funding. We need to also address more than funding - explore the other systems the APD touches, i.e., the criminal justice system, police accountability, reforming the Civil Service Board, a Citizens Review Board, and the school to prison pipeline. We need to make changes on how we interact with those systems. He would reject any options of change by staff without input from the Black community. He is ready to get started.

Councilman Haynes read the following statement: "At Saturday's Black-led protest march the Mayor, City Manager, and other elected officials listened as people in our African American community lifted their voices, shared their pain, frustration and anger of the ongoing racism they have faced in Asheville that was reignited by the senseless murder of George Floyd at the hands of members of the Minneapolis Police force. From those voices came a list of very substantive and actionable demands for our City. I want to say clearly that I am in full support of those demands. I have also heard the call for years for us to examine our priorities and reflect those priorities in how we use our resources, in other words the relationship between our stated priorities and our ability to carry them out via the tool of our budget. The Defunding of the APD must begin now as part of this budget and continue into the next. We need to not only deny the 400,000 increase being requested but seek **much deeper cuts**, reallocating funds towards programs providing opportunity to the Black Community and poverty remediation. There is also a loud chorus of Black Voices around the Nation demanding these funds derived from the defunding of the police be directly invested into the black community. Philip and Thenjiwe McHarris wrote in the New York Times: 'The only way we're going to stop these endless cycles of police violence is by creating alternatives to policing." They went on to state: "the solution to ending police violence and cultivating a safer country lies in reducing the power of the police and their contact with the public.' I agree with this statement as a goal moving forward. They called for reinvesting cuts in police budgets into alternative emergency response programs. Here in Asheville, Asheville in BLACK has called on us to create a strategic plan for policing alternatives with goals, action steps, resources committed, and a timeline. I am in full agreement with this call and want to see us commit to bringing this about in our City via creating an action plan. We can create alternative emergency response programs made up of social workers, counselors, mediators etc. who would respond to many 911 calls of which they are exceedingly qualified to manage and eliminate an unnecessary armed police presence. This along with a major reduction in the scope of police responsibilities should result in a *smaller* yet **more efficient** police workforce. Police Chief David Zack addressing these Black Leaders made a vow to the Black Community to bring about the necessary changes to the APD and its culture that will lead to a more **just** policing, and declared that cause, his *primary* reason for coming here. It's now imperative that we begin to work immediately on these changes, that they come about through deep listening to the Black Community, while seeking their *direct* and **continuous** collaboration with both the City of Asheville and the APD. Demilitarization of Police forces is now being called for across this nation. The excessive use of *weaponry* turned on protesters recently here in Asheville and across the nation, *radicalizes* protesters and has highlighted the need for *major* reform of crowd control tactics. Containing protesters with Blue Walls of heavily armed officers in full riot gear induces conflict among otherwise peaceful protests, along with sending a message of us versus them. There is current legislation being put forth to end the program supplying police

forces with U.S Military surplus along with demands that police forces return the stockpiles of military grade weapons sitting in police armories everywhere. **We must eliminate combat training and military grade weapons for officers** that would ultimately be **used on our own citizens**. We need to encourage all officers to *abide by their oath of office* and remind them that their true role is to 'serve and to protect'. So I would like to move some proposals forward, Mayor Manheimer. Should we take these one by one? (1) That we instruct staff to audit the APD budget to find the appropriate areas to make meaningful cuts. I hear and wholeheartedly agree with our African American community leaders who called on us via Black Asheville Demands to reduce the APD budget by 50 percent and to invest those funds into the black community. I would like to see a draft budget toward those ends; (2) That we **commit** to addressing all demands being made by Black Asheville and its allies through community participation in decision making; (3) That we commit to a serious strategic plan to create policing alternatives in Asheville this year that is clear, intentional, and resourced with goals, action steps, and a timeline; and (4) As part of an effort to Demilitarize the APD, I am requesting that Chief David Zack on his own accord or through the appeal of City Manager Debra Campbell make available to the public, a complete inventory of military grade arms contained in the APD Armory. I would like to hear the results of this audit by our next Council meeting and that this topic be added to our next agenda so that we can begin the process to authorize the returning/retiring of this weaponry that **should not** be used by municipal police forces on our citizenry."

Mayor Manheimer appreciated Council working together through this process. She also thanked staff who have been working around the clock. The City and County have also worked together and will be considering a joint resolution regarding monuments. She especially thanked the people because change doesn't happen unless people come together with enough will to make that change happen. This isn't the first time we have tried to embark on significant change. We tried to get legislation to create a citizen review board, changes to the Civil Service Board, and legislation for body cam access. The City was there alone and didn't have the voice of the community to help make those changes. In the case of the Civil Service Board (only six in the state of North Carolina), the City terminates an employee (including officers), but the Civil Service Board reinstates them. She was glad there are so many people engaged and didn't want to lose that engagement. The City needs your help and support to make some of these changes that are outside our control. She also acknowledged that she has criticized the actions of our police force more than once, but does support them because they do care for our community.

C. CITY MANAGER UPDATE ON FISCAL YEAR 2020-21 INTERIM BUDGET

Mayor Manheimer said that we received 1,379 people who called in and left voicemail messages, mostly regarding the budget. That is almost 57 hours of voicemail messages. In addition, we received 1,642 written comments, mostly regarding the budget. The voicemail messages will be transcribed and those, along with the written comments, will be posted on the City's website.

Mayor Manheimer said that in light of what we have heard from the community, she asked for a motion to continue the budget public hearing until August 25, 2020. City Manager Campbell noted that the budget before Council is not what we would like to be considered, so we are asking to continue the public hearing until we do have a budget that we think is appropriate.

City Manager Campbell said we are hearing (1) Defund the Police Department to fund other services; (2) Ensure police accountability, both individually and organizationally; and (3) Repair past and continuing harm to Asheville's black community.

She said the response is: (1) We have heard the community; (2) We want to respond and move forward together; (3) Racism is a systemic problem, not just a police problem, and the

City cannot solve it alone; (4) The solution lies in collaborative work with the County, schools, and other organizations to address social disparities and equity; and (5) The solution needs to be strategic and reflect community values.

Her recommendation is that we adopt an interim budget. We will spend the next 60 days engaging the community to develop the final budget, with the final budget will be adopted early September.

She reviewed the revised budget schedule - Budget public hearing on August 25 and Council adoption on 9-8-20.

Why did the budget show an increase to the Police Department of $410,000? (1) $200,000: state-mandated increase in the City's contribution to the Local Government Employee Retirement System (LGERS); (2) $108,000: fuel and fleet maintenance costs associated with the implementation of a take-home vehicle program approved during the current fiscal year; (3) $81,000: lease costs associated with the relocated South District Substation; (4) $21,000: The department will no longer receive state grant funding for the DWI Task Force. Salary costs that used to be partially covered by the grant will be fully funded in the General Fund in FY 2020-21; and (5) No new personnel or equipment.

Why did the budget show an increase to the Fire Department of $1,000,000? (1) $200,000: state-mandated increase in the City's contribution to the Local Government Employee Retirement System (LGERS); (2) $316,000: the City's share of the cost for 15 firefighter positions that were added in November 2018 and November 2019 as part of the Staffing for Adequate Fire & Emergency Response (SAFER) grant program; (3) $200,000: increases to the AFD overtime budget and fleet and fuel budget based on spending trends from recent fiscal years; and (4) $284,000: other cost increases associated with the firefighters added in 2018 and 2019.

In summary, we are listening, hearing, and trying to be responsive to all community needs in a constrained fiscal situation. We must use these challenges as an opportunity to rethink and reinvest in collaboration with the community. An interim budget allows time to engage the community.

Councilman Haynes asked that the line item budget for all departments be made available. City Clerk Burleson said that department summaries (which show expenses by category, as well as highlights of any major budget to budget changes for each department) is available on the City's website.

Councilman Young moved to amend the budget schedule to hold the budget public hearing on August 25, 2020, and adoption of the budget on September 8, 2020. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

Councilman Young moved to continue the budget public hearing until August 25, 2020. This motion was seconded by Councilwoman Smith and carried unanimously on a roll call vote.

IV. UNFINISHED BUSINESS:

A. RESOLUTION NO. 20-114 - RESOLUTION GRANTING A LAND USE INCENTIVE GRANT FOR 2 RESTAURANT COURT RENTAL COMMUNITY, BEAUCATCHER VISTA LLC

Mayor Manheimer said that this public hearing was held on May 26, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding

public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

After reviewing the written public comments made 24 hours after the public hearing, Mayor Manheimer closed the public hearing at 7:10 p.m. and said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Mayfield said that neighbors had complained about trash issues. She said that the developer, Kirk Booth, has installed a trash dumpster so there will no longer be overflowing trash bins at the 444 Beaucatcher Road development.

Councilman Kapoor moved to grant a land use incentive grant for 2 Restaurant Court Rental Community, Beaucatcher Vista LLC. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 - PAGE 362

B. RESOLUTION NO. 20-115 - RESOLUTION GRANTING A LAND USE INCENTIVE GRANT FOR TRIBUTE DEVELOPMENT COLLIER AVENUE APARTMENTS

Mayor Manheimer said that this public hearing was held on May 26, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing at 7:13 p.m. and said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to grant a land use incentive grant for Tribute Development Collier Avenue Apartments. This motion was seconded by Councilman Kapoor and carried on a 6-1 roll call vote, with Councilman Haynes voting "no"

RESOLUTION BOOK NO. 41 - PAGE 364

ADDITION TO AGENDA

Mayor Manheimer asked that the agenda be modified to add an item under New Business, and that the New Business item be considered before the public hearings. The new item will be a joint resolution with Buncombe County to remove the Confederate monuments located at the Buncombe County Courthouse and in Pack Square Park, and to establish a jointly appointed task force to recommend action regarding the removal or repurposing of the Vance Monument.

Councilman Young moved to approve modifying the agenda to add a new agenda item, which is a joint resolution with Buncombe County to remove the Confederate monuments located at the Buncombe County Courthouse and in Pack Square Park, and to establish a jointly appointed task force to recommend action regarding the removal or repurposing of the Vance Monument, to New Business and that it be considered before the public hearings. This motion was seconded by Vice-Mayor Wisler and carried unanimously by a roll call vote.

V. NEW BUSINESS:

A. RESOLUTION NO. 20-216 - JOINT RESOLUTION OF THE CITY OF ASHEVILLE AND BUNCOMBE COUNTY TO REMOVE THE CONFEDERATE MONUMENTS LOCATED AT THE BUNCOMBE COUNTY COURTHOUSE AND IN PACK SQUARE PARK, AND TO ESTABLISH A JOINTLY APPOINTED TASK FORCE TO RECOMMEND ACTION REGARDING THE REMOVAL OR REPURPOSING OF THE VANCE MONUMENT

Mayor Manheimer read the resolution as follows: "WHEREAS, Monuments to Confederate soldiers and military leaders, which were installed in Asheville and many other communities in the South in the late 19th and early 20th Centuries by white Southerners seeking to preserve the Confederacy, are widely perceived as offensive and painful public reminders of the legacy of slavery and present realities of systemic racism in our country; and WHEREAS, A memorial monument honoring the 60th Regiment of North Carolina Confederate soldiers currently stands in front of the Buncombe County Courthouse, sitting on county-owned land; and WHEREAS, A memorial monument known as the "Robert E. Lee Dixie Highway,Colonel John Connally Marker" is located in Pack Square Park, sitting on city-owned land; and WHEREAS, Both of these monuments were paid for and erected by a private organization known as the United Daughters of the Confederacy, and ownership of these monuments have never passed to either the City or the County; and WHEREAS, A memorial monument known as the "The Vance Monument" is also located in Pack Square Park, the former site of the county courthouse which is the likely location where slaves were sold and traded locally; and WHEREAS, African-American residents of the City of Asheville and Buncombe County have issued a clear call to remove and/or repurpose these monuments as expeditiously as possible due to the harm they pose, and to replace them with monuments that honor local African-American history and are created by African-American artists; and WHEREAS, The Confederacy was formed by its political leaders for the express purpose of perpetuating and expanding slavery of African Americans; and WHEREAS, the City of Asheville and Buncombe County recognize that the legacy of slavery, institutional segregation and ongoing systemic racism directly harm public safety and public health; and WHEREAS, pursuant to N.C. Gen. Stat. § 100-2.1(c), the City and County are authorized to remove the two Confederate monuments from public property; and WHEREAS, The City of Asheville and Buncombe County are committed to promoting racial equity and justice, and desire to express this commitment through a joint resolution of their respective governing boards; and WHEREAS, The City of Asheville and Buncombe County desire to remove Confederate monuments from the public spaces within the City of Asheville; and WHEREAS, the City of Asheville and Buncombe County desire specifically to remove the monument to Confederate soldiers from the grounds near the County Courthouse and the Robert E. Lee monument from Pack Square Park; and WHEREAS, The City of Asheville and Buncombe County desire to explore options for removing, relocating, or making alterations to the Vance Monument; and WHEREAS, It is the intent of the governing boards of the City of Asheville and Buncombe County that these monuments be replaced or altered in such as manner as to honor the local history of African Americans; and WHEREAS, The City of Asheville and Buncombe County want to seek citizen input - and particularly to hear from those most impacted by the monuments - regarding the future of the Vance Monument by the establishment of a jointly appointed task force which will explore options including removal, relocation, and alteration of the monument; and WHEREAS, the City of Asheville and Buncombe County approve this resolution jointly at separate meetings of their governing boards; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE AND THE BUNCOMBE COUNTY COMMISSION THAT: Request is hereby made to the United Daughters of the Confederacy to immediately remove the two Confederate monuments located at the Buncombe County Courthouse and Pack Square Park. The City further requests that it receive from the United Daughters of the Confederacy its intent to remove the monument within 30 days, and that said removal is completed within 90 days. If the intent to remove is not received or the removal is not completed within the specified timeframes

from the date of full adoption of this resolution, then the City of Asheville and Buncombe County shall take action to remove the monuments; and a jointly appointed task force shall be established by the Asheville City Council and the Buncombe County Commission, consisting of not more than 12 members whose appointments will be made in equal numbers by the two governing boards. This task force shall, within three months of all appointments being made, provide a report to the City Council and the County Commission with a recommendation regarding the removal and/or repurposing of the Vance Monument. Once the report is presented, the task force shall perform such other duties as requested by the governing bodies. When no further action is requested, the task force shall dissolve. Upon passage of this resolution and until such time as the monument is removed or repurposed, it shall be shrouded in order to reduce its impact on the community and to reduce the risk of harm it presents in its current state."

Eighteen callers supported taking the Vance Monument and other Confederate monuments down.

Two callers were opposed to taking down the Vance Monument and other Confederate monuments.

One caller favored repurposing of the Vance Monument and supported removing the other Confederate monuments.

Councilman Young said that a few people mentioned context. From a personal standpoint, his family has a long history in the City of Asheville. He spoke with his grandfather (who was born approximately 50 years at the end of the Civil War) about his experiences in life and his experiences of his great grandfather who was born in 1888, in the middle of Jim Crow. Some people feel that removing a flag or monument, etc. is erasing history. In fact, for example, across this country, but mostly in the south, say confederate flag supporters had more than 350 rallies in the 6 months after the Charleston attack. In Charlottesville, Virginia, Council voted to remove statues of Robert E. Lee and Stonewall Jackson and that sparked several demonstrations, including deadly protests in August of 2017. The argument that the Confederate flags or monuments or other displays represent heritage not hate, ignores the near universal heritage of African Americans enslaved by millions in the south. It trivializes their pain, their history and their concern about racism, whether it's the racism of the past or the racism of today. And it conceals the true history of the Confederate states of America and seven decades of Jim Crow segregation and oppression that followed the reconstruction era. And there is no doubt that if you ask any historian that Confederacy was established upon the premise of white supremacy and that the south fought the Civil War to preserve it's slave labor. It's founding documents and its leaders were very clear in what their intentions were - our new government is founded upon the great truth that the Negro is not equal to the whtie man. Those statues and monuments were not erected during reconstruction or Jim Crow - they were erected sometime far after that to remind Black people that we still have power and we still have control and this is your place in our society. I don't want to be a part of that and if anyone else wants to be a part of that, you show your true colors.

Councilwoman Smith said that this is not an insignificant action. We must start healing from racial trauma passed through our blood line. This is equally powerful as well as ceremonial. The white supremacy legacy has been there and it's time for us to confront it. She was glad to be a part of this history, but hated the opportunity came at the death of George Floyd.

Vice-Mayor Wisler moved to approve a joint resolution with Buncombe County to remove the Confederate monuments located at the Buncombe County Courthouse and in Pack Square Park, and to establish a jointly appointed task force to recommend the action regarding the removal or repurposing of the Vance Monument. This motion was seconded by Councilman Young and carried unanimously by a roll call vote.

VI. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING AT 1500 TUNNEL ROAD KNOWN AS "TRU HOTEL" TO INCLUDE A FREE-STANDING IDENTIFICATION SIGN

Urban Planner Sasha Vrtunski said that this is the consideration of an amendment to a previously approved conditional zoning at 1500 Tunnel Road known as "Tru Hotel" to include a free-standing identification sign. This public hearing was advertised on May 29 and June 5, 2020.

Project Location and Contacts:

- The project site consists of a 2.67 acres parcel located at 1500 Tunnel Road (PIN 9678.15-1933) that is owned by Commodore Holdings LLC.
- Petitioner and Contact: HP Patel.

Summary of Petition:

- The project was approved by City Council on July 25, 2017 (Ordinance No. 4604).
- The approved project was for a 86 room hotel in a 43,000 square foot building.
- The site was previously zoned Highway Business District.
- While the 2017 approved project included an image reference to a wall-mounted sign, it failed to provide specific size allowances and did not include any free-standing signage. The applicant is requesting an amendment to the B1 conditions for the project to clarify sign allowances.
- The conditions allow for some flexibility and provide for a free-standing sign not to exceed 60 square feet and 12 feet tall and attached building signage not to exceed 80 square feet. This will ensure flexibility for any changes to signage in the future and would be compatible with the surrounding area.
- New condition is "Signage for project shall be limited to one free-standing monument sign not to exceed twelve feet in height and 60 square feet in size, and one wall-mounted sign not to exceed 80 square feet in size. Temporary and directional signage may be permitted as allowed by the Unified Development Ordinance.

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that "appropriate and contextual signage and articulation" is encouraged as a part of urban design.

Compatibility Analysis:

- The proposed signage would be less than what is allowed in the surrounding Highway Business District where free-standing identification signs are commonly used and relied upon.
- The proposed sign's smaller and slimmer profile helps to avoid conflict with adjacent signage along the corridor.

Council Goal(s):

- A Well-Planned and Livable Community.

Committee(s):

- None.

Staff Recommendation:

- Staff finds that the request for signage is appropriate and supports the amendment of the ordinance and conditions.

Mr. Patel, owner of the hotel, gave a brief background of the hotel site. He was unaware that signage was required by City Council at the time of original approval. He is proposing a much smaller sign than the other hotel in the area. He asked for Council's support.

Mayor Manheimer opened the public hearing at 8:40 p.m.

One voicemail individual spoke in favor of this conditional zoning amendment.

In accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilman Kapoor moved to recess this item until June 23, 2020, at which time this public hearing will be voted. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

B. PUBLIC HEARING TO SOLICIT COMMENTS FOR THE COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS ANNUAL ACTION PLAN FOR FISCAL YEAR 2020-21

Councilman Kapoor moved to continue the public hearing amending the 2019-20 U.S. Dept. of Housing & Urban Development Annual Action Plan to allocate funds to help prevent, prepare for, and respond to COVID-19 until July 14, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

C. PUBLIC HEARING TO AMEND THE 2019-20 U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT ANNUAL ACTION PLAN

Councilman Kapoor moved to continue the public hearing amending the 2019-20 U.S. Dept. of Housing & Urban Development Annual Action Plan to allocate funds to help prevent, prepare for, and respond to COVID-19 until June 23, 2020. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

D. PUBLIC HEARING REGARDING THE FISCAL YEAR 2020-21 BUDGET

This public hearing was advertised on May 29, 2020. Mayor Manheimer said that earlier in this meeting, Councilman Young moved to continue the budget public hearing until August 25, 2020. The motion was seconded by Councilwoman Smith and carried unanimously on a roll call vote.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Individuals spoke to demand Asheville Police Department (APD) and officers accountability for the use of tear gas, rubber bullets and flash bangs at the peaceful assembly regarding George Floyd's death; reinvesting cuts in police budget into alternative emergency response programs; disappointment with APD and their destruction of the medic supply tent supplies; defunding the APD; and demanding 50% of the APD's budget be invested in long-term safety strategies including supporting Black startups/business, eliminating the racial opportunity gap in Asheville City Schools, and funding all-civilian oversight committee with the power to hold the APD and individual officers accountable.

260

One individual supported the APD's actions and urged Council to support the Department and it's officers.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 10:03 p.m.

Magdalen Bunson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – June 23, 2020- 5:00 p.m.

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; live call in; and email.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 9, 2020

B. RESOLUTION NO. 20-117 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE THE INSTALLMENT LOAN CONTRACT WITH JPMORGAN CHASE FOR FISCAL YEAR 2020 CAPITAL IMPROVEMENT PROGRAM VEHICLES AND EQUIPMENT

Action Requested: Adoption of a resolution authorizing execution of an installment financing contract for Fiscal Year (FY) 2020 Capital Improvement Program (CIP) vehicles and equipment in an amount not to exceed $4,750,000.

Background:

- The City annually finances the purchase of necessary vehicles and equipment through an installment loan program.
- In May, the City distributed a Request for Proposal (RFP) seeking competitive bids for this year's installment loan financing to several money-center, regional and local banks including HomeTrust Bank and First Citizens Bank.
- Nine proposals were received and reviewed.
- The most favorable proposal was submitted by JPMorgan Chase with an interest rate of 1.16% per annum for both a term of 48 months (computer equipment) and a term of 59 months (vehicles).

Council Goal:

- Financially Resilient City

Committee(s):

- None

Pro(s):

- Provides funding of capital expenditures at a favorable interest rate.

- Spreads capital costs over the purchased asset life.

Con(s):
- Increases the lifetime cost of acquisition through interest and cost of debt issuance expenses.

Fiscal Impact:
- The interest payments range from $55 thousand in the first year to under $10 thousand in the fifth year as the principal balance is paid down. Funds are included in the City's debt service budget.

Motion:
- Motion to adopt the resolution authorizing the City Manager to execute the installment loan contract with JPMorgan Chase for the acquisition of vehicles and equipment.

RESOLUTION BOOK NO. 41 - PAGE 368

C. ORDINANCE NO. 4809 - ORDINANCE TO DISCONTINUE CHARGING WATER CAPITAL IMPROVEMENT FEE FOR WATER RESOURCES CUSTOMERS

Action Requested: Adoption of an ordinance authorizing the discontinuation of the Capital Improvement (CIP) Fee for Water Resources Customers.

Background:
- In 2006, an engineering evaluation of the Asheville Water System revealed that reinvestment in existing water infrastructure was imperative to the system's ability to continue to provide water service to its existing customers. The evaluation identified funding mechanisms to accommodate the reinvestment and address the deferred maintenance issues.
- Applying a CIP fee based on the maximum volume (gallons per minute) that will pass through a meter was chosen and approved as the funding mechanism.
- The water system regularly reinvests an average of $10,000,000 to $12,000,000 annually into the system.
- The reinvestments include, but are not limited to,:
  - water treatment plant projects,
  - water line replacement projects,
  - water meter and vault replacement projects,
  - water pump station and water storage tank projects, and
  - debt service payments.
- In June of 2018, a lawsuit was filed against the City of Asheville (Alexander vs. The City of Asheville, 18 CVS 2231), which alleged that charging the CIP fee was beyond the City's legal authority.
- At that time and continuing through the present, the City remains steadfast in its assertion that its water fees were valid and defended the lawsuit accordingly.
- The parties eventually reached an agreement to settle the lawsuit in December 2019. As part of that settlement and without admitting any liability, the City agreed to discontinue charging the CIP fee.

Council Goal(s):
- A financially resilient city

Committee(s):
- None

Pro(s):

- Compliance with the settlement agreement.

Con(s):

- Failure to comply could result in further litigation expenses.

Fiscal Impact:

- The Water Resources Department will experience an approximately $7.5 million reduction in CIP funding in Fiscal Year 2020-21.
- Staff is working with consultants to develop scenarios for future annual rate adjustments that will mitigate this capital revenue loss over time.

Motion:

- Motion to adopt an ordinance authorizing the discontinuation of charging the Capital Improvement Fee for Water Resources Customers.

ORDINANCE BOOK NO. 33 - PAGE 78

D. RESOLUTION NO. 20-118 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MIDWEST MAINTENANCE INC. FOR THE ASHEVILLE CITY HALL - BELFRY ROOF REPLACEMENT AND TERRA COTTA MASONRY REPAIRS PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Midwest Maintenance, Inc., in the amount of $ 880,706, for the Asheville City Hall - Belfry Roof Replacement and Terra Cotta Masonry Repairs project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of 5% ($44,035).

Background:

- The Belfry is the very top, peak section of the roof. It contains the bell and chimes. It has an asphalt roof that forms the floor of this open-air area.
- This work is essential to complete. The roof and masonry are leaking and are significantly deteriorated which has caused interior damage.
- The City Hall main roof was last restored in 2001 and is in acceptable condition.
- An Historic Resources Minor Work Certificate of Appropriateness has been issued.
- A Request for Bids was first advertised on February 25, 2020. A Mandatory pre-bid meeting was held on March 10, 2020. The original bid date was March 26, 2020. The Bid receipt deadline was delayed as COVID-19 procedures were developing.
- Informal bids were received April 14, 2020. The bids were not responsive because there were no bids provided that met the allocated budget and NCGS Informal requirements.
- The Request for Bids was re-advertised on April 29, 2020 after an additional budget amount was allocated to the project from other facility maintenance project funding sources.
- A pre-bid meeting was not offered or required due to mass gathering restrictions related to COVID-19. Contractors were offered site visits following current COVID-19 restrictions per the State of North Carolina, Buncombe County, and the City of Asheville. More Contractors showed interest in the project and made site visits to City Hall.
- Construction will begin in mid-July 2020 with completion expected in November 2020.
- Four bids were received and opened on May 28, 2020. The low bid was deemed non-responsive because they did not submit all of the paperwork required to document business inclusion efforts. The resulting responsive base bids (including bid alternates) are listed below:

	Contractor	Location	Amount
o	Baker Roofing Company	Charlotte, NC	S 2,012,420
o	J. Wayne Poole, Inc.	Greensboro, NC	$ 1,282,963
o	Midwest Maintenance, Inc.	Piqua, OH	$ 880,706

Midwest Maintenance, Inc. was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. The low bid Contractor did document outreach to MWBE subcontractors. Results: Welling, Inc. of Cincinnati, OH, WBE, material supplier, $17,397 and Dillion Construction Services, Irmo, SC, MWBE (Woman and Minority owned), plaster repair, $3,560.

Council Goal(s):

- A Clean and Healthy Environment & A Financially Resilient City

Committee(s):

- None

Pro(s):

- The roof system will be insulated per current building codes and will be leak free.
- The historic landmark of City Hall will be provided with necessary repairs.

Con(s):

- The contractor will take the back row of City parking spots along Davidson Drive during construction for staging and logistics.

Fiscal Impact:

- Staff will utilize existing building maintenance funding within the Adopted Capital Improvement Program (CIP) to fund this contract.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with Midwest Maintenance, Inc. in the amount of $ 880,706, for the Asheville City Hall - Belfry Roof Replacement and Terra Cotta Masonry Repairs project and further authorizing the City Manager to execute any change orders that may arise during the project up to the 5% contingency amount of $ 44,035.

RESOLUTION BOOK NO. 41 - PAGE 370

E. RESOLUTION NO. 20-119 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MARTIN EDWARDS & ASSOCIATES TO PROVIDE SECURITY GUARD SERVICES TO PUBLIC WORKS AND CITY HALL BUILDINGS

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Martin Edwards and Associates in the amount not to exceed $140,000 for a period of one year with the option of four, one-year renewals to provide security services for no more than five consecutive years.

Background:

- The City Hall Operations (CHO) Division of the Capital Projects Department provides a variety of services including overseeing Security Guards to Public Works and City Hall Buildings.
- Security guard services were previously provided by GuardOne at a not to exceed amount of $140,000 per year.
- A Request for Proposals was issued recently requesting proposals and costs for providing Security Guard services.
- Scoring proposals was based upon a weighted combination considering qualifications and costs.
- The recommendations were not based exclusively on the lowest cost. The use of the following criteria ensures an overall approach to work is best suited vs just being the lowest bid.
    - Experience and capacity weighting of 40% comprised two tiers
        - Development of Team 25%
        - Portfolio Summary 15%
    - Approach to work weighted at 20%.
    - Proposed cost has a 40% weighting.
- Six companies submitted proposals and costs. Using a weighted scoring system, Martin Edwards and Associates scored the highest and is being recommended as the service provider.
    - Martin Edwards & Associates - Linden NC - 8.69
    - Strategic Security Corp - Commack NY - 8.52
    - GuardOne Security - HQ Lawrenceville GA (Local branch Matthews NC) - 8.51
    - Allied Universal Security Services - HQ Conshohocken, PA (Local branch Charlotte, NC) - 8.39
    - SAKOM -- HQ Appleton WI (Local branch Greenville SC) - 8.13
    - Global Guardian - McLean VA - 4.56
- The transition of these service providers will coordinate with the reopening of city facilities during the COVID-19 pandemic.
- Annually, renewals will be brought before City Council for authorization to extend the contract.

Vendor Outreach Efforts:

- Staff performed outreach through solicitation processes using the State's Interactive Purchasing System. Martin Edwards and Associates is a certified Historically Underutilized Business (HUB) identified on the HUB website as a female-owned business out of Linden, NC.

Council Goal(s):

- Smart City

Committee(s):

- None

Pro(s):

- Provides security to both staff and visitors
- Consistent security services at multiple buildings
- Flexibility to staff additional people if security needs change

Con(s):

- Security personnel will be learning about the security of City facilities in a transition period post COVID.

Fiscal Impact:

- Costs for the first year of these services are included in the FY 2020-21 Proposed General Fund Budget in the City Hall Operations Division of the Capital Projects Department.
- The contract is contingent on budget appropriations in future fiscal years.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with Martin Edwards and Associates in the amount not to exceed $140,000 for a period of one year, with the option of four, one year renewals to provide City security guard services for no more than five consecutive years.

RESOLUTION BOOK NO. 41 - PAGE 371

F. RESOLUTION NO. 20-120 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MULTI-YEAR GENERAL SERVICES AGREEMENT WITH THE MILLS RIVER PARTNERSHIP INC. FOR THE MILLS RIVER WATERSHED BEST MANAGEMENT PRACTICES PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a multi-year general services agreement with the Mills River Partnership, Inc., for the Mills River Watershed Best Management Practices project for a not-to-exceed amount of $180,000 over three (3) fiscal years contingent upon funding each year. The level of participation recommended is an amount up to $60,000 per fiscal year with the understanding that funding is project-specific and subject to the appropriation of funds.

Background:

- On November 12, 2016, City Council authorized a three-year agreement between the City of Asheville Water Resources Department and the Mills River Partnership (MRP) for a not-to-exceed amount of $180,000 [$60,000 per fiscal year; approximately $0.01 per centum cubic feet (CCF) system-wide] to provide financial support of projects intended to protect and/or improve water quality in the Mills River Watershed. The department desires to continue to partner with the MRP to help fund water quality projects in the Mills River Watershed.
- The Water Resources Department is willing to provide cost-share funding for projects that are directly related to water quality protection and/or improvement.
- These activities include;
    - selection and installation of best management practices to control contamination of the river from storm runoff,
    - stream bank restoration,
    - planting trees to protect the river buffer zone, educational materials and activities that involve working with agriculture farms to develop buffer zones.
- These projects maintain the water quality of the river and thereby reduce water treatment costs & protect the environment of the watershed.
- The City of Asheville has an ongoing interest in watershed management. Water quality in the upper watershed continues to be excellent and overall water quality indices have improved during the past ten years. The strategy is to continue focusing on efforts to protect and improve water quality.

- Funding initiatives are to be considered with an understanding of their long-term impact on water quality.

Vendor Outreach Efforts:

- This is a continuation of contracted services with a vendor that has a unique and singular focus, with no comparable vendors/non-profits. As such, no additional outreach has been conducted.

Council Goal(s):

- This project aligns with the City Council 2036 Vision of providing A Clean and Healthy Environment.

Committee(s):

- None

Pro(s):

- Opportunity to partner with the Mills River Partnership to strategically address areas of concern in the Mills River watershed.
- Funding from the City of Asheville could make some water quality projects feasible.
- Funding from the City of Asheville could support public education efforts related to water quality protection.
- Projects in the watershed could improve source water and drinking water quality.
- The City of Asheville Water Resources Department wants to maximize benefits to water quality.

Con(s):

- If the City does not participate in the funding of specific water quality projects, these projects may not occur and there could be potential negative impacts on water quality.

Fiscal Impact:

- The full amount needed for the three year agreement is currently allocated within the Water Resources Operating Fund for Fiscal Year 2020-21. The total not-to-exceed contract amount of $180,000 will be encumbered upon City Council approval, even though the MRP will only be allowed to request a not-to-exceed amount of $60,000.00 per fiscal year for the next three years.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a multi-year general services agreement for the entire agreement with the Mills River Partnership, Inc., for the Mills River Watershed Best Management Practices project for a not-to-exceed amount of $180,000 over three (3) fiscal years contingent upon funding each year. The level of participation recommended is an amount up to $60,000 per fiscal year for a maximum of three fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds.

RESOLUTION BOOK NO. 41 - PAGE 372

G. RESOLUTION NO. 20-121 - RESOLUTION AUTHORIZING THE CITY MANAGER TO REIMBURSE THE ASHEVILLE ART MUSEUM FOR EXPENSES INCURRED TO REPAIR STRUCTURAL ISSUES TO THE FACILITY THAT WERE DISCOVERED DURING THE RENOVATION PROJECT

ORDINANCE NO. 4810 - BUDGET AMENDMENT REGARDING ASHEVILLE ART MUSEUM EXPENSES INCURRED TO REPAIR STRUCTURAL ISSUES TO THE FACILITY THAT WERE DISCOVERED DURING THE RENOVATION PROJECT

Action Requested: Authorize the City Manager to reimburse the Asheville Art Museum (AAM) in the amount of $427,788.61 for expenses incurred to repair facility structural issues that were discovered during the renovation project and adopt a budget amendment in the amount of $233,866 from General Fund Assigned Fund Balance (funds previously assigned for capital expenditure) to aid in funding the reimbursement payment.

Background:

- In 2017, AAM began a project to make major renovations to the interior spaces of the museum. These renovations made improvements to the gallery areas throughout the building and modernized the climate control system for the facility.
- Part of the renovation work included the tear out and remodel of the old public library space.
- During the demolition of this space it was discovered that during a previous renovation project, contractors had made penetrations through structural beams.
- These penetrations raised concerns and it was determined that they would need to repair the previous damage in order to restore the building to a condition that would meet building safety codes.
- Through a change order with their contractor they made repairs to the beams and continued on with the renovations of this space.
- The discovery and subsequent repair of this compromised structure resulted in a significant unexpected cost for the museum.
- The AAM has requested that they be compensated in the amount of $427,788.61 for the repairs that were made.

Vendor Outreach Efforts:

- This work was performed as a change order to an existing contract that the AAM has with Beverly-Grant Inc.

Council Goal(s):

- Thriving City

Committee(s):

- None

Pro(s):

- Projects on City-owned property will be complete and fully compliant with City code.
- All buildings will have required egress that is functional and aesthetically similar to the surrounding structures.

Con(s):

- The money that is being used to reimburse AAM could be put to use to fund other City capital rehabilitation projects.

Fiscal Impact:

- A portion of the reimbursement payment ($193,923) will be funded with Capital Improvement Program (CIP) contingency funding that was included in the FY 2019-20 Adopted Budget Ordinance. The remaining amount of $233,866 will come from Infrastructure Reserve funding that was set aside in General Fund Assigned Fund

Balance in fiscal year 2016. The amendment will have no impact on the City's unassigned (available) fund balance.

Motion:

- Move to authorize the City Manager to reimburse the Asheville Art Museum in the amount of $427,788.61 for expenses incurred to repair facility structural issues that were discovered during the renovation project and adopt a budget amendment in the amount of $233,866 from General Fund Assigned Fund Balance (funds previously assigned for capital expenditure) to aid in funding the reimbursement payment.

ORDINANCE BOOK NO. 33 - PAGE 79

H. **RESOLUTION NO. 20-122 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION FROM CONNECT BUNCOMBE TO BE USED TO PRODUCE PUBLIC OUTREACH MATERIALS FOR THE CITY'S GREENWAY, ADA, AND PEDESTRIAN FACILITY PLANNING PROJECT**

ORDINANCE NO. 4811 - BUDGET AMENDMENT TO BUDGET THE REVENUE AND INCREASE THE EXPENSE BUDGET IN THE CITY'S GREENWAY, ADA, AND PEDESTRIAN PLANNING PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to accept $7,000 from Connect Buncombe to be used to produce public outreach materials for the City's greenway, ADA, and pedestrian facility planning project ("GAP" project); and, approve a budget amendment in the amount of $7,000 in the City's Special Revenue Fund to budget the revenue and increase the expense budget in the GAP project.

Background:

- The GAP project is greenway, ADA, and pedestrian facility planning project.
- Connect Buncombe is a 501c-3 non-profit whose mission is to educate, advocate and fundraise for greenways throughout Buncombe County.
- Connect Buncombe awarded $7,000 to the City as a mini-grant to create educational and public outreach materials to help obtain input from the public on the pedestrian and ADA improvement needs of the community, which will help develop the plan.
- The mini-grant does not require matching funds.

Council Goal(s):

- Transportation and Accessibility and An Equitable and Diverse Community

Committee(s):

- None

Pro(s):

- The outreach materials will be used to attract diverse public input and will be part of a larger public engagement plan intended to reach all segments of the community to gather input on pedestrian and ADA improvement needs in Asheville.
- The outreach materials will provide information about the GAP project and tell people how to get involved or provide input.

Con(s):

- None

Fiscal Impact:

- No negative fiscal impact. Matching funds are not required for this grant.

Motion:

- Move to adopt a resolution authorizing the City Manager to accept $7,000 from Connect Buncombe to be used to produce public outreach materials for the City's greenway, ADA, and pedestrian facility planning project (GAP project) ; and, approve a budget amendment in the amount of $7,000 in the City's Special Revenue Fund to budget the revenue and increase the expense budget in the GAP project.

RESOLUTION BOOK NO. 41 - PAGE 374
ORDINANCE BOOK NO. 33 - PAGE 80

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously by roll call vote.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT

City Manager Campbell provided Council with the presentation overview as follows: She provided an update on our work to reopen for business in the midst of public health pandemic; and clarified the 30/60/90 day work plan presented by both Chief Zack and herself related to Police Reform initiatives and responses to community demands.

She then provided an update on reopening: (1) Council Committees Resuming (a) Public Safety - 3:30 on June 25th; and (b) Boards and Commissions - 2:00 on June 26th; (2) Some Boards and Commissions Resuming; (3) Re-opening remaining City Facilities (a) Early July - Staff; and (b) Mid July - Public; (4) Public Space Usage/Street Openings (a) **Temporary Parklet - use of 1-3 parking spaces** adjacent to their storefronts for outdoor dining, merchandise sales or other safe distancing; (b) **Shared Streets** - converts entire blocks to **"pedestrian priority"** areas to enable outdoor dining, merchandise sales or other uses by businesses and organizations in the area; (c) Businesses can also expand seating or merchandise onto **public sidewalks** in front of their businesses; and (d) Businesses can also expand onto private properties including **parking lots and landscaped areas.** More details at website:www.ashevillenc.gov/publicspaceresponse; (5) Parks and Recreations Summer Programing (a) Rec N Roll - community based onsite programs; (b) Virtual Camps - staff lead activities and virtual field trips; and (c) Nature Center - educational videos online; and (6) **Red Roof Inn COVID-19 Shelter Guests (a) 65 people currently being housed; (b) 11 households with confirmed plans to move into permanent housing; and (c) Collaborations with Homeward Bound, Vaya Health, and the Housing Authority of Asheville.**

Regarding 30/60/90 Day Initiatives, on June 9, 2020, staff presented 30/60/90 day initiatives on ongoing efforts in the Police Department and efforts in response to Black Asheville Demands coalition. These efforts: (1) Represent the beginning of the work that needs to be done; (2) Will happen on a parallel track with other efforts and requests from the community; and

(3) Are a foundation and only the beginning of work that will lead to long term collaborative problem solving. She said they received a lot of feedback on the plans presented at the June 9 Council meeting. In our effort to be responsive, it came across that this was the extent of the police plan and the efforts from the police were separate from the other demands from the Black Asheville Demands coalition. That is not the case. There will be opportunities for engagement. It was to demonstrate that work had already begun and in no way was it to suggest that the work was so far that we would not get community input on how to re-imagine the Police Department and City services. We know that the initiatives laid out June 9 are only the beginning of efforts and changes that need to be made. The bulk of work and attention will focus on the 60 day community conversations around the budget to support transparency and needs. This is only the beginning. We cannot address all systemic racism in 90 days. We are building a foundation of work that needs to be done, long term, but there are short term items that need to happen, i.e., passing a budget, etc..

We are hearing (1) Defund the Police Department to fund other services; (2) Ensure police accountability, both individually and organizationally; and (3) Repair past and continuing harm to Asheville's black community.

Moving forward, we want to respond and move forward together. Racism is a systemic problem, bigger than police and the City cannot solve it alone and within 90 days. The solutions need to be strategic and collaborative. We will engage with the public as well as the County government, schools, health care providers, the private sector and other organizations to address social and economic disparities.

Next steps of the 30/60/90 Day initiatives, (1) Public Engagement that includes community input on re-imagining policing and delivering services collaboratively with our partners; (2) Work with the community to determine how to structure department responsibilities and partnerships in a way to: (a) *Deliver exemplary services in a manner that achieves social and economic equality; (b) Build community trust in government and especially APD; and (c) Identify and allocate resources commensurate with roles and responsibilities;* (3) Community engagement process to launch in the next two weeks. Phase of COVID-19 will determine specific outreach strategies; and (4) Concurrently work on list of other demands with the community i.e. Formation of the Task Force for Vance Monument, Renaming of streets, Addressing Achievement/Opportunity Gap in ACS, Disparity Study race and gender policies, etc.

When Councilman Haynes asked if the proposed Community Engagement Division will fall under the Asheville Police Department, City Manager Campbell said that the concept will be discussed with the community. Conceptually the idea is good, but where it is housed and how it is implemented still needs to be worked out.

In response to Councilwoman Mayfield, City Manager Campbell said that not only are the ideas proposed by Police Chief Zack going to be a part of the community conversation, but we are looking at re-imagining the police and how we deliver not only those services, but many other City services. We are looking at this as a true opportunity to deliver services in a way that begins to address social and economic disparity. It may take us more than 90 days but we want to get started.

In response to Vice-Mayor Wisler, City Manager Campbell said that it makes sense to get Buncombe County involved in looking at service delivery.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO AMEND THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT 5-YEAR CONSOLIDATED ACTION PLAN

Councilwoman Smith moved to continue this public hearing to consider a resolution to amend the U.S. Dept. of Housing & Urban Development 5-Year Consolidated Action Plan until August 25, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

B. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OPEN SPACE REQUIREMENTS

Councilman Young moved to continue this public hearing to consider an ordinance to amend the Unified Development Ordinance to update open space requirements until July 28, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

C. PUBLIC HEARING TO AMEND THE 2019-20 U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT ANNUAL ACTION PLAN

Community Development Programs Director Paul D'Angelo said that this is a public hearing to amend the 2019-20 Annual Action Plan to allocate funds to help prevent, prepare for, and respond to COVID-19. This public hearing was advertised on May 15 and 22, 2020. On May 26, 2020, this public hearing was continued to June 9, 2020. On June 9, 2020, this public hearing was continued to this date.

Background:

- The City of Asheville will be receiving a special COVID-19 funding allocation from the Department of Housing & Urban Development (HUD) in the amount of $615,934.
- The funds are to be used to prevent, prepare for, and respond to the coronavirus / COVID-19.
- In order to strategically utilize these funds for individuals and families affected by COVID-19, it is important to understand where there are gaps in existing relief funding, unmet needs, difficulty in accessing relief funds, and not to duplicate services, efforts and other federal & state dollars.
- Specifically from HUD, "Grantees must prevent duplication of benefit, i.e. the use of CDBG-CV funds to pay costs if another source of financial assistance is available to pay that cost".
- Our proposal to HUD for this special allocation must show "Clarity of Need" and fund individuals and families under 80% Area Median Income (AMI) and/or Low & Moderate Income (LMI) areas.
- In order to be timely, strategic and effective with these HUD dollars, as well as working within the parameters of Community Development (CD) capacity, CD staff strongly recommends directly partnering with local agencies ("sole sourcing", contracts under $250k) who can:
    - target and address immediate needs,
    - have the expertise to carry out the eligible activity,
    - have experience working with CDBG and/or HUD funds,
    - have the capacity as an agency to be an effective partner, and
    - have the ability to produce monthly or quarterly reports and measurable outcomes.

Proposal:

- **SERVICES BREAKDOWN OF THE $615,934 BUDGET**
    - Rental Assistance **$399,500**
        - Homelessness Prevention & Rapid Rehousing
        - Eviction Prevention/LMI Individuals & Families

- COVID-19 Emergency Response Homeless Populations **$156,434**
  - Security charges at congregate shelter / Operational costs at non-congregate shelter not covered by FEMA

- Grant administration and compliance **$60,000**
  - Part-time staff for grants management
  - HUD reporting & compliance / technical assistance

$615,934

Council Goal(s):
- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):
- None.

Pro(s):
- Efficient use of funding
- Preserves and protects affordable housing
- Targets populations most impacted by COVID-19
- Reduces spread of COVID-19

Con(s):
- Staff hours will be dedicated to administering this grant.

Fiscal Impact:
- This special allocation is fully funded from HUD authorized by The CARES Act of 2020. Staff costs to administer the program are also fully paid from federal sources. This funding will provide rental assistance to Ashevillians in danger of homelessness or eviction as well as additional homeless services including reimbursement for costs associated with homeless sheltering.

In response to Councilwoman Mayfield, Mr. D'Angelo explained in detail the Homelessness Prevention & Rapid Rehousing and Eviction Prevention/LMI Individuals & Families programs. He also provided the organizations we are going to partner with to administer these funds.

There was considerable discussion, initiated by Councilman Young, about whether individuals who receive housing vouchers are eligible for this assistance. He was concerned that if an individual before COVID-19 already needed assistance and they lost their job, that they can't apply for these funds. Mr. D'Angelo said that according to HUD guidelines (which are not final at this time regarding these COVID-19 special funds), when someone is already receiving housing assistance, there cannot be a duplication of benefits. Language specifically from HUD states, "Grantees must prevent duplication of benefit, i.e. the use of CDBG-CV funds to pay costs if another source of financial assistance is available to pay that cost". He said that the individuals with housing vouchers are already working with the Housing Authority to avoid eviction.

Councilwoman Mayfield said that if people have vouchers in private housing, Pisgah Legal Services will be there to represent them and help work out a payment plan, with support

from the Housing Authority. Even though the individual is not receiving a direct benefit, it builds a network around them in a different way to keep them housed.

Councilman Young felt that this is a good example of why we need to restart the City Council Housing & Community Development Committee, so discussion regarding items like this can be vetted out before reaching Council. He asked for a definition of "duplication of funding."

Councilwoman Mayfield suggested that until we get the final regulations from HUD that we set aside $25,000 that can be used for people who already have housing vouchers. If the final regulations are received and we can't use the money for that purpose, the Housing & Community Development Committee can make the decision at that point to release the money to qualified individuals.

Mayor Manheimer opened the public hearing at 6:26 p.m.

Eight individuals spoke to urge the City to use the bulk of the Community Development Block Grant funds for a rental assistance program and to use City General Fund funds for rental assistance and housing.

Councilwoman Mayfield said that according to David Nash, Executive Director of the Housing Authority, in a text message, all rents have been adjusted and protected. He said they do not need this assistance and that the assistance should be made available to people who don't have federally subsidized rent. The Housing Authority is taking care of people who have vouchers. Given Mr. Nash's assurance, she removed her suggestion about setting aside $25,000.

Mayor Manheimer asked that a memorandum from Mr. Nash be provided to City Council prior to the vote at the July 14, 2020, meeting on this matter.

In accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilman Kapoor moved to recess this item until July 14, 2020, at which time this public hearing will be voted on (with $25,000 being reserved to be used for those already receiving some other type of HUD financial aid if that is allowed once the HUD final regulations are received. If not permitted, all funds would be dispersed in accordance with staff recommendation). This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4812 - ORDINANCE TO AMEND A PREVIOUSLY APPROVED CONDITIONAL ZONING AT 1500 TUNNEL ROAD KNOWN AS "TRU HOTEL" TO INCLUDE A FREE-STANDING IDENTIFICATION SIGN

Mayor Manheimer said that this public hearing was held on June 9, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to to recommend approval of the conditional zoning amendment to Ordinance 4604 for 1500 Tunnel Road - Lodging Conditional Zone (LODG-CZ) for the revised condition related to signage and find that the request is reasonable, is in the public interest, and is consistent with the comprehensive plan in that: 1) the amendment does not substantially deviate from the project details previously approved other than the addition of signage; 2) signage will benefit visitors coming to the site; and, 3) the signage will be compatible with the surrounding area. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 – PAGE 81

VI. NEW BUSINESS:

A. RESOLUTION NO. 20-123 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY TO ACCEPT THE DONATION OF OUTDOOR NEEDLE DISPOSAL KIOSKS FROM BUNCOMBE COUNTY AND AUTHORIZING THE OUTDOOR NEEDLE DISPOSAL KIOSKS TO BE PLACED ON OR IN THE CITY'S RIGHT-OF-WAY

Staff Report: "This is a request to authorize the Interlocal agreement with Buncombe County for installation and maintenance of needle disposal units and kiosks.

Background:

- Buncombe County has been significantly impacted by the opioid epidemic. In both 2018 and 2019, about 80 individuals who were temporary or permanent residents of Buncombe County died from an opioid overdose.
- Buncombe County is receiving multiple complaints by residents and businesses about used needles left in county buildings and on county and city property.
- Buncombe County has received funding from the Dogwood Trust Foundation in the amount of $24,364. The County would like to use these funds to purchase and donate six large outdoor needle disposal kiosks to be installed on City property and rights of ways and maintained by the City.
- The County will be responsible for removing the needles from the disposal kiosks.
- Five of the six locations have been identified: 40 Coxe Avenue; Haywood St. Congregation (sidewalk); State Street near Haywood Road; Hominy Creek Park; and Pisgah View Apartments (at Granada bus stop).
- An Interlocal agreement between the County and the City of Asheville is needed to define parameters around responsibilities related to the installation and maintenance of these units.

Council Goal(s):

- A Clean and Healthy Environment

Committee(s):

- None

Pro(s):

- Partnership with Buncombe County and the Dogwood Trust Foundation

Con(s):

- None

Fiscal Impact:

- Costs are expected to be nominal and will be funded out of the existing General Fund Public Works budget."

Amy Upham, Buncombe County's Opioid Response Coordinator, provided an overview of the 2019 syringe disposal efforts: (1) 16 bathroom units installed at various locations; (2) Syringe handling training given as part of harm reduction training to over 400 community and business members; (3) Safe syringe disposal information distributed to area businesses, nonprofits, libraries, and City of Asheville; (4) "Safety is the Point" safe syringe disposal bus ads placed in 22 city buses; and (5) 6 large disposal units purchased for installation.

She said safe syringe disposal efforts (1) Evidence-Based research from Montreal, Canada shows community-based disposal units reduced needle litter by 95% within 200 yards of the unit; (2) Erie County, NY Department of Health provided technical assistance and guidance on policy and logistics of syringe disposal; and (3) Successful community disposal efforts include street sweep teams and large disposal units.

Ms. Upham said the logistics for the City & County Memorandum of Understanding include (1) 6 large disposal units will be donated to City of Asheville; (2) City of Asheville will install and maintain the units; and (3) Buncombe County will replace unit if needed and oversee collection of syringes. The locations based on community requests, consultation, and data: (1)DEA APD Liaison input; (2) Greenworks data collection; (3) Asheville City Sanitation; (4) Request by Pisgah View Community; (5) Consultation with Buncombe County Parks Department; and (6) Stakeholder engagement at Community Engagement Markets and door-to-door with business owners on Haywood Rd. (West Asheville) and in Downtown Asheville.

Some statistics for the Dogwood Grant awarded for safe syringe collection include: (1) $24,364; (2) Will pay for a part time position to manage collection from 6 units; (3) Grant covers end-point disposal bins; (4) Grant also pays for liability insurance for subcontracted agency; (5) Development of sustainability plan for collection as a part of opioid response efforts; and (6) Subcontracted agency identified as Sunrise Community for Recovery and Wellness.

The Community Engagement Plan includes (1) Opioid Response Coordinator working with City of Asheville and Buncombe County Community Engagement Teams; (2) Continued harm reduction education including safe disposal; (3) Safe syringe disposal materials for individuals and businesses; (4) Work with stakeholders including Buncombe CARE Team, nonprofit partners, and businesses; and (5) Website: buncombecounty.org/safer.

Next steps consist of (1) Continued community engagement and education; (2) Identify specific coordinates for 2 of the locations (Harris Center and Haywood St. Congregation); (3) Installation of units; (4) Train new Sunrise hire on pick-up and community engagement; and (5) Continue Needs Assessment of rural Buncombe County for substance use needs, including disposal.

In response to Councilwoman Smith, Ms. Upham said that part of the community engagement plan is to create a map.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to approve an interlocal agreement with Buncombe County for installation and maintenance of needle disposal units and kiosks. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 - PAGE 375

B. MOTION TO AMEND THE FISCAL YEAR (FY) 2020-21 BUDGET CALENDAR TO (1) RESCHEDULE THE AUGUST 25, 2020, FY 2020-21 ANNUAL OPERATING BUDGET PUBLIC HEARING TO JULY 28, 2020; (2) RESCHEDULE THE SEPTEMBER 8, 2020, FY 2020-21 ANNUAL BUDGET ORDINANCE ADOPTION UNTIL JULY 28, 2020; AND (3) DELETE THE SEPTEMBER 8, 2020, FY 2020-21 ANNUAL BUDGET ORDINANCE ADOPTION

ORDINANCE NO. 4813 - ORDINANCE APPROVING INTERIM BUDGET APPROPRIATIONS FROM JULY 1, 2020, TO JULY 31, 2020

Chief Financial Officer Barbara Whitehorn said that this action is to request a motion to: 1) adopt an ordinance approving interim budget appropriations from July 1, 2020 to July 31, 2020; and 2) amend the FY 2020-21 Budget Calendar to (a) reschedule the August 25, 2020, FY 2020-21 Annual Budget Ordinance Public Hearing to July 28, 2020; (b) reschedule the September 8, 2020 FY 2020-21 Annual Budget Ordinance Adoption until July 28, 2020; and (c) delete the September 8, 2020, FY 2020-21 Annual Budget Ordinance Adoption.

Background:

- The Fiscal Year (FY) 2020-21 Proposed Annual Operating Budget was presented to City Council on May 26, 2020.
- In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 29, 2020.
- Following presentation of the FY 2020-21 Proposed Budget, the City decided that adopting an interim budget would allow time to plan a public engagement process around reallocating resources to address equity, social disparity, and policing concerns voiced by the community.
- Per NC General Statutes, the City cannot adopt the annual property tax rate with an interim budget. The property tax rate can only be adopted as part of the annual budget ordinance and must be adopted by August 1.
- After meeting with faculty at the UNC School of Government, staff determined that delaying the annual budget adoption until September 8, 2020 would negatively impact the City's ability to establish a property tax rate in accordance with the state statutory deadline.
- As a result, staff is recommending that the City Council adopt a one-month interim budget from July 1, 2020 to July 31, 2020, and adopt the annual budget ordinance and set the property tax rate at its July 28, 2020 meeting.
- The revised FY 2020-21 budget calendar will be:
    - June 23, 2020: Adoption of one-month interim budget
    - July 28, 2020: FY 2020-21 Proposed Budget Public Hearing and Adoption of the FY 2020-21 Annual Budget Ordinance
- Pursuant to North Carolina General Statute §159-16, the interim budget allows the City to pay salaries, debt service payments, and the usual ordinary expenses that typically occur during the July 1, 2020 to July 31, 2020 time period. It does not allow for any new spending or capital projects.

- The interim budget ordinance, which was prepared in accordance with North Carolina General Statute §159-16, reflects the estimated cost of providing existing programs and services during the month of July, with adjustments made to account for any large expenses, such as debt service payments, that typically occur during this time.
- The annual budget ordinance that staff prepares for Council consideration at its July 28, 2020 meeting will include full annual budgets at the fund level but only provide three months' worth of funding for each department, with the remaining budget being held in reserve in a non-departmental section of the budget.
- During this time, the City Manager's Office will engage the community in a process to determine investments in the Asheville Police Department, other City departments, and various community programs.
- At the City Council's September 22, 2020 meeting, the City Manager will present a budget amendment that will reflect input received during the public engagement effort and provide all departments with additional budget authority for the remainder of fiscal year 2020-21.

Council Goal(s):

- A Financially Resilient City

Pro(s):

- Ensures the City's compliance with North Carolina General Statutes that require local governments to adopt either a balanced annual budget ordinance or interim appropriations by July 1 of each year.
- Provides for adoption of the City's property tax rate within state statutory guidelines.
- Provides expenditure authorization for ongoing City services while staff reevaluate investments in the Asheville Police Department, other City departments, and various other community services.

Con(s):

- The City cannot begin any new programs or initiatives or new capital projects until after July 28, 2020.
- Staff will be required to bring a budget amendment to City Council in late September to fully fund General Fund departmental operations for the entire fiscal year.

Fiscal Impact:

- Interim appropriations for the time period from July 1 to July 31, 2020 are financed with appropriations from fund balance for all operating funds.
- The property tax rate will be adopted on July 28, 2020 with the FY 2020-21 Annual Budget Ordinance.

Ms. Whitehorn responded to Councilman Haynes when he asked about public engagement.

Twenty-five individuals spoke about cutting the Asheville Police Department's (APD) interim budget by 50%; defunding the APD; removal of the Vance Monument and renaming streets; prioritizing black community needs; soliciting input from the black community; abolishment of the APD; need for open forum for behavior of APD officers; request Mayor Manheimer and Police Chief Zack to resign; do not put mental health addiction coordinator or homeless outreach team in the APD but in the hands of experienced individuals who have been doing this work for years; reprogram organizations to overlook the safety of our community;

minimum requirements for APD officers are not enough for those who will hold weapons; people have already voiced their demands so no need for further public engagement; need to end racism policing; and raise firefighter pay from $12/hour.

Vice-Mayor Wisler moved to amend the FY 2020-21 Budget Calendar to (A) Reschedule the August 25, 2020, FY 2020-21 Annual Budget Ordinance Public Hearing to July 28, 2020; (2) Reschedule the September 8, 2020, FY 2020-21 Annual Budget Ordinance Adoption until July 28, 2020; and (3) Delete the September 8, 2020, FY 2020-21 Annual Budget Ordinance Adoption. This motion was seconded by Councilman Kapoor and carried unanimously by roll call vote.

Councilman Kapoor moved to adopt an ordinance approving interim budget appropriations from July 1, 2020 to July 31, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 - PAGE 89

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

At the request of Councilman Haynes, it was the consensus of Council to instruct City Attorney Branham to research information regarding the possibility of banning the use of tear gas by the Asheville Police Department under any circumstances and providing feedback at the July 14, 2020, meeting.

In response to Councilman Haynes, regarding an incident of open carry at protest events, City Attorney Branham said that this is a difficult distinction in North Carolina. We are an "open carry" state. Therefore, licensed firearms are permitted to be carried in public. However, two important limitations exist which may be applicable here. First is the statute cited by this person which prohibits having a firearm when you are "participating in..... a demonstration," or are "present as a participant" at the demonstration. At times, it can be very difficult to determine if someone is or is not participating in a protest, or if their presence is as a spectator. The second is that our local ordinance Sec. 12-42 prohibits having a firearm in a public park. We are not permitted to prohibit the same on public streets or sidewalks. However, the people here do seem to be close to Pack Square Park. This second provision is much less subjective than the first, and can be enforced much easier. Councilwoman Haynes said having the Police Officers witness this event and do nothing is unacceptable. Councilwoman Mayfield agreed with Councilman Haynes and felt that anytime there is a group of white people standing around with guns is a demonstration. It is a statement of their power and it divides our community.

Nineteen individuals spoke to Council on various items, including: demand of 50% of the Asheville Police Department's (APD) budget should be invested in long-term safety strategies including supporting Black startups/business, eliminating the racial opportunity gap in Asheville City Schools, and funding an all-civilian oversight committee with the power to hold the APD and individual officers accountable; defund the APD; hoped that not only with solicit public input but give the public some decision-making power; remove Vance monument and Robert E. Lee monument; rename Vance Elementary school; request for status of shrouding Vance Monument; defund and abolish the APD; hold police accountable; request for signs in parks that prohibits firearms in a public park; request Mayor Manheimer and Police Chief Zack to resign; ban chemical weapons against citizens; ban the use of bean bags as weapons; and support of remote Council meetings.

One caller supported the APD and the good programs that the APD provides to our youth.

Closed Session

At 9:01 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, specifically the handling or settlement of claims, including but not limited to the following matter: City of Asheville v. Carolina Riverside, LLC. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(4); and (2) To discuss matters relating to the location or expansion of industries or other businesses in the City of Asheville, including on a list of potential economic development incentives The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Councilman Kapoor carried unanimously by roll call vote.

At 9:21 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:21 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – July 14, 2020- 5:00 p.m.

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; live call in; and email.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 23, 2020

B. RESOLUTION NO. 20-124 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR THE FISCAL YEAR 2020-21 UTILITY CUT CONCRETE REPAIR PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Patton Construction Group, Inc. in the amount of $236,930 plus a 15% contingency of $35,539.50, for a total of $272,469.50 for the Fiscal Year (FY) 2020-21 Utility Cut Concrete Repair.

Background:

- The City of Asheville Public Works Streets Division administers the Street Cut Utility Program. This program is an enterprise fund that is supported by the participation of and work generated by partner agencies (Duke Energy, PSNC, City of Asheville Water Resources, and City of Asheville Stormwater Division).
- As part of this program, both city and external utilities partner with the Streets Division to make repairs to City-owned infrastructure that results from utility improvements and repairs. At times, these activities cut concrete infrastructure such as curbs and sidewalks. When this occurs, the Utility Cut Program must have a method to address these areas.
- This contract serves as an instrument to address the unpredictable nature of these cuts in the City infrastructure and eliminates the possibility of City employees being removed from the more routine scheduled maintenance of existing infrastructure. The quantity and location of the concrete repairs performed under this contract is dictated by development and repair work performed by the partner utilities. This is the eighth year that a private contractor has performed this service.
- The project was advertised on April 20, 2020 and the following bids were opened on May 7, 2020:

Patton Construction Group, Inc., Arden, NC	$236,930.00
Appalachian Paving and Concrete, Asheville, NC	$269.675.00
B.H. Graning Landscapes, Sylva, NC	$484,234.40

- Construction is anticipated to start in July 2020 and the contract is intended to last through the fiscal year.

Vendor Outreach Efforts:

- Staff performed outreach to minority- and women-owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- In addition, the Business Inclusion Manager posted the advertisement on the following Facebook pages: African American Business Association, CoThink, Local Black Business, Vendors, and Crafters, Black Business Network, WNC Women Entrepreneurs, The Color of Asheville, Latinos de Asheville y Hendersonville, and Asheville Area Black Businesses, Professionals, Entrepreneurs.
- No minority- or women-owned business enterprises submitted a bid to be the prime contractor on the project.

Council Goal(s):

- This action aligns with the 2036 City Council Vision in that it will make "getting around Asheville easy" (Transportation and Accessibility) and "maintain and improve the City's infrastructure" (Smart City).

Pro(s):

- Provides for the timely repair of concrete infrastructure that has been damaged by the installation of utilities.

Con(s):

- Repairs will cause temporary disruption to pedestrian and vehicular traffic.

Fiscal Impact:

- The Street Cut Utility Program is an enterprise fund that is funded by fees paid by the four partners participating in the program. The partners will be billed 100% of the repair cost, meaning that the City realizes full cost recovery. Funding for the contract is contingent upon Council approval of the FY 2020-21 budget on June 23, 2020. Funding for the contract is contingent upon Council approval of the FY 2020-21 budget on July 28, 2020.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Patton Construction Group, Inc. in the amount of $236,930.00 plus a 15% contingency of $35,539.50 for a total of $272,469.50, for the project known as FY 2021 Utility Cut Concrete Repair Contract

RESOLUTION BOOK NO. 41 - PAGE 378

C. RESOLUTION NO. 20-125 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE ASHEVILLE AREA ARTS COUNCIL TO CREATE A BLACK LIVES MATTER MURAL AROUND PACK SQUARE PLAZA

Action Requested: Consideration to authorize City Manager to enter into an Agreement with Asheville Area Arts Council to install Black Lives Matter mural at Pack Square Plaza.

Background:

- The City wishes to express itself in matters of public concern, including in matters of racial equity.
- The City has previously used Agreements with not for profit organizations as a method of creating temporary public artworks on the City's behalf.
- The Asheville Area Arts Council (AAAC) has raised the majority of funds needed to install and maintain a City-commissioned Black Lives Matter mural in Pack Square Plaza, and anticipates reaching their goal of $22,100 by the end of the month.
- No City funds are needed to complete the project. City fees will be waived because it is a City project.
- The Agreement would specify maintenance roles and requirements for the mural.
- The Agreement would be for no longer than one year and would include the right for the City to remove the mural at any time.
- AAAC proactively held a competitive process to procure the three lead artists for the project; all of those artists and the sixteen assistant artists creating the mural are African Americans.
- The mural would be installed at a date to be determined.

Council Goal(s):
- An Equitable and Diverse Community

Committee(s):
- None.

Pro(s):
- Contracting with this not for profit provides the City with ability to artistically express itself in matters of public concern, furthering Asheville's identity as a place built on creative culture and economies
- Contract results in the hiring of 19 African American artists.

Con(s):
- Some community members may not agree with the City's expression.

Fiscal Impact:
- The City will provide minimal services, such as providing and installing barricades, blocking parking meters as part of this project. The cost for the materials and artist stipend will be donated by the AAAC.

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into an Agreement with the Asheville Area Arts Council to create a temporary Black Lives Matter Mural at no cost to the City.

Councilwoman Smith spoke in support of installation of the Black Lives Matter Mural and thanked the artists who worked on this art. She thanked the Asheville Arts Council spearheading the project and raising funds. She hoped that we use this moment for Asheville's healing.

An Asheville resident felt this is a hollow, meaningless gesture.

In response to Mayor Manheimer, Councilwoman Smith said there will be a meeting later this week and a timeline will be forthcoming.

RESOLUTION BOOK NO. 41 - 379

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolutions on the Consent Agenda and they would not be read.

Councilwoman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT - 30/60/90 DAY PLAN

City Manager Campbell said that she will provide an update on the 30/60/90 day work plan in response to the Black Asheville Demands coalition requests.

She said over the next several months, as part of my Manager's report, she will be updating Council and the community on the 30/60/90 day work plan we developed in response to requests from the Black Asheville Demands coalition. The 30/60/90 day work plan is designed to provide a definitive schedule and outline to begin the work necessary to respond to requests from the coalition. Plan outlines and assigns duties, responsibilities, timelines for various groups including City departments, City Council and Advisory Committees.

Update on 30 days includes (1) Resolution to remove or repurpose monuments and shroud until a decision is reached by a Task Force (a) Resolution passed unanimously by City and County 6/9 and 6/19 respectively; (b) Monuments have been removed or shrouded; (c) City and County have received applications to be on the Task Force; and (d) Final decisions due in the next 30 days; and (2) Work with the community on the renaming of streets - process already in place to rename any city street (a) African American Heritage Commission met to discuss on July 9, 2020. The Commission's recommendation was to provide support on identifying names of historic local black leaders, but to not lead the engagement portion of this project; and (b) Public engagement process is being developed.

Update on 60 days includes (1) Continue partnering with Asheville City Schools and Buncombe County Schools to address Opportunity Gaps (a) Schedule meeting with Superintendent to discuss path forward for Equity Collaboration Initiative; and (b) Early August determine next steps for initiative; (2) Community conversations around budget to support transparency and needs (a) Developing community engagement process; (b) Meeting with key groups and individuals to test and further develop the proposed engagement process; (c) Plan to launch broader community engagement process in early August; and (d) Seeking input to determine how to provide services that advance social, economic and racial equality; and (3) Initiate conversations with the district attorney's office regarding the decision for Mr. Hickman; (a) City Attorney's office working with DA's office and Restorative Justice process related to probation process.

Update on 90 days includes (1) provide protocol, practices overview of assessment, plans and implementation by CIty government; and resources allocation data from the Equity and Inclusion Department on the City's Website (a) Requested and received clarification as to the request; (b) Assessing and documenting the role of the Office of Equity and Inclusion; (c) Determining amount of influence and impact of this department on decision making related to City policies, budgets, hiring practices, contracting, etc.; (2) Better understand and work through solutions for: (a) Creation of "Harm Free Zones" - Research to gain better understanding of what it is and legality; and (b) All Civilian Oversight Committee - Draft proposals completed and negotiations with PBA ongoing; (3) Utilizze best practices to recruit people of color (a) Work underway to review job descriptions and training requirements; and (3) Develop Race and Gender Conscious Policy in response to the disparity study as part of City contracting and

procurement (a) Proposed draft policy being developed; and (b) Committee review and then to full Council in September.

Moving forward (1) We have heard the community; (2) We want to respond and move forward together; (3) Racism is a systemic problem, bigger than police and the City cannot solve it alone and within 90 days; (4) The solutions need to be strategic and collaborative; and (5) We will engage with the public as well as County government, schools, health care providers, the private sector and other organizations to address social and economic disparities.

In response to Councilwoman Mayfield, City Manager Campbell said that we are also looking at the process to address renaming Pritchard Park. .

In response to Councilwoman Mayfield, City Manager Campbell spoke about how we are looking at policing and the budget. We will have a public hearing on a short interim budget on July 28 but it won't have any major shifts. Basically it is a procedural step to allow us to start the larger conversation we want to have with the community. After a three month robust conversation we will adopt a new budget that will hopefully get at some shifts in the budget for this year. There will be another conversation about how the process moves forward year after year for the longer plan.

In response to Councilman Haynes, City Manager Campbell said that the interim budget on July 28 will only be for three months and we will start with the baseline budget with no increases.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO SOLICIT COMMENTS FOR THE COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS ANNUAL ACTION PLAN FOR FISCAL YEAR 2020-21

Councilman Kapoor moved to continue the public hearing to solicit comments for the Community Development Block Grant and HOME Investment Partnership Act funds Annual Action Plan for Fiscal Year 2020-21 to July 28, 2020. This motion was seconded by Councilman Young and carried unanimously by roll call vote

B. PUBLIC HEARING TO CONSIDER REZONING PROPERTY LOCATED AT 99999 COURTLAND AVENUE, 99999 WOODSIDE PLACE, AND 99999 GUDGER STREET FROM URBAN VILLAGE TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to rezone property located at 99999 Courtland Avenue, 99999 Woodside Place, and 99999 Gudget Street, from Urban Village to RS-8 Residential Single-Family High Density District. This public hearing was advertised on July 3 and 10, 2020.

Action Requested: Rezone three properties from Urban Village (UV) to Residential Single-family, High Density (RS-8).

Background:

- The rezoning petition consists of three separate parcels with a combined area of approximately 0.40 acres located at 99999 Courtland Ave., 99999 Gudger St., and 99999 Woodside Pl. (PINs 9649-11-0689; 1622 & 0671) and are owned by Mahan Kalpa Khalsa Trust and 1031 Beckstrom LLC.

- The subject properties are 0.28, 0.06 and 0.06 acres respectively. The largest parcel is split-zoned but is predominantly zoned Urban Village (UV) with a very small portion zoned RS-8. The two smaller lots are both zoned UV in their entirety.
- The larger 0.28 acre parcel is located within the Montford Historic District. No changes to the Historic District overlay or the boundary is proposed. The Asheville Buncombe Historic Resources Commission granted preliminary subdivision plat approval earlier this year.
- The properties have frontage along, and are accessed from, Gudger St. and/or Woodside Pl.
- The properties were included in a large rezoning application from 2007 that included 51 lots totalling 9.89 acres that were intended to be combined for the purpose of executing a large, mixed-use development. The masterplan was approved but never implemented and has subsequently expired; however, the UV zoning designation remains in place.
- The UV zoning requires the approval of a master plan involving a minimum of five acres. Without a rezoning, the properties cannot be developed individually.
- The expiration of the former plan, combined with the condition of numerous individually owned parcels, reduces the likelihood that an urban village would ever be developed.
- The proposed RS-8 zoning would allow for the three properties to be recombined and redivided in a more efficient manner to allow for single-family residential development.
- The purpose of the UV zoning is to create a high-quality, mixed use development that contributes to the place-making character of the built environment and that is economically vital and pedestrian-oriented with an organized layout that encourages the full range of access by patrons and users. Without a master plan that meets these criteria, the UV zoning is ineffective.
- The purpose of the RS-8 zoning district is to establish a high density per acre for single-family dwellings where public infrastructure is sufficient to support such development and to stabilize and protect the district's residential character in areas of existing high density single-family development. The majority of the parcels directly adjacent or in proximity to the subject properties are zoned RS-8.
- The subject properties are located in and/or border the Montford Historic District which consists primarily of single-family residences. The properties to the north and south are zoned RS-8 and developed with single family homes; the property to the east is also zoned RS-8 and is developed with an Middle school (Montford North Star Academy) which is one of the few non-residential land uses supported in residential areas; the properties to the west are undeveloped and remain zoned UV. Schools and single family residences are generally regarded as compatible land uses and the proposed RS-8 single-family zoning would support new development that is consistent with the surrounding uses, as well as the historic district.

Council Goal(s):

- A well-planned & livable community

Committee(s):

- A preliminary subdivision plat was reviewed and approved by the Asheville Buncombe Historic Resources Commission on January 8, 2020.
- The Planning & Zoning Commission reviewed and approved the rezoning petition unanimously (6:0) on July 1, 2020.

Pro(s):

- Removes a zoning designation that does not allow small lot development.
- Assigns a designation consistent with the surrounding zoning and uses.
- Supports consistency with the Montford historic district's development pattern.
- Allows opportunity for infill housing in a locationally efficient area.

Con(s):

- None.

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that the Traditional Neighborhood future land use designation is assigned to more compact and walkable residential areas that provides a range of housing types at a moderate density (4-8 units/acre) with the RS-8 zoning district identified as an appropriate zoning found within Traditional Neighborhood areas.
- This rezoning supports opportunity for infill housing in a very walkable and strategically located neighborhood, thus aligning with key goals in the *Livable Built Environment* Plan section.

Fiscal Impact:

- None

When Vice-Mayor Wisler asked if the entire Urban Village area should be rezoned to RS-8, Ms. Tuch said that staff did discuss that; however, there are still some large parcels in that zone and someone may wish to come along and develop an urban village. In addition, RS-8 may not be appropriate on some of the borders. Since the City will be revising the Unified Development Ordinance, staff felt it would be best to wait until that review. If individual property owners wish to be rezoned, staff will look at them on a case by case basis.

Mr. Tikkun Gottschalk, attorney representing the owner , explained how they believe the rezoning of this property to Urban Village was an inadvertent error and urged Council to support the rezoning.

Mayor Manheimer opened the public hearing at 5:46 p.m.

An individual felt that it was inappropriate to be discussing rezoning of this property since years before it was part of urban renewal and at the end of this meeting, Council is asking for reparations to Black people.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Vice-Mayor Wisler moved to recess this item until July 28, 2020, at which time this public hearing will be voted. This motion was seconded by Councilman Kapoor and carried unanimously by roll call vote.

C. PUBLIC HEARING TO CONSIDER CONDITIONALLY REZONING PROPERTY LOCATED AT 61 INNOVATION DRIVE FROM COMMERCIAL INDUSTRIAL DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONE, ALONG WITH A CHANGE IN THE FUTURE LAND USE MAP FROM INDUSTRIAL/MANUFACTURING TO EMPLOYMENT/ANCHOR INSTITUTION CENTER

Vice-Mayor Wisler, moved to continue the public hearing to conditionally rezone property located at 61 Innovation Drive from Commercial Industrial District to Institutional District/Conditional zone, along with a change in the Future Land Use Map from Industrial/Manufacturing to Employment/Anchor Institutional Center to July 28, 2020. This motion was seconded by Councilman Young and carried unanimously by roll call vote

V. UNFINISHED BUSINESS:

A. **RESOLUTION NO. 20-127 - RESOLUTION AMENDING THE 2019-20 U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT ANNUAL ACTION PLAN TO ALLOCATION FUNDS TO HELP PREVENT, PREPARE FOR, AND RESPOND TO COVID-19**

Mayor Manheimer said that this public hearing was held on June 23, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

After receiving additional public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Young moved to adopt a resolution to approve the City's submittal to HUD for the proposed use of CDBG funds for COVID-19. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 - PAGE 381

VI. NEW BUSINESS:

A. **RESOLUTION DELEGATING AUTHORITY TO THE CITY ATTORNEY TO ENTER INTO A CONTRACT WITH HILLARD HEINTZE TO EVALUATE AND PROVIDE A REPORT ON THE ASHEVILLE POLICE DEPARTMENT RESPONSE TO THE RECENT PROTESTS**

City Attorney Branham said that this is consideration to authorize the City Attorney to contract with Hillard Heintze in an amount not to exceed $82,500 to conduct an evaluation of the Asheville Police Department (APD) response to the recent protests including a report to be provided to City Council.

Background:

- In late May and early June of 2020, the City of Asheville experienced several public protests relating to the enduring national problems of police brutality, institutional racism, and the unlawful and unjustified killing of George Floyd on May 25, 2020.
- The APD responded to these protests which included crowd control measures such as tear gas and the arrests of some protestors.
- By request, APD officers were assisted by other local police agencies as well as the National Guard.
- A City-wide curfew was established by Mayoral declaration from June 2nd - June 5th which restricted public protesting nightly after 8:00 pm, however many protesters ignored the curfew.
- The City has received numerous complaints regarding the operational response by ADP during the protests.
- The City Council determined that a thorough and transparent assessment of that response was necessary.

Council Goal(s):

- A Diverse Community
- A Well-Planned and Livable Community

Committee(s):
- Public Safety

Pro(s):
- This evaluation of the APD response will provide a competent, thorough, and independent assessment which will allow City Council and the public to better understand these events, as well as provide ADP with strategies for improvement if applicable.
- The resulting final report will be produced in a transparent and unbiased manner in order to bolster public trust in the process.

Con(s):
- The funds expended on this contract could be utilized elsewhere to address community concerns and budgetary shortfalls during the economic downtown created by the recent pandemic.

Fiscal Impact:
- For the month of July, the City is operating under an interim budget, which per § 159-16, only allows for appropriations for the purpose of paying salaries, debt service payments, and the usual ordinary expenses. Since this contract would not likely be considered a usual ordinary operating expense, full funding for the contract won't be available until adoption of the annual budget ordinance on July 28, 2020. The estimated total for services to be provided is between $66,000 and $72,000, excluding expenses. Additional contingency funds are included in the requested delegation of authority to account for final expenses. The contract will be funded from the Asheville Police Department Budget.

City Attorney Branham said that in a June 15, 2020, letter, the City Council unanimously directed me to provide a recommendation of an outside independent agency to conduct a thorough review of the ADP response to the recent protests in Asheville. Since that time, his office has conducted the search for a firm to perform this task. He is now prepared to recommend the firm of Hillard Heintz.

He said that as background, he would like to provide the Council with some information about Hillard Heintze (1) They are a Consultant and Assessment firm specializing in security risk management around the world; (2) Since its founding in 2004, they have provided consulting and evaluation services for corporate entities, individuals, and governments; (3) One of their areas of service expertise is providing assessments for Law Enforcement agencies (a) Specifically focusing on improving efficiency and effectiveness of the police force; (b) Strengthening management operations, as well as oversight; (c) Advancing Community-focused policing; (d) Enhancing the internal affairs function; and (e) Building a new platform of integrity to enhance community trust; (4) Through this work, they have conducted evaluations of numerous policies agencies around the Country; (5) The team that would conduct our evaluation consists of 4 Person Unit which includes: (a) A mix of law enforcement professionals and Attorneys with; (b) Extensive experience as Department Chiefs, criminal justice and civil rights legal practitioners, as well as professors of criminal and constitutional law; (c) They have experience in performing assessments and advising police departments in numerous cities such as Washington D.C., New Orleans, Louisiana, Chicago, as well as for police departments in Central and South America; (d) They have provided consulting services for the Dept. of Homeland Security, U.S. Customs and Border Protection, and the U.S. State Department; (e) They have facilitated numerous community dialogues regarding policing throughout the Country; (f) They bring experiences in civil rights mediation; and (g) They have also recently provided consulting services in North Carolina around the toppling of the Silent Sam Statue in Chapel Hill.

He said it is also important to note regarding the independence of this firm, that they have no prior relationship with the City of Asheville, APD, or any member of the command structure of APD.

He said that upon review of their credentials, research of past work, as well interviews with their assessment team, he felt that Hillard Heintze possesses the necessary competence, experience, and expertise to conduct a thorough, fair, independent, and unbiased evaluation of the APD response to the recent protests, and produce a meaningful and transparent report to presented to the Council.

City Attorney Branham then described what the evaluation process will look like (1) The assessment will review the APD response to the protests during the period of May 30 – June 6th, including the crowd control efforts such as the utilization of tear gas and other projectiles, and the destruction of supplies at the protester medic area; (2) As part of their process, and final report, they will provide the Council with an assessment on our policies and practices, in addition to a review of what occurred during the protests. This will serve as professional advice on, among other things, our use of Tear Gas; (3) This information could then be used as the basis to make policy or disciplinary decisions within the department; (4) This will be done in 3 phases: (a) Phase 1 (1-2 weeks) They will review of all relevant policies and procedures, reports, and operational plans, as well as conduct initial meetings with my office and other pertinent City representatives; (b) Phase 2 (3-6 weeks) They will conduct on site (or virtual) public engagement and analysis. This includes viewing body cam footage, site visits, individual interviews with members of APD, City staff, and members of the public, as well as conducting open forum(s) with the community; and (c) Phase 3 (7-9 weeks) Analyze all collected information and coordinate with my office to prepare a final report to be presented publicly to the Council. In total, the process will take 3-4 months, including a multi-day on-site visit for up to 4 personnel). Including preparation of the final report and presentation to the Council, the total cost is expected to be $82,550. Based upon the experience and expertise of the evaluation team, as well as the time and process involved, he believed this cost is well in line with the market rate of similar firms for this type of contract. Therefore, he recommended the firm of Hillard Heintz to conduct the analysis of the police response to the recent protests as requested by the Council.

In response to Councilman Haynes, City Attorney Branham said that the company will also look at whether or not the APD policies were followed regarding chemical and rubber munitions; and whether their actions or policies conform with modern day best practices for police services.

Councilman Haynes said that during the June 23 Council meeting, he asked for the use of banning tear gas to be on the July 28 agenda. However, due to a lack of support at this time, some members of Council desired to wait on findings of the evaluation before addressing the use of force methods deployed. But what can we expect to receive in these findings? They may conclude that some of the actions taken by the APD were inappropriate under the circumstances but they will most certainly conclude that no laws were broken. They will likely provide information showing these so-called non-lethal uses of force to be widely accepted methods of crowd control leaving it up to us, Council and the community to decide whether or not it was or is the right thing to do. While he sincerely hoped this evaluation spells out errors made and offers possible solutions through policy changes, it will not do our work for us. He asked that the appropriate steps are taken to authorize Council to view body cam footage from these protests. And since there can be no vote tonight on the banning of these weapons, He asked that the crowd control weapons deployed during these protests go to the Public Safety Committee to be addressed individually concerning their safety along with looking at possible alternatives and whether or not they should continue to be available to the Asheville Police Department.

Mayor Manheimer agreed with Councilman Haynes in that the majority of Council did not wish to put the tear gas item on the agenda tonight as they would like to hear the results of the consultant's review before proceeding.

Councilwoman Smith moved to authorize the City Attorney to execute the contract with Hillard Heintze to perform an evaluation of the Asheville Police Department response to the recent protests and to prepare a final assessment to be presented to the City Council during a public meeting. This motion was seconded by Councilman Young.

Twenty-six individuals spoke against spending over $80,000 on consultants for various reasons, some being, but are not limited to: there is already evidence from videos, body cams and witnesses so a report is not necessary; let the existing Citizens-Police Advisory Committee perform the investigation; the make-up of the firm is largely white people; funds for the consultant should be paid for out of the APD budget; modern policing standards are part of the problem; this money could be spent on addressing Black Lives Matter demands; this investigation seems like a delay tactic; defund the APD by 50%; if the right questions are not asked for the firm's scope, then we won't get the right answers; and the study should also involve the Blue Lives Matter protest.

One individual supported the firm examining the behaviors of the APD.

Mayor Manheimer said that after the protests, the City Manager put forward a review of the APD conduct during the protests; however, City Council felt a more objective review was necessary and asked the City Attorney's Office to find a firm that can provide a more transparent and unbiased report. Unfortunately, the price of the firm was not known but she doubted a much different price could be found due to the pricing of consultants. After listening to the comments, she felt there is an interest in a different approach.

Councilman Haynes, who at one time supported the outside review. said that he no longer supports this third-party review, but would support a local evaluation. He felt there will be inaction for at least four months. If the contract is approved, he asked that the study be extended to cover actions of APD at the Blue Lives Matter protest as well.

Councilwoman Smith said that initially at the Public Safety Committee, the Committee wanted to look into some of the actions from a policy and procedural perspective. Then City Manager Campbell volunteered to take the matter in their own hands and conduct an investigation. There was some concern about the best method to go about an investigation of the APD and that is how the decision was made to ask the City Attorney's Office to provide a recommendation of an outside independent agency to conduct a thorough review of the ADP response to the protests. Since hearing the cost and the public comment, she withdrew her motion to approve the contract and would support a motion to table.

Mayor Manheimer asked the Public Safety Committee to look at this issue in conjunction with the City Attorney's Office that can look at policies and procedures.

Councilman Kapoor was very supportive of the idea that City Council take responsibility and oversee this investigation. As an elected body, we have a duty to look at this in an objective way and if Council is not satisfied with the regulations, they have the ability to change them. He felt the full Council should review and be a part of the investigation, not just receive a recommendation from the Public Safety Committee to the full Council. He did support a third-party review because they have the expertise on what people do in that field. He felt that City Council won't sit quietly for a whitewash report, and that we need professional help on if what was done was justified.

Vice-Mayor Wisler felt that City Council does not have the expertise to know what the APD did was legal or not. She felt it would be good to have people who have the expertise and knowledge of what other policing organizations across the country are doing to give us recommendations. She suggested we re-look at the scope and ask for recommendations regarding policies and procedures going forward.

Councilwoman Mayfield was supportive of moving this item to the Public Safety Committee and to make a recommendation to the full Council about the process. She agreed with Councilman Kapoor that the responsibility for this study ultimately rests with City Council. After the Public Safety Committee's recommendation on process, she wanted to be a part of the next steps. Their recommendation could include if we need an in-house study or a consultant along with the specific questions we want addressed, i.e., what other communities use for control who do not use tear gas. She was concerned about the study being done in-house because it's the people who did the wrong studying whether they did the wrong. She didn't think the people would trust the in-house study. If we have a third-party study, then you have outside people coming in with an objective mind and lens looking at what the APD did. City Council has a history of getting reports and making changes, and she would expect the same thing out of this study.

In response to Councilwoman Mayfield, City Attorney Branham said that the unit assigned to this study from the consultant firm consists of a four person team, two of which are people of color. He said the contract will be funded from the Asheville Police Department Budget.

Councilwoman Smith moved to table this matter and asked that the Public Safety Committee provide a recommendation to Council concerning the process, noting that all of Council was welcome to provide their input into that recommendation. This motion was seconded by Councilwoman Mayfield and carried on a 6-1 roll call vote, with Councilman Kapoor voting "no."

City Attorney Branham advised that the motion to table or to defer consideration takes it off City Council's agenda for up to 100 days. At the end of 100 days the action will expire. City Council can bring the action back up again anytime within the 100 days.

B. RESOLUTION NO. 20-128 - RESOLUTION SUPPORTING COMMUNITY REPARATIONS FOR BLACK ASHEVILLE

Councilman Young said "In this moment, we have a lot of issues to deal with that affect all citizens. Moreover, the death of George Floyd has been a catalyst to the nation's largest civil rights movement - a movement that is supported by Black Americans but also by white allies of the Black community. Allies that I am thankful for and allies that I deeply appreciate. Nonetheless this is a movement that largely describes the treatment of Blacks in America for a sustained period of time. The blood capital that we have banked to spend today to fight for significant change came predominantly not from our allies but from Black men, women and children who died to get to this very moment, generation so to speak. Hundreds of years of Black blood spilled that basically fills the cups we drink from today. And so, when it pertains to policy that involves largely the lives of Black residents of the City of Asheville, I am a Black man with a Black family and anything that we do, in my mind, has to outlive the emotions of this present moment. Because the future success of my own children and our current and future society depends on the sustained success of the systemic changes that we seek. And not just the budgetary priorities in the moment. Albeit it's important as well. We can multitask, but to say it bluntly, this is our moment, these are our lives and this is our capital. I cannot speak for everyone else, but when I help craft policy that will affect the majority of our City's Black residents, I can truly say my heart and my head are literally in the game. And I look at my own children as my north star, my guiding light for success because their lives and their peers' lives depend on it. My dedication to those children, my children, truly drives my personal need to be successful with a policy such as

this. To those folks who are out there listening and watching, I want folks to understand that we will not be the last Council or City staff to see these policies through. It is my mission to help make, what I believe, the American dream tenable for basically all of our citizens. And, with that said, I want to say that there is this concept that is the American dream that we all have equal opportunity to generate the kind of wealth that brings meaning to the words "live, liberty and the pursuit of happiness." Even though Black Americans, we've been denied that. So, it's simply not enough to remove statutes. Black people in this country are dealing with issues that are systemic in nature and it may feel good to some to see a symbol of oppression fall, such as a Confederate monument, to join the rallying cry to defund the police (to that I say power to the people); however, the same stemics that allowed statues to go up and the disparities in police to continue are the very same systemics that recyclie itself generation after generation after generation and still remain regardless of this Council or its financial allocations. So, the days of incremental change, I believe, have left us. And, in the now we require what I believe is to be institutional change to move forward. That is why the creation of generational wealth within our Black community is important. It will sustain families for future generations and is the key to the proverbial American dream. And as far as the other systemic institutional change, institutional change is exactly what we should be seeking. And we are seeking. Not incrementalism or gestures of allie-ship. We need to be made whole. And I've said it before. In areas of health care, education, employment, criminal justice, business ownership, home ownership, overall equity, and as I've mentioned before generational wealth. And I don't want, I'm speaking for me now personally, I don't want to be made whole though one singular action or shuffling of money that another elected body can change at a drop of a dime. I want generations to be made whole for systematic action. The same systemic actions that got us here and have produced policy that outlived many dead politicians and generations of dead Black Americans. That is what we need to focus on. This resolution will ground us deeply and prepare the community to move forward on this promise that we are going to speak about tonight , regardless of what Council, regardless of what City Manager and regardless of what staff will be here. We want to be grounded so this necessary work will be sustained and anything less than systemic change is just feel good politics in the moment period."

Councilwoman Smith said "I think the first step towards rectifying any societal problem is to acknowledge that there is an action problem in the first place. So, in my mind, this resolution is the first step in that it names that list of historic wrongs that have been perpetuated against the Black community up until this very day. A lot of feedback that we have gotten so far by email is that, why should we pay for that happened during slavery. And my pushback against that is that reparations is more than restitution for what happened during the TransAtlantic Slave Trade. It is a dark evil sin of child slavery that is the root of all injustice and inequity at work in American life today. So it is institution that serves as the starting point for the building of strong economic floor for white America while attempting to keep Blacks forever subordinate to its progress. I wish our educational system would have done a greater job at revealing the origins and the lasting impacts of the many dimensions of racism so that accepting these truths early on in life and building empathy so that we can have an even analysis of what injustice in America was like for Black people, it will make a United States more possible. So, this resolution goes a long way in articulating that. I appreciate the resolution and that is why I am dedicating my yes vote tonight to honor my elders, both past and present. I would like to see the latter part of the resolution, be it therefore resolved, the solution part of the document, to show that these are not just flowery words on paper. This will mean that any report generated by a commission, or anyone tasks within the Asheville City staff will come back with tangible programs that have real line item monetary resources attached to them. And this means fully funding our transit system and affordable housing, but also mapping out our assets - the City assets, while looking at other municipalities who are doing a great job of coming up with innovative ways to address these generational wealth gap in Black communities. And I trust that what will come out of this, the direction of this resolution, will bring us back some shovel-ready projects and some fully funded programs that actually deal with things like the discriminatory use of eminent domain. It hurt us.

It hurt us deeply. And with that being said, I want to read something that was gathered some years ago that impacted my life when I returned to Asheville. It is a publication by the North Carolina Humanities Council. This was written by Priscilla Ndiaye. She's also a member of the Southside Community, like I am, a member of the Southside Community and this kind of quantifies what was lost, just in the south side, what we call the South. 'In the East Riverside area, said by the late Reverend Wesley Grant, we lost 1100 homes, 6 beauty parlors, 5 barber shops, 5 filling stations, 14 grocery stores, 3 laundromats, 8 apartment houses, 7 churches, 3 shoe shops, 2 cabinet shops, 2 auto body shops, 1 hotel, 5 funeral homes, 1 hospital and 3 doctor offices.' It's been said that what happened with urban renewal in this City, not slavery, but urban renewal, in this City came up to about over 400 acres of desimated homes and businesses and this urban renewal project locally was the largest in the southeastern part of the United States. This is what impacts me day to day. This is what still impacts this community. Anybody who goes throughout this community and you interact with Black people both young and old, this is felt. We feel it. Not only in our bodies in the way we interact and psychologically. So, we took a pause a couple weeks ago on our budget adoption to have some real conversations and these conversations would generate how we increase equity in this community. So, I want to say to the professional staffing here, at the City of Asheville, that we need to bring a red pen to the table to actually circle expenditures and to really show how they directly relate to the stated goals in this resolution."

Vice-Mayor Wisler said "Asheville, through this resolution, really has shown leadership. I was excited to see that the State of California just also is going to study reparations and I just hope that we will be just that little spark that will really get this conversation not only going in Asheville, but in North Carolina and across the country. I'm looking forward to voting for this resolution."

Councilman Kapoor said "he wanted to direct these comments to those of you who may be skeptical about what we are trying to do here tonight. I want to go to what Councilwoman Smith talked about in the beginning of her comments which was the recognition that we have a problem here in the City of Asheville. That is clear here. And regardless of whether or not you want to use the term 'reparations' or otherwise, the data is clear that we have significant disparities in this City. You can look at the numbers that are put out by the State of Black Asheville. You can look at the racial equity gap, if you will, in the School District. If you look at those datas, the issue there is one of race. Personally I don't think we can shy away from that. I think it's critically important for a city like Asheville to look at that. Because that doesn't benefit anyone to have a significant equity gap in this city. It holds us back. It holds us back as community members and holds us back into what the city can do. So, I think whether you want to call it 'reparations' or whatever you want to call it, I think significant investment in the Black community is absolutely warranted. It is warranted not just from the perspective of the moral, having Councilman Young and Councilwoman Smith have eloquently talked about here, but again for those of you who are skeptical, think about it from the practical perspective as well. We don't want our city held back by these gaps. And if the moral or human isn't enough to sway you, I hope thinking about this and thinking about what Councilman Young talked about, the American dream, we want everyone to be successful in Asheville. We absolutely want to do that. And, we need to invest in all our communities here, but in particular we need to understand the disparity that we have here in our community now. And we need to rectify those to the extent we can. And that is why I'm absolutely supportive of what Council is doing tonight with this resolution."

Councilwoman Mayfield said "this is an amazing moment. It's sobering and somber and incredibly exciting and also incredibly way overdue. This resolution, you know, it doesn't fix everything. I think I've heard some criticism that it's just vague and where is it going to actually get us. It is just the first step. As Sheneika said, it is the first step, but we have to take this first step if we are to begin to undue the centuries of wrongs that have been perpetrated on our Black neighbors and communities. The challenge for us and work going forward is to do exactly what

Keith called for - which is for us to really intentionally address the policies, the programs, the funding, the systems that have landed us where we are right now, which is a place of great disparity. And to really address the obstacles that have kept Black and Brown communities from being successful in all the ways that their white counterparts are - the rest of us are. I hope you will create new policies, programs, funding structure systems that will replace the ones that we have now and really go a long way in repairing the damage that has happened and that continues today. It's not in the past. It continues today. And Keith is right, this is not just about the budget, but the budget is the big stick that we carry. And we heard a lot in the past, and I've heard a lot since I've been on Council, that budgets are moral documents. And, I think that is true. We need to do a lot. I don't know how we're going to do it but we need to do a lot and we need to shift a lot of where we are spending to make it the moral document it needs to be to create the systematic change that we are trying to accomplish. It will not happen overnight and we cannot do this alone. I hope people have noted that the resolution is aimed not just at the City, at the County, at standalone institutions in our community - we all bear the responsibility, the burden of having created it and we all bear the responsibility of needing to fix it. And that is everything from the largest corporation that is based here to the smallest organization. We all have a role. And I really do want us to think big. We need to be thinking very differently about how we do thing going forward - what we fund. Two particular things that I have found myself saying this a lot since I've been on Council. Well we don't fund education and we don't do health. That's the County - go talk to the County. Well, the County ain't doing everything that needs doing. And if that means that the City needs to step up and we need to start funding and investing in schools, we need to start investing in our healthcare system and accessibility to health care and making particular investments in women, our children and our families, then that's what we need to do. Now sadly I won't be around for most of this. I am time limited and I have months. But I will be a partner with the City and with Council and with staff in this work going forward. Wherever I am, I will be a partner and hopefully I will be in a position to be having some of these same conversations at a very different level of government that also needs to happen. I pledge that I will endeavor to lead this conversation in those forums."

Councilman Haynes said "first I would like to thank Councilman Young for taking the lead in bringing this resolution to Council. And secondly, acknowledge that while this resolution provides a great opportunity to begin reparations it is only the first step and will require the continued support of this and future councils to move towards fruition. I would also like to point out that this can directly tie into the call for defunding the APD. It seems only fitting that an institution that has historically brought so much harm to Black people could and should provide through a 50% reduction in their budget and much needed resources to begin the reparation process."

Mayor Manheimer said "I too want to thank Councilman Young for bringing this forward and I want to thank all of you for your thoughtful comments tonight, and for your bravery in moving forward on this. We are in this together sometimes in the sense that we receive a lot of comments from the public that everyone else doesn't see, mostly via email, and this is unfortunately still a divisive topic, although more momentum is growing around it, I think in Asheville, in North Carolina and throughout our nation. But reading some of the comments we received from folks that don't support a resolution like this, I imagine it must be extremely painful to read those comments, so I want to compliment you on your bravery to move this forward. This is not for the faint of heart to try to work on. Tough topics like this. So thank you all so much. And I want to thank the community. While we did receive some comments from folks that don't support it and in particular folks that don't live in Asheville that wanted to tell us they don't support it. We did receive a lot of support from folks right here in Asheville and that helped so much when you are trying to do something that is hard to do and somewhat controversial. To hear that outpouring of support. So thank you to the community for those of you who have already chimed in and made it clear that this is something you support. And the Racial Justice Coalition for working with Councilwoman Young to bring this forward. So thank you for your work."

Each Council member read a portion of the following resolution: "WHEREAS, Black People have been unjustly Enslaved; and WHEREAS, Black People have been unjustly Segregated; and WHEREAS, Black people have been unjustly Incarcerated; and WHEREAS, Black People have been denied housing through racist practices in the private realty market, including redlining, steering, blockbusting, denial of mortgages, and gentrification; and WHEREAS, Black People have been denied housing, displaced and inadequately housed by government housing policies that include discriminatory VA/FHA practices, Urban Renewal, and a variety of local and federal "affordable" housing programs; and WHEREAS, Black People have been consistently and widely impoverished by discriminatory wages paid in every sector of the local economy regardless of credentials and experience; and WHEREAS, Black People have experienced disproportionate unemployment rates and reduced opportunities to fully participate in the local job market; and WHEREAS, Black People have been systematically excluded from historic and present private economic development and community investments and, therefore, black-owned businesses have not received the benefits of these investments; and WHEREAS, Black people have been segregated from mainstream education and within present day school programs that include AG, AP, and Honors; and WHEREAS, Black students have experienced the denial of education through admission, retention and graduation rates of every level of education in WNC and through discriminatory disciplinary practices; and WHEREAS, Black People historically and presently receive inadequate, if not detrimental, health care as exemplified by disproportionate morbidities and mortality rates that result from the generational trauma of systemic racism, discriminatory treatment by medical professionals, and discriminatory medical practices such as involuntary sterilizations, denial of adequate testing, denial of preventative and curative procedures; and WHEREAS, Black People have been unjustly targeted by law enforcement and criminal justice procedures, incarcerated at disproportionate rates and subsequently excluded from full participation in the benefits of citizenship that include voting, employment, housing and health care; and WHEREAS, Black People have disproportionately been forced to reside in, adjacent to, or near Brown Zones and other toxic sites that negatively impact their health and property; and WHEREAS, Black People have disproportionately been limited to the confined routes of travel provided by public transportation; and WHEREAS, Black People have disproportionately suffered from the isolation of food deserts and childcare deserts; WHEREAS, systemic racism was created over centuries and will take time to dismantle; WHEREAS, state and federal governments have a responsibility to adopt programs, policies, and funding to address reparations; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The City Council of the CIty of Asheville: (1) apologizes and makes amends for its participation in and sanctioning of the Enslavement of Black People; (2) apologizes and makes amends for its enforcement of segregation and its accompanying discriminatory practices; (3) apologizes and makes amends for carrying out an urban renewal program that destroyed multiple, successful black communities; (4) calls on other organizations and institutions in Asheville that have advanced and benefitted from racial inequity to join the city in its apologies and invites them to address racism within their own structures and programs and to work with the city to more comprehensively address systemic racism; (5) calls on the State of North Carolina and the federal government to initiate policymaking and provide funding for reparations at the state and national levels; (6) directs the City Manager to establish a process within the next year to develop short, medium and long term recommendations to specifically address the creation of generational wealth and to boost economic mobility and opportunity in the black community; (7) fully supports its equity department, staff and its work, and encourages the city manager to utilize their talents when forming policy and programs that will establish the creation of generational wealth and address reparations due in the black community as mentioned above; (8) seeks to establish within the next year, a new commission empowered to make short, medium and long term recommendations that will make significant progress toward repairing the damage caused by public and private systemic Racism. Other local government community organizations may also be invited to have representation on the Commission.The task of the Community Reparations

Commission is to issue a report in a timely manner for consideration by the City and other participating community groups for incorporation into their respective short and long term priorities and plans. Accountability for achieving equity will be enforced in the appropriate offices. The report and the resulting budgetary and programmatic priorities may include but not be limited to increasing minority homeownership and access to other affordable housing, increasing minority business ownership and career opportunities, strategies to grow equity and generational wealth, closing the gaps in health care, education, employment and pay, neighborhood safety and fairness within criminal justice; (9) calls on the city manager to give, at minimum, a bi-annual update to the city council on the progress of work performed pursuant to this resolution."

Councilwoman Mayfield hoped we can create the commission in a different way and involve the community more to identify the people to serve on it.

Nineteen individuals spoke in support of the resolution and spoke to Council on various items, including, but not limited to: demanding 50% of the Asheville Police Department's (APD) budget be invested in long-term safety strategies including supporting Black startups/business, eliminating the racial opportunity gap in Asheville City Schools; defund the APD; remove Vance monument; abolish the APD; request Mayor Manheimer; ban excessive use of force and chemical weapons against citizens; and provide a comprehensive plan for reparations.

Three individuals spoke in opposition to the resolution as they were not responsible for things that happened 200 years ago.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved for the adoption of Resolution No. 20-128. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 382

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Eighteen individuals spoke to Council on various items, including, but not limited to: support the resolution supporting community reparations for Black Asheville; demanding 50% of the Asheville Police Department's (APD) budget be redirected to the Black community; defund the APD; remove Vance monument; abolish the APD; don't hire the consultant firm to study the actions of the APD during the protests; remove police presence from schools and hospitals; request Mayor Manheimer and Police Chief Zack to resign; ban excessive use of force and chemical weapons against citizens; need for budget transparency; City is running the black communities out; rename streets named after former slave owners and replace those names with the names of historic local black leaders; opening up the City is harming the residents; and pay volunteers for their work on committees.

Mayor Manheimer announced that the July 28, 2020, City Council formal meeting will be held in-person at Harrah's Cherokee Center-Asheville with social distancing measures. Public comment will include written emails along with pre-recorded comments.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 10:08 p.m.

Magdalena Burleson
CITY CLERK

Edna E M
MAYOR

Tuesday – July 28, 2020- 5:00 p.m.

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; email; and advanced live sign-ins.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RESOLUTION NO. 20-126 - RESOLUTION OF APPRECIATION TO VIJAY KAPOOR

Mayor Manheimer read the resolution.

Resolution No. 20-126 was adopted by acclamation.

On behalf of City Council, Mayor Manheimer thanked Councilman Kapoor for his service to Asheville.

RESOLUTION BOOK NO. 41 - PAGE 380

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 14, 2020

B. RESOLUTION NO. 20-129 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MB HAYNES CORPORATION DBA HAYNES SOLAR FOR THE INSTALLATION OF ONSITE SOLAR PHOTOVOLTAIC SYSTEMS AT FIVE CITY FACILITIES

Action Requested: Adoption of resolution authorizing the City Manager to execute a contract with MB HAYNES Corporation DBA HAYNES Solar in the amount of $788,835 for the Aggregated Solar Projects; and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $78,884 (10%).

Background:

- On September 24, 2019, City Council approved an interlocal agreement with Buncombe County in Resolution 19-214 to conduct feasibility site assessments and issue a joint solicitation for onsite renewable energy systems.
- This project was a joint venture between the City, Buncombe County, AB Tech, Asheville City Schools, and Buncombe County Schools, and will result in the installation of 7 MW of solar energy at 46 sites.

- The objective of this partnership with Buncombe County is to lead by example and prioritize highly visible sites as well as demonstrate fiscal responsibility through economies of scale.
- This project will see the installation of a combined total of 259 kW of solar photovoltaic energy on five (5) City-owned facilities:
    - Burton Street Community Center
    - Linwood Crump Shiloh Community Center
    - Fire Station #10
    - Fire Station #11
    - Wall Street Parking Deck
- On April 8, 2020, Buncombe County advertised the project. The County received and opened bids on June 19, 2020. The names, bid amounts, and all alternates of the six (6) bids that were submitted are listed below:

MB HAYNES Corporation DBA HAYNES Solar, Asheville, NC	$ 788,835
Eagle Solar and Light, Birmingham, AL	$ 810,036
Influent Energy, Kansas City, MO	$ 901,429
Helios Energy, Fairview, TN Note (1)	$ -
8M Solar, Cary, NC Note (2)	$ 676,116
Pine Gate Renewables, Asheville, NC	$ 999,786

Note(1): The Helios Energy bid was determined to be non-responsive, and could not be accepted per County policy and general statutes. Their bid was non-responsive because the bid documents required a Bid Bond. Helios Energy did not include a bid bond and therefore could not be opened.

Note(2): The 8M Solar bid was disqualified due to a violation of specific instructions given in the bid solicitation by contacting a contractor of the project to request information on the bid specifications.

- MB HAYNES Corporation DBA HAYNES Solar was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- County staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. No MWBE firms submitted bids with this prime contractor and all work will be self performed by the prime contractor.

Council Goal(s):

- A Clean and Healthy Environment

Committee(s):

- Buncombe County Commission - July 21, 2020 - Approved debt service in the amount of $10.3 million for solar installations at Buncombe County, AB Tech, Asheville City Schools, and Buncombe County Schools.

Pro(s):

- Demonstrates visible and measurable progress towards the 100% renewable energy goal (Resolution 18-279) by offsetting 3% of building energy use with solar generated electricity
- Supports the 80% carbon reduction goal (Resolution 11-77) by avoiding an estimated 320 metric tons of carbon annually

- The City potentially will receive over $300,000 in rebates from Duke Energy Progress (pending availability)
- The City will save approximately $30,000 in avoided electricity costs annually

Con(s):

- This project is being paid with funds from the Green Savings Account and will deplete most of the current account balance.

Fiscal Impact:

- The full budget for this project, including the contract and other associated costs, is estimated to be $956,181 and is included in the FY 2020-21 Annual Budget Ordinance in the General Capital Projects Fund. Funding for the project will come from the Green Savings Account. Renewable Energy projects identified through this process, and their savings, will be reported to the Budget Division annually.

Motion:

- Motion to authorize the City Manager to execute a contract with MB Haynes Corporation DBA Haynes Solar in the amount of $788,835, for the Aggregated Solar Projects; further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $78,884 (10%).

Councilwoman Mayfield was pleased that the City is continuing it's renewable energy initiatives.

RESOLUTION BOOK NO. 41 - PAGE 385

C. RESOLUTION NO. 20-130 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE TO ACCEPT A DONATION OF LAND FROM RIVERLINK INC. LOCATED ON GASH FARM ROAD

Action Requested: Adoption of a resolution authorizing the City Manager to accept land donation on Gash Farm Road from Riverlink.

Background:

- The City was approached by the Land Resources Manager of Riverlink with an offer to donate a 0.10 acre lot at the corner of Gash Farm Road and Azalea Road. The lot is improved with a gravel drive, trees and shrubs.
- The Real Estate Division consulted other City departments to determine whether or not the City would benefit from accepting this property.
- The Public Works Department indicated that the land could be used to improve the safety at that intersection and recommended that the City accept the donation. The intersection at Gash Farm and Azalea Road is difficult to navigate because it is at such a sharp angle. A mirror was installed recently by Transportation Department staff at that intersection to increase visibility.
- The lot size is smaller than the minimum size requirements per RS-2 (Residential Single-Family Low Density) zoning and is too small to be considered buildable. It appears that using the property for traffic safety improvements is the best use.
- This triangular shaped parcel has a tax assessed value of $900.00 and under Riverlink's ownership, the property does not contribute to City tax revenues.

Council Goal(s):

- A Well Planned and Livable Community

Committee(s):
- None

Pro(s):
- This land could be used to improve a traffic intersection, thereby increasing public safety.
- The land is being donated at no cost to the City.

Con(s):
- None.

Fiscal Impact:
- The donation of the land comes at no cost to the City. However, the cost of the improvements to the road is estimated to be approximately $250,000. These improvements are not budgeted at this time but Public Works wants the land to plan for future road improvements.

Motion:
- Motion to approve the resolution authorizing the City Manager to accept this donation of land.

RESOLUTION BOOK NO. 41 - PAGE 386

D. RESOLUTION NO. 20-131 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A TRAFFIC REVIEW AND INSPECTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION (NCDOT) FOR THE NCDOT TO PERFORM DESIGN REVIEW AND INSPECTION OF THE ADDITION OF PEDESTRIAN PHASING AT THE SIGNALIZED INTERSECTION ALONG NC 280 (AIRPORT ROAD) AND WALMART/CAROLINA FURNITURE CONCEPTS

Action Requested: Adoption of a resolution authorizing the City Manager to enter into and execute a traffic - review and inspection agreement with the N.C. Dept. of Transportation (NCDOT) for the NCDOT to perform design review and inspection of the addition of pedestrian phasing at the signalized intersection of NC 280 (Airport Road) and Walmart / Carolina Furniture Concepts and to submit payment in the amount of $5,000 upon partial execution of the agreement by the City.

Background:
- The City has plans to construct a new sidewalk along NC 280 (Airport Road) from US 25 (Hendersonville Road) to the western end of Wal-Mart through the bond program.
- This sidewalk will tie into an existing sidewalk recently constructed by the NCDOT.
- The project includes pedestrian phasing and crosswalks at four signalized intersections (A traffic - review and inspection agreement with the NCDOT for three of the signalized intersections was approved on July 23, 2019 via Resolution # 19-173).
- The subject action is needed because NCDOT recently installed a fourth signalized intersection within the project limits.
- The City has prepared the appropriate designs to add pedestrian phasing and will be furnishing and installing the equipment and crosswalks.
- The NCDOT will review the designs and inspect the work during the construction phase.

Council Goal(s):

- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- A new section of sidewalk will be constructed that will provide an important pedestrian connection between Hendersonville Road and the airport.
- The pedestrian experience will be enhanced through signalized intersections with pedestrian phasing and crosswalks.
- The NCDOT will own and control the traffic signal (and associated equipment) and maintenance will be accomplished according to their current policies and procedures.

Con(s):
- None

Fiscal Impact:
- The financial impact is estimated to be $5,000 and the City must submit payment upon partial execution of the agreement by the City. The funds are already included in the bond program budget.

Motion:
- Motion to authorize the City Manager to enter into and execute a traffic - review and inspection agreement with the NCDOT for the NCDOT to perform design review and inspection of the addition of pedestrian phasing at the signalized intersection of NC 280 (Airport Road) and Walmart / Carolina Furniture Concepts and to submit payment in the amount of $5,000 upon partial execution of the agreement by the City.

RESOLUTION BOOK NO. 41 - PAGE 387

E. **RESOLUTION NO. 20-132 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN EXTENSION OF THE CONTRACTS WITH HOMEWARD BOUND OF WESTERN NORTH CAROLINA, RED ROOF INN, INC. AND AXIS SECURITY TO SUSTAIN OPERATIONS OF A MOTEL-BASED NON-CONGREGATE SHELTER FOR PERSONS EXPERIENCING UNSHELTERED HOMELESSNESS DURING THE COVID-19 PANDEMIC**

Action(s) Requested: Authorization for City Manager's execution of contract extensions with Red Roof Inn, Inc., Homeward Bound of Western North Carolina, and Axis Security.

Background:
- On May 12, 2020, Council ratified the City Manager's execution of agreements with Red Roof Inn, Inc., Homeward Bound of Western North Carolina, and Axis Security for operations of a COVID-19 motel-based non-congregate emergency homeless shelter for persons experiencing unsheltered homelessness and at significant risk of contracting COVID-19 because of age and/or underlying chronic health concerns.
- Sixty-four (64) people (couples, families occupying some rooms) are currently in shelter and will continue to achieve the public health objective of prevention of COVID-19 among the community's unsheltered homeless population.
- The incidence of confirmed COVID-19 cases continues to rise, posing ongoing risk to people experiencing homelessness.
- To avoid any lapse in service to this population, it is necessary to execute the contract amendments prior to August 8th to continue the agreements.
- A transitional exit strategy for those in the shelter is currently being planned.

- The existing agreements with the vendors allow for extensions to continue operations but additional funding is necessary.
- The additional budget needed for these contracts is included in a separate budget amendment agenda item that is also on Council's July 28th agenda.

Council Goal(s):
- A Diverse Community
- A Well-Planned and Livable Community
- Fiscally Resilient City

Committee(s):
- None

Pro(s):
- Continues the successful operation of the existing expanded COVID-19 homeless shelter.
- Allows for additional time to effect housing placement for shelter occupants.
- Addresses public health and safety.
- Non-congregate motel shelter, essential operations, and security costs are eligible for FEMA reimbursement.

Con(s):
- None.

Fiscal Impact:
- The additional contract funding requested as part of this Council action includes: $150,000 for Homeward Bound to operate the shelter and $366,048 for Red Roof Inn (includes allocation for month 3 of existing operations).
- The full budget for shelter operations through November 8, 2020, including expenses incurred while at the Harrah's Cherokee Center (HCCA), is $1.6 million.

Motion(s):
- Motion to adopt a resolution to authorize the City Manager's execution of new services contracts with Homeward Bound of Western North Carolina, Red Roof Inn incorporated, and Axis Security for shelter rooms, essential operations, and security for up to 90 additional days commencing on August 8, 2020.

RESOLUTION BOOK NO. 41 - PAGE 388

F. **ORDINANCE NO. 4814 - BUDGET AMENDMENT TO ESTABLISH A BUDGET IN THE CITY'S SPECIAL REVENUE FUND BEGINNING IN FISCAL YEAR 2019-20 BUDGET FOR THE FUNDING THAT THE CITY HAS RECEIVED FROM BUNCOMBE COUNTY AS PART OF THE STATE'S CORONAVIRUS RELIEF FUND**

ORDINANCE NO. 4815 - BUDGET AMENDMENT TO ESTABLISH A BUDGET IN THE CITY'S SPECIAL REVENUE FUND BEGINNING IN FISCAL YEAR 2019-20 FOR EXPENSES AND REVENUES RELATED TO THE CITY'S COVID-19 SHELTER OPERATIONS

Action Requested: Adoption of: 1) A budget amendment in the amount of $943,771 to establish a budget in the City's Special Revenue Fund beginning in fiscal year 2019-20 for the funding that the City has received from Buncombe County as part of the State's Coronavirus Relief Fund

(CRF); and 2) A budget amendment in the amount of $1.6 million to establish a budget in the City's Special Revenue Fund beginning in fiscal year 2019-20 for expenses and revenues related to the City's COVID-19 Shelter Operations.

Background:

- The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) is a $2 trillion economic stimulus bill passed by Congress and signed into law in March 2020 in response to the economic downturn caused by the COVID-19 pandemic.
- The State of North Carolina received $7.6 billion from the CARES Act, and on May 4, 2020 North Carolina Governor Roy Cooper signed session law 2020-4 which appropriated $150 million from this funding to NC counties via the Coronavirus Relief Fund (CRF).
- Buncombe County received an allocation of approximately $4.5 million from the CRF and shared a portion of this funding with other governments in the county based on the local sales tax distribution formula.
- Under this formula, the City of Asheville received $943,771 in funding.
- City staff has identified FY 2019-20 COVID-19 related expenses that are eligible for reimbursement under federal and state guidelines and have submitted these expenses to Buncombe County for reimbursement.
- The NC Pandemic Recovery Office (NCPRO) has provided guidance regarding reporting requirements related to CRF funds which indicate that all CRF funding should be budgeted and accounted for in a special revenue fund.
- To be in compliance with this guidance, staff is recommending City Council approve a budget amendment in the amount of $943,771 to establish a budget for the City's CRF funding in the Special Revenue Fund.
- In addition, in April of 2020, the City began operating an emergency homeless shelter for persons experiencing unsheltered homelessness and at significant risk of contracting COVID-19 because of age and/or underlying chronic health concerns.
- Since operation of the shelter began, the City has been utilizing existing budget authorization within the Affordable Housing Project in the City's General Capital Projects Fund.
- Funding to offset the shelter expenses will be coming from a mix of special revenue sources, including federal grant reimbursements and private donations; therefore a budget needs to be established in the City's Special Revenue Fund to account for the shelter operations.

Council Goal(s):

- A Financially Resilient City

Pro(s):

- Ensures the City is in compliance with accounting and reporting requirements recommended by the State of North Carolina.

Con(s):

- None.

Fiscal Impact:

- There is no overall fiscal impact with the CRF budget amendment since the expenses already occurred in FY 2019-20. The amendment will simply allow staff to consolidate all expenses in a single project in the City's Special Revenue Fund.
- For the Shelter Operations budget amendment, staff is including sufficient budget authorization for expenses already incurred as well for anticipated expenses through November 8, 2020. All expenses associated with the Shelter Operations are expected to be offset with revenue from the federal and state government and private donations.

Motion:

- Motion to adopt: 1) A budget amendment in the amount of $943,771 to establish a budget in the City's Special Revenue Fund beginning in fiscal year 2019-20 for the funding that the City has received from Buncombe County as part of the State's Coronavirus Relief Fund (CRF); and 2) A budget amendment in the amount of $1.6 million to establish a budget in the City's Special Revenue Fund beginning in fiscal year 2019-20 for expenses and revenues related to the City's COVID-19 Shelter Operations.

ORDINANCE NO. 4815- ORDINANCE BOOK NO. 22 - PAGE 93

G. RESOLUTION NO. 20-133 - RESOLUTION APPOINTING MEMBERS TO THE VANCE MONUMENT TASK FORCE

Summary: On June 9, 2020, by Resolution No. 20-116, City Council adopted a joint resolution with the Buncombe County Board of Commissioners to appoint a joint task force consisting of not more than 12 members whose appointments will be made in equal numbers by the two governing boards. The task force shall, within three months of all appointments being made, provide a report to the City Council and County Commissioners with a recommendation regarding the removal and/or repurposing of the Vance Monument. Once the report is presented, the task force shall perform such other duties as requested by the governing bodies. When no further action is requested, the task force shall dissolve.

The following individuals applied for a City seat: Savannah Michelle Gibson, Dave Perkins, Curry First, James Greene, Richard E. Nantelle III, Ron Laboray, Elias Varn, Robert Stetson, David R. Hillier, Jessie Landl, Lawrence Gilliam, Ben Scales, Auburn Petty, Pepi Acebo, George Sieburg, Steven C. Rasmussen, David E. Bendel, Colgate Darden, Mark Mickey, Daniel Smith, Josh Carroll, William Scott Whitley, Ann Brown, David Taylor, Jim Samsel, Philip Hawkins, Kelsey Buckner, Ryan Sweeney, Christopher Keiser-Liontree, S. Antanette Mosley, Jim Tebay, Tisha Dickson, Alicia D. Nichols, Leslie McCullough Casse, Cecilia Smith, Edwin Williamson, Charlie Muehl, Hanna Zahory, Shirley Walker Whitesides, Floyd Dupree, Takira Rose, Evan Richardson, Dennis R. Campbell, Will Hall, Robbie Sweetser, Amy Gerald, Edie Weichert, Jennifer Borrell Bayer, Eleanor Ivy Campbell, Craig Armstrong, Courtley Garcia, Tim Keenan, Melanie B. Arrowood, Christopher "Kipper" Schauer, Chip Howell, George Stevens Jr., Joseph Shuler, Peggy Gardner, Laura Linneman, Michael Wiezman, John W. Ellis, Bernard V. Oliphant, Aryel Vance, Grady Wilson, David Avigdor, Joshua Clark, Roger Dean Sharpe, Fred Northup, Peter Billingsley, Lara Diblasio, Kate Pett, Julia Dorn, Lyndsey Crumbley, Pearson Ripley, Emily Dresback, Edward Martin, Gary Zahler, John T. Schlotterbeck, Dena Rappaport, William McBee, John Vigeland, James C. Drake, Rachel Dudasik, Robert F. Wilson, Betty Lawrence, Sharon Fahrer, Karen Marie Foster, Deborah Miles, Mary Monaghan, Vanessa Nowik, Jake Farrar, Harold Littleton, Mort Stein, Oralene Simmons, Carleton Collins, Marc Mullinax, Carol M. Anders, David Gwaltney, Michael McDonough, Samuel Lee Quick Jr., Andrew Fletcher, Natalie Kramer-Shaw, Noel Nickle, Kelly Prime, Ken Richards and Lary Holt.

Mayor Manheimer explained the process used by City Council to arrive at these appointments. City Council was sent all applications and they in turn rated their top eight choices - with the two lowest ranking individuals being alternates. After tallying, Antanette Mosley, Deborah Miles, Bernard Oliphant, Savannah Gibson, Oralene Simmons, and Shirley Whitesides were appointed as City appointments to the Vance Monument Task Force; and Lawrence Gilliam and Ben Scales being alternates.

Mr. Ben Spencer was unhappy that City Council revised their meeting options to make people call in advance to have live call in. He also questioned how the rules of decorum were adopted by City Council.

Ms. Ashley Cooper was pleased to see money toward solar initiatives and shelter operations but hoped to see funds moving into the Black community. And, she hoped that on any land issues there is strong attention on how it fits into reparations.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously by roll call vote.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT - 30/60/90 DAY WORK PLAN

City Manager Campbell explained her presentation overview: (1) Over the next several months, as part of my Manager's report, I will update Council and the community on our 30/60/90 Day Work Plan; (2) The 30/60/90 Day Work Plan was developed in response to numerous requests from the Black Asheville Demands coalition to address specific racial and economic justice issues; (3) The Work Plan allows staff to prioritize and track the work; and (4) Tonight will specifically focus the update on the request to Defund the Police by 50% or to "*Divest resources from the APDs' budget and Invest in long-term safety strategies.*"

The following is the defund/divest/invest strategy: (1) Hear concerns that current service delivery models especially related to law enforcement and policing do more harm than good especially in Black, Indigenous and Latinx communities; (2) Current approaches of "over policing" seem to criminalize and victimize Black, Indigenous and Latinx communities; (3) Goal is to make communities feel safer not with additional law enforcement but with holistic health, economic, educational and other human services that nourish and stabilize people in their communities; (4) City staff supports the Divest and Invest Strategy; (5) Racism is a systemic problem, bigger than police and the City cannot solve alone and within 90 days; (6) The response needs to be strategic, attainable and collaborative; (7) Next steps will be to determine how we Reimagine Public Safety in Asheville; and (8) Work with the community to define roles and responsibilities of Police and other City Departments and community partners.

Reimaging public safety in Asheville's goal is to determine how the City of Asheville structures department responsibilities and community partnerships in a way that promotes racial equity and economic inclusion.

The following is the public engagement process: (1) Step 1 (complete): Get feedback on an approach from key focus groups (a) Three meetings-Facilitators; Internal staff; and Community representatives.

She thanked the following focus group participants. Their input was invaluable and revealing: Dee Williams, Jackie Latek, Carmen Ramos Kennedy, Rob Thomas, Amy Cantrell, Darlene Azarmi, Libby Kyles, Tara Irby, Brandon Mays, Dionne Greenlee, Cheri Torres, Michelle Smith, Tim Splain, Cortina Caldwell, Daniel Suber, Michael Hayes, Sgt. Joshua Veridal, Jessica Johnston, Tameka Crudup, Jakob Klodt, Sgt. Diana Loveland, Dana Frankel, Rosanna Mulcahy, Treva Williams, Brandon Buckner, and Matthew Pride.

They learned from the focus group participants (1) Community trust in City government has been eroded and may be difficult to regain; (2) City is good at stretching processes out indefinitely with little or no tangible results; (3) Meet people where they are which may mean people will want to share their encounters with APD before they are ready to talk about how to improve relations; (4) Need to have authentic conversations about types of change that's really possible; figure out what's broken and commit to making changes; (5) Use paid community facilitators for these discussions; (6) Make a special effort to hear from most impacted populations, Blacks, Indigenous, and Latinx; (7) Communicate information about services APD and City currently provide; (8) Do more than just divest in APD's budget, invest in a way that reflects community priorities; (9) Balance need for people to have input and using what they have already told us (information that has already been shared with us); (10) Convene smaller groups so people have optimum opportunities for genuine input; and (11) Use lots of mediums for input, questionnaires, blogs, face to face meetings, etc.

She said Step 2: Host Community Meetings will consist of (1) Community facilitators to lead the process; and (2) Meetings from mid-August to mid-September to: (a) Make sure we understand the problem we are trying to solve; (b) Provide context so we can make smart decisions regarding divesting and investing public safety resources; and (c) Begin to make strategic organizational and budgetary changes.

Themes for community discussions include (1) Share services provided now by the City, especially APD. **Community Feedback will be (1)** Do you feel safe in your community, if so why and if not why not?; (2) What do you think is needed to help you feel safer in your community?; (3) Of these things, which do you think should be done by APD?; (4) What things should be done by other agencies or organizations?; and (5) What other types of investments are needed in your community to improve your and others quality of life?

She said Step 3; Report, Recommendations and Implementation will consist of (1) Regular Updates on Community Engagement; (2) Develop Preliminary Recommendations for Divesting/Investing (Aug. - Sept. 22); and (3) Implementation of Divesting/Investing Strategies (Sept. 22 and on-going).

Councilman Kapoor and Vice-Mayor Wisler felt that there should be research into what duties state law requires police officers to perform.

In response to Councilwoman Mayfield, City Manager Campbell said that the police will not be in the room when conversations with the community are happening; however, they will be data gathering. They will also be asked about duties they are presently performing but are not trained for, duties that drain their resources, etc.. Ms. Campbell said that the focus will be on the role of the City as an organization. She believed this effort sets a good foundation for the concept of reparations.

Councilman Young appreciated the intentionality in wanting to engage in this complex issue and looked forward to moving the process through with the help of the community.

Councilwoman Mayfield said that City Manager Campbell has laid out a process to get to the place where we can shift money and resources from the police to other community partners and possibly other City departments. She explained that there is no major shift in the budget presented but that will come after the process the City Manager has outlined. She also understood the frustration that people are expressing about the pace of change. We can't undo the system quickly. Cutting the Police Department's budget by 50% or banning tear gas isn't going to change the culture of policing. We must have a thoughtful analysis and planning before that we make lasting changes. We are in this moment of great change and everyone on Council

embraces that change and wants to move forward.

Mayor Manheimer said that we would like to explore the concept of changing how we are doing policing and taking away some duties that might be appropriate in other ways with perhaps other partnerships. But, you need more than two months to bring on other people who can provide those services. The process the City Manager is proposing is something of a road map of what we are going to do and how to get there with hopefully some timelines. The key ingredient is being transparent so the public can engage and understand how the process works.

B. CITY COUNCIL VACANCY ANTICIPATED TIMELINE

Mayor Manheimer said that Councilman Vijay Kapoor is moving out of state with his family and has resigned from his Council seat, effective August 2020. The appointed individual will serve the remainder of the vacant term, ending in December, 2022. Eligible candidates must be a resident of the City of Asheville and registered to vote in the City of Asheville. The anticipated timeline will be: August 3 - advertising announcement, application process opened; August 20 - deadline for applications & supplemental information at Noon; August 25 - Council to determine how many and who to interview; September 8 - interviews to be held during the day and appointment to be made at the formal Council meeting; and September 22 - new Council member sworn in.

City Attorney Branham said that state law provides a specific procedure for filling a Council vacancy but the state law is somewhat complex when compared with our local charter. In order to fully determine the proper process for filing the vacant seat, additional legal research was performed and election law experts consulted. As a result, it has been determined that the City's charter does not allow for a special election in these circumstances. In addition, the timing of a resignation of a Council Member in the City of Asheville has no effect on the process for appointing a replacement. Even though the State statutes lay out a different process based upon the timing of the vacancy, the City's charter makes no such distinction. In cases where conflicts of this nature exist between the State statute and a city's charter, the city charter supersedes state law. The Asheville City Charter, Section 7 states: ***"Any vacancy in the office of mayor or council shall be filled by the council for the remainder of the unexpired term from the qualified electors of the City of Asheville."*** North Carolina General Statute 160A-3 states in part: ***"..... in case of conflict or inconsistency between the two procedures, the charter procedure shall control."*** Pursuant to these laws, Asheville City Council is required to appoint a successor for the vacant Council seat, and that individual will serve the remainder of the unexpired term. The timing of the vacancy has no effect on this legal requirement. Therefore, the City's charter precludes any special election, regardless of when the Council vacancy occurs. He has spoken with some election law experts and the local Chair of the Buncombe County Board of Elections and all have confirmed the same understanding.

In response to Vice-Mayor Wisler who said the General Counsel for the State Board of Elections says that the City may be able to choose to follow the Charter to the General Statutes, City Attorney Branham said that she is referring the same statute; however, she is reading from a different provision (subsection a). However, he, and election law experts, feel that the applicable provision (subsection b) is the statute that is applicable.

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4816 - ORDINANCE TO REZONE PROPERTY LOCATED AT 99999 COURTLAND AVENUE, 99999 WOODSIDE PLACE, AND 99999 GUDGER STREET FROM URBAN VILLAGE TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Mayor Manheimer said that this public hearing was held on July 14, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the rezoning request from Urban Village (UV) to Residential Single-family, High Density (RS-8) thereby assigning a zoning designation that is more compatible with the surrounding properties and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the rezoning will, 1) assign a zoning designation that is consistent with the future land use designation; 2) allow opportunity for compatible infill development, and 3) support the development of housing in a locationally efficient area. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 – PAGE 94

V. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING AT 137 BROAD STREET FROM COMMUNITY BUSINESS I TO COMMUNITY BUSINESS I/CONDITIONAL ZONE TO INCLUDE AN ADJACENT PARCEL FOR THE CONSTRUCTION OF A NEW MIXED-USE BUILDING

Principal Planner Shannon Tuch said that this is the consideration of an amendment to a previously approved conditional zoning at 137 Broad Street from Community Business I to Community Business I/Conditional Zone to include an adjacent parcel for the construction of a new mixed-use building. This public hearing was advertised on April 3 and 10, 2020. On April 14, 2020, City Council continued the public hearing until May 12, 2020. On May 12, 2020, City Council continued the public hearing until May 26, 2020. On May 26, 2020, City Council continued the public hearing until this date.

Action Requested: Amend a previously approved conditional zoning to adjust an interior lot line and include development on an adjacent parcel, currently zoned CB-I (Community Business I) and CBI-CZ (Community Business I - Conditional Zone) to CB I-CZ (Community Business I - Conditional Zone)

Project Location and Contacts:

- The project site consists of two parcels located at 135 and 137 Broad Street (PINs 9649-53-7557 and 9649.53-8527)
- Owner / Petitioner: Broad Properties LLC; Contact: Michael Derrig

Summary of Petition:

- The proposal is for a new mixed-use structure containing four residential units above office space and structured parking on the ground level on the property located at 137 Broad Street in the Chestnut Hills neighborhood.
- There is an existing mixed-use building on the adjacent parcel, 135 Broad Street, that was approved in 2015 under conditional zoning ordinance number 4381 and is under the

same ownership.

- This two-story building has commercial (office) space on the ground level and three residential units above with surface parking behind the building.
- A right-of-way between the two properties was closed as a part of the development process.
- This application proposes to shift the internal lot line, resulting in the request being evaluated as an amendment to the previous ordinance to reflect that change and include the new development proposed.
- The development parcel is currently zoned CB-I, which allows a mix of uses and up to 40 dwelling units per acre when at least 20 percent of the dwelling units are designated affordable (or up to 20 dwelling units per acre with no affordable housing). The applicant is proposing four units (equals 40 units per acre), one of which will be designated as affordable.
- The four residential units are efficiency and one-bedroom configurations, ranging between approximately 460 to 600 square feet in size.
- The three-story structure does not exceed 40 feet in height per the UDO definition (48 feet to the peak of the roof) and contains approximately 2,200 square feet of office space on the second floor.
- The plan shows utilizing a 14-foot wide shared driveway between the two properties to provide access to the seven proposed parking spaces structured under the building at 137 and to the six surface spaces existing behind 135 Broad Street.
- Due to the proximity to downtown and per Section 7-11-2(c)(4) of the UDO, there is no off-street parking requirement for the residential units; the parking proposed meets the requirement for the office use.
- The sidewalk will be rebuilt to match the existing six foot, back-of-curb configuration that is in place along Broad Street (*which requires a condition as this is not the City's standard).*
- Minimal landscaping is required for this project with just two street trees and parking deck screening required. Open space is not required due to the small size of the lot.
- The development parcel falls within the Charlotte Street Transition Overlay District (Section 7-9-10 of the UDO) which has specific design standards; the project appears to have the ability to comply with the applicable standards such as roof pitch, materials (brick and stucco) and residential-styled forms.
- The project includes the following conditions (and as otherwise noted in the B.1 Conditions):
    - The applicant has offered to dedicate 25% of the residential units (one unit) as affordable at 80% area median income (AMI) for a period of 10 years.
    - There will be shared access following the driveway as shown on plans.
    - The sidewalk will follow the existing development pattern of six foot back-of-curb.
    - The parking spaces will be allowed to be used by the residential units during off-business hours.

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that the development site is within the area designated as Traditional Corridor in the Future Land Use map, which anticipates a mix of uses at a variety of scales.
- Increasing the housing supply, especially in a walkable and transit-supportive location is a primary goal of the Resilient Economy section of the plan.
- Additionally, the inclusion of affordable housing is a goal of the plan in multiple areas.

Other Plan Considerations:

- The 2020 Bowen Regional Housing Needs Assessment notes that there is a very low vacancy rate in "non-conventional rental housing" (meaning four or less units within one building) resulting in a high demand for the type of housing proposed in this project; the

need for housing for individuals and seniors seeking small units is projected to have the largest growth.
- The updated assessment still notes a high need for very affordable housing but also indicates a high need for moderate market rate housing, especially in these unit sizes.

Compatibility Analysis:
- The proposal for a mixed-use building is aligned with the existing zoning and other uses along the Charlotte Street corridor where there are both residential and commercial uses in a variety of structures in terms of height and massing and complies with applicable design standards in the Charlotte Street Overlay.
- Additionally, the Charlotte Street Road Diet and Spot Safety Improvement project is currently under construction with the goal of improving mobility and access to multiple modes of transportation.
- Parking is provided on-site for the office use and is visually integrated into the structure rather than a surface lot. The applicant agreed to a condition that will allow for residential use of the parking spaces during off-business hours.
- Because of the proximity to downtown, no off-street parking is technically required for residential uses in this location, however, the proposal does increase the residential density by 300% in an area that has higher densities already which can result in a greater demand for limited on-street parking.
- The proposed structure would be taller than any nearby building but at three stories and 40 feet (per UDO height definition), it will be within the height allowed in all surrounding zoning districts.

Council Goal(s):
- A Well-Planned and Livable Community
- Quality Affordable Housing

Committee(s):
- Technical Review Committee (TRC) - February 3, 2020 - approved with conditions
- Planning & Zoning Commission - March 4, 2020 - recommended approval (6-0)

Staff Recommendation:
- Staff recommends approval of this project and finds that the mixed use development and higher residential density is compatible with the goals of the zoning district and the Living Asheville Comprehensive Plan in numerous ways as noted in the report.
- The small size of the residential units is aligned with needs identified in the most recent Bowen report and the offer of an affordable unit is a benefit for the needs of the community.

Mayor Manheimer opened the public hearing at 6:27 p.m.

Ms. Ruth Smith was opposed to this conditional zoning as it will affect property values and increase traffic.

Ms. Ashley Cooper and Mr. Ben Spencer felt that the City Council should think about reparations when making their decisions of new expansions or changes to neighborhoods.

Ms. Kate Fisher, resident on Madison Avenue, said the same developer built 135 Broad was conditioned to put in residential units; however, they have not been rented. She asked that this project, if approved, be conditioned that the developer must rent the residential units.

Mr. Mike Derrig, representing the owner, said that the developer will lease parking spaces to minimize any parking impact on the site. The building size and use of mixed-use is what the zoning ordinance allows.

In response to Councilwoman Mayfield, City Attorney Branham said that with regard to zoning, the City is allowed to place zoning restrictions on the use of property, but not to control the ownership of the property. City Council can only preclude them from using the residential portion for commercial use but we force people to live in the residential portion.

In response to Councilwoman Mayfield, Ms. Tuch said to the best of her knowledge, the City ever owned this parcel of land. She also noted that the Planning & Zoning Commission has scheduled at their September meeting some conversation regarding what does a reparation lens look like in terms of land rezonings, etc..

Mr. Derrig said that the owner of 135 Broad Street finished the interior of the residential units in January and had planned to show and rent those as furnished apartments. However, the pandemic started and the issue of showing the units was put on hold. The owner does plan to rent them as soon as he is comfortable in having the units shown.

In accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilman Kapoor moved to recess this item until July 30, 2020, at which time this public hearing will be voted. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

B. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OPEN SPACE REQUIREMENTS

Councilman Young moved to continue the public hearing to amend the Unified Development Ordinance to update open space standards until August 25, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously by a roll call vote.

C. PUBLIC HEARING TO SOLICIT COMMENTS FOR THE COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS ANNUAL ACTION PLAN FOR FISCAL YEAR 2020-21

Community Development Director Paul D'Angelo said that this is the consideration of a resolution authorizing submission of the Community Development Block Grant and HOME Investment Partnership Act funds Annual Action Plan for Fiscal Year 2020-21 to the U.S. Dept. of Housing & Urban Development. This public hearing was advertised on May 29 and June 5, 2020.

Action Requested: Authorization from the City Manager to submit the 2020-21 Annual Action Plan for Community Development Block Grants (CDBG) and the HOME Investment Partnerships Program (HOME) programs to the U.S. Department of Housing and Urban Development (HUD) and to sign all documents necessary to implement the plan.

Background:

- The City will have approximately $1,121,092 in CDBG funds and $1,378,014 in HOME funds available for the fiscal year beginning July 1, 2020. Community Development Staff, in coordination with the Housing & Community Development (HCD) Committee, has made recommendations for the use of CDBG funds, which must be used in housing &

community development programs within the City of Asheville. Partner Agencies & Programs that will be assisted, if approved -

- CARING for Children-Trinity Place Runaway and Homeless Youth Shelter
- Helpmate, Inc-Emergency Shelter for Domestic Violence Survivors
- Homeward Bound of Western North Carolina-AHOPE Coordinated Entry
- OnTrack Financial Education & Counseling-Financial Capabilities Program
- YWCA of Asheville and Western North Carolina-Empowerment Child Care
- Pisgah Legal Services-Homelessness Prevention Project
- Homeward Bound-Housing Services
- Asheville Area Habitat for Humanity-Home Repair-Low Income Homeowners
- Mountain Housing Opportunity - Emergency Home Repair
- Mountain BizWorks-Opportunity Asheville
- Carolina Small Business Development Fund-Opportunity Asheville
- Eagle Market Streets Development Corporation IDA for Small Business
- The SPARC Foundation-Changing Together

- The Asheville Regional Housing Consortium Board has recommended uses for HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties). Partner Agencies & Programs and Builds that will be assisted, if approved -
  - Community Housing Coalition Madison County-Rural Rehabilitation
  - Workforce Homestead-Falling Waters
  - WDT Development-The Villas at Swannanoa
  - WDT Development-White Pine Villas
  - Housing Authority of the City of Asheville-TBRA Resident Mobility
  - Homeward Bound of Western North Carolina-TBRA Asheville
  - Homeward Bound of Western North Carolina-TBRA Buncombe
  - Eliada Homes-Homeless Services Program
- Funds are awarded based on HUD CDBG & HOME guidelines as well as the Priorities listed in the City's 5 Year Consolidated Plan. A new 5 Year Consolidated Plan, that will include this 20/21 Action Plan, is expected to come before Council on August 28, 2020, for approval.

Council Goal(s):

- A Diverse Community
- Quality Affordable Housing
- Thriving Local Economy

Committee(s):

- Asheville Regional Housing Consortium Board - May 26, 2020
- Housing & Community Development Committee - July 21, 2020

Pro(s):

- Approval of the Annual Action Plan paves the way for HUD funding to be utilized by partners in the City of Asheville and the region, with funds to be used to create affordable housing, jobs and impact in our moderate and lower income communities.

Con(s):

- It is not possible to fund all of the applications received, and many agencies funded will receive less than the amounts requested.

Fiscal Impact:

- The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income.
- Staff costs to administer the program are also fully paid from federal sources.

- The funded programs will provide new construction and other economic activity in the City and the region, creating and sustaining employment and impacting moderate and low income communities.

Mayor Manheimer opened the public hearing at 6:59 p.m.

Ms. Kim Roney spoke in support of these allocations.

In accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilwoman Mayfield moved to recess this item until July 30, 2020, at which time this public hearing will be voted. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

D. PUBLIC HEARING TO CONSIDER CONDITIONALLY REZONING PROPERTY LOCATED AT 61 INNOVATION DRIVE FROM COMMERCIAL INDUSTRIAL DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONE, ALONG WITH A CHANGE IN THE FUTURE LAND USE MAP FROM INDUSTRIAL/MANUFACTURING TO EMPLOYMENT/ANCHOR INSTITUTION CENTER

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to conditionally rezone property located at 61 Innovation Drive from Commercial Industrial District to Institutional District/Conditional Zone, along with a change in the Future Land Use Map from Industrial/Manufacturing to Employment/Anchor Institution Center. This public hearing was advertised on July 3 and 10, 2020.

Project Location and Contacts:

- The project site consists of a single parcel located at 61 Innovation Drive (PIN 9627-01-2917)
- Owner / Petitioner: Franklin School of Innovation; Contact: Bryan Moffitt

Summary of Petition:

- The site is currently the location of the Franklin School of Innovation, which has been constructed in phases beginning with a Level I in 2015 (15-09144) and most recently reviewed and permitted as a Level II project in 2018 (18-01129 PZ).
- The third and final phase of construction is anticipated to be completed by 2025 and will total approximately 78,000 square feet of permanent building space, 140 parking spaces, and other facilities common to schools.
- The primary purpose of the conditional zoning request is to change the zoning classification in order to allow the use of temporary, factory fabricated classroom buildings on the subject site beyond the five year limit per Section 7-14-2(e)1 of the UDO (Unified Development Ordinance).
- Landscaping compliance was reviewed during the 2018 Level II review and included street trees along Sardis Road, parking lot landscaping and building impact landscaping as shown on plans. 2.17 acres of open space is provided on the site, exceeding the 15% requirement for the zoning district. Eight street trees were required and were initially provided; however, two trees were removed by Duke Energy for utility conflict as part of the widening of Sardis Road.
- Through this conditional zoning, the project is seeking a modification from the following zoning requirements (and further detailed in the exhibit B.1 conditions):
    - Temporary factory fabricated school buildings will be permitted on the site.
    - Six street trees (rather than eight as required) will be maintained in the location

as shown on plans, behind the sidewalk approximately 20 feet from the street and outside of the utility easement.

- The applicant will voluntarily provide a greenway easement along the Hominy Creek at the rear of the site to help meet city adopted goals and plans (also detailed in the exhibit B.1 conditions).

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that the project provides sidewalks along Sardis Road as well as commits to the future greenway along the rear of the site, directly adding to goals throughout the Livable Built Environment section of the Plan to increase walkability and multi-modal transportation options.
- Supporting schools and educational institutions is highly recommended throughout the Plan, notably in the Resilient Economy section. Linking schools to greenways is specifically highlighted in several sections of the Plan.
- While the request does necessitate a change to the Future Land Use Map as it is currently categorized as Industrial / Manufacturing, the Preferred Growth Scenario Map identifies areas for the the Employment / Anchor Institution use in the Candler area, not far from this site, and it is the category that is most appropriate for a large parcel with an educational use.
- Additionally, the underlying Commercial Industrial (CI) zoning is stated as an appropriate zoning district for the Employment / Anchor Institution category (pp. 342-3).

Compatibility Analysis:

- Commercial Industrial zoning is adjacent on both sides and parcels across Sardis Road are zoned Industrial, however there are a variety of uses in the vicinity including commercial uses along Sardis Road and multi-family residential in multiple directions as well. The Enka Intermediate School (Buncombe County) is less than a mile away from this site. The nature of the area is mixed between residential, commercial and industrial. The school use was allowed in the underlying zoning and is considered to be compatible with the surrounding uses.

Council Goal(s):

- Equitable and Diverse Community
- A Well-Planned and Livable Community
- A Clean and Healthy Environment

Committee(s):

- Technical Review Committee (TRC) - June 15, 2020 - approved with conditions
- Planning & Zoning Commission - July 1, 2020 - recommended approval (7-0)

Staff Recommendation:

- Staff recommends approval of this request with the conditions and finds that the use of temporary buildings until full build-out is able to be achieved is acceptable.

Mayor Manheimer opened the public hearing at 7:09 p.m., and received no comments.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilman Kapoor moved to recess this item until July 30, 2020, at which time this public hearing will be voted. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

E. PUBLIC HEARING REGARDING THE FISCAL YEAR 2020-21 BUDGET

Assistant Finance Director Tony McDowell said that this is the public hearing on the City of Asheville Fiscal Year 2020-21 Annual Operating Budget and inclusion of public input in City Council's consideration of the budget. This public hearing was advertised on July 17, 2020.

Background:

- The Fiscal Year (FY) 2020-21 Proposed Annual Operating Budget was presented to City Council on May 26, 2020. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 29, 2020.
- Following presentation of the FY 2020-21 Proposed Budget, the City decided that adopting an interim budget would allow time to plan a public engagement process around reallocating resources to address equity, social disparity, and policing concerns voiced by the community.
- At its June 23, 2020, meeting, City Council adopted a one month interim budget pursuant to North Carolina General Statute §159-16, and the Public Hearing originally scheduled for June 9, 2020 was rescheduled for July 28, 2020. A notice for the second Public Hearing was published on July 17, 2020.
- Per NC General Statutes, the City cannot adopt the annual property tax rate with an interim budget. The property tax rate can only be adopted as part of the annual budget ordinance and must be adopted by August 1.
- The annual budget ordinance that staff has prepared for Council consideration includes adoption of the annual property tax rate and full annual budgets at the fund level. The Proposed Budget is balanced with an ad valorem tax rate of $0.4289 per $100 of assessed value, which is unchanged from the current rate.
- Per Council's direction, each General and Enterprise Fund operating department will only receive funding in its budget for operations through the end of September with the remaining budget being held in reserve in a non-departmental account while the City Manager's Office completes the community engagement process to determine investments in the Asheville Police Department, other City departments, and various community programs.
- At City Council's September 22, 2020, meeting, the City Manager will present a budget amendment that will reflect input received during the public engagement effort and provide all departments with additional budget authority for the remainder of fiscal year 2020-21.
- The Proposed General Fund Budget includes four minor additions that were not part of the May 26, 2020 Proposed Budget:
    - $49,225 in revenues and expenses associated with the purchase and disposition of property near Coxe Avenue and Federal Alley, which was approved at City Council's June 9, 2020 meeting.
    - $100,000 for short-term COVID-19 expenses that may occur prior to the end of September. The City expects to receive additional Coronavirus Relief Funds (CRF) from Buncombe County to offset these expenses. Staff will return to Council with a budget amendment once the full amount of CRF funding is known.
    - $50,000 in City Manager's contingency for potential costs associated with the community engagement process currently underway.
    - $7,000 in the Aston Park Tennis Center budget from funding provided by a United States Tennis Association (USTA) Facility Recovery Grant and a Southern Cares Facility Initiative Grant.

Council Goal(s):

- A Financially Resilient City

Pro(s):

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance and establish a property tax rate by August 1 of each year.
- The budget is balanced with no increase in the property tax rate or any City fees and all essential City services are continued.
- Provides the City Manager with time to conduct a public engagement process to gather community input on investments in the Asheville Police Department, other City departments, and various community programs.

Cons:

- Requires departments to operate with only three months of budget funding until the end of September.
- Staff will be required to bring a budget amendment to City Council in late September to fully fund departmental operations for the entire fiscal year.

Fiscal Impact:

- As noted above, the Proposed FY 2020-21 General Fund budget is balanced with an ad valorem tax rate of $0.4289 per $100 of assessed value, which is unchanged from the current rate.
- The Proposed General Fund budget includes a $1.6 million appropriation from fund balance. Based on current estimates, staff expects unassigned fund balance to be between 13% and 15% of expenses at the end of FY 2020-21.

Mr. McDowell gave an overview of (1) where we have been and where we are going with the budget process; (2) details on the 3-month budget proposed for adoption in July 30; and (3) next steps after July 30 with community engagement and the budget.

Key takeaways include (1) operating in a time of unprecedented financial, organizational, and community uncertainty; (2) per Council's direction, the July 30 budget will provide departments with 3 months of funding to continue current operations; and (3) September 22 budget amendment based on community input will fund the remainder of FY 21.

The financial update includes (1) COVID-19 continues to create major financial uncertainty; (2) fund balance will likely be needed to cover operating costs in both FY 20 and FY 21; and (3) continued federal and state financial assistance will be essential for maintaining operations.

On June 9, Council postponed the budget public hearing; and on June 23 Council (1) approved an ordinance for interim budget appropriations from July 1, 2020 to July 31, 2020; and (2) directed staff to prepare an annual budget with 3 months of funding for departments. Regarding the interim budget per N.C. General Statutes, (1) the interim budget does not allow for any new spending or capital projects, nor does it authorize establishment of the FY 2020-21 property tax rate; (2) the property tax rate can only be adopted as part of the annual budget ordinance and must be adopted by August 1; and (3) there are no alternative provisions for adopting the tax rate with an interim budget. On July 28, Council will receive public comment on the annual budget; and on July 30, Council will adopt the annual budget with only 3 months of funding allocated to departments and programs.

The 3-month budgets includes funding for departments to meet spending and contractual obligations through the end of September - annual contracts for items such as transit service,

recycling, and radio maintenance are fully budgeted. Other routine expenses are budgeted at 25%. Mr. McDowell then showed a slide showing the fund, 3-month and total budget for the General Fund and each enterprise fund.

In July-September, there will be community engagement and input. On September 22, a budget amendment will be presented to Council to allocate funds to departments for the full fiscal year.

In response to Councilman Kapoor, Mr. McDowell said that budget amendments can happen at any time during the year. He said that if Council cannot agree on a budget at the September 22 meeting, staff will have to amend the budget to provide the departments with more funding, which Council will have to approve and let staff know how many more additional months of funding.

When Vice-Mayor Wisler asked what would happen if Council doesn't have the majority vote in September to move the budget forward, will we have to stop operating and furlough employees? Mr. McDowell said that we have never operated in that kind of environment before and we would have to explore our options.

Councilwoman Mayfield stressed that on July 30 we will be adopting a full year's budget but only allocating 3 months of funds to departments. Mr. McDowell said that the balance of the budget will be sitting in the non-departmental account waiting to be allocated. If we vote on a month by month allocation, that might impact our bond rating and it would also create challenges for us with contracts.

Mayor Manheimer said that our fiscal year starts on July 1 and we have a statutory obligation to adopt a tax rate by August 1. To be clear, we are talking about adoption of a full year's budget, but only allocating the funds for the next 3 months. She is concerned that there is a community expectation that it will be possible to radically change what and how we are doing policing by September 22. She hears that the City Manager feels it may be possible to come up with some movement in that direction, but not cutting the Police Department without a plan in place. Other than the concerns expressed about the police budget, she doesn't hear any concerns about not fully funding the other departments.

Councilman Haynes said that during Council check-ins he informed the City Manager that unless the City's hiring freeze was extended to the Police Department and that was made as part of the budget, he would not be supportive of the budget.

In response to Councilwoman Mayfield, City Manager Campbell said that the Police Department is not included in the hiring freeze because we have critical positions that from a community safety standpoint, we need to make sure that positions are filled until we decide those positions are no longer needed. We are not adding to the position count. If there is a position that we feel is not essential in terms of providing community safety response time or addressing those kinds of things, when we will consider not filling those over the next 3 months until there has been community dialogue.

Mayor Manheimer opened the public comment at 7:50 p.m.

From advanced live call-ins, individuals spoke to Council on several items, including, but not limited to: defund the Asheville Police Department (APD) by at least 50%; demand at least 50% of the APD's budget be invested in long-term safety strategies including supporting Black startups/business, eliminating the racial opportunity gap in Asheville City Schools; implement Police Department hiring freeze; disappointment in limiting public comment on the budget to 2 minutes; need for financial investments for reparations to Black community; sales tax revenue

decline; more police does not mean a safer community; demilitarize the APD; ban the use of tear gas; and total support of Black Asheville demands.

Mayor Manheimer said that City Council will need to recess this meeting until July 30 in order to adopt the budget. She explained that legislation that applies to virtual meetings does not allow Council to vote on public hearing items the same day as the actual hearing. Therefore, Council will recess the meeting for two days and then vote on the public hearing items, including the budget. When the items come back for vote on July 30, there will be no further public comment.

Councilman Kapoor supported a full year allocation with support for taking a deep dive into looking at the Police budget. He felt that we will be putting ourselves and staff at an unnecessary risk to not allocate funding for an entire year when Council has the ability to amend the budget anytime they wish. He agrees that we will not be able to make significant operational cuts to the Police budget in three months and there are other big issues City Council is dealing with, some being reparations, removal of monuments, hotel moratorium, his replacement on City Council, etc. He felt if Council passes a full year's budget, they will be able to focus on some of the other large issues facing Council, including the Police Department's budget.

Mayor Manheimer said we, as a Council, and City Manager Campbell have tried hard to figure out how to engage the community to meet the demands we are hearing. She didn't want to drive the expectation that before the end of September we will defund the Police Department without having a plan for replacement services. She felt we should adopt the full year's budget but continue to follow through with the process the City Manager has set out to engage the community to transform policing in Asheville. Then City Council can make the appropriate budget amendment, which may be a reduction in the Police budget or an increase in funding in other areas.

Vice-Mayor Wisler also supported adopting the full year's budget and supported reimagining public safety in Asheville. She believed that there are other agencies that can perform some of the duties or maybe some of the duties no one should be doing. As soon as we find areas that make sense to change we can amend the budget. She did not want to get to the end of September and not be able to have consensus on the budget.

Councilman Haynes was concerned that we just held the budget public hearing on adopting the full year's budget and allocating a three-month allocation with no additional public comment being accepted. Mayor Manheimer explained that the public hearing was on adoption of the full year's budget. This is just the next layer down on how do we allocate the funding.

Councilman Young heard the concerns of Council, but he didn't share them. He believed we can press forward and tackle the challenges ahead of us.

Councilwoman Smith felt this is a time we have to work in harmony and we will overcome our challenges.

Councilwoman Mayfield said that we are committed to moving forward with change, but she was not sure how long it will take us to get there, since there will be a lot of community engagement and community partners to work with. She suggested an option that all departments receive their 12-month allocation except for the Police Department, which will only receive a 3-month allocation.

In response to Councilwoman Mayfield's option, Councilman Young felt that change in the process should include more public input. Councilman Kapoor did not support that option either, but for the reason he felt Council will be just kicking the can down the road.

City Manager Campbell said that she will come back on July 30 with three budget options: (1) full year allocation to all City departments, except the Police Department who will only be allocated for 3 months; (2) all City departments be allocated 3 months; and (3) a full year funding for all City departments.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilwoman Mayfield moved to recess this item until July 30, 2020, at which time this public hearing will be voted. This motion was seconded by Councilman Kapoor and carried unanimously on a 6-1 roll call vote, with Councilman Young voting "no."

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

From advanced live call-ins, individuals spoke to Council, on several items, some being, but are not limited to: defunding the Asheville Police Department (APD) by at least 50% and invest in the Black community; the demand for defunding the APD is not something new and has been asked for for years; requiring advanced live call-ins make it difficult for public engagement; disappointment in limiting public comment on the budget to 2 minutes; Councilman Kapoor should resign immediately in order to have a special election; concern City Council is talking about amending the budget differently than what was presented before public comment was opened; lack of trust of City Council members; City cares more about tourists than residents as seen by the number of potholes and conditions of streets in the neighborhoods outside of downtown; ban the use of tear gas; institute a hiring freeze in the APD; support Black Asheville demands; support of remote Council meetings; prioritize Black community needs; APD officers should be held accountable for the use of tear gas and tearing down the medical tent and supplies; request Mayor Manheimer resign; Council should appoint new Council member now and then have that person resign after the elections, leaving that seat open for the 4th highest vote-getter; do a Request for Proposals to hire an equity consultant on the entire budget; Office of Equity & Inclusion should report directly to the City Council;

VIII. RECESS:

Mayor Manheimer said that Council will need to recess this meeting until Thursday, July 30, 2020, at 5:00 p.m. That meeting will be remote, with no public comment on the actions to be taken and no further public comment.

Councilman Kapoor moved to recess this meeting until Thursday, July 30, 2020, at 5:00 p.m. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

Thursday – July 30, 2020 - 5:00 p.m. - Continuation
of Tuesday, July 28, 2020, Meeting

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor;

Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

A. ORDINANCE NO. 4817- ORDINANCE TO AMEND A PREVIOUSLY APPROVED CONDITIONAL ZONING AT 137 BROAD STREET FROM COMMUNITY BUSINESS I TO COMMUNITY BUSINESS I/CONDITIONAL ZONE TO INCLUDE AN ADJACENT PARCEL FOR THE CONSTRUCTION OF A NEW MIXED-USE BUILDING

Mayor Manheimer said that this public hearing was held on July 28, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the conditional zoning amendment request for the properties located at 135 and 137 Broad Street from CB-I (Community Business I) and CB-I CZ (Community Business I Conditional Zone) to CB-I CZ (Community Business I Conditional Zone) for the construction of a new mixed-use building and find that the request is reasonable, is in the public interest, is consistent with the city's comprehensive plan, and meets the development needs of the community in that: 1) the Traditional Corridor Future Land Use category of the Living Asheville Comprehensive Plan anticipates a mix of uses as included in this development; 2) the project is compatible with the surrounding area; 3) the proposal sites residential units in a walkable area convenient to transit and 4) the project includes a dedicated affordable residential component. This motion was seconded by Councilman Kapoor and carried on a 5-2 roll call vote, with Councilman Haynes and Councilwoman Smith voting "no."

ORDINANCE BOOK NO. 33 – PAGE 97

B. RESOLUTION NO. 20-134 - RESOLUTION AUTHORIZING SUBMISSION OF THE COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS ANNUAL ACTION PLAN FOR FISCAL YEAR 2020-21 TO THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT

Mayor Manheimer said that this public hearing was held on July 28, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to adopt the resolution authorizing submission of the City's Annual Action Plan for 2020-2021 to the U.S. Department of Housing and Urban Development and authorizing the City Manager to sign all contracts or agreements required for the implementation of the Consolidated Annual Action Plan. This motion was seconded by Councilwoman Smith carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 390

C. **ORDINANCE NO. 4818 - ORDINANCE TO CONDITIONALLY REZONE PROPERTY LOCATED AT 61 INNOVATION DRIVE FROM COMMERCIAL INDUSTRIAL DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONE, ALONG WITH A CHANGE IN THE FUTURE LAND USE MAP FROM INDUSTRIAL/MANUFACTURING TO EMPLOYMENT/ANCHOR INSTITUTION CENTER**

Mayor Manheimer said that this public hearing was held on July 28, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Kapoor moved to approve the conditional zoning request for the property located at 61 Innovation Drive from Commercial Industrial to Institutional Conditional Zone with an amendment to the Future Land Use Map of the Living Asheville Comprehensive Plan from Industrial/Manufacturing to Employment/Anchor Institution Center and find that the request is reasonable, is in the public interest, is consistent with the city's comprehensive plan, and meets the development needs of the community in that: 1) the request allows for longer phasing for use of temporary buildings; 2) the use is appropriate in the underlying zoning district and is already in operation; 3) site improvements such as sidewalk and dedication of a greenway easement provide valuable amenities; and, 4) the proposed change to the Future Land Use of the Living Asheville Comprehensive Plan better aligns with the use of the property. This motion was seconded by Councilman Young and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 – PAGE 103

D. **ORDINANCE NO. 4819 - ORDINANCE ADOPTING THE FISCAL YEAR 2020-21 ANNUAL OPERATING BUDGET**

Mayor Manheimer said that this public hearing was held on July 28, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

After receiving additional written public comment, Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to approve the Fiscal Year 2020-21 Annual Operating Budget that provides 3-months funding for all City departments. This motion was seconded by Councilwoman Mayfield.

Councilman Haynes said that "last night some folks erected a banner in my yard calling for me to defund the APD. I know this happened to other Council members as well. Again, I want to reiterate my convictions for both defunding and demilitarizing the APD. I also recognize that for many people upon hearing the word "defund" fearfully they hear it as a call for abolishing APD and police forces across the nation. While there is understandably a rapid growing movement for police abolitionism, defunding is a proactive attempt to bring an absolutely necessary overhaul to policing without starting from scratch. At our meeting two nights ago I said

that I would be voting against the 3-month budget plan because it did not contain an APD hiring freeze. While I feel strongly that this should have been included, I do not wish to see the full-year budget proposed." He will be voting to support the interim budget as proposed by the City Manager.

Vice-Mayor Wisler said "I continue to believe we should adopt a fully allocated yearly budget and amend the budget for solutions around public safety as they are identified and developed. I read all of my emails and listen to all of my voicemails and I listen to all the public comment about public safety spending. I hear what some people are asking for. The are asking for an immediate 50% cut to APD's budget and reallocation of those funds. They also say they don't trust our government. In June I agreed to an interim budget because I hoped that our community would rally around a process to divest and invest. I hoped that our community would understand that this process will be ongoing, will require creativity, require resources and most importantly would require time. However, all that I've heard is to defund APD by 50% immediately. My hopes have not played out. I do not believe that no matter what we come up with in September the people we heard from will be satisfied. For two months we've heard our City Manager tell us that defunding the police by that amount immediately is not responsible. The City cannot come up with a plan to do that. Some people have call me practical, God forbid. Some people say I lack courage. Some people believe that if we continue to ask miracles of our staff, the staff will produce magic. When I shadowed Cathy Ball in her Interim City Manager role, Ii witnessed behind the scenes the dedication and hard work of our staff. I watched Debra Campbell motivate and push the staff to do great work. They want to make our dreams come true. They want to produce magic for us. But we don't give them magic wands, much less funding and staff. They also, like me, recognize the law and try as hard as they can to keep the City, and us, out of trouble. Do you know why the community doesn't trust us? Because this Council won't fess up to the fact that we actually believe the staff. We know that defunding APD by 50% immediately is not doable. Not responsible. But rather than telling the truth now, we will tie the staff in knots, require them from now until September, and possibly after that, to worry whether this nickel should be spent in July or October. We will make them concerned that we will push the budget to the brink. They will wonder what deal will have to be made to get the majority of Council to agree on a budget. All of this will be distracting, time-consuming and frustrating. Rather than have our staff do all that, I want them to be working on the goal of finding ways that APD can discontinue work that they don't need to be doing. I want them finding solutions that work for Asheville, not for Los Angeles, not for New York, not for Minneapolis. If we let staff do that work now we will have a much better product to show our community in September. But, unfortunately we don't have the courage for that."

Councilman Kapoor said "I wanted to thank all of you again for the kind resolution that you gave me on Tuesday. Given this will likely be my last meeting and vote, I'd like to use my time here to say some thank yous and goodbye remarks in the context of our budget vote since it really encapsulates what I've seen in my time on Council. First off, I'd like to thank my family for putting up with the time that this position has taken me away from them both physically and mentally. Second, I want to thank my fellow Council members for serving. You never truly know the pressures of this responsibility until you actually sit in these seats. The world changed quickly in the last two and a half years and we have had to face some pretty incredible problems and incidents almost from the start. Third, thank you to those who voted for me, who campaigned for me and who sent me words of encouragement. I'm looking at you Pat Deck. Fourth, I want to thank the staff of this city who have worked tirelessly on residents' behalf. I've said it many times, but I will again – we are lucky to have this high caliber staff in a City this size. I also want to specifically thank City Manager Debra Campbell and City Attorney Brad Branham for their professionalism. My most important votes on this Council, and the ones that I'm most proud of, were the two appointing both of you. If you wanted, you could have jobs in many other cities. I hope the residents realize how lucky they are to have you here. On a sadder note, I want to apologize to the family of Derrick Lee Jr. Derrick was 12 years old and a rising 7th grader at

Valley Springs Middle School when he was shot and killed on July 1st 2 2018 – a little over two years ago. A child was killed in this city on my watch and that is my responsibility. To this day, we have not found who killed Derrick and that is one of my biggest regrets. While we will name a playground after Derrick at Lee Walker Heights once it's completed, I know that is small solace to Derrick's grandparents Rev. and Mrs. Tolbert, Derrick's brother Darius and to Derrick's parents. I hope one day to read that his killer or killers have been caught so that his family can find peace. Let me move now to the budget and specifically to what happened at the Council meeting on Tuesday which I think was a microcosm of what's happening in this City. If you didn't tune into the almost seven-hour meeting, let me recount some of the relevant highlights for you. City Manager Debra Campbell provided an update on the 30/60/90-day plan to, in her words, "reimagine" public safety in Asheville. She talked about how City staff supports a Divest and Invest strategy, how racism is a systemic problem which is bigger than the police and that the City cannot solve alone in 90 days, and that the strategy needs to be strategic, attainable and collaborative. After Ms. Campbell's presentation, Councilwoman Mayfield talked directly to advocates for "defunding the police" expressing support for real change while explaining the reality that just because things aren't happening exactly the way they want them to or as fast as they want them to that it doesn't mean the City doesn't care or isn't committed to making real change. She also shared her experience and her advice as an advocate who lobbies government officials – quite successfully I may add. Later on in the meeting, Councilwoman Mayfield was attacked by callers who said that her words were condescending and outrageous as if she as an elected official should not demonstrate the responsibility of speaking to the issues especially where she was trying to find common ground to move towards what these same folks say that they want. 3 Later, she apologized for her choice of words, but Julie you had absolutely no reason to apologize and I'm sorry that I didn't speak up to say so at the time. Nothing you said was offensive. The only mistake you made was that what you said wasn't in 100% agreement with them. We are elected officials. We have the right and indeed the obligation to speak our minds. No one has the right to silence you, me or anyone else on Council. During public comment, the overwhelming majority called for an immediate 50% defunding of the police department. This was a well-coordinated effort and I think we all know that. Organized groups have every right to do this, but we would be making a mistake if we took that public comment to mean that everyone in the City wanted an immediate 50% defunding of the police department. Two other things about that public comment struck me. First, there were many callers – nearly all of whom who were white by the way - who said that they were speaking for the "community," who were incredulous that we weren't doing what the "community" wanted. Again, as if there were no other people in this community who had a different view from those callers. So, what does that mean – if you have a different view, are you not considered part of the community or does it mean that if you have a different view your view doesn't count? I'm always skeptical when people on the right or the left say that they are speaking for the "community" or the "people" implying that those who see things differently are the "other." Maybe it's because I grew up a brown child of immigrants in the South that I'm particularly attuned to this kind of language. I heard it a lot here in Asheville during my time on Council. The second thing that struck me was a particular comment directed to Mayor Manheimer and Councilwoman Mayfield angrily chastising them for somehow putting themselves "in front" during the reparations discussion. I have no idea what this caller was talking about. Each 4 Council member has a right to speak on any matter that we are deliberating and every Council member made comments on the reparations vote. Again, it's the problem of trying to silence or intimidate people from actually being part of the conversation. I can't help but note that the caller sounded like a young white man. The irony in Asheville – a white male telling two elected female representatives which topics are off limits for their comments or how they should conduct themselves. Finally, this morning. Three different signs were put out by an anonymous group or person at the homes of the Mayor, the City Manager and Councilwoman Mayfield that had their name and the words "Defund Asheville PD." Those signs had a bigger message than to just innocently advocate for a budget vote tonight. That gives cover. It was a message that we know where you live. It was done to intimidate. Think about that, an anonymous sign with her name on it shows up in front of the house of our first African-American female city manager. All of this

brings us to tonight's vote on the budget. The key question is whether to allocate funding for essentially three months of operations or for the full year. There is no disagreement that the budget should be revisited in September based on recommendations from the Reimaging Public Safety effort. There is no disagreement that City Council has the right to amend the budget at any time, and could specifically amend the budget in September when the Reimagining Public Safety recommendations are in hand. I believe that the best and most responsible path forward is to allocate funding for operations for the entire year now and then to amend the budget in September. Only allocating three months of funding during a pandemic and a fiscal crisis is irresponsibly risky and will only delay the other critical work that Council and staff need to do including developing and implementing the Reparations Plan, addressing the Vance monument, filling my Council seat and responding to 5 any other emergencies that come your way not to mention addressing the backlog of items that have delayed due to COVID. This is going to be hard enough on you and staff without having a budget hanging over your head. And it's also an election year. There is no guarantee that you will come to a consensus on my replacement which may result in a deadlocked vote on the budget and a hasty, careless defunding of the police which is exactly what one group wants, but I suspect very few of the residents of Asheville truly do. I trust that all of you are approaching replacing me in good faith, but even with good faith, you can still deadlock. My guess is that the group will push a litmus test for any replacement that they must commit to immediately defunding the APD by 50%. Furthermore, you are not going to have a plan to cut APD's budget by 50% by September. We all know that. You'll likely need to lay off over 100 officers to do that. Passing a three-month budget with no realistic chance of making this happen is going to once again set expectations sky-high and fall short. It will be a repeat of Tuesday all over again. Fellow Councilmembers - if you believe that passing a three-month allocation is the right thing to do for the City, I absolutely respect that. But if you are doing it because you think doing so will gain the respect or trust of these same people who monopolized the public comment on Tuesday and who have engaged in a pattern of intimidation against anyone who isn't 100% in agreement with them, please think again. They have made it clear that they will accept nothing less than laying off half of our police department and they do not care whether there is a backup plan or not. Please don't reward this kind of behavior. It needs to stop right now. Know that there are many more people out there who are looking at us to do the responsible thing. Please, let's pass a full year allocation tonight so that we can keep our city steady and allow the Reimagining Public Safety process to work."

Mayor Manheimer said "I want to thank the public, the Council and the staff for working so hard as we've moved through this budget process. In my memory, I've never seen so many people engaged and involved in the budget process. Although we have been talking about one area of the budget in this process, I do want to highlight that we are passing a full budget tonight and that includes a lot of things that haven't gotten a lot of attention during this budget cycle, but normally do. Good things, such as transit and construction of roads, and sidewalks, enhancements to parks and greenways, economic development, affordable housing, a partnership with Homeward Bound to serve those experiencing homelessness, and much more. So, there's a lot of good things in this budget despite the economic crash we've experienced as a City due to COVID and the loss of sales tax revenue. There is still so much to celebrate in this budget. As has been stated already and just to reiterate, I do feel like this Council, despite our clashing from time to time does agree on the idea of divesting and investing in an impactful, responsible way that will be meaningful to our community when it comes to the police budget. I think that for all our differences there is general agreement that we want to see new ideas explored, new directions to go in in terms of traditional policing in our community. How we get there, how fast we get there, what that looks like, I think that is the part we are struggling with and how that will work. This is going to be very important work and it's going to be really hard work. As Gwen mentioned, it takes an incredible amount of staff time and resources to do this - for it to be impactful beyond our terms in office. I think it needs to be thoughtful, it needs to include the community, it needs to be transparent. And that is not something that happens overnight. That is something that takes time. We have gotten a lot of emails that have said something along the

lines of 'it's been 2 months. Why haven't you done this already.' We are talking about a $30 Million budget for policing and a department that employs around 250 people and that's why. It takes a long time to figure out how to change and then how to move in that direction. We all know that. That is true. We have been here a long time and we know how this works. This is more like turning a battleship and it just takes an incredible effort to make that happen. But I'm committed to this work and I know that you-all are. I know that our staff is. One of the things that is so heartening is that this isn't just lip-service. I know that our staff is really committed and believes in looking at these different ideas and changes and wants to explore them. This is a city where we are lucky to have fantastic staff. So many times they have brought us ideas that are innovative and cool and interesting and we've had to do the less hard work of just supporting that effort. So we are really lucky in that way. I do want to say that it is - it's true, it's not realistic in September 22 when we vote on an amendment to this budget, to fund the rest if the year that we will see apropoal from our City Manager that includes a defunding of the Police Department, or even a 50% cut to the Police Department. I think we know that. I've had some dialogue with folks in the community and they recognize that's true. I think people will say but I want to push you so I'm going to keep using this language around defunding the police or reduce the funds by 50% because if I don't keep messaging in that way then we won't get any movement at all. So, I hear how the campaign works on that and I know that we are committed to getting there, but I also know that we are not, for anyone out there who thinks that we are going to see a budget presented to us that us defunding the police by 50% on September 22 - that is not realistic. What our City Manager said to us on Tuesday night is that the goal is to determine how the City of Asheville structures department responsibilities and community partnerships in a way that promotes racial equity and economic inclusion. And that is my expectation. Where we are going to be continued to be headed. Most mayors in North Carolina (we have weak mayors in North Carolina and not strong mayors in North Carolina) and most mayors don't even get to vote. So I'm one of the unusual mayors that votes on every item on the agenda. That is very unusual. I'm not just a tie-breaker mayor, which is generally what happens. I will tell you what tugs at me when we are faced with a deadline. It is July 30 and we need a budget. Legally we need a budget. We have to have a budget. We don't have a choice of not having a budget or we have a government shutdown. And, what tugs at me is my responsibility to this community. I hear what Councilman Kapoor is saying and I hear what Vice-Mayor Wisler is saying. I am deeply concerned that we are going to set ourselves up for possibly an insurmountable challenge on September 22. But I have tried to talk to everyone to understand this path forward and that folks on this Council are committed to getting to a solution by September 22 and you-guys have reassured me that we will be together in this and we're going to get there. I trust you. I worked with you-guys for a long time and I really like working with you. I think we are going to get there. But what it comes down for me is, if I don't vote for this motion, then we don't have a budget, because I know where all the rest of the votes fall. I think it's my responsibility to make sure that we continue to operate as a city. That we pay our staff. We can still pick up the garbage. We can still make sure the water comes out of your faucet when you turn it on. That the basic services that you need to count on as a community will continue to be there. So, for me that's that it came down to. In the end, Councilman Haynes came over and said he was going to support this budget tonight. I wasn't sure of that until just before this meeting. So, that was my calculation. Will we have a budget in place? Was our manager going to have a City that she can keep running, and money to do it with. At the end, I want us to be successful. I care a lot about this City and you do too, so that makes me feel comfortable in making this decision today."

The motion made by Councilman Young and seconded by Councilwoman Mayfield to approve the Fiscal Year 2020-21 Annual Operating Budget that provides 3-months funding for all City departments, carried on a 5-2 roll call vote, with Vice-Mayor Wisler and Councilman Kapoor voting "no."

Mayor Manheimer said that we have adopted the City's annual budget and we have funded City operations for the first quarter and we will continue with the community engagement process around the budget and revisit the budget on September 22, 2020.

ORDINANCE BOOK NO. 33 – PAGE 110

Closed Session

At 5:38 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(1). The statutory authorization is contained in N.C.G.S. 143-318.10 (e); and (2) To establish, or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange, or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5). This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

At 6:15 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

VIII. ADJOURNMENT:

Vice-Mayor Wisler adjourned the meeting at 6:15 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – August 25, 2020- 5:00 p.m.

Regular Meeting

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; email; and advanced live sign-ins.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 28, 2020, AND CONTINUED TO JULY 30, 2020

B. RESOLUTION NO. 20-135 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY REGARDING THE CONSTRUCTION OF SIDEWALKS AND ASSOCIATED EQUIPMENT ON NEW LEICESTER HIGHWAY

Action Requested: Adoption of resolution authorizing the City Manager to enter into an Interlocal Agreement with Buncombe County regarding maintenance and responsibility for the City's newly constructed sidewalks and associated improvements on New Leicester Highway.

Background:

- The City of Asheville is in the midst of planning for a project to add sidewalks and pedestrian crossings on New Leicester Highway from Patton Avenue to Old County Home Road.
- In order to complete the network of sidewalks in the area, the City proposes to extend sidewalk construction approximately 600 feet outside City limits into Buncombe County jurisdiction to join with the existing sidewalk.
- The City will fund and manage construction of the new sidewalk. The Interlocal Agreement stipulates that the maintenance of sidewalks and associated improvements installed as part of the Project will be the responsibility of the County and City within their respective jurisdictions.
- The Project is funded through a federal grant, administered through NCDOT, with matching funds provided by the City.
- The current hold on funding due to budget challenges with NCDOT make the schedule for the project undetermined at this time. Once started, construction is anticipated to last approximately 12 months.

Vendor Outreach Efforts: None, as this is an interlocal agreement with Buncombe County, there is no other option for who we are entering the agreement with.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- Construction of sidewalks that will meet City and all other applicable construction standards
- Improve mobility and safety on local streets
- Adhere to federal guidance and project funding

Con(s):
- Construction will be disruptive to adjacent residences and businesses

Fiscal Impact:
- Funding for the sidewalk project is already included in the adopted Capital Improvement Program(CIP), with federal funding of approximately $2.5 million and City matching funds of $726,000. The Interlocal Agreement does not impact the project funding.

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into an Interlocal Agreement with Buncombe County regarding maintenance and responsibility for City's newly constructed sidewalks and associated improvements on New Leicester Highway.

RESOLUTION BOOK NO. 41 - PAGE 391

C. ORDINANCE NO. 4820 - ORDINANCE CHANGING THE POSTED SPEED LIMIT ALONG SEVERAL STREETS WITHIN THE CITY OF ASHEVILLE

Action Requested: Adoption of an ordinance changing the posted speed limit along several streets within the City of Asheville.

Background:
- N.C. Gen. Stat. § 20-141 gives the City the authority to regulate speed limits within its corporate limits.
- City staff received requests from the public to consider changes to the speed limits.
- City staff performed appropriate traffic-engineering studies along the various streets.
- Staff brings speed limit changes to City Council on a quarterly cycle in an effort to improve the efficiency of the approval process.

- Staff recommends that the speed limit on the following streets be changed from 35 mph to 20 miles per hour:
  - Balm Grove Place, from Balm Grove Avenue to Martin Avenue
  - Georgia Street, from Craven Street to Reynolds Road
  - London Road, from US 25A (Sweeten Creek Road) to Belvedere Road
  - Westview Road, from NC 694 (Town Mountain Road) to Oak Park Road
  - Windswept Drive, from College Street to Alexander Drive

- Staff recommends that the speed limit on the following streets be changed from 30 mph and 35 mph to 25 miles per hour:
  - Alabama Avenue, from Hanover Street to Swannanoa Avenue
  - Baker Avenue, from US 19-23 Business (Haywood Road) to Burton Street

- Bideford Row, from a point 725 feet north of Tiverton Lane to a point 500 feet south of Tiverton Lane
- Blake Mountain Circle, from Galloway Drive to a point 400 feet east of Galloway Drive
- Blakewood Court, from Galloway Drive to a point 250 feet north of Galloway Drive
- Clay Street, from Kendall Street to Baker Avenue
- Clovelly Way, from US 25 (Hendersonville Road) to a point 340 feet north of Tiverton Lane
- Deanwood Circle, from US 25 (Hendersonville Road) to a point 660 feet east of Caribou Road
- Forest Lake Drive, from Rock Hill Road to Forest Lake Drive
- Forestdale Drive, from US 25 (Hendersonville Road) to a point 665 feet east of Caribou Road
- Galloway Drive, from Westridge Drive to a point 680 feet south of Blake Mountain Circle
- Glen Woods Court, from Forest Lake Drive to a point 230 feet east of Forest Lake Drive
- Goldfinch Lane, from Forest Lake Drive to a point 150 east of Forest Lake Drive
- Griffing Circle, from Maplewood Road to South Griffing Boulevard
- Indiana Avenue, from Hanover Street to Swannanoa Avenue
- Innsbrook Road, from Grovewood Road to Old Toll Road
- Kingbird Lane, from Forest Lake Drive to a point 160 feet south of Forest Lake Drive
- Long Street, from East Larchmont Road to Edgewood Road
- Maplewood Parkway, from Maplewood Road to Northwood Road
- Maplewood Road, from South Griffing Boulevard to Grovewood Road
- Martin Avenue, from US 19-23 Business (Haywood Road) to Clay Street
- Meadow Lake Road, from Forest Lake Drive to a point 960 feet south of Forest Lake Drive
- Melody Lane, from Fairview Road to a point 990 feet north of Fairview Road
- North Liberty Street, from East Chestnut Street to Hillside Street
- Northview Street, from West Street to Forsythe Street
- Northwood Road, from Woodcrest Road to a point 480 feet north of Maplewood Parkway
- Oak Hill Circle, from Oak Hill Drive to Oak Hill Drive
- Oak Hill Drive, from NC 63 (New Leicester Highway) to Hazel Mill Road
- Oakwilde Drive, from Briarcliff Drive to a point 650 feet east of Stancliff Drive
- Rock Hill Road Extension, from Rock Hill Road to Miller Lane
- South Liberty Street, from East Chestnut Street to Elm Street
- Sawmill Road, from Forest Lake Drive to a point 360 feet south of Forest Lake Drive
- Simpson Hollow Road, from Forest Lake Drive to a point 600 feet north of Forest Lake Drive
- Sumner Place, from Grovewood Road to Grovewood Road
- Tiverton Lane, from Clovelly Lane to a point 225 feet north of Bideford Row
- Woodcrest Place, from Woodcrest Road to a point 170 feet west of Woodcrest Road
- Woodcrest Road, from Maplewood Parkway to Old Toll Road

- Staff recommends that the speed limit on the following street will be changed from 35 miles per hour to 30 miles per hour:
  - Ralph Street, from Bartlett Street to South French Broad Avenue

Council Goal(s):

- Transportation and Accessibility.

Committee(s):

- None

Pro(s):

- City staff has been able to respond favorably to public requests.
- The new speed limits will be consistent with streets of similar characteristics and design.
- Drivers should adhere to the recommended speed limits on these streets.
- The new speed limits will provide enhanced safety to all users.

Con(s):

- None

Fiscal Impact:

- The cost of installing and maintaining speed limit signs is included in the operating budget.

Suggested Motion:

- Motion to approve an ordinance enacting (1) a 20 mph speed limit on Balm Grove Place, from Balm Grove Avenue to Martin Avenue, Georgia Street, from Craven Street to Reynolds Road, London Road, from Sweeten Creek Road (US 25) to Belvedere Road, Westview Road, from NC 694 (Town Mountain Road) to Oak Park Road, Windswept Drive, from College Street to Alexander Drive; and (2) a 25 mph speed limit on Alabama Avenue, from Hanover Street to Swannanoa Avenue, Baker Avenue, from US 19-23 Business (Haywood Road) to Burton Street, Bideford Row, from a point 725 feet north of Tiverton Lane to a point 500 feet south of Tiverton Lane, Blake Mountain Circle, from Galloway Drive to a point 400 feet east of Galloway Drive, Blakewood Court, from Galloway Drive to a point 250 feet north of Galloway Drive, Clay Street, from Kendall Street to Baker Avenue, Clovelly Way, from US 25 (Hendersonville Rd) toa point 340 feet north of Tiverton Ln, Deanwood Circle, from US 25 (Hendersonville Rd) to a point 660 feet east of Caribou Road, Forest Lake Drive, from Rock Hill Road to Forest Lake Drive, Forestdale Drive, from US 25 (Hendersonville Rd) to a point 655 feet east of Caribou Road, Galloway Drive, from Westridge Drive to a point 680 feet south of Blake Mountain Circle, Glen Woods Court, from Forest Lake Drive to a point 230 feet east of Forest Lake Drive, Goldfinch Lane, from Forest Lake Drive to a point 150 feet east of Forest Lake Drive, Griffing Circle, from Maplewood Road to South Griffing Boulevard, Indiana Avenue, from Hanover Street to Swannanoa Avenue, Innsbrook Road, from Grovewood Road to Old Toll Road, Kingbird Lane, from Forest Lake Drive to a point 160 feet south of Forest Lake Drive, Long Street, from East Larchmont Road to Edgewood Road, Maplewood Parkway, from Maplewood Road to Northwood Road, Maplewood Road, from South Griffing Boulevard to Grovewood Road, Martin Avenue, from US 19-23 Business (Haywood Road) to Clay Street, Meadow Lake Road, from Forest Lake Drive toa point 960 feet South of Forest Lake Drive, Melody Lane, from Fairview Road to a point 990 feet north of Fairview Road, North Liberty Street, from East Chestnut Street to Hillside Street, Northview Street, from West Street to Forsythe Street, Northwood Road, from Woodcrest Road to a point 480 feet north of Maplewood Parkway, Oak Hill Circle, from Oak Hill Drive to Oak Hill Drive, Oak Hill Drive, from NC 63 (New Leicester Highway) to Hazel Mill Road, Oakwilde Drive, from Briarcliff Drive to a point 650 feet east of Stancliff Drive, Rock Hill Road Extension, from Rock Hill Road to Miller Lane, South Liberty Street, from East Chestnut Street to Elm Street, Sawmill Road, from Forest Lake Drive to a point 360 feet south of Forest Lake Drive, Simpson Hollow Road, from Forest Lake Drive to a point 600 feet north of Forest Lake Drive, Sumner Place, from Grovewood Road to Grovewood

Road, Tiverton Lane, from Clovelly Way to a point 225 feet north of Bideford Row, Woodcrest Place, from Woodcrest Road to a point 170 feet west of Woodcrest Road, Woodcrest Road, from Maplewood Parkway to Old Toll Road; and (3) a 30 mph speed limit on Ralph Street, from Bartlett Street to South French Broad Avenue.

ORDINANCE BOOK NO. 33 - PAGE 118

D. RESOLUTION NO. 20-136 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH THE GREEN BUILT ALLIANCE TO IMPLEMENT AND MANAGE THE BLUE HORIZONS PROJECT AND BLUE HORIZONS PROJECT COMMUNITY COUNCIL

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with the Green Built Alliance to implement and manage the Blue Horizons Project and Blue Horizons Project Community Council.

Background:

- On January 28, 2020, City Council authorized Resolution 20-18 and created the Blue Horizons Community Council to help achieve the community-wide renewable energy goal.
- On January 28, 2020, City Council approved Resolution 20-19 and authorized an interlocal agreement with Buncombe County to issue a joint request for proposals (RFP) to implement and manage the Blue Horizons Project and Blue Horizons Project Community Council.
- Buncombe County advertised the RFP on May 6, 2020 and received responses on June 12, 2020.
- The County received one response from the Green Built Alliance.
- The contract will be one year with the option to amend for an additional two years (annually), pending available budget.

Vendor Outreach Efforts:

- The Business Inclusion Manager conducted outreach through social media, community and business partners. City and County staff also conducted an optional virtual Q&A meeting
- No MWBE firms submitted bids

Council Goal(s):

- A Clean and Healthy Environment

Committee(s):

- None

Pro(s):

- The Green Built Alliance has been managing and implementing the Blue Horizons Project for the past two years; therefore there will be continuity with the continued program management.
- In the two years the Blue Horizons Project has been implemented there has been significant increases in Duke Energy Peak Demand Response and Energy-Efficiency programs resulting in the delay of a natural gas peaker plant unit.
- In addition, 350 low-income homes have received energy efficiency upgrades which are estimated to save a combined $55,000 per year and reduce carbon emissions by more than 10,000 tons.
- Buncombe County is providing $150,000 for the implementation of the Blue Horizons Project in partnership with the City of Asheville.

Con(s):
- None identified

Fiscal Impact:
- The contract will total $100,000 from the FY21 Office of Sustainability budget. Funding is already budgeted and available.

Motion:
- Adoption of a resolution authorizing the City Manager to execute a contract with the Green Built Alliance to implement and manage the Blue Horizons Project and Blue Horizons Project Community Council

RESOLUTION BOOK NO. 41 - PAGE 392

E. ORDINANCE NO. 4821 - ORDINANCE ENACTING A THROUGH TRUCK PROHIBITION ALONG SIX STREETS WITHIN THE CITY LIMITS OF ASHEVILLE

Action Requested: Adoption of an ordinance enacting a through truck prohibition along six streets within the city limits of Asheville

Background:
- The City of Asheville Code of Ordinances Section 19-60 regulates trucks traveling along designated residential streets.
- City staff received requests from the public to consider through truck prohibitions on these streets and the proposed revisions are based on traffic-engineering investigations.
- Large trucks should not use residential streets as "shortcuts" to avoid traffic on higher classified streets and can have difficulty making necessary maneuvers on residential streets.
- There are no destinations along these streets for large trucks.
- A truck prohibition will be established on the following streets:
  - Davenport Place, from Davenport Road to Vermont Court
  - Davenport Road, from Vermont Avenue to Davenport Place
  - Enka Orchard Street, from NC 112 (Sand Hill Road) to Enka Pine Street
  - Keith Drive, from Bingham Road to a point 800 feet northeast of Bingham Road
  - Oak Hill Drive, from NC 63 (New Leicester Highway) to Hazel Mill Road
  - Vermont Court, from Davenport Place to Vermont Avenue

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- Prohibits through trucks from using residential streets.
- Keeps through trucks on high classified roadways like state routes.
- Eliminates delay to the traveling public.
- Reduces potential of trucks entering areas where navigation attempts result in property damage.
- Enhances the ability to update commercial truck traffic routes (GPS.gov) to avoid residential communities.
- City staff has been able to respond favorably to public requests.

Con(s):
- None

Fiscal Impact:
- The cost of installing and maintaining truck prohibition signs is included in the operating budget.

Motion:
- Motion to approve an ordinance enacting a through truck prohibition along Davenport Place, from Davenport Road to Vermont Court, Davenport Road, from Vermont Avenue to Davenport Place, Enka Orchard Street, NC 112 (Sand Hill Road) to Enka Pine Street, Keith Drive, Bingham Road to a point 800 feet northeast of Bingham Rd, Oak Hill Drive, from NC 63 (New Leicester Highway) to Hazel Mill Road, and Vermont Court, from Davenport Place to Vermont Avenue.

ORDINANCE BOOK NO. 33 - PAGE 121

F. RESOLUTION NO. 20-137 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PURCHASE TWO GILLIG 30-FOOT DIESEL ELECTRIC HYBRID BUSES

Action Requested: Adoption of a resolution authorizing the City Manager to purchase two new Gillig 30-foot diesel electric hybrid buses for the Asheville Rides Transit System totaling $1,441,526 using the existing Rocky Mount, North Carolina Consortium Contract No. CRM 76164 that the City of Asheville is part of.

Background:
- In 2018, the City received $5.7 million in Federal grant funds from the French Broad River Metropolitan Planning Organization for the purpose of purchasing new transit buses.
- The City match for the grant funds is $1.4 million, which provides a total budget of $7.1 million for bus purchases.
- The City has already purchased nine buses using these grant funds.
- Two buses were delivered during December, 2019 and the other seven buses will arrive during Spring 2021.
- The subject action would enable the City to purchase two more buses using the Rocky Mount, North Carolina consortium contract (CRM 76164).
- These two buses are expected to be received within 12-18 months of purchase date.

Vendor Outreach Efforts:
- N/A

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- This action will enable staff to purchase additional buses needed to meet the schedule for timely replacement of buses in the fleet that have met their useful service life, as well as accommodate future system expansion consistent with the Transit Master Plan.
- This action ensures compliance with the Federal Transit Administration and the City of Asheville's procurement policy.

Con(s): None

Fiscal Impact:

- The purchases will be made using a portion of the $5.7 million in grant funds awarded by the French Broad River Metropolitan Planning Organization in 2018.
- The City will provide the required 20% matching funds of approximately $288,305.
- The grant and the City match are already budgeted in the approved Capital Improvement Program (CIP) and the City's match is included in the cash flow for the CIP/debt model. The funding including the City's match ($288,205) is already budgeted.

Motion:

- Motion to adopt a resolution authorizing the City Manager to purchase two new Gillig 30-foot diesel electric hybrid buses for the Asheville Rides Transit System totaling $1,441,526 using the existing Rocky Mount, North Carolina Consortium Contract No. CRM 76164 that the City of Asheville is part of.

RESOLUTION BOOK NO. 41 - PAGE 393

G. RESOLUTION NO. 20-138 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON SEPTEMBER 22, 2020, TO CLOSE A PORTION OF AN UNOPENED RIGHT-OF-WAY KNOWN AS GAYLE STREET

Action Requested: Adoption of a resolution to set a public hearing for September 22, 2020, to permanently close a portion of unopened right-of-way known as Gayle Street.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- James Sandusky Paris and Carson Kinlaw Delinger have petitioned for this closure. They are owners of the property listed as 99999 Morse Drive (Pin # 9627-22-9286).
- The unopened portion of right-of-way extends into the subject property.
- Upon closure, the unopened right of way will become part of the above property.
- The plan is for the property to be subdivided.
- The closure aides in meeting required setbacks.
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):

- A Well-planned and Livable Community

Committee(s):

- Multimodal Transportation Committee - June 24, 2020 - Recommended closing the right-of-way by unanimous vote

Pro(s):

- The closure would allow for more efficient use of the existing adjacent property.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):

- None noted.

Fiscal Impact:

- There will be no fiscal impact related to this closure.

Motion:

- Motion to adopt resolution of intent to set a public hearing on September 22, 2020, to close a portion of unopened right-of-way known as Gayle St.

RESOLUTION BOOK NO. 41 - PAGE 394

H. RESOLUTION NO. 20-139 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH WEAVERCOOKE CONSTRUCTION FOR THE DESIGN-BUILD CITY HALL ELEVATOR MODERNIZATION PROJECT

Action Requested: Adopt a resolution authorizing the City Manager to enter into a Design-Build contract with WeaverCooke Construction in the amount of $ 129,532.20 for pre-construction services for the Asheville City Hall Elevator Modernization Project; and further authorizing the City Manager to execute construction and associated cost amendments up to a total of $ 2,304,831 to complete the construction of this project.

Background:

- The Modernization of the 92 year old Historic City Hall Elevators has been identified as a priority project for a number of years and is now critical to the users of City Hall.
  - Elevator 1 has been out of order for over three years due to lack of replacement parts. Elevators 2 and 3 are currently being repaired with parts from Elevator 1.
  - Updating the equipment will reduce the operational expense related to the maintenance of this old equipment and allow for service with fewer interruptions.
- Historic qualities will be preserved in the execution of the improvements.
- Per City Council Resolution No. 17-09, City Hall is noted as a Landmark historic structure, with specific references to the elevators.
- The Historic Resource Commission will review the improvements for a Certificate of Appropriateness as a Major Work project.
- The Design-Build delivery method was approved by the City Manager in January 2020 per the requirements of NC G.S. 143-128.1A and City Council Resolution No. 16-45.
- Six responsive submittals were received through a Request for Qualifications (RFQ) and ranked in June 2020 for pre-construction services and project construction:

Contractor	Architect
Brantley Construction, Weaverville, NC	Watson, Tate, Savory Architects, Columbia, SC
GRC, Kingsport, TN	CRW, Kingsport, TN
Hickory Construction, Hickory, NC	Novus Architects, Asheville, NC
H & M Constructors, Asheville, NC	Clark-Nexsen Architects, Asheville, NC
Vannoy Construction, Asheville, NC	Keith Hargrove Architect, Asheville, NC
WeaverCooke Const., Asheville, NC	MHA Works, Asheville, NC

- WeaverCooke Construction with MHA Works Architecture Design-Build Team was selected as
  best qualified. WeaverCooke has provided pre-construction fees and a preliminary construction cost estimate to modernize all three elevators.
  They have also provided creative ideas to save money and prioritize historic preservation which will be incorporated into the final project price.
- The project construction is expected to begin in January 2021 and is anticipated to take 12 months to complete.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- The Design-Build delivery method allows the City to accept bids from subcontractors other than the lowest bid. This will enable the City to increase participation by selecting MWBE subcontractors as long as the project stays within the allotted budget.
- WeaverCooke prioritizes Minority and Women Owned Business Enterprise (MWBE) participation with their plan noted below:
    - Award Design to MHAworks Architecture, 63% Minority as a company.
    - Solicit Bids from MBE/WBE/DBE Subcontractors/Suppliers from Every Trade Division from their trade list of roughly 500 Subcontractors in NC/SC. (except for elevator contractors: not available) during the bid process.
    - Confident they can award painting, cleaning, and drywall to an MBE/WBE with budget considerations from the City of Asheville.
    - Subscribed to the City of Asheville Business Inclusion Newsletter
    - Meet monthly if the City of Asheville Inclusion Office were to have local Contractor Meetings to discuss involvement and inclusion on all City Projects.
    - Open to involvement in community outreach and training for small businesses/minority businesses interested in commercial/residential construction as part of this project Contractor MBE/WBE/DBE list of roughly 500 Subcontractors in NC/SC.

Council Goal(s):

- A Clean and Healthy Environment & a Financially Resilient City

Committee(s):

- None

Pro(s):

- Establishes a single point of accountability for design and construction.
- Scope of work includes the containment and removal of hazardous materials discovered in the existing building conditions. Coordinated construction phasing will be required to manage hazardous materials removal, containment and elevator operations throughout the project.
- Design-Build delivery will improve the schedule and coordination outcomes over traditional design-bid-build delivery.
- Design-Build delivery will provide a better coordinated "Beneficial use," defining that a building is capable of being used as it is intended but may have a variety of minor defects.
- Design-Build delivery allows for negotiation in the design and bidding as the project progresses to adhere to the available budget, and increases the City's ability to utilize minority and women owned businesses.

Con(s):

- Actual construction cost is unknown at the time of entering into the Pre-Construction contract.
- The Owner does not receive the benefit of checks and balances that exist when contracting with a separate designer and contractor.

Fiscal Impact:

- Funding for this contract and any cost amendments up to a total of $2,304,831 is already included in the adopted Capital Improvement Program (CIP).

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a Design-Build contract with WeaverCooke Construction in the amount of $ 129,532.20 for pre-construction services, for the Asheville City Hall Elevator Modernization Project; and further authorizing the City Manager to execute construction and associated cost amendments up to a total of $ 2,304,831 in order to complete the construction of this project.

RESOLUTION BOOK NO. 41 - PAGE 396

I. RESOLUTION NO. 20-140 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BARTHOLOMEW CONSTRUCTION FOR THE FULTON STREET BOND SIDEWALK PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Bartholomew Construction of Hendersonville North Carolina in the amount of $435,723.18 for the construction of the Fulton Street sidewalk project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $43,900 (10%).

Background:

- The City of Asheville passed a General Obligation Bond in 2016 and within this Bond, money was budgeted to construct new sidewalks.
- Fulton Street was identified as one of the sidewalks for construction as part of the bond referendum.
- The design, engineering, and public engagement continued through the Fall of 2019.
- Bids for construction were advertised on May 29, 2020 with the original bid opening scheduled for June 19th. Due to addressing contractors questions an addendum was issued and the bid deadline was extended an additional ten days.
- There were six bids received on June 30th. The contractor names and bid amounts are listed below:
    - Appalachian Paving (Asheville, NC) $624,325
    - Bartholomew Construction (Hendersonville, NC) $593,751.18
    - Graham county land company (Robbinsville,NC) $864,750
    - Moore and Son construction (Hendersonville, NC) $810,000
    - Patton Construction (Asheville,NC) $741,145
    - Thomas Construction (Johnson city, TN) $1,060,250
- Bartholomew Construction of Hendersonville North Carolina was the lowest responsive, responsible bidder; however the low bid exceeded the budget for the project so the City entered into negotiations with the lowest responsible bidder on July 6, 2020.
- Those negotiations resulted in a revised total contract price of $435,723.18.
- The construction will start by the middle of September. The contractor has 120 days to perform the work. The work is scheduled to be complete by the middle of January 2021.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. Three percent of the total dollar amount of this contract will be performed through a certified MWBE. Hemphill Concrete from Pisgah Forest, NC is the certified MWBE subcontractors on this project.

Council Goal(s):
- Transportation and accessibility,
- A well planned and livable community.

Committee(s):
- None.

Pro(s):
- Project works towards fulfillment of the General Obligation Bond.
- Will fill in sections of missing sidewalk that add to pedestrian safety.
- Project scope remains the same even though bid price was lowered to complete the project.

Con(s):
- Possible reduced levels of service for automobiles during the day while being constructed.
- Staff time will be used to administer the project until its completion.

Fiscal Impact:
- Funding for the Fulton Streets Improvements project is included in the General Obligation Bond Program.

Motion:
- Move to adopt a resolution authorizing the City Manager to enter into a contract withBartholomew Construction of Hendersonville North Carolina in the amount of $435,723.18 for the construction of the Fulton Street sidewalk project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $43,900 (10%).

RESOLUTION BOOK NO. 41 - PAGE 397

J. RESOLUTION NO. 20-141 - RESOLUTION AUTHORIZING THE CITY MANAGER TO GRANT A SEWER EASEMENT TO HAWTHORNE AT HAYWOOD APARTMENTS, LLC

Action Requested: Adoption of a resolution authorizing the City Manager to grant a sewer easement to Hawthorne at Haywood Apartments, LLC

Background:
- The City was approached by a local developer who is building a new phase of the Hawthorne at Haywood Apartments and needs a connection to the nearest Metropolitan Sewerage District (MSD)sewer line.
- The closest opportunity for sewer connection is a line on Eastview Circle.
- The N.C. Dept. of Transportation does not allow sewer within the roadway of Eastview Circle and no remaining right of way outside of pavement is accessible for the sewer installation.
- The only feasible connection left is across city property (9618-90-5267) at the intersection of Old Haywood and Eastview Circle.
- The Real Estate Division consulted other City departments to determine whether it would be in the City's best interest to allow this easement on City property.
- The Asheville Fire Department uses the property as a fire station and Asheville Police Department has a traffic division at this location.

- Representatives of both departments indicated that they had no objections to this sewer extension.
- The Streets Department was also consulted and they have no objection.
- City Council initially authorized this transaction on 5/26/2020, however original estimates of the easement were too low and had to be revised after a survey was done in the field. The original request of 2,000 square feet has now been increased to a total area of +/- 2736 square feet. The width of 20 feet is mandated by MSD regulation specifying minimum width.
- Fair Market Value has been determined to be $6,594 and the developer has agreed to pay this amount.

Council Goal(s):
- A Well Planned and Livable Community

Committee(s):
- None

Pro(s):
- Project will bring much needed rental units to the Asheville area.
- City is receiving compensation for the easement.

Con(s):
- There will be temporary disruption on City property during construction.

Fiscal Impact:
- City is receiving unbudgeted revenue for the easement in the amount of $6,594

Motion:
- Motion to approve the resolution authorizing the City Manager to grant a sewer easement to Hawthorne at Haywood Apartments, LLC

RESOLUTION BOOK NO. 41 - PAGE 398

K. RESOLUTION NO. 20-142 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE A GRANT AGREEMENT WITH THE ASHEVILLE-BUNCOMBE COMMUNITY LAND TRUST FOR $1 MILLION IN AFFORDABLE HOUSING BOND DOLLARS TO BE USED FOR CAPITAL COSTS AND $100,000 IN HOUSING TRUST FUND DONATION FUNDS TO BE USED FOR STAFFING AND OPERATIONS COSTS

RESOLUTION NO. 20-143 - RESOLUTION AMENDING RESOLUTION NO. 17-198 TO CHANGE THE UNIT GOAL FOR THE COMMUNITY LAND TRUST

Action Requested: Authorize the City Manager to enter into a Grant Agreement with the Asheville Buncombe Community Land Trust (ABCLT) for $1M in Affordable Housing Bond dollars to be used for capital costs and $100,000 in Housing Trust Fund (HTF) donations revenue to be used for operational costs; and an amendment to Resolution No. 17-198, correcting the unit goal for the Land Trust.

Background:

ASHEVILLE BUNCOMBE COMMUNITY LAND TRUST
- The mission of the ABCLT is to provide permanently affordable homeownership opportunities for low income individuals and families in Asheville and Buncombe County with a vision to create a thriving community where all are welcome.

- A community land trust creates permanently affordable housing by reducing the affordability gap by acquiring the land that remains "in trust" for the benefit of the community.
- The homebuyer purchases the home outright and leases the land from the community land trust through a ground lease.
- The homebuyer agrees to a resale formula that outlines the sale price of the CLT home and shared equity based on the increased value of the home at the time of sale.
- City Council has maintained a goal for several years to assist in the establishment of a CLT.

Council Goal(s):
- A Diverse Community
- Thriving Local Economy
- A Financially Resilient City

Committee(s):
- None

Pro(s):
- A Grant Agreement between the City of Asheville and the ABCLT will assist in the production and preservation of affordable housing, as well as spending the Affordable Housing Bond dollars in a timely manner.
- Approval of a one time $100,000 capital injection donated by Deerfield Retirement Center via the City of Asheville to the ABCLT assists the agency with their capacity and overall success by supporting a full-time Executive Director and the purchase and sale of affordable housing.
- A successful ABCLT has the potential to bring more homeownership opportunities to the City of Asheville in an equitable and diverse way by assisting our low and moderate income individuals and families.

Con(s):
- Precedent of assisting organizations with Administration funding to fulfill their mission in a time of a falling budget.

Fiscal Impact:
- As noted earlier in the staff report, funding for the $1.0 million grant agreement with ABCLT will come from the General Obligation (GO) Bonds that citizens approved in November 2016.
- The one-time $100,000 in operational support will come from a Housing Trust Fund donation made by the Deerfield Retirement Center.
- Both the GO Bond dollars and the donations have already been budgeted.

Motion:
- Approve and authorize the City Manager to enter into a Grant Agreement with the ABCLT to access $1 million in Affordable Housing Bond dollars and $100,000 from donations in the Housing Trust Fund; and approve an amendment to Resolution No. 17-198 changing the unit goal for the community land trust from 35 units to 8-10 units. .

RESOLUTION NO. 20-142 - RESOLUTION BOOK NO. 41 - PAGE 399
RESOLUTION NO. 20-143 - RESOLUTION BOOK NO. 41 - PAGE 401

L. MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 8, 2020, TO CONSIDER EXTENDING THE TEMPORARY MORATORIUM ON HOTEL

DEVELOPMENT FOR TWO MONTHS DUE TO DELAYS ASSOCIATED WITH COVID-19 PANDEMIC

M. RESOLUTION NO. 20-144 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RATIFY THE PARATRANSIT SERVICES AGREEMENT WITH BUNCOMBE COUNTY AND APPROVING AN AMENDMENT TO THE AGREEMENT TO INCREASE FUNDING IN THE CURRENT CONTRACT

Action Requested: Adoption of a resolution authorizing the City Manager to ratify the Paratransit Services Agreement with Buncombe County and to amend the agreement to increase the contract amount by $14,002.46 for services provided in FY 2020 and to include $1.3 million in the agreement to pay for paratransit services to be rendered in FY 2021.

Background:

- On September 24, 2013, Council approved a resolution authorizing the City Manager to contract with Buncombe County to provide paratransit services through Mountain Mobility.
- The original budget for paratransit services for FY 2020 was $735,000. An additional contract amount of $14,002.46 is needed to pay remaining invoices from FY 2020.
- Staff is also requesting approval of a change order to include $1.3 million in the contract to pay for paratransit services to be rendered in FY 2021.
- Per N.C. General Statute §160A-461, inter-local agreements must be ratified by the City Council.
- This action includes ratification of the original 2013 agreement, as well as the amendment to increase funding in the service contract for the provision of paratransit services for FY 2020 and FY 2021.

Council Goal(s):

- Transportation and Accessibility

Committee(s):

- None

Pro(s):

- Ensures sufficient funding is available to pay for services as required by contractual agreement.
- Assures the City is able to pay for services rendered for the months of April, May and June 2020, and for FY 2021.

Con(s):

- None

Fiscal Impact:

- Funding for the contracts amount is included in the adopted Transit Services Fund budget.

Motion:

- Adopt a resolution authorizing the City Manager to ratify the Paratransit Services Agreement with Buncombe County and to amend the agreement to increase the contract amount by $14,002.46 for services provided in FY 2020 and to include $1.3 million in the agreement to pay for paratransit services to be rendered in FY 2021.

Vice Mayor Wisler expressed her disappointment that Buncombe County discontinued its subsidy of paratransit service. In this time of budget shortfalls and the coronavirus, this is a very poor time to be pulling that funding and does not reflect well on partnership opportunities with the County.

RESOLUTION BOOK NO. 41 - PAGE 402

N. RESOLUTION NO. 20-145 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH HARRISON CONSTRUCTION COMPANY, DIVISION OF APAC ATLANTIC, INC. FOR THE LIVINGSTON STREET (FROM DEPOT STREET WEST THROUGH TRAFFIC CIRCLE) AND RESERVOIR ROAD RESURFACING PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract with Harrison Construction Company Division of APAC Atlantic, Inc. in the amount of $383,900 plus a 15% contingency of $57,585 for a total of $441,485 for the Livingston St. (Depot Street west through traffic circle) - Reservoir Road Resurfacing contract.

Background:

- The contract provides for the resurfacing of Livingston Street starting at Depot Street west through the traffic circle and for the resurfacing of Reservoir Road.
- The project was advertised on July 15, 2020, and bids were opened on July 30, 2020.
- The following six bids were received:
  Harrison Construction Company Division of APAC Atlantic, Inc., Asheville, NC
  $383,900.00
  Rogers Group, Inc, Hendersonville, NC
  $409,802.50
  Bryant's Land and Developments Services, Inc., Burnsville, NC
  $454,869.20
  Tar Heel Paving, Inc, Hendersonville, NC
  $522,129.98
  JLS Company, LLC, Arden, NC
  $556,684.19
  French Broad Paving, Marshall, NC
  $576,540.00

- Construction is anticipated to start in late September 2020 and be completed by the end of November 2020.

Vendor Outreach Efforts:

- Staff performed outreach to minority- and women-owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. Two minority or women-owned business enterprises submitted a bid to be the prime contractor on the project.
- The lowest responsive bidder, while not a minority or woman-owned business, will be using DBE and WBE companies to perform work that amounts to 6.6% of the total bid price.

Council Goal(s):

- This action aligns with the 2036 City Council Vision in that it will make "getting around Asheville easy" (Transportation and Accessibility) and "maintain and improve the City's infrastructure" (Smart City).

Pro(s):

- Provides for the resurfacing to two sections of road in poor condition.

Con(s):

- Repairs will cause temporary disruption to pedestrian and vehicular traffic.

Fiscal Impact:

- Funding for this contract is coming from resurfacing funds within the Capital Improvement Program (CIP) budgets already approved for resurfacing projects.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Harrison Construction Company Division of APAC Atlantic, Inc. in the amount $383,900 plus a 15% contingency of $57,585, for a total of $441,485, for the project known as Livingston St. (Depot Street west through traffic circle) - Reservoir Road Resurfacing.

RESOLUTION BOOK NO. 41 - PAGE 403

O. RESOLUTION NO. 20-146 - RESOLUTION AMENDING CITY COUNCIL'S RULES OF PROCEDURE TO UPDATE OUR LOCAL RULES TO COINCIDE WITH RECENT CHANGES IN STATE LAW ON LAND USE AND DEVELOPMENT AS WELL AS MODERNIZE AND CLARIFY OTHER PROVISIONS

Action Requested: Adopt Resolution amending the Rules of Procedure of the Asheville City Council to comply with a North Carolina Session Law 2019-111, Part I, commonly referred to as "160D" and Part II, and to incorporate several updates.

Background:

- A collaborative effort between North Carolina land use attorneys, the University of North Carolina - School of Government and North Carolina legislators resulted in Session Law 2019-111 "AN ACT TO CLARIFY, CONSOLIDATE, AND REORGANIZE THE LAND-USE REGULATORY LAWS OF THE STATE." adopted July 11, 2019.
- As the law's title states, the purpose of 160D is to clarify and reorganize the land use/development related laws of the State and to consolidate these laws into one chapter in order to provide a uniform set of statutes applicable to both cities and counties.
- SL 2019-111 Part II also made some changes to other statutes that were indirectly related to land use law (i.e. 160A-75 Voting).
- The new law contains a number of legislative changes which a local government ***must*** take action to adopt, but it also contains permissive legislative changes which a local government ***may*** choose to adopt or not.
- Originally, parts of 160D became effective immediately while most of it was not to become effective until January 1, 2021, however, on **June 19, 2020, the General Assembly enacted legislation -S.L. 2020-25-making Chapter 160D and associated changes to other statutes effective immediately.**
- The law provided flexibility to local governments in the timing for adoption of amendments to conform local development regulations to the new statutes. **Local governments may enact their amendments now, but are not required to do so until July 1, 2021.**
- The proposed amendments to the Rules of Procedure contain two revisions that are required by the new law.

- 1) Local government governing and advisory boards that vote on land use and development regulations, must adopt broadened conflict of interest standards. (G.S. 160D-109). 160D-109(a) states: *"A governing board member shall not vote on any legislative decision regarding a development regulation adopted pursuant to this Chapter where the outcome of the matter being considered is reasonably likely to have* ***a direct, substantial, and readily identifiable financial impact*** *on the member. A governing board member shall not vote on any zoning amendment if the landowner of the property subject to a rezoning petition or the applicant for a text amendment* ***is a person with whom the member has a close familial relationship, business, or other associational relationship.***"[emphasis added] The latter part of this requirement is new, in that a conflict of interest can exist even if there is no direct financial impact, which has been the standard to this point. City Council Rule 22. VOTING, has been amended to reflect this new conflict of interest standard.
- 2) Must permit adoption of a legislative decision for development regulation on first reading by simple majority; no need for two-thirds majority on first readings as was previously required under 160A-75 Voting. This is a welcome change and will allow for a more expedited decision-making process for planning approvals. City Council Rule 23. ADOPTION OF ORDINANCES AND RESOLUTIONS, has been amended to reflect this statutory change.

- Additional, non-statutory related amendments to the Council Rules of Procedure have also been made in order to modernize and more clearly reflect current procedures.

Council Goal(s):

- A Well-Planned & Livable Community

Pro(s):

- Proposed changes will align the city's development standards, practices and procedures with current North Carolina state law.
- Modernizes outdated language.
- Creates objective standards for ministerial decisions.
- Clarifies practices and procedures for the development community.
- Updates written rules to coincide with current Council procedures

Con(s):

- This is a legislative mandate and while some proposed changes reduce flexibility and/or discretion it is necessary to revise these practices to be consistent with state law.

Fiscal Impact:

- None

Motion:

- Move to approve the amendments to the City Council Rules of Procedure.

RESOLUTION BOOK NO. 41 - PAGE 404

P. RESOLUTION NO. 20-147 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH THE JOHN R. MCADAMS COMPANY INC. FOR THE CARTER-ANN STORMWATER IMPROVEMENTS PROJECT - CONTRACT AMENDMENT 3

Action Requested: Adoption of a resolution authorizing the City Manager to execute a contract amendment with The John R. McAdams Company Inc. in the amount of $182,970 and to enter

into change orders to this contract phase, if needed, not to exceed a contingency amount of $27,445.50 (15%) for a Phase 2 professional services budget of $210,415.50 for the Carter-Ann Stormwater Improvements Project - Contract Amendment # 3.

Background:

- The approved Professional Services Phase 1 budget for this project was $73,410 with a contingency of $14,682 for a total budget of $88,092. Amendment # 1 utilized the contingency and increased the contract amount by $15,500 for a total contract amount of $88,910.
- Amendment #2 Increased the time frame for the completion of Phase 1 without increasing the budget.
- This project is to replace, improve, and bring parts of the existing Stormwater system along Carter Street through Patton Avenue and down Ann Street within the City Right of Way. This project is aimed to reduce flooding, replace failing infrastructure and make the system easier to maintain. The overall construction phase of this project would last approximately 5 months.
- The RFQ for this project was advertised on February 16, 2019, with Statements of Qualifications received on February 28, 2019.
- Ten (10) consulting firms submitted Statement of Qualifications. After qualifications were reviewed, a short list was made and on April 11, 2019 city staff conducted interviews. The John R. McAdams Company Inc. was selected as the best qualified firm.
- The Contract between the City of Asheville and The John R. McAdams Company Inc. was entered into on December 26, 2019.
- Without knowing the extent of failures, capacity of the existing infrastructure, or influence on the surrounding utilities, Phase 1 was to conduct due diligence and preliminary engineering design so that a determination could be made on how best to move forward with Phase 2 to complete the design and take the project through construction. The first phase was under the threshold for the City Manager's signature authority.
- Professional Services, including Final Design, Permitting and Construction Administration for the contract would proceed immediately after approval of the Contract Amendment.
- The phase 2 design of this project should be completed by the first part of November. The schedule for Construction Administration would be through June 2021, dependent on any issues that might arise during Permitting.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women-owned businesses through solicitation processes which included posting on the State's Interactive Purchasing System, City of Asheville website, City of Asheville Twitter Account, and requiring engineering firms to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- Past engineering firms who have shown interest in bidding on City of Asheville projects were informed about the project's advertisement. During preparation for advertising this RFQ, the contract was shared with the Business Inclusion staff in the Community & Economic Development Department.
- Out of the ten (10) qualifications received, no consultant firm was Minority Business or Women Owned Business certified. Eight (8) of the firms submitting qualifications proposed reaching out and utilizing MWBE subcontractors for portions of the project.
- The John R. McAdams Company was chosen for the design because of their qualifications specific to the needs of this project.
- Although we conducted outreach, there was not any minority participation.

Council Goal(s):

- A Financially Resilient City

Committee(s):
- None

Pro(s):
- The contract amendment will allow The John R. McAdams Company to continue with the design and construction phase of this infrastructure project.
- The Stormwater improvement project will replace failing infrastructure.
- Increase the performance and conveyance of Stormwater along this corridor.
- Make these systems easier to maintain in the future.

Con(s):
- Construction may be somewhat disruptive to nearby residences.
- Efforts will be made to notify the public and minimize disruptions.

Fiscal Impact:
- Funding for this contract is already budgeted in the Stormwater Utility Fund Capital Improvement Program (CIP).

Motion:
- Motion to adopt a resolution authorizing the City Manager to execute a contract amendment with The John R. McAdams Company, Inc. in the amount of $182,970 and to enter into change orders to this contract phase, if needed, not to exceed a contingency amount of $27,445.50 (15%) for a Phase 2 budget of $210,415.50, and for a total professional services budget amount of $299,325.50 for the Carter-Ann Stormwater Improvement Project.

RESOLUTION BOOK NO. 41 - PAGE 421

Q. RESOLUTION NO. 20-148 - RESOLUTION AUTHORIZING THE PROCUREMENT OF KEY BOX ACCESS EQUIPMENT AND SECURITY OF COMMERCIAL BUILDINGS FOR THE ASHEVILLE FIRE DEPARTMENT FROM SOLE SOURCE VENDOR KNOX COMPANY

Action Requested: Adoption of a resolution authorizing the procurement of key box access equipment and security of commercial buildings for the Asheville Fire Department from sole source vendor Knox, Company

Background:
- The City of Asheville's Code of Ordinances Chapter 6 Fire Prevention Protection Section 6.2 Amendments 506.1 reads "where required, the fire code official is authorized to require a key box to be installed in an approved location. The key box shall be of an approved type, listed in accordance with UL 1037, and shall contain keys to gain necessary access as required by the fire code official."
- When called to a scene, these key boxes allow Asheville Fire Department responders to gain entry into a commercial building.
- These key boxes allow for rapid entry, avoid unsafe forced entry, and minimize property damage.
- The brand of key box used by all commercial buildings to comply with Chapter 6 of the City's ordinance is Knoxbox by Knox, Company.
- All Asheville Fire Department vehicles and apparatus have a Knoxbox key box installed inside
- Knoxbox has supplied this equipment for thirty years within the City.

- With the FY19-20 purchase of eight should there be a number after this hashtag? replacement vehicles, purchasing one Knoxbox to be installed in each of these eight vehicles pushes the total cost of the purchase above the $5,000 threshold.
- The Asheville Fire Department believes this an appropriate catalyst for codifying a specific brand of key boxes that until now has only been a standard practice, which will allow for consistency between the City of Asheville and those doing business in non-residential structures within the City.
- The cost of eight Knoxboxes for eight replacement vehicles is $7,751.08.

Vendor Outreach Efforts:
- Knox, Company is the only manufacturer and distributor of a Knoxbox.

Council Goal(s):
- Smart City

Committee(s):
- None

Pro(s):
- Sole Source of Knox, Company Knoxboxes will ensure consistency and compatibility among fire apparatus, fire vehicles, and commercial buildings and structures across the City

Con(s):
- If sole source is not authorized, and a bid for key boxes is issued, the lowest bidder may not be Knox, Company. All owners and occupants of commercial buildings within the City would need to purchase a compatible key box.

Fiscal Impact:
- Funding for this purchase will come from a previously approved budget within the Capital Improvement Program (CIP) as part of the annual vehicle replacement program.

Motion:
- Move to adopt a resolution authorizing the procurement of Knoxbox key box access equipment and security of commercial buildings for the Asheville Fire Department from sole source vendor Knox, Company

RESOLUTION BOOK NO. 41 - PAGE 422

R. MOTION APPROVING THE BOARD OF ALCOHOLIC BEVERAGE CONTROL'S TRAVEL POLICY ADOPTED JANUARY 26, 2016

Summary: Each year the N.C. ABC Commission, in compliance with Chapter 18-B700, Article 7, g (2), requires its ABC boards to get annual approval of board travel policies from their appointing authorities. Section g (2) of 18B-700 states, "The local board shall annually provide the appointing authority's written confirmation of such approval...".

The ABC Board formally requests the City of Asheville's written confirmation of the Asheville Board of Alcoholic Control Travel Policy.

S. RESOLUTION NO. 20-155 - RESOLUTION RELATING TO NORTH CAROLINA HOUSE BILL 1200, FORECLOSURE GRANTS/RENTAL AND UTILITY ASSISTANCE

Summary: (1) The City Council of Asheville urges legislators to restore North Carolina House Bill 1200 to its original intent of providing $100 million for rental assistance in North Carolina and $100 million in mortgage assistance in North Carolina and to pass this bill upon reconvening on September 2; (2) The City Council of Asheville urges Governor Cooper to reenact a statewide moratorium on eviction actions on residential rental property and a moratorium on the assessment of late fees on rental payments, as well as reporting such situations to a credit bureau or debt collection agency; (3) The City Council of Asheville urges landlords of residential property within the City currently pursuing an eviction action to voluntarily dismiss such action until the unemployment levels fall back to pre COVID-19 figures; and (4) The City Council of Asheville urges landlords of residential property within the City to not pursue an eviction action nor charge or assess any late payment fees against the tenant until the unemployment levels fall back to pre COVID-19 figures.

RESOLUTION BOOK NO. 41 - PAGE 429

Councilman Mayfield reminded the public that this Consent Agenda contains many of Council's priorities, such as lowering speed limits and truck prohibitions for public safety; contract with Green Built Alliance for clean and sustainable energy; expanding our transit fleet; and funds to Community Land Trust to advance affordable housing.

An individual asked that the September 22 agenda be light in order for the Council to focus on the budget amendment, and appreciated the temporary moratorium on hotel development.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously by roll call vote.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT - 30/60/90 DAY WORK PLAN

City Manager Campbell reviewed the following presentation overview on her 30/60/90 Day Plan with Council: (1) On June 9, staff presented a 30/60/90 Day Work Plan and over the past several meetings have updated Council and the community on our work; (2) The 30/60/90 Day Work Plan was developed in response to numerous requests from the Black Asheville Demands coalition to address specific racial justice and economic inclusion issues; and (3) The Work Plan reflects when we would **start** working on these requests.

For 30 days, (1) Resolution to remove monuments and creation of task force (a) Vance monument shrouded; Lee monument removed; and (b) Task Force orientation completed last week; and (2) Work with the community on the renaming of streets (a) Met with African American Heritage Commission and (b) Continuing Community Engagement to develop next steps

For 60 days, (1) Continue partnering with Asheville City Schools (ACS) and Buncombe County Schools to address Opportunity Gaps (a) Parks and Recreation partnering with ACS to create community learning centers or learning pods in city facilities; (b) ACS teachers will provide educational instructions; (c) Parks and Recreation will offer recreational activities; (d) Targeting black and brown students especially those in public housing communities; and (e) Operate 7 days a week 8:00am to 8:00pm; (2) Initiate conversations with the district attorney's office regarding the probation decision for Mr. Hickman (a) City Attorney's office working with DA's office and Restorative Justice process related to probation process; (3) Initiate conversations to Defund

the Police budget by 50% Defund/Divest/Invest Strategy; and (4) Initiate conversations to Defund the Police budget by 50% (a) Defund/Divest/Invest Strategy; and (b) Community Engagement.

For 90 days, (1) Provide protocol, practices and resource allocation data from the Equity and Inclusion Department on the our City Website; (2) Better understand and work through solutions for remaining demands; (3) Utilize best practices to recruit people of color; and (4) Develop Race and Gender Conscious Policy in response to the disparity study as part of City contracting and procurement (a) Draft Policy completed; Council review Sept. 8.

Public Engagement Process (1) Step 1 (complete): Get feedback on an approach from key focus groups; (2) **Step 2 (in process): Host Community Meetings; and (3)** Step 3: Report, Recommendations and Implementation.

From focus group responses, we learned (1) Use paid facilitators, not city staff; (2) Need to have authentic conversations about types of change that's really possible; figure out what's broken and commit to making changes; (3) Convene smaller groups so people have optimum opportunities for genuine input; (4) Use lots of mediums for input, questionnaires, blogs, face to face meetings, etc.; and (5) Make a special effort to hear from most impacted populations, Blacks, Indigenous, and Latinx

Regarding facilitation services (1) Issued Request for Interests; (2) Posted on August 7, 2020; (3) 6 Proposals submitted on August 14, 2020; (4) Sent to 10 local groups and only 2 responded; (5) Interdepartmental Team selected two teams; and (6) Costs for services not to exceed $10,000.

Facilitators teams selected are (1) Shemekka Ebony Coleman, MS, Founder of Shemekka Ebony, Founder of Black Girl Magic Market, Co-Founder I am Brilliant and the CROWN Campaign, Raleigh; (2) Glenn Thomas, Project Facilitator, Amplify Community Consulting Founder and Managing Partner of Leadership Matters Group; and (3) Christine Edwards, Founder and Principal Amplify Community Consulting (Amplify Charlotte).

Regarding the public engagement process, **(1)** Facilitators will hold virtual and small group in-person meetings; (2) Facilitators will connect with small groups focusing on some of the most impacted (a) (e.g., Black, Indigenous, & People of Color, People who live in public housing, Victims of Crime, Parents, People without housing); (3) Street team will go out into the community and meet people where they are; (4) Facilitators have included opportunities to compensate and/or provide professional development for a limited number of people representing most impacted groups; and (5) City staff will provide surveys, questionnaires, blogs same questions as facilitated experience. Week of Aug. 24 - Dates for upcoming engagements finalized; Launch website page 8/27; Promote engagement dates. Week of Aug. 31 - Promote engagement dates/survey information; Virtual Community Engagement Meeting - Intro 9/4. Week of Sept. 7 - Virtual Community Engagement Meetings; In-person small group meetings - focus on most impacted groups.

Step 3 of the Public Engagement Process is Report, Recommendations and Implementation (a) Develop Preliminary Recommendations for Divesting/Investing (Sept. 3- 22); (b) Implementation of first round of Divesting/Investing Strategies (Sept. 22 and on-going); and (c) Begin next round of discussions (if necessary) Nov./Dec.

Key takeaways include (1) Our City is operating in unprecedented times and being challenged with economic, social, racial and public health issues that we have never experienced **all** at the same time; (2) People are experiencing and expressing valid feelings of sadness, anger, fear and uncertainty; (3) As evidenced by numerous requests, the community often looks to and expects local government to calm their fears, to provide resources to address their issues

and concerns; (4) We often can't respond or move as fast as most would want us to due to complexity of issues and/or available resources; and (5) Reassure the community that we hear you and commit to working with you for as long as it takes to make our City better for all people.

City Manager Campbell responded to questions raised by Councilwoman Mayfield and Councilwoman Smith.

B. UPDATE FROM CITY ATTORNEY ON ASHEVILLE POLICE DEPARTMENT PROTEST RESPONSE EVALUATIONS

City Attorney Branham said that he will provide City Council with an update from a recent meeting of the Public Safety Committee. On July 28, this Committee met, and voted on several recommendations for the consideration of the full Council, or for continued work by City Staff and the Committee regarding public safety issues.

The primary element of this is the evaluation of the Asheville Police Department (APD) protest response. Council had originally requested a dual pronged approach - An internal review of the decision making process performed by the City Attorney's Office, and a full evaluation of the response by an outside agency. Thereafter, Council made the determination it would not move forward with the external evaluation. As a result, the Public Safety Committee reviewed the alternative options and made the following recommendations:

- The first recommendation was the City Attorney's Internal Review would still be completed and presented to Council, and
- APD would now perform a full after-action review of events and officer conduct from the protests.
    - This will include a report on findings, and
    - Any appropriate discipline will flow from this, but
    - Laws on personnel privacy will limit what is shared.
- Upon these recommendations by the Committee, APD has already started their evaluation process.
- The Internal Review will also be completed shortly, and it is my intent to present this to the full Council at the Sept. 8th meeting.

- The second recommendation from the Committee involved the Release of Body Cam Footage taken during the protests to the Council.
    - This action requires direction from the full Council.
    - Taken up later

- The last three recommendations discussed by the Committee were: (1) Seeking expert advice and recommendations on best practices for crowd control tactics; (2) Establishing a means for participants of the recent demonstrations to share their accounts of police interactions; and (2) Reviewing potential policy changes such as use force allowances.
- Regarding the last item on the City's use of force and officer conduct policies, he reported that some of this effort is also already underway.
    - Recently, the Governor appointed a task force on Racial Equity in Criminal Justice, and it just released its recommendations. Two of those applied directly to Local law enforcement agencies.
    - First, the Task Force recommended that all such agencies in North Carolina enact a policy articulating a duty to intervene and report in any case where a law enforcement officer may be a witness to what they know to be an excessive use of force or other abuse of a suspect or arrestee.

- Next, the Task Force recommended that all North Carolina law enforcement agencies enact a Use of Force policy that, at a minimum, prohibits neck holds in all cases, "unless necessary to protect the life of the officer." (Currently, our policy allows for this action when it is "reasonably believed to be necessary within the guidelines and in compliance with the law.")
- Now that we have received these recommendations from the Governor's committee, the City Attorney's office is coordinating with APD on reviewing and implementing these policy updates.

- As for the remaining items,(*Seeking expert input on future crowd control practices, and providing a means to receive the accounts of protests participants)* City staff intends to continue to work directly with the Public Safety Committee to bring these matters forward for more information at the next Public Safety meeting.

City Attorney Branham, along with City Manager Campbell, responded to various questions/comments from Council.

A. UPDATE ON CITY COUNCIL VACANCY

Mayor Manheimer said that Vijay Kapoor has resigned as a Council member and Council has to appoint the vacancy. Thirty applications have been submitted. The following individuals applied for the vacancy left by former Councilman Vijay Kapoor: Andrew R. James, Cory Bell, Corey Michael Boughton, Jonathan King, Lawrence E. Pierce, Nicholas Blaise Schulten, Patsy Keever, Robert Elijah Thomas Jr., Tracey Ann Jacobson, William E. Greene, ZaKiya Bell-Rogers, Dema Badr, Sandra Kilgore, Erin Connors, Monisha Mills, Pratik Bhakta, Sharon K. West, Myra Grant, Tim Kelley, Catherine Rosfjord, Albert Norman, Angela Hope McManhan, James Vaughn, Brain Loftus, S. Antanette Mosley, Nina Tovish, Adarrell Gadsden, Richard G. Lee III, George Sieburg and Andrew Fletcher.

Mayor Manheimer explained the process in that the City Clerk had asked for Council's top 2 choices for interviews. After tallying the results, City Council will interview the following candidates on September 8, 2020: Robert Elijah Thomas Jr, ZaKiya Bell-Rogers, Sandra Kilgore, Pratik Bhakta, S. Antanette Mosley and Richard G. Lee III. She noted that all the interviewees received at least one Council request to be interviewed. Interviews will be held on September 8, 2020, in this remote meeting format and open to the public. Each interview will be 20 minutes. City Council will also vote at their September 8 meeting on the new member, who will be sworn in on September 22. There is no prohibition on a candidate reaching out to City Council prior to the interviews.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO AMEND THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT 5-YEAR CONSOLIDATED ACTION PLAN

Vice-Mayor Wisler moved to continue this public hearing to amend the U.S. Dept. of Housing & Urban Development 5-Year Consolidated Action Plan until October 13, 2020. This motion was seconded by Councilman Young and carried unanimously by roll call vote.

B.1. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE AMENDING SECTION 7-2-5 DEFINITIONS, 7-11-3 (d), 7-12-2(e)2(d) AND ESTABLISHING A NEW SECTION 7-9-1 RESOURCE MANAGEMENT

OVERLAY DISTRICT, AND A NEW ARTICLE XIX TREE CANOPY PRESERVATION

PUBLIC HEARING TO AMEND THE FEES & CHARGES MANUAL FOR FISCAL YEAR 2020-21 TO ESTABLISH A FEE-IN-LIEU OF OPTION FOR TREE REMOVAL (LAND, ADMINISTRATION, INSTALLATION)

Mayor Manheimer said the three public hearings regarding the tree canopy preservation ordinance will be discussed as one, along with one public hearing. However, each of the three actions will require an individual vote.

Site Planning & Development Division Manager Chris Collins said that this is the consideration of (1) an amendment to the Unified Development Ordinance to amend Section 7-2-5 Definitions, 7-11-3(d), 7-11-3(f)2, 7-12-2(e)2(d) and establishing a new Section 7-9-1 Resource Management Overlay District, and a new Article XIX Tree Canopy Preservation; and (2) amending the Fees & Charges Manual for Fiscal Year 2020-21 to establish a fee-in-lieu of option for tree removal (land, administration, installation).

Background:

- New standards will create existing canopy-sensitive requirements for preservation and replanting of existing tree canopy when most land development activity occurs.
- These standards are designed to incentivize and promote existing canopy preservation over newly planted trees.
- In addition to centering around canopy preservation, the proposed text amendment will introduce requirements to preserve trees in commercial development and minor subdivisions where those requirements do not currently exist.
- The draft zoning standards have been reviewed by city staff from the Development Services Department, Planning & Urban Design and the City Attorney's office.
- Additionally, the draft ordinance has been presented to and/or reviewed by the Urban Forestry Commission, the Planning & Economic Development Committee, the Downtown Commission, the Development Customer Advisory Group, the Sustainability Advisory Committee and the Asheville Chamber of Commerce & Economic Development.
- City staff presented the ordinance at a public webinar hosted by Asheville Greenworks on August 19.
- The ordinance has received positive feedback from the Development Customer Advisory Group and support from the Urban Forestry Commission.
- On 7/1/2020, the Planning & Zoning Commission (PZC) recommended denial of the wording amendment while expressing concerns with the lack of concessions for affordable housing, the effect upon cost of development and possible barriers to increased density in the downtown area.
- In response to the PZC recommendation, staff has conducted an analysis of projects receiving LUIG funds for affordable housing over the last 5 years and found some to be in compliance already and all to be likely to meet the requirements via planting or preserving trees.
- All housing developments in the City, including affordable housing developments, are likely to benefit greatly from enhanced and increased tree canopy. The inclusion of affordable housing developments in the application of the ordinance accordingly addresses important environmental justice and equity concerns.
- The Resource Management Districts referenced by this ordinance are proposed as an overlay district as a separate item on this agenda.

Comprehensive Plan Consistency: This proposal best aligns with the *Living Asheville Comprehensive Plan* themes of 'A Livable Built Environment' and 'Harmony with the Natural Environment' plan sections that include the following goals:

- Make Streets More Walkable, Comfortable and Connected;
- A Healthy and Expanding Urban Tree Canopy;
- Protect Land and Water Assets; and
- Encourage Naturalized Stormwater Management Techniques, Goal 25, Outcome 2: Minimize growth of impervious surfaces citywide.

In addition, this proposal is consistent with and supports the *Planning for Climate Resilience* (Appendix D of the Comprehensive Plan) as a means to reduce vulnerability and risk due to climate change.

Council Goal(s):

- A well-planned and livable community
- A clean and healthy environment

Committee(s):

- On October 22, 2019 and January 14, 2020, the Development Customer Advisory Group (DCAG) reviewed the proposal.
- On 02/17/2020, the Urban Forestry Commission reviewed the proposal and unanimously recommended support.
- On February 10, 2020 the Planning & Economic Development Committee reviewed the proposal.
- On February 19, 2020 the Sustainability Advisory Committee reviewed the proposal.
- On July 1, 2020 the Planning & Zoning Commission voted to recommend denial of the proposal by a 6-1 vote.

Pro(s):

- Proposed changes will change the focus of the City's tree save provisions to a canopy area based requirement and more directly equate to canopy preservation and provision on privately owned property.
- Multiple options for compliance are built into the ordinance, making the application for a variance a very unlikely option.
- Creates tree preservation and provision requirements for development types that currently have none.
- Allows for a fee-in-lieu payment option when development sites and projects cannot physically comply with planting and preservation requirements which allows for an equitable distribution of tree canopy through administration of the program.
- Will affect an overall reduction in the rate of loss of tree canopy in the City of Asheville.
- Creates a predictable and easy-to-follow process for land development applicants which generally correlates to success in implementation.

Con(s):

- Does not outright disallow the removal of existing trees from sites.
- May increase the financial cost of development on some sites.

Fiscal Impact:

- The ordinance establishes a fee-in-lieu of option, whose specifics are outlined below. These funds would be required to be spent for tree canopy only within a similar district and therefore would not have an overall fiscal impact on the City's operations or budget.

	Current Fee	Proposed New Fee
Fee-In-Lieu for Tree Removal - Land, Admin, and Installation - Downtown	$0.00	$31.44
Fee-In-Lieu for Tree Removal - Land, Admin, and Installation - Urban	$0.00	$5.42
Fee-In-Lieu for Tree Removal - Land, Admin, and Installation - Suburban	$0.00	$4.54
Tree Removal	$0.00	$100.00

- Existing staff will administer the ordinance and no additional Full Time Equivalents are requested at this time.

General highlights are as follows: (1) Allows trees preserved for other UDO requirements to be used; (2) Replaces ground area based Tree Save requirements; (3) Requires permits for future removal of trees in the Tree Canopy Preservation Areas; (4) Allows for multiple methods of calculating existing canopy; (5) Incentivizes preservation over replanting with measurement flexibility and lower total canopy requirements; and (6) Multiple methods of compliance are available. Associated tree changes also include (1) Street Trees: Introducing requirement for developer to maintain for a period of two (2) years after Certificate of Occupancy; and (2) Speculative Grading: Introducing changes to disallow mass grading (including tree removal) on sites without an approved development plan.

The payment in fee component has three components: (1) Average Per Square Foot Land Cost within Resource Management District; (2) Average Cost of Tree Installation Per Square Foot of Tree Canopy; and (3) Administrative Fee to Cover Cost of Administration of Fee-in-Lieu Program.

The key takeaways include (1) Creates a new predictable and flexible requirement to preserve, install or pay a fee-in-lieu of tree canopy for many development types; (2) Provides heavy incentives to preserving valuable existing tree canopy over planting new canopy or paying a fee; and (3) Applies requirements for shade and canopy to all developments within the City outside of one and two family residential units.

Staff recommends approval of the proposed zoning text amendment to establish new standards for Tree Canopy Preservation in Articles II and VII and with the new Article XIX because this is consistent with the *Living Asheville* comprehensive plan in that it directly furthers several goals of the plan while promoting specific Council goals as well.

B.2. PUBLIC HEARING TO CONSIDER ALLOWING THE INITIAL ZONING TO APPLY THE NEW RESOURCE MANAGEMENT OVERLAY DISTRICT TO ALL PROPERTIES LOCATED WITHIN THE CITY OF ASHEVILLE CORPORATE LIMITS

Site Planning & Development Division Manager Chris Collins said that this is the consideration of an ordinance to allow the initial zoning to apply the new Resource Management Overlay District to all properties located within the City of Asheville corporate limits. This public hearing was advertised on August 14 and 21, 2020.

Project Location and Contacts:

- This applies to all properties located within the City of Asheville corporate limits.
- This is a city initiated zoning action led by the Development Services Department with support from the Urban Forestry Commission.

Summary of Petition:

- The application of the Resource Management Overlay District is necessary to support and effectuate the proposed Tree Canopy Preservation development ordinance.
- Session Law 1985-556 titled "AN ACT AS TO THE CITIES OF ASHEVILLE AND RALEIGH CONCERNING TREE REGULATION AND TO ALLOW THEM TO EXERCISE EMINENT DOMAIN POWERS FOR OPEN SPACE" authorizes the City of Asheville to, "Preserve, protect and enhance" trees and other plantings in "resource management zoning districts". This zoning petition is intended to establish a new resource management zoning district as an overlay zoning district.

Comprehensive Plan Consistency:

- This proposal is consistent with the *Living Asheville Comprehensive Plan* aligning with key goals in the *Harmony with the Natural Environment* plan section including "Implement Green Infrastructure and Enhance the Urban Tree Canopy" (p. 208), "Mitigate Flooding and Erosion" (p. 216) and "Protect Land and Water Assets" (p. 218). In addition, this proposal supports the *Planning for Climate Resilience* (Appendix D) as a means to reduce vulnerability and risk due to climate change.

Compatibility Analysis:

- The purpose of the Resource Management Overlay District is to create the regulatory structure to broadly apply a new tree protection standard to all properties in the city that will support efforts to enhance the natural environment and improve climate resilience. As this will apply to all properties, compatibility is ensured.

Council Goal(s):

- A well-planned and livable community
- A clean and healthy environment

Committee(s):

- On July 1, 2020, the Planning & Zoning Commission voted to recommend denial of the proposal due to concerns regarding the associated wording amendment (also denied) and the extent of the authority granted by Session Law 1985-556 which placed stricter requirements on developers.

Pro(s):

- Will be applied broadly across all properties in the city, ensuring consistency and compatibility.
- Supports efforts towards tree canopy preservation and related goals.
- Helps to mitigate vulnerability and risk related to climate change.
- Authority is provided by state law.
- Provides a zoning/regulatory framework for future environmental mitigation.

Con(s):

- Adds a zoning layer and level of review to new development.
- Could increase the cost of development in some instances.

Fiscal Impact:

- There is no direct fiscal impact.

Vice-Mayor Wisler and Councilwoman Mayfield thanked all the staff outreach and work on this ordinance.

Councilwoman Mayfield noted that the Urban Forestry Commission has reached out to the Housing Authority for their housing developments.

Mayor Manheimer opened the public hearing at 6:35 p.m.

Three individuals spoke in support of the tree canopy preservation ordinance.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for the public hearing on an amendment to the Unified Development Ordinance to amend Section 7-2-5 Definitions, 7-11-3(d), 7-11-3(f)2, 7-12-2(e)2(d) and establishing a new Section 7-9-1 Resource Management Overlay District, and a new Article XIX Tree Canopy Preservation will be accepted for an additional 24 hours. Therefore, Councilman Young moved to recess this item until September 8, 2020, at which time this public hearing will be voted. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for the public hearing to amend the Fees & Charges Manual for Fiscal Year 2020-21 to establish a fee-in-lieu of option for tree removal (land, administration, installation) will be accepted for an additional 24 hours. Therefore, Councilwoman Mayfield moved to recess this item until September 8, 2020, at which time this public hearing will be voted. This motion was seconded by Councilman Young and carried unanimously by roll call vote.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for the public hearing on the ordinance to allow the initial zoning to apply the new Resource Management Overlay District to all properties located within the City of Asheville corporate limits will be accepted for an additional 24 hours. Therefore, Councilwoman Mayfield moved to recess this item until September 8, 2020, at which time this public hearing will be voted. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OPEN SPACE REQUIREMENTS

Vice-Mayor Wisler moved to continue this public hearing to amend the Unified Development Ordinance to update open space requirements until October 27, 2020. This motion was seconded by Councilman Young and carried unanimously by roll call vote.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Multimodal Transportation Commission, the following individuals applied for the vacancy: Sandy Aldridge, Kristen Goldsmith and John Bausone. It was the

recommendation of the Chair of the Multimodal Transportation Commission, recommendation of the Boards & Commissions Committee, and consensus of Council to re-advertise for the vacancies.

Regarding the WNC Air Quality Agency Board, Mr. Garry Whisnant applied for the vacancy. It was the consensus of the Boards & Commissions Committee and City Council that the seat be re-advertised.

RESOLUTION NO. 20-149 - RESOLUTION APPOINTING A MEMBER TO THE AFRICAN AMERICAN HERITAGE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the African American Heritage Commission.

The term of DeWayne Barton expired on July 1, 2020.

The following individuals applied for the vacancy: Aaron D. Griffin Sr., Robert Elijah Thomas Jr., and Thomas Ryan.

The Boards & Commissions Committee recommended reappointing DeWayne Barton.

Vice-Mayor Wisler moved to reappoint DeWayne Barton as a member of the African American Heritage Commission to serve an additional three-year term, term to expire July 1, 2023, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 423

RESOLUTION NO. 20-150 - RESOLUTION APPOINTING A MEMBER TO THE GREATER ASHEVILLE REGIONAL AIRPORT AUTHORITY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Greater Asheville Regional Airport Authority.

Ms. Stephanie Brown has resigned, thus leaving an unexpired term until June 30, 2020.

The following individuals applied for the vacancy: Tom Hunter and Susan Russo Klein.

House Bill 1154 was passed by the N.C. General Assembly to stagger the terms of some members of the Airport Board. This legislation affects the term of the City Council appointment of the vacancy by Ms. Brown. This legislation changes the term of this new Board member to a three-year term beginning on July 1, 2020, and then upon expiration of this term, the next term will be for a term of four years. The reason for this legislation is to help stagger the terms so that there are no more than 2 members rolling off the Airport Board on any given year.

At the recommendation of the Airport Authority's CEO, the Boards & Commissions Committee recommended appointing Susan Russo Klein.

Vice-Mayor Wisler moved to appoint Susan Russo Klein as a member of the Greater Asheville Regional Airport Authority to serve the unexpired term of Ms. Brown, term to expire June 30, 2020, and then a full three-term, term to expire June 30, 2023, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 424

RESOLUTION NO. 20-151 - RESOLUTION APPOINTING MEMBERS TO THE AUDIT COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Audit Committee.

The terms of Scott Farkas (CPA seat) and W. Scott Powell expired on May 1, 2020.

No one applied for the vacancies.

Boards & Commissions Committee recommended reappointing Scott Farkas (CPA seat) and W. Scott Powell.

Vice-Mayor Wisler moved to reappoint Scott Farkas (CPA seat) and W. Scott Powell as members of the Audit Committee, to each serve a three-year term respectively, terms to expire May 1, 2023, or until their successors are appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 425

RESOLUTION NO. 20-152 - RESOLUTION APPOINTING A MEMBER TO THE BOARD OF ADJUSTMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Board of Adjustment.

Mr. Daniel Summerlin (Regular member) passed away, thus leaving an unexpired term until January 21, 2023.

The following current Alternates applied for the vacancy: Suzanne Godsey, Carter Webb, Rob Carroll and John Michael Kledis.

The following individuals applied for the vacancy: David Angelus and Rick Freeman.

The Boards & Commissions Committee recommended appointing Carter Webb to the Regular seat filling Mr. Summerlin's unexpired term; and appointing David Angelus to the Alternate seat vacated by Mr. Webb - term to expire January 21, 2021.

Vice-Mayor Wisler moved to appoint (1) Carter Webb as a Regular member of the Board of Adjustment to serve the unexpired term of Mr. Summerlin, term to expire January 21, 2023, or until his successor has been appointed; and (2) appoint David Angelus as an Alternate member of the Board of Adjustment to serve the unexpired Alternate term of Mr. Webb, term to expire January 21, 2021 and then a full three-year term, term to expire January 21, 2023, or until his successor has been appointed.. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 426

RESOLUTION NO. 20-153 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville-Buncombe Historic Resources Commission.

Mr. Craig Cline and Mr. Gordon McKinney have resigned, thus leaving two unexpired terms until July 1, 2022. In addition, the terms of Emily Spreng and Will Hornaday expired on July 1, 2020.

The following individuals applied for the vacancy: Lucy A. Kruesel, J. Wagner and Amanda Vollrath.

It was the recommendation of the Boards & Commissions Committee to reappoint Emily Spreng and Will Hornaday, and re-advertise for candidates with a stronger historical background.

Vice-Mayor Wisler moved to (1) reappoint Emily Spring and Will Hornaday as members of the Asheville-Buncombe Historic Resources Commission to each serve a three-year term respectively, terms to expire July 1, 2023, or until their successors have been appointed; and (2) re-advertise for the two additional vacant seats. This motion was seconded by Councilman Hayes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 427

RESOLUTION NO. 20-154 - RESOLUTION APPOINTING MEMBERS TO THE HUMAN RELATIONS COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Human Relations Commission.

Nieva Arana and Bettie Council have resigned as members of the Human Relations Commission, thus leaving two unexpired terms until June 1, 2021. In addition, Pearl DeBellott has resigned as a member of the Human Relations Commission, whose term expired June 1, 2020. The terms of Mychal Bacoate, Patrick Conant, Ivan Melchor, Tiffany De'Bellott, Davidson Jones and Chris Winebrenner expire on June 1, 2020.

The following individuals applied for the vacancy: Susy Chandler, Melissa Ray, Sam Franklin, Bernie Lee Miller, Veronica Colt, ZaKiya Bell-Rogers, Alexandra DiSclarfani, Britni Worley and Raynetta Waters.

On January 14, 2020, the Boards & Commissions Committee, at the request of the Human Relations Commission, requested these vacancies remain open until June, 2020.

It was the recommendation of the Boards & Commissions Committee to reappoint Ivan Melchor, Tiffany De'Bellott, Davidson Jones and Chris Winebrenner; and to appoint ZaKiya Bell-Rogers and Raynetta Waters. In addition, it was the consensus of the Committee to re-advertise for the three additional vacant seats.

Vice-Mayor Wisler moved to (1) appoint Ranetta Waters as a member of the Human Relations Commission to serve the unexpired term of Ms. Arana, term to expire June 1, 2021, or until her successor has been appointed; (2) appoint ZaKiya Bell-Rogers as a member of the Human Relations Commission to serve the unexpired term of Ms. Council, term to expire June 1, 2021, or until her successor has been appointed; (3) reappoint Ivan Melchor, Tiffany De'Bellott, Davidson Jones and Chris Winebrenner to each serve an additional two-year term respectively, terms to expire June 1, 2022, or until their successors have been appointed; and (4) re-advertise

for the three additional vacant seats. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 428

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

From advanced live call-ins, five individuals spoke to Council, including, but not limited to the following comments: the state of policing in Asheville; defunding the Asheville Police Department; intentionally limiting public comment; removal of Police Chief David Zack; need for a participatory budget; invest 50% of Asheville Police Department budget in long-term safety strategies; immediate hiring freeze within the Asheville Police Department; concern with modern and progressive crowd control techniques; support leaving existing tree canopy and if replaced, replace with native species; reduction in speaking time for the budget public hearing; reduction in number of officers on the streets; technical difficulties at the July 28 budget public hearing not allowing everyone who signed up to speak; Council's rules of decorum; and on-line advanced speaker process.

Closed Session

At 7:04 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). The laws that make the information privileged and confidential are N.C. Gen. Stat. § 143-318.10(e), and N.C. Gen. Stat. § 160A-168; and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a judicial action. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

At 7:50 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:50 p.m.

Magdalen Bleiker
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday - September 8, 2020 - 2:30 p.m.

City Council Vacancy Interviews

Mayor Manheimer announced the two options for the public to watch the interviews.

City Council interviewed S. Antanette Mosley, ZaKiya Bell-Rogers, Robert E. Thomas Jr., Pratik Bhakta, Richard G. Lee III and Sandra Kilgore for the open seat on City Council left by former Councilman Vijay Kapoor.

Tuesday – September 8, 2020- 5:00 p.m.

Regular Meeting

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; email; and advanced live sign-ins.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS/ANNOUNCEMENT:

A. DELIBERATION AND VOTE OF NEW CITY COUNCIL MEMBER

City Attorney Branham explained the process for appointing a new Council member per City Council Rules. The Mayor will open the floor for nominations. Each Council member may nominate a candidate from the six candidates. No second is required. Once no more nominations are made, then the Mayor will close nominations. The Mayor will then open the discussion. After discussion, a roll call vote will be taken - every Council member must vote. If no candidate receives 4 votes, the vote will need to be taken again until a candidate receives 4 votes. If no candidate receives 4 votes, and it seems unlikely to be resolved at the current meeting, the Mayor may recess this agenda item to be taken up at a later date. The Council does have a legal duty to appoint a new member, but no timeframe is required to complete the appointment.

Councilwoman Smith nominated S. Antanette Mosley. Vice-Mayor Wisler seconded the nomination. Councilwoman Smith explained why she felt Ms. Mosley would be the appropriate person to fill the vacant seat.

Councilman Haynes nominated Robert E. Thomas Jr. No second of the nomination is required. Councilman Haynes explained why he felt Mr. Thomas would be the appropriate person to fill the vacant seat.

Vice-Mayor Wisler and Councilman Young were very impressed by all the candidates and acknowledged this is a very difficult decision to put yourself in front of public scrutiny. They appreciated their dedication and interest in this position.

Mayor Manheimer closed nominations.

Mayor Manheimer called for a roll call vote:

Vice-Mayor Wisler - Mosley
Councilman Haynes - Thomas
Councilwoman Mayfield - Mosley
Councilwoman Smith - Mosley
Councilman Young - Thomas
Mayor Manheimer - Mosley

Mayor Manheimer was pleased to announce S. Antanette Mosley as the new City Council member filling the unexpired term of former Councilman Vijay Kapoor, whose term will expire in December, 2022. Ms. Mosley will be sworn in on September 22.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 25, 2020

B. RESOLUTION NO. 20-156 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH CDM SMITH INC. TO PERFORM AN ARC FLASH HAZARD ANALYSIS STUDY

Action Requested: Adoption of a resolution authorizing the City Manager to execute a Professional Services contract with CDM Smith, Inc. for the proposed amount of $289,780 to perform an Arc Flash Hazard Analysis study.

Background:

- On February 14, 2020, the City of Asheville Water Resources Department (WRD) issued a Request for Qualifications (RFQ) from qualified firms with proven experience and expertise to provide professional and engineering services for an Arc Flash Study encompassing the City of Asheville Water Treatment Plants, Pumping Stations, and associated assets.
- An arc flash is a type of electrical explosion or discharge that results from a connection through air to ground or another voltage phase in an electrical system.
- The study identifies the level of risk to staff, proper labeling of equipment and personal protective equipment required, and any retrofitting of equipment to provide a safe working environment for operation and maintenance.
- Brown and Caldwell of Charlotte, NC, GHD of Charlotte, NC, and CDM Smith of Raleigh, NC were the companies who responded to the Arc Flash RFQ.
- CDM was chosen due to their experience performing Arc Flash studies for municipal systems.
- Because upgrades and modifications have occurred at both the treatment facilities and pump stations throughout their operational life cycle, there is a need to analyze these facilities for electrical safety and provide training to staff.
- The scope of services to be performed by CDM Smith include: project meetings, data collection, model development, Arc Flash Study, equipment labeling and safety training.

Vendor Outreach Efforts:

- Through a qualifications based selection process CDM was chosen due to their experience performing Arc Flash studies for municipal systems.
- No other vendor outreach was performed.

Council Goal(s):
- Financially Resilient City. A Clean and Healthy Environment

Committee(s):
- None

Pro(s):
- CDM Smith, Inc. has provided Engineering Services on water system improvement projects.
- Their experience and knowledge of water systems will minimize staff support and input.
- This project is aligned with the City's and the Water Resources Department's goal of continued investment and improvement of the City's water system through Capital Improvement Projects to provide safe and reliable service.

Con(s):
- A delay in the project could impact the safety of staff and facilities.

Fiscal Impact:
- The funding needed for this agreement is currently allocated within the Storage Tanks and Pumps Capital Improvement Projects (CIP).

Motion:
- Move to adopt a resolution authorizing the City Manager to execute a Professional Services Agreement with CDM Smith, Inc. for the proposed amount of $289,780 to perform an Arc Flash Hazard Analysis study for three water treatment facilities and pump station facilities.

RESOLUTION BOOK NO. 41 - PAGE 431

B. ORDINANCE NO. 4822 - BUDGET AMENDMENT FOR CARES ACT ROUND 2 PROVIDED THROUGH THE NC PANDEMIC RECOVERY OFFICE'S AND BUNCOMBE COUNTY

Action Requested: Adoption of a budget amendment in the amount of $1,063,224 to establish a budget in the City's Special Revenue Fund for the second round of funding that the City has received from Buncombe County as part of the State's Coronavirus Relief Fund (CRF).

Background:
- The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) is a $2 trillion economic stimulus bill passed by Congress and signed into law in March 2020 in response to the economic downturn caused by the COVID-19 pandemic. The State of North Carolina received $7.6 billion from the CARES Act.
- On May 4, 2020 North Carolina Governor Roy Cooper signed session law 2020-4 which appropriated $150 million from this funding to NC counties via the Coronavirus Relief Fund (CRF).
- Buncombe County received approximately $4.5 million from this first round of CRF funding and shared $943,771 with the City of Asheville. City Council approved a budget amendment for this first round of CRF funding on July 28, 2020.
- On July 1, 2020 Governor Cooper signed session law 2020-80 which appropriated an additional $150 million in CRF funding to NC counties, with Buncombe County receiving approximately $5.1 million from this second round of CRF funding.

- As with the first round of funding, Buncombe County shared a portion of the second round of funding with other governments in the county based on the local sales tax distribution formula. Under this formula, the City of Asheville received $1,063,224.
- City staff has identified COVID-19 related expenses that are anticipated prior to December 30, 2020 and are eligible for reimbursement under federal and state guidelines, and have submitted a plan for these expenses to Buncombe County.
- The NC Pandemic Recovery Office (NCPRO) has provided guidance regarding reporting requirements related to CRF funds which indicate that CRF funding should be budgeted and accounted for in a special revenue fund.
- To be in compliance with this guidance, staff is recommending City Council approve a budget amendment in the amount of $1,063,224 to establish a budget for the City's second round of CRF funding.

Council Goal(s):
- A Financially Resilient City

Pro(s):
- Ensures the City is in compliance with accounting and reporting requirements recommended by the State of North Carolina.

Con(s):
- None.

Fiscal Impact:
- Funding from the second round of CRF will be utilized for COVID-19 related expenses that the City incurs prior to December 30, 2020. This amendment will allow staff to consolidate all expenses in a single project in the City's Special Revenue Fund.

Motion:
- Motion to adopt a budget amendment in the amount of $1,063,224 to establish a budget in the City's Special Revenue Fund for the second round of funding that the City has received from Buncombe County as part of the State's Coronavirus Relief Fund (CRF).

ORDINANCE BOOK NO. 33 - PAGE 122

C. RESOLUTION NO. 20-157 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDED CONTRACT WITH GRIFFIN WASTE SERVICES FOR RENTAL AND MAINTENANCE OF PORTABLE TOILETS AND HANDWASHING STATIONS FOR PUBLIC USE

Action Requested: Adoption of a resolution authorizing the City Manager to execute an amended services contract with FusionSite Asheville, LLC, (hereinafter referred to as "Griffin Waste Services") in the amount of $154,000 for rental and maintenance of portable toilets and handwashing stations for public use.

Background:
- Due to the COVID-19 pandemic and resulting closure of public and private buildings in March 2020, portable restrooms and handwashing stations were deployed for public use as an emergency response as recommended by the City-County Emergency Operations Center and City Manager's Office.
- Griffin Waste Services in Asheville was an existing provider of services to City facilities prior to the pandemic and the only contractor identified in the region with the capacity to fulfill the services required.
- Portable restrooms and handwashing stations were installed at the following locations:

- ART Station, Coxe Ave.
- Pritchard Park, College St.
- Pack Square Park, S. Market St.
- City Hall *(no handwashing station - hand sanitizer only)*
- Wall Street
- Haywood Street Congregation, 298 Haywood St.
- A-Hope / Homeward Bound, 19 N. Ann St.
- ABCCM Medical Ministry, 155 Livingston St.
- ABCCM, Cumberland Ave.
- 12 Baskets, 610 Haywood Rd.

- As authorized by the City Manager, a contract was established with Griffin Waste Services in June 2020 for an amount not to exceed $89,000 for rental, routine cleaning, and daily maintenance of the units.
- The contract is projected to reach $89,000 by the end of September. However, the need for portable restrooms and handwashing stations is expected to continue until the COVID-19 emergency declaration is canceled.
- An amended contract with Griffin Waste Services to increase the total by $65,000, from $89,000 to $154,000, will allow the vendor to perform the work through December 2020.

Vendor Outreach Efforts:

- At the start of the pandemic, staff searched for all providers throughout Western North Carolina, Greensboro, NC, Charlotte, NC, and Greenville-Spartanburg, SC, and engaged in a search for national providers including options to lease or purchase equipment. Griffin Waste Services, recently merged with Able Rent-a-Jon, was the only local vendor with available capacity. Griffin Waste Services is not a minority or women-owned vendor and staff has not found any MWBE providers in the area through the North Carolina HUB directory or City database.

Council Goal(s):

- A well-planned and livable community
- A clean and healthy environment
- Emergency Response

Committee(s):

- None

Pro(s):

- Supports basic public health needs during a Pandemic
- Costs are eligible for reimbursement from FEMA or COVID Relief Funding

Con(s):

- Some business owners have been unhappy with the location of the facilities.

Fiscal Impact:

- Funding for the portable toilets and handwashing stations contract is coming from grant dollars that the City has received from Buncombe County as part of the State's Coronavirus Relief Fund (CRF).

Motion:

- Move to adopt a resolution authorizing the City Manager to execute an amended services contract with Griffin Waste Services in the amount of $154,000 for rental and maintenance of portable toilets and handwashing stations for public use.

Mayor Manheimer announced that there were no advanced live call-ins for items on the Consent Agenda.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

III. PRESENTATIONS & REPORTS:

A. ONE BUNCOMBE FUND

Assistant City Manager Richard White introduced Ms. Kit Cramer, President and CEO of the Asheville Area Chamber of Commerce, who gave a brief presentation on the One Buncombe Fund. She said the purpose of One Buncombe is to provide a donation portal to support relief efforts and to provide relief to individuals and businesses impacted by COVID-19. At the March 24th regular meeting, the Board of Commissioners voted to create the "One Buncombe" fund, a COVID-19 relief fund. The Board set an April 7th public hearing meeting to authorize $200,000.00 in economic development appropriations in accordance with GS 158-7.1 and Ch. 166A. At the March 24th City Council meeting, Council voted to participate in the Buncombe County Service Foundation (BCSF) One Buncombe Fund; to consider an appropriation of $100,000 from City Fund Balance; and to set the public hearing for April 14, 2020, for consideration of the economic development appropriation in accordance with G.S. 158-7.1 and Ch. 166A.

The structure is (1) Utilizes the nonprofit Buncombe County Service Foundation as fiscal entity; (2) Board of Directors recruited with specific focus on administering One Buncombe funds; (3) 2/3 of funds support small business assistance; 1/3 of funds support individual assistance; (4) Individual assistance provider = Buncombe County Health and Human Services; and (5) Small business loan provider = Mountain BizWorks.

The results are that we raised $1.375M from Mar-Aug 2020 - $200K from Buncombe County; $100K from the City of Asheville; and $1.075M from the community ... including individual gifts, corporate sponsorships & grants ranging in size from $5 to $100,000

The goal was to support 1,000 individuals and 100 businesses:

Individual Support Program	Business Loan Program
1,048 – # of households served	92 – # of loans made (218 applications submitted)
$453,057 – funds provided	$852,800 – funds provided
$432-avg provided per household	674 – jobs retained

Using charts, she explained the results for individual assistance and the business loan program. Loans were made in all 15 Buncombe County zip codes. She spoke about leveraging additional relief sources for Buncombe small businesses.

The One Buncombe Board has disbanded. BCSF will return to its previous activities, which include approving donations for county services, such as foster children, clinical health, farm heritage trail, etc. BCSF board will not take on any One Buncombe - related business. Loan funds anticipated to begin being repaid to One Buncombe beginning fall 2020.

On behalf of City Council, Mayor Manheimer thanked Ms. Cramer and the entire Board for their hard work on this very important effort.

B. MANAGER'S REPORT - 30/60/90 DAY WORK PLAN

City Manager Campbell provided the following presentation overview: (1) On June 9, staff presented a 30/60/90 Day Work Plan and over the past several meetings have updated Council and the community on our work; (2) The 30/60/90 Day Work Plan was developed in response to numerous requests from the Black Asheville Demands coalition to address specific racial justice and economic inclusion issues; (3) The Work Plan reflects when we would **start** working on these requests; and (4) Making progress on all the items listed, highlight a few but will focus most on the request to Defund the Police by 50% or to *"Divest resources from the APDs' budget and Invest in long-term safety strategies."* Community Engagement efforts.

Regarding 30 days (1) Resolution to remove monuments and creation of task force (a) Vance monument scaffolded; Lee monument removed; and (b) Task Force held first official meeting on Sept. 3. Cortina Caldwell was selected as the facilitator for the task force. They will meet on Thursdays from 4:30 - 6:30 pm; and (2) Work with the community on the renaming of streets (a) Continuing Community Engagement to develop next steps; and (b) Project page will be posted this week.

Regarding 60 days, (1) Continue partnering with Asheville City Schools (ACS) and Buncombe County Schools to address Opportunity Gaps (a) Parks and Recreation partnering with ACS to create community learning centers or learning pods in city facilities; (b) Two sites are currently up and running, serving about 40 students. Additional sites will be open next week; (c) Anticipate serving up to 300 students as we develop the program and open other locations; and (d) Operate 7 days a week 8:00am to 8:00p.m. The program is designed to provide safe in-person learning opportunities for small groups of school-age children while social distancing. Although the major emphasis will be on schoolwork and academics, Parks and Recreation staff will also provide supervised and socially distanced recreational opportunities for participating students; (2) Initiate conversations with the district attorney's office regarding the probation decision for Mr. Hickman (a) City Attorney's office working with DA's office and Restorative Justice process related to probation process; and (b) Meeting is scheduled later this week to follow-up with community members; and (3) Initiate conversations to Defund the Police budget by 50% Defund/Divest/Invest Strategy.

Regarding 90 days (work underway), (1) Provide protocol, practices and resource allocation data from the Equity and Inclusion Department on our City Website (a) The City owns several properties that were taken through Urban Renewal. We have identified these properties and will not dispose of or sale any of these properties until the City adopts a policy that outlines a process for disposing of this property; (b) The Reparations Commission (or committee) may be involved in this discussion; and (c) Council's Planning and Economic Development Committee will be discussion this tomorrow at their meeting; (2) Utilize best practices to recruit people of color (a) Human Resources and individual departments working on recruitment strategies; (3) Develop Race and Gender Conscious Policy in response to the disparity study as part of City contracting and procurement; (b) Draft Policy completed and renamed to Business Inclusion Policy (a) Previously indicated that Council would review Sept. 8; and (c) Policy being sent to

Council's Planning and Economic Development Committee to start the review process at their meeting on Sept. 9.

The goal for reimagining public safety in asheville is *"Determine how the City of Asheville structures department responsibilities and community partnerships in a way that promotes racial equity and economic inclusion."*

Regarding the public engagement process, (1) Step 1 (complete): Get feedback on an approach from key focus groups; (2) Step 2 (in process): Host Community Meetings; and (3) Step 3: Report, Recommendations and Implementation.

The selected facilitators are Shemekka Ebony Coleman, Glenn Thomas and Christine Edwards.

Regarding the public engagement process, (1) Hosted Kick Off Session with Key Community Leaders on Thursday, September 3; (2) 99 community leaders invited, 30 attended; and (3) Focused on getting community leaders to share information about the process and to encourage involvement and participation. She then provided the details for the 6 listening sessions. The reimagining public projects page includes (1) www.ashevillenc.gov; (2) includes most up to date information; (3) information and links to register for Listening Sessions and drop in sessions; (4) link to the survey; (5) timeline; (6) background; and (7) 2,214 views as of this morning. Some results from the reimagining public safety online survey include (1) 1,293 people have participated in the survey; and (2) We have representation from all groups identified as most impacted, AND we will stay committed to getting those numbers up.

Targeted Outreach Emails, Texts, and Calls: Beloved Asheville; Burton Street; Do the Write Thing / Asheville City Schools DropOut Prevention; Downtown Businesses; East End / Valley Street Neighborhood; My Daddy Taught Me That; My Sister Taught Me That; Shiloh Community Association; and Word on the Street. Social Media: Daily Posts included (1) Facebook - Posted on group sites totaling 25,356 members; and (2) Nextdoor - Entire Service Area is 26,674. Other Media includes (1) WRES Radio Interview with Debra - tomorrow at 9:30; and (2) Press Releases.

The next step fo the public engagement process includes report, Recommendations and Implementation (1) Develop Preliminary Recommendations for Divesting/Investing (Sept. 3- 22); (2) Implementation of first round of Divesting/Investing Strategies (Sept. 22 and on-going); and (3) Begin next round of discussions Nov./Dec.

C. CITY ATTORNEY'S INTERNAL REVIEW OF POLICE RESPONSE TO PROTESTS

City Attorney Branham provided City Council with his internal review of the Asheville Police Department (APD) response to protests. In late May and early June of 2020, the City of Asheville experienced several public protests relating to the enduring national problem of police brutality, institutional racism, and the unlawful and unjustified killing of George Floyd on May 25, 2020. The Asheville Police Department responded to these protests which included the use of force against some protestors. APD officers were assisted by other local police agencies as well as the National Guard. A City-wide curfew was established by Mayoral declaration from June 2nd - June 5th which restricted public protesting nightly after 8:00 pm. The City has received numerous complaints regarding the operational response by APD during the protests. The City Council determined that a thorough and transparent assessment of that response was necessary.

The Evaluation Performed in Two Phases - Phase 1 - City Attorney's Internal Review of Operational Decision Making; and Phase 2 - APD Investigative Assessment. * *NOTE: This Dual*

Phased Internal Approach was recommended by The Public Safety Committee during its July 28th Meeting, and affirmed by the full Council on Aug. 25.

He outlined the City Attorney's internal review process: Interviews conducted by the City Attorney's Office - All members of City Council; City Manager; Chief of Police; Deputy Chief of Police; and APD Command Staff. Media reports, communications, and body cam footage were also reviewed. The interview focus areas were: Utilization of riot gear; Calling in the National Guard, and other police agencies; Use of tear gas; Use of less than lethal projectiles; Use of force on the Jeff Bowen Bridge; and Elimination of supplies at the "medic tent".

The scope of review of the report (1) Limited to events occurring from Friday, May 29 - Saturday, June 6th; (2) Facts established from Internal Sources only; (3) Focused on Decision Making Process; and (4) No Opinions/Conclusions regarding actions taken. * *NOTE - Decisions on appropriateness of officer actions will be addressed in APD after action review, including any disciplinary measures.*

General response to protestors included (1) Increased response began on Sunday, May 31 and diminished by June 6; (2) APD requested assistance from outside agencies; and (3) Deployment of Crowd Control Unit ("CCU"). All tactical response decisions were made by APD. Chief Zack provided information and updates to the City Manager; and City Council updated by City Manager.

Regarding utilization of crowd control gear and munitions (1) "Riot Gear" and Tear Gas only carried by the CCU (Less than 40 Members) (a) Sting Balls (hand thrown devices with rubber projectiles); (b) Pepperball Launchers (Similar to Paintball Guns); (c) Some non CCU officers also carry Pepper Ball projectiles; and (d) APD does not possess or utilize Rubber Bullets; (2) All Officers had authority to utilize the less than lethal equipment carried (a) Upon direction of field commander; and (3) CCU Field Commander requested confirmation of authority to use Tear Gas Chief Zack affirmed the authorization. * *NOTE - Manager was informed of Tear Gas use after the decision was made.*

Regarding request for outside agency assistance, (1) APD anticipated protests to grow; (2) Shared Resource Agreements allowed APD to request outside agency assistance; and (3) As APD officers became fatigued, National Guard assistance also requested. The APD made a unilateral decision to request outside police personnel. National Guard was a joint decision (Mayor, City Manager, Chief of Police). More than 100 officers, and 100 guardsmen assisted the APD. * *NOTE: No Council Members, other than Mayor, played a role.*

Regarding Police interactions with protestors on Jeff Bowen Bridge, (1) First use of the CCU, and their specialized equipment (23 officers); (2) After second entry onto I-240, APD utilized pepperballs and tear gas to disperse crowd from the interstate; and (3) Warnings to "Disperse" and about use of "Chemical Munitions" were issued prior to tear gas use. Tear gas authority was affirmed by Chief Zack, but decision made in the field. Manager was informed of the use of "hard gear". City Council was updated via email (as well as social media accounts). Neither Council nor Manager provided any tactical input.

Regarding Police interactions with protestors at the "Medic Tent", (1) On June 2nd, APD field commanders made Chief Zack aware of this area; (2) Chief was advised that it was being used to resupply and redeploy protestors; (3) Chief Zack authorized the removal of this facility; and (4) Use of force methods were determined by field commander. City Manager and City Council were not consulted prior to this event. They became aware of this only after the fact through social media. * *NOTE: "Medic Tent" was not permitted by the City.*

He concluded by saying (1) All "Tactical" Decisions made during protests by the APD; (2) City Manager only provided direction to Chief to "Keep people safe."; (3) No Member of City Council provided direction to the Manager or.APD - Exception: Mayor and Manager's discussion re: National Guard; (4) Chief Zack made decision to deploy Crowd Control Unit; (5) And affirmed pre-existing authority the use of tear gas if necessary; and (6) All other decisions to use less than lethal equipment made in the field.

Regarding the APD Use of Force, May 29 - June 6: 57 arrests made; 12 APD officer injuries reported; and 1 outside formal complaint against officer actions.

The entire written report was previously provided to all Council Members. The report contains a more detailed analysis of each category of decision making. The report includes (1) Timeline of Events; (2) List of Less Than Lethal Equipment; and (3) Arrest Data.

Councilman Haynes felt that the facts are less than accurate as we have yet to hear from any protestors who have first hand knowledge of what they experienced. Even though no rubber bullets were used, sting balls contain rubber projectiles. The report seems to rationalize the events around the medic tent and actions of the police. He was curious to see the next phase which is how these responses should look like in the future. In the Public Safety Committee earlier in the day, they were told the APD Investigative Assessment will take 90 days. He feels that we need to start discussions now to determine what is appropriate.

Vice-Mayor Wisler said that at the Public Safety Committee earlier that day, they made it clear, after hearing this report and from Police Chief Zack, that we are hearing things from the Police Chief that are contradictory to what we are hearing from the public and seeing on the videos. The Committee asked him to see what he could do to reconcile those differences.

City Attorney Branham explained that his report was very narrowly focused on how decisions were made by internal staff. He felt that we were able to paint a clear picture on how those decisions were made, but did not endeavor to make any determinations about the appropriateness of the actions. For this review, he felt it sufficient to interview only those people involved in the decisions made. It's important to note that this report draws no conclusions regarding city personnel. Those particular instances have been reserved for the second Phase 2.

Councilwoman Mayfield said that people have been asking how City Council could let this happen. She hoped that everyone understands that City Council did not have any role in the decisions about how everything unfolded on those evenings. By state law, we are not allowed to have that responsibility. It is frustrating, but that is our structure. She agreed with Councilman Haynes that we should not have to wait 90 days before having conversations about how other communities are managing large public demonstrations.

Councilman Young agreed that we need to take an intentional effort in working through these issues on an accelerated timeframe as community members want to see something happen sooner.

In response to Councilwoman Smith regarding shared resource agreements, City Attorney Branham said that the agreements allow you to request additional support. They do not go into detail regarding the type of equipment carried. The additional support carry their own equipment.

Councilwoman Smith believes the third phase of the will be the most powerful. We will need help in determining how that looks. She did not want people to lose faith in the process of divesting and reinvesting in the community. She agreed we must not wait the 90 days until we move forward with determining how the actions will be handled in the future.

City Manager Campbell said that we will be bringing in experts on crowd management, experts about 21st Century policing and using information for reimagining public safety. These things are on a parallel track and we need to synthesize all information to one end - guide us into the future with trust, accountability and truth.

Councilwoman Mayfield was disappointed to see that only one official complaint was received. She understood that some people are afraid to report complaints. She asked if the City can create a safe way for the people to register complaints about their experiences related to public conduct.

D. UPDATE ON HOTEL DEVELOPMENT STUDY, PROPOSED ZONING FRAMEWORK AND PUBLIC FEEDBACK ON THE STUDY

Director of Planning & Urban Development Todd Okolichany provided an update on the hotel development study. A brief history includes: (1) Since 2015, 1,344 hotel rooms have opened in the COA out of approximately 2,761 total rooms that have been approved, representing an annual growth of approximately 4%; (2) Community members, staff and Asheville City Council have expressed concerns about the impact of hotels; (3) City currently lacks concrete policies, strategies and tools to effectively manage the impacts of these uses; (4) Lack of direction resulting in uncertainty for developers, staff and community members; (5) Asheville City Council adopted a temporary one-year moratorium on new hotel applications in September 2019; (6) 39% of hotels approved in CBD since 2015; and (7) Moratorium is allowing us to perform research and make recommendations.

The need is (1) To effectively respond and provide some level of certainty and to determine acceptable hotel development proposals, City needs to enhance its land use policies, tools and strategies to better regulate this land use; and (2) Consideration of additional hotel development suspended to provide the time needed to determine impacts and remedies.

He reviewed the hotels development study timeline beginning on September 24, 2020. The focus of this study is to look at hotel development impacts and develop recommendations. City contracted with Urban Land Institute (ULI) in Fall 2019. ULI provides unbiased, pragmatic advice through the Technical Assistance Panel (TAP) process. ULI in Asheville twice in January. Held two public workshops and multiple focus group sessions and interviews. City staff prepared a briefing report on hotel development impacts. ULI report in March on recommendations, which we will review later in this presentation. Additional public engagement in Spring 2020. Our goal is for Council review of recommendations in Summer 2020.

Questions answered through the Urban Land Institute (ULI) Technical Assistance Panel (TAP) Process included (1) What is the appropriate balance of hotels; (2) How can Asheville leverage hotel development to meet city goals; (3) Should the city consider special requirements for hotel development in certain areas; and (4) How can the city work with hoteliers and other stakeholders to reduce negative impacts and better integrate hotels into the community. These questions served as the framework for the TAP process.

Issues identified through the ULI TAP process include (1) Need to balance the economic benefits of tourism and hotel development with other community needs; (2) The hotel development approval process needs more predictability and transparency; (3) The community is concerned about the impacts of hotel development on the character of the city and quality of life; (4) Policy and regulatory tools can help manage hotel development approvals. In February 2020, City Council directed staff to: (1) Re-establish hotels as a permitted use in select zoning districts and areas, including criteria and standards; (2) Incentivize public benefits; and (3) Identify design

improvements.

At the February 2020 City Council work session on hotels, Council directed staff to pursue the following recommendations during the hotel moratorium: (1) Revenue generating: Require license agreement for city right-of-way during hotel construction; and (2) Regulatory: Re-establish hotels as a permitted use in select zoning districts and areas, including criteria and standards (a) Incentivize public benefits; (b) Identify design improvements; (c) Evaluate traffic impact analysis threshold; and (d) Develop valet parking standards.

ULI TAP recommendations - incentive based approach (1) public benefits; (2) overlay & standards; and (3) design review.

Public engagement included (1) Website, blog posts, FAQs; (2) Public input survey with educational video; (3) Focus groups - Neighborhoods, Hoteliers, Architects & designers, Tourism industry, Downtown, and River Arts District; (4) Boards and commissions - Downtown and Riverfront; and (5) Sustainability community partners. One thousand, two hundred and fifty-six people participated in the online survey. There were 13,525 responses and 3,286 comments.

Revisions based on public engagement include (1) Reduced the extent of areas suitable for hotel development (a) Direct development away from residential areas; (b) Greater focus on protecting historic districts; and (c) Protect viewshed corridors; (2) Changed the definition of small hotels; and (3) Made adjustments to Public Benefits Table.

The project schedule is as follows: (1) September 2: Planning & Zoning Commission meeting for initial review of draft regulations and map amendments; (2) September 8: City Council public hearing to extend hotel moratorium to November 24; (3) September 22: City Council vote to extend hotel moratorium; (4) September 23: Planning & Zoning Commission review and recommendation on draft zoning regulations and map amendments; (5) October 27: City Council initial review of draft hotel development zoning regulations and map amendments; and (6) November 10: City Council vote on zoning regulations and map amendments.

Staff recommends Council extend hotel development moratorium due to public engagement delays and staff redeployment.

Mr. Okolichany responded to various questions/comments from Council, some being, but are not limited to: what is the difference between regulations and guidelines; is there an opportunity for Council review of the standards prior to the ordinance coming to City Council for consideration; what does the design review process look like; are there new design review guidelines for hotels; will the guidelines be mandatory compliance or voluntary compliance; what happens if a developer gets a negative recommendation from the design review body; what are some items in the public benefit component; will staff provide Council with some examples of how the point system would have worked with some existing hotel developments; can hotels be prohibited throughout the City as a right; and what areas of the City now allow hotel development as a right.

Councilman Haynes did not support taking away Council's ability to review any hotel projects.

Because there was considerable discussion on this issue, it was the consensus of Council to hold a worksession.

In response to Vice-Mayor Wisler about extending the temporary moratorium for just two months, Mr. Okolichany explained that staff's goal is to have this map overlay and standards adopted by City Council before the moratorium ends on November 24 because if the moratorium

expires, it will go back to status quo. City Attorney Branham explained that if staff thinks that it will take longer than 2 months to address the problem identified, he felt that was within the possible legal rights to extend the moratorium longer. We cannot take longer than the need to complete the task. He advised Council that we should keep in mind that the limitation has already gone one year and the longer it goes on, the more suspect the legal moratorium will be. The next item on the agenda is the public hearing on the temporary extension. He felt that Council will hear public comment and then make a determination at the September 22 meeting, when the ordinance is voted on, the appropriate extension time.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER EXTENDING THE TEMPORARY MORATORIUM ON HOTEL DEVELOPMENT DUE TO DELAYS ASSOCIATED WITH THE COVID-19 PANDEMIC

Director of Planning & Urban Development Todd Okolichany said that this is a public hearing to consider extending the temporary moratorium on hotel development approvals within the City of Asheville for two months due to delays associated with the COVID-19 Pandemic. This public hearing was advertised on August 28 and September 4, 2020.

Background:

- In response to concerns raised by community members and City Council regarding the significant influx of new hotel rooms into the City of Asheville over the past few years with 2,761 total rooms approved and 1,344 rooms opened since 2015 (39% within the central business district), the City of Asheville adopted Ordinance No. 4766 on September 24, 2019 establishing a temporary moratorium on new hotel development until September 24, 2020 in order to take actions to address this issue.
- While the City was able to accomplish many of the actions proposed in the moratorium ordinance to address the problems and conditions related to new hotel development, the City's ability to complete those proposed actions within the original time period set for the moratorium has been significantly impaired by the COVID-19 pandemic, the Emergency Declarations made at the State and Local levels and related restrictions imposed to ensure public health and safety.
- Consequently, more time is needed to complete the originally proposed actions.
- N.C.G.S. 160A-381 authorizes cities to extend a temporary moratorium on development approvals if new facts or conditions warrant an extension.
- It is proposed that the moratorium be extended by two months to November 24, 2020, in order to allow the time necessary to complete the actions proposed to address the issues and concerns regarding new hotel development.
- During the duration of the moratorium, city staff have taken reasonable steps to study the issues and develop recommendations.
- The following actions were proposed as part of the original moratorium imposition and the majority of the work has been completed:

  Phase 1 (three months)
  - Contract with the Urban Land Institute Charlotte District Council to conduct a planning process that includes two community engagement sessions, analysis of the hotel industry, assessment of impacts, research of best practices, and a report on best land use practices and policy recommendations for hotel development.

  Phase 2 (up to nine months)
  - Supplemental research and analysis by city staff, creation of a community engagement plan, and draft regulatory changes, strategies and tools for Council consideration.

- The draft regulatory changes were presented to the Planning and Zoning Commission at their meeting on September 2, 2020, but additional time is needed for Council consideration.
- Staff recommends that the temporary moratorium on new hotel development be extended in order to address the issues and concerns regarding new hotel development.
    - The COVID-19 pandemic delayed opportunities for community engagement early in the planning process
    - During the pandemic, city staff and resources were redirected to address other priority community needs
    - Additional time is needed to complete the hotel development study, conduct additional community engagement, draft the proposed zoning amendments and present the new zoning amendments to the Asheville City Council for consideration of adoption.

Council Goal(s):

- A Well Planned and Livable Community

Committee(s):

- City Council - August 25, 2020 - motion setting a public hearing on September 8, 2020, to consider extending a temporary hotel moratorium on hotel development, approved 7-0.

Pro(s):

- Gives the city time to better understand the impacts of new hotel development and mitigation requirements.
- Allows for research of best practices and to enhance the city's land use policies, tools and strategies.
- Will provide clearer direction to applicants of new hotel developments, City Council and the community.

Con(s):

- No new hotels will be approved during the moratorium extension period.

Fiscal Impact:

- None

After hearing the discussion on the hotel development study earlier in this meeting, and because a City Council worksession will be scheduled with the possibility of having to go back to the Planning & Zoning Commission, staff now recommends that the temporary moratorium on new hotel development be extended for five months until February 23, 2020, in order to address the issues and concerns regarding new hotel development. Mr. Okolichany said that City staff will work hard to complete the study earlier if possible.

Mayor Manheimer opened the public hearing at 7:51 p.m.

From advanced live call-ins, two individuals spoke in support of extending the hotel moratorium.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilwoman Wisler moved to recess this item until September 22, 2020, at which time this public hearing will be voted. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4823 - ORDINANCE TO ALLOW THE INITIAL ZONING TO APPLY THE NEW RESOURCE MANAGEMENT OVERLAY DISTRICT TO ALL PROPERTIES LOCATED WITHIN THE CITY OF ASHEVILLE CORPORATE LIMITS

Mayor Manheimer said that this public hearing was held on August 25, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

After receiving additional written public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to apply a new Resource Management Overlay District and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the zoning action will, 1) support a plan to preserve and enhance the urban canopy, and 2) protect land and water assets by applying protection standards more broadly, and 3) build climate resilience by reducing risk and vulnerability to flooding, erosion and landslides. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 – PAGE 123

B.1. ORDINANCE NO. 4824 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE AMENDING SECTION 7-2-5 DEFINITIONS,7-11-3(d), 7-11-2(f)2, 7-12-2(e)2(d) AND ESTABLISHING A NEW SECTION 7-9-1 RESOURCE MANAGEMENT OVERLAY DISTRICT, AND A NEW ARTICLE XIX TREE CANOPY PRESERVATION

ORDINANCE NO. 4825 - ORDINANCE TO AMEND THE FEES & CHARGES MANUAL FOR FISCAL YEAR 2020-21 TO ESTABLISH A FEE-IN-LIEU OF OPTION FOR TREE REMOVAL (LAND, ADMINISTRATION, INSTALLATION)

Mayor Manheimer said that these public hearings were held on August 25, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

After receiving additional public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the proposed wording amendments to Articles II and VII and XII of the UDO and to add a new Article XIX to the UDO and find that the proposed amendments are consistent with the city's comprehensive plan in that the amendment will 1) preserve and enhance the urban tree canopy creating a more comfortable environment; 2) better protect land and water assets improving the health of the community; and 3) build climate resilience by reducing risk and vulnerability to flooding, erosion and landslides. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 - PAGE 126

After receiving additional public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve an ordinance amending the fees and charges manual for Fiscal Year (FY) 2020-21 to establish a fee-in-lieu of option for tree removal (land, administration, installation). This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 – PAGE 137

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

RESOLUTION NO. 20-158 - RESOLUTION APPOINTING MEMBERS TO THE PLANNING & ZONING COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Planning & Zoning Commission.

The terms Sandra Kilgore, Laura Berner Hudson and Joe Archibald, as members of the Planning & Zoning Commission expired on August 14, 2020.

The following individuals applied for a vacancy: Sherrye Coggiola, Kimberly Levi and Roosevelt Harvin.

Vice-Mayor Wisler said that the Boards & Commissions Committee did not meet to review these applications.

Vice-Mayor Wisler moved to (1) reappoint Sandra Kilgore and Joe Archibald, as members to the Planning & Zoning Commission respectively, terms to expire August 14, 2023, or until their successors have been appointed; and (2) appoint Kimberly Levi as a member of the Planning & Zoning Commission to serve a three-year term, term to expire August 14, 2023, or until her has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 433

RESOLUTION NO. 20-159 - RESOLUTION APPOINTING A MEMBER TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Buncombe County Tourism Development Authority (an individual actively involved in the tourist business who has participated in tourism promotion and does not own or operate hotels, motels, or other taxable tourist accommodations).

The term of Andrew Celwyn (an individual actively involved in the tourist business who has participated in tourism promotion and does not own or operate hotels, motels, or other taxable tourist accommodations) as a member of the Buncombe County Tourism Development Authority expired on August 31, 2020.

The following individuals meet the requirements and have applied for the vacancy: Clair Greear, Bethany Vance, and Ruth Summers.

Vice-Mayor Wisler again noted that the Boards & Commissions Committee did not meet to review these applications.

Vice-Mayor Wisler moved to reappoint Andrew Celwyn as a member of the Buncombe County Tourism Development Authority (an individual actively involved in the tourist business who has participated in tourism promotion and does not own or operate hotels, motels, or other taxable tourist accommodations) to serve an additional three-year term, term to expire August 31, 2023, or until his has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 434

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

From advanced live call-ins, four individuals spoke to Council, including, but not limited to the following comments: support continued moratorium on the building of new hotels in Asheville; continue work on reparations; police brutality during the protests.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:20 p.m.

Magdalen Burleson
CITY CLERK

Esther E Manheimer
MAYOR

Tuesday – September 22, 2020- 5:00 p.m.

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilwoman S. Antanette Mosley; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; email; and advanced live sign-ins.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. ANNOUNCEMENT OF NEW COUNCILWOMAN S. ANTANETTE MOSLEY

Mayor Manheimer announced that Buncombe County Chief District Court Judge J. Calvin Hill administered the oath to S. Antanette Mosley earlier in the day. On behalf of City Council, she welcomed Councilwoman Mosley to the Asheville City Council.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 8, 2020

B. RESOLUTION NO. 20-160 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH CDM SMITH INC. TO INCREASE THE WATER SYSTEM DISTRIBUTION PROJECT - PHASE 2 - PROFESSIONAL SERVICES CONTRACT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a change order with CDM Smith Inc. in the amount of $699,514 to increase the Water System Distribution Project 2 – Professional Services Contract from a total amount of $884,124 to $1,583,638.

Background:

- On February 27, 2018, City Council adopted a resolution to authorize the City Manager to execute a professional services contract with CDM Smith, Inc. for the Water System Distribution Project 2.
- The original total contract was for a not-to-exceed amount of $884,124 and the project work included: a survey, a hydraulic analysis, engineering design, construction administration, and other related professional services for approximately 10,600 linear feet of 24" potable water transmission main and all associated appurtenances along Patton Avenue from Craven Street to Haywood Road.
- The original transmission main alignment along Patton Avenue assumed construction would be within the travel lanes and therefore the survey and preliminary design was performed for the new water transmission main to be located within the NCDOT right-of-way only.
- On April 8, 2019, the preliminary plan was submitted for the required NCDOT Encroachment Agreement, which would allow the new water transmission main to be

located within the NCDOT right-of-way; however this Encroachment Agreement was denied by NCDOT in accordance with its policy to not allow utilities to be placed under the roadway. Within the past five years, NCDOT has increased its enforcement of this policy.

- The Water Resources Department appealed the decision to deny the NCDOT Encroachment Agreement via the hardship appeal process procedure provided by NCDOT. The hardship appeal was based on impacts to private property and additional project cost; however the appeal was also denied.
- Because of the denial of the NCDOT Encroachment Agreement and subsequent appeal, the proposed water transmission main alignment had to be changed to be outside the NCDOT right-of-way to be installed within private property throughout the project corridor.
- This change in alignment of the 24" water transmission line created the requirement for an additional survey to be performed and a new design drawing to be developed which added a significant cost increase to the professional services contract.
- Also moving the new water transmission main onto private property creates the need to obtain 37 permanent and temporary construction easements for the installation of the proposed transmission main which requires additional funds to be added to the project for easement acquisition specialists, preparation of easement plats and documents, appraisals and purchase of the necessary easements. These efforts and associated costs were not considered in the original contract scope since the plan did not impact private property.
- Over the course of the design phase, CDM Smith also discovered three (3) North Carolina Department of Environmental Quality – Division of Waste Management (DWM) sites located adjacent to the new alignment requiring the additional services for assessment of potential impacts from residual contamination associated with the three sites.
- Water Resources Staff requested that the consultant provide an amended scope with the additional tasks and cost outlined. The proposed change order request is based on the amended scope.
- It is anticipated that the final project design and easement acquisition will take approximately 9 months being completed by July 2021. Following completion of the design phase, construction of the project is projected to begin in September 2021 with an 18 month duration.

Vendor Outreach Efforts:

- Not applicable, change to an existing contract

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None.

Pro(s):

- This project is aligned with the City and the Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects to provide safe and reliable service.

Con(s):

- None

Fiscal Impact:

- The funding needed for the professional services agreement is currently allocated within the Water Resources Capital Improvements Project Fund in the Small Waterline Replacement Projects.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a change order with CDM Smith Inc. in the amount $699,514 to increase the Water System Distribution Project 2 – Professional Services Contract from a total in the amount of $884,124 to $1,583,638.

RESOLUTION BOOK NO. 41 - PAGE 435

C. RESOLUTION NO. 20-161 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH T&K UTILITIES INC. FOR THE WATER SYSTEM NEIGHBORHOOD ENHANCEMENT PROJECT AREA 5 PART 1 PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to execute a construction agreement with T&K Utilities, Inc., for the Water System Neighborhood Enhancement Project Area 5 Part 1 Project.

Background:

- On July 28, 2020, the Water Resources Department (WRD) issued an Advertisement for Bids for the Water System Neighborhood Enhancement Project Area 5 Part 1 Project.
- The scope of work for this project includes the installation of approximately 12,100 LF of 6-inch, 5,000 LF of 8-inch, and 1,200 LF of 12-inch ductile iron water line along with related appurtenances and materials required to complete the work located along various streets within the following areas:
  - Muirfield Subdivision
  - Mills Gap Road
  - Swannanoa River Road
  - S. Tunnel Road
  - Brookwood Road
  - Brevard Road
  - Hazel Mill Road
  - Joe Jenkins Road
- This proposed project has been determined to be a critical installation that will increase the water systems reliability by replacing undersized and older waterlines that have high failure rates and also by providing improved water pressure and flow characteristics for domestic service and fire fighting capabilities.
- Companies responding were:
  - T&K Utilities, Inc.; Asheville, NC – Bid: $3,810,200
  - Patton Construction Group; Asheville, NC – Bid: $3,992,500
  - T.P. Howard's Plumbing Company, Inc.; Fairview, NC – Bid: $4,050,000
  - Cooper Construction Company, Inc.; Hendersonville, NC – Bid: $4,053,202
  - Buckeye Bridge, LLC; Canton, NC – Bid: $4,180,455.30
  - NHM Constructors, LLC; Asheville, NC – Bid: $4,714,706
  - Teraflex Group, LLC; Williston, ND – Bid: $4,723,114.20
  - Thomas Construction Company, Inc.; Johnson City, TN – Bid: $5,838,960
- Following a review of the bids by City Staff and WK Dickson & Co., Inc., the project engineers; T&K Utilities, Inc.was selected as the lowest responsible, responsive bidder.
- The WRD requests authorization to contract with T&K Utilities, Inc. for the bid amount of $3,810,200 plus a 10% contingency in the amount of $381,020 for a total project budget in the amount of $4,191,220.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through the solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- MWBE owned businesses are being utilized as subcontractors for traffic control and asphalt paving by prime contractors.

Council Goal(s):

- A Financially Resilient City and a Clean and Healthy Environment.

Committee(s):

- Not Applicable.

Pro(s):

- This project is aligned with the City and the Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects to provide safe and reliable service.

Con(s):

- None.

Fiscal Impact:

- Funds needed for this construction agreement are already budgeted in the "Small Waterline Replacement Projects" within the Water Resources Capital Improvement Fund.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a construction agreement with T&K Utilities, Inc., for the Water System Neighborhood Enhancement Project Area 5 Part 1 Project.

RESOLUTION BOOK NO. 41 - PAGE 436

D. RESOLUTION NO. 20-162 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A RENEWAL AGREEMENT FOR AUTOMATIC AID SERVICE WITH REEM'S CREEK FIRE DEPARTMENT

Action Requested: Adoption of the renewal of the automatic aid agreement between the City of Asheville and Reems Creek Fire Department.

Background:

- In August 2013, City Council approved a resolution authorizing a multi-year agreement with Reem's Creek Fire Department for automatic aid service
- The City of Asheville has a need to strengthen its standard of response and cover in the Beaverdam Valley and the Reem's Creek Fire Department is the most appropriate organization to provide the service
- The initial agreement costs were $82,656 and as stipulated in the agreement, the costs are to be adjusted every year based on the consumer price index
- After seven years of positive consumer price index increases, the renewal for the FY20-21 services cost and are budgeted at $91,733.36
- The term of the renewal agreement will end June 30, 2021

Vendor Outreach Efforts:

- No other vendors are able to provide this service
- There are no Minority & Women-Owned Business Enterprise (MWBE) firms able to provide this service

Council Goal(s):
- Connected and Engaged Community

Committee(s):
- None

Pro(s):
- Allows standard of cover to be met greater than 90% of the time.

Con(s):
- Fiscal impact.

Fiscal Impact:
- Execution of the agreement renewal is budgeted at and costs $91,733.36.

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into a renewal agreement for automatic aid service between the City of Asheville and Reems Creek Fire Department.

RESOLUTION BOOK NO. 41 - PAGE 437

E. RESOLUTION NO. 20-163 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A 2020 CONTRACT WITH THE N.C. DEPT. OF PUBLIC SAFETY FOR HAZARDOUS MATERIALS EMERGENCY RESPONSE SERVICES

Action Requested: Adoption of 2020 Contract Agreement for the State Regional Hazardous Materials Response Team Number Six (6).

Background:
- North Carolina is divided into seven geographical regions for the purpose of hazardous material emergency response.
- The North Carolina Department of Public Safety contracts with municipalities across North Carolina to respond into the geographical regions and provide technician level hazardous materials emergency response.
- The region's six areas encompass the westernmost twenty counties.
- The City of Asheville has been a regional hazardous materials provider since Fiscal Year 1994-1995.
- The State of North Carolina provides funding that fully supports the operational costs of the program.
- The City receives $69,000 annually for administration, equipment, training, medical surveillance, and workman's compensation.
- The truck and equipment provided to the City by the State for use on State and local hazmat missions are valued at $1.5 million.
- The City is reimbursed at 100% of the costs expended when the team is deployed for a state mission.
- City Council approved an extension of the current agreement due to circumstances surrounding COVID-19, the North Carolina Department of Public Safety Division of Emergency Management wanted to activate the fifth-year extension clause of the

agreement for four months with the City of Asheville for Hazardous Materials Emergency Response Services from July 1, 2020 through October 31, 2020.
- The new agreement is for November 1, 2020 - June 30, 2024.

Vendor Outreach Efforts:
- Contract is with the State of North Carolina Department of Public Safety Division of Emergency Management.

Council Goal(s):
- Smart City

Committee(s):
- None

Pro(s):
- The State of North Carolina provides the hazardous materials response truck, all response equipment and provides for administrative costs of operating the team.
- In addition, the state funds extensive training for members of the Asheville Fire Department to enable us to competently handle hazardous materials emergencies.
- The City of Asheville has full use of the truck and all specialty equipment within the City of Asheville.
- Without the state hazardous materials contract, Asheville taxpayers would need to provide much of the resources necessary to properly respond to hazardous materials emergencies within Asheville.
- With the contract, we have the advantage of the equipment and resources being funded at the state level, rather than at the local level.
- During the twenty nine years that the City has provided regional hazardous materials response services, the City has not experienced difficulties or disadvantages with the program. This program is also consistent with the City's Strategic Operating Plan in partnership.
- Firefighter and citizen safety will be enhanced.

Con(s):
- None have been identified or known at this time

Fiscal Impact:
- The City receives a $69,000 reimbursement annually for training, equipment, medical surveillance, and worker's compensation.

Motion:
- Move to adopt a resolution authorizing the City Manager to enter into the four year contract agreement with the North Carolina Department of Public Safety to provide regional hazardous materials emergency response for region 6.

RESOLUTION BOOK NO. 41 - PAGE 438

F. RESOLUTION NO. 20-164 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH CAROLINA SPECIALITIES CONSTRUCTION LLC, FOR THE EXPANSION OF THE SKYLAND FIRE DEPARTMENT LOCATED AT 9 MILLER ROAD SOUTH TO ACCOMMODATE OPERATIONAL NEEDS FOR FIRE STATION #4

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Carolina Specialities Construction, LLC. in the amount of $524,516 to renovate a

building for Fire Station #4; and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $68,187 (13%).

Background:

- AFD Station #4 was built in the mid 1990's as a 6,800 sq. ft. building that is attached to the end of the existing Skyland Fire Department building at 9 Miller Road.
- At the time, the City owned portion of the station was not fully built-out for the fire department, and until recently, AFD shared the space with an Asheville Police substation. As a result, the City of Asheville Fire Department occupied shared living quarters with the Skyland Fire Department.
- The Skyland Fire Department has identified a need for the space that AFD currently occupies and has requested that the City vacate the shared space.
- This project will renovate the existing City owned space to create living quarters and dedicated operations space for Fire and allows the City to completely vacate the Skyland portion of the building.
- The project will include interior renovations, building envelope repairs, and high efficiency mechanical systems.
- Skyland Fire & Rescue has asked AFD to vacate their portion of the facility by May 1, 2021.
- Bids were advertised on August 12, 2020. The City received and opened seven bids on September 3, 2020. The names of the contractors and bid amounts (with selected alternates) are listed below:
    - B.A.M. Construction, Inc., *Claremont, NC* $543,710.00
    - Carolina Specialties Construction, LLC., *Hendersonville, NC* $524,516.00
    - First Victory, Inc., *Brevard, NC* $535,742.48
    - H&M Constructors, *Asheville, NC* $552,900.00
    - J. Bartholomew Construction, LLC., *Hendersonville, NC* $642,190.00
    - Patton Construction Group, Inc., *Asheville, NC* $592,860.00
    - Simpson Young Construction, LLC., *Arden, NC* $559,693.55
- Carolina Specialties Construction, LLC. was the lowest responsible responsive bidder.
- This project will start immediately with a target substantial completion date of April 1, 2021.
- The property and the building are owned by Skyland Volunteer Fire Department.
- *The City is in year 25 of a 99 year lease of $1 per year agreement. The agreement allows for Skyland FD to sell the property. If they do so, the agreement states that the City shall receive the fair market value of the City's portion of the building structure. These improvements are considered "the City's portion" of the building.*

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services. None of the general contractors that bid on the project were WMBE.
- Carolina Specialties Construction will subcontract with AOA Signs, Inc. which is a Woman-Owned business located in Yadkinville, NC.

Council Goal(s):

- A well-planned and livable community
- A thriving local economy
- A clean and healthy environment

Committee(s):

- None

Pro(s):
- A better workplace/living environment for Asheville Fire Fighters.
- The work will not impact the current operations at the station.
- High Efficiency HVAC System Upgrade (*In collaboration with the Office of Sustainability*)
- Seven bids were received and all were close to the construction cost estimate.

Con(s):
- Although this project will bring the facility into full operation, it will still be undersized in comparison to contemporary fire stations.

Fiscal Impact:
- Funding for this contract is already included in the adopted Capital Improvement Program budget.

Motion:
- Motion to adopt a resolution authorizing the City Manager to enter into a contract with Carolina Specialities Construction, LLC. in the amount of $524,516 for the Fire Station #4 Renovation project; and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $68,187 (13%).

RESOLUTION BOOK NO. 41 - PAGE 439

G. RESOLUTION NO. 20-165 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENTAL AGREEMENT WITH CAVANAUGH AND ASSOCIATES TO DEVELOP, FACILITATE AND COMPLETE THE REQUEST FOR PROPOSALS PROCESS FOR SELECTION OF ADVANCED METERING INFRASTRUCTURE SYSTEM

Action Requested: Adoption of a resolution authorizing the City Manager to execute a supplemental agreement to the master agreement in the amount of $175,520 with Cavanaugh and Associates to develop, facilitate, and complete the RFP process for the selection of a new Advanced Metering Infrastructure (AMI) system and third-party contract manufacturer and installer.

Background:
- The City's customer water metering system consists of approximately 60,000 meters which are read mainly using drive-by Automated Meter Reading (AMR) radio technology.
- The City installed its current metering system from 2009-2012. The Automated Meter Reading equipment is reaching the end of its lifecycle and is beginning to fail.
- Advancements in metering technology have greatly increased this lifecycle and increased warranty periods.
- This issue requires staff to begin the process of implementing a long-term strategy for meter asset management.
- During FY19, Meter Services collaborated with the Customer Service, GIS, IT, and Administrative management staff to form a Customer Metering Task Force. The task force developed a customer metering strategic plan with technical support from Cavanaugh and Associates.
- A business-case recommendation was developed for the City of Asheville.
- This recommendation includes a wholesale replacement of all 2" and smaller water meters with new meter assemblies, implementing a fixed-base network meter reading system, AMI and retrofit meters 3" and larger to the AMI reading system.

- The recommended mechanism for product selection and installation is utilization of a third-party contract manufacturer and installer, procured via Request for Qualifications & Proposal (RFP) process.

Vendor Outreach Efforts:

- Through a qualifications-based selection process beginning in February 2020, the City of Asheville selected nine consulting firms to provide on-call professional services for an array of different types of water system projects.
- Cavanaugh and Associates was one of the selected firms due to their expertise in areas of non-revenue water, metering systems, etc.
- The City of Asheville entered into a master agreement with Cavanaugh and Associates on August 31, 2020 for on-call professional services valid for three years with the option to renew for two additional years.
- If approved, the proposed services described here within will be developed into a subcontract under the conditions of the master agreement.
- City of Asheville Water Resources Staff determined that utilizing the on-call professional services for General Projects was the best method to deliver this project and Cavanaugh and Associates was the most qualified of the on-call firms.
- Based on the current master agreement, no additional vendor outreach was performed.

Council Goal(s):

- A Financially Resilient City

Committee(s):

- None.

Pro(s):

- This project will be the initial step in updating metering and reading infrastructure that is reaching the end of its useful life cycle.
- The project will result in improvements to efficiency of operations, through significant reduction in the number of trucks on the road to read meters.
- This reduction will also decrease the City's carbon footprint associated with Metering Services operations.
- This project will ultimately result in water customers having access to more timely data and provide customers with the ability to monitor and better manage their water usage.
- This project will provide the framework for monthly billing processes.

Con(s):

- Failure to approve resolution will result in a delay in the process of exchanging equipment that has reached the end of its life.

Fiscal Impact:

- The Water Resources Department currently has the funds needed for this agreement budgeted in the "AMR Replacement Project" in the Capital Improvement Program Fund.
- Total agreement cost of $175,520.

Motion:

- Move to adopt a resolution authorizing the City Manager to execute a supplemental agreement in the amount of $175,520 with Cavanaugh and Associates to develop, facilitate, and complete the RFP process for selection of a new AMI system and third-party contract installer.

RESOLUTION BOOK NO. 41 - PAGE 440

H. **RESOLUTION NO. 20-166 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM YEAR 2 2021 BIKESAFE GRANT**

ORDINANCE NO. 4826 - BUDGET AMENDMENT FROM THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM YEAR 2 2021 BIKESAFE GRANT

Action Requested: Adoption of a resolution authorizing the Mayor to apply for and accept a grant, in the amount of $5,000, for the North Carolina Governor's Highway Safety Program, BikeSafe 2021 Grant, Year 2; and adopt the associated budget amendment, in the amount of $5,000.

Background:

- The Bike/Safe NC program is a partnership with the Governor's Highway Safety Program and the North Carolina State Highway Patrol that is aimed at reducing motorcycle fatalities.
- Grant funds will be used to promote awareness by contacting motorcycle dealers, clubs and associations to discuss current highway safety activities, training opportunities and to provide legal updates.
- The Asheville Police Department will act as fiduciary for the program.
- The total of the grant is $5,000 and does not require local matching funds.

Council Goal(s):

- A Connected and Engaged Community

Committee(s):

- None

Pro(s):

- Grant funds are used to pay for travel and training.
- Potential reduction of statewide and regional motorcycle fatalities.

Con(s):

- Funding is evaluated annually and is only available for a one-year period.

Fiscal Impact:

- There is no local match required.

Motion:

- Motion to adopt a resolution approving the application and acceptance of the grant and a budget amendment to appropriate the funding.

RESOLUTION BOOK NO. 41 - PAGE 441
ORDINANCE BOOK NO. 33 - PAGE 138

I. **RESOLUTION NO. 20-167 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM FEDERAL EMERGENCY MANAGEMENT AGENCY FOR FIRE PREVENTION & SAFETY PROGRAM**

ORDINANCE NO. 4827- BUDGET AMENDMENT FROM FEDERAL EMERGENCY MANAGEMENT AGENCY FOR FIRE PREVENTION & SAFETY PROGRAM

Action Requested: Adoption of a resolution for City Council to authorize the City Manager to accept grant funds from the Federal Emergency Management Agency (FEMA) for the Fire Prevention & Safety Grant and a budget amendment in the City's Special Revenue Fund in the amount of $45,029 utilizing the $42,884 in grant funds and $2,145 in matching funds.

Background:

- In March 2020, the Asheville Fire Department applied for FEMA's Fire Prevention & Safety Grant for specialized equipment for fire investigators.
- In September 2020, the Department was awarded $42,884 for this added safety equipment to outfit its investigators.
- The equipment to be purchased includes specialized Personal Protective Equipment, reliable lighting, documentation tools (such as software), and excavation tools.
- Additionally, the funds will be used for supplies that have the ability to decontaminate the equipment and tools without the fire investigator having to call a suppression company on scene.
- FEMA is requiring a match by the City of $2,145.
- The Department requests City Council to approve acceptance of the grant award and allow for a budget amendment to assign the grant funds in the City's Special Revenue Fund.

Vendor Outreach Efforts:

- N/A

Council Goal(s):

- Smart City

Committee(s):

- None

Pro(s):

- The grant increases firefighter safety.
- The grant enables investigators to effectively manage a multi-day fire scene without having to take a suppression company out of service to provide support.

Con(s):

- The City's total match over the two year period of performance is $2,145.

Fiscal Impact:

- To receive the funds the City has a one-time match of $2,145 which will be taken from the adopted Fire Department FY 2020-21 operating budget.

Motion:

- Motion to adopt a resolution for City Council to authorize the City Manager to accept grant funds from the Federal Emergency Management Agency (FEMA) for the Fire Prevention & Safety Grant and a budget amendment in the City's Special Revenue Fund in the amount of $45,028 utilizing the $42,884 in grant funds and $2,145 in matching funds.

RESOLUTION BOOK NO. 41 - PAGE 442
ORDINANCE BOOK NO. 33 - PAGE 139

J. **RESOLUTION NO. 20-168 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A GENERAL SERVICES CONTRACT WITH SYNERGY SPORTS CHARLOTTE LLC FOR THE PROCUREMENT AND INSTALLATION OF PLAYGROUND MULCH**

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Synergy Sports Charlotte, LLC for the purchase and installation of playground mulch in the amount of $132,930.00 and to further authorize change orders up to the contingency amount of $13,293 (10%) for playground mulch and installation.

Background:

- Bid packet for Playground Mulch and Installation went out and closed on Thursday, June 4, 2020.
- This contract will provide bi-annual safety applications for playground mulch at 10 playground sites across the City for FY 21. The following locations are included:
  - Carrier Park Playground
  - Jake Rusher Park Playground
  - Kenilworth Playground
  - Malvern Hills Playground
  - Murphy Oakley Playground
  - Recreation Park Playground
  - Stephens-Lee Center Playground
  - Linwood Crump Shiloh Playground
  - Walton Street Playground
  - Weaver Playground
- Companies responding were:
  - Synergy Sports Charlotte LLC, Charlotte, NC - Bid $132,900
  - On Point, Etowah, NC - Bid $138,596.50
  - Bliss Products and Services, Lithia Springs, GA - Bid $157,500
  - Mulch Solutions, LLC, Indian Trail, NC - Bid $151,200
  - BH Graning Landscapes, Inc., Sylva, NC - Bid $164,776.50
  - Natural Choice Contracting, West Youngsville, NC - Bid $ $151,200
  - Power Mulch Inc, Smithfield, NC - Bid $143,073
  - Cason Companies Inc, East Flat Rock, NC - Bid $141,750
- Following review of bids by City staff, Synergy Sports Charlotte LLC was selected as the lowest responsible, responsive bidder.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned business enterprises (MWBE) through solicitation processes which include posting on the State's Interactive Purchasing System, targeted outreach with the City's Business Inclusion Manager. One Women Owned Business submitted a bid, but was not the lowest bid.

Council Goal(s):

- A Well-Planned and Liveable Community

Pro(s):

- Ensures compliance with playground safety standards for mulch.

Con(s):

- None

Fiscal Impact:

- Funding for this purchase has been previously approved and is available for expenditure in the Asset Management Contracted Services line item.

Motion:

- Motion to adopt a resolution authorizing the City Manager to enter into a contract with Synergy Sports Charlotte, LLC in the amount of $132,930.00 and to further authorize change orders up to the contingency amount of $13,293 (10%) for playground mulch and installation.

RESOLUTION BOOK NO. 41 - PAGE 443

Mayor Manheimer announced that there were no advanced live call-ins for items on the Consent Agenda.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT - 30/60/90 DAY WORK PLAN

City Manager Campbell gave the following presentation overview (1) On June 9, staff presented a 30/60/90 Day Work Plan and over the past several meetings have updated Council and the community on our work; (2) The 30/60/90 Day Work Plan was developed in response to numerous requests from the Black Asheville Demands coalition to address specific racial justice and economic inclusion issues; (3) The Work Plan reflects when we would **start** working on these requests; and (4) This evenings presentation will focus on the community engagement efforts to Reimagine Public Safety in Asheville;

Key takeaways include (1) This effort is much more than a budget exercise; the community is beginning to establish a long term vision for how we collaborate to address public safety in Asheville; (2) This year's immediate adjustments reflect initial steps to begin to reallocate some functional responsibilities out of Police and into other departments or partner agencies; (3) Recommendations designed to: (a) Increase public outreach and engagement at the neighborhood level; (b) Strengthen support and/or development of neighborhood organizations; (c) Collaboratively work with communities to identify and solve community problems; (d) Improve quality of data collected related to public safety and enhance public access to that data; (e) Address changes to policies and training for Police in order to lessen impacts on key group; and (f) Be implemented quickly; and (4) Other budgetary adjustments will likely be made this fiscal year from APDs budget if other programs and initiatives are identified and are ready to be piloted or fully implemented.

She thanked the many community partners including Alpha Kappa Alpha Sorority, Beloved Asheville, Burton Street Community Association, Buncombe Co. Communications & Public Engagement, Cenzontle Language Justice Cooperative, Delta Sigma Theta Sorority, Do the Write Thing / Asheville City Schools DropOut Prevention, Downtown Businesses, East End / Valley Street Neighborhood, Housing Authority City of Asheville, Interdenominational Ministerial Alliance. Links Incorporated, My Daddy Taught Me That, Shiloh Community Association, Southside Community, WRES 100.7 FM and Word on the Street. She also thanked the several City departments, including Communications and Public Engagement; Equity and Inclusion;

Information and Technology; Parks and Recreation; Police; Human Resources; Finance and Budget; Community and Economic Development; and City of Asheville Youth Leadership Academy (CAYLA).

She reiterated the reimagining public safety in Asheville goal: *Determine how the City of Asheville structures department responsibilities and community partnerships in a way that promotes racial equity and economic inclusion.*

She reviewed the public engagement process of (1) Step 1 (complete): Get feedback on an approach from key focus groups; (2) Step 2 (complete): Host Community Meetings; and (3) Step 3: (in process): Report, Recommendations and Implementation.

She then thanked the selected facilitators of Shemekka Ebony Coleman, Glenn Thomas and Christine Edwards.

Regarding the public engagement process, (1) The goal of the project was to provide a venue for feedback about public safety priorities in Asheville, NC through virtual meetings and an online survey developed by the City of Asheville; (2) Feedback from the community engagement process was used to make current and future budgetary recommendations; and (3) Through 6 virtual listening sessions, several one-on-one meetings and 2 in-person engagements, Asheville residents and stakeholders from relevant populations highlighted the strengths, vision, challenges and opportunities in regards to public safety in Asheville; specifically community policing efforts. She reviewed the reimagining engagement meetings and noted that there were 461 people who engaged virtually.

Regarding the reimagining public safety questionnaires, (1) Responses are still being analyzed and work is being done to make sure there are no duplicate responses or data discrepancies due to technical difficulties that could have impacted numbers reported; (2) With a commitment to transparency, all responses for the open ended questions were posted to the website on Friday; and (3) The responses to the multiple choice questions will be posted in the next two weeks once the deeper analysis of the data, which includes researching duplicates and discrepancies, can be completed.

Highlights from the engagement process resulted in (1) What does safety mean to you? Freedom, Equal access to resources, Racial equity, Ownership of space, Representation, and Mutual respect; and (2) Which areas are a priority and which should be reallocated? Violent Crime, De-escalation Training, Increase in community engagement, increase budgetary transparency, Increased Collaboration between APD and Mental Health Providers, Nuisance crimes reallocated, and Crowd Control. Themes (in no particular order and based on first impressions) were APD has an important role in public safety; Defund and Divest from APD; Address Homeless Issues; Better coordination and distribution of social service responsibilities; Police Training; Access to Affordable Housing; and Economic Opportunity.

She then reviewed the focus areas for the budget adjustments and impacts:

1. Nuisance Response
    a. Animal Control and Noise Ordinance enforcement move to Development Services Department

Impact - Reallocation of non-violent calls for services to another department and out of APD

2. Data Management and Transparency

a. Position(s) in the IT department

Impact - Improved Public Safety data analysis; more transparency in reporting data; improved access to data by the public; and enhanced information and coordination between neighborhood and Police to prevent and/or respond to crime.

b. One time payment for internet connection in Housing Authority

Impact - Improved connections for tenants/students; Enhance collaboration with Housing Authority and Asheville City Schools; and Advances Equity and Inclusion to address the achievement gap

3. Community Engagement and Outreach
   a. Additional position(s) in the Communications and Public Engagement office

   b. Additional position in Parks and Recreation

Impact - Better serve communities and neighborhoods to help problem solve and address community issues; provide outreach to communities and neighborhoods; and enhance park security, patrol and problem solve.

4. Homeless Outreach
   a. Additional support for homeless outreach and referral services

Impact - Work with partner agencies to provide referral services and outreach; focus on Pritchard Park area; and free up other resources to do outreach in other parts of the City.

Police Chief David Zack then highlighted the Police Reforms and Policy focus area for the budget adjustments and impacts:

5. Police Reforms and Policy (no additional funding at this time)
   a. Written consent for pedestrians
   b. Minor modifications to Choke Hold Policy
   c. Study innovative crowd management tactics
   d. Changes to use of force and use of force reporting

Impact - Revisit the proposal to expand written consent to pedestrians; ensure consistency with State Task Force language; ensure consistency with nationwide best practices; and increase public accountability and transparency in use of force incidents.

   e. Review of APD policies by 2 local attorneys, who are not city affiliated. Review will include participation from representatives of marginalized communities, including BIPOC and varying age groups. Group to present any concerns and recommendations.
   f. Review all policies that aren't currently on the APD website to see if they contain any information requiring them to remain confidential, or if they can be made public.

Impact - Create an opportunity for public involvement in policy creation; more transparency in reporting data to the public; and provide the public with more accessibility to policies and procedures impacting law enforcement interactions with the community.

g. Establishing a policy for officer interaction with Transgender, Gender-Variant, and Nonbinary Individuals.

Impact - Outreach and collaboration with 4 local LGBTQ+ organizations for input on a draft policy; allignment with the National Center for Transgender Equality; and ensure inclusivity within marginalized communities .

h. Drug Suppression Unit (DSU) will be eliminated.

Impact - Less emphasis on enforcement of low level drug crimes; greater focus on violent and property crime; and better provide law enforcement with the ability to focus on the root of rising violent crime and property crime incidents.

i. Establishment of a Citizen Review Board

Impact - Increases transparency within the department; and provides additional community oversight.

City Attorney Branham said that they have ongoing conversations with police unions. The local chapter of the North Carolina Police Benevolent Association has expressed their willingness to participate in an ongoing effort to arrive at a mutually agreeable consensus that will allow communities to institute a citizen review board. He received a letter today from the President of the local chapter of the North Carolina Police Benevolent Association expressing his continued intent to keep his efforts going with the final goal of having a consensus piece of legislation that we can mutually take to our legislators to provide municipalities across the state with these powers.

6. Training and Recruitment *(No additional funding at this time.)*
   a. Implement Verbal Defense & Influence (de-escalation) training

   b. Implement training around how to more safely restrain people who are resisting arrest

Impact - Intended outcomes: Better communication under pressure; reduced incidents of conflict; reduced incident of violence; improved customer satisfaction; lower rates of complaints; and improved morale. Provide law enforcement with additional tools to address individuals resisting arrest.

   c. Officer Wellness & Health Program

   d. Working on a recruitment strategy to increase black, latinx and other people of color officers

e. Outward Bound

f. Racial Equity Initiative (REI) Training

Impact - Create a healthy work environment; create a workforce that mirrors the makeup of the community we serve; create opportunities for APD and youth in the community to build relationships and trust; and Increased understanding and ability for officers to address racism in the organization and the community.

City Manager Campbell said the next steps (initiatives to be pursued include (1) Continue community engagement conversations starting in Nov. and develop strategies to: Consolidate 911 emergency call center to more efficiently respond and deploy resources for emergency response calls; Create with community partners a collaborative rapid response team model to respond to mental health, drugs and alcohol, homeless, domestic violence and similar types of calls with goal of having Police no longer being the first or only responder; Develop new model(s) for School Resource Officers to further support student mentoring and other identified needs in schools; Develop with tenants and Housing Authority staff new model(s) to enhance safety in Housing Authority communities; and Identify other training or police reform initiatives to be investigated or implemented; and (2) Make additional budgetary adjustments this fiscal year from APD's budget if other programs and initiatives are identified and are ready to be piloted and/or fully implemented.

City Manager Campbell and Police Chief Zack responded to various questions/comments from Council, some being, but are not limited to: explanation of how 911 calls are currently handled and how the 911 emergency call center telecommunicators and dispatchers will be trained for triage when consolidated; is there a way to incorporate some version of the REI training into the basic law enforcement program; will the Park Warden position be armed; how does the Inclusive Engagement and Leadership Manager in the Office of Equity & Inclusion differ from the Neighborhood & Community Engagement Manager in the Community & Public Engagement Office differ; what does elimination of the Drug Suppression Unit mean; and concern that during the reimagining public safety engagement meetings, we might not have reached individuals that are most directly impacted through police contact.

Councilman Haynes supported written consent for pedestrians without further discussion.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO PERMANENTLY CLOSE A PORTION OF AN UNOPENED RIGHT-OF-WAY KNOWN AS GAYLE STREET

Streets Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way known as Gayle Street. This public hearing was advertised on August 28, September 4, 11 and 18, 2020.

Background:

- N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.
- James Sandusky Paris and Carson Kinlaw Delinger have petitioned for this closure. They are owners of the property known as 99999 Morse Drive (Pin # 9627-22-9286).
- The unopened portion of right-of-way extends into the subject property.
- Upon closure, if granted, the unopened right-of-way will become part of the above property.

- The plan is for the property to be subdivided.
- The closure aides in meeting required setbacks.
- This closure allows maximum land use potential for further development complying with Living Asheville - A Comprehensive Plan for our Future.

Council Goal(s):
- A well-planned and livable community

Committee(s):
- Multimodal Transportation Committee - June 24, 2020 - Recommended closing the right-of-way by unanimous vote

Pro(s):
- The closure would allow for more efficient use of the existing adjacent property.
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con(s):
- None noted.

Fiscal Impact:
- There will be no fiscal impact related to this closure.

Mayor Manheimer opened the public hearing at 6:14 p.m.

Mayor Manheimer announced that there were no advanced live call-ins for this public hearing.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Vice-Mayor Wisler moved to recess this item until October 13, 2020, at which time this public hearing will be voted. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4785) FOR PROPERTIES LOCATED AT 172 ASHELAND AVENUE, 185 AND 99999 COXE AVENUE AND 5 FEDERAL ALALEY, FOR CHANGES TO A MIXED USE DEVELOPMENT ZONED CENTRAL BUSINESS DISTRICT-EXPANSION/ CONDITIONAL ZONE

Principal Planner Shannon Tuch said that this is the consideration of an amendment to a previously approved conditional zoning (Ordinance No. 4785) for properties located at 172 Asheland Avenue, 185 and 99999 Coxe Avenue and 5 Federal Alley for changes to a mixed-use development zoned Central Business District-Expansion/Conditional Zone. This public hearing was advertised on September 11 and 18, 2020.

Project Location and Contacts:
- The project site consists of four parcels with a combined area of approximately 4.43 acres, located at 172 Asheland Avenue, 185 and 99999 Coxe Avenue and 5 Federal Alley (PINs 9648.37-2643, 9648.38-0052, 9648.37-1928 and 9648.37-2825) that are owned by Asheland Properties LLC and South Slope Holdings LLC.
- Petitioner: Tribute Investment & Development Inc; Contact: Warren Sugg

Summary of Petition:

- The project was approved by City Council on December 10, 2019, under ordinance no. 4785 and is zoned Central Business District Conditional Zone (CBD-CZ).
- As detailed in the current ordinance, the development was approved for a mixed-use project with frontage on Coxe Avenue, Asheland Avenue and Federal Alley with residential and commercial uses throughout multiple buildings, a parking structure integrated into the development and urban open space in the form of a series of public and private interior courtyard spaces connecting the frontages and running through the site from east to west.
- The requested amendment primarily impacts the use and design of the northernmost building on Asheland Avenue and the use and design of the structure along Federal Alley. There are no changes to the Coxe Avenue buildings, interior courtyards or streetscape.
- The Asheland Avenue change proposes a residential building instead of the previous design that was intended for office use and the revision eliminates the residential liner building that was previously shown along Federal Alley.
- The changes to the buildings on Federal Alley and Asheland Avenue still comply with City of Asheville Unified Development Ordinance (UDO) standards such as: fenestration and expanses of solid wall and providing pedestrian entrances along street frontages. Since Federal Alley is not a key pedestrian street, the liner building in the previous design is not expressly required.
- The applicant has clarified that the land needed to construct the six-foot sidewalk connection from Federal Alley to Coxe Avenue is subject to the acquisition of land currently owned by the State. The process to acquire the land is currently underway but not yet complete and the construction of this offsite improvement is subject to completion of the acquisition.
- The ordinance includes a number of site specific conditions that are still applicable (B.1 conditions).
- This amendment does not conflict with those conditions, except that the approval was linked to the previous site plan and renderings; therefore, removing the liner building and altering the facades along Federal Alley and Asheland necessitate an amendment to the previously approved conditional zoning approval.
- The summary of changes is as follows:
    - Slight reduction in residential units *(from 488 down to 474)*
    - While the number of residential units is reduced there will be no reduction to the number of affordable units; the applicant will still provide the originally approved amount of affordable units (10 percent of 488 units, which is 48 affordable units)
    - Reduction in commercial programming *(from 86,000 square feet down to 44,199 square feet due to a reduction in the large office component in the original plan)*
    - Parking garage footprint remains the same but scale reduced *(from 973 spaces down to six levels and approximately 574 spaces)*
    - Federal Alley liner building eliminated with those residential units now relocated to the Asheland Avenue north building
    - Parking garage pulls up to front directly on Federal Alley and has been designed to include 18 foot deep "stalls" along the ground level that can be activated with a variety of temporary "pop-up" uses
    - Asheland Avenue north building was previously a 30,000-square foot, four story office building; now five stories and all residential use with significant aesthetic changes to facade due to the new use
    - Asheland Avenue south building was previously seven stories (two commercial ground levels with five residential levels above); now six stories (one level of commercial eliminated)
    - Rooftop patio previously on north end of Asheland Avenue building eliminated

- The Downtown Commission considered this request at their meeting on July 10, 2020, and voted unanimously to support the proposed change but with the following suggestions:
    - Revise the design of the north building on Asheland to differentiate and minimize the massing of the building, perhaps using the location of the vehicular entry as a "break" point *(the applicant agreed to and made the changes)*
    - Consider adding ground-level commercial space to the north building on Asheland *(the applicant prefers to maintain residential units on the ground floor)*
    - Minimize 24-hour parking deck lighting *(the applicant is agreeable to this suggestion)*
    - Consider adding amenities / facilities for year-round market stalls on Federal Alley *(the applicant is agreeable to this suggestion but the details remain an ongoing discussion)*
- The Planning and Zoning Commission reviewed the request at their meeting on August 5, 2020, ultimately voting at the September 2, 2020 meeting and unanimously recommended support.
    - Public comments were received and there were primarily concerns that relocating residential units to Asheland Avenue (in place of the office component) would add cut-through traffic to the South French Broad residential neighborhood via Morgan Street; a desire for retail spaces along the ground level along Asheland Avenue to provide more places for residents of the adjacent neighborhood to visit by foot and concerns that the reduction in parking spaces within the garage structure will result in overflow parking on-street in the South French Broad residential neighborhood. Additional comments received were not specific to the amendment.
- The project location is within Census Tract 9, an Opportunity Zone area. City resolution no. 18-269 states that Council commits to work with investors and the resolution offers guidance on projects within these areas to promote equitable growth, avoid displacement of low income or residents of color and avoid the loss of community assets or land.

Comprehensive Plan Consistency:

- As previously stated in the 2019 staff report, this development has been evaluated for consistency with the Living Asheville Comprehensive Plan and determined to be aligned in multiple ways. This amendment does not alter the alignment of this mixed-use project with the Living Asheville plan.

Compatibility Analysis:

- With the proposed amendment, the development remains compatible with the surrounding area by including market rate and affordable units in close proximity to downtown.
- Regarding the design change to the building on Asheland Avenue, the applicant responded to the requests from both staff and the Downtown Commission to include modifications to the facade to attempt to minimize the massing with several sections of color differentiation.
- The B.1 conditions that were agreed to during the previous review for pedestrian safety and traffic improvements are still in place to further minimize potential impacts.
- Since the number of residential units and office component have decreased with this amendment, staff does not believe that shifting the location of the uses within the development should have any greater traffic impact and notes that off-street parking is not required in the zoning district.
- Further, the proposed number of parking spaces is just under the minimum that would be required for the development if located elsewhere. The location of the project in an urban setting, close to downtown and availability of transit, support the amount of parking

provided in this project.

Council Goal(s):

- A Well-Planned and Livable Community
- Quality Affordable Housing
- Transportation and Accessibility

Committee(s):

- Technical Review Committee (TRC) - June 2020 - approved with conditions
- Downtown Commission (DTC) - July 10, 2020 - recommended unanimous approval with suggested conditions
- Planning & Zoning Commission - August 5 & September 2, 2020 - recommended approval 7-0

Staff Recommendation:

- Staff recommends approval of this amendment as the project includes market rate and affordable units in a location that is proximate to downtown and still includes a mix of uses to activate this area of the city.
- Staff finds that while the residential liner building was preferable, the changes to the Federal Alley parking structure still provide a mechanism for activation at the street level, as well as a creative design that allows for the redistribution of residential units to Asheland Avenue.
- As noted above, the applicant has made efforts to break up the visual massing of the building along Asheland Avenue and the redistribution of uses throughout the site is acceptable.
- Conditions from the original approval for traffic mitigation and affordable housing are unchanged with this amendment.
- Staff does have some concern regarding the unsettled land acquisition that would provide safe pedestrian connectivity offsite to Coxe Avenue.

At the request of Mayor Manheimer, Councilman Young moved to recuse Mayor Manheimer from participating in this matter due to a conflict of interest. This motion was seconded by Councilwoman Mayfield and carried unanimously on a roll call vote. At this time, Mayor Manheimer turned over the gavel to Vice-Mayor Wisler to preside over this topic.

Mr. Chris Day with Civil Design Concepts provided Council with several design changes, noting that their priority was residential.

Mr. Brian Cook, architect, walked through some of the visual changes.

Mr. Wyatt Steven, attorney for the developer Matt Maynard, stressed that the project includes at least 48 of the residential units to be dedicated to affordability at 80% AMI for at least 20 years and at least 10 of the affordable units will accept housing vouchers. He hoped that other developers will be able to accept housing vouchers as well. He provided Council with a letter from President Mark Maynard Sr. of Tribute Properties that stated they will make the following commitment for this development: "Following the model of the Lee Walker Heights Development, we will make a good faith effort to follow, and we will expect our subcontractors to follow, the principles set forth in the Federal Procurement Regulations of 24 CFR 85.36 (e) regarding contracting with small and minority firms, women's business enterprise and labor surplus area firms as modified as follows: (1) we will take affirmative steps to assure that minority firms, women's business enterprises, and labor surplus area firms are used when possible, including the use of local Black owned businesses and Black employees when qualified and available; and (2) Affirmative steps will include (a) placing qualified small and minority businesses and women's business enterprises on solicitation lists; (b) assuring that small and minority

businesses, and women's business enterprises are solicited whenever they are potential sources; (c) conducting job fairs in minority neighborhoods; and (d) working with the YMI, Mountain BizWorks and other local non-profit agencies that serve the minority communities in Asheville." He said that as they go forward and begin hiring and subcontracting, they will welcome engagement with the Office of Equity & Inclusion as well.

Councilwoman Mayfield felt that the contracting proposal made by Mr. Maynard could possibly be some criteria that we use in other big projects, e.g., hotel developments.

Vice-Mayor Wisler opened the public hearing at 6:51 p.m.

Vice-Mayor Wisler announced that there were no advanced live call-ins for this public hearing.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilwoman Smith moved to recess this item until October 13, 2020, at which time this public hearing will be voted. This motion was seconded by Councilwoman Mosley and carried on a 6-0 roll call vote, with Mayor Manheimer being recused.

At this time, Vice-Mayor Wisler handed the gavel over to Mayor Manheimer to continue presiding over the meeting.

V. NEW BUSINESS:

A. RESOLUTION NO. 20-169 - RESOLUTION APPROVING A $1.1 MILLION HOUSING TRUST FUND LOAN TO THE JUNA GROUP

Community Development Programs Director Paul D'Angela said that this is a request by The Juna Group Inc. to utilize a Housing Trust Fund Loan of $1.1M to construct 11 affordable single family homes on property located at Alice Clement Lane in the Oakley area.

Background:

- Al Clement d/b/a, the Juna Group Inc., an African American Developer, has proposed the development of 11 single family homes available to be sold to individuals and families at or below 100% of the Area Median Income (AMI) on a 1.1 acre parcel (each home .10 acre) to be constructed on "Alice Clement Lane", currently known as Shakedown Street, (PIN #9657-88-4092) in the City of Asheville, directly off Broadview Street. All 11 homes are intended to be at least 3 bedrooms, 2 full baths and approximately 1300 sq. ft.
- Beginning in 2017, Al Clement purchased 4.8 acres, with 2.6 of the acres buildable.
    - Plans were submitted to the City of Asheville to develop 19 lots on the 2.6 acres.
    - Approval was received June, 2018, and in July, 2018, construction began on infrastructure.
    - The Infrastructure and eight of the homes are either complete or will be completed soon.
    - The developer is requesting Housing Trust Fund dollars for the remaining eleven homes.
- The Juna Group Inc. consists of Al Clement, owner, and his brother David Clement, Project Manager.

Proposal:

- The developer seeks a loan of $1,100,000 from the City's Housing Trust Fund (HTF). The Juna Group Inc. needs this funding, $100,000 per home, to complete Phase 2 of 5 homes and Phase 3 of 6 homes for a total of 11 single family homes.
- The Juna Group Inc. is committing the property, the remaining 11 lots of 1.1 acres, (valued at $770,000) as equity.
- The Juna Group Inc. proposes to borrow $1.1M over a period not to exceed 2 years at 1% annual interest rate, with no payments due until the full payment is due, maximum 2 years.
- Units will be made available to qualified affordable individuals and families with a sale price of approximately $275,000, a sales figure that can work with a 100% AMI family.
- However, the developer with assistance from City staff, will attempt to find buyers below 100% AMI, down to 80% AMI, that can qualify for these 11 homes with the help of Down Payment Assistance Programs.
- The developer is committed to finding individuals and families, in partnership with the City and other agencies like Habitat for Humanity and affordable housing lenders, between 80%-100% to purchase these homes.
- The homes will come with a deed restriction of affordability for 10 years, meaning if the home is sold within that time period, the owner will sell it to another income qualified family at or below 100% AMI.
- The City will work in partnership to help find buyers that qualify and a sales figure that works.
- The developer has requested that if a qualified individual or family between 80% - 100% AMI can not be found within 6 months of the issuance of the Certificate of Occupancy, the developer can move to find an individual or family at or below 120% of AMI to purchase the home. Staff is committed to assisting in the marketing effort of the home and finding a qualified buyer between 80%-100% AMI.

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- HCD - August 18, 2020 - Unanimously approved

Pro(s):

- The project produces 11 homes for individuals and families at between 80% - 100% AMI at a location near the City's core, with good access to transit and essential services.
- The developer has successfully completed Phase 1 of Alice Clement Lane and demonstrated capacity with both Community Development and Development Services.
- Working with the Juna Group Inc. shows the City of Asheville's commitment to working with other developers, including for-profit developers, to be a part of the solution to affordable housing, both rental and homeownership.
- Affordable homes sold to individuals or families between 80% - 100% AMI at a sales price that better aligns with the incomes and wages produced in Asheville allows residents to have an opportunity to build wealth with homeownership.
- HTF loans for homeownership allow the funds to be paid back much quicker, at either the sale of the home, or a limited time period like 2 years.
- An affordability period of 10 years helps protect the City's investment in affordable housing.

Con(s):

- Loan amount per unit is above the Housing Trust Policy's recommendation of $20,000 per unit.
- The affordability period is just 10 years.

Fiscal Impact:

- The project would require $1,100,000 from the City's HTF.

Mr. D'Angelo said that after doing some research, it shows only 40 homes for sale in the City of Asheville under $275,000, with an average & median price above $550,000 for all 303 listings. Outside of Habitat, who builds maybe 15 to 18 homes a year, Mountain Housing Opportunities who helps with DPA, maybe 24 homes a year, and now the CLT, we have no solution on the table for homeownership. We need more local, infill developers to help us out. This is hard to make the numbers work. This will help expand the pool of developers. The Juna Group is a local and infill developer.

Mr. Al Clement, developer, thanked City Council for their support so far. He explained how home ownership can be a powerful tool to lift people up. He will continue to work with Mr. D'Angelo to get the $275,000 down, but noted that as soon as someone moves in, they will already have equity in the home. He has reached out to the Asheville-Buncombe Community Land Trust, OnTrack Financial and Habitat for Homes to help find people who may qualify for these homes, along with banks who are familiar with down payment assistance programs.

Councilwoman Mayfield suggested Mr. Clement also reach out to the Housing Authority who has a home ownership program.

Vice-Mayor Wisler supported home ownership, but could not support the project without a guarantee of lower than 100% AMI. She was troubled by the idea of allowing the option for 120% since that does not fit in our Affordable Housing Policy. She was also troubled by the fact that the collateral is less than the loan value. And mostly she was concerned about the 10 year affordability.

Mr. D'Angelo said that he spoke with Mr. Clement and they agreed not to put anything in any of the loan documents about the 120% AMI request after 6 months. He said he has been speaking to Mr. Clement for 14 months and he has been committed to trying to be part of the solution on affordable housing. He could not tell you how hard affordable housing is, let alone affordable for homeownership. The number of units currently for sale speak for themselves. We are making great headway in rental, with over 420 units he believed over the past 18 months. We still need many more. But regarding homeownership, we need to think creatively and effectively to get more homes for sale and he thought this is a very good start. He also believed we can protect our investment with oversight.

Mayor Manheimer announced that there were no advanced live call-ins for this matter.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to approve The Juna Group Inc. request for a $1.1M in Housing Trust Fund to construct 11 affordable single family homes at the property located at Alice Clement Lane in the City of Asheville to be sold to individuals and families at or below 100% AMI. This motion was seconded by Councilwoman Smith and carried on a roll call vote of 6-1, with Vice-Mayor Wisler voting "no."

RESOLUTION BOOK NO. 41 – PAGE 444

B. BOARDS & COMMISSIONS

Regarding the Human Relations Commission, the following individuals applied for the vacancy: Susy Chandler, Melissa Ray, Sam Franklin, Bernie Lee Miller, Veronica Colt, Alexandra DiSclarfani, Britni Worley, Ricky McGrath, Emma Nichole Worthy and Will Overfelt. The Human Relations Commission recommended postponing any appointments until they have an opportunity to hold interviews at their October meeting. It was the consensus of the Boards & Commissions Committee and City Council to postpone these appointments until after the Human Relations Commission forward their recommendation.

Regarding the Multimodal Transportation Commission, the following individuals applied for the vacancy: Sandy Aldridge, John Bausone, Marty Shults, Michael G. Waddle and Lydia Buehrer. The Multimodal Transportation Commission recommended readvertising and postponing any appointments until they have an opportunity to review the applications at their October meeting. It was the consensus of the Boards & Commissions Committee and City Council to postpone these appointments until after the Multimodal Transportation Commission forward their recommendation.

Regarding the Neighborhood Advisory Committee, the individuals applied for the vacancy: Lee Arevian, Bobbette K. Mays, Diane Dankert, Greta Bush and Damita Jo Wilder. The Neighborhood Advisory Committee recommended readvertising for these seats. It was the consensus of the Boards & Commissions Committee and City Council to readvertise the Neighborhood Advisory Commission seats.

RESOLUTION NO. 20-170 - RESOLUTION APPOINTING MEMBERS TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Affordable Housing Advisory Committee.

The terms of Dewanna Little, Parker Smith, Randall Barnett, Barry Bialik and Leslie Hennessee's expired on September 1, 2020.

The following individuals applied for the vacancy: Paul Holstein, Brian Methvin, Shannon Watkins, Michael Figura, T. Cory Lewis, Tyson Bowman, Thomas A. Christ, Drew Crawford, Rodrigo Afanador, Damita Jo Wilder, Eric Howell, Michael G. Waddle, Joshua Katz, ZaKiya Bell-Rogers, Henry Sannyasa, Scott Adams, Cyd Jaggers, Chris Woodward and DeLores Venable.

Boards & Commissions Committee recommended reappointing Dewanna Little, Parker Smith and Barry Bialik; and appointing Brian Methvin and Scott Adams.

Vice-Mayor Wisler moved to (1) reappoint Dewanna Little, Parker Smith and Barry Bialik as members to the Affordable Housing Advisory Committee to each serve an additional three-year term respectively, terms to expire September 1, 2023, or until their successor have been appointed; and (2) appoint Brian Methvin and Scott Adams as members of the Affordable Housing Advisory Committee, to serve a three-year term respectively, terms to expire September 1, 2023, or until their successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 445

RESOLUTION NO. 20-171 - RESOLUTION APPOINTING MEMBERS TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Citizens-Police Advisory Committee.

Kaaren McNulty (south representative) has resigned as a member of the Citizens-Police Advisory Committee, thus leaving an unexpired term until June 30, 2020. In addition Shana McDowell (at-large representative) has resigned, thus leaving an unexpired term until June 30, 2022. In addition, the terms of Blake Marcus (north representative) and Jerry Kivett (central representative) expired on June 30, 2020.

The following individuals applied for the vacancy: Cathy Banks, Tracey DeBruhl, David Angelus, Barbara Wright, Anthony Coggiola, Mary Ammerman, Tim Kelley, Damita Jo Wilder and Michael E. Beech.

The Boards & Commissions Committee recommended appointing Damita Jo Wilder as the south representative, Barbara Wright as the central representative, and Michael Beech as the at-large representative. In addition, the Committee recommended reappointing Blake Marcus as the north representative.

Vice-Mayor Wisler moved to appoint (1) Damita Jo Wilder (south representative) as a member of the Citizens-Police Advisory Committee to serve a three-year term, term to expire June 30, 2023, or until her successor has been appointed; (2) Michael Beech (at-large representative) as a member of the Citizens-Police Advisory Committee to serve the unexpired term of Ms. McDowell, term to expire June 30, 2022, or until his has been appointed; (3) Barbara Wright (central representative) as a member of the Citizens-Police Advisory Committee to serve a three-year term, term to expire June 30, 2023; and (4) reappoint Blake Marcus (north representative) to serve a three-year term , term to expire June 30, 2023, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 446

RESOLUTION NO. 20-172 - RESOLUTION APPOINTING MEMBERS TO THE CIVIC CENTER COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Civic Center Commission.

The terms of Corey Atkins and Yvonne Cook-Riley expired on June 30, 2020.

The following individuals applied for the vacancy: Lee Arevian, John W. Ellis, Steven M. Howard, Tony Micocci, Mukunda Pacifici, Sandy Aldridge, Nicole Lee and Josh Batenhorst.

Boards & Commissions Committee recommended reappointing Corey Atkins and appointing Nicole Lee.

Vice-Mayor Wisler moved to (1) reappoint Corey Atkins to serve an additional three-year term as a member of the Civic Center Commission, term to expire June 30, 2023, or until his successor has been appointed; and (2) appoint Nicole Lee as a member of the Civic Center Commission, to serve a three-year term, term to expire June 30, 2023, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 447

RESOLUTION NO. 20-173 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville-Buncombe Historic Resources Commission.

Craig Cline and Gordon McKinney have resigned, thus leaving two unexpired terms until July 1, 2022. In addition, Ed Flowers has resigned, thus leaving an unexpired term until July 1, 2021.

The following individuals applied for the vacancy: Lucy A. Kruesel, J. Wagner and Amanda Vollrath, Sara Gardner, Maggie Brousaides, Sioux Oliva and James Vaughn.

The Boards & Commissions Committee recommended appointing James Vaughn, Sara Gardner and Maggie Brousaides..

Vice-Mayor Wisler moved to (1) appoint James Vaughn the unexpired term of Mr. Cline, term to expire July 1, 2022, or until his successor has been appointed; (2) appoint Sara Gardner to serve the unexpired term of Mr. McKinney, term to expire July 1, 2022, or until her successor has been appointed; and appoint Maggie Brousaides to serve the unexpired term of Mr. Flowers, term to expire July 1, 2021, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 448

RESOLUTION NO. 20-174- RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Public Art & Cultural Commission.

The terms of Jasmine Washington, Andrew Fletcher, Jay Fields, Katie Cornell, Valeria Watson and Pete Perez expired on June 30, 2020.

The following individuals applied for the vacancy: Anne Manner-Mclarty, Marsha Almodovar, Daniele Martin, Nathaniel Wyrick, Christian ODonnell, Hilary Chiz and Michael G. Waddle.

Boards & Commissions Committee recommended reappointing Jasmine Washington, Andrew Fletcher, Katie Cornell, Valeria Watson and Pete Perez; and re-advertising for the last vacant seat.

Vice-Mayor Wisler moved to (1) reappoint Jasmine Washington, Andrew Fletcher, Katie Cornell, Valeria Watson and Pete Perez as members to the Public Art & Cultural Commission to each serve a three-year term respectively, terms to expire June 30, 2023, or until their successor have been appointed; and (2) readvertise for the last vacant seat. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 449

RESOLUTION NO. 20-175 - RESOLUTION APPOINTING A MEMBER TO THE WNC AIR QUALITY BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the WNC Air Quality Board.

The term of Dean Kahl expired on July 1, 2020.

On August 25, 2020, the Boards & Commissions Committee recommended re-advertising for the vacant seat.

The following individuals applied for the vacancy: Garry Whisnant., Robert H. Lane, Evan Couzzo and Drew Ball.

The Boards & Commissions Committee recommended appointing Evan Couzzo.

Vice-Mayor Wisler moved to appoint Evan Couzzo as a member of the WNC Air Quality Board to serve a six-year term, term to expire July 1, 2026, or until his successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 450

VI. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4828 - ORDINANCE EXTENDING THE TEMPORARY MORATORIUM ON HOTEL DEVELOPMENT FOR FIVE MONTHS DUE TO DELAYS ASSOCIATED WITH THE COVID-19 PANDEMIC

Mayor Manheimer said that this public hearing was held on September 8, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

After receiving additional written public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to adopt an ordinance to extend the temporary moratorium on hotel development approvals within the City of Asheville, including "Hotel, extended stay", "Hotel, large" and "Hotel, small" as defined in Section 7-2-5 of the city's Unified Development Ordinance, for five months so that it expires no later than February 23, 2021. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 - PAGE 140

B. ORDINANCE NO. 4829 - BUDGET AMENDMENT REGARDING THE FISCAL YEAR 2020-21 ANNUAL OPERATING BUDGET

City Manager Campbell said Assistant Finance Director of Finance Budget & Forecasting Tony McDowell will provide you with an overview of the budget process; give a brief financial update; present the FY 2020-21 Manager's recommended budget amendment (reimagining public safety; and investment recommendations); and explain the next steps for the FY 2021-22 budget process.

Mr. McDowell said that this is the consideration of an ordinance amending the FY 2020-21 annual budget to provide City departments with a full year of operational funding.

Background:

- On July 30, 2020, City Council adopted the Fiscal Year (FY) 2020-21 annual budget ordinance with each department receiving funding in its budget for operations through the end of September, with the remaining budget being held in reserve in non-departmental.
- Over the last two months, the City Manager's Office has completed a community engagement process to evaluate investments in the Asheville Police Department, other City departments, and various community programs.
- Influenced by the input from the community engagement process, staff is recommending the amendment to the FY 2020-21 budget ordinance.
- The budget amendment includes the reallocation and reinvestment of approximately $770,000 from the Proposed FY 2020-21 Police Department budget that was presented to City Council in May 2020.
- Specific prioritized recommendations are based on the initial review of the survey results, other communications and engagement efforts (open data initiative), and on what we can do and do well right now.
- Focus areas for initial reinvestment/reallocation are outlined below.
    a. Nuisance Response:
        i. Move Animal Control and Noise Ordinance enforcement to the Development Services Department (DSD).
    b. Data Management and Transparency:
        i. Additional position(s) in the Information Technology Services (ITS) department for improved Public Safety data analysis, reporting, and public access; and
        ii. One time payment to support a collaborative effort between City, Asheville City Schools and the Housing Authority to enhance broadband access for residents and students.
    c. Community Engagement and Outreach:
        i. Additional position(s) in the Communications and Public Engagement (CAPE) Department to better serve communities and neighborhoods to help solve problems and address community issues in coordination with all City departments and other partners.
        ii. Additional position in Parks and Recreation to provide outreach to communities and neighborhoods to enhance park security, patrol and community concerns.
    d. Homeless Outreach
        i. Additional support to outside agencies for homeless outreach to focus on the Pritchard Park area and to free up other resources to perform homeless outreach in other parts of the City.
- To fund these FY 2020-21 budget investments, the following divestments from APD are proposed:
    a. 4 Animal Control positions (reassigned to DSD) - $220,000
    b. 1 Assistant to the Chief position (funding reassigned to CAPE; individual moving into another position) - $110,000
    c. 2 Park Warden positions (1 position reassigned to Parks and Recreation and 1 vacant) - $90,000
    d. 6 Telecommunicator positions (all currently vacant; funding being reassigned to ITS and DSD) - $300,000
    e. Salary savings from sworn police officer positions (resignations between July and September - one-time) - $50,000
    f. Total of approximately $770,000

Council Goal(s):

- A Financially Resilient City

Pro(s):

- Provides departments with full annual funding for fiscal year 2020-21.
- Incorporates community input based on the initial review of survey results, other communications, and engagement efforts.
- Demonstrates first steps in ongoing efforts to Reimagine Public Safety within the city.

Cons:

- None

Fiscal Impact:

- There is no change to the overall total General Fund budget that City Council adopted on July 30, 2020.

He said preliminary year-end results are (1) sales tax revenue losses were unprecedented but not as bad as expected; (2) Coronavirus Relief Funding helped offset expenses; and (3) Fund Balance usage less than originally estimated - final numbers after the financial audit is completed in October. The financial summary is (1) economic outlook remains uncertain; (2) no budget additions recommended at this point; (3) continuation of soft hiring freeze through the first half of fiscal year; and (4) update Council after completion of annual audit.

Potential recommendations for FY 2021-22 (1) work with Buncombe County to consolidate the 911 emergency call center to more efficiently respond and deploy resources; (2) create a collaborative rapid response team for mental health, drugs and alcohol, homeless, and domestic violence calls; (3) develop new model(s) for School Resource Officers to support student mentoring and other identified needs in schools; and (4) work with tenants and Housing Authority staff on new model(s) to enhance safety in Housing Authority communities.

He said key takeaways are (1) FY 2019-20 financial results are better than expected but ongoing uncertainty; (2) budget amendment includes the initial reallocation and reinvestment of approximately $770,000 from the Police Department budget; and (3) budget recommendations are only the beginning of the effort to reimagine the delivery of public safety services in Asheville.

Councilman Haynes said it has been brought to his attention that for a cost of $33,615 a year we can bring the 35 firefighters that are currently being paid less than a living wage, based on their 56 hour work week, up to a living wage. While the City continues to argue that their hourly wage should be based on a 40 hour week, he disagreed and felt that while we wait on the compensation study to further address this issue, this should be taken as a good first step.

City Manager Campbell said there is consistent dialogue about hourly pay for firefighters because they have a different work schedule than the majority of employees. Firefighters do not make an equivalent of $31,200 which would be on an hourly rate of 40 hours at $15.00 an hour. They actually make more than that. We recommend that Council wait until the compensation and classification study is completed because there may be additional adjustments that we would like to make to firefighter's pay and several other classifications of jobs in our organization. We have taken this under consideration on whether we should make a recommendation now to adjust only firefighters when we have a number of other employees, e.g., public works and street maintenance employees whose jobs may not appear to be as unsafe or challenging as

firefighters, but there are a number of positions where salaries need to be adjusted. She implored Council not to pick out one sector and say let's do it for them and not others - we need to do it holistically . She recommended waiting for the study until we can figure out a more strategic way to adjust as many City employees pay as possible.

Human Resources Director Peggy Rowe explained that the actual number to bring those employees to $15.00 is more complicated than that because of the way they are scheduled for 24 hour shifts. It would actually be an additional $10,000 per employee to calculate their time based on 2,912 hours (which is how you account for their 24 hour shifts). That would put them each at $10,000 more annually. She believed it was 70 employees that fall into that category. And, that doesn't account for any overtime. Additionally, if you calculate those entry level firefighters, which is the group you are talking about, at 2,912, then you also have to account for the firefighters and the senior firefighters and all up the line - all the additional employees who work that 2,912 hour shift. Respectfully she suggested staff bring the specific numbers back to Council and try to walk you through the significant impact that it will have on the City budget - not just for those 70 firefighters, but for the senior firefighters and engineers and other employees who work that same shift, if we change how we calculate those hours. She respectfully asked Council to defer any vote until we give you as much detail as you would like on what the actual impacts would be and why this is more significant than just raising a few employees to that hourly rate.

Councilwoman Mayfield said that we are hearing different information and suggested a small meeting with perhaps Councilman Haynes, some firefighters, the City Manager and the Human Resources Director so we can all agree on the numbers and the impact of those numbers. Mayor Manheimer agreed with the small meeting and then the Finance & Human Resources Committee can review the numbers.

Vice-Mayor Wisler confirmed that City staff and Council is willing and committed to making changes to the current year's budget as soon as new initiatives are identified and vetted.

Councilwoman Mayfield said we are hearing from people with various opinions who are unhappy with this budget. Some think these or any cuts are wrongheaded given that we are losing officers and that we've seen an increase in violent crime this year. They worry that any cuts at all will decrease public safety. Others think this is insufficient to meet our commitment to reimagine policing and shift resources from the police to other programs that will better serve public safety and particularly the homeless, the mentally ill, and black and brown people who are disproportionately impacted. Still others won't be happy until they see a 50% cut, period. To the first group, she didn't believe any changes we are making today – nor does she believe any cuts this council will ever make – will reduce public safety. Government has just a few core duties, and keeping people – all people - safe is one of those. She believed any changes we make today and going forward will only serve to increase public safety for everyone. To the second group, she hears your frustration. Yes, these are not the changes we need to ultimately make to meet our commitment to reimagine the police. These are only the first steps at shifting APD resources in order to better utilize them in other departments and better serve the public. We still have a long way to go. To the third group, we may one day get to this level of cuts and the important investment of that money into other areas that improve safety and quality of life for people. She would love to live in a community where we could do with a much smaller police department and where the public feels safe and protected. We are not there today and it will take significant work to create what's necessary for us to get there. To everyone, as we've said from the beginning of this conversation, we are committed to making these divestments and reinvestments carefully and thoughtfully. She takes seriously our responsibility to make sure we have the structures in place to address the needs of the public that were previously assumed by the police. We have some of that in place now, which is why we can shift: (1) animal control and noise enforcement to Development Services; (2) park wardens to the parks department; (3) communications positions to community engagement; (4) data analysis to our IT department and

(5) homeless outreach to our established partners. That isn't much in terms of money or addressing the concerns of the Black community, but each of these steps should result in improved service to the public. And there is much more work to be done that will produce more and more impactful results in a few months. For example, we are in deep discussions with the county, MAHEC, Homeward Bound and other partners about a new model that will shift response to calls related to addiction, mental health, homelessness, and perhaps other issues from the police to a response team that is better trained and prepared to address those issues. Based on the community engagement, we also hear that people want us to look for other opportunities so that our police can focus on things they are uniquely trained to address – like violent crime and gun violence, which are either equal to or higher than last year and we're only in September. And of course, we also need to move forward with other changes related to training, policing practices, and policies - things that will get at changing the culture of the police department so there is a better understanding of and sensitivity to the challenges our Black and Brown community members face. She didn't believe that the time we had in this process, and definitely the 8 days before the end of the month when the city would come to a screeching halt if we don't adopt this, is enough for this level of change. So voting no tonight is not an option for me and scheduling a special meeting before the end of the month won't change that. The time this change will take will be considered too slow for some of you. But change will come. And what she hears the City Manager saying is that as we identify and choose new programs to move forward with, we will, with the funding coming from APD's budget. Again, everything we do should be aimed at improving public safety for everyone. While she won't be here for the future decisions, she asked the staff, her fellow council members and the public to remain committed to the hard work and difficult conversations required to reimagine policing and to get creative about plowing new ground that takes better care of all of us.

Councilman Young acknowledged this has been a trying year, with most Americans struggling with something in their lives, from the pandemic and people dying from the virus, to losing their jobs, to parents having to homeschool their children, to having our streets mired with protests. He has not encountered many individuals who wish to completely abolish the police and neither does he. He wants to change the way police interact with Blacks and others of color. We have a great City Manager and we have tasked her with a monumental undertaking - one that has never been attempted in this City before. In doing so, there was an understanding that the magic wand to disburse all of our problems would not be presented here tonight. There was also an expectation to divest and invest in a way that would reflect changes in the way the community takes part in policing matters. And, that it would be shown to us all how other organizations are doing these efforts to begin fundamentally changing the way we do policing in Asheville. He knows this is just the beginning. He also stated it's a grave mischaracterization when people think when they call the police there won't be anyone there to answer your call because they have been defunded. That is fear mongering at its worst. That is not what reimagining police is about. Let's not forget the real reason we are here. The real reason we are talking about this is about Black and Brown bodies. Policing in this country is riddled with huge disparities between Black and White residents. Some people believe money is the root of the issue and that shifting funds is the key to the solution. That might be the answer to some of our issues on some levels. However, he didn't believe it will completely change the way that he is policed as a Black man. There is no magic wand for a solution. This process will be ongoing and multi-faceted if we do it right. He is trying to expand his own personal communication with the Police Chief, the officers, union representatives and people in the community. Policing has to change. On another point, he is completely understanding of the difficult tasks we have issued to our City Manager and staff. And, without question when we hired the City Manager, her resume excelled and one would be hard pressed to see that she is here not only to "keep the trains on time" but to also help embed the culture of equity into our City government. The Equity & Inclusion Department was established by former City Manager Gary Jackson and he understood what equity meant to this organization. He said that he has so much respect for the City Manager as a Black woman but he has an obligation to be objective. He felt she has done a tremendous for this City especially in

times of crisis. He commended her work and her ability to "keep the trains on time" during such uncertain times. However, over an extended period of time it has become clear to him that the Department of Equity and Inclusion is not part of this culture in City government, nor is it being supported from a managerial standpoint to help facilitate the culture that brings people in line on the course set out by Council. He pointed out areas in which he felt equity and inclusion is not being supported or included in the fabric of City government. He asked for a few nods from Council members to proceed with the following: (1) Instruct the City Manager to immediately start the process to fill the vacated role of the director of Equity and Inclusion, as opposed to the manager's current course which is to wait on filling this position; (2) Instruct the City Manager to reassess the active roles of equity in city government to improve a culture of equity and inclusion in conjunction with her office; (3) On a council level he asked to have the Governance Committee review the current structure of the Department of Equity and Inclusion and receive a thorough update on all work that is currently being done and what are suggested next steps from the department in furthering this work within city government. (The Equity Department was birthed in the Governance Committee and that is where he believed this should go. He asked for a meeting to be held no later than three weeks from today); (4) Ask the City Attorney's Office to explore options for adding the Office of Equity and Inclusion's Director to the City Councils roster of subordinates whereas this department would then transform fundamentally and will essentially report directly to Council under the direction of the Equity and Inclusion officer. The City Manager would continue to implement equity initiatives in City government through the normal administrative service of the City which is the right of the City Manager. This department's work would now be independent of the City Manager's Office in the day to day and create a checks and balance system whereas both entities would work independently on the day to day, but together both serve Council and the community by responding to Council as the mandated policy head to instruct our City Manager on the best course forward through direct recommendation from the equity department; and (5) Ask this Council to take part in an immediate review of the City Manager, no later than prior to the first meeting in December, to better synergize our relationships, expectations and communication on what is expected on this front and have that review ready for the next incoming Council so that they are fully prepared with a clear understanding of an expected pathway forward on all fronts. The newly seated Council can refer to this review moving forward.

Councilman Haynes said if the original budget had passed as proposed, the APD's budget would have increased by $4.91 Million over the past five years. Even with the $700,000 reallocated to mostly other departments, there is still a net increase of over $4.1 Million over five years. The argument over the ever-increasing police budget has continued over the entirety of my almost-five years on Council. We were told it was vital that we create a costly new Downtown APD Unit while we already employ the highest number of officers per capita in the state. Yet each year in spite of evergrowing objections from the community and some Council members, every APD budget has passed as proposed. Now with the stated goal of seriously addressing Black Asheville Demands of divesting from the police and investing in Black communities, these proposed cuts fall way short and he will not be supporting this budget amendment as proposed.

Councilman Haynes moved to deny the budget amendment because it does not advance our stated goals and instead perpetuates systematic racism when we have a generous call for community healing which includes a demand that 50% of APD's budget won't be invested back into the Black communities. And, it does not meet the goals set forth in the Council's vision plan of an equitable and diverse community, a well planned and livable community, a clean and healthy community, and a connected and engaged community. This motion was seconded by Councilwoman Smith.

At this time, Mayor Manheimer announced a short recess.

From advanced live call-ins, nine individuals spoke to Council, including, but not limited to the following comments: significant rise in the City's population, 911 calls for service, daytime population, etc. in a 10 year timespan; need to continue to invest in our APD and make sure our officers are replaced when there are vacancies and trained; opposed to adoption of this budget amendment; need to dismantle the APD which is a malfunctioning institution; equity should be a part of every aspect; opposition to any budget cuts to the APD; and institute a hard freeze on hiring in the APD.

The motion made by Councilman Haynes to deny the budget amendment and seconded by Councilwoman Smith failed on a 2-5 roll call vote, with Councilman Haynes and Councilwoman Smith voting "yes" and Mayor Manheimer, Vice-Mayor Wisler, Councilwoman Mayfield, Councilwoman Mosley and Councilman Young voting "no."

Vice-Mayor Wisler moved to adopt the budget amendment as presented. This motion was seconded by Councilwoman Mayfield and carried on a 5-2 roll call vote, with Mayor Manheimer, Vice-Mayor Wisler, Councilwoman Mayfield, Councilwoman Mosley and Councilman Young voting "yes" and Councilman Haynes and Councilwoman Smith voting "no."

Mayor Manheimer said that Council too is struggling to find some clarity so we can provide good direction to the City Manager and staff. All of Council has received a lot of emails and there is one common thread - people want to be safe in their community. It is clear that what that means to people is different. As we move this forward and make changes, safety will be her priority in reimagining public safety. There are a lot of exciting opportunities and a lot of community organizations that are anxious to help us out. She is hopeful that we will get to a good place and thanked everyone for their continued support moving forward.

Councilwoman Smith thanked the record number of Blacks who showed up to the public process that often fails. Over time we have heard a lot of information before we even proposed reimagining police about our public engagement processes. They feel they are talking a lot but not being heard and their consideration is not being taken. Tonight some may feel discouraged and still not heard. That is why she could not support the budget amendment. We called the action of the recommendations that were delivered by the City Manager as foundational. She did not feel it is foundational towards investing in a community model. What she did believe, it could have been complementary, to a proposal that will give us a projection of what types of money or the amount of money that could be freed up so that we know that our time invested in this process would actually lead to investment. She believed that we know a lot of the services and programs that can be shifted into community models or a shared model. She would have liked to have seen a dollar amount put towards that so we can be assured that we are being heard and investment is being considered. The pathway forward is not a reform. Reform is deferred maintenance. Reform is what we should already have for basic protection. What we are looking for is something totally different. The pathway forward from this point on should show a dollar amount (not shifting into a non-profit because we already know that non-profit work is not always sufficient enough to serve the community's needs). We are going to look for something that is substantive and something that is worth our time and something that is worth our historic loss and something that is worth this occasion. A lot of the comments made concerning whether to support the Asheville Police Department or to do something different, it actually shows that we live in a tale of two cities. We have some people who feel that their sense of protection comes from the presence of a police officers. But, other people feel that the presence of a police officer gives them the sense of danger and threat. We have to grapple with that and we have to represent everybody for a safe Asheville.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

From advanced live call-ins, three individuals spoke to Council, including, but not limited to the following comments: process for public input is challenging; need to see timelines and dollar amounts with the reimagining process; reimagining public safety listening sessions were not well organized; and people are afraid of change but it is necessary.

Councilwoman Mayfield thanked City Manager Campbell and City staff for all the work that has gone into this process. In light of the comments heard, she trusted City Manager Campbell explicitly and trusted her to lead our equity efforts in a way to get our City in the way we want to go.

Vice-Mayor Wisler echoed Councilwoman Mayfield and said that she was continued to be amazed at how well and how diligently City Manager Campbell leads the City. She said that she sees City Manager Campbell out in the community a lot and hears the respect from the community.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:35 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – October 13, 2020 - 2:30 p.m.

Worksession on Proposed Hotel Development Regulations

This worksession was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilwoman S. Antanette Mosley; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that even though no public comment will be accepted at this worksession, the public can still access the remote meeting by listening live and watching online.

Director of Planning & Urban Design Todd Okolichany reviewed with Council the key takeaways (1) Hotels can't be "banned" out right; (2) Development impacts can be managed; and (3) New innovative tools to regulate hotel development approvals: (a) Hotel Overlay District; (b) Development and operational standards; (c) Public benefits; and (d) Design review and design guidelines.

He then reviewed the hotel development study timeline.

Key findings identified by the Urban Land Institute (ULI) included (1) Hotel development impacts are narrow and manageable; (2) Hotels are a proxy for other political and community concerns (e.g. affordable housing, wages, infrastructure needs, etc.); (3) There is a lack of predictability and transparency with the hotel development review process; and (4) Policy and regulatory tools can help manage hotel development approvals.

ULI Policy & Design recommendations included (1) Enhance predictability and transparency in the hotel review process; (2) Establish an accommodations (or hotel) overlay zone; (3) Enact Community Benefits Agreements ("public benefits"); and (4) Update design guidelines and create new oversight compliance mechanisms.

At the February 2020 City Council work session on hotels, Council directed staff to engage the public and study/draft policies for the following: (1) Reestablishing hotels as a permitted use in select areas; (2) Developing new development review criteria and standards; (3) Incentivizing public benefits; and (4) Improving hotel design.

Proposed regulations - key elements are Hotel Overly District & Development Standards; Public Benefits; and Design Review & Guidelines - (1) Establishes a straightforward, transparent process - Administrative vs. City Council review as an incentive; (2) Leverages development to meet community needs; (3) Creates a framework that is a precedent for other types of development; (4) Manages development impacts; and (5) Enhances design.

Regarding staff approval vs. conditional zoning, he showed a development review process flowchart.

Thresholds for Council review include (1) Hotels exceeding 100 feet in height; (2) Hotel projects that do not meet: (a) UDO development standards; (b) Requisite public benefits; and (c) Design review approval; (3) Hotels proposed outside the overlay; and (4) Other considerations: (a) Upper limit on number of hotel rooms; and (b) Maximum amount of hotels on any given block.

Revisions based on public engagement included (1) Changed the definition of small hotels (35 rooms or less); (2) Reduced the extent of areas suitable for hotel development -

Directed hotel development away from residential areas; and Greater focus on protecting historic districts and viewshed corridors; (3) Adjusted public benefits table; (4) Revised design board membership criteria; and (5) Additional regulations being considered.

Regarding recommendation no. 1 - Hotel Overly District & Development Standards. The hotel overlay zoning district goal is to create new Hotel Overlay zoning district (1) Limit the geographic extent of hotels to appropriate locations based on: Available infrastructure; Highway and transit access; Proximity to tourism destinations; Near existing hotel clusters; and Consideration of Living Asheville Future Land Use Map; (2) Protect neighborhoods vulnerable to displacement; (3) Preserve neighborhood livability and quality of life; (4) Encourage historic preservation and adaptive reuse; and (5) Protect viewshed corridors into the downtown area.

He showed the hotel overlay zoning district map explaining (1) Hotel Overlay district indicates where new hotels could be allowed; (2) The overlay district is mapped with two zones - "A" and "B"; (3) Zone "B" (orange) - only allows small hotels with 7-35 rooms; and (4) Zone "A" (blue) - also allows large hotels with more than 35 rooms.

Regarding the concept of the hotel overlay district, (1) Overlay applied in conjunction with underlying zoning - May modify or provide additional standards; and when there is a conflict, overlay will control; and (2) Exceptions: Central Business District and River Arts District Form Code Standards; and Biltmore Village Historic District.

Hotel development standards include (1) Building setbacks; (2) Location and design of parking; (3) Landscaping and buffering; (4) Minimum lot width; (5) Sidewalk requirements; (6) Guest drop-off areas and other operational standards; (7) Ground floor activation; (8) Building design (e.g. windows); (9) Signage; and (10) Lighting.

Regarding recommendation #2 - Public Benefits, we created an innovative points based system to incentivize public benefits (1) Improve transparency and predictability; (2) Address community needs and help implement Council goals (a) Affordable housing; (b) Living wages; (c) Displacement; (d) Sustainability, green buildings; and (e) Sidewalks, street trees; (3) Establish a straightforward, effective process; and (4) Create a framework that could be applied to other uses. This can lay the foundation for public benefits that could potentially be used for other types of projects in the future. We feel this will be a fair and enforceable process.

Regarding the public benefits table, (1) Tiered system based on size and location of hotels; (2) Points are weighted based on the level or amount of public benefit; and (3) Negative points for displacement. He then showed the public benefits table.

He then showed several public benefit examples and whether the project would have required Council review or not.

Mr. Okolichany and City Manager Campbell responded to various questions/comments from Council, some being, but are not limited to: what would be some criteria used if property requested to be included in the Hotel Overlay District; many people don't want any more hotels; did you use the urban renewal map when you did the overlay; is it possible to amend the overlay district; what is Council's role if they want to amend the overlay district; in the blue and orange areas, can we see if there is something on that property, how big are the lots and if the lots are developable; request that the Asheville Mall area not be in the overlay district; are there different options for the level of affordability; do we have access to how profitable is an average hotel room is in Asheville; can we incorporate into the public benefit table if you commit to contracting with minority women/small business enterprises; since most hotels built will be environmentally efficient buildings, so not sure how meaningful the points for LEED certification will be; can we establish a reparations fund and have it listed in the Equity section in the public benefits table; what is the transportation benefit definition in the public benefits table - bus passes for

employees; hotels outside of the Central Business District points totals are low; the entire point system should be reevaluated to make sure we get great projects truly committed to public benefit; and are there some items on the public benefits table that can just be required.

Mayor Manheimer felt that we will need to give clear direction to staff on whether we conceptually agree to the idea of this and want to move it forward for community input.

Councilwoman Mayfield said that if we can't get comfortable with this structure, are there other options. Mr. Okolichany felt there are opportunities in this framework to make improvements. The alternative would be to go back to the status quo on how Council used to review hotel projects.

Councilman Haynes felt we should make the public input points bar higher so projects do not get points for doing something minor.

Because of time restraints, at 4:25 p.m., it was the consensus of Council to continue this worksession to a date to be determined.

Tuesday – October 13, 2020 - 5:00 p.m.

Regular Meeting

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilwoman S. Antanette Mosley; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; email; and advanced live sign-ins.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 22, 2020

B. RESOLUTION NO. 20-176 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM URBAN SUSTAINABILITY DIRECTORS FOR THE CLIMATE JUSTICE INITIATIVE

ORDINANCE NO. 4830 - BUDGET AMENDMENT FOR THE CLIMATE JUSTICE INITIATIVE

Action Requested: Adoption of a resolution authorizing the City Manager to accept funding in the amount of $15,000 from Urban Sustainability Directors Network (USDN) for the Office of

Sustainability's Climate Justice Initiative, and a budget amendment in the amount of $15,000 to appropriate the funding in the City's Sustainability Fund.

Background:

- In January 2020 Asheville City Council declared a Climate Emergency by adopting Resolution 20-25.
- The adopted resolution acknowledges the urgent need to combat climate change, and the disproportionate impact of the climate crisis on low income communities and communities of color.
- Through this project, the City of Asheville's Office of Sustainability seeks to learn from the energy, cooperation, and proactivity of Asheville's Black, Indigenous, People of Color (BIPOC) to guide climate equity planning and to shape the direction of the City's emerging Climate Justice Initiative.
- Grant funds will be utilized for Sustainability's Climate Justice Initiative outreach efforts to engage the community through story circles and photo art.
- Outreach efforts will include:
    - Story circle compensation, interpretation and translation,
    - Photovoice compensation and supplies,
    - Graphic note taking for final report, and
    - Creation of a semi permanent kiosk fabrication and translation.
- USDN Grant recipients are not required to provide a cash match.

Council Goal(s):

- An Equitable and Diverse Community
- A Clean and Healthy Environment
- A Connected and Engaged Community

Committee(s):

- None

Pro(s):

- Helps support City's Climate Emergency Resolution while leveraging USDN funding

Con(s):

- None

Fiscal Impact:

- None; there is no required City match

Motion:

- Motion to approve a resolution authorizing the City Manager to accept funding from the Urban Sustainability Directors Network; and a budget amendment in the amount of $15,000 to appropriate the funding in the City's Sustainability Fund.

RESOLUTION BOOK NO. 41 -PAGE 451
ORDINANCE BOOK NO. 33 - PAGE 145

C. **RESOLUTION NO. 20-177 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AMENDMENT TO THE EXISTING LICENSE AGREEMENT WITH BELL ATLANTIC MOBILE SYSTEMS LLC, D/B/A VERIZON WIRELESS TO EXTEND THE TERM UNTIL SEPTEMBER 30, 2022**

Action Requested: Adoption of a resolution authorizing the City Manager to sign an amendment to the existing license agreement with Bell Atlantic Mobile Systems LLC, dba Verizon Wireless to extend the term until September 30, 2022.

Background:

- Verizon has been one of two tenants on the City-owned Royal Pines Cell Tower located at 57 Crestwood Drive.
- The City has its own public safety communications equipment on the tower.
- Verizon has been leasing a portion of the tower since 2009. The current license agreement expired at the end of September 2020.
- A recent Structural Analysis has shown that the tower is near maximum capacity and equipment upgrades recently requested by Verizon could not be installed.
- Verizon has decided to relocate to a tower owned by Duke Energy in the vicinity but the transition period could be as long as two years.
- Staff recommends allowing Verizon to stay on the tower during the transition period, with an extension of the existing agreement for 2 years..

Council Goal(s):

- A Thriving Local Economy

Committee(s):

- None

Pro(s):

- The presence of Verizon on this tower strengthens the signal for the many users of Verizon in the city.
- Allowing Verizon to remain on the tower during the transition will give the City time to plan for the tower usage after they relocate.

Con(s):

- None

Fiscal Impact:

- The City receives approximately $3,666.67 per month or $44,000 per year in revenue.

Motion:

- Motion to approve the resolution authorizing the City Manager to execute an amendment to the license agreement with Bell Atlantic Mobile Systems LLC, dba Verizon Wireless.

RESOLUTION BOOK NO. 41 - PAGE 452

D **RESOLUTION NO. 20-178 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BROWN & CALDWELL FOR CLEARWELL BAFFLES AT THE NORTH FORK WATER TREATMENT PLANT**

Action Requested: Adopt a resolution authorizing the City Manager to execute a change order to the contract with Brown and Caldwell for the emergency repairs to the North Fork WTP water storage tank baffle curtains for an amount of $346,500 bringing the total of the project to $819,500.

Background:

- The North Fork Clearwell (water storage tank) was constructed in 1976 and has a five (5) million gallons of water capacity.

- Inspection of baffle curtains confirmed significant deterioration. The baffle curtains are critical for attaining required disinfectant contact time within the clearwell to meet regulatory requirements.
- The baffle curtains are beyond repair and must be replaced.
- Inspection discovered minor needed repairs to the clearwell roof, vents, and other equipment.
- The requested change order includes both structural engineering and complete repair costs.

Vendor Outreach Efforts:
- N/A

Council Goal(s):
- A Financially Resilient City; A Clean and Healthy Environment

Committee(s):
- None

Pro(s):
- The North Fork Water Treatment Plant will more easily be able to meet the EPA and State requirements for Giardia & Cryptosporidium

Con(s):
- The North Fork Water Treatment Plant clearwell has a capacity of the five (5) million gallons. To meet EPA and State requirements for Giardia & Cryptosporidium the clearwell has had to be maintained at a higher capacity level and limits operational flexibility.

Fiscal Impact:
- Funding for this repair will come from Water Resources Capital Improvement Program (CIP) funding that is already budgeted.

Motion:
- Move to adopt a resolution authorizing the City Manager to execute a change order to the contract with Brown and Caldwell for the emergency repairs to the North Fork WTP water storage tank baffle curtains for an amount of $346,500 bringing the total of the project to $819,500.

RESOLUTION BOOK NO. 41 - PAGE 453

E. ORDINANCE NO. 4831- BUDGET AMENDMENT FROM THE FEDERAL TRANSIT ADMINISTRATION FOR SECTION 5339(b) FUNDS TO BE USED TO IMPROVE AND ENHANCE BUS STOPS IN THE SERVICE AREA

Action Requested: Adoption of a budget amendment in the amount of $1,250,000, which includes $1.0 million from the FTA Section 5339(b) Discretionary Grant Fund Program for bus stop improvements and a $250,000 local match.

Background:
- On March 24, 2020, the City Council adopted Resolution No. 20-137 authorizing the City Manager to apply for, and accept if awarded, grant funding from the FTA FY2020 Buses and Bus Facilities discretionary grant program.
- The City applied for, and was awarded $1 million, in grant funds for the purpose of improving bus stops in the service area.

- Improvements will be prioritized at high-ridership stops and stops serving vulnerable communities. Improvements might include bus shelters, benches, solar lighting, and ADA accessibility improvements.
- The local match for the grant award will come from multiple sources, including remaining City approved General Obligation (GO) Bond funds for bus stop improvements ($62,000), unspent funds provided via development project conditional approvals ($40,000), and previously budgeted funding in the Transit Capital Fund ($148,000).
- Staff is also expecting to receive donations from partner associations; these donations would be used to lower the required contribution from the Transit Capital Fund.

Council Goal(s):
- Transportation and Accessibility

Committee(s):
- None

Pro(s):
- Project funding is provided by the FTA and will help support improvements of transit amenities in the service area.

Con(s):
- The grant requires a 20% local match for the acquisition and installation of transit amenities, and a 10% match for ADA accessibility improvements.

Fiscal Impact:
- As noted above, there is a required local match of 20% and 10% depending on the specific types of improvements implemented. The maximum required local match is $250,000. The sources for the local match are discussed above.

Motion:
- Motion to adopt a budget amendment in the amount of $1,250,000 million, which includes $1.0 million from the FTA Section 5339(b) Discretionary Grant Fund Program for bus stop improvements and a $250,000 local match.

ORDINANCE BOOK NO. 33 - PAGE 146

F. RESOLUTION NO. 20-179 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A THREE YEAR SERVICE CONTRACT WITH 120WATER FOR THE LEAD EDUCATION & PREVENTION PROGRAM

Action Requested: Adopt a resolution authorizing the City Manager to execute a three year service contract with the option to renew for an additional two years with 120Water for the *Lead Education and Prevention Program* in the amount of $446,648 with a 10% contingency of $44,664.80 for a total of $491,312.80.

Background:
- The United States Environmental Protection Agency is scheduled to pass (fall of 2020) the new Lead & Copper Rule Revisions which will require a data management platform that has the ability to cohesively manage all required Lead and Copper Tap Monitoring, Primacy Agency & Customer Results Reporting, Service Line Inventory, and Lead Service Line Replacement in the Water System.
- 120Water is a digital water company that provides data management along with sample kits, analysis, and assistance with public education.

- 120Water has a data management platform that manages all areas of the new rule revisions.
- 120Water will provide the required sampling kits, laboratory analysis, and provide assistance with public educational outreach.
- The revisions require water purveyors to not only manage the water distribution system side of the water meter service line, but also requires research and monitoring of service line piping material to the home and provide customer education if a lead line is found to be on the customer or utility side of the water meter.
- Staff has taken a proactive approach in preparing for the Lead & Copper Rule Revisions.
- A Request for Proposals for required services was issued on June 15, 2020.
- Proposals were received on August 13, 2020.
- The Lead and Copper Coordination Team reviewed proposals on August 21, 2020.

Three firms responded:

- 120Water - Zionsville, IN
- Camanse - Arden, NC
- Miracle Software Systems - Novi, MI

120Water was selected as the most qualified firm to provide the required services.

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- No MWBE firms submitted bids with this prime contractor.

Council Goal(s):

- Clean & Healthy Environment

Committee(s):

- None

Pro(s):

- Ability to continue compliance with Federal and State regulations
- 120Water has ongoing experience with large water utilities throughout the United States.
- 120Water has proactively prepared these utilities for the new lead and copper provisions.
- Data platform will allow public access to easily consumable and transparent data.

Con(s):

- Failure to adopt resolution will result in difficulty complying with Federal and State regulations.

Fiscal Impact:

- Three year contract with the option to renew for an additional two years.
- The Water Resources Department currently has the funds to encumber the yearly contract amount of $163,770.94 in its operating funds.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute a three year service contract, with the option to renew for an additional two years, with 120Water for the *Lead Education and Prevention Program* in the amount of $446,648 with a 10% contingency of $44,664.80 for a total of $491,312.80.

RESOLUTION BOOK NO. 41 - PAGE 454

G. RESOLUTION NO. 20-180 - RESOLUTION AUTHORIZING THE CITY ATTORNEY'S OFFICE TO CONDEMN A STORMWATER EASEMENT OVER REAL PROPERTY LOCATED AT 2 SPRINGDALE ROAD

Action Requested: Adopt a resolution authorizing the City Attorney's Office to condemn a stormwater easement over real property located at 2 Springdale Road.

Background:

- The City's Stormwater Division has a capital improvement project planned for 2021 in the City's Kenilworth neighborhood.
- The City has obtained all required easements needed to complete its Kenilworth stormwater project except for one along the edge of real property located at 2 Springdale Road.
- This property is shown as lots 12 and 13 of Block K on a plat recorded at Plat Book 154, Page 109A in the Buncombe County Register of Deeds Office.
- Regina Tate owns the property at 2 Springdale Road. She has not responded to any of the City's attempts to contact her regarding the easement needed to facilitate the stormwater project.
- To date, three separate City departments have attempted to make contact with Ms. Tate.
- In order to maintain the project schedule, obtaining the easement via eminent domain is the only option available to the City.
- The City will deposit with the Clerk of Court the value of the easement which will be available to the property owner at any time.
- The easement needed at 2 Springdale Road is immediately adjacent to the City's right-of way and is entirely within an unbuildable setback. As such, the City's condemnation of the needed easement will only minimally disturb Ms. Tate's use of the property.

Council Goal(s):

- Clean & Healthy Environment

Committee(s):

- None

Pro(s):

- Will facilitate the completion of a needed stormwater improvement project.

Con(s):

- Will result in the commencement of an eminent domain action against a citizen.

Fiscal Impact:

- The expected value of the needed easement is less than $5,000 which is included in the project budget for the subject stormwater improvement project.

Motion:

- Motion to adopt a resolution authorizing the City Attorney's Office to condemn a stormwater easement over real property located at 2 Springdale Road.

RESOLUTION BOOK NO. 41 - PAGE 455

H. RESOLUTION NO. 20-181 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW AN EXISTING CONTRACT WITH SMARKING, INC. TO PROVIDE REAL TIME AND PREDICTIVE PARKING DATA

Action Requested: Adoption of a resolution authorizing the City Manager to renew contract with Smarking, Inc. at a contract value of $35,260 which increases the total value of the contract to $97,935, for real-time data aggregation and predictive data analytics service for Parking Services.

Background:

- The City of Asheville entered into a contract with Smarking, Inc. during November 2018 at a contract value of $29,500 for real-time data aggregation and predictive data analytics services.
- The original contract included two, one-year renewal terms.
- The first renewal term was executed with an effective date during November 2019 at a contract value of $33,175 which increased the total contract value to $62,675.
- The annual cost has increased from the initial contract due to the addition of several parking facilities since the contract was first executed.
- Smarking provides Parking Services with real-time monitoring of all of our parking facilities, and tracks metrics including usage, revenue, and future demand.
- The analytical capabilities of the Smarking system are critical in Parking Services operational response.

Vendor Outreach Efforts:

- N/A - This is a current contract.

Council Goal(s):

- Transportation and Accessibility
- A Financially Resilient City

Committee(s):

- None.

Pro(s):

- Enables the City to continue to use data to inform procedures and decision-making.
- Enables Parking Services to maintain a healthy operating status in spite of financial challenges presented by COVID-19.

Con(s):

- None

Fiscal Impact:

- The required funds are included in the current Parking Services Fund operating budget.

Motion:

- Motion to adopt a resolution authorizing the City Manager to renew contract # 91900266 with Smarking, Inc. at a contract value of $35,260 which increases the total value of the contract to $97,935.

RESOLUTION BOOK NO. 41 - PAGE 456

Mayor Manheimer announced that there were no advanced live call-ins for items on the Consent Agenda.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

III. PRESENTATIONS & REPORTS:

A. MANAGER'S REPORT - 30/60/90 DAY WORK PLAN

City Manager Campbell said that provided City Council with her presentation overview: (1) On June 9, staff presented a 30/60/90 Day Work Plan and over the past several meetings have updated Council and the community on our work; (2) The 30/60/90 Day Work Plan was developed in response to numerous requests from the Black Asheville Demands coalition to address specific racial justice and economic inclusion issues; (3) The Work Plan reflects when we would start working on these requests; and (4) This evenings presentation will focus on all the initiatives but more detailed information will be provided on: (a) The multiple choice data from the Re-imagining Public Safety Questionnaire; (b) The new project page being established for this effort; and (c) Partnership with Asheville City Schools and Learning PODS.

Within the 30 days; (1) Resolution to remove monuments and creation of task force (a) Vance Monument Task Force is still meeting every Thursday at 4:30 pm.; (b) On October 22 and 29, there will be the opportunity for live comment; and (c) The task force aims to have a recommendation on whether to remove or repurpose by November 19, 2020; and (2) Work with the community on the renaming of streets - Continuing to develop next steps in terms of community engagement;

Within the 60 days, (1) Continue partnering with Asheville City Schools (ACS) and Buncombe County Schools to address Opportunity Gaps - Update from Parks and Recreation and Asheville City Schools provided later; (2) Initiate conversations to Defund the Police budget by 50% Defund/Divest/Invest Strategy (a) Initial reallocation and policy reforms to pursue made with recent budget decision; and (b) Resuming Reimagining Public Safety discussions early November; and (3) Initiate conversations with the district attorney's office regarding the probation decision for Mr. Hickman (a) City Attorney's office working with DA's office and Restorative Justice process related to probation process; and (b) Meeting is scheduled later this week to follow-up with community members (JustUs) in terms of next steps.

Work underway for 90 days include (1) Provide protocol, practices and resource allocation data from the Equity and Inclusion Department on our City Website (a) Equity Dashboard available, https://www.ashevillenc.gov/equity-dashboard/; and (b) Resolution regarding the sale of city owned property received as part of Urban Renewal approved by PED Committee to move to full Council in November; and (2) Better understand and work through solutions for remaining demands: o Creation of "Harm Free Zones" o All Civilian Oversight Committee (a) Legal Department working on legislative proposal for civilian oversight committee and exploring options for improving the Civil Service Board Process; and (b) Legal Department has researched Harm Free Zones in order to understand the concept. These are generally implemented at a neighborhood level without local government involvement.; (3) Utilize best practices to recruit people of color - Human Resources and individual departments working on recruitment and retention strategies ; and (4) Develop Race and Gender Conscious Policy in response to the disparity study as part of City contracting and procurement - Policy approved by Planning and Economic Development Committee (PED) on October 12 and will be considered by full Council on October 27.

Regarding the survey (multiple choice questions), (1) Responses to the multiple-choice questions are available on this Google Data Studio Dashboard; and (2) The multiple choice questions were intended to: (a) gain an understanding of how respondents feel about safety in our community; (b) get an idea of where to start with exploring new partnerships in the delivery of

public safety services; and (c) through the demographic questions, get an understanding of who is missing from the conversation.

The responses to the multiple choice questions support some major themes reported from the virtual meetings. (1) Violent Crime - APD has an important role in public safety, especially in addressing violent crime; (2) Nuisance Calls for Service - should be in partnership with other city departments and/or community partners; and (3) Public Health Calls for Service - APD participate as a partner in coordination with other public health and social service providers.

Regarding the 30/60/90 Plan Project Page, it is now available now with updates on all initiatives. The 30/60/90 Day work plan will be rebranded and transition into longer term initiatives.

Ms. Shaunda Sandford, Housing Authority of the City of Asheville Director of Resident Services explained that PODS is Positive Opportunities Development Success.

Ms. Kidada Wynn, Asheville City Schools Executive Director of Student Support Services explained their guiding principles - equity in with positive impact, student-centered, revolutionary love, and changing the narrative. The Asheville Housing Authority, Asheville City Schools, Asheville Parks & Recreation, MDTMT, YTL, CHOSEN, WCRM, Delta House and numerous other community organizations, have partnered to support students in their communities with learning pods at several locations within the Asheville community.

Ms. Sandford said that there are 11 sites, 23 PODS (10 students in each POD) with 200 students. In this unique opportunity, Asheville City Schools staff and community members are pushing into communities of color to work with students in a pod setting. Individuals are pushing into these pods to support and facilitate student engagement and enrichment. We also recognize that some of our students have barriers that may hinder their academic growth; therefore, ACS staff acts as a liaison between the pods and the students' teachers to maximize student success.

Ms. Sandford said the locations are the Arthur R. Edington Education & Career Center, Burton Street Recreation Center, Delta House, Grant Center, Hillcrest Community Center, Hillcrest Head Start Building, Montford Center, My Daddy Taught Me That; Stephens-Lee Recreation Center, Western Carolina rescue Mission and the YTL. Future sites include Pisgah View Apartments and Deaverview Apartments.

Mr. Gene Bell, Housing Authority of the City of Asheville Board Member, spoke about the internet access for Housing Authority residents. Vice-Mayor Wisler asked if we can see what we can do to help the community participate in making a donation to this project. Ms. Wynn noted that she will contact the Asheville City Schools Foundation to set up an internet access fund, and thanked the City of Asheville for their $50,000 donation.

In response to Councilwoman Mosley, Ms. Wynn said that the overall quality is better for our children and they are excited about coming to our PODS everyday.

Ms. Wynn responded to Councilwoman Smith when she asked if there is a long-term vision.

In response to Mayor Manheimer, Ms. Wynn said there are at least 200 students waiting for the PODS.

Mayor Manheimer said that there is a regional effort to bring free wifi access throughout the county, but complemented the Housing Authority team on moving forward.

Vice-Mayor Wisler, along with Ms. Sandford and Ms. Wynn, thanked City Manager Campbell for her assistance with this initiative and for being able to offer the facilities.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO AMEND THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT 5-YEAR CONSOLIDATED ACTION PLAN

Councilwoman Smith moved to continue this public hearing to amend the U.S. Dept. of Housing & Urban Development 5-Year Consolidated Action Plan until November 10, 2020. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING APPROVAL (ORDINANCE NO. 4570) FOR PROPERTY LOCATED AT 236 CHARLOTTE STREET AND 336 HILLIARD STREET TO MODIFY THE SITE PLAN TO REFLECT THE RIGHT-OF-WAY CLOSURE OF LENNOX COURT AND TO MAKE CHANGES TO THE SITE AND BUILDING FOOTPRINT AT THE HE HILDE'S HOUSE INFANT CARE CENTER

Principal Planner Shannon Tuch said that this is the consideration of an amendment to a previously approved conditional zoning approval (Ordinance No. 4570) for property located at 236 Charlotte Street and 336 Hilliard Street to modify the site plan to reflect the right-of-way closure of Lennox Court and to make changes to the site and building footprint at the Hilde's House infant care facility. This public hearing was advertised on October 2 and 9, 2020.

Project Location and Contacts:

- The project site consists of two parcels located at 236 Charlotte Street and 336 Hillside Street (PINs 9649-54-9873 and 9649-54-7812).
- Owner / Petitioner: Jewish Community Center Foundation of Asheville; Contact: Michael Mitchell

Summary of Petition:

- The applicant is requesting to expand an existing day care building (called "Hilde's House" and located at 336 Hillside Street) at the Jewish Community Center (JCC) main campus.
- The expansion includes a new ramp for accessibility, enlarged side porch and a small increase to heated area.
- The proposal includes a new accessible parking space behind the building and a new driveway cut onto Murdock Avenue to allow for egress only.
- The subject parcels were conditionally-zoned by City Council on March 28, 2017, under ordinance number 4570, for the expansion of the JCC main campus building (located at 236 Charlotte Street), the use of the property at 336 Hillside Street for the infant day care (Hilde's House), and minor site improvements. Most of the work included in the approval has been completed.
- An amendment to the previously approved conditional zoning and related site conditions is required due to the requested site plan changes.
- This amendment also includes the closure of a driveway through the JCC main campus building site (located at 236 Charlotte Street) from Lennox Court to Hillside Street, thereby ceasing its use by the general public through this private property.
- The action by City Council to formally close a portion of the Lennox Court right-of-way was granted by Council in 2019 under resolution 19-266 but the site plan approved in the ordinance did not show closing off vehicular access.

- This amendment formalizes the site plan which was not part of the previous conditional zoning approval.
- The project maintains all of the conditions that were approved in the previous ordinance and includes the following **new** conditions:
    - The separation of the driveway from the property lines on Murdock and Hillside will be as shown on plans (less than the standard 10 foot spacing required). This design would be similar to the residential development pattern in the neighborhood.
    - The width of the driveway will be approximately 12 feet on Murdock and maintain approximately nine feet on Hillside as shown on plan (less than the width standard of 24 feet for a non-residential use). This change also mirrors the residential development pattern in the neighborhood.
    - Condition number three is amended to indicate that access to the JCC main campus site will no longer be from Lennox Court.
    - Condition number four is amended to note that parking spaces at Hilde's House will be available for both staff and visitors.

Committee Review:

- The Planning & Zoning Commission considered this request at their meetings on September 2 and September 23, 2020, and discussed concerns regarding the new egress connection onto Murdock and the turning radius having possible conflicts with on-street parallel parking spaces.
- The Commission voted 6-1 at the second meeting to support the amendment but with a recommended condition that the driveway onto Murdock would be right-turn out only. The applicant was agreeable to this condition and it has been reflected in the B.1 Conditions.

Comprehensive Plan Consistency:

- This proposal is consistent with the Living Asheville Comprehensive Plan in that the project site is within the areas designated as Neighborhood Center and Traditional Neighborhood in the Future Land Use map, which anticipates non-residential community-focused activity.
- This section of the Plan specifically mentions community centers and other small-scale uses with an emphasis on pedestrian scale and walkability.

Compatibility Analysis:

- The community center and child care uses are currently in place and have been operating on this site for many years, providing services to the neighborhood and larger community.
- The buildings and uses are considered to be compatible with the development along the corridor and scaled down, transitioning into the neighborhood.
- The physical changes included in this amendment address accessibility and access concerns and are designed to keep with the character of the residential area.

Council Goal(s):

- A Well-Planned and Livable Community

Committee(s):

- Technical Review Committee (TRC) - April 6, 2020 - approved with conditions
- Planning & Zoning Commission - September 2 and 23, 2020 - recommended approval 6-1

Staff Recommendation:

- Staff recommends approval of this amendment and finds that the proposal allows for upgrade and expansion of the child care center and better management of vehicular access on both sites.

In summary, (1) Master plan for the JCC campus approved by Council in 2017 (ordinance 4570); (2) Council approved a right-of-way closure for Lennox Court in 2019 that modified access to the Charlotte Street parcel; (3) Specific conditions in the 2017 approval limit ability for expansion or improvement of Hilde's House infant day care site; and (4) This amendment allows for changes to the building, parking and site access for Hilde's House and formalizes the current, changed parking lot access configuration for the main campus site.

Ms. Ashley Lasher, representing the applicant, gave a brief history of the facility, the quality of the program; and the reputation of the Shalom Children's Center. They want to renovate Hilde's House in order to (1) maintain home/neighborhood environment; (2) facilitate implementation of licensing requirements; (3) create uninterrupted sight-lines for supervision; (4) improve ADA accessibility; (5) improve security; and (6) reduce impact of pick-up/drop-off traffic on the community, increasing safety of participants.

Ms. Suzanne Godsey, representing the applicant's design team, showed the site plan of the existing Hilde's House, along with the proposed site plan.

Ms. Wendy Legerton, representing the applicant's design team, showed the proposed floor plan and the proposed overall 3D view. They asked for Council's support in the amendment to the conditional zoning.

Mayor Manheimer opened the public hearing at 6:10 p.m.

Mayor Manheimer announced that there were no advanced live call-ins for this public hearing item.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Vice-Mayor Wisler moved to recess this item until October 27, 2020, at which time this public hearing will be voted. This motion was seconded by Councilwoman Mosley and carried unanimously by roll call vote.

C. AMENDMENTS TO THE UNIFIED DEVELOPMENT ORDINANCE IN ORDER TO BRING THE CITY'S DEVELOPMENT CODE INTO ALIGNMENT WITH RECENT STATE LEGISLATION

PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE ARTICLES II, III, V, VIII AND VIX RELATED TO HISTORIC PRESERVATION, IN ORDER TO BRING THE CITY'S DEVELOPMENT CODE INTO ALIGNMENT WITH RECENT STATE LEGISLATION

PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE ARTICLES II, XII AND XVIII IN ORDER TO BRING THE CITY'S DEVELOPMENT CODE INTO ALIGNMENT WITH RECENT STATE LEGISLATION

Mayor Manheimer said that these two amendments both relate to bringing the City's development code into alignment with recent state legislation; therefore, there will be one presentation and combined public hearings; but ultimately two votes. The two individual public hearings were advertised on October 2 and 9, 2020.

Principal Planner Shannon Tuch said that 160D is (1) a chapter in the NC General Statutes adopted as part of Session Law 2019-111 and which became effective June 20, 2020; (2) Replaces existing 160A (municipal) and 153A (county) chapters; (3) Purpose is to *Clarify*, *Consolidate*, and *Reorganize* the land use laws of the state; and (4) A collaboration between NC land use attorneys, the UNC-SOG & NC legislators.

The timing of 160D is (1) Currently effective but local governments have until July 1, 2021 to make any necessary amendments to be in alignment with 160D; (2) Staff will bring forward a series of amendments to modify the City of Asheville's UDO to be consistent with 160D; and (3) The first two amendments are on this evening's agenda: (a) Updates to standards related to Historic Preservation; and (b) Changes to Enforcement and Definitions.

Both amendments have been reviewed by the Historic Resources Commission (on 8-12-20) and the Board of Adjustment (8-24-20) with unanimous support by both bodies.

Regarding Amendment #1 (Historic Preservation), there are two "musts" and a "may" - *Must* follow quasi-judicial proceedings; *Must* describe preservation requirements as "standards" and not "guidelines"; and *May* choose to have appeals from an HRC decision move directly to Superior Court, rather than the city's Board of Adjustment.

Regarding Amendment #2 (Enforcement & Definitions), (1) Enforcement - A Series of "musts" and a "mays" - Clarifies enforcement practices protecting property owners - "musts;" and Clarifies enforcement practices providing officers flexibility - "mays"; and (2) Definitions - changes to existing, adding new, replacing old - Update existing terms - clarifying the types of decisions; Add some new terms; and Replaced Conditional Use Permit w/ Special Use Permit.

From Staff Report on Historic Preservation:
"Background:

- A collaborative effort between North Carolina land use attorneys, the University of North Carolina - School of Government and North Carolina legislators resulted in Session Law 2019-111 "AN ACT TO CLARIFY, CONSOLIDATE, AND REORGANIZE THE LAND-USE REGULATORY LAWS OF THE STATE." adopted July 11, 2019.
- Chapter 160D of the North Carolina General Statutes is the first major recodification and modernization of city and county development regulations since 1905.
- As the law's title states, the purpose of 160D is to clarify and reorganize the land use regulatory laws of the State and to consolidate these laws into one chapter in order to provide a uniform set of statutes applicable to both cities and counties (previously land use/development regulation related laws for cities were found in Article 19 of NCGS Chapter 160A and for counties were found in Article 18 of N.C.G.S. Chapter 153).
- 160D contains a number of legislative changes which a local government ***must*** take action to adopt, but it also contains permissive legislative changes which a local government ***may*** choose to adopt or not.
- Originally, parts of the 160D became effective immediately while most of it was not to become effective until January 1, 2021, however, **on June 19, 2020, the General Assembly enacted legislation-S.L. 2020-25- making Chapter 160D effective immediately.**
- This law provided flexibility to local governments in the timing for adoption of amendments to conform local development regulations to the new statutes.
- **Local governments may enact their amendments now, but they are not required to do so until July 1, 2021.** .
- This zoning text amendment seeks to align the City of Asheville Unified Development Ordinance (Chapter 7) provisions related to Historic Preservation with the new Chapter 160D.

- Chapter 160D provisions related to Historic Preservation can be found in sections 940-951 of the statute (such provisions for cities were formerly found in Chapter 160A-400.1 thru 400.15).
- The 160D changes are fairly minor:
    - 1) ***Must*** follow standard quasi-judicial procedures for preservation certificates of appropriateness. (G.S. 160D-947(c).)-the City has long followed ;
    - **2) *Must*** frame preservation district provisions as "standards" rather than "guidelines" (G.S. 160D-947(c).); and
    - **3) *May*** choose for appeals of preservation commission decisions to go directly to superior court rather than to the board of adjustment. (G.S. 160D-947(e).).
- **Summary of changes:**
    - In regard to the first requirement, the City/County Historic Resources Commission (herein "HRC") has long followed quasi-judicial procedure for the issuance or denial of certificates of appropriateness, so no real significant amendments were required in this regard.
    - Text has been added in UDO Article II Definitions, "administrative decision", "quasi-judicial decision", "quasi-judicial hearing" and Article V sec. 7-5-11 Certificates of Appropriateness, in order to clarify specific quasi-judicial procedures or to clarify which decisions are considered "administrative" or "quasi-judicial" and how those are defined.
    - In regard to the second requirement,the term "guidelines" has been replaced with the term "standards" throughout the historic preservation related sections of the UDO (Chapter 7- Development- of the City Code), Article III, Section 7-3-4 Historic Resources Commission, Article V, Sections 7-5-8(a)(3)(e) and 7-5-8(b)(5) related to Subdivision Plats in Historic Districts and Section 7-5-11 Certificates of Appropriateness, Article VIII, Section 7-8-1(b)(2)b. Historic Preservation Overlay District; and Article VIX, Section 7-9-2 Historic Preservation Overlay District).
    - Finally, in regard to the third 160D provision which is permissive, rather than required.
    - Staff strongly recommends adoption of this provision [see Sec. 7-5-11(b)(8)] which would require appeals of decisions by the HRC to go directly to superior court rather than to the City's Board of Adjustment (herein "BOA") because it would allow for :
        - a more streamlined review process for applicants; would act to discourage frivolous appeals, thereby improving the City's ability to enforce; and
        - it would not place one city quasi-judicial decision-making board, BOA, with its own statutorily required standards of review (i.e. *unnecessary hardship, consistency with spirit of the ordinance*), in the difficult position of reviewing the decision of another city/county quasi-judicial decision-making board, the HRC, that has its own, different statutorily required and adopted standards of review (i.e.*congruity with the special character of the historic district*).
        - *Note:* The BOA would still be responsible for hearing requests for variances from property owners within an historic district.
    - Lastly, there are text amendments throughout that update any references to provisions in G.S. 160A to indicate relevant provisions in Chapter 160D (as required by the statute) as well as revisions made to more clearly mirror the languages of the statute or that simply reflect editing "clean ups" (i.e. mis-spellings, missing words, poor sentence structure).

Comprehensive Plan Consistency:

- This proposal best aligns with the *Living Asheville.Comprehensive Plan* theme of **Responsible Regionalism** that seeks to "improve Regional Collaboration, Coordination and Communication" by aligning the city's development code with state statutes. (p. 288)

Council Goal(s):
- A Well-Planned & Livable Community

Committee(s):
- On August 12, 2020, the Historic Resources Commission was updated on these proposed amendments related to historic preservation and voted unanimously to recommend support of these amendments.
- On August 24, 2020, the Asheville Board of Adjustment ("BOA") was updated on the proposed amendment regarding appeals of HRC decisions regarding certificates of appropriateness going directly to superior court rather than to the BOA (UDO Section 7-5-11(b)(8) and voted unanimously to recommend support of this amendment.
- This request was reviewed by the Planning & Zoning Commission at their meetings on September 2, 2020 (public hearing) and September 23, 2020 (vote), where it was recommended for approval, 7:0.

Pro(s):
- Proposed changes will align the city's development standards, practices and procedures with newly enacted North Carolina state law Chapter 160D.
- Clarifies the process for Historic Preservation related quasi-judicial and administrative decisions.
- Streamlines the appeals process for applicants and improves the decision-making and enforcement process for the City.
- Clarifies practices and procedures for the development community.

Con(s):
- None identified.

Fiscal Impact:
- None

Staff Recommendation:
- Staff recommends approval of the proposed zoning text amendment to update Chapter 7 because this is felt to be consistent with the *Living Asheville* comprehensive plan in that it seeks to align the city's development code with North Carolina General Statute Chapter 160D."

From Staff Report on Enforcement & Definitions:
"Background:
- A collaborative effort between North Carolina land use attorneys, the University of North Carolina - School of Government and North Carolina legislators resulted in Session Law 2019-111 "AN ACT TO CLARIFY, CONSOLIDATE, AND REORGANIZE THE LAND-USE REGULATORY LAWS OF THE STATE." adopted July 11, 2019. Chapter 160D of the North Carolina General Statutes is the first major recodification and modernization of city and county development regulations since 1905.
- As the law's title states, the purpose of 160D is to clarify and reorganize the land use regulatory laws of the State and to consolidate these laws into one chapter in order to provide a uniform set of statutes applicable to both cities and counties (previously land use/development regulation related laws for cities were found in Article 19 of NCGS Chapter 160A and for counties were found in Article 18 of N.C.G.S. Chapter 153).

- 160D contains a number of legislative changes which a local government ***must*** take action to adopt, but it also contains permissive legislative changes which a local government ***may*** choose to adopt or not.
- Originally, parts of the 160D became effective immediately while most of it becoming effective January 1, 2021, however, on **June 19, 2020, the General Assembly enacted legislation, S.L. 2020-25, allowing for Chapter 160D to be implemented immediately by local government if they so choose, with a required implementation date of July 1, 2021.**
- This zoning text amendment seeks to align the City of Asheville Unified Development Ordinance (Chapter 7) provisions related definitions and enforcement with the new Chapter 160D.
- Chapter 160D provisions related to enforcement can be found in Article 4 of the statute (such provisions for cities were formerly found in 160A-432).
- **The 160D changes to enforcement include:**
    - **Must** issue notice of violations (NOVs) in conformance with statutory procedures (must deliver to permittee and landowner if different;
        - **May** deliver NOV to occupant or person undertaking the activity; delivery by hand, electronic delivery, or first class-mail;
        - **May** be posted onsite; administrator to certify NOV for the file)(G.S. 160D-404(a));
    - If inspecting, **must** enter the premises during reasonable hours and upon presenting credentials;
    - **Must** have consent of the premises owner or an administrative search warrant to inspect areas not open to the public (G.S. 160D-403(e))-The City has long followed this practice;
    - For revocation of development approval, **must** follow the same process as was used for the approval (G.S. 160D-403(f));
    - **May** issue stop-work orders for illegal or dangerous work or activity, whether related to a permit or not (G.S. 160D-404(b).
- **Chapter 160D provisions related to definitions can be found in 160D-102 and S.L. 2019-111 § 1.17. The 160D provision changes are fairly minor:**
    - **Must** align ordinance terminology with 160D terminology for conditional zoning and special use permits;
    - **Must** delete use of the terms conditional use permit, special exception, conditional use district zoning, and special use district zoning (G.S. 160D-102);
    - **Must** ensure that that ordinance definitions for building, dwelling, dwelling unit, bedroom, and sleeping unit are not inconsistent with definitions provided in state law and regulation (S.L. 2019-111§ 1.17); and
    - **May** align ordinance terminology with Chapter 160D terminology in 160D-102 to include administrative decisions, development approval, development, and developer.

- **Summary of changes to enforcement are as follows:**
    - Updated language of sec. 7-18-3(b)(1)-(2) to include the holder of the development approval and landowner of property involved in order to conform with 160D-404(a).
    - Updated sec. 7-18-3(b)(2) to include electronic delivery as a method of service for notice of violations as provided in 160D-404(a);
    - The City has long followed the rules of 160D-403(e) in practice prior to the implementation of 160D, no real changes needed;
    - Updated language to revocation of permits, new sec. 7-18-6(c) to include that the local government must notify the development approval holder, in writing, prior to the revocation of permits and the revocation shall follow the same

development approval and review process as required for issuance of the development approval , to conform with the 160D-403(f);
    - Staff strongly recommends adoption the permission 160D addition of stop work orders provision, new sec. 7-18-6(b):
        - This provision would allow staff to issue stop work orders on local development that is in substantial violation of State or local law or in a manner that endangers life or property, where it was not previously provided for outside of Article XII of the UDO.
- **Summary of Changes to Definitions are as follows:**
    - Terminology has been updated in Article II of the UDO for 160D conformance: *'bedroom', 'dwelling', 'sleeping unit', 'special use permit.'*
    - The Deleted term being *'conditional use permit,' which was replaced by 'special use permit';*
    - Terminology for items that are permissive, rather than required, were updated to conform to 160D-102: *'administrative decision', 'administrative hearing', 'developer', 'development', 'development approval', 'development regulation', 'legislative decision', 'legislative hearing', 'quasi-judicial decision,'* and *'quasi-judicial hearing.'*
    - Staff strongly recommends the adoption of the permissive terminology update to Article II of the UDO:
        - To provide continuity with Chapter 160D; and
        - To provide clarity on the various development approval processes and types of approvals available.

Comprehensive Plan Consistency: This proposal best aligns with the *Living Asheville Comprehensive Plan* theme of a **Responsible Regionalism** that seeks to "Improve Regional Collaboration, Coordination and Communication" by aligning the city's development code with state statutes (p. 288).

Council Goal(s):
- A Well-Planned & Livable Community

Committee(s):
- This request was reviewed by the Planning & Zoning Commission at their meetings on September 2, 2020 (public hearing) and September 23, 2020 (vote), where it was recommended for approval, 7:0.

Pro(s):
- Proposed changes will align the city's development standards, practices and procedures with newly enacted North Carolina state law Chapter 160D.
- Modernizes outdated language.
- Creates objective standards for ministerial decisions.
- Clarifies practices and procedures for the development community.

Con(s):
- None Identified.

Fiscal Impact:
- None

Staff Recommendation:
- Staff recommends approval of the proposed zoning text amendment to update Chapter 7 because this is felt to be consistent with the *Living Asheville* comprehensive plan in that it

seeks to align the city's development code with North Carolina General Statute Chapter 160D."

Mayor Manheimer opened the public hearings at 6:18 p.m.

Mayor Manheimer announced that there were no advanced live call-ins for either one of these public hearings.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for the public hearing to amend the Unified Development Ordinance Articles II, III, V, VIII and VIX related to Historic Preservation, will be accepted for an additional 24 hours. Therefore, Vice-Mayor Wisler moved to recess this item until October 27, 2020, at which time this public hearing will be voted. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for the public hearing to amend the Unified Development Ordinance Articles II, XII and XVII related to enforcement and definitions, will be accepted for an additional 24 hours. Therefore, Vice-Mayor Wisler moved to recess this item until October 27, 2020, at which time this public hearing will be voted. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

E. PUBLIC HEARING TO CONSIDER UPDATES TO THE 2020-21 ACTION PLAN (1) TO INCLUDE THE ALLOCATION OF $154,711 IN COMMUNITY DEVELOPMENT BLOCK GRANT CONTINGENCY FUNDS AND THE REALLOCATION OF AN ESTIMATED $1.1 MILLION IN HOME INVESTMENT PARTNERSHIPS PROGRAM FUNDS; AND (2) $889,456 IN CDBG-CV FUNDS, WHICH MUST BE USED TO PREVENT, PREPARE FOR, OR RESPOND TO CORONAVIRUS

Councilwoman Smith moved to continue this public hearing to update the 2020-21 Action Plan until October 27, 2020. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 20-182 - RESOLUTION TO PERMANENTLY CLOSE A PORTION OF AN UNOPENED RIGHT-OF-WAY KNOWN AS GAYLE STREET

Mayor Manheimer said that this public hearing was held on September 22, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Haynes moved to permanently close a portion of an unopened right-o-fway known as Gayle Street. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 457

B. ORDINANCE NO. 4832 - ORDINANCE TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING FOR PROPERTY LOCATED AT COXE/ASHELAND/FEDERAL ALLEY FOR CHANGES TO A MIXED USE DEVELOPMENT ZONED CENTRAL BUSINESS DISTRICT-EXPANSION/CONDITIONAL ZONE

At the request of Mayor Manheimer, Vice-Mayor Wisler moved to recuse Mayor Manheimer from participating in this matter during a conflict of interest. This motion was seconded by Councilwoman Mayfield and carried unanimously on a roll call vote (Mayor Manheimer did not vote). At this time, Mayor Manheimer turned over the gavel to Vice-Mayor Wisler.

Vice-Mayor Wisler said that this public hearing was held on September 22, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Vice-Mayor Wisler closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mosley moved to approve the amendment to the previously approved conditional zoning for the Coxe/Asheland Mixed-Use Development from Central Business District Expansion Conditional Zone (CBD EXP CZ) to Central Business Expansion District (CBD EXP CZ) for the design changes to the new mixed-use development and find that the request is reasonable, is in the public interest, is consistent with the city's comprehensive plan, and meets the development needs of the community in that: (1) the Downtown Future Land Use category of the Living Asheville Comprehensive Plan anticipates a mix of uses as included in this development; (2) the project enhances the pedestrian experience with widened sidewalks, active ground floor uses and intentional urban open space with portions that are accessible to the public; and (3) the proposal maintains the original amount of affordable residential units in a location that is close to downtown and transit availability. This motion was seconded by Councilwoman Mayfield and carried unanimously, with Mayor Manheimer being recused.

At this time, Vice-Mayor Wisler handed the gavel over to Mayor Manheimer to continue presiding over the meeting.

ORDINANCE BOOK NO. 33 - PAGE 147

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

From advanced live call-ins, three individuals spoke to Council, including, but not limited to the following comments: data from Re-imagining Public Safety Survey; need to fully support the Equity & Inclusion Department and begin advertising for Director of that Department; request to change the public comment segments of the agenda for people to call in live and not sign up in advance; and not selling any City property that was urban renewal land.

Mayor Manheimer announced that the continuation of the worksession held earlier today regarding the proposed hotel development regulations will be on October 27, 2020, at 2:30 p.m.

That worksession will be remote and public comment will not be accepted.

In response to Councilwoman Mayfield, City Manager Campbell said that regarding the Re-imagining Public Safety Survey, many people did not fill out the demographic part of the survey but we did have a significant number of African Americans participate in the virtual conversations.

In response to Mayor Manheimer, City Attorney Branham said that regarding the Crossroads Development, the City is an adjoining property owner in that the City owns the existing Hominy Creek Greenway. The City has been following this development and has talked with the attorneys involved and the Friends of Hominy Creek Greenway in order to determine if any impacts of the development will result in significant damage to City property. Those conversations are on-going. The City is currently, at the staff level, reviewing engineering models. We should have some final decisions about the City's position soon.

In response to Mayor Manheimer, City Manager Campbell explained the process for hiring a new Equity & Inclusion Director, which recruitment process will start in the next 2-3 week. She said that when the information about the accomplishments and challenges of the Equity & Inclusion Department is completed, which should be in early November, she would be happy to bring that information forward to the City Council.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:42 p.m.

Magdalen Bowlesson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – October 27, 2020 - 2:30 p.m.

Worksession on Proposed Hotel Development Regulations - Continued from 10-13-20

This worksession was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilwoman S. Antanette Mosley; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Debra Campbell; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that even though no public comment will be accepted at this worksession, the public can still access the remote meeting by listening live and watching online.

Director of Planning & Urban Design Todd Okolichany said this is the continuation of the October 13, 2020, worksession on proposed hotel development regulations.

He outlined the key takeaways (1) Hotels can't be "banned" out right; (2) Development impacts can be managed; and (3) New innovative tools to regulate hotel development approvals: (a) Hotel Overlay District with development and operational standards; (b) Public benefits; and (c) Revised design review process.

The key elements of the proposed regulations include: (1) establishes a straightforward, transparent process - administrative vs. City Council review as an incentive; (2) leverages development to meet community needs; (3) creates a framework that is a precedent for other types of development; (4) manages development impacts; and (5) enhances design.

Regarding recommendation #3 - Design Review & Guidelines, the revised design goals are (1) ULI recommendation and Living Asheville strategy; and (2) Combine existing design review under a single design review board (a) strengthens and streamlines the design review process; (b) allows existing commissions to focus on other priorities; (c) incentive to prioritize updates to current design guidelines; (d) provides a resource to the city and the development community; and (e) process applies to both administrative and Council review.

He then reviewed the development standards vs. design guidelines.

Regarding the design review board membership, (1) 9 members who are residents of the City; (2) A majority of the members shall have a special interest, experience or training in architecture, historic preservation, building construction, landscape architecture, urban planning or related fields; (3) The Downtown Commission and Asheville Area Riverfront Redevelopment Commission will each designate one qualified member to serve on the board, if possible; and (4) Preference will be given to: (a) Persons with disabilities; (b) Transit users; and (c) Seniors. He then reviewed the proposed design review board and process.

He then reviewed some of the development review process concerns expressed at the October 13 worksession: (1) Council review of the expansion of Overlay District not efficient; (2) Difficult to review expansion request without reviewing the entire development proposal; (3) delete expansion of Overlay District from process; and (4) Council review threshold - upper limit on number of hotel rooms.

Regarding the concerns on the Hotel Overlay District map and development standards concerns, (1) Hotel Overlay District map amendments - staff will evaluate the map for potential changes; and (2) Spacing limitations - maxim amount of hotels on any given block.

Public benefit concerns included the public benefits table (1) green building certifications; (2) affordability options; (3) contracting for Minority- and Women-Owned business enterprises; (4) consideration of removing public benefits with lower points; and (5) reparations.

The revised design review process concern of membership of the design review board - all vs. majority professionals/persons with special interest in design.

The tentative project schedule at this time is (1) November 4: P&Z Commission continued discussion and review; (2) December 2: P&Z Commission recommendation to Council; (3) January 6: P&Z Commission vote on recommendation to Council; (4) January 26: City Council review of draft hotel development zoning regulations and map amendments; and (5) February 9: City Council vote on zoning regulations and map amendments.

Mr. Okolichany responded to various questions/comments from Council, some being, but are not limited to: are these guidelines mandatory review and voluntary compliance similar to the downtown design guidelines; will the new board eliminate the Downtown Commission and the Asheville Area Riverfront Redevelopment Commission (AARRC) and has there been conversations with those two boards; will the new board be quasi-judicial; suggestion that the Downtown Commission and the AARRC have two representatives on the new board instead of one; will the new hotel development guidelines be separate from the design review guidelines from the Downtown Commission and the AARRC; once the boundaries are voted on by City Council, can they be expanded parcel-by-parcel; what are the room totals of the new hotels; is the staff recommendation moving small hotels from 20 rooms to 35 rooms; need to explore the functionality of what smaller hotels mean for the hoteliers in terms of nice public spaces and restaurants vs. not enough space for some community amenities; regardless of whether the project is a conditional zoning project, the new board design review will still come to Council as a recommendation; can there be a maximum number of hotels on one block; how many actual building lots would be available in the River Arts District; can you put a cap on the number of hotels or number of hotel rooms in one district; does the Asheville Living Comprehensive Plan give guidance if a developer wants to build at the Asheville Mall; explanation of the boundaries around the downtown area; explanation on how different overlays work; reduce the map overlay district to not allow so many large hotel areas, especially in the downtown and River Arts District; can we restrict or remove the entire district from hotels or limit the number of hotels within contiguous blocks; can we limit the size of hotels in the entire City limits; need for design professionals on the new board; and can the public benefits table and hotel overlay map be used as a guideline if a project is a conditional zoning; what kind of criteria for membership is allowed; staff provide information on the number of buildable lots within the hotel overlay distinct; and the design review board should include a majority of members with the appropriate interest, background or training vs. all of the members.

The following items were discussed with staff evaluating and coming back with further information: to add another threshold of more than 100 rooms; direct staff to look at a separation requirement options; eliminate the Asheville Mall on Tunnel Road and stop south of the current hotels on Tunnel Road from the large hotel overlay district map; eliminate the River Ridge Shopping Center from the large hotel overlay district map; eliminate east of South Charlotte Street between Woodfin and College from the large hotel overlay district map; eliminate the Harrah's Cherokee Center in Asheville from the large hotel overlay district map; revise the hotel overlay district map to have all of the River Arts District and the property on Biltmore Avenue be for small hotels and not large hotels; include the Asheville Mall in the new Urban Centers proposal; extend the smaller hotel map boundaries on the west side of Coxe Avenue but still keep away from Asheland Avenue; revise the public benefits table to not give points for things that the developer is already doing; on the public benefits table, have points for offering living wage and if they do that, then they can get points for bus passes; and suggestion to revise the public benefits table that if they are offering a living wage to partner with Inclusive Hiring Partners at the

Chamber of Commerce.

At 4:33 p.m., Mayor Manheimer adjourned the worksession and noted that the formal meeting will begin at 5:00 p.m.

Tuesday – October 27, 2020 - 5:00 p.m.

Regular Meeting

This formal meeting was conducted by use of simultaneous communication in which the following participated by simultaneous communication: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilwoman S. Antanette Mosley; Councilwoman Sheneika Smith; Councilman W. Keith Young; Assistant City Manager Cathy D. Ball; City Attorney Brad Branham; and City Clerk Magdalen Burleson.

Mayor Manheimer said that the City Council wants the public to still have the opportunity to participate in the decisions of your government. She then explained the 3 options for providing public comment - voicemail; email; and advanced live sign-ins.

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Vice-Mayor Wisler moved to adopt the Consent Agenda. This motion was seconded by Councilwoman Mosley and carried on a 6-1 roll call vote with Councilman Haynes voting "no." However, since City Council's Rules of Procedures state that "The Consent Agenda shall only be adopted by a unanimous vote of those council members present at the meeting," Consent Agenda Item "C" was removed from the Consent Agenda and will be voted on separately.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 13, 2020

B. RESOLUTION NO. 20-183 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN EXTENSION OF THE CONTRACTS WITH HOMEWARD BOUND OF WESTERN NORTH CAROLINA, RED ROOF INN INC., AND AXIS SECURITY TO SUSTAIN OPERATIONS OF A MODEL-BASED NON-CONGREGATE SHELTER FOR PERSONS EXPERIENCING HOMELESSNESS DURING THE COVID-19 PANDEMIC

ORDINANCE NO. 4833 - BUDGET AMENDMENT IN THE SPECIAL FUND TO FUND CONTRACT EXTENSIONS UTILIZING EXPECTED FEDERAL EMERGENCY MANAGEMENT AGENCY REIMBURSEMENT REVENUE

Action(s) Requested: Authorization for City Manager's execution of contract extensions with Red Roof Inn, Inc., Homeward Bound of Western North Carolina, and Axis Security.; and a budget amendment in the Special Revenue Fund in the amount of $680,664 to fund the contract extensions utilizing expected FEMA reimbursement revenue.

Background:

- On May 12, 2020, Council ratified the City Manager's execution of agreements with Red Roof Inn, Inc., Homeward Bound of Western North Carolina, and Axis Security for operations of a COVID-19 motel-based non-congregate emergency homeless shelter for persons experiencing unsheltered homelessness and at significant risk of contracting COVID-19 because of age and/or underlying chronic health concerns.
- On July 28, 2020, Council authorized the City Manager to execute extensions of the existing agreements with Red Roof Inn, Inc., Homeward Bound of Western North Carolina, and Axis Security for a 90-day period, which expires on November 8, 2020.
- Sixty-five (65) people (couples, families occupying some rooms) are currently in shelter and will continue to achieve the public health objective of prevention of COVID-19 among the community's unsheltered homeless population.
- One hundred seven (107) have been served to date.
- To continue to provide services to this vulnerable population, it is necessary to execute the contract amendments prior to November 8th to continue the agreements.
- A transitional exit strategy for those in the shelter is currently being planned.
- The City is preparing to submit its initial reimbursement request to FEMA for operations through August 31, 2020.
- The existing agreements with the vendors allow for extensions to continue operations but additional funding not to exceed $680,664 is necessary.

Council Goal(s):
- A Diverse Community
- A Well-Planned and Livable Community
- Fiscally Resilient City

Committee(s):
- None

Pro(s):
- Continues the successful operation of the existing expanded COVID-19 homeless shelter.
- Allows for additional time to effect housing placement for shelter occupants.
- Addresses public health and safety.
- Non-congregate motel shelter, essential operations, and security costs are eligible for FEMA reimbursement.

Con(s):
- Potential damages incurred at the motel are not eligible for reimbursement from FEMA.

Fiscal Impact:
- The additional contract funding requested for an additional 90-day period as part of this Council action includes:
  - Homeward Bound for essential shelter operations not to exceed $150,000; for 60 rooms nightly at Red Roof Inn not to exceed $274,536; and
  - For 24/7 security provided by Axis Security not to exceed $256,128;
  - For a total not to exceed $680,664.
  - Staff anticipates full FEMA reimbursement for these expenses and thus no City contribution is currently budgeted.

Motion(s):
- Motion to adopt a resolution to authorize the City Manager's execution of new services contracts Homeward Bound of Western North Carolina, Red Roof Inn incorporated, and Axis Security for shelter rooms, essential operations, and security for up to 90 additional days commencing on November 9, 2020 through February 8, 2021; and a budget

amendment in the Special Revenue Fund in the amount of $680,664 to fund the contract extensions utilizing expected FEMA reimbursement revenue.

RESOLUTION BOOK NO. 41 - PAGE 459
ORDINANCE BOOK NO. 33 - PAGE 154

C. **RESOLUTION NO. 20-184 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUSPEND THE SALE OR CHANGE IN ZONING USE OF ANY CITY PROPERTY ACQUIRED THROUGH URBAN RENEWAL UNTIL FURTHER POLICY DIRECTION HAS BEEN REVIEWED**

This item was removed from the Consent Agenda to be voted on separately.

D. **RESOLUTION NO. 20-185 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A UNITED STATES GEOLOGICAL SURVEY STREAM NAMING FORM TO NAME (1) A TRIBUTARY OF THE SWANNANOA IN HAW CREEK TO BE CALLED MASTERS BRANCH; AND (2) A TRIBUTARY OF THE FRENCH BROAD IN SOUTHSIDE/ERSKINE TO BE CALLED HAITH BRANCH**

Action Requested: Authorize City Manager to sign United States Geological Survey Form to name an unnamed tributary in the Southside community as Haith Branch and an unnamed tributary in East Asheville as Masters Branch.

Background:

- This request for assistance in naming two unnamed streams is from RiverLink, a regional not-for-profit dedicated to promoting the environmental and economic vitality of the French Broad Watershed.
- RiverLink runs a "Name that Stream" program.
- The United States Geological Survey requires local government authorization in order to officially name any streams or waterbodies.
- RiverLink worked with the community earlier this year to identify potential names for two unnamed streams.
- The Stream A runs through Erskine, AB-Tech, and Southside Neighborhoods to the French Broad River.
- Stream B runs through the Haw Creek neighborhood and flows into the Swannanoa River.
- RiverLink held the following engagement process to ensure stakeholders in the community were involved:
    - Informational flyers that included a request for potential names were distributed to all residents whose property bordered the streams.
    - The submitted names were collected by RiverLink and an online poll was created where all community members in Asheville could vote for their favorite name.
    - Votes were also accepted by mail and email.
    - RiverLink made the Asheville community aware of the naming campaign through social media, flyers, and by posting information on the surrounding neighborhood's NextDoor and Neighborhood Association pages.
- The winners of the online poll for Stream A) Haith Branch and B) Masters Branch.
    - Haith branch honors Lacy T. Haith, a civil rights leader and educator who worked in Asheville City Schools from 1937-1972.
    - Haith Drive, nearby, is also named after Lacy T. Haith.
    - Masters Branch honors Rory and Hazel Masters, Haw Creek community members who looked to preserve area farming traditions and donated land for the Haw Creek Volunteer Fire Department.

- Masters Park, nearby, is also named after Rory and Hazel Masters.

Council Goal(s):
- A Clean and Healthy Environment

Committee(s):
- This item was heard at the September 21, 2020, Asheville Area Riverfront Redevelopment Commission meeting where it was approved unanimously 11:0.

Pro(s):
- Naming of streams supports community self- identification and can help promote ecological stewardship and preservation efforts.

Con(s):
- None identified

Fiscal Impact:
- None

Motion:
- Motion to authorize the City Manager to sign the United States Geological Survey form required to name an unnamed tributary in the Southside community as Haith Branch and an unnamed tributary in East Asheville as Masters Branch.

RESOLUTION BOOK NO. 41 - PAGE 461

E. RESOLUTION NO. 20-186 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A DESIGN SERVICES CONTRACT AMENDMENT WITH CLARK NEXSEN FOR THE AQUATIC FACILITY DESIGN AT THE DR. WESLEY GRANT SR. SOUTHSIDE CENTER

Action Requested: Resolution authorizing the City Manager to execute a contract amendment with Clark Nexsen, of Asheville, North Carolina, for the project known as Dr. Wesley Grant Sr. Southside Center.

Background:
- The Walton Street pool foundation is leaking and the mechanical system components had a major failure making the system inoperable and doubtful for next summer's operations.
- The 2017 Swimming Pool Assessment recommended the Walton Street Pool replacement as the highest priority of all the City pools.
- The professional consultant conclusion was that Walton Street Pool has seen its useful life and needs to be replaced.
- The report determined that renovation options are not practical.
- The available budget of $1.8 million will support the design and construction of a pool in conjunction with the construction of the Grant Center Expansion.
- Key stakeholders were contacted one-on-one earlier this month to inform them on
  - 1) the inoperable status of the current pool at Walton Street Park
  - 2) to share plans for the location of a new pool at the Grant Center property and

- 3) intent to develop a community-supported planning process for future improvements that will create a unified community space at Walton Street Park

- Recognizing the historical significance of Walton Street Park and Pool to the African American Community for the past 82 years, starting in November 2020, the City will work with the Southside community to develop an inclusive Walton Street Park plan that preserves the history of the park and incorporates the historical significance of the park in the improvements.
- The Office of Equity & Inclusion, CAPE, and Parks & Recreation will work with the Southside community on the conceptual planning and design of Walton Street Park that will start in November with a community forum.
- Based on an RFQ in February 2018, a selection committee reviewed qualifications of eight firms and interviewed three firms in May 2018.
- The design team led by Clark Nexsen was unanimously selected as the most qualified for the scope of services required including pool design and engineering.
- A $170,000 amendment to the existing Clark Nexsen design contract (#9200196) is required to incorporate the design and engineering of the pool at the Grant Center.
- Grant Center Projected Timeline:

Design:	Present - February 2021
Bidding:	March 2021
Contracting:	April 2021
Groundbreaking/Construction:	May 2021 - August 2022

Vendor Outreach Efforts:

- Staff performed outreach to minority and women owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to Minority & Women-Owned Business Enterprise (MWBE) service providers for subcontracted services.
- Two Women-Owned Firms submitted qualifications for consideration.
- The selected team will be utilizing one Women-Owned subconsultant.

Council Goal(s):

- A well-planned and livable community; Connected and Engaged Community, Smart City.

Committee(s):

- Recreation Advisory Board, September 9, 2019 - informational only

Pro(s):

- Allows design work to proceed on the project funded in the Capital budget to provide a community pool to serve the Southside community.
- Building the pool at the Grant Center will allow for a reduction in design fees, construction costs, and operational costs to the City.
- Facility improvements will be designed to increase equitable access to community and recreation services for current and future residents through a public community engagement process.
- Provides the City an opportunity to recognize the significant history of the Southside community.

Con(s):

- Will delay the bidding and construction start date for the project.

Fiscal Impact:

- Funding for this contract amendment already exists within the currently approved Capital Improvement Program (CIP).

Motion:

- Motion to authorize the City Manager to execute a contract amendment with Clark Nexsen for design services for Dr. Wesley Grant Sr. Southside Center Project for an additional amount not to exceed $170,000.

Councilwoman Mayfield that there will be some community conversation to engage people in the design of what will happen at Walton Park and at the old Walton Street Pool. She was glad they will find a way to honor the old pool and the history that exists in that space.

RESOLUTION BOOK NO. 41 - PAGE 462

F. RESOLUTION NO. 20-187 - RESOLUTION AMENDING THE 2020 CITY COUNCIL MEETING SCHEDULE TO DELETE THE NOVEMBER 24, 2020, CITY COUNCIL MEETING

RESOLUTION BOOK NO. 41 - PAGE 463

G. RESOLUTION NO. 20-188 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT IF AWARDED, A GRANT FROM THE N.C. DEPT. OF ENVIRONMENTAL QUALITY FOR A BACKYARD COMPOSTING GRANT

Action Requested: Adoption of a resolution authorizing the City Manager to apply for and accept grant funding if awarded, from the NCDEQ for the DEACS Backyard Composting Grant.

Background:

- Apply for grant funds for outreach and education efforts to increase backyard and community-based composting.
- Outreach efforts will include:
  - Backyard composting instructional mailer
  - Brochures, stickers, and posters
  - Fifty (50) Backyard compost and 600 kitchen countertop bins will be purchased and distributed through this grant
  - Social media promotion
- DEACS Grant recipients are required to provide a match equal to or exceeding 20% of the requested grant funds.
- Grant activities and funds will be utilized in collaboration with FY21 Service Contract with Asheville Greenworks for community compost education and outreach activities.

Council Goal(s):

- A Clean and Healthy Environment

Committee(s):

- None

Pro(s):

- Helps support the City's waste reduction goal while leveraging state funding.

Con(s):

- This is a one time grant. Over the last 4+ years, the Office of Sustainability contracts with Asheville GreenWorks for $30k to implement environmental education outreach which includes recycling and composting workshops.

Fiscal Impact:
- If awarded, the City will be required to provide a match of $3,600, or 20% of the requested grant funds of $18,000, totaling $21,600 for the project.
- The match will be covered using available funds in the Sanitation Division and Sustainability operating budgets.

Motion:
- Motion to approve a resolution authorizing the City Manager to apply for and accept grant funding if awarded, from NCDEQ.

RESOLUTION BOOK NO. 41 - PAGE 464

H. RESOLUTION NO. 20-189 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SOLE SOURCE CONTRACT WITH SOLUTIONZ, INC. FOR THE PROCUREMENT OF AUDIOVISUAL UPGRADES FOR THE CITY HALL THE FIRST FLOOR CONFERENCE ROOM

Action Requested: Adoption of a resolution authorizing the sole source procurement from Solutionz, Inc. of audiovisual upgrades for the City Hall First Floor Conference Room.

Background:
- Audiovisual upgrades are needed to the existing system in the First Floor Conference Room to:
  - Improve digital interaction between committee members and presenters
  - Provide committee members, audience members, and livestream audiences the ability to view both presentations and related materials from committee and commission-member Chromebooks to proposed 86" large-screen displays
  - Improve the room's sound quality, and improve audio recording capabilities
- Solutionz, Inc. (formerly Unified Technology Systems) engineered and installed the City's current digital broadcast system, with associated audiovisual equipment in the First Floor Conference Room including a new projection system for displaying live broadcasts of City Council meetings, an audio distribution system for City Council meeting broadcasts and for integration with the room's 15 dais microphones, a Crestron touch-screen tablet controller with coded programming to provide remote switching of the City's cable broadcast signal to the projection system, remote control of the projection system, and remote volume control of cable broadcasts and of dais microphones.
- As part of the digital broadcast system, the First Floor Conference Room is used as an overflow room enabling City Council meeting attendees to view live proceedings of meetings on the City's Charter Cable channel 193. The First Floor Conference Room is also the location of several Council committees and Council-appointed boards & commission meetings.
- Solutionz, Inc. continues to service and upgrade equipment related to the City's digital broadcast system, including equipment in the First Floor Conference Room, per an existing 5-year Service Agreement.
- The cost of audiovisual upgrades to the First Floor Conference Room is approximately $37,000.

Vendor Outreach Efforts:

- Due to the need for compatibility with digital broadcast system equipment, and the need to maintain viability of our existing Service Agreement, Solutionz, Inc. is the vendor best positioned to recommend, engineer, and install audiovisual upgrades consistent with existing equipment in the First Floor Conference Room. Therefore, sole source authorization is being requested.

Council Goal(s):
- Smart City
- Connected and Engaged Community

Committee(s):
- None

Pro(s):
- Solutionz, Inc. will recommend equipment that will work and be compatible with existing audiovisual components already installed in the First Floor Conference Room.
- Solutionz, Inc. wrote the code to program the Crestron Control tablet that operates dais mics, the projection system, and accesses the City's cable channel in the First Floor Conference Room. Additional code will need to be written for the Crestron Control tablet to operate new audiovisual equipment in the room that integrates with Solutionz, Inc.'s existing code.
- In the interest of keeping the Service Agreement intact relative to the Crestron Control tablet, it benefits the City to have Solutionz, Inc. perform audiovisual upgrades to the First Floor Conference Room.
- Benefits of the upgrade will include better sound quality in the room and much improved visual quality of presentations and of live City Council proceedings for overflow attendees of meetings.

Con(s):
- If another vendor updates code for the Crestron Control tablet, there is no assurance that it will be compatible with the current programming.
- If another vendor updates code for the Crestron Control tablet, it may invalidate our Service Agreement relative to the Crestron Control tablet.

Fiscal Impact:
- Funding for this purchase is to be provided by non-departmental general funds.

Motion:
- Move to adopt a resolution authorizing the procurement of equipment for audiovisual upgrades to the First Floor Conference Room from sole source vendor Solutionz, Inc.

RESOLUTION BOOK NO. 41 - PAGE 465

I. ORDINANCE NO. 4834 - BUDGET AMENDMENT TO MOVE BUDGET FROM THE GENERAL FUND TO THE SPECIAL REVENUE FUND TO PARTIALLY FUND THE REPLACEMENT OF THE GOVERNMENT TV BROADCAST SERVER

Action Requested: Adoption of a budget amendment in the amount of $15,000 to move budget from the General Fund to the Special Revenue Fund to partially fund the replacement of the Government TV broadcast server.

Background:

- The broadcast server for the Asheville City Channel is no longer working and must be replaced.
- The broadcast server records City Council meetings, directs live broadcasts to the Asheville City Channel, stores Council meeting video files and video files of original content created by the City, and enables the Asheville City Channel to schedule and provide daily programming of that video content.
- The total cost of replacing the broadcast server is approximately $25,000.
- As the operator of a certified Public, Educational, and Governmental (PEG) television channel, the City receives funding from the State of North Carolina via the Video Programming tax distribution to fund maintenance of television station equipment.
- Staff has identified $10,000 in available PEG funds to partially cover the cost of replacing the server. The remaining $15,000 will come from previously budgeted funds in the Community & Public Engagement (CAPE) Department's General Fund budget and from funds set aside for upgrades to the 1st Floor Conference Room.
- In order to consolidate the budget in the City's Special Revenue Fund where PEG funding is recorded, a technical budget amendment is needed to move the $15,000 from the General Fund to the Special Revenue Fund.

Council Goal(s):
- A Financially Resilient City
- A Connected and Engaged Community

Pro(s):
- Provides funding in one consolidated budget for the replacement of critical Government TV equipment.

Con(s):
- None.

Fiscal Impact:
- This technical amendment simply involves moving a previously approved budget from one fund to another.

Motion:
- Motion to adopt a budget amendment in the amount of $15,000 to move budget from the General Fund to the Special Revenue Fund to partially fund the replacement of the Government TV broadcast server.

ORDINANCE BOOK NO. 33 - PAGE 155

J. RESOLUTION NO. 20-190 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MOORE AND SON SITE CONTRACTORS INC. FOR THE DISTRICT SIDEWALK PROJECT

Action Requested: Adoption of a resolution authorizing the City Manager to enter into a contract with Moore & Son Site Contractors, Inc. of Mills River, North Carolina (Moore & Son) in the amount of $170,993 for The District Sidewalk Project and further authorizing the City Manager to execute any change orders that may arise during the project up to the contingency amount of $17,099.30 (10%).

Background:
- The District is an apartment complex located on Fairview Road.

- The estimated project cost is $366,100 in which the apartment developer has provided $200,000 as partial funding for sidewalk construction and other amenities in the area, with the City providing the remaining funds.
- The project includes a raised pedestrian crosswalk, new brick sidewalk within the Biltmore Historic District, new concrete sidewalk, high-visibility crosswalks, ADA ramps, and associated infrastructure.
- Bids were advertised on August 17, 2020, but the bid packages received were incomplete.
- The project was re-advertised on September 14, 2020, and bids were opened on October 1, 2020. Five (5) firms submitted bids, and the firms' names and bid amounts are included below:
    - French Broad Paving, Inc., Marshall, NC $572,550
    - Appalachian Paving and Concrete, Swannanoa, NC $176,646
    - Armen Construction, LLC, Charlotte, NC $298,503
    - Moore & Son Site Contractors, Inc., Mills River, NC $170,993
    - Patton Construction Group, Inc., Asheville, NC $255,120
- Moore & Son Site Contractors, Inc., of Mills River, North Carolina was the lowest responsive, responsible bidder.

Vendor Outreach Efforts:

- For the construction phase of the project, staff performed outreach to minority and women-owned businesses through solicitation processes which include posting on the State's Interactive Purchasing System and requiring prime contractors to reach out to MWBE service providers for subcontracted services.
- Moore & Son is not an MWBE and will be performing 100% of the work required for the project.
- No subcontractors will be used on this project.

Council Goal(s):

- Transportation and accessibility

Committee(s):

- None

Pro(s):

- Improved connectivity and accessibility for the neighborhoods surrounding The District apartment complex.

Con(s):

- Construction will be disruptive to adjacent residences. Efforts will be made to minimize disruptions.

Fiscal Impact:

- Funding already exists for this contract within the currently approved Capital Improvement Program (CIP). The total maximum cost of this contract, including 10% contingency, is $188,092.30.

Motion:

- Motion to adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Moore & Son Site Contractors, Inc., of Mills River, North Carolina in the amount of $170,993 plus a contingency of $17,099.30 (10%), for a total of $188,092.30.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda, minus Consent Agenda Item "C". This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

ITEM REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

C. RESOLUTION NO. 20-184 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUSPEND THE SALE OR CHANGE IN ZONING USE OF ANY CITY PROPERTY ACQUIRED THROUGH URBAN RENEWAL UNTIL FURTHER POLICY DIRECTION HAS BEEN REVIEWED

Action Requested: Approval of a resolution directing the City Manager to suspend the sale or change in zoning or use of any City property acquired through urban renewal until further policy direction has been reviewed.

Background:

- On July 14, 2020, the Asheville City Council adopted a resolution supporting community reparations for Black Asheville.
- The resolution set forth the need to establish a new commission empowered to make recommendations that will make significant progress toward repairing the damage caused by public and private systemic racism.
- Additionally, the resolution cites increasing Black home ownership and access to affordable housing as prospective priorities in this work.
- The resolution acknowledges and seeks to make amends for the City's role in the urban renewal programs carried out in Asheville.
- Related to the resolution, the urban renewal programs that had most impact on communities of color were:
    - The East Riverside Urban Renewal Project, which impacted the historic African American neighborhood and business district known as Southside.
    - East End / Valley Street Community Improvement Project, which impacted the historic African American neighborhood and business district of East End.
    - The Montford Community Redevelopment Project, which impacted the historic African American neighborhoods of Hill Street and Stumptown.
    - Staff is currently researching the other urban renewal programs that occurred in Asheville and the impacts on communities of color (including the Civic Redevelopment Project and the South Pack Square / Pack Plaza projects, both focused on Downtown Asheville; and the Head of Montford Redevelopment Project.)
- The City is now reviewing its property inventory to identify what land and property it still owns that is tied to these urban renewal programs. A map is being developed and will be published on the City's website.
- For those properties that the City may want to sell or change the zoning and use, further policy direction is needed to align actions with the recent reparations resolution that was passed by City Council.
- Staff will work on a policy proposal to be reviewed for Council consideration regarding these properties.
- Until such time, the resolution authorizes the City Manager to suspend the sale or change of zoning and use of any City property acquired through the aforementioned urban renewal programs unless a property is specifically exempted by City Council.
- These exemptions include property located at 172 & 174 S. Charlotte Street, which is

currently under contract to be sold to White Labs, Inc. and

- Property located at Asheland Avenue, which is currently being reviewed for use as affordable housing in partnership with Haywood Street Congregation.
- Surveys and deed research indicates that the property at 172 and 174 S. Charlotte Street includes both land that the City purchased in the 1970's and land that was part of Urban Renewal of East End.
- Since a portion of the property was associated with Urban Renewal, federal restrictions require that the proceeds from sale benefit the City's Community Development Block Grant (CDBG) Program as Program Income.
- Based on the total purchase price of $3.7M for the properties, approximately $1.6M will go to CDBG, which will be available to the next funding cycle for eligible CDBG activities.
- The remainder of the purchase price, approximately $2.1M, will benefit the City's General Fund.
- The real estate transaction is scheduled to take place in December 2020.
- If for any reason these transactions do not materialize with the specifically stated partners, then the referenced properties will be subject to the suspension of sale as defined by the resolution.

Council Goal(s):

- An Equitable and Diverse Community
- Thriving Local Economy

Committee(s) and Commission(s):

- Planning and Economic Development Committee - Recommended approval at the October 12, 2020 meeting.

Pro(s):

- Demonstrates Asheville's commitment to reducing racial disparities.

Con(s):

- None noted.

Fiscal Impact:

- None noted at this time.

Motion:

- Motion to approve a resolution directing the City Manager to suspend the sale or change of zoning and use of any City property acquired through urban renewal until further policy direction has been reviewed.

From advanced call-ins, six people appealed to Council to consider taking a portion, if not all, of the proceeds from the sale of the White Labs property and put it towards the reparations fund.

Mayor Manheimer explained that White Labs has a contract to purchase the remaining property and some of that property to be sold was acquired with federal funding and must go back into the Community Development Block Grant (CDBG) Program. City Council voted in a closed session to use the sale proceeds for this property to purchase the property next to the Transit Center downtown for the future expansion of the Transit Station. That portion has already been earmarked for this important community investment. The other portion of the sale proceeds was acquired using federal funds and those proceeds must follow the federal restrictions. City Council will have the opportunity to make a determination about the use of the Community Development Block Grant funds.

When Councilman Haynes asked what would prevent us from committing the funds from the CDBG Program into the reparations fund, Assistant City Manager Ball said that the CDBG funds must be used for low and moderate income projects.

Vice-Mayor Wisler moved for the adoption of the resolution directing the City Manager to suspend the sale or change of zoning and use of any City property acquired through urban renewal until further policy direction has been reviewed. This motion was seconded by Councilwoman Mayfield and carried on a 6-1 roll call vote, with Councilman Hayes voting "no."

RESOLUTION BOOK NO. 41 - PAGE 460

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER UPDATES TO THE 2020-21 ACTION PLAN TO INCLUDE THE ALLOCATION OF $154,711 IN COMMUNITY DEVELOPMENT BLOCK GRANT CONTINGENCY FUNDS AND THE REALLOCATION OF AN ESTIMATED $1.1 MILLION IN HOME INVESTMENT PARTNERSHIPS PROGRAM FUNDS

Community Development Programs Director Paul D'Angelo said this is the consideration of updates to the 2020-21 Action Plan to include the allocation of $154,711 in Community Development Block Grant contingency funds and the reallocation of an estimated $1.1. million in HOME Investment Partnerships Program funds. This public hearing was advertised on October 16 and 23, 2020.

Background:

- The City has received HUD notification that we will have approximately $1,121,092 in CDBG funds and $1,768,014 in HOME funds available for the fiscal year that began July 1, 2020.
- Community Development Staff, in coordination with the Housing & Community Development (HCD) Committee, have made recommendations for the use of CDBG funds, which must be used in housing & community development programs within the City of Asheville.
- The Asheville Regional Housing Consortium Board has recommended uses for HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties).
- Funds are awarded based on HUD CDBG & HOME guidelines as well as the Priorities listed in the City's 5 Year Consolidated Plan.
- A new 5 Year Consolidated Plan, that will include this 20/21 Action Plan, is expected to come before Council on November 10, 2020, for approval.

Council Goal(s):

- A Diverse Community
- Quality Affordable Housing
- Thriving Local Economy

Committee(s):

- Asheville Regional Housing Consortium Board - May 26, 2020; October 5 2020 - Approval
- Housing & Community Development Committee - July 21, 2020; September 29, 2020 - Approval

Pro(s):

- Approval of the Annual Action Plan paves the way for HUD funding to be utilized by partners in the City of Asheville and the region, with funds to be used to create affordable housing, jobs and impact in our moderate and lower income communities.

Con(s):

- It is not always possible to fund all of the applications received, and many agencies funded will receive less than the amounts requested.

Fiscal Impact:

- The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previously completed projects, and estimated program income.
- Staff costs to administer the program are also fully paid from federal sources.
- The funded programs will provide new construction and other economic activity in the City and the region, creating and sustaining employment and impacting moderate and low income communities.

Councilwoman Mayfield read out some of the groups that these funds will go to.

Mayor Manheimer opened the public hearing at 5:38 p.m.

Mayor Manheimer announced that there were no advanced live call-ins for this public hearing item.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Vice-Mayor Wisler moved to recess this item until November 10, 2020, at which time this public hearing will be voted. This motion was seconded by Councilwoman Smith and carried unanimously by roll call vote.

B. PUBLIC HEARING TO CONSIDER AN UPDATE TO THE 2019-20 ACTION PLAN TO INCLUDE $889,456 IN CDBG-CV FUNDS, WHICH MUST BE USED TO PREVENT, PREPARE FOR, OR RESPOND TO CORONAVIRUS

Community Development Programs Director Paul D'Angelo said this is the consideration of an update to the 2019-20 Action Plan to include $889,456 in CDBG-CV Funds, which must be used to prevent, prepare for, or respond to coronavirus. This public hearing was advertised on October 16 and 23, 2020.

Background:

- The City of Asheville has received notification from HUD that we will be receiving an additional COVID-19 funding allocation (Round 3) from the Department of Housing & Urban Development (HUD) in the amount of $889,456.
- The funds are to be used to prevent, prepare for, and respond to the coronavirus / COVID-19.
- In order to strategically utilize these funds for individuals and families affected by COVID-19, it is important to demonstrate where there are gaps in existing relief funding, unmet needs, difficulty in accessing relief funds, and not to duplicate services, efforts and other federal & state dollars.
- Specifically from HUD, "Grantees must prevent duplication of benefit, i.e. the use of CDBG-CV funds to pay costs if another source of financial assistance is available to pay that cost".

- The proposal to HUD for this special allocation must show "Clarity of Need" and fund individuals and families under 80% Area Median Income (AMI) and/or Low & Moderate Income (LMI) areas.
- In order to be timely, strategic and effective with these HUD dollars during the Pandemic, as well as working within the parameters of CD capacity, Community Development Staff again strongly recommends directly partnering with local agencies who can:
    - target the immediate needs at hand,
    - have the expertise to carry out the eligible activity,
    - have experience working with CDBG and/or HUD funds,
    - have the capacity as an agency to be an effective partner, and
    - have the ability to produce monthly or quarterly reports and measurable outcomes.

Proposal:

- ***Services Breakdown of the $889,456 Budget***
    - ***Rental Assistance***
      $550,000
        - *Homelessness Prevention & Rapid Rehousing*
        - *Eviction Prevention / LMI Individuals & Families*

    - ***COVID-19 Emergency Response for Homeless Populations***
      $165,000
        - *Case management services to move homeless individuals into permanent housing and help them stabilize once housed*
        - *Focus on people exiting Red Roof Inn non-congregate shelter*

    - ***Grant Administration***
      $174,456
        - *CDBG-CV dedicated FTE for grants management for duration of funding*
        - *Cost to administer the program, including HUD reporting and compliance*
        - *Standard 20% administrative allocation to assist with capacity*

$889,456

Council Goal(s):

- Quality Affordable Housing
- An Equitable and Diverse Community

Committee(s):

- HCD - October 20, 2020 - *Proposed use of funds approved unanimously to move to Council*

Pro(s):

- Efficient use of funding
- Preserves and protects affordable housing
- Targets populations most impacted by COVID-19
- Reduces spread of COVID-19

Con(s):

- Staff hours will be dedicated to administering this additional CDBG grant.

Fiscal Impact:

- This special allocation is fully funded from HUD authorized by The CARES Act of 2020.
- Staff costs to administer the program are also fully paid from federal sources.
- This funding will provide rental assistance to Ashevillians in danger of homelessness or eviction as well as additional supportive services to house people who are homeless and at high risk for COVID complications, including people sheltered at the Red Roof Inn.
- Timeline of Funding - CD Staff received notice of the funding on Friday, September 25th.
- With an approved proposal, CD Staff will submit the plan through an amendment to the 19/20 Action Plan by November 6th with hopes to receive the funding from HUD by the end of December.

Councilwoman Mayfield thanked our partners for getting these funds out to the people who need it.

Mayor Manheimer opened the public hearing at 5:43 p.m.

Mayor Manheimer announced that there were no advanced live call-ins for this public hearing item.

In accordance with recent legislation amending North Carolina G.S. §166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing will be accepted for an additional 24 hours. Therefore, Councilwoman Mayfield moved to recess this item until November 10, 2020, at which time this public hearing will be voted. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO UPDATE OPEN SPACE REQUIREMENTS

Councilwoman Smith moved to continue this public hearing to amend the Unified Development Ordinance to update open space requirements until November 10, 2020. This motion was seconded by Vice-Mayor Wisler and carried unanimously on a roll call vote.

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4835- ORDINANCE AMENDING A PREVIOUSLY APPROVED CONDITIONAL ZONING APPROVAL (ORDINANCE NO. 4570) FOR PROPERTY LOCATED AT 236 CHARLOTTE STREET AND 336 HILLIARD STREET TO MODIFY THE SITE PLAN TO REFLECT THE RIGHT-OF-WAY CLOSURE OF LENNOX COURT AND TO MAKE CHANGES TO THE SITE AND BUILDING FOOTPRINT AT THE HILDE'S HOUSE INFANT CARE FACILITY

Mayor Manheimer said that this public hearing was held on October 13, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning amendment request for the properties located at 236 Charlotte Street and 336 Hillside Street zoned CB-II CZ (Community Business II Conditional Zone) for the expansion and improvements as shown on site plans and

find that the request is reasonable, is in the public interest, is consistent with the city's comprehensive plan, and meets the development needs of the community in that: 1) the Future Land Use of the Living Asheville Comprehensive Plan anticipates non-residential community-focused uses; and, 2) the amendment allows for needed upgrades and access management to the site while maintaining compatibility with the surrounding area. This motion was seconded by Councilwoman Mayfield and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 - PAGE 156

B. ORDINANCE NO. 4836 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE ARTICLES II, III, V, VIII AND VIX RELATED TO HISTORIC PRESERVATION, IN ORDER TO BRING THE CITY'S DEVELOPMENT CODE INTO ALIGNMENT WITH RECENT STATE LEGISLATION

Mayor Manheimer said that this public hearing was held on October 13, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the proposed wording amendments to Chapter 7 Articles II, III, V, VIII, VIX and of the UDO and find that the proposed amendments are reasonable, in the public interest and consistent with the city's comprehensive plan in that they promote responsible growth based on holistic decision making and bring City ordinances into compliance with the new North Carolina General Statute regarding land use development, Chapter 160D. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 – PAGE 163

C. ORDINANCE NO. 4837 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE ARTICLES II, XII AND XVIII IN ORDER TO BRING THE CITY'S DEVELOPMENT CODE INTO ALIGNMENT WITH RECENT STATE LEGISLATION

Mayor Manheimer said that this public hearing was held on October 13, 2020, and in accordance with recent legislation amending North Carolina G.S. § 166A-19.24(e), regarding public hearings conducted during remote meetings, written comments for this public hearing were accepted for an additional 24 hours.

Hearing no more public comment, Mayor Manheimer closed the public hearing and said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the proposed wording amendments to Articles II, XII, and XVIII of the UDO and find that the proposed amendments are reasonable, in the public interest and consistent with the city's comprehensive plan in that they promote reasonable growth based on holistic decision making and bring City ordinances into compliance with state law

Chapter 160D. This motion was secondec by Councilwoman Mosley and carried unanimously by roll call vote.

ORDINANCE BOOK NO. 33 – PAGE 179

VI. NEW BUSINESS:

A. RESOLUTION NO. 20-191 - RESOLUTION ADOPTING THE HAYWOOD & PAGE CONCEPT PLAN

Strategic Design & Development Manager Stacy Merten said that this is the consideration to adopt a concept plan for City-owned property at Haywood and Page.

"Background:

- In 2019 City Council authorized the City Manager to hire Nelson Byrd Woltz Landscape Architects to complete a Concept Master Plan based on the Haywood Street Vision Report.
- The report contemplated the future re-development of City-owned properties at 68 Haywood Street and 37 Page Avenue in the historic core of downtown Asheville.
- The Master Concept Plan ("Plan") requested by Council is now complete.
- This long-range plan was informed by;
  - the Council-appointed advisory board ("Vision Implementation Committee"),
  - public engagement,
  - economic and geographic data collection and analysis; and,
  - urban design activities that took place during the past year.
- The Plan incorporates a mix of uses, including
  - a multi-story mixed-use building that opens directly to a public space and provides ground floor activation on all four sides;
  - a central plaza for creative play, community gatherings and special events;
  - a community garden located next to a shared-use,
  - rentable kiosk;
  - a contemplation area featuring public art and cultural/historic interpretation;
  - native planting beds connected via universally accessible walking paths;
  - an active alleyway with market stalls between Haywood and Page; and,
  - a flexible seating area under a grove of trees along Page Avenue.
  - The Plan includes other streetscape improvements adjacent to the subject site, including across the street at the Harrah's Cherokee Center and Basilica of Saint Lawrence, as well as a realignment of Page Avenue.
- The level of detail at the concept plan level is medium; it provides the City with a clear understanding of the community's vision for the site and is flexible enough to adapt or modify during future implementation efforts.
- Deliverables also include a financial model that the City can use to analyze any future private development proposals for the mixed-use building.
- The plan addresses a geographic area beyond the boundaries of the City-owned parcels.
- While staff has heard broad support for the plan, including support from the Vision Implementation Committee, some downtown stakeholders remain opposed to the new park component because of concerns over the City's capacity to maintain and care for parks in general.
- Some condominium owners at 60 Haywood have expressed opposition to having a building obstruct their existing views.
- The plan does not include an implementation section; staff could return to the Planning and Economic Development Committee and/or City Council next year with suggested implementation strategies, if requested.

Council Goal(s):

- A Well Planned and Livable Community

Committee(s):

- The Planning and Zoning Commission heard this item on 10/7/20 and voted 7:0 in favor of Council adopting the Plan.
- The Downtown Commission was introduced to this item on 9/11/20 and heard this item on 10/9/20 when they voted 9:1 in favor of Council adopting the Plan.
- The Planning and Economic Development Committee heard this item on 10/12/20 and voted 3:0 to forward the plan to Council and recommend adoption of this concept with no implementation plan.

Pro(s):

- The Plan provides clear guidance on how the community would like this site to be redeveloped in the future.
- Creation of the Plan occurred through a collaborative process with the community.

Con(s):

- Future implementation will require public resources including the development of partnerships for land acquisition, project funding and park maintenance.

Fiscal Impact:

- None currently as this is only a concept plan at this time. Approval of the Plan does not authorize the City to allocate any funds toward the Plan's implementation.
- An implementation plan and consideration of City funds would occur at a later date."

Ms. Dahl then introduced Thomas Woltz, owner of Nelson Byrd and Woltz. Mr. Woltz then explained the project goals of developing a clear vision for the development of the site that positions Haywood Page as an authentic asset within Asheville's public realm; partner with adjacent stakeholders to create a vibrant downtown district that engages the mind, rests the body, and celebrates the cultural asset unique to the neighborhood; design for the realization of goals outlined in the Downtown Master Plan and Living Asheville documents; and build from the Haywood Street Visioning Project to find an appropriate balance of active, passive, and built spaces.

He outlined the Haywood Page Project Team; the project timeline; the community engagement session #1; the existing and proposed framework plan road alignment charette; the framework plan guiding principles of being a good neighbor, authentic horticulture, and finding balance; sketch concepts of three iterations - Concept A (Haywood Point), Concept B (Stony Hill) and Concept C (City view); the community engagement session #2; project sketches; concept Master Plan views from covered porch to the Basilica and from the woodland path;

Mr. Yuxiang Lao discussed the financial model analytical framework; economic considerations; example of building height and program assumptions and test of financial viability; concept Master Plan building long section; probable construction costs; and operations and maintenance summary.

Mr. Andrew Fletcher said "Four years ago, you tasked the Haywood Page Advisory Team to collect and interpret the community's desires for these properties, and we issued a Vision Report from that. That group disbanded after that work was done, but many of us came back together as the Vision Implementation Committee to ensure that there was continuity from the vision to the master planning process. It is our opinion that the Vision you tasked us to create has been adhered to, and that the design team at Nelson Byrd Woltz has faithfully used our list of ingredients to create a recipe for success in this location that we have all wanted for so long. If

you're wondering why this has taken so long, it takes a lot of time to render vision from division, but it is our feeling that we have done so, and as we pass the baton back to you, we ask that you celebrate the results with a "yes" vote. As we move past this milestone, we need to remember what has brought us success so far and commit to continuing it. Collaboration with the Asheville Design Center and the many hundreds of hours of volunteer time they coordinated must be recognized. With their collection and collation of the hordes of public input gathered, we were able to see the signals of the public desires through the noise of the public debate. What we found is that when we stopped asking "Either / Or" and said "Yes, And..." there was much more to talk about, and from those talks came realization that many of our desires for this site could live together. You see this rendered in the plan before you. Special mention should be made of the most successful of the recommended temporary uses, the community garden that the folks at Elder and Sage have tended. They deserve to see their commitment to making that place beautiful and community centered honored going forward. Making funding choices will be hard, but a beautiful plan will collect momentum and funding in ways that an empty gravel lot can never do. We must trust each other, honor the master plan, ask the community for help when we are unsure, and commit to each other to move forward together even when that movement is slow. As the former Chair and Spokesperson of the Haywood Page Advisory Team and current delegated representative of the Vision Implementation Committee, I repeat our simple request: Vote YES to accept the Haywood Page Concept Master Plan."

Ms. Kim Roney spoke in support of the Plan and hoped to keep this energy going on this shared success.

Councilman Haynes hoped that Council will continue to support the Elder and Sage Community Garden and that they are included in this project.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to adopt the Haywood and Page Concept Master Plan. This motion was seconded by Vice-Mayor Wisler and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 - PAGE 467

B. RESOLUTION NO. 20-192 - RESOLUTION TO ADOPT THE CITY OF ASHEVILLE BUSINESS INCLUSION POLICY

Ms. Rosanna Mulcahy, Business Inclusion Manager, said this is consideration of a resolution to adopt the "City of Asheville Business Inclusion Policy" that seeks to address race- and gender-based disparities in City contracting and procurement.

"**Background**:

- In 2018, a disparity study was conducted which revealed significant disparities in the Asheville regional area among minority- and women-owned businesses in the awarding of City contracts.
- This study provides significant legal evidence for the City to implement a policy to address the documented disparities.
- The City's now-expired Minority Business Plan, adopted in 1998, was race and gender-neutral and did not adequately address the disparities in City contracting, as documented in the Disparity Study.
- The City of Asheville Business Inclusion Policy is intended to replace and expand upon the Minority Business Plan as guidance for the Business Inclusion Office and city departments.
- Since January 2020, City staff from various departments have worked on drafting and

reviewing the new policy.

- Policy measures were developed with careful research of comparable North Carolina municipal policies and practices and federal, state, and local laws.
- The policy's completion aligns with the 30-60-90 day benchmarks set by the City Manager for reworking city government priorities as a response to the recent protests about racial justice in Asheville.
- In addition, the responses from the grantee groups included in the 2019 Racial Healing Mini-Grant indicated that Black community members desire to see more opportunities for Black-owned businesses to win City contracts and greater clarity and guidance in the contracting process.
- The policy outlines the following steps that the City will take to help reduce disparities in contracting:
    - Defining management and staff roles and responsibilities;
    - Maintaining an updated database of available small and minority- and women-owned businesses;
    - Providing certification, networking opportunities, workshops, and training for such businesses;
    - Requiring that prime contractor, bidding on contracts, perform outreach in the form of good faith efforts to obtain a utilization percentage of such businesses following contract-specific goals set by the City; and
    - Many other key measures.
- The policy aims to become effective on January 1, 2021.
- In the coming months, staff will:
    - Develop procedures for implementation;
    - Conduct community outreach with stakeholders to inform them of the new policy and seek feedback on policy implementation;
    - Work through a budget to assist with policy implementation;
    - Begin certifying small and minority- and women-owned businesses;
    - Build and maintain a database of such businesses; and
    - Develop plain-language materials for all businesses and bidders who may participate in City contracting.

Council Goal(s):

- An Equitable and Diverse Community
- Thriving Local Economy

Committee(s) and Commission(s):

- Human Relations Commission of Asheville - 09/30/2020 - For information only
- Planning and Economic Development Committee - 10/12/2020, recommended by unanimous approval

Pro(s):

- Provides the necessary framework to help ensure greater participation in City contracts by small, minority- and women-owned businesses
- Advances the Equity Action Plan by implementing the necessary steps to achieve equitable outcomes within City contracting and procurement
- Demonstrates the City of Asheville's commitment to reducing racial disparities and discrimination
- Reduce income gaps between black and white-owned businesses
- Increases the City's awareness of available minority, women, and small business vendors
- Increases Minority, Women, and Small Business Enterprises (MWSBEs) utilization in City contracting

- Promotes existing and start-up development of small business growth and profitability in the Asheville Regional Area
- Monitors, evaluate, and reports on Minority and Women Business Enterprises
- Directs the City to maintain a database of available & certified MWSBEs
- Defines the parameters for MWSBE Certification
- Defines the Roles and Responsibilities of key City personnel
- Provides guidance on other measures the City may take to promote Business Inclusion
- Establishes annual aspirational and contract-by-contract subcontracting goals for MWSBEs participation in City contracts;
- Establishes standards for good faith efforts;
- Directs City Manager to ensure the integration of the Asheville Business Inclusion Policy components into all City Departments' practices and processes.

Con(s):

- The current staffing levels of the Business Inclusion Office are not sufficient to meet the policy's demands.
- Staff will be evaluating the needs and address staffing needs in the FY 22 budget.
- The adoption of this policy adds another level of compliance to City bidding and contracting processes.
- There may be additional costs associated with no longer choosing the lowest bids on contracts in some cases, as the standard of responsiveness will change to include adequate MWBE outreach to facilitate utilization.
- Suppose the apparent lowest bidder does not perform outreach, in the form of good faith efforts, for each MWBE utilization goal. In that case, their bid may be rejected in favor of the next-lowest bidder who did meet the standard of responsiveness.
- This is difficult to quantify as it is unknown how many bidders would be non-compliant with the standard.

Fiscal Impact:

- The staff is working closely with the Budget Division to produce a budget for policy implementation.
- Likely impacts include the addition of a staff position to the Business Inclusion Office, investment in a co-working space for minority business owners, funding for future disparity studies, and funding for training."

Ms. Mulcahy said that the key takeaways for this action is that it (1) provides a holistic framework for supporting MWSBE; (2) supports economic inclusion which aligns with reparations; (3) aligns with 30-6-90 benchmarks for reworking City priorities; (4) supports City Council goals - an equitable and diverse community, A thriving local economy, and a connected and engaged community; and (5) demonstrates the City's commitment to equitable economic growth.

She then provided an overview of her presentation (1) The City of Asheville provides myriad services to the residents who live and work in the region. To provide those services, the City typically spends more than $35 Million each year in contract dollars to procure various goods and services in construction, professional services, goods and general services; (2) To address discrimination in the particpation of minority- and woman-owned businesses and foster economic inclusion, the proposed "Asheville Business Inclusion Policy" seeks to implement race- and gender conscious policy elements into City contracting and procurement; and (3) the Asheville Business Inclusion Office seeks to promote equitable economic growth and development in the City of Asheville.

She reviewed the background of the Asheville Business Inclusion Policy. She said in 2018, the City of Asheville performed a Disparity Study which concluded that the participation of minority- and women-owned businesses in City contracts was lower than expected based on

business availability. The results of the Disparity Study provide the City with sufficient evidence to adopt a race- and gender-conscious contracting policy to address the identified disparities in contrast to the expired race- and gender-neutral Minority Business Plan that was previously adopted after a 1993 Disparity Study. The proposed "Asheville Business Inclusion Policy" seeks to remediate the ongoing effects of marketplace discrimination demonstrated by the Disparity Study, by implementing race- and gender-conscious policy elements.

Regarding the legal framework (1) Race- and gender-conscious programs and policies, must meet the legal standard known as *strict scrutiny.* For which the Disparity Study provides the compelling government interest for the City to create a narrowly tailored policy to address documented discrimination within City contracting; (2) The City may establish Annual Aspirational goals and contract-by-contract subcontracting goals for minority-owned and women-owned businesses that have a documented disparity within contracting industries, based on the disparity study results; and (3) The goals will be based on the availability of MWBE firms within the relevant market area, "The Asheville Regional Area," as defined by the Disparity Study.

The Asheville Business Inclusion Office seeks to enhance competition in City contracting and promote economic growth and development in the City of Asheville by (1) increasing the City's awareness of available minority, women, and small business vendors; (2) increasing minority, women, and small business enterprises (MWSBEs) utilization in City contracting; (3) promoting existing and start-up development of small business growth and profitability in the Asheville Regional Area; and (4) monitoring, evaluating and reporting on minority and women business enterprises.

The Asheville Business Inclusion Policy seeks to remediate the ongoing effects of marketplace discrimination demonstrated by the Disparity Study, by implementing race- and gender-conscious policy elements, to include: establishing annual aspirational and contract-by-contract subcontracting goals for MWSBEs participation in City contracts; establishing standards for good faith efforts; directing the City to maintain a database of available and certified MWSBEs; defining the parameters for MWSBE Certification; defining the roles and responsibilities of key City personnel; providing guidance on other measures the City may take to promote business inclusion; and directs the City Manager to ensure the integration of the Asheville Business Inclusion Policy components into all City departments' practices and processes.

Regarding goal setting, (1) Annual Aspirational Goals: The policy directs the Goal Setting Committee to establish an aspirational goal every year for the overall participation in all City contracts by MBEs, WBEs, and SBEs, collectively referred to as "MWSBE Goals;" (2) Contract by Contract Subcontracting Goals: The policy directs the Goal Setting Committee to establish contract by contract subcontracting goals for individual contracts and directs Prime Contractors (bidders) to provide opportunity to MSWBEs; and (3) All MWSBE goals shall only be set for those categories of firms that have a documented disparity as demonstrated by the disparity study.

Regarding good faith efforts, (1) The policy set standards for adequate good faith efforts used by bidders to provide opportunity to MWSBE firms; (2) Adequate good faith efforts mean that all necessary and reasonable steps were taken to achieve the goals; (3) Not providing adequate Good Faith Efforts documentation is grounds to deem a bid unresponsive; and (4) For each unmet subcontracting goal the contractor must submit Good Faith Efforts, for example: contacting available MWBEs, breaking down work and negotiating with interested MWBEs and SBEs, and participating in pre-mid meetings.

Regarding City of Asheville certifications, (1) Minority Women Business Enterprise (MWBE) Certification (a) At least 51% of the applicant business must be owned and managed by

an eligible owner; (b) Significant Business Presence in the Asheville Regional Area; (c) Licensed and for-profit; and (d) Registered with the city as a vendor; and (2) Small Business Enterprise (SBE) Certification (a) Significant Business Presence in the Asheville Regional Area; (b) Registered with the city as a vendor; (c) Licensed and for-profit; and (d) The firm's annual sales receipts cannot exceed $250,000.

She said that the policy sets forth other proactive, elective measures to promote SBE and MWBE Opportunities to include: (1) When Permissible, remove bonding requirements for contracts less than $300,000 in value; (2) Where permissible, structure alternative bids opportunities by dividing formal (large) projects/purchases into smaller contracts; (3) Provide networking opportunities for prime contractors and MWSBE subcontractors; (4) Support bank lending to minority-owned and women-owned businesses; and (5) Allocate funding to create professional coworking spaces and business incubators to provide support for MWSBE growth.

Regarding policy implementation, from October - December, 2020, (1) Secure City funding support for ABI Office staffing, operations, training and outreach; (2) Appoint & activate Goal-Setting Committee; (3) Identify upcoming City projects and bidding opportunities; (4) Set Goals for MWSBE participation; (5) Develop internal procedures for employees to follow; (6) Host training for City staff; (7) Develop database for City MWSBE Firms; (8) Certify MWSBE Firms to ensure that we have a large enough pool to affect outcomes positively; and (9) Continue to provide workshops and training to MWSBEs via ABI Office.

On January 1, 2020, the policy will go into effect. The race- and gender-conscious elements of the "Asheville Business Inclusion Policy," will expire on November 1, 2023, unless a new disparity study has been completed.

Vice-Mayor Wisler appreciated all the hard work that has gone into this policy and suggested we share this great model with other organizations.

From advanced live call-ins, two individuals appreciated the work that went into this policy. One individual hoped that we break up the metrics of white woman businesses from black and brown owned businesses. The other individual hoped that we provide for greater support for the black and brown businesses and the LGBTQ businesses.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved to adopt and establish the City of Asheville Business Inclusion Policy. This motion was seconded by Councilman Young and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 468

C. RESOLUTION NO. 20-193 - RESOLUTION ESTABLISHING A ZERO-NET LOSS URBAN TREE CANOPY POLICY FOR THE CITY OF ASHEVILLE

Director of Development Services Ben Woody said that this is the consideration of a resolution establishing a Zero-Net Loss Urban Tree Canopy Policy.

Background:

- The resolution was drafted and proposed by the Urban Forestry Commission and recommends establishing city policy and programmatic goals to supplement the Tree Canopy Protection Ordinance.
- The resolution establishes a tree canopy coverage goal of 50% by 2040.

- The 2018 Urban Tree Canopy Study determined existing coverage to be 44.5%.
- The resolution supports the future establishment of a Comprehensive Urban Forestry Program.
- The resolution supports building strong community partnerships to achieve canopy goals, establish a forestry program, and promote urban forest stewardship.

Council Goal(s):
- A Clean and Healthy Environment
- A Well Planned and Livable Community

Committee(s):
- Urban Forestry Commission - August 17, 2020, Recommend approval; September 21, 2020, Revision adopted.

Pro(s):
- Promotes tree canopy cover which provides a number of ecosystem services, including shade, reduced erosion, and habitat diversity.
- Supports the findings of the 2018 Urban Tree Canopy Study.
- The 50% tree canopy coverage goal by 2040 aligns with Asheville Greenworks' canopy coverage goal and supports the city's existing partnership with the organization.
- Aligns with the *Living Asheville Comprehensive Plan* themes of 'A Livable Built Environment' and 'Harmony with the Natural Environment'.

Con(s):
- The city will need to partner with an outside contractor to conduct periodic urban tree canopy studies to establish measurable metrics.
- Achieving the tree canopy coverage goal requires sustained and ongoing community-based partnerships.

Fiscal Impact:
- None at this time.
- Potential future costs for establishing and staffing an Urban Forestry Program.
- It is estimated an urban forestry master plan may cost as much as $250,000, and a full-time urban forestry position is approximately $80.000 annually.
- If this occurs, it would likely be in Fiscal Year 22 or Fiscal Year 23 budget year(s).

Councilwoman Mayfield thanked staff for working on this with the Urban Forestry Commission.

Mayor Manheimer announced that there were no advanced live call-ins for this public hearing item.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to adopt a Zero-Net Loss Urban Tree Canopy Policy. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 470

D. BOARDS & COMMISSIONS

Regarding the Human Relations Commission, the following individuals applied for the vacancy: Susy Chandler, Melissa Ray, Sam Franklin, Bernie Lee Miller, Veronica Colt, Alexandra

DiSclarfani, Britni Worley, Ricky McGrath, Emma Nichole Worthy and Will Overfelt. It was the recommendation of the Commission, the consensus of the Boards & Commissions Committee, and the consensus of Council to postpone the appointments until the Commission could interview the applicants and make recommendations.

RESOLUTION NO. 20-194 - RESOLUTION APPOINTING A MEMBER TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Neighborhood Advisory Committee.

The terms of Philip Lenowitz (28804 representative), Barber Melton (28805 representative) and Cissy Dendy (at-large representative) expired on July 1, 2020.

The following individuals applied for the vacancy: Lee Arevian, Bobbette K. Mays, Diane Dankert, Greta Bush, Damita Jo Wilder and Bonnie Snyder Hanrick.

The Neighborhood Advisory Committee, and the Boards & Commissions Committee recommended appointing Diane Dankert (at-large representative) and readvertising for the 28804 and 28805 seats.

Vice-Mayor Wisler moved to appoint Diane Dankert (at-large representative) as a member of the Neighborhood Advisory Commission to serve a three-year term, term to expire July 1, 2023, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 472

RESOLUTION NO. 20-195 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Public Art & Cultural Commission.

The term of Jay Fields expired on June 30, 2020.

The following individuals applied for the vacancy: Anne Manner-Mclarty, Marsha Almodovar, Daniele Martin, Nathaniel Wyrick, Christian ODonnell, Hilary Chiz, Michael G. Waddle and D. Rae Geoffrey.

The Public Art & Cultural Commission recommended, and the Boards & Commissions Committee concurred to appoint Marsha Almodovar.

Vice-Mayor Wisler moved to appoint Marsha Almodovar as a member to the Public Art & Cultural Commission to serve a three-year term, term to expire June 30, 2023, or until her successor has been appointed. This motion was seconded by Councilman Haynes and carried unanimously by roll call vote.

RESOLUTION BOOK NO. 41 – PAGE 473

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

From advanced live call-ins, 9 individuals spoke to Council, including, but not limited to the following comments: reinstate Open Live Public Comments (without

pre-registration; continue this remote Open Live Public Comment process once City Council meetings transition back to an in-person format; guns and gang violence need to be addressed; allow speakers to yield their time to other speakers; request legal status to testify in the Crossroads Project at the Buncombe County Board of Adjustment and take a position that is good for Asheville residents; and instruct the Equity & Inclusion Department to evaluate the electoral system and how it affects our minority population.

Councilman Haynes felt it was time for the City and County to impose stricter COVID-19 guidelines, i.e., reducing hotel occupancy and further restrictions on restaurants and bars. Mayor Manheimer said that she will connect with Buncombe County to see what their recommendations are for that locally.

Closed Session

At 7:06 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(1). The statutory authorization is contained in N.C.Gen. Stat. sec. 143-318.10 (e) and 132-1.7 (a); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, the handling or settlement of a claim regarding the following: Mayfair Partners, LLC v. City of Asheville (18-CVS-4870); and Gwen Alexander v. City of Asheville (18-CVS-2331). The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:48 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:48 p.m.
